Att. Miss Stevenson

SUBJECT : Wage Rates

REF. : RXII/LA/107.025

1. Reference your letter above subject, no. LSC/811, dated 26 October 45.

2. By our series of "7", and subsequent modifications, the Milano agreement was set as the ceiling and to be applied in the absence of any other accord, provincial or regional, arrived at thru negotiation.

3. The Milano agreement was in effect at Trento, as elsewhere, but was modified to e lesser degree. This is the result of advances made by the industriali, and of propaganda emanated by our offices for the sake of keeping down, or restrained, the spiral of inflation.

4. Wage Order 48 had not yet reached Trento at the time of compilation of the minute. Hence the apparent conflict. Presently, therefore, the additional contingency indemnity for dependents is not being paid, and should be excluded from the minute.

SUBJECT : AMG Labour Organization and Relations.

TO : Brigadier Gen. J. K. DUNLOP, CBE. MC. ED
Liaison Officer, Venezia.

The attached memorandum which you left with us has been discussed with Legal sub-Commission and other authorities and the following comments are pertinent:

(a) Article 1 of A.L.L. No. 162 of 20th July 1944 provides that, upon the cessation of Allied Military Government, all Proclamations and Orders issued by AMG will cease to have effect in Italian territory formerly under AMG.
But all acts carried out by AMG in pursuance of such Proclamations and Orders will in every case have full legal validity as if accomplished by the Italian Government.

(b) The establishment of new labour organisations and relations under General Order 23 was an act which A.L.L. No. 162 specifically declares shall have full legal effect as if done by the Italian Government.

The points made in para 3 of your memorandum appear, therefore, to be already covered in law.

Notes on Labour relations for the attention of
Mr. C.H. Braine - Labour Charge at the British Embassy - ROME

By courtesy of the Regional Commissioner for Venezia Region A.M.G.
Brigadier General J.K. Dunlop - O.B.E. M.C. T.D.

1. With the handing over of the provinces of Northern Italy from Allied control to the administration of the Italian Government, all the Orders issued by A.M.G. are no longer in force.

2. Therefore also General Order n. 23, which revokes the entire fascist corporative system, will cease to be in force, Order which has given a new aspect to labour relations.

3. In consideration of the above and pending the orders of the Italian Government regulating the matter in a similar form, and in an organic, final form all labour relations, which are not yet protected by the discipline of the law, we beg to point out the necessity of keeping in force provisionally the fundamental rules in the question of labour which had been issued by the Allied Military Government in Northern Italy.

SUBJECT: Italian Labour Legislation

No	Date	To	REMARKS	From
1	5/1/46	LEGAL S/C.	May we have your advice please. Note 'A' from the Italian Labour Officer Venezie Region states that with the handing back of territory to Italian Govt administration AMG Orders no longer have force. The note implies that no authority then remains for the existence of the Labour organisation and administration created by General Order 28, and that the Fascist Corporate Syndical System no longer remains suppressed. Note 'B' gives the contrary view of another Italian Labour Officer. Can it be confirmed please: (a) that although General Order 28 lapses, all action taken in the past under that order remains valid; (b) that the position pertaining at the time General Order 28 lapses (i.e. suppression of Fascist organisations & existence of a labour organisation established by AMG) can be sustained without further legal authority and unless and until it is in fact revoked by the Italian Government.	Labour S/C.

1. All Provincial Offices of Labor, the Prefects, Provincial Commissioners, Labor Organizations, Industrial Organizations, Agriculture Organizations and Inspectors of Labor have been notified of the official closing of this office. The above mentioned organizations and persons have been fully instructed concerning the duties and functions of the Regional Labor Office at Venice and of the Economic Commission at Milano.

2. The writer met with Dr. Bertuzzi, Regional Director and fully instructed him as to his rights, duties and obligations, and complete understanding was had on all of the isuues involved in the changeover. No undue administrative entangelments are anticipated because of the past coordination which has been manifested by the various agencies which have been created to administer labor relations in this Region.

3. As of December 17, 1945 the writer is proceeding to the Labor Division at Venezia Giulia as per orders.

REF : LSC/511 10 December 1945

SUBJECT: Employment of surplus Italian Labour in Austria

TO : Regional Commissioner: Venezia Region

1. With reference to your memorandum of 8th Nov. 1945 (File No. RXII/020.13), you, and Provincial Commissioner Udine, will be interested in the attached copy of translated letter from the Italian Minister of Labour and Social Security.

2. With regard to para 2 (b) of the Minister's letter, it is not clear, at this stage, how an official request by Austria for labour would be negotiated, but we propose to take this point up with AMG Austria as soon as the Italian Government has reached its conclusions under 2 (a).

3. If the Italian Government agrees that exportation of lumber trade workers is advisable, and we then learn from AMG Austria that, from their angle, Italian workers are required, there should be little difficulty in arranging for details to be worked out on the lines of para 2(c) of the Minister's letter.

MINISTRY OF LABOUR AND SOCIAL SECURITY
Direction General of Labour
Div. IV

3 December 1945

Prot. No. 634 - IV

TO : the Allied Commission
Labour Sub-Commission
Rome

SUBJECT : Expatriation of Italian lumbermen in Austria

1. Reference is made to your letter of November 22, concerning the request made by the unemployed workers in the Friuli area, to the Provincial Commissioner for Allied Military Government, to be transferred for employment to forestal jobs and to timber enterprises in Austria.

2. We are grateful for your kind information on the matter and we draw your attention to the fact that presently and from a general point of view, any transferring of Italian workers abroad is subordinated:

a. to the internal conditions of the labour market for each category of workers and according as to whether the latter are necessary or not to the reconstruction work in our country;

b. to an official request on the part of the country wanting to employ Italian workers in some particular industry, or in special work to be carried out in its territory;

c. to the economic treatment offered to our workers, which must be governed by appropriate bilateral agreements between the two countries and by individual contracts to be made between the employers and the respective employees.

3. We have referred the case, which you have given us kindly notice of, to the Ministry of Agriculture and Forestry, in order to know his point of view on an eventual emigration of the above mentioned workers.

4. Further information on the matter will be forwarded to you as soon as possible.

SUBJECT: Reclassification of Provincial Labor Office, Udine.

TO : Regional Commissioner, Venezia
Padova

1. In October 1945 the Director of the Provincial Labor Office, Udine, submitted a request through Captain Bailey for the reclassification of his office which is at present Grade 2.

2. The Italian Minister of Labor and Social Security now informs us that he has given very full consideration to the request for re-grading, but pending a decision on the final status that will be accorded to Labor Offices when they come fully under the control of the Italian Government, he feels it inopportune at this moment to change the grading.

3. Perhaps you would communicate this decision to the Provincial Labor Officer, assuring him at the same time that his full and reasoned statement of the responsibilities and work performed at his office has been studied and that it will, therefore, be possible to re-open the request at a future date.

SUBJECT : Proposed increase for Commercial Workers of Padova Province and Surplus Workers for Northern Italy

FILE N. : RXII/LA/107.02

1. In my telegram RXII/LA/107.C2 of 13 November 45, I ..eked advice on a proposal passed by R.I.J.A.C. which in substance grants a 50% increase over the maximum allowed under the terms of the Patto di Milano, to the Commercial workers of Padova Province.

2. In telegram n. 8456 of 16 November 45 it was suggested that this office defer consideration pending the outcome of negotiations which were then in progress at Rome.

3. Constant pressure has been brought to bear on this office and continues, for a decision involving this proposed increase in the indemnity of contingency.

4. I am informed by R.I.J.A.C. that they are at present considering several other proposals which in essence are similar to the increase asked for Commercial workers.

5. Can you present this office with some clarification regarding this proposal because I am informed that unless some positive action is taken shortly, the Commercial workers will strike.

1A. The situation regarding the new decree to take the place of D.L.L. n. 523 has also taken on serious proportions.

2A. The industrialist Association of Padova has published in the newspaper that the draft decree of the Italian Government which was to replace D.L.L. n. 523 is in fact a law.

./.

Declassified E.O. 12356 Section 3.3/NND No. 185021

3A. This office after conferring with the above named Association has succeded in eliciting a promise that no action will be taken regarding this problem until there is clarification by proper authorities, which clarification should shortly be forthcoming, re: my telephone conversation with you of 20 November 1945.

4A. Is there at present authority to inform all interested parties that a new decree has in fact been agreed upon. This situation also demands expediency with the view in mind of maintaining the sound labor relations which have thus far existed in this region.

REF. : LSC/811 22 November 1945

SUBJECT : Employment of Surplus Italian Workers from Udine.

TO : The Minister of Labour and Social Security - Rome

The Provincial Commissioner for Allied Military Government in Udine has indicated that unemployed workers in that area are enquiring whether there may be prospects of transferring to employment with timber enterprises in Austria.

It is not known at this stage whether or not emigration to Austria is possible, or whether unemployment in Austria is so heavy that all available vacancies in forestry and lumbering work can be filled by local workers. On the other hand it might be possible for this Headquarters to approach the Allied Commission Austria for information on the prospects of employment in that country for Italian workers.

Before taking any action the views of your Ministry would be appreciated.

SUBJECT : Employment of Surplus Italian Labour in Austria.

FILE NO : RXII/020.13

1. Provincial Commissioner Udine has made the very interesting suggestion that employment for surplus Italian labour might be usefully employed in lumbering in Austria.

2. He points out that many of the timber enterprises in Austria were Italian owned or, in some cases, owned by firms representing both Italian and Austrian capital.

3. In view of the serious unemployment problem which exists in Udine, I strongly recommend that every possible remedy deserve careful study.

Tra i 1.500 circa operai occupati nelle varie segherie della zona Carnica, e precisamente nei comuni di Villa Santina- Comeglians-Prato Rigolato-Carnico (Udine) ecc., esiste vivo fermento per il preavviso di licenziamento dato dalla Società Carnica Lavori segheria ed affini a 35 dipendenti determinato dalla mancanza di materie prime.

Si prevede che, per solidarietà, gran parte dei sopracitati 1.500 operai faranno uno sciopero di protesta.

La causa del licenziamento è effettivamente dovuta alla mancanza di materie prime, ma questa mancanza si è verificata in seguito al prelevamento, da parte delle Autorità Alleate, di quasi tutto il tavolame giacente presso le segherie.

Ora si è anche iniziato il prelevamento dei tronchi.

Gli operai prevedono che il licenziamento annunciato sarà seguito da altri numerosi licenziamenti che, nella prossima stagione invernale, li porrebbero in una criticissima situazione economica.

L'inconveniente potrebbe essere evitato qualora le Autorità Alleate, che attualmente prelevano dalla predetta Ditta 30 metri cubi di tavolame al giorno, ne prelevassero la metà o meno, per dare modo alla Ditta stessa di continuare nei lavori di confezione di casse grezze e affini.

./.

" " " Labour "
" Undersecretary of State for the Interior "

and for information:

To : The President of the Council of Ministers-Rome
" Presidency of the Council of Ministers "

Among the about 1.500 workers occupied in the various saw-mills in the Carnica-region, and exactly in the communes of Villa Santina, Comegliano, Rigolato, Prato Carnico (Udine), etc., there is a serious unrest due to the notice of dismissal which was given by the Società Carnica Lavori segheria ed affini (Society of Carnica for saw-mill and similar works) to 35 of their dependant workers. This dismissal was determined by lack of raw materials.

It is anticipated that for reasons of solidarity, a great part of the above 1.500 workers will go on strike as sign of protest.

The cause of the dismissal derives, in fact, from the lack of raw materials, but this lack occurred as a consequence of the withdrawal by Allied Authorities of almost the whole supplies which were stored at the saw-mills.

At present they are starting also the withdrawal of the trunks.

The workers anticipate that the announced dismissal will be followed by numerous other dismissals, which in the coming winter period will put them in a very critical economic situation.

It would be possible to avoid the said inconvenience, if

At present they are starting also the withdrawal of the trunks.

The workers anticipate that the announced dismissal will be followed by numerous other dismissals, which in the coming winter period will put them in a very critical economic situation.

It would be possible to avoid the said inconvenience, if the Allied Authorities who at the time being are taking 30 cubic metres of planks per day from the above firm, would take only half that quantity or less, in order to put the firm in a position to continue manufacturing wooden boxes and similar works.

By reducing this way the quantity to be withdrawn, the firm could not only keep working the number of workers at present occupied, but could engage about 30 new ones.

ALL'UFFICIO DEL LAVORO A.M.G.

In riferimento alla circolare 21 agosto c.a. prot n. XXII/LA/107.02. ed ai successivi colloqui, si possono fare i seguenti rilievi riassuntivi.=

Premesso che per legge non sono acconsentiti nè il cumulo di indennità di carattere assistenziale con quelle di carattere previdenziale, nè di queste con emolumenti a titolo di salario, inteso questo a sensi dell'art.15 del regolamento alla Legge Infortuni 17/8/1935 nº 1765 e Legge 4/10/1935 nº 1827 sulla Previdenza Sociale, e che detti cumuli in entrambi i casi debbono considerarsi come azione colposa, poichè ciascun titolo di diritto è qualificato nel modo specifico, l'esperienza e la pratica hanno dimostrato che, assai spesso, si verificano casi lamentati.

1º)- Operai contemporaneamente disoccupati ed ammalati i quali ad un tempo percepiscono e il sussidio per la disoccupazione da parte dell'Istituto Nazionale della Previdenza Sociale ed il sussidio di malattia da parte dell'Istituto Nazionale Assistenza Malattia ai Lavoratori.
L'inconveniente non dovrebbe aver luogo dato che fra i due Istituti erogatori, anche per il loro stesso interesse, dovrebbe esservi continuamente quello scambio di reciproche notificazioni ed informazioni atte appunto ad evitare l'illegalità lamentata.= D'altra parte tale lavorio di informazioni e di notificazioni porterebbe ad un lavoro così complesso che il controllo necessario da parte degli Istituti interessati si renderebbe pressochè impossibile.=

2º)- Operai ammessi al beneficio del sussidio di disoccupazione i quali prestino la loro opera in modo continuativo o saltuario presso terzi, senza passare tramite gli Uffici di Collocamento, percependo contemporaneamente ed il salario ed il sussidio per disoccupazione.=

Gli inconvenienti lamentati, a nostro parere, potrebbero essere facilmente eliminati qualora gli Uffici di Collocamento fossero investiti del servizio di controllo, di accertamento della posizione degli interessati e quindi della erogazione dei sussidi, funzioni fino ad oggi demandate dall'Istituto Nazionale della Previdenza Sociale ai Comuni.=

Di qui la responsabilità degli Uffici di Collocamento sull'accertamento della reale posizione attuale dei lavoratori, di qui quindi la necessi=

./.

Declassified E.O. 12356 Section 3.3/NND No. 785021

Declassified E.O. 12356 Section 3.3/NND No. 185021

tà, che verrebbe maggiormente sentita nel lavoratore di iscriversi all'Uf=
ficio di Collocamento.=

In tal modo sarebbe anche maggiormente garantito il controllo, da par=
te dello Stato, di cui appunto gli Uffici di Collocamento sono emanazione
ed organi, di controllare le somme erogate.=

In tale modo poi sarebbe garantita anche l'Istituto Nazionale Assistenza
Malattia ai Lavoratori il quale pagherebbe il sussidio di malattia soltan=
to a quei lavoratori (nel caso in esame lavoratori disoccupati e contempo=
raneamente ammalati) i quali presenterebbero la carta d'iscrizione all'Uf=
ficio Collocamento, priva di quelle annotazioni che l'Ufficio stesso do=
vrebbe fare qualora avesse erogato il sussidio a titolo di disoccupazione.=

Trattandosi, come abbiamo detto, di azioni derivanti da fatto colposo,
si potrebbe stabilire delle sanzioni sia a carico dei lavoratori che xxx
xxxxxx tentino di evitare il controllo dell'Ufficio di Collocamento, e so=
pratutto a carico dei datori di lavoro che omettessero la richiesta di ma=
no d'opera all'Ufficio di Collocamento competente per territorio.=

Tali sanzioni, che potrebbero essere di natura pecuniaria, potrebbero
essere applicate a beneficio dei Enti Assistenziali.=

Ed infine ancora un'osservazione:

La elasticità di interpretazione cui si prestano le leggi sulla Previ=
denza Sociale (legge 18/8/1935)n° 1764 sugli infortuni sul lavoro nell'In=
dustria,- 23/8/1917 n° 1450 sugli infortuni in Agricoltura della Legge 4/10/
1935 n° 1827 di coordinamento della invalidità-vecchiaia - tbc ecc. - del=
le leggi sulla Assicurazione di malattia - Assegni Familiari ecc.) da par=
te degli Istituti gestori delle assicurazioni stesse, espongono i lavorato=
ri a subire danni economici, perchè portano insite delle norme che necessi=
tano di interpretazione che, non può essere lasciata all'arbitrio degli
Istituti i quali logicamente possono adottare criteri restrittivi,(esempi:
concetto d'infortunio - di malattie - di cronicità - preesistenze - con=
cetto di causa violenta - occasione di lavoro - vivenza a carico - colpa
dell'infortunato - valutazioni - concetto delle invalidità al lavoro -
lavorazioni agricole - aziende agricole - raccolto prodotti - trasformazio=
ne prodotti ecc. - criteri della invalidità pensionabile - prestazioni anti=
tubercolari - assegni familiari - qualifica di capo famiglia - ecc.).=

A nostro parere si potrebbe porre un rimedio efficace con la costituzio=
ne, presso l'Ufficio Provinciale del Lavoro, di una apposita commissione,
presieduta da un magistrato nominato dal Presidente del Tribunale, e compo=
sta dal Segretario dell'Ufficio Provinciale del Lavoro e da esperti.=

Alla Commissione, che avrà funzioni consultive, conciliative e, se il
caso lo richiede, arbitrali, dovranno essere affidati tutti i compiti, e
relativi poteri, all'uopo necessarie, che sarà opportuno formi oggetto
di particolari disposizioni legislative.=

La Commissione dovrà funzionare senza particolari norme procedurali e
potrà essere adita dall'interessato in persona o a mezzo di patrocinato=
re privato.= La Commissione giudicherà con equità, ed il suo responso sarà
inoppugnabile.=

IL DIRETTORE
(dr.de Besi Gianfranco)

CONFEDERAZIONE GENERALE DEL LAVORO DELLA TECNICA E DELLE ARTI

ROVIGO

UNIONE PROVINCIALE DI ROVIGO

Rovigo, 13.IO.1945.-

Via G. Verdi n. 25-27
Telefoni 2-24 — 3-13

Prot. N. 2466
(da citare nella risposta)
Risposta al foglio N. ..... del .....

Ufficio Assistenza e Collocamento

OGGETTO: Benefici dei lavoratori.-

AL COMANDO MILITARE ALLEATO
Ufficio del Lavoro

P A D O V A

In riscontro alla nota n°IC7.02 dell'8 corrente ci pregiamo comunicare che i dirigenti dell'Istituto Nazionale della Previdenza Sociale, dell'Istituto Nazionale Infortuni e delle Casse Mutue Malattia di Rovigo, coi quali abbiamo esaminati i sistemi che regolano la concessione ai lavoratori dei vari benefici stabiliti dalle disposizioni in vigore, ci hanno assicurato che nessun caso si è verificato in Provincia in cui un lavoratore abbia fruito indebitamente di benefici ai quali non aveva diritto.

Esponiamo pertanto qui di seguito i sistemi usati dai predetti Enti:

Istituto di Previdenza Sociale: per quanto concerne le pensioni di invalidità e vecchiaia, assegni di morte ecc., è escluso si possano verificare duplicati di concessioni in quanto le singole pratiche devono essere corredate della tessera assicurativa in corso (che è unica), mentre le precedenti sono conservate nell'archivio dell'Istituto. Gli assegni familiari dell'Industria vengono pagati direttamente dalle Ditte ai propri dipendenti, in una col salario, e in relazione alle presenze dell'operaio al lavoro. Così quelli del Commercio. Gli assegni familiari in agricoltura vengono liquidati periodicamente dall'Istituto di Previdenza Sociale, previ accurati accertamenti.

Il sussidio di disoccupazione viene corrisposto dal predetto Istituto a periodi quindicinali posticipati e previo controllo giornaliero dell'effettiva disoccupazione degli interessati i quali devono presentarsi tutti i giorni presso gli organi erogatori del Comune di residenza per l'apposizione della firma di presenza. La domanda di sussidio non può essere accolta se non è corredata, oltre che dai documenti assicurativi (tessera e libretto personale), di una dichiarazione dell'Ufficio di Collocamento competente per territorio, attestante che il lavoratore è iscritto nelle liste dei disoccupati.

Istituto Nazionale Infortuni: Gli infortuni sul lavoro dell'Industria devono essere segnalati all'Istituto Assicuratore a mezzo di speciale modello-denuncia, corredato dal primo certificato medico. Per gli infortuni sul lavoro in agricoltura il datore di lavoro deve limitarsi ad inoltrare la segnalazione, mentre è compito del medico curante di spedire all'Istituto Assicuratore

OGGETTO:

Relazione sul cumulo dei benefici ai lavoratori

ALL'UFFICIO REGIONALE DEL LAVORO A.M.G.

PADOVA

H.Q. REGION "C"
12
25734
Date Rec'd 20 OCT 1945

In risposta alla Vostra prot. n. RXII/LA/10702 del 21 agosto 1945.

