SUBJECT : Mobilization of Italian Telecommunications : Personnel in Emergencies.

TO : Labour Sub Commission.

1. Reference your LSC/523/1002 of 18 January to Communications Sub Commission.

2. Para 2 of your letter asks the opinion of this Sub-Commission "on the validity of the statement at Para 7 (c) of the enclosure to AFHQ memorandum G/311.3 of 10th December 1945. viz..that under the terms of the Armistice the Allies have the right to demand the services of Italian civilian employees as labour to maintain the essential requirements of the Forces of Occupation, and that this right of the Allies is an obligation of these Italian civilians."

3. Art. 15 of the Armistice gives the Allied C. in C. the right to take over any communication stations. Art. 18 states that Allied Forces will occupy certain parts of Italian territory.

4. Art. 19 says that "in the territories or areas referred to in article 18," i.e. the parts of Italy occupied by Allied Forces, ".....all inter-communication installations..... ~~which~~ will be made available in good condition by the competent Italian authorities with the personnel required for working them." It should be noted that this obligation only relates to the parts of Italy occupied by Allied Forces.

5. After stating in Art. 20 that the United Nations will exercise all the rights of an occupying power in the areas occupied by Allied Forces the Armistice terms go on to provide that "in addition to the rights in respect of occupied Italian territories described in Arts. 18 to 20.....the Italian authorities will make available <u>on non-occupied Italian territory</u> all transport facilities required by the United Nations .....and will comply with instructions issued by the Allied C.-in-C. regarding the use and control of airfields....inter-communication systems." (Art.21B). The obligation to comply with such Allied instructions appears to relate only to non-occupied Italian territory.

./. 0427

Declassified E.O. 12356 Section 3.3/NND No. 785021

6. The terms upon which each restoration of territory to the Italian Government is made are "without prejudice to any rights, powers and immunities of the United Nations under the Armistice Terms heretofore granted to the Italian Government, all of which remain in full force and effect throughout all Italian territory."

7. The obligation under Art. 19 upon the Italian authorities to make available in good condition all ports and harbours, and all intercommunication installations is imposed in "the territories or areas referred to in Art. 18," which are stated to be certain parts of Italian territory which the Forces of the United Nations will require to occupy and which will from time to time be notified by the United Nations. Although, as mentioned in para 6 above, it has been a condition of each restoration of territory that all the Armistice terms remain in full force in all Italian territory, it is open to doubt whether the obligations imposed under Art. 19 still exist in those parts of Italian territory which are no longer occupied by Allied Forces. There remains, however, an obligation under Art. 21 B that the Italian authorities will on Italian territory not occupied by Allied Forces comply with instructions issued by C. in C. regarding the use and control of intercommunication systems. This is an obligation not imposed upon any persons or class of persons to perform particular services, but an obligation upon "the Italian authorities" to carry out any instructions issued by the Allied C.in C. regarding the use and control of airfields, ports, shipping, transport systems, and intercommunication systems.

SUBJECT: Suppression of the Military Hospital.

We have learned from to-day newspapers that this Military Hospital will be very soon suppressed:

This Labour Office, in spite of almost unsurmountable difficulties was successful in securing employment in the said hospital to several employees of both sexes; but now, as a consequence of the suppression in question the unemployment situation, which is already causing a great anxiety, especially during this winter season, is going to grow worse.

We must remind that in our province, where industries have expanded so scarcely, this Hospital, being one of the most important of Italy on account of the large area on which its activity is actually spreading, constitutes an important center, not only of sanitary but also of economic action, performing its function over six provinces.

We take therefore the liberty kindly to ask this Labour Sub-Commission to interpose its mediation for the purpose of obtaining at least a delay in the suppression of the hospital, so as to avoid the inconvenience that a great number of families should be deprived of the necessaries for life in this period of economic crisis and winter season.

SUBJECT: Mobilization of Italian Telecommunications Personnel in Emergencies.

TO : Communications Sub-Commission

1. This is in reply to Communications Sub-Commission's memorandum T.84.126.CS of 17 January 1946.

2. I should be glad to have the view of Legal Sub-Commission on the validity of the statement at Para 7(c) of the enclosure to AFHQ memorandum G/All.2 of 10 December 1945, viz., that under the terms of the Armistice the Allies have the right to demand the services of Italian civilian employees as labor to maintain the essential requirements of the Forces of Occupation, and that this right of the Allies is an obligation of these Italian civilians. It would be useful if reference could be made to the specific clause of the Armistice terms which imposes this obligation upon individual Italian civilians. It is possible that there is an obligation upon the Italian Government to maintain essential requirements, but it may not follow that the Italian Government must discharge this obligation by the employment of particular civilians.

3. The circumstances envisaged in which an interruption of communications might occur include strike action on the part of Italian civilian labor. The proposal is that individual strikers should be compelled to resume work under the threat of punishment in accordance with Law No. 461 dated 14 May 1940. In other words, it is suggested that a law made by the Fascist Government should be invoked in order to break a strike. It should be noted that the telephone employees are not necessarily State employees but may be employees of the telephone companies.

4. The Minister of Posts and Communications has prepared a draft decree on which he requests the observations of the Allied Commission. It seems inadvisable to instigate or approve a decree establishing a corps of strike-breakers in the event of a trade dispute of workers who are not Government employees.

U/2U

Declassified E.O. 12356 Section 3.3/NND No. 785021

5. The situation would be different if this decree proposed to set up a volunteer corps to maintain essential services instead of a corps compulsorily enrolled; but it is doubtful if the appropriate Italian trade union will permit their membership to volunteer for such a corps.

6. The above observations may be modified on evidence that the Armistice terms can be interpreted in the way suggested but on present consideration it appears that some other way must be sought of maintaining essential services either by the use of military personnel or by arriving at agreement between the Italian Government and the appropriate trade union as to the circumstances in which special services would be maintained although other services would be interrupted by a trade dispute.

TO : Under-Secretary of State for PP. & TT.

1. Reference is made to conversation with you on December 21 and proposed action by your Ministry in order to insure in case of strike or civil commotion no disturbance takes place of telephone communications of the Allied Military forces.

2. We are in agreement with the general plan outlined by you but what is now needed is a detailed and definite scheme of action. For example R.D. 1415, we understand, lapses when a state of war no longer exists. If legislation is passed declaring that a state of war no longer exists then simultaneously legislation would be needed to grant the Government powers to militarize telecommunications, a power now understood to be granted by R.D. 1415. It is also necessary that it be determined when and by whom action to militarize telecommunications would be taken.

