LABOUR SUB-COMMISSION

17 February 1945

SUBJECT: Exemption of Coal Miners from
Call-Up for Italian Army.

TO : Mr. W.H.BRAINE, Director Labour Sub-Commission.

1. I have discussed the question of exemption for coal miners from the Italian Army call-up with Major Stainton and Captain Archer of M.M.I.A. Sub-Commission.

2. Captain Archer informed me that their Sub-Commission has already acted on a request by the Regional Commissioner of the Sardegna region to exempt 300 coal miners which had been called up.

3. A signal sent to M.M.I.A. Sardegna Region on 8th February advised them that miners should be called up in the normal way. When they have been called up and inducted the C.M.S. (Comando Militare Sardegna) would then grant them a leave which would last for as long as the miners affected would remain at work in the mines. This method is to be followed for all miners who are called up. 91

4. I asked whether M.M.I.A. in Rome had considered the possibility of giving non-miners the choice of going to work in the mines when called-up in view of the shortage of mine labour. Captain Archer stated that Industry Sub-Commission had made a similar verbal suggestion but they are awaiting a written request.

5. M.M.I.A. does not look with favor on the suggestion made in paragraph 5. They will consider it, however, if the Italian Government indicates that they favor such a procedure and if other interested Sub-Commission of Allied Commission send them a written request.

JOSEPH DI FEDE
Labour Relations Adviser

FROM "IL LAVORO"
29TH September 1945

UNEMPLOYMENT AGREEMENT
for the purpose of protecting the war veterans
in conformity with C.G.I.L. policy.

In the Milan agreement of July 1945 reached between the organizations of workers and of industrialists, the action of the Interministerial Reconstruction Committee was requested in order to co-ordinate the struggle against unemployment and to predispose the measures to be adopted within 30th September. After numerous meetings held in these days in Rome between the representatives of the two Confederations, with the attendance of the President of the Interministerial Reconstruction Committee, Mr. Ruini, of the Minister of Labour, Mr. Barreschi, and the Undersecretary Lombardo, an agreement for a new arrangement was reached principally based upon two points of view. From one part the firms will be alleviated from the charge of surplus workers, through a measure of removing the accomplices of "C.V.R.A." and those punished by epuration because of their fascist activity, as well as discharging those who have other rents and personal or family resources and returning the workers engaged after 30 June 1943 to their original categories, with exception of war veterans, partisans, persons persecuted for political reasons and young apprentices. So the persons, rendered free in such manner will be granted, besides the benefits due for the discontinuance of the working contract and for unemployment, a daily allowance to the amount of 30 lire, until they find another occupation, and anyway not longer than two months. This charge is to be borne by the employers.

The second idea is the shortening of the weekly working time from 45 to 40 hours. By doing so, the employees will give up a working day and the respective pay, in order to render possible the reabsorption of unemployed labour, so as to give to veterans, partisans and persecuted persons absolute priority. 6003

In the cases in which 40 hours' weekly working time is not completed, an indemnity amounting to two thirds of the normal remuneration will actually be given, through "Cassa Integrazione" Salaries with the financial concurrence of the industrialists and the

State. With a view to extend the arrangement actually effective in the North, to the other regions, in order to get the economical and moral uniformity of Italy, the Confederations will meet as soon as possible for agreeing upon the convenient rules and modalities to be adopted in the matter. The interested parties will meet again within 31 December to concord, if need be, new provisions, also by taking into consideration the experience till then obtained.

THE TEXT OF THE ARRANGEMENT

Between the industrialists and C.G.I.L. the following agreement has been reached:

The two interested parties declare a priori to follow constantly the purpose and to comply with the preposition to improve and develop the production with the object also and principally to eliminate unemployment which represents a serious problem of economical, social and moral character, and for the solution of which all possible efforts must be done.

Not being quite sure for the incompleteness of the available data, if other measures may be necessary besides those now agreed upon by the two parties, the same parties decide to review, if necessary, the present arrangement, so that the work to be done may be divided amongst all workers, and to develop and adopt the method of working shifts.