In una riunione tenuta con i rappresentanti dell'Istituto di Previdenza Sociale, dell'Istituto Infortuni, dell'Istituto per l'Assistenza di malattia ai lavoratori, è stata esaminata la situazione riguardante il possibile ed incompatibile cumulo di benefici ai lavoratori dei settori industria, commercio, agricoltura.

Riconosciuto che i cumuli verificabili ed incompatibili, sono i sottoelencati, si prospettano di seguito le soluzioni più attuabili agli effetti della eliminazione degli inconvenienti lamentati.

1°) SUSSIDIO DI DISOCCUPAZIONE CON INTEGRAZIONE SALARIALE PER I LAVORATORI TEMPORANEAMENTE SOSPESI

Il caso si può verificare quando una Ditta, costretta a sospendere il lavoro, chiede l'autorizzazione all'Istituto di Previdenza Sociale a corrispondere l'integrazione salariale. Successivamente l'azienda mette il libertà i lavoratori dipendenti consegnando a ciascuno di essi il regolare certificato di licenziamento (mod. 22 DS), per mezzo del quale i lavoratori chiedono ed ottengono l'indennità di disoccupazione.

Al ricevere della relativa autorizzazione, le aziende corrispondono poi l'integrazione salariale agli operai, i quali così beneficiano di ambedue i trattamenti.

L'Istituto di Previdenza Sociale fa naturalmente un controllo che non può che essere posteriore e che costringe l'Istituto a procedere ad operazioni di ricupero difficili e laboriose.

Questo inconveniente viene eliminato in conseguenza della autorizzazione concessa recentemente alle aziende di corrispondere direttamente le integrazioni salariali.

Comunque, sarebbe efficace richiamare le aziende interessate perchè provvedano a rilasciare il certificato di licenziamento solo nei casi in cui sia venuto definitivamente a cessare il rapporto di lavoro.

./.

Declassified E.O. 12356 Section 3.3/NND No. 185021

Si prospetta, inoltre, che l'Ispettorato del Lavoro intervenendo con una assidua, continua ed efficace azione di vigilanza e di controllo fatta "in loco" potrebbe eliminare questo inconveniente.

2°) SUSSIDIO DI DISOCCUPAZIONE INVOLONTARIA PER MANCANZA DI LAVORO CON INDENNITA' DI MALATTIA.

Premesso che il R.D.L. 30 dicembre 1923 n. 3158 istitutivo della Assicurazione obbligatoria contro la disoccupazione involontaria e successive modifiche, prevede un sussidio solo nel caso di disoccupazione "involontaria per mancanza di lavoro" e che i contratti collettivi nazionali che disciplinano il trattamento mutualistico di malattia dei lavoratori, particolarmente quello degli industriali, prevedono la corresponsione di una indennità giornaliera in relazione al salario percepito, con decorrenza dal 4° giorno di malattia, è da ritenersi che il cumulo che può verificarsi non è dovuto a frode perchè l'Istituto di Previdenza Sociale e l'Istituto per l'assistenza di malattia ai lavoratori percepiscono i relativi contributi: sarebbe opportuno però disciplinare meglia la materia, affinchè non venga falsato il concetto in base al quale è stato istituito il sussidio di disoccupazione (mancanza di lavoro e non disoccupazione per malattia).

L'inconveniente del cumulo del sussidio di disoccupazione con la indennità di malattia, può verificarsi perchè il sistema di controllo della disoccupazione indenizzata (firma giornaliera, attualmente settimanale a causa delle difficoltà di comunicazioni) non è troppo efficace. Col ripristino della firma giornaliera buona parte della situazione potrebbe essere sanata.

Occorrerebbe che tra i due istituti interessati (Istituto di Previdenza Sociale e l'Istituto per l'assistenza di malattia ai lavoratori) vi fossero delle reciproche segnalazioni, che però porterebbero ai seguenti inconvenienti:

a) aggravio molto forte di lavoro data la grandissima quantità dei casi;

b) ritardo nel pagamento prima dell'effettivo scambio del controllo reciproco.

Quanto sopra porterebbe il lavoratore disoccupato od ammalato a dover attendere troppo tempo per poter riscuotere quanto realmente gli spetta con conseguenti lamentele e ripercussioni di ordine morale.

La questione non è di facile soluzione dovendo tener conto che il lavoratore disoccupato o ammalato ha il bisogno attuale ed immediato del sussidio o dell'indennità.

./.

Declassified E.O. 12356 Section 3.3/NND No. 185021

Per i casi di malattia sarebbe opportuna la collaborazione delle varie Commissioni di fabbrica, le quali dovrebbero segnalare gli abusi e ciò considerando che l'Istituto mutualistico è una emanazione creata per dare una assistenza ai lavoratori realmente ammalati e che quindi occorre tutelare il concetto mutualistico, largheggiando in caso di effettivo bisogno, ma stroncando qualsiasi abuso.

3°) SUSSIDIO DI DISOCCUPAZIONE CON INDENNITA' DI INABILITA' TEMPORANEA.

Il caso può verificarsi quando il lavoratore debba astenersi dal lavoro per infortunio e l'inabilità temporanea derivante da esso si prolunghi.

Il datore di lavoro può darsi che licenzi il lavoratore o che l'interessato si renda dimissionario: in tale occasione il datore di lavoro rilascia il certificato di licenziamento, col quale il lavoratore potrebbe far domanda per il sussidio di disoccupazione, venendo così a percepire le due assistenze.

Si renderebbe, pertanto, necessario che l'Istituto di Previdenza Sociale richiedesse obbligatoriamente che sul certificato mod. 22 DS fosse apposto il visto dell'Ufficio di Collocamento competente per territorio, a comprova della iscrizione nelle liste dei disoccupati.

E' opportuno anche esaminare la possibilità di assegnare incarichi ispettivi presso l' aziende ai funzionari degli Uffici di Collocamento, tenendo presente la circostanza che detti funzionari dovrebbero risultare dipendenti dall'Ufficio del lavoro, quindi funzionari dello Stato e non delle Associazioni di categoria, nel caso in cui la funzione di collocamento fosse devoluta alle Associazioni di categoria.

Inoltre, oggi, accade che le Associazioni sindacali dei lavoratori intervengono direttamente presso le aziende per collocare mano d'opera, nella maggior parte dei casi non iscritta nelle liste di disoccupazione presso gli uffici competenti.

In questo caso sfuggirebbe qualsiasi controllo se non si rendesse obbligatoria l'assunzione della mano d'opera solo attraverso gli Uffici di Collocamento.

4°) ASSEGNI FAMILIARI

E' questo il campo che si presta maggiormente ad abusi e ad inconvenienti numerosissimi e complessi per i quali non è possibile mettere in opera una azione generale di controllo.

Bisognerebbe che, sia da parte del lavoratore, sia da parte del datore di lavoro vi fosse una coscienza sociale più sviluppata e venisse maggiormente considerata e valutata la circostanza che gli assegni percepiti illegalmente costituiscono una frode nei confronti degli istituti.

./.

Declassified E.O. 12356 Section 3.3/NND No. 185021

Gli assegni familiari illegalmente riscossi vengono a gravere sul capitale sociale in maniera tale che, in definitiva, il danno vero e proprio non lo subisce l'Istituto di Previdenza Sociale, che è solo l'amministratore, ma gli altri lavoratori che vedono così diminuiti i fondi sociali a tale scopo devoluti e che potrebbero, eventualmente, essere una massa di valori da utilizzare per perfezionare l'istituto dell'assegno familiare.

Anche i documenti a tale scopo richiesti (atti notori o compilazione di moduli atti a dimostrare la composizione del nucleo familiare) convalidati dai sindaci, dovrebbero essere rilasciati solo quando la situazione di fatto e di diritto fosse bene vagliata in modo da evitare che si possa giungere a quei paradossi che purtroppo si verificano attualmente con troppa frequenza.

5°) ALTRI CASI DI CUMULI DI BENEFICI DA PARTE DEI LAVORATORI SI POSSONO verificare se interviene una forma di connivenza tra datore di lavoro e lavoratore (esempio: Assicurazione Tubercolosi: può accadere che un assistito in cura ambulatoria, mentre gode dell'indennità temporanea, si rioccupi, continuando a percepire l'indennità. In questo caso, che presuppone l'intenzione fraudolenta del beneficiario, è necessaria la connivenza del datore di lavoro, dato che il lavoratore non è in grado di esibirgli i propri documenti assicurativi).

Anche in questi casi una profonda azione di controllo da parte dell'Ispettorato del lavoro riuscirebbe efficace.

Spesso il godimento di trattamenti abbinati sono il frutto della ignoranza del lavoratore il quale, nella congerie delle forme di previdenza o assistenza, ben poco ci capisce ma tende a realizzare il maggior vantaggio economico.

Ecco perchè sarebbe da augurarsi che tutta questa materia venisse semplificata nella maniera che l'esperienza meglio suggerisce e cioè unificazione degli istituti assistenziali per i lavoratori, nel senso che tutte le prestazioni dovrebbero risultare emanazioni di un unico organo erogatore di assistenza, da quella per le donne in stato di gravidanza a quella per invalidità e vecchiaia comprendendo anche le infortunistiche.

Gli inconvenienti lamentati nel settore industria sono quasi del tutto eliminati nel settore commercio ed agricoltura, essendo le diverse prestazioni unificate in singoli istituti: solo nel campo degli assegni familiari si operano gli stessi abusi.

CONCLUDENDO si può affermare che quando tutte le forme di controllo normali (Ispettorato del Lavoro, firma giornaliera per i disoccupati, Uffici di Collocamento in piena attività) avranno ripreso la loro azione efficace, gran parte degli inconvenienti oggi lamentati

./.

Declassified E.O. 12356 Section 3.3/NND No. 185021

saranno eliminati e per quelli che ancora si verificheranno, si potranno prendere quei provvedimenti che anche nel corso di questa relazione sono stati esposti.

Le funzioni ispettive prospettate nei capitoli sopracitati potrebbero essere assunte anche dall'Ufficio Provinciale del Lavoro, previo un congruo aumento di personale addetto al coordinamento ed alla sorveglianza.

25 Oct.1945.

TEL : 439031 - 204

REF : LSC/311

SUBJECT : Wage Adjustment Labour Office Employees.

TO : Regional Commissioner, Venezia Region (attention: Capt.Giammarco)

1. Reference is made to your memorandum RMI/LA/106.06 of 16th October 1945.

2. It is Assumed that the employees concerned have received the various increases in salary which were granted by virtue of the implementation of decrees 19-B, 93 and 116.

3. The action prescribed under Art.2 of LL 31 August 1945 - Nº 571 can only be put into operation when the territory has been returned to the administration of the Italian Government.

4. It follows therefore that the present salary scales should continue to operate.

MINISTRY OF LABOUR AND SOCIAL SECURITY

Rome, 21 October 1945

Prot.1661 - 90 G

TO : The ALLIED COMMISSION
Labour Sub-Commission

SUBJECT : Withdrawal of wood from the province of Udine

According to news that this Ministry has received, a great excitement is going on among a mass of about 1.500 workers in the employ of the different saw-mills of the Carnican region (Udine), and precisely in the communes of Villa Santina - Coneglieno - Rigolato - Prato Carnico, etc, as a consequence of a dismissal notice that the employing Company (Società Carnica Lavori Segherie e Affini) has served to 35 of its own employees for lack of raw materials.

Passed to Labour Sub-Commission 5/11/45

It is foreseen that the greatest part of the members of the Company' personnel will go out on strike as a protest.

As to the cause of the dismissal it seems to be really due to a lack of raw materials, that has taken place after the Allied Authorities have withdrawn almost all the sawn lumber laying in the sawmills.

It seems as now even a withdrawal of the stocks has been started.

The workers are afraid that the announced dismissal will be followed even by numerous new dismissals, and that = on account of this = they may find themselves during the next winter in a very critical economic situation.

The inconvenience in question might be avoided if the Allied Authorities, who are actually withdrawing from the above mentioned "Società Carnica Lavori Segherie e Affini" 30 cubi m. of sawn lumber per day, should withdraw only 15 cubi m. at the most , with the object of enabling the same Firm to go on with the manufacturing of boxes and like.

426

Owing to such a reduction of the withdrawal of lumber, not only the Firm would be enabled to maintain

Declassified E.O. 12356 Section 3.3/NND No. 785021

employed all the workers actually in its employ, but also to engage a number of 50 more employees.

Therefore, in connection with the situation as above stated, we should be highly gratified if this Allied Commission would consider with benevolence the possibility of doing away with the described inconveniences, by abating the request of lumber to the limits as above set forth by us.

In any way, we will highly appreciate to receive a word of reply on the matter.

THE MINISTER
Barbaroschi

HEADQUARTERS
VENEZIE REGION
Allied Military Government
APO 394

TO : HQ A.C. (Labor Sub-Commission) 15 October '45

SUBJECT : Appointment of Regional Director of Labor

FILE NO : RXII/LA/106.04

1. Reference your letter above subject, ref. no. LSC/811, dated 6/Oct. For a clear and correct conception of the matter, copies of the documents relating to the subject are enclosed, with comments.

2. Per enclosure II, appointment of Dr. Bertuzzi was made as permanent as that of Dr. Mauro's, enclosure I, copy of latter being in your office. Hence it was not possible to accede to request of your wire 6483, enclosure no. VI.

3. For reasons cited in paragraph 1 (b) of "Report for Month of September", RXII/LA/102.02, dated 4/OCT/45, permission was obtained from the Regional Commissioner to request Dr. Mauro to resign from his office, or, in the absence of which acquiescence, that he be dismissed. On Sept. 26 the writer spoke with Dr. Mauro in the Regional Labor Office (civ) in Venice and requested he submit his resignation for the good of the office, and that HQ AMG Venezie Region desired as much. Dr. Mauro was contrary and thereupon originals of enclosures III and IV were exhibited, offering him the choice. Dr. Mauro chose the dismissal. It was purposefully pointed out to Dr. Mauro that the opportunity of resigning was offered him to "Save Face" since he was a functionary of the Ministry prior to his advent to Venice and it was not intended to besmirch or affect his carrer. When it was requested that Dr. Bertuzzi, then the secretary, be called and informed of Dr. Mauro's dismissal and to take over the administration of the office pending the appointment of a new Director, Dr. Mauro paused and said he would send his resignation from Rome. Enclosure V was the result. For all purposes and intents, and it was expressly agreed to at the time, Dr. Mauro had resigned and we had only to await the formality of receipt of his resignation. As stated above, this was done for his saving face, and on the basis of a gentlemen's agreement.

Declassified E.O. 12356 Section 3.3/NND No. 185021

4. On Saturday September 29, Dr. Bertuzzi was appointed. Subsequently, your wire 6483 arrived on October 4. The latter implies that Dr. Mauro was no longer the Director, otherwise why mention "Nomination of permanent Director"?

5. The contents of paragraph two of your letter of the 6th is news to us. At no time did Dr. Mauro advise that he was recalled by the Ministry for consultation. Dr. Mauro had requested permission to go to Rome for three or four days for business about a week prior to Sept. 26, but the prospects of his removal made us keep him here. The facts as above stated clearly indicate that Dr. Mauro did NOT give an explanation along these lines, and that he DID resign his appointment.

6. The facts as stated by Dr. Mauro are untrue, confirm our opinion of him, and give added weight to our decision. If he choses not to live up to his agreement then there is nothing to say but that he has been discharged - and with prejudice because of his failure to live up to the gentlemen's agreement. It is requested this be brought to the attention of the Minister.

Prot.n. Ris. Venezia 26 Settembre 45

Al Captain GIAMMARCO - Ufficiale
Regionale Alleato del Lavoro - AMG
PADOVA

OGGETTO : Comunicazione viaggio di servizio a Roma

Con la presente mi pregio render noto all S.V. che in uno dei prossimi giorni mi recherò a Roma per motivi di servizio e che una volta colà, esaminerò con tutta probabilità l'opportunità di rimanere al Ministero lasciando la direzione dell'Ufficio Regionale del Lavoro per le Venezie. A tale riguardo mi riservo di scriverLe direttamente da Roma per farLe conoscere in termini più precisi tale mia decisione.

Nel frattempo, come durante le mie precedenti assenze da Venezia, la direzione dell'Ufficio rimarrà affidata al Segretario Generale Dott. Bertuzzi.

Con l'occasione Le invio molti cordiali saluti.

(dott. Luigi Mauro)

SUBJECT: Unemployed Young People (Your Ref: AAI/La/126.OB)

TO : XXXXXXXX X. X. XXXXXXX
Regional Labor Officer
Venezia Region

1. In response to your letter of 6 August reference the above subject, a letter was directed to the Ministry of Labor and Social Security on 10 August suggesting that among other things some plans be developed to extend vocational training to the young people of Italy in the age group of 17 to 21 years, in order that they might acquire skills and trades which would fit them for useful work.

2. Attached, for your information, is a translation of the reply received today from Sig. Simeoni of the Ministry indicating that, at least, some thought is being given the matter by the Italian Government.

DAVID C. SACKS
Deputy Director
Labor Sub-Commission

MINISTRY OF LABOUR AND SOCIAL SECURITY

LSC/1002
211

SUBJECT: Juvenile unemployment

TO : Labour Sub-Commission
Rome

We thank the Labour Sub-Commission wormly for the courteous and valid interest in solving the problem concerning the professional training of juvenile workers.

The social phenomenon of the unemployment of young workers between 17 and 21 years of age is being studied particularly by the writer in collaboration with the appropriate State and Syndical organs which have formerly taken up the matter of the employment and training of manpower on a general basis.

It is therefore hoped that the question of juvenile unemployment finds its adequate solution. Your suggestions on the matter will always be welcome.

FOR THE MINISTER
Simeoni

da trasmettere alla SOTTOCOMMISSIONE DEL LAVORO AC

CAMERA DI COMMERCIO INDUSTRIA E AGRICOLTURA - V E N E Z I A -

Situazione dell'industria in Provincia di Venezia

PREMESSA -

La provincia di Venezia ha il suo centro industriale nella zona di Marghera, che è una delle più importanti e modernamente attrezzate di Italia.

Costruita durante la guerra 1915-18 e rapidamente sviluppatasi con oltre 30 grandi stabilimenti, che rappresentano tutti i principali rami: metallurgico - meccanico - chimico - alimentazione - ecc.

Prima del conflitto attuale, vi trovavano occupazione un migliaio di impiegati e circa 17 mila operai.

Attività industriali di notevole importanza esistono inoltre in Venezia città, nelle isole e in altri centri della Provincia.

In questa nota rileveremo l'attuale situazione dell'industria esaminando i più importanti stabilimenti della provincia cominciando da quelli di Marghera.

ZONA DI MARGHERA

1° - Industrie siderurgiche e metallurgiche

I principali stabilimenti sono:

- "I.L.V.A." Alti forni e Acciaierie d'Italia
- Montevecchio - ecc. Livellano del piombo e delle zinco -
- I.N.A. Industria Nazionale Alluminio
- S.A.V.A. Società Alluminio Veneta Anonima
- L.L.L. Lavorazione Leghe Leggere
- Soc. Adriatica di Elettricità Azienda Industriale S.Marco

- "I.L.V.A." - è dotata dei seguenti reparti:

a) - Reparto acciaierie: per la produzione dei getti d'acciaio, come ancore, alberi, tuttavia di motori, ruote, parti di macchine agricole, etc. I getti di minor destinati ad altre officine meccaniche vengono sgrossati (prima lavora-

./.

zione) nella propria officina meccanica. La capacità produttive dei lingotti d'acciaio da laminare si aggira su 1000/1.500 tonn. mese

Il reparto acciaieria e quello meccanico occupavano circa 600 operai ora ridotti ad un terzo.

La produzione è ridotta a 1/10 per mancanza di materie

b) - <u>reparto costruzioni metalliche di carpenteria</u>: come ponti, tettoie, serbatoi, apparecchi di sollevamento, ecc. capacità di produzione mensile tonn. 2.000

c) - <u>reparto laminatoi</u> - è il primo delle Tre Venezie dell'Emilia e della costa dell'Adriatico.

Produce laminatoi angolari (I), travi (I), travi (U), tondi, piatti, ecc.

La produzione potenziale è di oltre 60.000 tonn./anno Gli operai occupati erano 500, ridotti a circa 1/3.

Attualmente lo stabilimento occupa 896 operai e 104 impiegati contro 1500 e 120 di prima della guerra.

La produzione è oggi la seguente:

- getti d'acciaio 16%
- lingotti 6%
- Laminati a caldo 5%
- Lavori vari di carpenteria/metallica 5%

I danni di guerra sono stati quasi completamente riparati; tutti i macchinari sono in efficienza, ad eccezione del gruppo motore del treno di laminazione 330 attualmente in riparazione.

Lo stabilimento è in grado pertanto di riprendere a pieno ritmo il normale ritmo di produzione qualora sia rifornito delle materie prime e del materiale occorrente, tra cui in primo luogo:

- carbone - nafta - ghisa - rottami ferro acciaio - calcare - ferro leghe - lingotti - refrattari ecc.

<u>"MONTEVECCHIO"- Soc. Italiana Piombo e zinco-</u>

E' uno stabilimento della metallurgia pesante non ferrosa.