3. Personnel essential to maintenance of communications must be established and lists of such personnel prepared and kept up to data at all strategic points. Each MARESPE regional engineer should have a detailed plan prepared which can be put into operation upon necessity arising.

It would be appreciated if a statement of action taken along above lines could reach this Sub-Commission by Jan. 7 1946.

SUBJECT: Italian Telephone System

TO : Headquarters, Allied Commission,
A.P.O. 394

1. Your attention is drawn to the attached memorandum setting out the safeguards required by the Allies against possible stoppage of work by Italian civilians employed on the telephone system.

2. The vital importance to the Allies of the uninterrupted functionning of the telephone system cannot be overstressed. With the increasing dependence upon Italian civilians for this work some apprehension is felt by AFHQ as to the possible causes of stoppage set out in paragraph 7 (a) and (b) of the memorandum and as to their remedy.

3. It is desired that you examine this problem in conjunction with the Italian Government with a view to removing possible causes of employment problems referred to above and also with a view to ensuring that rapid and effective proceeding can be taken against offenders.

4. A report as to the outcome of your examination is required by AFHQ.

SAFEGUARDS REQUIRED BY THE ALLIES AGAINST
STOPPAGE OF WORK BY ITALIAN CIVILIANS EMPLOYED ON
THE TELEPHONE SYSTEM

SITUATION

1. At the time of the cessation of hostilities in ITALY, the whole of the long line telephone system in ITALY was controlled by the Military authorities and operated to a very large extent by military personnel. This system had been largely destroyed during the course of the war and had been rebuilt from military material and by military labour.

2. With a view to relensing military personnel progressively during the period of occupation subsequent to hostilities, and at the same time to hand back to the Italians the long distance telephone system which will become increasingly essential to their economic recovery, a long term plan was drawn up embodying the following main features:-

(a) All material, with few exceptions, should be declared surplus by the British and American authorities and handed over to the Italians under certain terms.

(b) The Italians should in due course relieve Allied troops of the task of maintaining the system and should eventually assume full responsibility for the operation and maintenance of the system.

(c) When this latter stage had been reached, such Allied requirements as still remained for the Forces of Occupation should be provided by the Italians in a manner similar to provision of facilities for private customers by the GPO in UK, though under the terms of the Armistice these would be provided free.

3. It is to be noted that the Italian telephone organisation differs considerably from that in UK and other European countries inasmuch as there is no over-all authority, like the GPO or PTT, which controls, provides and operates the system. Prior to the war,

3. It is to be noted that the Italian telephone organisation differs considerably from that in UK and other European countries inasmuch as there is no over-all authority, like the GPO or PTT, which controls, provides and operates the system. Prior to the war, there was a State organisation called the Azienda di Stato which operated the long distance telephone system. The State underground cable which formed the basis of this system was maintained by a concessionary company called the Sirti. Apart from these, the country was divided into five areas in which the telephones were operated respectively by five different concessionary companies who relied on yet other concessionary companies to build their lines. The Azienda di Stato and the various concessionary companies had working arrangements but there was no over-all head to co-ordinate and control all their activities.

4. One essential feature of the long distance telephone system rebuilt by the Allies is that it is centrally controlled. Only in this way can it be efficiently maintained and economically used. As there was no Italian organisation capable of exercising

./.

declassified E.O. 12356 Section 3.3/NND No. 785021

this function which the Allies regarded as essential as long as they remained in occupation, the Italian Government has been prevailed upon to set one up. This organisation is called the MARESPE.

5. By 1 Jan 46, the situation will be also as follows:-

(a) MARESPE, working under the direction of the Ministry for Telecommunications, will provide a central office in ROME and regional offices at their main centres, NAPLES, BARI, FOGGIA, ROME, FLORENCE, BOLOGNA, and ANCONA. This organisation will provide the operatives at the fault controls and the carrier stations.

(b) The various concessionary companies concerned respectively will maintain the State underground cable and associated equipment, the overhead routes, and will also operate the civil exchanges within their areas. These civil exchanges will have militaly importance for some time to come since they cater for many military subscribers.

(c) CSO AFHQ will retain over-all control of the system through the agency of liason officers with executive powers at the headquarters of MARESPE and at all the fault controls. These officers will ensure that Allied requirements are expeditiously handled by the Italians. CSO AFHQ will retain for the time being a very small reserve of maintenance troops for emergency purposes should the Italian maintenance break down. This reserve will become progressively smaller as release and Python take their toll. CSO AFHQ will also operate, with both military and civil personnel, all the military switchboards, though the proportion of Italian civilians employed for this purpose will increase.

6. It will be seen from the above, therefore, that there will be three categories of Italian civilians employed on the long distance telephone system, namely:-

(a) The State employees in the MARESPE organisation.

(b) The concessionary company employees.

(c) Employees engaged directly by the Allies from the

(b) The concessionary company employees.

(c) Employees engaged directly by the Allies from the labour market.

7. As the number of Allied troops in the theatre diminishes, the Allies will become increasingly dependent on the Italians for the efficient operation of the long distance telephone services. It is, therefore, of paramount importance that measures be taken now to minimise the risk of stoppages of work which might occur as the direct result of labour strikes or as the indirect result of riots which might prevent employees from going to work. With the above object in view, the following

./.

Declassified E.O. 12356 Section 3.3/NND No. 785021

measures should be investigated at once:-

(a) To remove any legitimate grievances such as inequitable rates of pay. In this connection, it is to be noted that the Government rates are less than the concessionary company rates for the same services.

(b) To make provision for accommodating and feeding employees in circumstances which might prevent them from proceeding to and from their work, such as riots.

(c) To acquaint all employees of their obligations as Italians to the Allies under the terms of the Armistice. These obligations include the right of the Allies to demand their services as labour to maintain the essential requirements of the Forces of Occupation. It is suggested that the employees be acquainted with these conditions by some form of contract setting them forth which they should be required to sign.

(d) To take the necessary measures to ensure that sanctions can be expeditiously applied against any employee who defaults. These may take the form of trial by Italian courts, trial by military courts or re-imposition of Allied Military Government. It may well be ruled that the last measure may be incompatible with the Combined Chiefs of Staff policy of restoring control to the Italian Government. In this case, the first two measures should be examined to ensure that they can be put into force promptly and effectively.

