2. The Chairman stated that the reason for the meeting was the disparity (which has been brought to their notice by employing units and by the Provincial Labour Offices) between WD wage order and those paid by local industry within the territory of 61 Area.

D.A.D.H. 2906 C.L.U. explained that the policy was to pay WD workers at rates which compared favourably with those paid by civil undertakings. The WD wished to be good employers and not to force civilians to work at a lower rate because there was no competition for employment at the moment.

He explained that in provinces other than ANCONA and MACDONALD there was considerable difference between WD rates

2. The Chairman stated that the reason for the meeting was the disparity (which has been brought to their notice by employing units and by the Provincial Labour Offices) between WD wage rates and those paid by local industry within the territory of 61 Area.

D.A.D.H. 2906 G.D.U. explained that the policy was to pay WD workers at rates which compared favourably with those paid by civil undertakings. The VI wished to be paid employees and not to force civilians to work at a lower rate because there was no competition for employment at the moment.

He explained that in provinces other than ANCONA and MACERATA there was a considerable difference between WD rates and local civil rates whereas in the provinces of ANCONA and MACERATA rates compared more favourably and there had been no complaints from the workers or from employing units. He suggested that the adjustment of the disparity in the other provinces should be made by bringing the Cost of Living Bonus to that paid in ANCONA and MACERATA. It was stated that this

course

should accord with the views recently expressed by Major F.B.H. BROWN, DALL (Civil) 2911 C.L.U. (FLORENCE Command).

3. Informers showing the disparity between wages paid by WD and those paid by Civil Industry in the provinces of ASCOLI PICENO, FERRARA, FLORENCE, AREZZO and SIENA (See Appendix 'A', 'C', 'E', 'H', 'I') were then examined. It was generally agreed that there was a considerable difference.

4. Further points were elicited as follows:-

- (a) Representative from 2906 CLU said that complaints had been received from Polish units in the Province of ASCOLI PICENO regarding the Cost of Living Bonus.
- (b) Representative 2911 CLU, spoke of Civilian complaints at FOLLINO.
- (c) Representative ONE, mentioned discontent at the Vehicle Park at FOLLINO.
- (d) Representative 20, quoted figures showing the increasing Cost of Living in the area. Suggested raising the cost of Living Bonus seasonally. Staff Capt. 'C' of Area however considered that it was not advisable to reduce wages even an increase had been authorized.
- (e) DALL 2906 C.L.U. advised that the province of VERDI be excluded from any recommendation that the meeting might make. VI rates in that province were already high owing to its proximity to ROME. They had been arrived at after lengthy negotiation with local labour authorities and no there had been no complaints recently, it was advisable to make no change.

5. The Sub-Committee, after consideration, recommended that during December 1945 the Cost of Living Bonus throughout 64 Area (from the Province of VERDI) should be standardized at the rates laid down in Appendix 'A' to 64 Area Routine Order No. 436 dated 12 AUG. 45 and 64 Area Routine Order 493/45 dated 4 Dec. 45.

These points are shown in Appendix 'J' to this report.

Subject: Adequate Pay for Labourers employed by Allied Forces in the Area EDASO - PORTO S. NICOLIO.

Ref: 10526 30/40.

Allied Military HQ ANCONA

Ref our letter No. 10450 dated 1 Sep 45 and further to your request received by us from the labourers concerned at EDASO.

Herewith included find a list of the names listed in this province (Assolo Piceno) during last August.

It is pointed out that, even ^{to} the more rigorous allowed by the rationing authorities and at the controlled prices, the majority of the food must be purchased by the labourers at black market prices.

These prices are reported in the last two columns of the attached list, which has been compiled by the Statistics Section of this Labourers Office.

According to the calculations that have been worked out by our Statistics Office the minimum cost of food alone for a normal size family amounts to lire 9276 monthly, at least this expenditure it would be necessary for a daily wage of lire 371 for 25 working days.

It is therefore easily understood that even increasing their wage to the amount of lire 225 a day the labourers will have to support themselves to the strictest economic and sacrifices.

It is therefore sincerely hoped that your HQ will consider this matter and increase the wage to the amount of lire 225 a day.

1. Attached as Appendix "A" to this letter is Special Comparison Table for PERNIA and VOLING.
2. It is suggested that there is a strong case for bringing the CLB of PERNIA and VOLING into line with CLB paid in ANCONA.
3. It is hoped that the resultant rates will be authorized without the necessity for calling a local sub-committee to deal with the matter.
4. With regard to TERNI, a local sub-committee was called by No. 1 District and the result of their proposals subsequently authorized in which at attached Appendix "B". It will be noted that not all grades employed and listed in the "Staff Book" received a raise in CLB.
5. It is suggested that in order to make the area uniform throughout CLB in TERNI should be brought into line with ANCONA. The result will make but a small difference in the actual rate of pay paid, but there will be simplification of administration and the elimination of inequality referred to in para. 4 above.

APPENDIX

Ref: 13VV/10/86/24

To: Staff Captain 'A'
Headquarters, 61 Area
D.M.I.

Could this unit please be informed whether there is likely to be an increase in the cost of living bonus for civilian employees in the Perugia Province.

It appears, from investigation, that in the majority of the surrounding Provinces there has been an increase, while here still operating on L.F.H.Q. last Instructions No 15 of 25 Mar 45, which laid down the basic rates of cost of living bonus as 75 lire for persons earning up to 120 lire daily in respect of employees paid by the day, and 1950 lire for persons earning up to 3000 lire monthly in respect of those paid by the month.