La produzione normale mensile è:

- acido solforico	tonn.	1.800
- zinco elettrolitico	"	1.100
- zinco iperpuro	"	150
- lega zama	"	180
- cadmio	"	6
- [illegible]	"	20

3394

Declassified E.O. 12356 Section 3.3/NND No. 785021

lis e della costa dell'Adriatico.

Produce laminatoi angolari (I), travi (I), travi (U), tondi, piatti, ecc.

La produzione potenziale è di oltre 60.000 tonn./anno Gli operai occupati erano 600, ridotti a circa 1/3.

Attualmente lo stabilimento occupa 896 operai e 104 impiegati contro 1600 e 120 di prima della guerra.

La produzione è oggi la seguente:

- getti d'acciaio 10%
- lingotti 5%
- laminati a caldo 5%
- lavori vari di carpenteria/metallica 5%

I danni di guerra sono stati quasi completamente riparati; tutti i macchinari sono in efficienza, ad eccezione del gruppo motore del treno di laminazione 330 attualmente in riparazione.

Lo stabilimento è in grado pertanto di riprendere con lleciitamente il normale ritmo di produzione qualora sia rifornito delle materie prime e del materiale occorrente, tra cui in primo luogo:

- carbone - nafta - ghisa - rottami ferro acciaio - calcare - ferro leghe - lingotti - refrattari ecc.

"MONTEVECCHIO"- Soc. Italiana Piombo e zinco-

E' uno stabilimento della metallurgia pesante non ferrosa.

La produzione normale mensile è:

- acido solforico	tonn.	1.800
- zinco elettrolitico	"	1.100
- zinco iperpuro	"	180
- lega zama	"	180
- cadmio	"	6
- rame elettrolitico	"	20
- laminati di zinco e sottoprodotti	"	150/300

La produzione è ora ridotta al 0,2%.

Gli operai occupati normalmente, prima della guerra erano

./.

3394

Declassified E.O. 12356 Section 3.3/NND No. 785021

Declassified E.O. 12356 Section 3.3/NND No. 185021

700, attualmente sono 350.

La percentuale dei fabbricati danneggiati rispetto all'insieme dei capannoni come superficie coperta, si aggira sul 25%, ma è stato colpito il fabbricato più importante, e cioè la cabina elettrica, che è andata completamente distrutta, causando la fermata di tutti i reparti. Altro fabbricato importante compito è il laminatoio.

La società tuttavia ha iniziato subito la ricostruzione della cabina e del laminatoio e la riparazione degli altri danni. Si prevede che fra tre mesi, cioè in settembre i lavori saranno ultimati.

E' necessario però che lo stabilimento venga nel contempo rifornito di materie prime:

- carbone - nafta e minerali.

Le giacenze presso lo stabilimento si riducono a quantitativi minimi di qualche minerale soltanto.

"I.M.A." - Industria Nazionale Alluminio -

Lo stabilimento produce l'alluminio estraendolo dalla bauxite nonchè ghisa al forno elettrico.

La sua capacità produttiva normale è:

- ossido di alluminio (allumina)	6000	tonn. mese
- ghisa al forno elettrico	2500	" "
- sali di vanadio in V_2O_5	3	" "

- Un solo edificio è stato danneggiato dalla guerra, l'impianto è intatto.

Per la ripresa mancano le materie prime:

- carbone a fiamma lunga - 9.000 tonn. al mese - coke - nafta - bauxite - (Istria - Cardano) - cenere di piriti - carbonato di calcio ecc.

Per iniziare la regolare produzione occorrono prima di tutto i combustibili; dopo l'arrivo di questi lo stabilimento può riprendere la sua attività in dieci giorni.

Gli operai occupati normalmente erano oltre 1000; oggi sono 730.

"S.A.V.A." Società Alluminio Veneta Anonima -

Lo stabilimento è composto di due reparti: allumina e alluminio.

Il reparto allumina produce l'allumina dalla bauxite istriana.

Gli operai occupati prima della guerra erano 910 attualmente sono 250. Il reparto però non lavora per mancanza di materie prime:

./.

Declassified E.O. 12356 Section 3.3/NND No. 185021

- carbone nafta e bauxite.

I danni di guerra agli edifici sono nella misura del 5%; agli impianti del 3%. Il macchinario per la ripresa della produzione (50% della potenzialità della fabbrica è in efficienza)

Ammesso che la bauxite da trattare sia di qualità normale ante guerra, la produzione mensile dopo effettuate le riparazioni è di 4.000 tonn contro le 6.000 della produzione normale.

11 Reparto alluminio, utilizzando l'allumina prodotta dal reparto allumina, produce nei forni elettrici alluminio puro e sue leghe in qualsiasi formato per fonderia, pressa, laminatoi e trafila, nonchè in polvere. La potenzialità annua era di 20.000 tonn.; gli operai occupati erano 2.000; oggi sono 150 ed il reparto non lavora.

Gli edifici danneggiati rappresentano il 40%, gli impianti il 75%.

Per iniziare entro due mesi una produzione di 240 tonn. mensili di alluminio e sue leghe, per portarle poi entro altri tre mesi a 420 tonn. ed entro ulteriori 3 mesi a 600 tonn. (produzione quest'ultima normale); occorre provvedere ad un minimo di riparazioni; e cioè ricostruzione dei fabbricati, rientro o rimontaggio dei macchinari decentrati fuori zona, revisione e riparazione forni, rete ferroviaria, strade, ecc.

L'energia elettrica di cui si serve lo stabilimento viene fornita alla S.A.V.A. della consociata società Soc. Idroelettrica Cismon (S.I.C.) integrata in caso di bisogno, da quella della soc. Adriatica di elettricità - S.A.D.E.

La "S.I.C." possiede delle centrali idroelettriche, la cui produzione nel 1942 fu di 152 milioni di Kwh e nel 1943, 116 milioni. Momentaneamente esso non produce energia, benchè sia in piena efficienza essendo fermo lo stabilimento della S.A.V.A. suo unico utente.

La capacità di produzione della S.I.C. è di 150/200 milioni di Kwh annue.

La S.A.V.A. è una fabbrica di proprietà svizzera e fa parte del gruppo "Alluminium Industrie A.G. - Chippe Neuhausen - Svizzera"

"I.L.L."- Lavorazione Leghe leggere -

Lo stabilimento produce semi lavorati di alluminio e sue leghe, lamiere, profilati, tubi fini e cavi elettrici.

La capacità di produzione mensile normale è di:

- lamiere ..... tonn. 180
- barre ..... " 170

./.

Declassified E.O. 12356 Section 3.3/NND No. 785021

- profilati	tonn.	120
- tubi	"	30
- filo e corda	"	250
T o t a l e	tonn.	790

La fonderia può fornire 450 tonn. al mese di placche e lingotti.

I danni di guerre agli edifici sono del 14,3%, agli impianti del 5,9=%.

La società ha provveduto alle riparazioni necessarie per l'immediata ripresa; lo stabilimento è pertanto in efficienza, ad eccezione del laminatoio a nastro.

Per la ripresa occorrono:

l'alluminio e le sue leghe che possono venire forniti dalla S.A.V.A; Marghera, e dall'I.M.A. di Mori (Trento) e dall'I.M.A. di Bolzano, il magnesio dallo stabilimento di magnesio di Bolzano, il rame, il silicio, manganese, da fonti varie, essendo metalli consorziati.

Data l'esistenza di scorte di materie prime a Mori e a Bolzano, lo stabilimento potrebbe riprendere la sua produzione; sufficiente è l'energia elettrica per il ricevimento della quale linee ed impianti sono in efficienza. Gli operai normalmente occupati in anteguerra erano 1.100, oggi sono 65.

Lo stabilimento di Marghera appartiene per metà alla S.A.V.A. e per metà alla Montecatini. Analogo stabilimento si trova a Ferrara, ma danneggiato, ed altro di potenzialità pari alla metà si trova a Feltre ed appartiene alla metallurgica feltrina.

Detti stabilimenti, e cioè di Marghera, Ferrara e Feltre, costituiscono la quasi totalità delle produzione italiana.

SOCIETA' ADRIATICA DI ELETTRICITA' - Azienda Industriale "S.Marco"

L'Azienda industriale "S.Marco" fa parte della società Adriatica di elettricità ed utilizza i auperi di energia elettrica stagionale delle centrali idroelettriche della consorella azienda idroelettrica.

Il periodo produttivo è quindi della durata di sei sette mesi all'anno, generalmente da aprile a novembre. Lo stabilimento produce carburo di calcio e leghe metalliche. La potenzialità annua era, prima dei danneggiamenti di circa 26.000 tonn.

I bombardamenti aerei hanno inflitto notevoli danni ai fabbricati (30%) e agli impianti (1%).

In particolare risulta completamente demolito il forno trifase da 7.620 Kva addibito alla produzione del ferro silicio.

Il tempo necessario per l'esecuzione dei lavori di riparazione è:

- per il reparto carburo ..... 2/3 mesi
- " " " ferro leghe ..... 12/16 mesi

E' necessario inoltre il rifornimento delle materie prime occorrenti e cioè: carbone - carbocoke, quarzo, rottami ferrosi -

Declassified E.O. 12356 Section 3.3/NND No. 185021

elettrodi amorfi, pasta elettrodica e lamierini per fusti. Attualmente gli operai occupati sono 296 contro 660 del periodo anteguerra.

Stabilimenti minori sono:
- Fonderia di Marghera
- ditta Angelo Bottacin
- ditta Baldo Giovanni e Figli - Industria ricupero Metalli.

FONDERIA DI MARGHERA - soc. p. az. -

Lo stabilimento effettua i seguenti tipi di produzione: -

a) - fonderia in ghisa, bronzo, alluminio e metalli in genere; leghe comuni e speciali.
b) - lavori di grossa e piccola torneria.
c) - carpenteria in ferro; per costruzioni varie, lavori di fucinatura e stampaggio, saldature elettriche ed ossiacetileniche.
d) - falegnameria: modelli per fonderia e costruzioni in genere;
e) - costruzioni oleodotti, curvature e stagnature tubi di ferro ed oper accessorie.

Gli operai occupati normalmente, prima della guerra erano 326, oggi sono 14.

Al presente la fabbrica non lavora per mancanza di materie prime.

I danni agli edifici sono nella misura del 10%, quelli agli impianti del 5%.

Il tempo necessario per le riparazioni si prevede di un mese.

Lo stabilimento, senza portare alcun cambiamento, può lavorare per i bisogni della popolazione civile, producendo fusioni di ghisa e leghe varie, costruzione di serramenti e tutti i lavori meccanici e fabbrili accessori all'industria edile e stradale.

- DITTA ANGELO BOTTACIN - Soc. in Acc. semplice -

Lo stabilimento in Marghera della ditta "Angelo Bottacin" ha una produzione normale mensile di:

- filo di ferro lucido, cotto nero, zincato, tonn.	170.-
- punte di Parigi (punterie)	60.-
- graffa	10.-
- bele	2.-
- tele letto	3.-
- filo spinoso	20.-

Lo stabilimento ha subito alcuni danni agli edifici e agli impianti ma è già in piena efficienza. Per lavorare gli necessita carbone e materie prime.

./.

Declassified E.O. 12356 Section 3.3/NND No. 785021

Attualmente la produzione è ridotta al 15%; gli operai occupati sono 42, contro 60 del periodo anteguerra.

"DITTA PAOLO GIOVANNI & FIGLI INDUSTRIA RECUPERO METALLI"

La produzione normale mensile è:

- lingotti di ottone e di getti	tonn.	250
- forgiati per	"	10
- trafilati per	"	25
- pezzetti da fusione e leghe saldanti	"	10

Dopo la riparazione agli edifici (sinistrati nella misura del 25%) e agli impianti(danneggiati del 5%) la produzione mensile potrà essere rispettivamente di 75, 3, 7 e 3 tonn. al mese. Attualmente gli operai impiegati sono 48 contro 75 del periodo anteguerra.

Il materiale occorrente alla produzione viene fornito dai mercati dall'Alta Italia e il lavoro potrà riprendere appena saranno possibili i rifornimenti.

2 - Industrie meccaniche e navali

Nella zona di Marghera si ha solo il sottonotato stabilimento navale:
- Soc. Italiana Ernesto Breda
oltre ai reparti meccanici già precedentemente esaminati dall'ILVA e dalla Ditta A.Bottacin.

SOC. ITALIANA ERNESTO BREDA

Lo stabilimento provvede alle costruzioni di navi, alle riparazioni navali, ai lavori di carpenteria metalliche (ponti, tettoie, gru, etc.) ad impianti industriali (raffinerie di olii minerali e combustibili) e alla demolizione di navi.

La produzione normale si aggira su 30/35 tonn. di ferro al giorno e contraggio in corrispondenza.
Gli operai normalmente occupati prima della guerra erano 2.600 e 280 impiegati; oggi gli operai sono 1.310 che lavorano principalmente alla riparazione dei danni di guerra in attesa di riprendere il lavoro di costruzioni navali.

I danni sono del 20% agli edifici e 15% agli impianti.
Il tempo occorrente alla riparazione è previsto in 4 mesi.
Per la ripresa del lavoro del cantiere il bisogno più urgente è quello di qualche mezzo di trasporto proprio (autocarro) per ritirare i materiali di allestimento in Lombardia in Trieste etc. e del legname nel Trentino.

./.

Declassified E.O. 12356 Section 3.3/NND No. 185021

3° - Industrie Chimiche

Esse sono:

- "Montecatini" Soc. Generale per l'industria mineraria agricola
- " Vetrocoke" Sezione azotati e sezione vetrocoke.
- "A.G.I.P." Azienda Generale Italiana Petroli
- A.U.R.C.O.R.A. -

- " MONTECATINI " -

La produzione normale dello stabilimento è:

- acido solforico	tonn.	mese	4.800
- superfosfato	"	"	8.300
- criolite sintetica	"	"	135
- acido cloridrico commerciale	"	"	120
- sodio solfato anidro	"	"	90
- cemento rame al 70% di Cu	"	"	100
- sodio solfato neve	"	"	700
- sodio, solfato anidro tecnicamente fine per tubature	"	"	170
- floruro d'alluminio	"	"	10
- floruro di sodio	"	"	5

Le produzioni sopraindicate sono realizzabili fra 4 mesi, qualora siano tempestivamente riforniti i materiali per la messa in efficienza degli impianti (che sono stati danneggiati nella misura del 15%) e degli edifici (danneggiati per il 20%)

Per le dette produzioni occorrono le materie prime e cioè, oltre al carbone alta Blenia, il coke, alla lignite, le piriti (tonn/mese 1.200) nonchè acidi veri, carbonato sodio, soda caustica ecc.

Dei 1.200 operai del periodo anteguerra, lo stabilimento ha ora solo 242 operai.

3388

S.A. "VETROCOKE"

La sezione azotati ha una produzione normale di:

- ammoniaca	tonn/mese	100
- nitrato di calcio	"	200
- solfato ammonico	"	200
- ossigeno	mc/ mese	90000

Gli edifici sono stati danneggiati per il 30% e gli impianti del 16% per un complesso di Lire 60.000.000.-

Per riprendere la produzione occorre ultimare le riparazioni già in corso e poi il rifornimento di materie prime: coke, piriti (della Maremma Toscana e da Agordo) e calcare (da Federobba Fen

Declassified E.O. 12356 Section 3.3/NND No. 185021

Dei 1.000 operai occupati prima della guerra, oggi ve ne sono soltanto 136, adibiti tutti ai lavori di ricostruzione per i quali si provede un minimo di alcuni mesi.

La sezione vetro coke è stata maggiormente danneggiata.

Il grande impianto per la produzione di lastre di vetro (circa 20.000 mc. di lastre al giorno), che era sufficiente a coprire oltre la metà del normale fabbisogno italiano, può essere riparato in modo provvisorio per settembre, qualora siano dati i materiali occorrenti.

Lo stabilimento potrebbe riprendere la sua attività con un solo forno, e produrre 10/12.000 mq. di lastre al giorno.

La lavorazione di vetri viene compiuta utilizzando il gas derivante dalla distillazione del carbone, compiuta nello stesso stabilimento, gas che viene inoltre fornito alle altre industrie di Marghera nonchè per uso domestico alla popolazione di Venezia e Mestre.

La mancanza di carbone oltre ai danni suddetti, ha reso inattivo lo stabilimento in parola. Si spera però fra qualche mese la sua ripresa.

A.G.I.P. - Raffineria Olii Minerali

La produzione normale mensile era di:

- benzina	conn.	9.000
- petrolio	"	2.000
- gasolio	"	5.000
- olio per motori	"	1.000
- Olio combustibile	"	8.000

I danni subiti agli edifici per 40% e agli impianti per il 70% rendono per un periodo piuttosto lungo inoperoso lo stabilimento , che viene ora usato come deposito.

Gli operai da 320 del periodo normale sono ora 230, adibiti ai lavori di riparazione.

A.U.R.O.R.A. Azienda Utilizzazione Rigenerazione Olii recuperi Affini

L'attività della ditta riflette la raffinazione e la rigenerazione di lubrificanti esausti, con una lavorazione di 10 tonn. circa al giorno. I danni sono stati notevoli agli edifici, ma il funzionamento produttivo dello stabilimento non ha subito che un danno relativo.

4° - Industrie Alimentari -

Esse sono:

Riseria Italiana S.A. Marghera
Chiari & Forti S.A. Industria Molini Marghera
S.p.A. Malteria Adriatica - Porto Marghera.

./.

RISIERA ITALIANA S.A.

Il Reparto Pilatura Riso riguarda la produzione del riso e sottoprodotti.

La massima capacità di produzione mensile è di q.li 30.000 di risone (materia prima).

Attualmente la produzione è zero, per mancanza di risone. I danni avuti ai fabbricati, 30% e ai macchinari, 20%, sono facilmente riparabili, qualora vengano forniti i materiali da ricostruzione.

La produzione potrebbe riprendere in 3/4 giorni
Gli operai occupati sono 20, contro 70 del periodo normale.

Il Reparto Oleificio produce olii alimentari e industriali lavorando semi oleosi. La massima capacità di produzione è di q.li 15.000 di semi.

Attualmente la produzione si aggira sul lavoro di q.li 1.500 mensili di semi oleosi.

I danni subiti da tale reparto sono stati lievi: 7% ai fabbricati e 1% ai macchinari.

La produzione può riprendere immediatamente qualora ci siano i semi oleosi, benzina solvente, carbone e prodotti industriali, chimici per la lavorazione.

Gli operai oggi sono 35, contro 100 del periodo normale.

CHIARI & FORTI S.A.

Lo stabilimento ha una capacità produttiva di q.li 50.000 di farina al mese e di q.li 10.000 di cruscame al mese.

I danni arrecati alla fabbrica non sono stati gravi, anche perchè la ditta ha provveduto al decentramento dei macchinari.

Si ritiene che per il mese di luglio lo stabilimento sia in grado di riprendere la produzione massima.

Attualmente gli operai addetti sono 76, contro 120 del periodo anteguerra.

S.p.A. MALTERIA ADRIATICA

3356

L'attività dello stabilimento riguarda la pilatura dell'orzo per la produzione di malto per birra.

Declassified E.O. 12356 Section 3.3/NND No. 785021

S.P.A. MALTERIA ADRIATICA

L'attività dello stabilimento riguarda la pilatura dell'orzo per la produzione di malto per birra.

Lo stabilimento è il più grande e moderno costruito in Italia ed attualmente, ad eccezione di alcuni piccoli impianti annessi a fabbriche di birra, è l'unico che, essendo approvvigionato di combustibile, può immediatamente riprendere la produzione indispensabile all'efficienza di tutte le fabbriche di birra dell'Italia.

./.

3366

Declassified E.O. 12356 Section 3.3/NND No. 785021

I danni sono stati lievi ed hanno colpito solo gi edifici nella misura del 5%.

Lo stabilimento ha una capacità mensile di q.li 5500 di orzo, con una produzione di q.li 4.250 di malto.

L'approvvigionamento dell'orzo viene fatto sia dai paesi europei (Cecoslovacchia, Ungheria, Romania, Polonia) che dall'Argentina.

Gli operai occupati nel periodo normale sono 42 e 10 impiegati, oggi essi sono rispettivamente 15 e 7.

5° - Altre industrie

Altre importanti industrie di Marghera sono:

- Società Italiana Refrattari Marghera Anonima -S.I.R.M.A. -

S.I.R.M.A. Società Italiana Refrattari - Marghera Anonima -

Lo stabilimento produce refrattari silicosi, silicei, magnesiaci, e cromomagnesiaci in formato normale e sagomato.

La potenzialità annua era di tonn. 12.000.

La fabbrica ha subito notevoli danni nella misura del 90% in via di riparazione.

Gli operai occupati normalmente erano 352, ora sono ridotti a 106.

Lo stabilimento è ora fermo per mancanza di carbone.

303

SOC.AN. LAVORAZIONE CASCAMI

Lo stabilimento produce filati unici greggi, per chilogrammi 20.000 al mese, in attività normale.

La materia prima sono i cascami forniti dai cotonifici.

I fabbricati dello stabilimento sono stati quasi interamente riparati, per quanto riguarda gli impianti questi stanno per essere rimontati, in quanto erano stati decentrati. E' necessaria però qualche riparazione ai macchinari che nel trasporto hanno subito danni.

Per il montaggio e la messa in piena efficienza occorrono

./.

Declassified E.O. 12356 Section 3.3/NND No. 785021

due mesi.