1. You wrote to this office on 17 November 1945, Prot. No. 2113/101 G, regarding a census being carried out at the Treviso Provincial Labor Office. Insofar as the census appeared to be limited to unemployed regular soldiers, it was stated that discontent had arisen among members of the former Partisan Corps.

2. A full report has now been received and you will wish to know that at the Treviso Office ex-Partisans have been registered since 1 November on equal terms with ex-regular soldiers. The Provincial Offices of Belluno and Rovigo have confirmed that equal treatment has always been accorded to members of the regular Army and to ex-Partisans. It seems clear from the reports of the Provincial Directors that ex-Partisans should have no further grounds for complaint that they are being given less preferential treatment.

To : The Allied Commission - Labour Sub-Commission
Subject : Game producing Institute.

The extraordinary Commissioner of the Game Producing Institute, Prince Don Francesco Ghigi delle Rovere, has applied to this Ministry-to which supervision the said Institute is subject-informing us that on the initiative of the National Liberation Committee of Northern Italy of Milan (where, in the month of November 1943, the would be Republican Government headed by Mussolini had removed the offices and part of the capital assets of the Game Producing Institute), a certain Dr. Giuseppe Luzzatto has been appointed in a capacity as Commissioner of the above mentioned Institute. The said Dr. Luzzatto, according to what Prince Ghigi delle Rovere says, not only has taken a stand of opposition to the Central Office of the Institute of Rome, by persisting in maintaining into operation the would-be Office of Northern Italy, but also by paying the salaries to the office-employees transferred over there from Rome, who are still on active service, and by using not the funds set apart for t that purpose in the budget of the Institute, but the very sums that the latter is keeping by way of deposit. Obviously this is prejudicial to the financial situation of the Institute itself.

Therefore we are kindly asking this Allied Commission to consider the advisability to enforce, in the provinces still subject to the administration of the A.M.G., the Ministerial Decree of 5 February 1945, appeared in the Gazzetta Ufficiale, N°19 of 13/2/45, concerning the appointment of an Extraordinary Commissioner, and precisely Prince Don Francesco Ghigi delle Rovere. In such a way the said Prince Ghigi would take up, even in Northern Italy, full responsibility for the administration of the Institute entrusted to his care, and we would have thereby re-established the administrative unity which, in the field of national hunting too, appears to be indispensable for the expansion of the activity of the Institute under consideration.

We will be gratified to receive promptly a reply on this matter.

SUBJECT : Transference of funds of the dissolved Syndical Associations.

With reference to the above described letter this Ministry points out that the latest request in date of 5th November 1945 concerning the transference to the "Banca Nazionale del Lavoro" of accounts belonging to the dissolved syndical associations of Milan and of the Lombard provinces, is to be understood as an alteration of the preceding communication containing a request for transference of the mentioned accounts to the "Banca d'Italia".

The reasons which determined this new designation may be explained as follows:-

1) The "Banca Nazionale del Lavoro" is carrying out the functions of a cashier of the associations suppressed by the recently reached agreement, and accordingly it is dealing with the assetts and liability positions, which must gradually be settled by liquidating Commissioners of the suppressed Confederations.

2) It is of the greatest advantage for the liquidating administrations of the suppressed associations to have all debit and credit positions concentrated at the same "Banca Nazionale del Lavoro". In this manner it will be also possible to avoid the burden of debit interests which would have to be paid on the Bank advances which the liquidating offices are necessitating for their liquidating operations.

Caro Signor Braine,

mi permetto richiamare la sua cortese attenzione su una notizia telegrafatami ieri da Cattolica che interessa i lavoratori di quella cittadina.

Poichè gran parte di essi traggono i mezzi di esistenza dall'attività dello stabilimento Arrigoni, che proprio all'inizio della lavorazione é stato occupato dalle autorità alleate, i lavoratori stessi si vedono dinnanzi lo spettro della disoccupazione mentre l'inverno é alle porte.

La situazione é, pertanto, di tale gravità da richiedere opportuni e solleciti provvedimenti ed io oso sperare che Lei vorrà interporre all'uopo i suoi autorevoli uffici.

Dear Mr. Braine,

I beg to call your kind attention to the following information which was wired to me yesterday from Cattolica concerning workers in that town.

A large number of workers make a living at the Arrigoni establishment which, when it began to function, was taken over by the Allied Authorities. These workers are now faced with the threat of unemployment on the threshold of Winter.

The situation is therefore so serious as to require that suitable and immediate measures be taken, and I dare to hope that you will kindly use your influence on the matter.

OFFICE OF THE ENGINEERING OFFICER
AFGD #5 APO 528

31 Agosto 1945

Oggetto : ELOGIO E RESOCONTO DEL GRUPPO SPECIALISTI CIVILI ITALIANI PER LA MANUTENZIONE AEROMOBILI.

A : TUTTI GLI INTERESSATI.

0. La seguente relazione e' un resoconto dell'attivita', dall'origine, del Gruppo Specialisti Italiani ed elogio per il periodo d'impiego di nove mesi presso le istallazioni delle Forze Aeree dell'Esercito Americano, nel Deposito Generale delle Forze Aeree #5, Sezione Riparazione Aerei, Bari Italia. La cessazione del loro impiego e' dovuta al termine dell'attivita' da parte del Reparto Americano.

1. Il personale del Gruppo in questione e' stato reclutato a Roma e selezionato molto accuratamente dall'Ingegnere Italiano Sig. Salatiello e da un Ufficiale Tecnico appartenente a questa Sezione. Si ritiene che per ogni uomo scelto ne siano stati scartati tre.

2. La maggior parte dei selezionati era conosciuta dal Sig. Salatiello il quale era stato precedentemente Capo dei Servizi Tecnici all'Aeroporto del Littorio, Roma.

3. Questi uomini furono assegnati al lavoro con meccanici americani nel rapporto di due Italiani per cinque Americani per il primo mese e durante questo periodo furono eseguiti in prevalenza cambi motore e montaggi motore. Le loro qualita' tecniche si manifestarono subito e la buona volonta' ed abilita' nell'adattarsi ai metodi americani suggerirono il rimpasto della loro organizzazione in gruppi nel rapporto di dieci Italiani (2 gruppi) per uno Specialista Americano con funzioni di controllo come supervisore. Questo Gruppo di Specialisti Italiani ha allargato le proprie cognizioni tecniche mediante la pratica dei cambi motore sui B-24 e B-17, lavori dell'ispezione delle 100 ore, riparazioni di fusoliere; cambi motore sui P-38, lavori dell'ispezione delle 100 ore, riparazione e sostiuzione di fusoliere e carrelli d'atterraggio; cambi motore sui P-51, lavori dell'ispezione delle 100 ore, riparazioni di fusoliere e cambio ali. In aggiunta ai summenzionati tipi di aeroplani, gli Specialisti Italiani hanno esperienza praticamente di ogni fase di manutenzione specifica per i B-25, C-47, C-53, C-45, P-47 e molti tipi di apparecchi di collegamento.