After these premises the following decisions are agreed:

1. a) All persons who appear to have been working at the service of O.V.R.A. will be immediately discharged;
- b) workers who as a consequence of epuration process for fascist activity have been punished with at least three months' suspension, will be discharged;
2. Workers with other rents or sufficient personal or family resources will be discharged;
3. Firms will be alleviated and workers engaged after 30 June 1943 will be reinstated to their normal categories, with exception of war veterans, repatriated prisoners of war and internees, partisans recognized as such by AMPI, persecuted persons and political victims, and apprentices under 21 years.

To workers rendered free in this manner, will be

given, besides the benefits of unemployment and family allowances, by the employer:

(a) the economic treatment contemplated by the contracts for the discontinuance of the working relations;

(b) an indemnity of 30 lire per day for a maximum of two months, if the worker does not find an occupation within this period.

The family allowances and the daily indemnity will be paid at the dates of the pay periods.

4. The Firms which are working entirely more than 40 hours per week will reduce the working time to 40 hours, in order to reabsorb a corresponding quota of workers belonging to the same category, giving absolute priority to war veterans, partisans and persons persecuted for political reasons.

5. Workers who are working less than 40 hours per week will receive a wage integration amounting to two thirds of the remuneration and of the contingency indemnity equal to the missing time for completing 40 hours per week.

The 40 hours' working time with effect to the present agreement is calculated on the basis of the hours worked during a week, or on the average of a total of several weeks' employment according to whether the Firm has fixed the working time in relation to a single week or to a total of several weeks.

The integration will be paid by "Cassa Integrationse Salariale" with the contribution of 5% salary to be borne by the employer.

The State will concur to alleviate the payment of this indemnity with a contribution, the nature and modalities of which will be determined by appropriate legislative provisions.

6. The controversies which might arise in the application of the present agreement, including those which might render impossible the application itself in determined cases, will be submitted to the decision of a representative of the employers' organization (and workers' organizations?), in case of disagreement there will take place an award decision by a third member chosen by agreement of the two contracting parties, and in case of lack of this agreement, there will be a judge decision.

7. The arrangement described here above is effective for Northern Italy. In order to obtain complete uniformity of the national economy and life, the parties reserve themselves to meet within 14 October for extending the arrangement to the central and southern regions according to rules and modalities to be established between the representatives of the workers' and employers' organizations, with the consent of the Government.

8. The present agreement is effective until 31 December. The two contracting parties engage themselves to meet again within this date, in order to consider on the basis of the experience gained by them in the carrying out of the provisions of agreement, whether and what new agreements are to be concluded for reaching the common purposes as outlined in the premises hereof.

9. The agreement described above will be submitted to the final approval of the two Confederations and will be signed within 14 October 1946. Until that date the actual provisions will remain in force.

1. This is in reply to your inquiry by telephone. Under Italian law discharged soldiers of the Italian Army are entitled to reinstatement to their former jobs. There is a difference in financial benefits according to whether the soldier was an operaio or impiegato. The right to reinstatement, however, is uniform for both classes of employees.

MINISTRY OF INDUSTRY, COMMERCE AND LABOUR

Draft Legislative Decree concerning release of funds credited to workers called to arms as per Royal Decree 25 March 1943 No 314 which contemplates the redoubling of family allowances.

REPORT ON THE ABOVEMENTIONED DECREE

Royal Legislative Decree 25 March 1943 No 314, effective first Monday after October 1943, established the redoubling of family allowances for workers called to arms.

Article 5 of the aforementioned decree established that allowances due to the application of the redoubling of family allowances were to be credited by the Family Allowance Fund under the name of each worker called to arms. Such credited allowances enjoyed a 2.50% interest and were to be frozen up to the date fixed by Royal Decree.

The burden produced by the application of redoubling family allowances for workers of commercial, industrial and professional categories was on charge of the Government.

Following the discharge of the majority of workers from the army, it is now necessary to release the credited allowances in question; the attached decree provides for such release.

According to the attached decree the credited amounts may be released and freely paid to discharged workers starting from the day on which the decree enters in force.

In cases in which the worker is reported dead or missing the credited allowances shall be paid to the worker's dependants.

The modalities concerning the reimbursement of

partpayments made by the Family Allowance Fund, on Charge of the Government, are fixed by article 6 of the attached draft decree.

The provision is issued in accordance with the Ministry of Treasury as well as with the Ministry of Finance and Grace and Justice.