Gli operai occupati prima della guerra erano 160 attualmente sono 90.

LI.UIGAS S.A.

Lo stabilimento produce gas compressi e liquefatti; liquigas, propeno e pentano.

La potenzialità era di 8/10.000 tonn. annue.

Gli operai occupati in tempo normale erano 69.

La ripresa dell'attività dipende principalmente dal rifornimento del carbone.

C.L.E.D.C.A.

L'attività dello stabilimento consiste nella distillazione del catrame e lavorazione di sottoprodotti.

La capacità massima di produzione mensile è di tonn. 1.600

Lo stabilimento ha subito pochi danni, ed è stato tutto riattivato?

Gli operai attualmente occupati sono 36 contro 75 del periodo anteguerra.

ANGELO VIDAL - Stabilimento in Sampierdarena -

La produzione mensile, dopo le riparazioni ai fabbricati danneggiati nella misura del 30%, sarà di:

- saponi da bucato e da toletta	q.li	2.000
- detersivi	"	1.800
- solfato di magnesio	"	600

- profumerie varie.

Gli operai sono 80, nel tempo anteguerra erano 200.

Oggi la produzione è ridotta del 20%

LITHOROM - S.A.I. -

- Lo stabilimento produce terre decoloranti e affini.

Dopo le riparazioni dei danni ai fabbricati (20%) e ai macchinari (2%) la produzione mensile sarà di:

- terre decoloranti (prolit)	tonn.	400
- vettoni Reff.	"	300
- Detersivo Lindal	"	50
- cemento idrolast	"	20

La capacità massima di produzione mensile è di tonn. 1.600

Lo stabilimento ha subito pochi danni, ed è stato tutto riattivato?

Gli operai attualmente occupati sono 36 contro 75 del periodo anteguerra.

ANGELO VIDAL - Stabilimento in Sorgnera -

La produzione mensile, dopo le riparazioni ai fabbricati danneggiati nella misura del 30%, sarà di:

- saponi da bucato e da toletta ..... q.li 2.000
- detersivi ..... " 1.800
- solfato di magnesio ..... " 600
- profumerie varie.

Gli operai sono 80, nel tempo anteguerra erano 200.
Oggi la produzione è ridotta del 20%

LITACROM - S.A.I. -

- Lo stabilimento produce terre decoloranti e affini.

Dopo le riparazioni dei danni ai fabbricati (20%) e ai macchinari (2%) la produzione mensile sarà di:

- terre decoloranti (prolit) ..... tonn. 400
- vettoni Saff. ..... " 300
- Deterxivo Sindal ..... " 50
- cemento idrolast ..... " 20

Oggi lavoro parzialmente, con una capacità ridotta del 50%
Gli operai sono 25 contro 120 dell'anteguerra.

./.

Declassified E.O. 12356 Section 3.3/NND No. 785021

S.A. LEGNAMI COMPENSATI E AFFINI

La fabbrica si occupa della produzione di legnami compensati ed aveva una produzione di oltre 1.200.000 mc. di compensato.

Gli operai occupati erano 138 prima della guerra; attualmente sono ridotti a 1/3 per la deficienza di materie prime.

FELTRIFICIO VENETO S.A.

Lo stabilimento produce "feltri per cartiere" tessuti - necessari per il rivestimento delle macchine continue per la produzione della carta.

La fabbrica di Marghera fa parte delle 4 più importanti del ramo in Italia ed è l'unica della zona delle Tre Venezie.

E' da considerare un'industria chiave per le cartiere.

Lo stabilimento è stato fra i più danneggiati, 90% agli edifici, 5% ai macchinari.

Qualora fossero assegnati i materiali per le riparazioni lo stabilimento potrebbe essere riattivato in 3/4 mesi.

La produzione mensile dopo le riparazioni, potrebbe essere di 6/7000 Kilogrammi.

Attualmente gli operai sono 14 contro 120 del periodo anteguerra.

Al presente lo stabilimento lavora pochissimo, produce solo qualche feltro per cartiere vicine in pericolo di fermarsi.

ERACLIT VENETA S.A.

Lo stabilimento produce piastre leggere isolanti per edilizia. La produzione mensile normale è di mq. 50.000

Gli edifici sono stati danneggiati nella misura del 90% agli edifici, 5% ai macchinari.

Qualora fossero assegnati i materiali per le riparazioni, lo stabilimento potrebbe essere riattivato in 3 mesi.

Gli operai occupati prima della guerra erano 60; oggi sono 12 .

Lo stabilimento al presente non lavora, sia per le distruzioni subite che per la mancanza di materie prime.

S.C.A.C. Società cementi armati centrifugati

Declassified E.O. 12356 Section 3.3/NND No. 785021

Attualmente gli operai sono 14 contro 120 del periodo anteguerra.

Al presente lo stabilimento lavora pochissimo, produce solo qualche feltro per cartiere vicine in pericolo di fermarsi.

ERACLIS VETRIER S.A.

Lo stabilimento produce piastre leggere isolanti per edilizia. La produzione mensile normale è di mq. 50.000

Gli edifici sono stati danneggiati nella misura del 90% agli edifici, 5% ai macchinari.

Qualora fossero assegnati i materiali per le riparazioni, lo stabilimento potrebbe essere riattivato in 3 mesi.

Gli operai occupati prima della guerra erano 60; oggi sono 12 .

Lo stabilimento al presente non lavora, sia per le distruzioni subite che per la mancanza di materie prime.

S.C.A.C. Società cementi armati centrifugati

Lo stabilimento produce pali in cemento armato, per un quantitativo mensile, a produzione normale, di 800/1000 pali con lunghezza da 5 a 17 metri.

./.

Declassified E.O. 12356 Section 3.3/NND No. 785021

La fabbrica ha subito dei danni, 10% ai fabbricati, 5% ai macchinari, in parte già riparati.

In un mese può essere completamente in efficienza.

Attualmente lo stabilimento lavora con una produzione ridotta al 25%. Gli operai sono 30 contro 80 del periodo normale.

COTONIFICIO VENEZIANO - Tessitura di Marghera -

Lo stabilimento produce tessuti per biancheria personale e da casa. La produzione normale mensile si aggira su ml.250 mila.

I macchinari furono smontati per salvarli dai bombardamenti.

I fabbricati non hanno avuto danni salvo i vetri e i lucernari che dovranno essere rimessi per circa 700 mc.

Lo stabilimento è ora occupato dalle Forze Armate per deposito di materiali vari e pertanto ogni lavorazione è sospesa.

Il rimontaggio e la rimessa in perfetta efficienza dei telai potranno essere fatti in meno di due mesi, dalla messa a disposizione dei fabbricati.

Gli operai occupati prima della guerra erano 180.-

Dall'esame dei singoli stabilimenti della zona di Marghera, ci si è fatta una idea della situazione nel suo complesso, la quale appare buona, in quanto i danni agli edifici e macchinari non sono tanto gravi ne estesi, in parte sono già stati riparati e in parte lo possono essere fra breve.

Tutto dipende però dalla possibilità di materiali da costruzione e pezzi e macchine da ricambio, e sopratutto dal rifornitmento di carbone e di materie prime per una rapida e pronta ripresa dell'attività lavorativa.

"INDUSTRIE DI VENEZIA ED ISOLE"

Altre industrie d'importanza nazionale esistono, oltre che nella zona di Marghera in Venezia città ed isole.

In primo luogo sono da ricordare le industrie del vetro, oltre che nella zona di Marghera, di Murano, di fama mondiale; [illegible] prima della guerra, si sono attrezzate pu- [illegible] industriale.

per la conservazione del pesce. Sta ora riprendendo l'attività sospesa durante la guerra.

"MERIDIONIA" ZUCCHERIFICI NAZIONALI - Stabilimento di Caggio - (95 operaie) e di S. Michele al Tagliamento (80 operai) Per la produzione di zucchero da barbabietole. Gli stabilimenti sono in piena efficienza.

S.a. DISTILLERIA DI CAVARZERE - per la produzione di alcoole, polpe secche di bietole e zucchero raffinato.
Attualmente tutti gli impianti sono più o meno colpiti per bombardamento aereo e nessuna lavorazione è possibile per ora.
Sono iniziate le riparazioni che consentiranno entro l'anno la ripresa della produzione dell'alcoole nella misura di 12.000 ettanidri al mese.
E' pure allo studio la ricostruzione dell'impianto per la produzione dello zucchero che dovrebbe essere ripresa nell'estate del 1946.

Declassified E.O. 12356 Section 3.3/NND No. 778021

Attività di notevole importanza vengono svolte pure nei centri della provincia. Le principali ditte industriali sono:

- Alimentazione -

OLIFICI E MOLINI ADRIATICI S.A. - stabilimento di Mirano Veneto per la produzione di farina di granone, olii greggi di semi, olii raffinati commestibili, cleina da semi, e penelli. Gli operai occupati sono 65. La produzione attuale è del 30% della totale.

Soc.An. Commercio Importazione Alimentari - S.A.C.I.A. - Chioggia

per la conservazione del pesce; q.li 1.000 al mese. Operai occupati prima della guerra 150; al presente 5. La lavorazione riprenderà appena iniziata la pesca.

S.A. ITALIA - Chioggia -

per la conservazione del pesce. Sta ora riprendendo l'attività sospesa durante la guerra.

"ERIDANIA" ZUCCHERIFICI NAZIONALI - Stabilimento di Ceggio - (95 operaie) e di S. Michele al Tagliamento (80 operai) per la produzione di zucchero da barbabietole. Gli stabilimenti sono in piena efficienza.

S.A. DISTILLERIA DI CAVARZERE - per la produzione di alcoole, polpe secche di bietole e zucchero raffinato.
Attualmente tutti gli impianti sono più o meno colpiti per bombardamento aereo e nessuna lavorazione è possibile per ora.
Sono iniziate le riparazioni che consentiranno entro l'anno la ripresa della produzione dell'alcoole nella misura di 12.000 ettanidri al mese.

E' pure allo studio la ricostruzione dell'impianto per la produzione dello zucchero che dovrebbe essere ripresa nell'estate del 1946.

Ditta PRIMO MORIN & C. Succ. Rigato

Lo stabilimento di S. Donà del Piave, per la produzione di alcoole di di acquavita(da vino e vinaccia), e da materie vinose e frut-

./.

ta) di materie tartariche, di olio (sfruttando semi d'uva ed altri semi oleosi) e di enocianina (materia colorante della vinaccia).

Lo stabilimento ha subito dei danni solo ai fabbricati.
Operai attualmente occupati 35, contro 89 in tempo di produzione normale.
Lavorazione attuale 15% della capacità, a causa deficienza materie prime.
Potenzialità mensile:

1) - alcole	ettanidri		730
2) - acquavite	"		79
3) - olio	q.li		130

Lo stabilimento di Dolo delle predette società, riflette la produzione di alcole da vino, vinaccie e materie vinose e frutta. Operai occupati 12, contro 65 del periodo normale.
Nessun danno allo stabilimento, che è in piena efficienza.

Capacità mensile:

1) - alcole ..... ettanidri 150

E' infine da ricordare lo stabilimento per la produzione di marmellata - I.P.M.A. -

- Industrie Tessili -

L'industria tessile è esercitata dai seguenti stabilimenti:
- Setificio di Salzano -
- Filanda di S. Giusto (Portogruaro)
- Lanificio Giulio Eger di Noale -
- S.A. Agricola Industriale del Lino di Cavarzere -
- Stabilimento per l'industria della juta - S.Donà di Piave -
- S.A. Cotonificio di Val Lemene (Bagnara di Gruaro)

Nel complesso gli stabilimenti non hanno subito danni e potrebbero lavorare in pieno, qualora avessero le materie prime occorrenti.

3377

- Industrie Chimiche -

Declassified E.O. 12356 Section 3.3/NND No. 785021

potenzialità mensile:

1) - alcole ..... ettanidri 750
2) - acquavite ..... " 75
3) - olio ..... q.li 150

ORDINANZA SUI SALARI N. 9 A

INDENNITA' SPECIALE DI "CAROVITA PER I LAVORATORI ADIBITI AI LAVORI PUBBLICI - REGIONE DELLE VENEZIE

Il C.R.I.C.I., avendo preso in esame un accordo per la corresponsione di un "Carovita" ai lavoratori adibiti ai lavori pubblici nella Regione delle Venezie A.M.G., ed in considerazione dei fatti esposti, mi ha raccomandato di stabilire la seguente indennità di "Carovita" per i suddetti lavoratori, con decorrenza dal 25 giugno 1945.

Mi è stato inoltre raccomandato di dichiarare nulla l'Ordinanza sui salari N. 9.

Detta indennità è stabilita nella misura seguente:

	Operai L.		Impiegati L.	
a) Uomini capi famiglia con una persona a carico.....	120.=	giorn.	3.000.=	mensili
b) Donne capi famiglia con una persona a carico.....	100.=	"	2.500.=	"
Agli uomini ed alle donne con due o più persone a carico verrà corrisposto un assegno supplementare di £. 15.= al giorno per gli operai e di £. 375.= mensili per gli impiegati, ragguagliabili ad ora per ogni persona a carico oltre la prima e limitatamente alle prime tre persone a carico oltre la prima.				
c) Uomini non capi famiglia di età superiore agli anni 20.....	100.=	"	2.500.=	"
d) Uomini non capi famiglia di età compresa fra i 18 e i 20 anni.....	80.=	"	2.000.=	
e) Donne non capi famiglia di età superiore ai 20 anni.....	72.=	"	1.800.=	"
f) Donne non capi famiglia di età compresa fra i 18 e i 20 anni.....	64.=	"	1.600.=	"
g) Uomini e donne non capi famiglia di età inferiore ai 18 anni.....	56.=	"	1.400.=	"

Per capo famiglia si intende il lavoratore, operaio od impiegato, che fruisce di assegni familiari. Il ragguaglio ad ora delle quote sopra indicate si fa dividendo per otto le quote giornaliere e per 180 le quote mensili.

./.

Declassified E.O. 12356 Section 3.3/NND No. 185021

A far tampo dal 25 giugno 1945 è abolita l'indennità di guer ra (£. 20.= giornaliere a favore dei lavoratori capi famiglia) istituita con Decreto 5/1/1945 del Governo della così detta Repub blica Sociale Italiana.

Le speciali indennità di carovita di cui sopra saranno cor= risposte al 100 % alle maestranze addette a lavori nei Comuni del la Regione aventi oltre 200 mila abitanti, al 90 % alle maestranze addette a lavori nei Comuni della Regione aventi da 50.001 a 200 mila abitanti ed all'80 % alle maestranze addette a lavori nei Co muni della Regione aventi meno di 50.000 abitanti.

L'indennità di carovita non costituisce parte integrante del la retribuzione ad alcun effetto, si farà eccezione soltanto per il compenso spettante per il periodo annuale di ferie o per quello relativo alle festività infra-settimanali. Esso è esente da ogni contribuzione a scopi previdenziali, sociali od assicurativi.

Si intende che le somme già eventualmente corrisposte ai la voratori addetti a lavori pubblici in conseguenza del disposto del la sopracitata Ordinanza N. 9, devono essere conguagliate a far tempo dalla data del 25 Giugno 1945 con le indennità di cui alla presente proposta.

PERTANTO, poichè la proposta è stata devutamente esaminata ed approvata dall'organo autorizzato, e dato che l'aumento corri= sponde alle attuali esigenze.

DECRETO, io J.K. Dunlop, O.B.E., M.C., T.D., Generale di Brigata, Commissario Regionale, Regione delle Venezie, Governo Militare Alleato, in virtù dei poteri conferitimi, accetto la pro posta del Comitato ed approvo la tabella sopra esposta.

J.K. DUNLOP
Generale di Brigata
Commissario Regionale,
AMG Regione delle Venezie

Detto oggi 30 Agosto 1945.

Declassified E.O. 12356 Section 3.3/NND No. 785021

WAGE ORDER No. 9 A

Special Indemnity of "Carovita" to workers employed in Public Works, Venezie Region.

The REJAC after having considered an agreement of "Carovita" for workers employed in Public Works throughout the Venezie Region AMG, and in consideration of the facts presented have recommended to me the following Indemnity of "Carovita" for the above named workers, which Indemnity is to come into full force and effect as of 25 June 1945.

It has been further recommended to me that Wage Order N. 9 be declared null and void.

The above Indemnity will be granted following these terms:

	WORKERS L.	CLERKS L.
a) Man head of a family with a person in their charge	120.= a day	3.000.= a mo
b) Women head of a family with a person on their charge	100.= "	2.500.= "
Supplementary allowance will be paid to persons with two or more children or dependents on their charge to the amount of £. 15. per day for workers and £. 375. monthly will be paid to persons working in a clerical capacity. This allowance is to be equilized by the hour for every person on their charge in addition to the first and only for the first three persons in addition to the first.		
c) Men not head of a family over 20.....	100.= "	2.500.= "
d) Men not head of a family between 18 and 20.....	80.= "	2.000.= "
e) Women not head of a family over 20.....	72.= "	1.800.= "
f) Women not head of a family between 18 and 20.....	64.= "	1.600.= "
g) Men and women not head of a family under 18.....	56.= "	1.400.= "

A head of a family is a worker or the clerk who receives family allowances. The equalization by the hour of the above shares is obtained by dividing the daily shares by 8 and the monthly shares by 180.

./.

Declassified E.O. 12356 Section 3.3/NND No. 785021

The indemnity of war (£. 20 a day in behalf of the workers head of a family, granted by decree 5/1/1945 of Italian Social Republic) has been abolished starting from the 25th June 1945.

The special Indemnity of "Carovita" will be paid 100 % to workers employed in Communes of the Region with population superior to 200.000 inhabitants, 90 % to workers employed in Communes of the Region with a population from 50.000 to 200.000 inhabitants, 80 % to workers employed in Communes of the Region with a population under 50.000 inhabitants.

The Indemnity of "Carovita" is not integrating part of the payment, the only exception is the reward of the annual vacation or for the weekly holidays. It is free from every providence, insurance and social contributions.

The eventual accounts already given to the labourers employed in Public Works (Wage Order No. 9) will be recovered with the above Indemnity, starting from the 25th June 1945.

THEREFORE, since the proposal has been properly examined and approved by the authorised agency, and since it appears all conditions for this increase have been met,

THEREFORE, I, J.K. Dunlop, O.B.E., L.C., T.D., Brigadier, Regional Commissioner, Venezie Region, Allied Military Government, by virtue of the powers vested in me accept the recommendation of this Committee, approve the shedule set forth above.

J.K. DUNLOP
Brigadier,
Regional Commissioner
AMG Venezie Region

SUBJECT : Increase Wage Rates Public Works Employees

REF. : RXII/LA/107.011

1. Enclosed herewith are two record copies of a RLSAC approved wage accord extending the application of the "Milano Agreement" to public works employees in five of the ten pro= vinces of the Venezie Region.

2. Since it is not in consonance with the A?C.supported Italian Government policy,and in conformity with your instruc- tions, the proposal is submitted for your joint consideration.

3. There is considerable unrest and dissatisfaction amongst the workers who cite the reason that the present wage scales, as compared to similar categories in private employ and in many cases even under the same employer who has similar jobs in private and public works projects, differ so greatly as to be arbitrary, discriminatory and devoid of any equitable basis. In addition, they assert, these same wages are defini- tely under the average and out of harmony with the cost of living.

4. It is well to note that agitation has reached such a pitch that in two provinces there are sit-down strikes on the public works jobs, and in three others the contractors experience extreme difficulty in acquiring personnel. This situation is becoming graver by the day and is only a forecast of the wide- spread stoppage which will inevitably result in the proximate future.

3367

5. There can be no overlooking the vast spredd between the private and public works wage scales, nor can the weight of the workers' arguments be denied. For obvious political and economic reasons, this office feels the Italian Government will eventually approve an increase. It should be forthcoming im-

Declassified E.O. 12356 Section 3.3/NND No. 785021

vinces of the Venezie Region.

2. Since it is not in consonance with the A?C.supported Italian Government policy,and in conformity with your instructions, the proposal is submitted for your joint consideration.

3. There is considerable unrest and dissatisfaction amongst the workers who cite the reason that the present wage scales, as compared to similar categories in private employ and in many cases even under the same employer who has similar jobs in private and public works projects, differ so greatly as to be arbitrary, discriminatory and devoid of any equitable basis. In addition, they assert, these same wages are definitely under the average and out of harmony with the cost of living.

4. It is well to note that agitation has reached such a pitch that in two provinces there are sit-down strikes on the public works jobs, and in three others the contractors experience extreme difficulty in acquiring personnel. This situation is becoming graver by the day and is only a forecast of the widespread stoppage which will inevitably result in the proximate future.

5. There can be no overlooking the vast spread between the private and public works wage scales, nor can the weight of the workers' arguments be denied. It should be forthcoming immediately and not under pressure as in the past, otherwise the effect on our good results obtained in labor relations will be most unfortunate.

6. Since conditions are universal, and complaints and condemnation uniform and unified on the part of Provincial Commissioners, Genio Civile, employing contractors and trade unions, and in view of the support of this office and its civilian counterpart, the increase, wholly or substantially as requested, should be applied forthwith throughout all of Northern Italy.