./.

Declassified E.O. 12356 Section 3.3/NND No. 785021

4. L'atteggiamento generale di questi uomini, fatte pochissime eccezioni, e' di ottimo comportamento di servizio. Il loro lavoro e' impeccabile, completo e rapido. Dopo essersi familiarizzati con i procedimenti prescritti dagli Ordini Tecnici la loro efficienza e' quasi uguale a quella del meccanico americano. Tutti gli Specialisti hanno cura ed ammirazione per gli attrezzi ed equipaggiamenti americani e per questo essi hanno imparato ad usarli molto efficacemente. Relazioni fatte dal Dipartimento di Ispezione di questa Sezione indicano che praticamente non esistono inconvenienti sui lavori compiuti.

5. La difficolta' della lingua e' stata rapidamente superata mediante l'uso di una libera traduzione dei procedimenti degli Ordini Tecnici fatta da un interprete tecnico che ha per compito principale quello di tradurre i fogli di lavoro sotto la direzione dell'Ingegnere italiano e con l'approvazione del Dipartimento d'Ispezione di questa Sezione. Un interprete e' stato affiancato all'Ispettore Italiano che controlla il progredire del lavoro sotto la supervisione di un Capo Americano.

6. Il personale delle varie Officine ha trovato pochissime difficolta' nell'adattarsi ai vari compiti ad esso affidati. Solo un interprete e' stato sufficiente a tutto il personale delle Officine il cui compito consiste in incarichi individuali sotto il Capo Generale delle Officine. I lavori di costruzione e di riparazione sono sottoposti ad ispezione dall'Ispettore Italiano e dal Dipartimento d'Ispezione di questa Sezione.

7. L'allegato " Rapporto di Attivita' " compendia i risultati del Gruppo Specialisti Italiani ed indica l'andamento della produzione dei lavori di manutenzione e di officina da quando gli Italiani son stati impiegati presso questo Deposito. Si puo' con sicurezza affermare che gli ultimi sei mesi trascorsi hanno dato una migliore dimostrazione complessiva della loro abilita' che non si era potuta manifestare durante i primi tre mesi per via del tempo occorrente per organizzarsi, tradurre e familiarizzarsi con i metodi americani.

8. L'esperienza ha chiaramente dimostrato che l'efficienza del Gruppo Specialisti Italiani deve attribuirsi al controllo disciplinare efficace e rigido effettuato prferibilmente da un Italiano o, se possibile, da un Ufficiale che capisca perfettamente il carattere degli Italiani.,La totale assenza di difficolta' incontrata da questa Sezione,durante le ore di servizio, e' attribuita in gran parte alla costanza, alla rigida disciplina ed all'assano giudizio nell'esercizio del comando praticati dal Sig.Signor Salatiello, l'Ingegnere Italiano.

./.

[redacted] E.O. 12356 Section 3.3/NND No. 785021

9. In breve i seguenti fattori sono necessari ad assicurare la massima efficienza del Gruppo Specialisti Italiani in oggetto:

a) Buon alloggio.
b) Trattamento alimentare confacente.
c) Adeguato equipaggiamento di lavoro, scarpe incluse.

Prot.1521 DL

Rome, 20 October 40

TO : The ALLIED COMMISSION
Labour Sub-Commission

SUBJECT : Group of Italian experts - Plea
cement to work

We consider it to be our duty to call to the particular attention of this Commission the readiness of a group of Italian experts, numbering about 100 workers, with a very good preparation in aeronautical questions formerly implemented through the work performed on the most modern types of aeroplanes and respective installations, as it is confirmed by the annexed commending report from the General Deposit of Aerial Forces, Reparation Department for aeroplanes of Turi, which was delivered to them from the American Military Sector, at the end of their activity.

The group in question, placed under the leadership of Ing.Giovanni Battiello, provided that it could maintain its organic unity, in case of lack of aeronautical work, would be willing to accept the following line of work:

a) Repair of railway cars and carriages, and revision of internal combustion motor engines,

b) Works connected with naval repairs and naval services,

c) revision and repairs of autovehicles.

From the standpoint of the gradual evolution toward the recovery of this Country in the field of production, this Ministry believes that it would be useful to maintain the organic unity of this group of very good specialized workers, who, otherwise, would be compelled to disband for looking after whatever occupation for gaining a living, with great disadvantage for their professional ability. To this effect the group in question is ready to go, if need be, to Northern Italy, where there are good hopes for a resumption of industrial activity, under the auspices of the Allies, and for a considerable employment of technical workers.

282

Declassified E.O. 12356 Section 3.3/NND No. 785021

Therefore I would be very interested if this Allied Commission would kindly consider the question as above described, and grant the interested workers all possible support. I will also appreciate to receive as soon as possible a word of reply about the action done in the matter.

Secondo notizie pervenute a questo Ministero, le competenti Autorità Alleate della provincia di Treviso avrebbero richiesto l'effettuazione, da parte del locale Ufficio provinciale del lavoro, di un censimento limitato ai reduci disoccupati già appartenenti alle formazioni militari regolari.

Tale limitazione avrebbe, secondo quanto viene riferito, provocato malcontenti fra i reduci provenienti dalle formazioni partigiane, i quali ritengono di dover essere assimilati a coloro che hanno fatto parte di formazioni militari regolari.

SUBJECT : Returning soldiers belonging to the former "partisans" corps.

According to news received by this Ministry, the competent Allied Authorities of the Treviso province are quoted to have ordered the local Provincial Labour Office to carry out a census limitatedly to the unemployed war veterans, who formerly belonged to the regular army corps.

But it seems that such a limitation, according to the reports received so far, has caused a distontent among the war veterans belonging to the former "partisans" corps, inasmuch as they believe to be entitled to just the same treatment as those who formerly belonged to the regular army.

Inasmuch as this Ministry believes that the desire set forth by the "partisans"war veterans is well grounded, is kindly asking this Allied Commission to take interest in the issue.