Your early reply would be appreciated as I have received a deputation from my Civilian employees in connection with this matter.

Subject:- Payment of Civilian Manager.

The Civilian Manager of the Luxe Hotel, who is an employee of the Proprietor, is at present in receipt of a salary of 7400 lire per month.

In view of the responsibility of his position and also of the size and importance of this hotel, I feel that this sum is a totally inadequate payment for his efforts, and that the amount of money he receives is too close to the payment made to lower grades of hotel employees.

Under these circumstances would you please ascertain whether it would be possible for special authority to be granted, so that this position could be reclassified.

This Hotel is the only de Luxe Hotel in Florence, and it is suggested that the application for this increase be made to augment the present payment by the addition of 4500 lire per month to his present salary.

D.A.C.L. 2906 C.L.U. explained that the policy was to pay WD war effort rates which compared favourably with those paid by civil undertakings. The WD wished to be paid employees and not to force civilians to work at a lower rate because the WD was in competition for employment at the moment.

He explained that in previous years other than ANCONA and MACERATA there was a considerable difference between WD rates and local civil rates whereas in the province of ANCONA and

2. The Chairman stated that the reason for the meeting was the disparity (which had been brought to their notice by employing units and by the Provincial Labour Officers) between WD rates and those paid by local industry within the territory of 51 Area.

D.A.D.A. 2906 G.D.S. explained that the policy was to pay WD workers at rates which compared favourably with those paid by civil undertakings. The WD wished to be good employers and not to force citizens to work at a lower rate because the way to competition for employment at the moment.

He explained that in previous years when ANCONA and MACCHIA there was a considerable difference between WD rates and local civil rates whereas in the Province of ANCONA and MACCHIA rates compared more favourably and there had been no complaint from the workers or from employing units. He suggested that the adjustment of the disparity in the other provinces should be made by bringing the Cost of Living Index to that paid in ANCONA and MACCHIA. It was stated that this

- (c) Representative OAZ. mentioned discontent at the Vehicle Park at FLORENCE.
- (d) Representative 13. quoted figures showing the increasing Cost of Living in the area. Suggested raising the cost of Living Bonus seasonally. Staff Capt. 'Q' 54 Area however considered that it was not advisable to reduce wages since an increase had been authorized.
- (e) DALL 2306 C.L.U. advised that the province of FEMOLA had refused from any recommendations that the meeting should be held. It was in that province were already high owing to its proximity to FLORENCE. ALLIED MILITARY HQ ANCONA.

In our letter No. 10490 dated 1 Sep 45 and further to your request received by us from the Labourers concerned at PDASO.

Herewith included find a list of the wages paid in this province (Ascoli Piceno) during last August.

It is pointed out that, owing to the war, no rationing was allowed by the rationing authorities and at the controlled prices, the majority of the food must be purchased by the labourers at black market prices.

These prices are reported in the last two columns of the attached list, which has been compiled by the Statistics Section of this Labourers Office.

According to the calculations that have been worked out by our Statistics Office the minimum cost of food even for a normal sized family amounts to lire 9276 monthly, so that this expenditure is would be necessary for a daily wage of lire 371 for 25 working days.

It is therefore easily understood that even increasing their wages to the amount of lire 225 a day the labourers will have to collect themselves to the uttermost economies and sacrifices.

It is therefore sincerely hoped that your HQ will consider this matter and increase the wages to the amount of lire 225 a day.

The Director

1. Attached as Appendix "A" to this letter is Special Comparison Table for PENNIA and POLINO.
2. It is suggested that there is a strong case for bring in the CLB of PENNIA and POLINO into line with CLB paid in ANCONA.
3. It is hoped that the resultant rates will be authorized without the necessity for calling a local sub-committee to deal with the matter.
4. With regard to PENNIA, a local sub-committee was called by No. 1 District and the result of their proposals subsequently authorized is shown at attached Appendix "B". It will be noted that not all grades employed and listed in the "Staff Book" received a raise in CLB.
5. It is suggested that in order to make the area uniform throughout CLB in PENNIA should be brought into line with ANCONA. The result will make but a small difference in the actual rate of pay paid, but there will be simplification in administration and the elimination of inequality referred to in para. 4 above.

Headquarters, 61 Area

Could this unit please be informed whether there is likely to be an increase in the cost of living bonus for civilian employees in the Perugia Province.

It appears, from investigation, that in the majority of the surrounding Provinces there has been an increase, with some still operating on A.E.R.C. Am Instructions 101 of 12 Mar 48, which laid down the basic rates of cost of living bonus as 75 lire for persons earning up to 420 lire daily in respect of employees paid by the day, and 1950 lire for persons earning up to 300 lire monthly in respect of those paid by the month.

Your early reply would be appreciated as I have received a delegation from my Civilian employees in connection with this matter.

The Civilian Manager of the 1/11 Hotel, who is an employee of the Proprietor,
is at present in receipt of a salary of 7400 lire per month.

In view of the responsibility of his position and also of the size and
importance of this hotel, I feel that this sum is a totally inadequate payment for
his efforts, and that the amount of money he receives is too close to the payment
made to lower grades of hotel employees.

Under these circumstances would you please ascertain whether it would be
possible for special authority to be granted, so that this position could be regu-
tified. 8927

This Hotel is the only de luxe Hotel in Florence, and it is suggested that
the application for this increase be made to request the present payment by the
addition of 4600 lire per month to his present salary.