MINUTES OF THE 7.TH MEETING OF THE REGIONAL ITALIAN JOINT ADVISORY COMMITTEE = VENEZIE REGION

1. The Regional Italian Joint Advisory Committee of Venezie Region (on request of Allied Labour Officer) held their 7th meeting in their Offices located at 3584 - Campo S. Angelo - Venezia city - in the Regional Labour Office.

2. The following members of the Committe were present:
doct. Mario Scandellari, president, representatives of State;
rag. Antonio Dall'Armi - vice-president - representatives tha of employers -
doct. Guido Celo' - representatives of workers -

3. Also present was doct. Luigi Mauro, director of the Regional Labour Office in Venezie Region.

The question submitted to the Regional Committee for examination is as follows:

proposal of adjournment of wage Order n. 9 of Regional Allied Commissioner. Application of an indemnity of carovita (as in Patto di Milano for industrial workers) to the labourers employed in the public works.

Considering that:
a) the great disproportion between the economic treatment of industrial workers and that of the labourers employed in public works caused a notable discontent in all Region with the possibility of a future strike;
b) the directors of the Provincial Labour Offices, the representatives of Camere del Lavoro, the representatives of Industrialists and the other many Provinces of Venezie Region having examined the agreement, think necessary the equality between the economic treatment of the dependants of concerns with contract works from the Administrations of State or from other Organs under their control.and the industrial workers to whom has been extented the "Patto di Milano" under Orders 7 and 7/A;
- all the members approve the above recommendation and ask for the attention of Regional Labour Officer.

4. The date of the above equalizetion will be fixed on 25.th June 1945 (date of "Patto di Milano") and not on 1st June 1945 (date of the beginning of the negotiations of the above agreement) according the opinions of the representatives, including also the head ing. of Civil Eng.Office of Venice - for reasons of expedience and justice.

5. The Regional Italian Joint Advisory Committee approves it.

Read, confirmed and signed.

VERBALE DI RIUNIONE DEL COMITATO CONSULTIVO
REGIONALE MISTO

L'anno 1945, il giorno 8 del mese di agosto, in Venezia, nella sede dell'Ufficio Regionale del Lavoro per il Veneto, a richiesta del= l'Ufficiale del Lavoro Alleato, si è riunito il Comitato Consultivo Re gionale Misto nelle persone del dott. Mario Scandellari, Presidente, in rappresentanza del Governo, del rag. Antonio Dall'Armi, Vice-Presi= dente, in rappresentanza dei datori di lavoro e del dott. Guido Calo', in rappresentanza dei lavoratori. È anche presente il dott. Luigi Mauro, Direttore dell'Ufficio Regionale del Lavoro.

Il Comitato Regionale, chiamato ad esprimere il proprio pare= re sulla seguente questione:

proposta di modifica dell'Ordinanza salariale n.° 9 del Commis sario Regionale Alleato, nel senso di applicare agli addetti ai lavori pubblici la indennità di carovita prevista dal "Pat= to di Milano" per i lavoratori dell'industria,

considerato che la forte sperequazione fra il trattamento eco= nomico dei lavoratori dell'industria e quello degli addetti ai lavori pubblici ha generato in questi ultimi un notevole malcontento in tutta la Regione tanto da profilarsi una futura sicura sospensione del lavoro;

considerato altresì che i direttori degli Uffici Provinciali del Lavoro, i rappresentanti delle Camere del Lavoro, i rappresentanti de= gli industriali e gli altri esponenti della produzione e del lavoro nel la più parte delle Provincie venete, giusta l'accordo esaminato, riten= gono equo ed opportuno riportare il trattamento economico dei dipenden= ti delle aziende che lavorano in appalti avuti dalle Amministrazioni del lo Stato o da altri Enti da quest'ultimo controllati, al livello di quel lo di tutti gli altri lavoratori dell'industria cui le ordinanze sala= riali A.M.G. n.° 7 e n.° 7/A hanno esteso il cosiddetto "Patto di Mila no"; esprime parere favorevole all'accoglimento della proposta in paro

./.

MINUTES OF AGREEMENT

A meeting (for initiative of the Regional Labour Commissioner of the Economic Regional Commission)took place in the Office of the Regional Labour Office - Venezie Region - located at 3584 - Campo S. Angelo on the 7th August, at 16,30 o'clock - in Venezia city.

The following representatives of categories and Provinces were present:

- for Treviso Province: rag. Frescura, director of the Provincial Labour Office, ing. Amadio, president of the Industrial Association, ing. Marzi for the building syndicate, dott. Bitto for"Camera del Lavoro";
- for Rovigo Province: avv. Bellinello, director of the Provincial Labour Office, avv. Cattozzo, secretary of the Industrial Association, Mr. Corrà, secretary of "Camera del Lavoro";
- for Venice Province: avv. Fonte Basso, director of the Provincial Labour Office, ing. Pasquali, ing. Zennaro and ing. Greggio for the Industrial building Association, Mr. Pastrello for"Camera del Lavoro";
- for Udine Province: doct. Zennaro, director of Provincial Labour Office Mr. Casoli for the Industrial Association, doct. Driussi for "Camera del Lavoro";
- for Padova Province: avv. De Besi, director of Provincial Labour Office, Mr. Candido for"Camera del Lavoro";

Also present were doct. Luigi Mauro, director of the Regional Labour Office in Venezie-Region, doct. Renato Maestro, Regional Labour Commissioner of the Economic Regional Commission and ing. Alessi, head ing.of Civil Engineers Office of Venice.

The representatives of the industrialists and Camera del Lavoro examined the wages for labourers employed in public works determined under Order n.° 9 of A.M.G. As the workers are threatening a strike, the above representatives recommend to A.M.G. the following proposes:

1. In adjourment of order n. 9 of 24th July 1945 of Allied Military Government - Venezie Region - and in place of the assistances established by the same, the "Patto di Milano", has to be and enforced and extended to the labourers employed in concerns with contract works from the Administrations of the State or from organs under their control. This "Patto di Milano" has already been extended to Venezie-Region under orders n. 7 and 7/A of A.M.G. according the terms and proportions fixed in the above orders.

2. This agreement has to be extended starting from 25th June 1945.

3. The above indemnity of contingency is to be granted for the contracting organs.

TO : HQ A.C. (Labor Sub-Commission) 4 August '45

SUBJECT : Monthly Report for July 1945

FILE NO : RVII/LA/102.02

1. Set forth below is a report of the Labor situation and activities for the month of July in Venezie Region. As approximately three months have passed since the activation of this Region, a resumè of Labor activities for the quarter year now ending is also included.

2. LABOR DIVISION.

The first labor officer reported to this Region on May '45 while its HQ was located at Cesena. He moved into the permanent HQ at Padova on 6 May with the main personnel of the Region, located in the Scalcerle Scuola. After several weeks, another Officer arrived to assist in labor work in the Region. In the last month there has been no additions to the Labor Division staff, and the total divisional personnel is as follows:

Officers

Capt. L.H. Bailey (A)
Capt. J. Giammarco(A)

Enlisted Personnel

Sgt. G.E. Howard (A)
Cpl. D. Newman (A)

Italian Civilians

3551

With the above staff; especially the military personnel which has worked untiringly on a seven day a week basis; it has been possible, dispite transport difficulties, to reach the set goal, that of liquidating Fascist Labor institutions and establishing in all ten Provinces of the Region the labor program of the Allied Commission.

3. PROVINCIAL SITUATIONS

Constant travel through all the Provinces by the Labor Officers has resulted in the prompt distribution of information to Provincial Commissioners, the Labor Offices, Prefects, and organisations directly or indirectly concerned with labor matters, and is more or less responsible for the small number of work stoppages that can be traced to dissatisfaction with wage rates or working conditions.

Declassified E.O. 12356 Section 3.3/NND No. 785021

There was a considerable number of wage increases agreed upon between employers and workers or their representatives in the first days, but none have appeared to have been made except through lack of full understanding of the methods by which wage or salary adjustments were controlled and granted. Some few adjustments without proper authorisation are still being reported, mainly by employers of small groups of workers, who misinterprete issued wage orders as applying to their organisation.

4. SOCIAL SERVICES

All social services resumed their activities immediately after liberation of the Provinces of this Region, being closed for only a short period, and, in general, have improved in their services to the workers.

There have been no reported financial difficulties from the Casse Malattia, Previdenza Sociale or Infortuni. The transport situation was one of their greatest drawbacks but did not seriously impair their efficiency.

The standard practice of confering with the Directors of these institutions on first entrance into a Province and outlining the labor program and their relation to the new labor office, has produced beneficial results.

The introduction of "Cassa Integrazioni", and the proposal for extention beyond its original date of termination, provided an opportunity for close coordination and examination of the problem of surplus workers and unemployment. The continuance of unemployment benefits during the ban on discharge of surplus workers in imperiate, but but the movement of these workers to agriculture and public works projects is but a partial solution. In the meantime the financial responsibility, which rests on the Italian State is heavy, and remains an unsolved long-term economic problem.

5. LABOR OFFICE, REGIONAL

3350

The Regional Labor Office was established in Venezia shortly after work of the Region began, it being the third Labor Office opened. At the same time the Provincial Labor Office opened. A Director was selected after consultation with CMF, the Prefect, and other organisations,

Declassified E.O. 12356 Section 3.3/NND No. 785021

have improved in their services to the workers.

There have been no reported financial difficulties from the Casse Malattia, Previdenza Sociale or Infortuni. The transport situation was one of their greatest drawbacks but did not seriously impair their efficiency.

The standard practice of confering with the Directors of these institutions on first entrance into a Province and outlining the labor program and their relation to the new labor office, has produced beneficial results.

The introduction of "Casse Integrazioni", and the proposal for extention beyond its original date of termination, provided an opportunity for close coordination and examination of the problem of surplus workers and unemployment. The continuance of unemployment benefits during the ban on discharge of surplus workers is imperiate, but but the movement of these workers to agriculture and public works projects is but a partial solution. In the meantime the financial responsibility, which rests on the Italian State is heavy, and remains an unsolved long-term economic problem.

5. LABOR OFFICE, REGIONAL

3350

The Regional Labor Office was established in Venezia shortly after work of the Region began, it being the third Labor Office opened. At the same time the Provincial Labor Office opened. A Director was selected after consultation with CLN, the Prefect, and other organisations, but before formal appointment could be made, the CLN "fired" the new appointee. Advised that only AMG could dismiss, he formally resigned, stating he could not oppose the CLN. Dott. Luigi Mauro of the Ministry of Labor was sent from Rome and assumed the position of Regional Director. His formal appointment was made by the Regional Commissioner. The CLN in the first days, even after being informed of their status, often took the position they were an administrative body instead of only an advisory organisation to AMG.

Declassified E.O. 12356 Section 3.3/NND No. 785021

Under the leadership of Dott. Mauro the organisation of the Regional Office has progressed toward full operational efficiency, in itsself and in its relations to the Provincial Labor Offices in each of the ten Provinces.

6. LABOR OFFICES -PROVINCIAL

The policy of closing any facist labor organisations, their liquidation (through the Intendenza di Finanza of each Province) the posting of General Order No. 28, and the creation of the Provincial Labor Office provided in this Order, followed by the establishment of working relationships with the Camera del Lavoro and other organisations involved in or interested in Labor and the working men, has been standart in each of the Provinces of this Region.

This practice resulted in the opening of eight of the ten Provincial Labor Offices, and their satisfactory operation in the first seven weeks after liberation, and the completion of all offices in two months.

Except for the difficulties in the selection of the Director for the Venezia Provincial Labor Office (which was for the same cause as related for the Regional Office) the appointment of Director has met with approval from all angles and the appointee has been able to enjoy the support and confidence of AMG Officers, the Prefect, and Labor, both organised and unorganised.

A recent survey made of all Labor Offices by Avv. Alfonso Ruo, (Regional Director of Marche-Abrezzo Regional Labor Office) as a special agent for the Italian Minister of Labor and Welfare resulted in a report praising the activities of all eleven Labor Offices and stressing the efficiency of offices so recently established and the high qualities and iniativeness of the Directors.

The present work of the Labor Division, because of this program, is principally confined to matters relating to wage and/or salary adjustments, and general supervision of the Regional Labor organisation. The Regional Labor Office has assumed direct control of all Provincial Offices with all correspondance, reports, etc. channeled direct on an inter-office basis, with copies for information only to the Regional Officers of AMG.

7. LABOR OFFICES - PERSONNEL & SALARIES 3319

The selection of type, quality and quanity of required personnel for all Labor Offices, including the location and staffing of the comunal collocamenti offices, has been the responsibility of each

Declassified E.O. 12356 Section 3.3/NND No. 785021

Provincial Labor Offices, and their satisfactory operation in the first seven weeks after liberation, and the completion of all offices in two months.

Except for the difficulties in the selection of the Director for the Venezia Provincial Labor Office (which was for the same cause as related for the Regional Office) the appointment of Director has met with approval from all angles and the appointee has been able to enjoy the support and confidence of AMG Officers, the Prefect, and Labor, both organised and unorganised.

A recent survey made of all Labor Offices by Avv. Alfonso Ruo, (Regional Director of Marche-Abrezze Regional Labor Office) as a special agent for the Italian Minister of Labor and Welfare resulted in a report praising the activities of all eleven Labor Offices and stressing the efficiency of offices so recently established and the high qualities and iniativeness of the Directors.

The present work of the Labor Division, because of this program, is principally confined to matters relating to wage and/or salary adjustments, and general supervision of the Regional Labor organisation. The Regional Labor Office has assumed direct control of all Provincial Offices with all correspondance, reports, etc. channeled direct on an inter-office basis, with copies for information only to the Regional Officers of AMG.

7. LABOR OFFICES - PERSONNEL & SALARIES 3349

The selection of type, quality and quanity of required personnel for all Labor Offices, including the location and staffing of the comunal collocamenti offices, has been the responsibility of each Director. Employees have been selected for temporary employment pending examination of their qualifications for their specific position, and as to their previous activities. Of all the employees examined to date, by either the Questure or other investigation agencies, it has not been necessary to dismiss a person.

In the first weeks considerable difficulty was encountered in securing competent and qualified employees for some of the offices because the salary schedule authorised was too low, especially as these employees would not receive the rights accorded to State or Parastatal employees, at which standard Labor Office salaries were set. The new schedule, while providing a material increase, has not completely solved the problem as the implementation of Italian Decrees increasing salaries of State employees has again put their

Declassified E.O. 12356 Section 3.3/NND No. 785021

salaries above those of the Labor Office.

There is a general feeling that higher authorities in Government do not realize that the average Labor Office is understaffed in the comparasion of their "work-load" with that of many State agencies having a like number of personnel, and that a Labor Office is no place for a person who expect to be "paid for not working."

It is recommended that effective not later than the beginning of the next budgetary period (30 September '45) that the Italian Government authorise the extension of all Decrees relating to salary increases to Labor Office employees, and all other benefits enjoyed by State and Parastatal workers.

8. LABOR OFFICES - DEPENDENT OFFICES

Ispettorato del Lavoro

The Ispettorato del Lavoro in Venezie Region was found to have three offices (Venezia, Padova and Belluno), with Udine Province controlled from Trieste. All these offices were closed as independent organisations and brought under direct control of the Regional Labor Office, which has chosen to continue temporarily the old offices of the Ispettorato because of the records, etc. and to more quickly effectuate reorganisation.

The decision as to whether the Ispettorato is to continue all their old functions is at present open, however for the moment the concentration has been on those functions relating strickly to Labor. It does not appear to be a responsibility of labor to dictate to industry on matters concerning industrial management, opening of new industrial plants, or matters relating to equipment. These phases more readly fall within the scope of activities of the Chamber of Commerce or the Council controlling all industries in Northern Italy. The Ispettorato should be limited to inspections for safety and health, and proper working conditions for all plant and factory workers.

Ufficio Collocamenti Comunale

In each Province the Labor Office has established local employment offices, staffed with an average of two to four persons, dependent on requirements. These offices register the unemployed, furnish workers to both military and civilian employers, collect statistical information as directed by the Provincial Office, and serve as contacts with workers entitled to social insurance benefits.

Declassified E.O. 12356 Section 3.3/NND No. 785021

The Ispettorato should be limited to inspections for safety and health, and proper working conditions for all plant and factory workers.

Ufficio Collocamenti Comunale

3318

In each Province the Labor Office has established local employment offices, staffed with an average of two to four persons, dependent on requirements. These offices register the unemployed, furnish workers to both military and civilian employers, collect statistical information as directed by the Provincial Office, and serve as contacts with workers entitled to social insurance benefits.

Since it is impossible to establish an office in every comune of a province, they are placed only in towns of high concentrations of population, and include in their territory surrounding less populated comunes. Frequent visits to these other comunes are made by an employee of the comunal office to keep local authorities advised of labor activities and to assist workers.

Declassified E.O. 12356 Section 3.3/NND No. 785021

There are approximately fifty communal offices in Venezia Region.

9. ITALIAN JOINT ADVISORY COMMITTEES

The Regional Italian Joint Advisory Committee is located in Venezia, and uses the facilities of the Regional Labor Office. This Committee has held six (6) separate meetings do date, however several meetings have extended beyond one day in or order to secure testimony of witnesses before arrival at a decision.

The members of the committee realize the importance and value of their work and have refused to be forced into "snap" decisions by pressure groups endeavoring to hasten actions by threats of work stoppages or strikes.

The RIJAC has received about thirty reccommendations or proposals for wage and/or salary adjustments or indemnities and have made favorable recommendations in fourteen cases to the Regional Commissioner. Of the balance, some have been returned for additional factural data and others have been denied because of insufficient representation, etc.

A Provincial Italian Joint Advisory Committe has been orga= nized in each Province. They use the facilities of the Provincial Labor Offices, and receive first all requests for adjustments or indemnities. Their recommendations, favourable or otherwise are sent to the Provincial Commissioner who forwards the report with his comments to the RIJAC. By this process the P.C. is informed of pendings proposals.

Every Committee has been organized in accordance with the standard instructions and are recognized as the sole agencies capable of instituting wage increases. In every case the members of the committees enjoy the confidences of the groups they repre= sent, and the Camera del Lavoro, and the employers unions or as= sociations have readily cooperated and assisted the committees.

10. ORGANIZED LABOR - EMPLOYER ASSOCIATIONS.

3347

Labor in all the Provinces is slowly getting itself organiz= ed under the leadership of the Camera del Lavoro. In the industrial areas the organizational work has progressed more rapidly than in the agricultural areas and has prevented numerous wildcat strikes -of groups with fancied grievances. On the other hand this lack

Declassified E.O. 12356 Section 3.3/NND No. 785021

threats of work stoppages or strikes.

The RLAC has received about thirty reccommendations or proposals for wage and/or salary adjustments or indemnities and have made favorable recommendations in fourteen cases to the Regional Commissioner. Of the balance, some have been returned for additional factural data and others have been denied because of insufficient representation, etc.

A Provincial Italian Joint Advisory Committe has been orga= nized in each Province. They use the facilities of the Provincial Labor Offices, and receive first all requests for adjustments or indemnities. Their recommendations, favourable or otherwise are sent to the Provincial Commissioner who forwards the report with his comments to the RLAC. By this process the P.C. is informed of pendings proposals.

Every Committee has been organized in accordance with the standard instructions and are recognized as the sole agencies capable of instituting wage increases. In every case the members of the committees enjoy the confidences of the groups they repre= sent, and the Camera del Lavoro, and the employers unions or as= sociations have readily cooperated and assisted the committees.

10. <u>ORGANIZED LABOR - EMPLOYER ASSOCIATIONS.</u> 3347

Labor in all the Provinces is slowly getting itself organiz= ed under the leadership of the Camera del Lavoro. In the industrial areas the organizational work has progressed more rapidly than in the agricultural areas and has prevented numerous wildcat strikes -of groups with fancied grievances. On the other hand this lack of control in agricultural areas has resulted in some farm workers demanding unreasonable new terms of employment and division of crops under threats of violence.

In all such cases the representatives of the Camera del Lavo= ro have stepped in, and with a representative of the Ufficio del Lavoro, succeded in returning the workers to their tasks and re= stored reasonable order.

Continued unemployment of large masses of employables has, to some degree, retarded organization work; for example in Udine Province with a potential 45.000 or 50.000 workers, but 15.000 workers are at present affiliated with organized labor unions. These cover 14 to 16 types of occupations.

Declassified E.O. 12356 Section 3.3/NND No. 785021

There is still some evidence that the Camera del Lavoro in some communes are being influenced unduly by the C.L.N. or certain political parties; however progressive improvement toward true independent action from political pressure groups is noticeable and satisfactory.

The fromation of "Commissioni Interne" in banks, commercial and industrial establishments continues; and these committees serve as useful dependent groups of the Camera del Lavoro.

The activities of employers associations such as Unione Industriali, Unione Commercio ecc. indicates they also are becoming well organized and functioning for the best interests of their memberships. In cases brought before the various Advisory Committees for wage or salary adjustments, it is usual to find the proposal has been the result of an accord between the Camera del Lavoro and an employers association, rather than a temporary group of employers, hurrily formed for the current problem.

11. COST OF LIVING.

The general increasing of the cost of living continues and together with unemployment to constitue the two greatest problems as yet unsolved.

Available statistics indicate that from June 1945 to liberation, there was an increase of about 139% in costs of living; and in the last three months another 18% to 27% increase, dependent om the Provinces. A complete Regional statistical picture is presently in preparation and will be issued shortly. Analysis of most recent statistical reports show a "flattening" of the cost of living curve, but appears to be caused by the increase of locally grown foods in the markets together with more available foods in the rationed items. There is a possibility that a sharp increase in living costs will appear in the autumn. The change from political to economical price for bread will show up in the next statistical charts.