This Ministry will also feel obliged for receiving some information concerning the measures that the Allied Commission may deem fit to adopt with respect to the issue under consideration.

My dear Admiral,

I received your letter of the 24th of October, regarding Gen. Di Simondo, Director General of the State Railways.

I must tell you that myself and the Minister of Transports fully share the great appreciation of the Allied authorities for his work. His activity and ability in reorganizing the railway net rendered first rate services to the Government and Italian State.

Because of his specific capacity, the Government thinks of sending him to the United States with a few other experts, considering that among other technicians he is the most qualified to supervise the purchase of such a market of railway materials which are of vital interest for the re-organization of our railway net.

If the Government has been taking in consideration his replacement as General Manager of the Railways, it isn't because it intends to do without his collaboration, which is highly appreciated, but because it wants to carry out a plan for the organization of the Railway Management which from a state of war and emergency must pass to a stable peace time organization.

I keep in mind that, according to the Hamilton Memorandum, its replacement is subordinated to the approval of the Allied Commission, to which I shall sub,it as soon as possible the names of the possible successors.

Truly yours,

SUBJECT : Transference of funds of the former syndical associations.

By a letter bearing the same Protocol number as this, dated 16 October 1945 and addressed to the Allied Commission, this Labour Ministry was showing the convenience of transferring to Rome all the accounts concerning the suppressed syndical associations (former Confederations, Federations, Provincial Unions, Syndicates, etc.) actually existing at the "Banca Nazionale del Lavoro" as well as at the offices of the correspondents of Milan and of the Lombard Provinces of the same Bank. The purpose of such a transference would be to see that the funds in question be administered and utilized by the liquidating offices of the suppressed fascist syndical associations, which, as it is well known, have their seat in Rome, and are acting according to directions received by this Labour Ministry, in compliance with the Legislative Decree of the Lieutenant General of 23 November 1944, n.369. To such a request of ours, the Finance Sub-Commission replied, by a letter of 26 October last, assuring that proper measures were already under way, and the undersigned Minister expressed his warm thanks for the same reply.

Now, the liquidators of the dissolved syndical associations, by the attached report sent to this Commission are explaining that it is absolutely necessary and urgent to carry out the transference of the funds in question, in order that the same liquidators should be enabled to perform the duties assigned to themselves and to carry to conclusion the liquidating operations entrusted to their care.

Therefore they are asking that this Commission undertakes to send out directions to all the Regional Finance Commissaries of Northern Italy (Lombardy, Piedmont, Liguria

Declassified E.O. 12356 Section 3.3/NND No. 785021

and Taranto) and that they should be empowered with;

a) the transference to the "Banca Nazionale del Lavoro" of Rome of all the funds formerly belonging to the suppressed syndical associations (former Federations Provincial Unions, Syndicates, etc.), actually existing at the various Branch Offices of the same Bank, as well as of the other corresponding banks and of the Postal Current Account Offices;

b) entrusting again to the same "Banca Nazionale del Lavoro" of all the funds formerly belonging to the before mentioned Associations, which were transferred in the past to the Royal Provincial Sections of the Treasury, as well as of all other funds available at the said Treasury' Sections, Finance Intendencies, Provincial Receiving Offices, etc.

The "Banca Nazionale del Lavoro" in its capacity as treasurer of the suppressed associations, is invited to supply to the different Finance' regional and provincial Commissarion, the list of the accounts and funds, for which the respective transference to Rome is requested.

In agreement with the arguments expounded in the attached report, and while reminding that all the funds in question will be entered in frozen accounts at the "Banca Nazionale del Lavoro" in Rome, this Ministry is kindly asking this Commission to keep on pressing the Allied Authorities for the purpose as set forth above.

In the meantime, we are awaiting a kind word of reply.

Divisione IV

Prot. n.4439/P.M.A

OGGETTO: Servizi di polizia nei porti.

ALLE RR. CAPITANERIE DI PORTO

Il Ministero dell'Interno venne a suo tempo interessato affinchè, conformemente alla proposta, di cui alla Sezione VI, par. 3, della relazione Campbell, un Ufficiale dell'Arma dei RR.CC., fosse posto a disposizione del Comandante del porto, per la sola parte esecutiva, del servizio, ai fini del mantenimento dell'ordine e della sicurezza nell'ambito portuale, e ciò allo scopo di far si che di ogni servizio svolgentesi nel porto fosse direttamente e esclusivamente responsabile il suddetto Comandante, secondo gli intendimenti delle Autorità Alleate.

Il suaccennato Ministero, però, ha comunicato di ritenere una siffatta soluzione in contrasto con la legislazione vigente in materia, la quale assegna a ciascuna delle Autorità, che hanno ingerenza nelle complesse attività portuali, attribuzioni ben definite.

Secondo lo stesso Ministero, alle Capitanerie di porto, mentre sono conferite attribuzioni amministrative, giurisdizionali, fiscali e militari, non compete, invece, la tutela dell'ordine e della sicurezza pubblica, salvo, per quest'ultima, una funzione surrogatoria in caso di urgenza e quando manchi l'organo normale di polizia giudiziaria in quanto delle funzioni di polizia è esclusivamente investito l'Ufficio di P.S. del porto. Il che, per altro, non esclude la cordiale collaborazione che, nell'interesse precipuo del servizio, le diverse Autorità operanti nell'ambito portuale, come in ogni altro campo

disposizione del Comandante del porto, per la sola parte esecutiva, del servizio, ai fini del mantenimento dell'ordine e della sicurezza nell'ambito portuale, e ciò allo scopo di far si che di ogni servizio svolgentesi nel porto fosse direttamente e esclusivamente responsabile il suddetto Comandante, secondo gli intendimenti delle Autorità Alleate.

Il succennato Ministero, però, ha comunicato di ritenere una siffatta soluzione in contrasto con la legislazione vigente in materia, la quale assegna a ciascuna delle Autorità, che hanno ingerenze nelle complesse attività portuali, attribuzioni ben definite.

Secondo lo stesso Ministero, alle Capitanerie di porto, mentre sono conferite attribuzioni amministrative, giurisdizionali, fiscali e militari, non compete, invece, la tutela dell'ordine e della sicurezza pubblica, salvo, per quest'ultima, una funzione surrogatoria in caso di urgenza o quando manchi l'organo normale di polizia giudiziaria in quanto delle funzioni di polizia è esclusivamente investito l'Ufficio di P.S. del porto. Il che, per altro, non esclude la cordiale collaborazione che, nell'interesse precipuo del servizio, le diverse Autorità operanti nell'ambito portuale, come in ogni altro campo, debbono reciprocamente prestarsi.