It appears that from 65% to 70% of the monthly income is required for food; clothing requires 20%; with all other normal expenses (rent, heat, light, miscellaneous, etc.) taking up the balance. Typical is Treviso Province, where the cost for May'45 was £.10,235 and for July '45 was £. 11.559.

A disturbing factor, effecting both the amassing program and blak marketing is the practice of non-agricultural workers assisting in the harvesting demanding payment in "Kind" rather than cash. A specific case being that of a barber in Rovigo Pro=

Declassified E.O. 12356 Section 3.3/NND No. 785021

del Lavoro and an employers association, rather than a temporary group of employers, hurrily formed for the current problem.

11. COST OF LIVING.

The general increasing of the cost of living continues and together with unemployment to constitue the two greatest problems as yet unsolved.

Available statistics indicate that from June 1945 to liberation, there was an increase of about 19% in costs of living; and in the last three months another 18% to 27% increase, dependent on the Provinces. A complete Regional statistical picture is presently in preparation and will be issued shortly. Analysis of most recent statistical reports show a "flattening" of the cost of living curve, but appears to be caused by the increase of locally grown foods in the markets together with more available foods in the rationed items. There is a possibility that a sharp increase in living costs will appear in the autumn. The change from political to economical price for bread will show up in the next statistical charts.

It appears that from 65% to 70% of the monthly income is required for food; clothing requires 20%; with all other normal expenses (rent, heat, light, miscellaneous, etc.) taking up the balance. Typical is Treviso Province, where the cost for May'45 was £.10,235 and for July '45 was £. 11.559.

A disturbing factor, effecting both the amassing problem and blak marketing is the practice of non-agricultural workers assisting in the harvesting demanding payment in "Kind" rather than cash. A specific case being that of a barber in Rovigo Province who worked in the harvesting of wheat for about ten days and reportedly received payment of 200 Kilos of wheat for his services. Normally a "city worker" he and his family have ration cards, yet the grain obtain by his few days of farm work places him in a preferred position with his town neighbours.

12. WAGE AND SALARY ADJUSTMENTS.

The Allied Forces wage scale has recently been modified through the issuance of a new supplemental shedule, replacing the "Buff Book". The increases being of minor nature have not disturbed private workers. In addition, effective during June a £. 30.= cost-of-living bonus was added for unskilled workers with comparable rates for all other classes. Except in 1 District

Declassified E.O. 12356 Section 3.3/NND No. 785021

this "bonus" has been increased effective 16 July to 75 lire, and 1 District is expected to adopt the same increase shortly. This bonus will result in common labor receiving £.160 a day of 8 hours, and cause another "wave" of raquests for increases in wages of private workers.

The implementation of Italian decrees 18/B, 326 (effective 1 May '45) and D.D.I. 116 effective 1 August '45 has improved the economic conditions of State and Parastatal employees; however the re-establishment of concessions available to this group of workers, prior to the war (amounted to about 50% of the cash salary for the average employee) has not been effectuated. If costs of living continue to rise this group will again petition for another "carovita". There is considerable dissatisfaction over the effective date of D.D.I. 116, as employees expected the increases from 1 May or at least 1 June, instead of 1 August.

The increases for workers of private employers, while outwardly following the program of accords between employers and employee committees or the Camera del Lavoro, has not been in fact entirely regular. In nearly every case a recommendation to the Provincial Italian Joint Advisory Committe has been considered as approval and employers have immediately put the provisions into effect, or granted an "anticiapation" pending the issuance of a wage order. It is impossible to police every establishment to prevent this practice or prosecute every violator. The sole solution is by education and appealing both groups to preserve a "status quo".

There are no outstanding cases of Prefects "by-passing" the Advisory Committees by issuing decrees relating to labor, however in the first days some Prefects considered they had authority to promulgate labor legislation. Conferences have clarified this point.

There have been some fifteen wage orders issued in Venezie Region, some on a Regional basis, and others for establishments or by categories. The Milano agreement has been implemented, and the new Italian decree containing the Milano Pact and General Order N.48 is still awaited, impatiently by employers and workers alike. The Spinelli Decree has also become effective in fact, although a large sector of industry were already enjoying the increases at the time of liberation.

The time lag required to act on wage and/or salary in-

3313

Declassified E.O. 12356 Section 3.3/NND No. 785021

1 June, instead of 1 August.

The increases for workers of private employers, while outwardly following the program of accords between employers and employee committees or the Camera del Lavoro, has not been in fact entirely regular. In nearly every case a recommendation to the Provincial Italian Joint Advisory Committe has been considered as approval and employers have immediately put the provisions into effect, or granted an "anticipation" pending the issuance of a wage order. It is impossible to police every establishment to prevent this practice or prosecute every violator. The sole solution is by education and appealing both groups to preserve a "status quo".

There are no outstanding cases of Prefects "by-passing" the Advisory Committees by issuing decrees relating to labor, however in the first days some Prefects considered they had authority to promulgate labor legislation. Conferences have clarified this point.

There have been some fifteen wage orders issued in Venezie Region, some on a Regional basis, and others for establishments or by categories. The Milano agreement has been implemented, and the new Italian decree containing the Milano Pact and General Order N.48 is still awaited, impatiently by employers and workers alike. The Spinelli Decree has also become effective in fact, although a large sector of industry were already enjoying the increases at the time of liberation.

3343

The time lag required to act on wage and/or salary increases or proposed indemnities when the principal office of an organization is outside this Region is causing dissatisfaction among workers effected. This is a problem beyond the RIJAC of this Region.

13. UNEMPLOYMENT.

Unemployment approaching a danger point still exists throughout the Provinces of Venezie Region. There are in addition to those actually unemployed, large numbers of workers who, while reporting at establishments every day and are paid wages, are in fact not working. Many employers have stated they would rather pay these workers to stay off the premises than have them come to their plants and conduct "meetings" or "confe=

Declassified E.O. 12356 Section 3.3/NND No. 785021

rences" all day long. An impossible situation exists when some employees work and others, in the same plant, do not, because of differences in trades or skills. The same conditions exist where parts of plants are under military contracts and other departments are idle.

An example of unemployment is Udine Province where it is estimated there is between 45,000 and 50,000 employables. An estimated 30,000 are presently unemployed of which 10,000 are former partisans. This unemployed group is divided roughly as 3,000 agricultural workers (most of whom are expected to return to the soil) 3,000 commercial workers, 5,000 industrial workers, 12,000 building tradesmen and 7,000 formerly engaged in lumbering or related forest trades. The geography of this Province limits the number that can be returned to the soil and transport deficiencies with shortages of critical materials poises a problem with the balance. Public works projects is not the solution in this province.

The same high percentage of unemployed employables exists in other Provinces, but except in the highly industrial areas, movement to agriculture and public works projects can readily expected, provided the wages offered exceed the unemployed or part-time incomes now paid to industrial workers.

A reduction in mass unemployment can be effected if it is possible to:

a) Institute a Public Works Program including such self liquidation projects as reforestration, control of soil erosion, irrigation, improvement and extension of inland waterways, land reclaimation, etc. etc.

b) Revitalize those industrial plants (having raw stocks on hand) possible of conversion from critical fuels to electric energy.

c) Reactivate plants and shops whose work will contribute to improvement of rail, road and water transport.

The continuation of the policy of "banning discharges" of industrial workers, the purpose of which is to prevent additions to the present large masses of unemployed, unless changed at an early date, will create a situation for worst, as industrial bankruptcy will be the end of many small

3714

Declassified E.O. 12356 Section 3.3/NND No. 785021

Province limits the number that can be returned to the soil and transport deficiencies with shortages of critical materials poises a problem with the balance. Public works projects is not the solution in this province.

The same high percentage of unemployed employables exists in other Provinces, but except in the highly industrial areas, movement to agriculture and public works projects can readily expected, provided the wages offered exceed the unemployed or part-time incomes now paid to industrial workers.

A reduction in mass unemployment can be effected if it is possible to:

a) Institute a Public Works Program including such self liquidation projects as reforestration, control of soil erosion, irrigation, improvement and extension of inland waterways, land reclaimation, etc. etc.

b) Revitalize those industrial plants (having raw stocks on hand) possible of conversion from critical fuels to electric energy.

c) Reactivate plants and shops whose work will contribute to improvement of rail, road and water transport.

The continuation of the policy of "banning discharges" of industrial workers, the purpose of which is to prevent additions to the present large masses of unemployed, unless changed at an early date, will create a situation for worst, as industrial bankrupcy will be the end of many small or medium-sized organizations, most of which, while not directly geared to the northern industry, never the less must be considered as part of the economic life of Italy.

14. LABOR UNREST

There has been relatively little labor unrest, when compared with reports coming from other Regions. The reason appears to be the methods adopted in the first days of conferring with labor groups and the " heart-to-heart" talks concerning the aims and objects of the AC/AMG Labor Program.

Of the numerous disturbances, effecting workers, but a few were caused by dissatisfaction with wages or working conditions, when the analysis of the causes were examined. The greater part of agitations, work stoppages or strikes were caused by activities of political parties, or groups of citizens protesting costs of

Declassified E.O. 12356 Section 3.3/NND No. 785021

living, shortages or foodstuffs, etc., etc. and generally included wage or salary complaints to "round out their complaints".

A recent work stoppage in Venezia involving an estimated 50,000 or more workers, stopping work of public utilities, and at military units, including rest camps on the Lido, and Venice hotels, was in protest over Epuration matters and labor joined in just to present a solid front. There were no demands envoling wages, all being related to the methods and appointments of the epuration committee.

15. CONCLUSION

It is the opinion of the Labor Division of Venezie Region that the task assigned to it has been completed and that the present duties consist generally to examine and prepare wage orders resulting from RIJAC recommendations.

The entire Labor Office organisation is operating as a unit and the transfer from AMG/AC control to that of the Italian Minister of Labor and Welfare can be made at any time.

Harold H. Bailey Capt

REPORT OF THE SECOND MEETING OF THE REGIONAL ITALIAN
JOINT ADVISORY COMMITTEE.
VENEZIE REGION.

---

1. The Regional Italian Joint Advisory Committee of Venezie Region held their second meeting in the office of the Regionale Labour Office, Venezie Region, located at 3584 Campo S. Angelo, on the 16th. of July 1945, in Venezia city.

2. The following members of the Committee were present:

Dott. Mario Scandellari - representing the State, and president of the Committee.
Rag. Antonio Dall'Armi - representing the employers and vice-president of the Committee.
Dott. Guido Calo' - representing the workers.

3. Also present were Captain Lionel H. Bailey, Regional Labour Officer; Dott. Luigi Mauro, Director of the Regional Labour Office, Venezie Region.

4. The questions submitted to the Committee for examination are as follows:

RECOMMENDATIONS APPROVED

PADOVA PROVINCE.

a) Recommendation No. 1 - (new No.) -
A recommendation by the INAM of Padova for the payment of an indemnity of "carovita" to the employees of Agents of the Insurance Companies of Padova Province.

b) Recommendation No. 2 - (new No.) -
A recommendation to approve the Milan agreement for employees of the Banca Commerciale Italiana dated 12 July 1945, for the payment of an indemnity of carovita to all workers in northern Italy.

c) Recommendation No. 3 - (new No.) -
Same as (b), but for employees of the Credito Italiano whose principal office is located in Genoa.

d) Recommendation No. 4 - (new No.) -
Same as (c), but for employees of the Banco di Roma whose principal office is located in Roma.

3341

VENEZIA PROVINCE.

a) Recommendation No. 10 - (new No.) -
Recommendation for approval of an indemnity of carovita for all commercial workers for the Province.

b) Recommendation No. 11 - (new No.) -
Recommendation for the approval of an monthly indemnity of "contin-

./.

Declassified E.O. 12356 Section 3.3/NND No. 785021

genza" for all employees of the Savings Banks (Cassa di Risparmio of Venezia Region.

c) A request to the Regional Commissioner for consideration of an increase in the wages of workers on public works in Venezia Region, including a special allowance for work certified by the public Works Division and the Genio Civile as especially dangerous or harardous; as an emergency or of military necessarity, the elimination of the indemnity of war; because this class of workers are not included in the Milan Industrial Agreement.

d) A request to the Regional Commissioner for the implementation of the "Spinelli" Decree in all Venezia Region; as it regards the rates of wages; and not including other clauses of this decree. This request is based on the fact that the rates of wages of this decree have been adopted by some, but not by all industrialists, and an uniform basic wage is desirable.

e) A request to the Regional Commissioner for the implementation to all industrial workers of Venezia Region of the decree of the Italian Government; immediately upon issuance, relating to carovita.

f) A request to the Regional Commissioner for the implementation in Venezia Region for all offices of the Banca d'Italia of the increases in salaries agreed by the Head Office of the Bank in Rome employees, when AMG approval is given in Rome.

RECOMMENDATIONS DISAPPROVED

PADOVA PROVINCE.

a) Recommendation No. 5 - (new No.) -
Recommendation to approve agreement of the indemnity of carovita for all industrial workers.

ROVIGO PROVINCE.

a) Recommendation No. 6 - (new No.) -
Same as No. 5.

TREVISO PROVINCE

a) Recommendation No. 7 (new No.) -
Proposal of the PIJAC for approval of an agreement recommended by the CLN of an indemnity of carovita for industrial workers.

b) Recommendation for approval of an indemnity of integration of wages for the employees of the "Societa Anonima Elettrica Trevigiana".
Recommendation No. 8 - (new No.) -

VENEZIA PROVINCE.

a) Recommendation No. 9 - (new No.) -
Same as No. 5.

genza" for all employees of the Savings Banks (Cassa di Risparmio of Venezie Regions

c) A request to the Regional Commissioner for consideration of an increase in the wages of workers on public works in Venezie Region, including a special allowance for work certified by the public Works Division and the Genio Civile as especially dangerous or harardous; as an emergency or of military necessarity, the elimination of the indemnity of war; because this class of workers are not included in the Milan Industrial Agreement.

d) A request to the Regional Commissioner for the implementation of the "Spinelli" Decree in all Venezie Region; as it regards the rates of wages; and not including other clauses of this decree. This request is based on the fact that the rates of wages of this decree have been adopted by some, but not by all industrialists, and an uniform basic wage is desirable.

e) A request to the Regional Commissioner for the implementation to all industrial workers of Venezie Region of the decree of the Italian Government; immediately upon issuance, relating to carovita.

f) A request to the Regional Commissioner for the implementation in Venezie Region for all offices of the Banca d'Italia of the increases in salaries agreed by the Head Office of the Bank in Rome employees, when AMG approval is given in Rome.

RECOMMENDATIONS DISAPPROVED

PADOVA PROVINCE.

a) Recommendation No. 5 - (new No.) -
Recommendation to approve agreement of the indemnity of carovita for all industrial workers.

ROVIGO PROVINCE.

a) Recommendation No. 5 - (new No.) -
Same as No. 5.

TREVISO PROVINCE

a) Recommendation No. 7 (new No.) -
Proposal of the PIDAC for approval of an agreement recommended by the CLN of an indemnity of carovita for industrial workers.

b) Recommendation for approval of an indemnity of integration of wages for the employees of the "Societa Anonima Elettrica Trevigiana".
Recommendation No. 8 - (new No.) -

VENEZIA PROVINCE.

a) Recommendation No. 9 - (new No.) -
Same as No. 5.

FILE NO : RXII/LA/102.C2

1. Attached is a copy of a report on Labor agitation, Venezia Province. This report was sent to this office by the Ufficio del Lavoro, Venezia Province.

L. H. Bailey Capt

L. H. BAILEY
Captain
Regional Labor Officer

Declassified E.O. 12356 Section 3.3/NND No. 785021

INFORMATION ON POPULAR AGITATIONS

The workers of Venice and of the Venice Province, especially in the sector of industry, showed in the last two months a great and nearly uninterrupted restlessness, expressed from time to time:

a) in expressing peremptory requests to employers, without suspending their work;

b) short abstensions from their work in factories or offices, just for a demonstration;

c) in real strikes lasting one ore more days.

---

a) POPULAR RIOTS: On 20th June 1945 - Some classes of the people in Venice city and especially near the food markets of Rialto, made a demonstration against the excessive cost of food stuffs.

b) SUSPENSIONS OF WORK: on 18th June 1945

1st) the industrial workers of Venice city , Mestre and Marghera left their work by mutual consent and notice for half a day;

2ns) on 5th June 1945 - the civilian employees of english militaries before receiving 30 lire indemnity, went on strike as their pay of 80 lire was inferior to that of private firms;

3rd) on 12th July 1945 - the personnel of credit concerns arranged to suspend their work for their category abstening then from carrying it out having got into touch with the Finance Officer;

4th) on 13th and 14th July 1945 - the personnel of the Agents of Insurance Companies declared they would suspend their work for two days, according to what it would have appened in neighbouring Provinces. This suspension of work did not take place in Venice as they came into touch with the Provincial Labour Office.

Declassified E.O. 12356 Section 3.3/NND No. 185021

5th) on 16 th Yuly 1945 - the personnel of Limited Comp. Commercio Carboni e Affini stopped their workeduring all the day. Already on 7 and 9 of July there had been an abstension for about two hours, on the part of a dozen workers.

6th) on 16th July 1945 - the personnel of the Pastifi cio (factory for soup paste) SANTI of Carpenedo declared thpy would suspend their work, and after ward they abstained (themselves from carrying out such suspension having come into touch with Provincial Labor Office.

7th) 18th July 1945 - A suspension of work by all categories of workers, including the staff employed in public service, is carryng out at present time.

The reasons of such phenomenon are of a politic-economical nature. Workers regret, directly or through the Camera del Lavoro, the persisting and the greater and greater difference between prices and wages, riferring themselves to an increase of cost of living hap ened just in the month of May and June, with an interferring period of rarefaction of foodstuffs.

Another reason of discotent are the requests of purifying and of a greater preference of local elements in the administration.

The workers who suspended their work on 18 June 1945 were of several thousands.

The staff of Banks who threatened the suspension of work on 12 July was of about one thousand people.

The staff of Insurance Agencies who threatened to suspend their work on 13 and 14 July was of about 70 people, to whom it is to be added the 700 dependants of General Insurances, who were asked for their adhension for sake of solidarity.

The dependants of Limited Company Commercio Carboni ed Affini protested because they did non receive the instalments required for contingency indemnity.

The dependants of the Pastificio SANTI of Carpenedo, protested because they did not receive the payment of the contingency indemnity for the month of June.

Declassified E.O. 12356 Section 3.3/NND No. 185021

It is not yet possible to specify exactly the number of workers who are abstening (themselves) from work this day 18 July 1945.

Industries have no damage to their plants. In fire works, some workers maintained furnaces alight. It is not possible to know the effects of this day's strike.

Venice, 18 July 1945

To day's abstension from work, in any way, depends from strictly political reasons, concernig once more purifying, administrative decentralization and similar things.

SUBJECT: Wage Rates of Port Dredging Workers at Venice

TO : Public Works and Utilities Sub-Commission

1. Reference your 073/VE/1/PWU of 21st July 1945.

2. As the workers concerned are employees of the State, their rates of remuneration are governed by and are the responsibility of the Italian Government.

3. You will no doubt be aware that Italian public servants wage decrees, Nos. 188, 328 and 116 have recently been implemented in Northern Italy, thus bringing salary wage rates of public servants in that territory into line with those obtaining in Central and Southern Italy.

4. The last mentioned Decree, viz. No. 116, was implemented on 15th July 1945, with retroactive effect as from 1st August 1945, and it is thought that the Ministry of Public Works was not aware of this fact when their letter of 17th July, 1945 was written.

5. In all probability Decree No. 116 will be made retroactive to 1st May 1945 in the course of the next few days.

6. It is thought that the implementation of the above-mentioned Italian decrees, when applied to the workers of the Port Dredging Service at Venice will meet the position as described in the letter of 17th July 1945 from the Ministry of Public Works.

MINISTRY OF PUBLIC WORKS
General Direction of Maritime Works
Port Dredging Service.

17 July 1945

Reference: 639
To : Public Works and Utilities Sub-Commission.

Subject: : Workers employed on Port Dredging Service at Venice.

The Port Dredging Autonomous Section at Venice employs 240 workers (chief -dredger, boatswains; chauffeurs, sailors) who are working on the dredgers of that Section.

Said workers are continuously agitated, since they are paid wages definitely not adequate to the cost of living.

In fact, monthly wages paid to a/m workers are the following:

1) Sailors	2,575 Lire
2) Stokers and similar	2,760 Lire
3) Engine foreman & sim.	2,840 Lire
4) "Capi Scalo " & sim.	3,074 Lire
5) Chief Dredger 2nd Class	3,125 Lire

Said wages refer to married workers with 3 sons.-

On the other hand the prices of foodstuffs are greatly increasing day by day bringing the average cost of living t the level of central and Souther Regions.

An increase of 2.000 Lire per month to married workers and 1.150 Lire to single workers has been announced for current month, as an advance on future increases of wages.

But even this provision does not satisfy the workers who think that, when sums for paying such advances will be made

3330

Declassified E.O. 12356 Section 3.3/NND No. 785021

ailable , the benefit will already be absorbed by a further increase of living cost.