Records Section J.C/NND No. 785021

Tali concetti sono stati in sostanza ribaditi anche nello schema recentemente predisposto dal succennato Dicastero ai fini del riordinamento dei servizi di polizia portuale. Detto schema, infatti, dichiara esplicitamente che agli Uffici di P.S. del porto, i quali sono alle dirette dipendenze del Ministero dell'Interno, "compete la "responsabilità dell'ordine e della sicurezza pubblica nell'ambito "portuale, fino al limite delle banchine" e inoltre aggiunge che gli Uffici stessi, fra l'altro, "vigilano sulle attrezzature, sui magaz- "zini e sulla attività in generale del porto con pientoni e pattuglie "fissi e provvisori".

Da ciò inequivocabilmente si desume che il Ministero dell'Interno ha inteso avocare a sè la responsabilità dei servizi di polizia nell'ambito portuale e che, perciò, tale responsabilità spetta esclusivamente a detto Ministero e ai suoi organi periferici.

Fermo restando quanto è disposto dagli articoli 81, 82 e 1235 del Codice della Navigazione, le Capitanerie di porto si limiteranno, quindi, a fissare, con proprie ordinanze, le norme per la esigenze delle sicurezze e della polizia del porto, demandandone l'esecuzione al competente Commissariato di P.S. e prendendo al riguardo i necessari accordi con la locale Questura.

Prot.n2389

TO : the Allied Commission
Labour Sub-Commission

SUBJECT : Agitation among the workers attached to preserved food-stuffs industries of Southern Italy.

1. The workers attached to the Preserved food--stuffs Producing Plants of Southern Italy are in a state of permanent agitation, owing to the default of a sufficient allotment of sugar and of other raw materials needed to the industries for the production of preserved food-stuffs.

2. Our Ministry is taking the liberty of calling the attention of this Labour Sub-Commission to consider the expediency of effecting from now on the distribution of sugar to the various Plants, no more according to merely regional criterions, but on the basis of the respective number of workers attached to the various Plants, with priority to be acknowledged to those having already available a greatest quantity of prepared fruit pulp, so as to avoid the inevitable deterioration of the same pulp. Such a measure is suggested by the necessity of alleviating the painful growing of unemployment among the workers attached to preserved food-stuffs industries in Southern Italy, and at the same time of preventing justified reactions on the part of the workers.

3. Our Ministry is feeling confident that the above set forth considerations of distributive equity and of political justice will find a full comprehension on the part of the competent Allied authorities, and we look therefore forwardeto know how this issue will be settled.

My dear Mr. Prime Minister:

I have received a letter, of which the attached is a copy, from the Central Committee of the National Union of Railway Men.

I need not point out to you, my dear Mr. Prime Minister, the high opinion which the Allied Commission and the Supreme Allied Commander have always held of General Di Raimondo. His service to us in meeting the military needs of transportation have been invaluable.

I am sure that you have no intention of replacing him in his post, but if the question is under consideration, I do take the liberty of calling your attention to the fact that the position of Director General of Railways is one of those posts the appointments to which still require prior approval by the Allied Commission, in accordance with the Macmillan Memorandum of 24 February 1945 and Appendix "A" thereto.

Very truly yours,

To : General Stone, Chief Commissioner of the Allied Commission

Rome

We have been informed that elements from the ports of Italy are taking action to have the present General Manager of the State Railways discharged from the post that was assigned to him.

The merits and competence of Ing. Cortese [illegible] are a guarantee for the administration.

We ask for your intervention for such a case to be avoided, for it would be most prejudicial to the management, its moral and material reconstruction and also to all the staff that is following its mission in a spirit of self-denial and patriotism.

Sincerely yours,

The French and Swiss Governments have agreed the transit of the workers who will be accompanied to Belgium by an official of the Italian Foreign Office.

OGGETTO: Raccolta degli accordi salariali stipulati nel Lazio e Umbria nel 1° semestre del 1945.

A

L'intensa attività contrattuale svolta dalle risorte libere associazioni sindacali nelle provincie del Lazio e dell'Umbria, durante i primi sei mesi dell'anno in corso, ha fatto avvertire la necessità di riunire in una raccolta opportunamente coordinata, il rilevante numero di accordi collettivi che entro il periodo in parola sono stati stipulati nei vari settori di attività economica.

In questo periodo che possiamo chiamare di transizione, dal vecchio al nuovo ordinamento giuridico, in cui le forme di pubblicità richieste dalla precedente legislazione del lavoro non vengono più osservate e non sempre degli accordi viene data comunicazione alla stampa, l'utilità della raccolta e pubblicazione dei contratti di lavoro è particolarmente avvertita.

Consapevoli, quindi, delle sussistenti difficoltà di venire a conoscenza dell'esistenza stessa degli accordi e del loro contenuto, nonchè e specialmente delle variazioni salariali che frequenti si verificano per contrattazione diretta fra le associazioni sindacali, abbiamo predisposto tutto il materiale necessario per una tale pubblicazione che ci auguriamo possa agevolare il lavoro e lo studio di enti e uffici, organizzatori sindacali e organizzati e di quanti si interessino, attivamente o quali osservatori, alle questioni salariali e ai problemi del lavoro.

Si tratta di un volume di circa 400 pagine che contiene oltre gli accordi provinciali e aziendali relativi alle regioni del Lazio e dell'Umbria, anche tutti gli accordi nazionali generali e di categoria stipulati entro lo stesso periodo.

La raccolta è preceduta da una premessa illustrativa della situazione contrattuale creatasi dopo lo scioglimento delle organizzazioni sindacali fasciste, dei più importanti problemi di viva attualità in merito agitati, dell'attività delle nuove associazioni sindacali, svolta precedentemente e successivamente alla stipulazione dei contratti, nonchè da indici sistematici e cronologici e da un'elencazione delle associazioni interessate con l'indicazione della competenza territoriale delle associazioni aderenti e cui aderi

scono, delle ditte e lavoratori associati ecc. Ciò al fine di una migliore e più esatta valutazione della importanza e portata degli accordi stessi e di eliminare facili dubbi e conseguenti errori circa la esatta applicazione dei medesimi al caso concreto.

Il prezzo di tale volume si aggira sulle 400 lire.

Per evitare di stampare un numero di copie superiore alle effettive necessità, e ciò per ovvie ragioni di economia, desidereremmo conoscere se codesto spettabile Ente o indirizzo intende acquistarne una o più copie.

Gradiremo ricevere un cortese sollecito cenno di precisazione al riguardo a titolo di prenotazione.

SUBJECT : Transference of the Plant controlled by the Foundation of Sons of Italians resident abroad

It is since longtime that the "Foundation of Sons of Italians resident abroad", which is running a well equiped Plant, is trying to transfer somewhere else its own factories, which are to-day located in the School F.Aport, both for the purpose of returning the building of this school to its natural destination and for allowing the factories in question to expend as they should do. In fact they [illegible] occupation to more than 2.000 workers, who are manufacturing wearing apparels and other useful articles, not only for the colleges of the sons of Italian resident abroad, but also for the Armed Forces and various Assistance Institutes.

Both the petitions submitted by the Foundation in question and the promises received concerning the grant of premises in the former "Foro Mussolini" for the purpose as above stated, have obtained no effect whatever, at least so far, because the above mentioned premises, located in "Via delle Farnesina" are used to-day as warehouses for the Allied soldiers settled at the "Farnesina" itself.

Realising that it is impossible to occupy again the old building of Ciampino, because it is destroyed by the war' bombardments, and being impossible to give back immediately the premises now occupied, but at the same time being aware of the legitimate desire expressed by the Ponte Milvio' population about the school building, the Fundation has gotten direct in touch with the local committee, and has therefore engaged itself to clear before or on the 15 of the current month the premises located at the last floor of the building which it is occupying now. These premises comprise six class-rooms, which would seem to be sufficient to open again the school.

6315

Declassified EO 12356 Section 3.3/NND No. 785021

Therefore, under these conditions, we are kindly asking this Allied Commission, to consider the advisability of allowing the installing of the factories of the Foundation in question in the building located in Via della Farnesina, and precisely at the east side, which is completely independent of the entrance of the former "Foro Mussolini".

Trusting in the kind interest of this Commission, we are looking forward to receive a kind word of reply on this subject.

Prot.1521 DL

Rome, 20 October 45

TO : The ALLIED COMMISSION
Labour Sub-Commission

SUBJECT : Group of Italian experts - Placement to work

We consider it to be our duty to call to the particular attention of this Commission the desiderata of a group of Italian experts, numbering about 100 workers, with a very good preparation in aeronautical question, formerly implemented through the work performed on the most modern types of aeroplanes and respective installations, as it is confirmed by the annexed commending report from the General Deposit of Aerial Forces, Reparation Departement for aeroplanes of Bari, which was delivered to them from the American Military Sector, at the end of their activity.

The group in question, placed under the leadership of Ing.Giovanni Salatiello, provided that it could maintain its organic unity, in case of lack of aeronatical work, would be willing to accept the following line of work:

a) Repair of railway cars and carriages, and revision of internal combustion motor engines,

b) works connected with naval repairs and naval recoveries,

c) revision and reparis of autovehicles.

From the standpoint of the gradual evolution toward the recovery of this Country in the field of production, this Ministry believes that it would be useful to maintain the organic unity of this group of very good specialised workers, who, otherwise, would be compelled to disband for looking after whatever occupation for gaining a living, with great disadvantage for their professional ability. To this effect the group in question is ready to go, if need be, to Northern Italy, where there are good hopes for a resumption of industrial activity, under the auspices of the Allies, and for a considerable employment of technical workers.

6313

Declassified E.O. 12356 Section 3.3/NND No. 785021

Therefore I would be very indebted if this Allied Commission would kindly consider the question as above described, and grant the interested workers all possible support. I will also appreciate to receive as soon as possible a word of reply about the action done in the matter.

SUBJECT: Transference of funds of the former syndical associations

The "Banco Nazionale del Lavoro" (National Labour Bank) has brought to the knowledge of this Ministry the fact that the Milan' headquarters of the Bank of Italy, according to directions received by the Allied Command, has reiterated the order that all frozen accounts of category B, including those of the syndical associations, should be trasferred to the Treasury Department of the same Bank of Italy.

Considering the fact that the Labour Bank, on sending the above information, has asked also the intervention of this Ministry in that issue, for the purpose of inducing the Allied Authorities to consider the advisability of withdrawing the order in question, we kindly ask this Allied Commission to inform us about the reasons which caused the Allied Command to issue to order for the transference of frozen funds.

In any way, quite apart from the reasons above referred to, this Ministry wants to remind that it is necessary to effect the transference of the accounts in question to the headquarters of the "Banco d'Italia" in Rome, because they must be managed and made use of by the liquidation management offices of the suppressed fascist syndical associations. These offices, as it is well known, have their seat in Rome, and are taking orders from this Ministry, as provided by the Decree Law of the Lieutenant General of 23.11.1944, n.369.

Taking this into consideration, we are kindly asking this Allied Commission, to submit the question under consideration to the Allied Military Government, so that the latter may consider the advisability to impart directions according to what we have set forth before.

I wish to refer once again to my letter of 31 July concerning the termination of the export activities of Allied Commission.

As a result of discussions held between Avv. Storoni, Undersecretary for Commerce, and Maj. Gant, Director of Commerce Sub-Commission, it appears that there has been some misunderstanding on the part of your Government as to the intentions of the Allied authorities on the subject of re-introduction of private trading between Italy and the Allies.

I wish to clarify, therefore, that the procedure outlined in paragraph 8 of my letter of the 31st of July specifies merely the manner in which it was intended that trade should be conducted between Italy and the US and Italy and the UK from the time (i.e., 31 July) that Allied Commission ceased to act as an intermediary and until such a time as your Government makes an arrangement with either or both countries to conduct trade on a different basis.

The full authority for your Government to make arrangements with all countries, including US and UK, is given in paragraph 5 of my above quoted letter, which states that, subject to the controls and regulations which your Government has agreed to create and operate, all countries are now free to deal directly with your Government on a Government basis or with Italian private traders on a private basis as you consider best. Although the implementation of this authority, in respect of countries other than U.S. and the British Commonwealth, is, as you know, temporarily in abeyance until your Government publishes the necessary decree to require observance of the Statutory and Proclaimed Lists, there is, in the case of U.S. of America and the British Commonwealth, nothing to prevent direct trade being commenced forthwith. I understand, in fact, that Sir Richard Hopworthy has already written to Minister Cronchi stating that British authorities have no objection to operating import and export trade with Italy through private trading channels if your Government so desires.