On the contrary the net total wages paid by the corresponding categories of workers in the areas already handed back to Italian Administration are the following:

1) Sailors	7.075	Lire
2) Stokers & sim.	7.275	Lire
3) Engine foreman & sim.	7.375	Lire
4) Caposcali & Sim.	7.575	Lire
5) Dredger Chiefs 2nd class	7.900	Lire

The unrest of the personnel at Venezia has also been caused by the fact that the workers employed by private companies, or even public cos. (such as Azienda Comunale Navigazione Interna Lagunare, the Arsenal, etc.) have already obtained remarkable improvements, while nothing was obtained by the workers under this Ministry.
Furth r more, the workers of private industry have received the "Premio di Liberazione" which has been supsended for the persons under Public Bodies.

In order to prevent that said unrest can cause disturbances, and considering that the workers request is fair and reasonable, we beg your Sub-Commiss on to instruct the Allied Co mand at Venice to kindly examin this claim at earliest.

for THE MINISTER
(sgd) Bruno.

REF : LSC/611/1002

16 July 1945

Dear Minister,

It has been brought to our notice that on 26 June 1945 the C.L.N. for Venezia Region issued an Order of the Day regarding payment of wages to all employees of private and public undertakings who were obliged to absent themselves from work to avoid Fascist persecution. The Order provides that in respect of the whole period of absence from work these employees should receive, from their normal employer the full wages including bonuses and indemnities that were paid to their colleagues who remained at work.

The June agreement regarding the functions of Comitato di Liberazione Nazionale makes it clear that the Committees are to operate in an advisory capacity only. It is suggested, therefore, that in issuing an Order of the Day on a wages question the Venezia Committee has exceeded its scope, and the Committee should have been content, acting in an advisory capacity, to submit its views through existing negotiating machinery. In addition it is the opinion of this Labour Sub-Commission that the question of payment of wages during periods of absence is one of general application, which will be met with in many parts of Northern Italy. It seems therefore desirable that unilateral action in the Venezia Region should be avoided until the Italian Government and A.M.G. have agreed a clear policy that can be applied to all Northern Italy.

If you agree with these views, and if you see fit, perhaps you will inform the Venezia C.L.N. that it is not acting within its agreed functions in issuing orders of this nature and that the question should be raised in the proper quarter, for consideration through existing joint negotiating channels.

Yours faithfully

REF. : LSC/811 16 July 1945

SUBJECT : Order of the Day by Venezie C.L.N.

TO : Regional Commissioner, Venezie Region.

1. Reference is your letter of 8th July 1945 on file RXII/025.16 forwarding an Order of the Day by the C.L.N. for Venezie Region relating to payment of wages to workers who absented themselves from work in order to avoid Fascist persecution. The C.L.N. instructed that such employees of public and private undertakings as had been absent from work should, in respect of the whole period of absence, receive the full wage, bonuses and indemnities that their colleagues who had remained a work, had drawn.

2. The question has been referred to the Italian Ministry of Labour and it has been suggested that the Venezie C.L.N. has, by issuing this Order of the Day, exceeded its functions. As prescribed by the June agreement CLN's are to act in an advisory capacity only. It has also been pointed out that the question is one of general application and unilateral action for Venezie may prejudice any attempt by the Italian Government, in conjunction with AMG, to define a policy for the whole of Northern Italy.

3. The Italian Ministry has been asked to inform the C.L.N. accordingly and to arrange for the question to be submitted through existing channels for joint negotiation and agreement.

1. The Regional Committee of National Liberation of Venezie Region has brought to my notice the attached Order of the Day.

2. The President of the Regional Committe informs me that the numbers of persons covered by this proposed regulation will not be large. That however is a statement I am inclined to doubt.

3. I submit the matter for your consideration thinking that you may have had similar recommendations from other sources.

COMITATO DI LIBERAZIONE NAZIONALE REGIONALE VENETO

(C. L. N. R. V.)

SEDE: PALAZZO DEI X SAVII (RIALTO) - TEL. 26-030/26-001 - VENEZIA

N. 38

(da citare nella risposta)

Venezia, li June 26th 1945

The Regional Committee of the National Liberation of the Venezie Region has deliberated the following pre=position:

All the private and pubblic Administrations must provide to pay those dependants who were obliged to go away and leave thier work in cause of German and Fascist resear=ches and persecutions.

The retribution runs fromthe first day of their ab=sence until the day af their re-engage and in this remuneration must be included the very same indemnities and emoluments received by their collegues that were always present on work.

This treatment must be given to all the families of those who were condemned to death by the nazi-fascist 's Autho=tiries and those families whose relatives were confined or we=re prisoner.

Who will not perform this proposal, beside all the political responsabilities, shall be responsable also, towards their own dependants, to have not fulfil the payiment of the wages.

In case of any difficulty or impossibility to find out the self-interested person, the Management shall interest the fabric's Committee at once.

1. Reference your letter of 12th July on file LA/102.02 enclosing copies of wage proposals from Padova and Treviso Province.

2. You will have received copies of this Office Memoranda of 12th and 14th July on file L90/413 relating to Wage Policy for Industry in Northern Italy. It is therefore assumed that decisions have now been given on the PIJAC proposals on the basis of their conformity to the Milan agreements. If the position is not yet clear perhaps you will get in touch with us again.

3. If the minutes dated 26th June that were enclosed with your letter do in fact relate to the PIJAC meeting, it is pointed out that the Committee refers to itself through the Minutes as C.L.N. No doubt you will correct any misunderstanding that there may be regarding PIJAC organisation.

AGREEMENT FOR THE PAYMENT OF A "HIGH COST LIVING" INDEMNITY TO THE WORKERS.OF INDUSTRY IN THE PROVINCE OF PADUA

In the year 1945 the 21st June, in Padua, by the Provincial Office of Labor.

BETWEEN

the Association of Manufacturers of the Province of Padua, repre=sented by the Commissionary Mr. Libero Marzetto and by Dr. Albano Pessi.

AND

the Confederative Trade Unioj of the Province of Padua, representa=ted, as to the presente agreement is concerned, by Mr. Candido Ales sandro, Franceschini Alberto e Turra Francesco.

having been found reasonable the necessity of relieving to the wor=kmen thecincrease of living cost, and in reference to the general Order n.28 of AMG art(4th) the present agreement is arranged.

Art. 1st

The " high cost living" is conglobated in an horary remunera=tion which includes the pay too.

This horary remunaration is gradual according the various ca=tegories of work and varies according to the sex and the age of the workers. The all according to the prospect herewith inclosed.

Art. 2nd

The "high cost living" indemnity will be calculated d ducting from the horary remuneration, indicated in the prospect herewith, the least contractual pay due on 3rd April 1945, according to the decrres published within this date, even if, really, it was not p ed.

Art. 3rd

The payment of the horary remunerations, indicated in the pro=spect herewith, will date from the 4th inst. It will be applied in the whole foe the workmen who belong to the Firms that have their residence in the chief-town of the Province. For the workmen of the industrial factories the residence of which is in the Parishes of the Prov nce, the "high cost living" indemnty will be reduced of the 10%.

Art. 5th

If the employer can demontrate the absolute impossibility on the part of the Firm to Keep working all the workmen or a part of them, and this is certified by the Italian Provincial Compound Con=

Declassified E.O. 12356 Section 3.3/NND No. 785021

kmen thecincrease of living cost, and in reference to the ganeral Order n.28 of AMG art(4th) the present agreement is arranged.

Art. 1st

The " high cost living" is conglobated in an horary remunera=tion which includes the pay too.

This horary remunaration is gradual according the various ca=tegories of work and varies according to the sex and the age of the workers. The all according to the prospect herewith inclosed.

Art. 2nd

The "high cost living" indemnity will be calculated deducting from the horary remuneration, indicated in the prospect herewith, the least contractual pay due on 3rd April 1945, according to the decrres published within this date, even if, really, it was not p ed.

Art. 3rd

The payment of the horary remunerations, indicated in the pro=spect herewith, will date from the 4th inst. It will be applied in the whole foe the workmen who belong to the Firms that have their residence in the chief-town of the Province. For the workmen of the industrial factories the residence of which is in the Parishes of the Province, the "high cost living" indemnty will be reduced of the 10%.

Art. 5th

If the employer can demontrate the absolute impossibility on the part of the Firm to Keep working all the workmen or a part of them, and this is certified by the Italian Provincial Compound Con=sultive Commottee, the righ of adequate dismission will be recogni=zed (acknowledge) to the employer.

Prospect annexed to the agreement for the payment of a "high living" cost" indemnity to the workers of Industry in the Province of Padua. stipulated on 21st June 1945.

Treviso, 26th June 45

TO THE REGIONAL COMMISIONER
REGIONAL LABOR OFFICE

P A D U A

The local Confederal Trade Union presented to this Office a request for wage adjustments and for the payment of "libertation bonuses"! This request was before submitted to the local Provincial Italian Joint Advisory Committee, the opinion of which is to be found in the minutes of to-day's meeting.

This Management is of the opinion that the above re=quest, on which employers have not decisely agreed, has been elaborated too much in a hurry, without considering the circumstances and consequences that might make the actual bad economic conditions; here are some:

1° - They have not considered the disproportion that would result if a comparison is done with workers depending from local Public Bodies, whose pays are established by Government bodies.

2° - They have not done a distinction between basic wage and contingency wage, the latter to be determined in dependace of the cost of living.

If this essential distinction is not done, the following burdens would result:

a) for employers - 48 - 50 % more on the amount of retribu=tions for insurance contributions;

b) for workers - a very noticeable changeable increase with regard to the fiscal treatment of actual retributions, for deduction of income-tax cat. C.2, complementary tax ecc.

3° - They have not hold in consideration that such considera=ble increase, in this moment, would determine an increase of indutrial and commercial costs and, consequently, a neutrali=zation of the temporary benefits of workers and an increase of unemployment, as a consequence of dismissions which could not be avoid by employers in those firms which have no possibility to avail themselves on the prices of products.

Declassified E.O. 12356 Section 3.3/NND No. 785021

meeting.

This Management is of the opinion that the above request, on which employers have not decisely agreed, has been elaborated too much in a hurry, without considering the circumstances and consequences that might make the actual bad economic conditions; here are some:

1° - They have not considered the disproportion that would result if a comparison is done with workers depending from local Public Bodies, whose pays are established by Government bodies.

2° - They have not done a distinction between <u>basic wage</u> and <u>contingency wage</u>, the latter to be determined in dependace of the cost of living.

If this essential distinction is not done, the following burdens would result:

a) <u>for employers</u> - 48 - 50 % more on the amount of retributions for insurance contributions;

b) <u>for workers</u> - a very noticeable changeable increase with regard to the fiscal treatment of actual retributions, for deduction of income-tax cat. C.2, complementary tax ecc.

3° - They have not hold in consideration that such considerable increase, in this moment, would determine an increase of indutrial and commercial costs and, consequently, a neutralization of the temporary benefits of workers and an increase of unemployment, as a consequence of dismissions which could not be avoid by employers in those firms which have no possibility to avail themselves on the prices of products.

This Management, therefore, is of the opinion that the proposals submitted by the Trade Union must be elaborated again in accordance with employers in order to give to workers a reasonable wage and to permit to local industries to take again their activity as soon as possible, in order to diminish the unemployment.

MINUTES OF THE MEETING OF
26/6/1945

==========

Tuesday in the afternoon the C.L.N. had in the Palace of Govern= ment anextraordinary meeting. Were present the Prefect, the Mayor and some manufacturers, traders, agriculturists and representatives of Trade Union.

The following decisions were taken:

Agricultural sector. - The liberation bonus, having been requested by the representatives of Trade Union, was concedes as follows: £. 5000.= for political prisoners, £.4000.= for workers and employees, men and women, if they are head-family, £.3500.= for all other more than 16 yeares old, £.2000.= for those between 14 and 16.

The request was approved unanimously and the end for payment was fixed on 31st August 1945.

The above bonus will be at charge of the proprietors of the Re= gional Command of the Allied Military Government Venezie Region, and according to the principle that wages must correspond to efficiency both for men and for women, considering the actual situation in North Italy, wages are fixed as follows:

Specialized workers	£.	16,50	an hour
Common "	"	14,50	" "
Women	"	12,50	" "
Men Between 16 and 18 y. o.	"	10.==	" "
Women " " " " "	"	8.50	" "
Men and women under 16 "	"	7.==	" "

The representative of Trade Union wish thateven in Northern Italy be applied for metayage the allotment on a basis of 1/3rd to the proprietor and 2/3rd to metayer, as in South Italy.

Commercial sector.- The Libertation Bonus was required by Trade Union as follows: £.5000.= for political prosoners and £.4000.= (basis) for all other labourers, with the following distinctions:

Men head family	100%
" more than 18 y.o.	80%
" less " " " "	60%
Women head family	80%
" more than 18 y.o.	60%

3312

Declassified E.O. 12356 Section 3.3/NND No. 785021

than 16 yeares old, £.2000.= for those between 14 and 16.

The request was approved unanimously and the end for payment was fixed on 31st August 1945.

The above bonus will be at charge of the proprietors of the Regional Command of the Allied Military Government Venezie Region, and according to the principle that wages must correspond to efficiency both for men and for women, considering the actual situation in North Italy, wages are fixed as follows:

Specialized workers	£.	16,50	an hour
Common "	"	14,50	" "
Women	"	12,50	" "
Men Between 16 and 18 y. o.	"	10.==	" "
Women " " " " "	"	8.50	" "
Men and women under 16 "	"	7.==	" "

The representative of Trade Union wish thateven in Northern Italy be applied for metayage the allotment on a basis of 1/3rd to the proprietor and 2/3rd to metayer, as in South Italy.

Commercial sector.- The Libertation Bonus was required by Trade Union as follows: £.5000.= for political prosoners and £.4000.= (basis) for all other labourers, with the following distinctions:

Men head family	100%
" more than 18 y.o.	80%
" less " " " "	60%
Nomeh head family	80%
" more than 18 y.o.	60%
" less " " " "	40%

3312

Both for agricultural sector and for commercial sector, the above bonus is required for all the workers whowere employed in the firm on 29th April 1945, provided that thay had at those date a 3 months service's seniority.

Considering that is necessary to grat a minimus of 48 worh hours for a week, the following horary pays were requested:

Porters	£.	18.= an hour
Drivers and specialized workers	"	22.= " "
Shop clerks:		
till 18 years old	£.	2.500.= a month
more than 18 y.o. and not head-family	"	3.500.= "
" " " " " headfamily	"	4.500.= "
Shop managers	"	5.000.= "

For women pays are fixed in the proportion of 80%.

Declassified E.O. 12356 Section 3.3/NND No. 785021

Industrial sector.- Horary wages:

Day-labourers	£.	19.=	an	hour
Specialized day-labourers and common workers	"	22.=	"	"
Qualified workers	"	24.=	"	"
Skilled workers	"	26.=	"	"
Apprentices more than 18 y.o.	"	14.=	"	"
" less " " " (16-18)	"	12.=	"	"
" from 14 to 16 "	"	8.=	"	"

The wages for women are fixed in the proportion of 80%.
The Committee requires the manufacturers to apply the high cost of living indemnity which was established in the agreement between Trade Union and Manufacturers on 26/5/45 for the category of employees too.

Taking for granted that the industry employees, contrarily to trade employees, get salaries according to the new agreement which was effective on 2/3/45 with retroactivity to 1/1/45, and taking for granted that such an agreement is not adequate to actual needs of life industry employees, the representatives of Trade Union, being present some manufacturers, ask for an increase of the present salaries:

for employees	of	ist	category	40%
" "	"	2nd	"	50%
" "	"	3rd	"	60%

The C.L.N.P. require all manufacturers to observe the agreement stipulated on 26/5.45 and confirmed on 16/6/45 with retroactivity to the first period of payment after 15/5/45, and this for workers, whilst to employees all arrears according to the agreement to begin from 1/1/45, must be payed.

THE 4th MEETING

To-day, June the 30th, 1945, at ten hours the Committee has met. The President, the Vice- President, the Secretary, Mr. FERRARO GIUSEPPE are present, the President Dr. MARCELLO SIGNORI is absent because he is ill.

The order of the day is the following :

I° - Agreement for the paying of an indemnity "caro vita" in favour of the workers of the industry of Padova Province under the date of June 21st, 1945.

2° - Agreements for wage-increases to the dependants of the Azienda Elettrica Veneto Centrale and Azienda Elettrica Euganea, under the date June 12th, 1945 and June the 15th, 1945.

3° - Agreement for the determination of the pay for hour for mowing and threshing for the year 1945 under the date June 21st, 1945.

4° - Agreement for the definite determination of the compensations for the works of mowing and threshing for the year 1945 under the date June 28th, 1945.

5° - Agreement for the paying of an indemnity "caro vita" in favour of the drivers and prompters employed to threshing, dated June 28th, 1945.

The Secretary begins the seat reading and illustrating 3307 the agreement according to n. 1 of the order of the day; then he invites the present persons to say their opinions. After an attentive examination

Declassified E.O. 12356 Section 3.3/NND No. 785021

I° - Agreement for the paying of an indemnity "caro vita" in favour of the workers of the industry of Padova Province under the date of June 21st, 1945.

2° - Agreements for wage-increases to the dependants of the Azienda Elettrica Veneto Centrale and Azienda Elettrica Euganea, under the date June 12th, 1945 and June the 15th, 1945.

3° - Agreement for the determination of the pay for hour for mowing and threshing for the year 1945 under the date June 21st, 1945.

4° - Agreement for the definite determination of the compensations for the works of mowing and threshing for the year 1945 under the date June 28th, 1945.

5° - Agreement for the paying of an indemnity "caro vita" in favour of the drivers and prompters employed to threshing, dated June 28th, 1945.

3307

The Secretary begins the seat reading and illustrating the agreement according to n. 1 of the order of the day; then he invites the present persons to say their opinions. After an attentive examination of the single contracting clauses, the Committee expresses the following conclusions:

Having stated beforehand that by the application of this agreement the grape-shot war indemnities and any other indemnity previously (Art.4th) are abolished, the new increases, translated into percentage values on the whole pays given on April the 3rd, 1945, are about an average of 40% for the workers of the heads of the house and 70% for the others.

Declassified E.O. 12356 Section 3.3/NND No. 785021

Particularly, taking as an instance the pay of the metal-mechanical workers on April the 3rd, 1945, and fixed from the basis pay, grape-shot indemnity (considered as the 30% of the basis pay) and war-indemnity of L. 20.= (the last for the heads of the hause) the following percentages of increase may be reached : specialised workes, head of the house 40, 25%, non-head of the house 70,06%; qualified worker, head of the house 38,14%, non head of the family 70,94% ; comnon worker and specialised labourer head of the house 34;22%, non head of the family 69,85%; labourers heads of the house 39,49%, non heads of the house 78,37% ; labourers from 16 to 18 heads of the house 11,11%, non heads of the house 53,84%; women 1st category hedds of the house 50,32%, non heads of the house 75,95%; women 2nd category 49,94%, non heads of the house 78,28%; women 3rd category, heads of the house 35,97%, non heads of the house 61%; women from 16 to 18 heads of the house 9,43%, non heads of the house, 66,32%,

From the comparison of these date with those relative to the increase of the cost of living in these last months we notice that the agreed wage increases have been contained into modest limits. In fact it is enough to thinte that, according to the revelations of the Statistical Division of the Provincial Labour Office, the index of the cost of living for the town of Padua has been increased in the period June 1944, June 1945 from 100 to 300 about, and that the weekly expense in the first three weeks of the month of June for the only fooding of a type working family is about L. 2.640.

3306

Therefore the Committee takes notice of the tangible comprehension shown in such an accasion from the representatives of the workers

Declassified E.O. 12356 Section 3.3/NND No. 785021

70,94% ; comnon worker and specialised labourer head of the house 34;22%, non head of the family 69,85%; labourers heads of the house 39,49%, non heads of the house 78,37% ; labourers from 16 to 18 heads of the house 11,11%, non heads of the house 53,84%; women 1st category heads of the house 50,32%, non heads of the house 75,95%; women 2nd category 49,94%, non heads of the house 78,28%; women 3rd category, heads of the house 35,97%, non heads of the house 61%; women from 16 to 18 heads of the house 9,43%, non heads of the house, 66,32%,

From the comparison of these date with those relative to the increase of the cost of living in these last months we notice that the agreed wage increases have been contained into modest limits. In fact it is enough to thinte that, according to the revelations of the Statistical Division of the Provincial Labour Office, the index of the cost of living for the twn of Padua has been increased in the period June 1944, June 1945 from 100 to 300 about, and that the weekly expense in the first three weeks of the month of June for the only fooding of a type working family is about L. 2.640.

3306

Therefore the Committee takes notice of the tangible comprehen sion shown in such an eccasion from the representatives of the workers in merit to the complex actual economical problems in particular of their objective preccupation that a new dangerous increase in prices might correspond to a considerable increase of wages and of their will to contribute to the recovering of the financial situation with a great sacrifice of the represented class. Yet the Committee lets you benow that also the new wages may hardly guarantee the physiologic minimum strictly necessary to the worker and his family if it is not

Declassified E.O. 12356 Section 3.3/NND No. 785021

at once provided not only to an efficacious control on the prices but also to a considerable rebake of them.

Besides the Committee does not consider opportune the abolition of war indemnity of L. 20.- a day, abready disposed in favour of the workers heads of the house. With the mere and simple suppression of this indemnity it follows a Levelling of wages between heads of the house and non heads of the house which should have been avoited in determining an indemnity of "caro vita". It is true that the former enjorj the family allowances, but certainly it cannot be affirmed to the actual state that these allowances, which were unaltered in these last months, represent a proportioned advantage tothe greater charges of the worker head of the house. As an indemnity of "caro vita" has the aim to satisfy the greater exigencies of the worker in relation to the increased cost of living, it is clear that these exigencies must be considered in relation to the family situation of the worker; if, for istance, an increase in the of bread for the worker who has not family burden consist in a determined charge, for the worker, head of the house, this charge must be considered multi= plied for the number of the persons dependent on him.

Therefore, for the above mentioned reasons, it is proposed to dispose, also for the workers heads of the house, a pay preferably proportioned to the one abready determined in the new agreement for women workers with children.

Lastly, the Committee observes that it would be opportune to determine whether and when the indemnity of "caro vita" constitutes an integrant part of the retribution for particular effects.

With these reserves the Committee gives a favourable opinion

Declassified E.O. 12356 Section 3.3/NND No. 785021

determining an indemnity of "caro vita". It is true that the former enjorj the family allowances, but certainly it cannot be affirmed to the actual state that these allowances, which were unaltered in these last months, represent a proportioned advantage tothe greater charges of the worker head of the house. As an indemnity of "caro vita" has the aim to satisfy the greater exigencies of the worker in relation to the increased cost of living, it is clear that these exigencies must be considered in relation to the family situation of the worker; if, for istance, an increase in the of bread for the worker who has not family burden consist in a determined charge, for the worker, head of the house, this charge must be considered multi= plied for the number of the persons dependent on him.

Therefore, for the above mentioned reasons, it is proposed to dispose, also for the workers heads of the house, a pay preferably proportioned to the one abready determined in the new agreement for women workers with children.

Lastly, the Committee observes that it would be opportune to determine whether and when the indemnity of "caro vita" constitutes an integrant part of the retribution for particular effects.

With these reserves the Committee gives a favourable opinion to the agreement taken into examination, respectfully underlining the opportunity of a ready approval of the competent Allied Authorities which is worth to eliminate the actual situation of uncertamty and discomfort about the pay of labourers.

As to thr second peint of the order of the day, the Committee, after an examination of the contractual clauses, states that it is

Declassified E.O. 12356 Section 3.3/NND No. 785021

about agreements relative to a category of industry labourers who in the past time have anjoyed a particular regulation owing to the speciality of the made work. Therefore the Committee thintes it is opportune to keep such a difference corresponding to a real diversi ty of work conditions and it gives a favourable opinion for the approval of the twu agreements.

Then the agreements n. 3 - 4 - 5 of the order of the day are read. The Committee, after an attentive examination of the work condi tions of mowing and threshing and thr dispositions of the case, both for the past season and the actual one, unanimously decides to give a wholly favourable opinion to the pay disposed in the agreements of the order of the day. In fert, it deems concordantly to the represen= tatives of the agriculturems, that the application of the dispositions contained in the Regional Order n. 5 of June the 8th, 1945 and in the letter of the Lqbour Office of A.M.G. of June 26th, 1945, does not constitute a fair compensation for overtime labours and of particular difficulty, fulfilled in a situation of emergency.

Therefore the Committee asks, in conformity to the paragraph n. 3 of the letter June 29th, 1945 of the Allied Labour Office that the agreement for the works of mowing and threshing dated June 28th 1945, is approved by the competent Allied Authority and, conseguently, that this approval may be spread also to the agreements n. 2 and 3 of the order of the day.

About the agreement for the pay of an indemnity "caro vita" on behalf of the drivers, motorists and prompters for threshing, dated June 28th, 1945, we state that this agreement constitutes only a particular application of the tariffs disposed in the agreement of n. 1 of the order of the day, completed by a call to the local habits.

Declassified E.O. 12356 Section 3.3/NND No. 785021

tions of mowing and threshing and thr dispositions of ths case, both for the past season and the actual one, unanimously decides to give a wholly favourable opinion to the pay disposed in the agreements of the order of the day. In fert, it deems concordantly to the represen= tatives of the agriculturems, that the application of the dispositions contained in the Regional Order n. 5 of June the 8th, 1945 and in the letter of the Labour Office of A.M.G. of June 26th, 1945, does not constitute a fair compensation for overtime labours and of particular difficulty, fulfilled in a situation of emergency.

Therefore the Committee asks, in conformity to the paragraph n. 3 of the letter June 29th, 1945 of the Allied Labour Office that the agreement for the works of mowing and threshing dated June 28th 1945, is approved by the competent Allied Authority and, conseguently, that this approval may be spread also to the agreements n. 2 and 3 of the order of the day.

About the agreement for the pay of an indemnity "caro vita" on behalf of the drivers, motorists and prompters for threshing, dated June 28th, 1945, we state that this agreement constitutes only a particular application of the tariffs disposed in the agreement of n. 1 of the order of the day, completed by a call to the local habits.

Therefore this agreement too is proposed to be approved.

At 12.30 the meeting is over.

TO : H.Q. A.C. (Labor Sub-Comm.) 28 June 45

SUBJECT : Wage Adjustment for Harvest Workers, Venezia Region

FILE NO : RXII/LA/107.02

1. Agricultural workers engaged in the harvesting of wheat, rye and barley presented demands to their employers for an increase in their hourly rates. They also brought their economic condition to the attention of the Camera del Lavoro, Ufficio del Lavoro and AMG (Regional Agricultural Officer).

2. The requests were referred to the several Provincial Joint Advisory Committees who examined the problem and referred their recommendations to the Regional Joint Italian Advisory Committee in Venezia.

3. The RJIAC met on 16 June 1945 and recommended the following rates:

£ 10.50 for ordinary workers
£ 12.50 for specialized workers

These new rates represent an increase of approximately 80% over the rates of last year, and will be in effect from the beginning of the harvesting to 31 July 1945. The Agricultural Officer, HQ. AMG. Venezia Region approved these rates.

4. On Sunday, 17 June 1945, Mr. Proctor, LSC Rome was contacted by telephone and approval was given to this increase, therefore the Regional Commissioner issued an Order for increases in the Provinces of Rovigo, Padova, Venezia, Treviso and Udine.

SUBJECT : Wages Policy for the North

FILE NO : RXII/LA/107.011

1. The following report is rendered in conformance with your memorandum dated 4th May 1945, headed "Wages Policy for the North".

2. From 5th May 1945 to 16th June 1945 there were no wage increases granted.

3. From 16th June 1945 to 23rd June 1945 one wage increase was granted to all labourers engaged in the collection of the harvest of wheat, rye and barley during the season of 1945. These labourers were placed under the following wage scale:

Common Labourers ——— 10.50 lire per. hr.

Specialized Labourers — 12.50 lire per. hr.

3294

4. This wage classification is embodied in Regional Order No. 5. This wage is to be effective until July 31st, unless altered prior thereto.

SUBJECT: Harvest Wages.

FILE No: RXII/020.

1. It is essential to establish a settled wage for agricultural workers in the harvest fields in order that labor disputes shall not take place during this critical time.

2. Consultation has taken place with Prefects from six Provinces, the Regional Italian joint advisory committee on wages and labor, and with the agricultural and labor divisions. A Regional Order has, therefore, been produced establishing a harvest wage of lire 10.50 per hour for common labor and lire 12.50 for specialist labor. This wage is to be effective until July 31st, unless altered by this office.

3. The Regional Order is attached, to which you should give such publicity and support as is necessary to make it effective in your province.

REGIONAL ORDER No. 5

WAGES OF LABOURERS ENGAGED IN COLLECTING THE HARVEST.

WHEREAS negotiations are now in progress for the establishment of fair wages for agricultural labourers:

AND WHEREAS it is necessary to make provision immediately for the collection of the harvest for the year 1945

AND WHEREAS it is desirable pending the final settlement of rates of wages for agricultural labourers to establish temporary and provisional wage rates for labourers engaged in gathering the harvest of wheat, rye and barley:

NOW THEREFORE I, J.K. DUNLOP, O.B.E., M.C., T.D., Brigadier, Regional Commissioner, Venezie Region, Allied Military Government, by virtue of the powers vested in me, both in my own behalf and for and on behalf of the Senior Civil Affairs Officers, Allied Military Government, 5th and 8th Armies, hereby order as follows:

ARTICLE 1

This Order applies to all labourers engaged in the collection of the harvest of wheat, rye and barley during the season of 1945.

ARTICLE 2

Until further Order of the Allied Military Government the wages of labourers to whom this Order applies are temporar and provisionally fixed as follows:-

Common labourers - 10.50 lire per hour:
Specialized labourers - 12.50 lire per hour.

ARTICLE 3

It shall not be lawful either to pay or to receive wages in respect of labourers to whom this Order applies otherwise than

Declassified E.O. 12356 Section 3.3/NND No. 785021

establish temporary and provisional wage rates for labourers engaged in gathering the harvest of wheat, rye and barley:

NOW THEREFORE I, J.K. GOVERNO MILITARE ALLEATO
DELLE TRE VENEZIE

ORDINE REGIONALE N° 5

PAGHE DEI LAVORATORI IMPIEGATI NEL RACCOLTO.

Visto il progresso delle trattative in corso per un adeguamento delle paghe ai lavoratori dell'agricoltura,
E vista la necessità di provvedere immediatamente al raccolto dei prodotti per l'anno 1945;
E visto che in attesa dell'accordo definitivo relativo alle paghe e salari dei lavoratori dell'agricoltura è opportuno stabilire temporaneamente ed in via provvisoria le paghe dei lavoratori occupati nei lavori di raccolta del grano, orzo e segale.
PERTANTO ora io J.K. DUNLOP, O.B.E., M.C., T.D., Generale di Brigata, Commissario Regionale del Governo Alleato per le Tre Venezie, in virtù dell'autorità a noi delegata per me e per gli ufficiali superiori degli affari civili per la V° e VIII° Armata ordino quanto segue:

Art. I

Questo ordine è diretto a tutti i lavoratori occupati nei lavori di raccolta del grano, orzo e segale durante la campagna 1945.

3291

Art. 2

Fino a nuovo ordine del Governo Militare Alleato, le paghe per gli operai ai quali il presente ordine si riferisce sono temporaneamente e provvisoriamente fissate come segue:

Lavoratori ordinari - L. 10,50 per ogni ora
" specializzati - L. 12, 50 per ogni ora

Art. 3

Non sarà legale corrispondere o ricevere paghe diverse da quelle stabilite, per i lavoratori a cui questo ordine si riferisce, con l'articolo 2, ed ogni accordo tendente a stabilire paghe diverse da quelle fissate dal presente ordine sarà illegale ed assolutamente nullo a tutti gli effetti.

Declassified E.O. 12356 Section 3.3/NND No. 785021

17 June 1945

SUBJECT: Agricultural Wage Rates Padova - Venezia Region.

TO : Mr. Braine

1. Captain Bailey, Regional Labour Officer Venezia Region, reported some difficulty in regard to the wage rates payable to labour required for the wheat, rye and barley harvest in the Venezia Region.

2. The present standards of remuneration based on agreements negotiated as at January 1945 are as follows:

Labourers - 6,75 lire per hour;

Specializzati (threshing machine operators, etc.) 8,50 lire per hour.

The R.I.T.A.L.S have had this matter under consideration and have recommended that the rate for labourers be increased to lire 10,50 per hour and Specializzati lire 12,50 per hour. This recommendation is being considered by Brigadier General Dunlop, Regional Commissioner and it is understood that approval is being given for the increases to be put in operation forthwith for the harvest period, i.e. up to the 31st of July 1945.

3. It is of interest to note, as a comparison, that in the Montalto district of Lazio, an agreement was reached increasing the rate of agricultural workers of men over 16 years of age to 450 lire per day and for women and juveniles to 270 lire per day. This agreement which is effective as from the end of February 1945 is intended to cover the agricultural work during Spring and Summer.

Urgent. Regional Commissioners conference with all Provincial Commissioners and Heads of Divisions was held yesterday and Regional Commissioner had conference with 6 Prefects this morning. Following represents generally agreed opinion.

First. It is not possible to maintain General Order Number 41.

Second. It should be possible to exercise control at agreed higher levels on bread, minestra, flour, fats sugar and meat.

Third. Prices of other goods should be left to find own level subject to Special orders where necessary.

Fourth. There is necessity for immediate and definite scaling up of wages of Statal and Parastatal employees including Communal employes.

Fifth. Claims for increase in industrial and agricultural wages should be subject to normal methods of negotiation.

REF : L31/811 29 May 1945

SUBJECT: Venezia Giulia

TO : Legal Sub-Commission via Economic Section

1. This is in reply to your AG/4148/1/L of 25 May.

2. With respect to decrees of interest to this Sub-Commission it is not considered necessary to issue Regional Orders in lieu of implementation.

3. The subjects of the dissolution of Fascist syndicates, the guarantees of the rights to freedom of self-organization, and the establishments of Labour Offices are already covered by general order. It is assumed that General Order 28 will be used in the territory under consideration.

4. Were it not for the economic policy adopted for the North, it would be necessary to issue Regional Orders covering legislation providing for wage increases and payments under the family allowance system. Pursuant to the policy presently applicable to the North, however, these decrees are not being implemented there. It is assumed that the same policy will be in force for Venezia Giulia and consequently the preparation of a Regional Order is not recommended.

The wages part of the economic policy in the North is covered by General Order 41 which, it is assumed, will be posted in this territory.

3283

5. Decree No. 505 of 6 December 1944 (G.U. No. 36 of 24 March 1945) provides for the extention of Italian Social Insurance to employees of the Allied Forces. It is desirable that this protection be available to employees of the Allied Forces in Venezia Giulia but it is not known whether a Regional Order is necessary for this purpose.

To : A. C. (Labour Sub-Commission.) Date 26 May 1945

Subject : Labour Offices, Venezia Region.

File No: R XII/LA/23.1

1. As previously reported, visits have been made to Rovigo and Treviso Provinces, to start selections of Directors for the Labour Offices. On Saturday 26 May 1945 a trip to Verona is to be made to open the Labour Office there.

2. To-day, Captain Roberts, a Labour Officer, 5th. Army, visited the Regional Labour Office, Venice, and submitted budgets for all Provincial Labour Offices of Venezia Region, also for the Regional Labour Office, as approved by Col. Lane. All of these budgets indicated salaries in excess of those of the grades listed under 6 April 1945, Ref: LSC/811/1103. The Provincial Office in Verona has been opened, the Director appointed, General Order N.28 has been posted, and funds secured on the basis of the submitted budget. Difficulties will appear if salaries of personnel are reduced to meet the status of grades given in the a/m memorandum.

3. Since it appears that the salaries proposed in the memo of 6 April '45 are injustly low and will produce lower "take-home" money when some of the present indemnities expire, it is recommended that the schedule be reexamined.

3280

4. The recommendations of this officer will be submitted at an early date, and after conclusion of a survey of existing salaries for like work.

1. Reference your signal 7819 dated 17 May 1945, a report on the a/m Office follows:

a) The names suggested as possible candidates for positions in the Provincial Labour Office by Rome were rejected by both CLN and local officers. There is a general feeling that local offices should be occupied by local people. A list of candidates were obtained from the Prefect and the CLN, and Avv.Giovanni Giavi, of Venice, has been tenatively selected for Director, however he will not be available until 1 June. Pending his arrival the organisation of the office is under Avv. Giovanni Dalla Santa, who is to be recommended as Regional Labour Office Director.

b) The Fascist unions closed, but then reopened after consolidation, as reorganised unions. They were permanently closed on the posting of General Order N.28 although the CLN petitioned AMG for permission for them to continue to operate; and liquidation started by the Intendenza di Finanza. The Labour Office has opened offices in the ex-Industriale Union at S.Angelo Square, No. 3584. This is a three story building wholy occupied by the ex-union with living quarters of the premises for the custodian who must be employed by the Labour Office.

c) The salary rates agreed upon between the Minister of Labour and LSC, are below the levels for like work here, and many qualified persons applying for positions in the Labour Offices refuse employment because of the salary. For example, the custodian of the building, who also is employed as a messenger, formerly received in excess of 3.600 lire a month plus his living quarters, light, gas, heat and water; cannot receive

Declassified E.O. 12356 Section 3.3/NND No. 185021

a) The names suggested as possible candidates [illegible] in the Provincial Labour Office by Rome were rejected by both CLN and local officers. There is a general feeling that local offices should be occupied by local people. A list of candidates were obtained from the Prefect and the CLN, and Avv.Giovanni Giavi, of Venice, has been tenatively selected for Director, however he will not be available until 1 June. Pending his arrival the organisation of the office is under Avv. Giovanni Dalla Santa, who is to be recommended as Regional Labour Office Director.

b) The Fascist unions closed, but then reopened after consolidation, as reorganised unions. They were permanently closed on the posting of General Order N.28 although the CLN petitioned AMG for permission for them to continue to operate; and liquidation started by the Intendenza di Finanza. The Labour Office has opened offices in the ex-Industriale Union at S.Angelo Square, No. 3584. c) The salary rates agreed upon between the Minister of Labour and LSC, are below the levels for like work here, and many qualified persons applying for positions in the Labour Offices refuse employment because of the salary. For example, the custodian of the building, who also is employed as a messenger, formerly received in excess of 3.600 lire a month plus his living quarters, light, gas, heat and water; cannot receive more than 2.200 lire, including all indemnities as of 3 April. He is dissatified. A recommendation of new salary rates will be submitted.

d) The Provincial Labour Office has succeeded in hiring a few employees and is starting to function. The task of assembling records of the ex-unions is difficult because of water transport requirements and will require some time to complete. The collocamento office of Venice has been taken over by the Labour Office, and contains records of over 20.000 workers, employs at present 11 persons, and at present are "clearing" ex-workers returning from Germany. This latter work is estimated to last for another month. Special conditions in Venice may require the temporary employment of additional personal in excess of that shown on the organisation schedule.

L.W.J. Howells Captain;
Lionel H. Bailey, Labour Officer.

1. It has been decided that the procedure of implementation of Italian decrees will not be adopted in Venezia Giulia. The law to be administered there will be :-

(a) Italian law as existing at 8 September 1943 less any provisions (e.g. Fascist doctrines) which are excluded from operation in the territory; and

(b) AMG Regional Orders.

2. It should be pointed out that Venezia Giulia will be administered as an autonomous area and not as dependent from any central organisation in Rome or elsewhere.

3. It follows from this policy that a considerable number of Regional Orders will have to be issued to cover matters which in other AMG territory are regulated by Italian decrees. Examples are: payment of wages, agricultural regulations, blocking of commercial products, transportation.

4. Will you please notify this sub-commission by 29 May 1945 without fail :-

(a) What points should be covered by Regional Orders to be issued in Venezia Giulia;

(b) Whether the Orders to be issued on these points should consist of a redraft of the existing Italian decrees modified as necessary for the purpose of an AMG order or whether an entirely new policy should be adopted. In this case please indicate the policy.

W.E. BEHRENS,
Colonel,
Deputy Chief Legal Advisor.

LABOUR SUB-COMMISSION

JDF/pm

Tel.489081 - Ext. 204

REF. : LSC/311 - 1105 29 April 1945

SUBJECT : Staffing of Labour Offices.

TO : Regional Commissioner, Venezia Region.

1. The Minister of Industry, Commerce and Labour has suggested the following men for appointment to the labour offices which will be established in your region:

(a) Dr. LUIGI MAURO - Director of Regional Labour Office.
(b) Signor RENATO NOVELLI - Secretary General Regional Labour Office.
(c) Commandante MARIO RANIERI - Director or Secretary General of Venezia Provincial Labour Office.

2. Dr. Mauro is a division head at the Ministry of Labour in Rome. He is in charge of the Labour Offices Section and has supervised the organization of labour offices in liberated Italy and is considered an expert on labour law.

Signor Novelli and Com. Ranieri are presently employed at the Ministry of Labour and are considered experts in labour offices.

3. Since the labour offices which are established by the Allied Forces will eventually be under the jurisdiction of the Italian Ministry of Labour, we recommend that the names suggested by the Minister receive your consideration and, if it is at all possible, we urge their appointment.

REF : LSC/811

SUBJECT: Regional Labor Officer - Venezie

TO : Brig. J. K. Dunlop
Regional Commissioner, Venezia

1. We are assigning Captain Lionel H. Bailey (A), as Regional Labor Officer in Venezie Region, and I am writing to advise you that we think highly of him and that this allocation is intended to strengthen your position on the labor side. Captain Bailey is an American Officer who until recently has been in the Marche Region giving particular attention to the labor problems in Ancona. This port, as you know, is of considerable importance in connection with 8th Army and Captain Bailey has done well there. He knows 8th Army and its particular needs and practices, and I would suggest that if and when Trieste is developed as a port, he should give particular attention to the problems there. He should shortly be joining you for planning purposes at your temporary headquarters. As at present arranged, he should join you shortly after 1 May. Under present assignments his assistant, as Labor Officer, will be Captain John Giammarco. This Officer has knowledge of Italian and his ability to work with Italian civilians is a great asset. Captain Bailey is, however, outstandingly the better of the two and I understand that he has been recommended for advancement.