4. It is emphasised that no candidate below Medical Category "A" can be granted a Regular Army Commission. Candidates now graded "B" (Permanent) or "C" (Permanent) will NOT be sent before the Board unless medical evidence can be furnished that there is a possibility of such candidates being upgraded to "A" in the near future. This does not apply to candidates for RAMC under ACI 1084/44. (G-1 (B))

3. AIR AND SEA TRAVEL:

1. Effective immediately all travel of civilian and military personnel of Allied Countries, to be performed by U.S. Air Transport Command, U.S. Naval Air Transport Service and U.S. Naval facilities under Lend-Lease arrangements must have prior approval of Headquarters, MTOUSA.

THE MINISTER OF LABOUR AND SOCIAL SECURITY

LSC/1602
Rome, 7 October 1945

TO : The LABOUR DIVISION
ALLIED COMMISSION

Rome

I take the liberty to call the attention of this Division to the consequences that the lack of a police' service strong enough to gain the confidence of all people connected with labour, is bound to have for the normal expansion of working activities in the Genoa' harbour.

The question was already set forth to the competent Office of the Allied Commission by our Ministry of the Interior, who has taken care to submit the names of the personnel to be destined to such a police' service, to the attention of the said Commission, for the respective approval.

Inasmuch as the before mentioned approval has not yet reached us, while the necessity of such a service appears day by day always more evident I take the liberty to ask this Division to quicken the delivery of the same approval.

With heartfelt thanks and kind regards I am,

Sincerely yours
Barbareschi

Mi permetto richiamare l'attenzione di codesta Divisione sulle conseguenze che può avere, per il regolare sviluppo del lavoro nel porto di Genova, la mancanza di un servizio di polizia atto ad assicurare la fiducia di quanti possono avere rapporti col lavoro stesso.

La questione è già stata prospettata all'Ufficio competente della Commissione Alleata dal nostro Ministero degli Interni il quale ha sottoposto i nominativi del personale da adibire a tale servizio di polizia all'approvazione della Commissione a tessa per il relativo benestare.

Siccome tale approvazione non è stata ancora data mentre la necessità del servizio stesso appare ogni giorno viepiù evidente, mi

1. Reference is made to a discussion yesterday between Comm. Simeone and Miss Sanseverino of this office, regarding the appointment of Dott. G. Palmeri in place of On. F. Curti as Regional Labor Director, Liguria.

2. The Regional Commissioner, Liguria, was not satisfied with the services of On. Curti, and it is understood that similar dissatisfaction was expressed by the Regional Commissioner, Regional Labor Officer and Regional Legal Officer of ~~Perugia~~ Umbria when On. Curti was Labor Director for Perugia.

3. It is suggested that a too active participation in party politics and the furtherance of personal business interests are likely to prejudice the successful functioning of a Regional Labor Office.

1. Si allude ad una conversazione avuta ieri tra il Comm. Simeone e la Sig.na Sanseverino, di questo Ufficio, circa la nomina del Dott. G. Palmeri al posto dell'On. F.Curti come Direttore Regionale del Lavoro per la Liguria.

2. Il Commissario Regionale per la Liguria non e' soddisfatto dell'opera dell'On. Curti, e si aggiunge che un simile malcontento e' stato espresso dal Commissario Regionale, dall'Ufficiale Regionale del Lavoro e dall'Ufficiale Regionale Legale di ~~Perugia~~ Umbria, quando l'On. Curti era Direttore del Lavoro per Perugia.

3. Si crede che una partecipazione troppo attiva alla politica di partito e l'avanzamento di interessi personali negli affari pregiudicherebbero il buon funzionamento dell'Ufficio Regionale del Lavoro.

MEMORANDUM

Subject: Labor Representation in the Italian Government.

1. In substitution for the Fascist form of Government it has been decided that the new Italian structure shall have a dual assembly, one known as the "Costituente" to be the governing body, democratically elected at free elections; the other known as the "Consulta" (Consultative Assembly), to have no powers of legislation but to be purely consultative in function.

2. Considerable work is involved in preparing for the holding of free elections and it cannot be anticipated, with any degree of certainty, when the Costituente will be inaugurated. In the meantime, however, the present caretaker Government has approved 400 nominations to the Consulta after seeking advice from all political parties and other organizations. These members, sceting in the former House of Deputies, will act as a sounding board for Government policy and will function at least until the election of the Costituente Assembly.

3. The Consulta held its first meeting on 25 September and proceeded to nominate President and Secretary. Count Carlo Sforza, the President designate, explained the purpose of the Consulta and said that here was an opportunity for Italy's first freely functioning body in twenty-three years to show the world that Italy was ready for democracy.

4. The Italian General Confederation of Labor has been granted 22 members on the Consulta; they are as follows:

DI VITTORIO, G.
LIZZADRI, O.
ALBERGANTI, G.
BACCI, G.
BEI, F.
SCHIAVELLO, F.
BUSCHI, M.
CAMMACHOLA, L.

It will be noted that Di Vittorio and Lizzadri, the Communist and Socialist Joint Secretary respectively, are included whilst Grandi is not. The latter, however, is a member by virtue of the fact that he is an anti-Fascist, ex-Deputy who is not included in the present Government and was not a member of the two Bonomi cabinets.

5. Under a separate heading of organizations without right to nominate to the Consulta a seat has been given to Della Torre, who is Secretary of the Unione Sindacali Italiano del Lavoro, to which reference has been made in a previous report.

6. Vice Presidents have now been elected and are Lucci and Cingolani. The Secretaries so far elected are Pesenlteo, Molinelli and Zavattaro.

SUBJECT: Unemployment in Genova

TO : Public Works & Utilities Sub-Commission

25 September 1946

1. Attached is letter and translation received from Sig. Barberaschi, Minister of Labor and Social Welfare, regarding withholding of approval by AMG of public work plans in Genova.

2. The unemployment position in Genova, and in fact in the whole of the North, has given us serious concern and we have been making consistent and strenuous efforts to encourage the Italian Ministry of Labor and Social Welfare to formulate projects for relieving distress by industrial reactivation and public works. It is our opinion that the labor situation in the North demands urgent and exceptional measures if distress and resultant widespread disturbances are to be avoided this coming winter.

3. Sig. Barberaschi's request that a decision on the Genova scheme shall be hastened has, therefore, our strongest support.

Dear Mr. Brains,

I beg to call your attention to the serious situation arising in the province of Genoa in connection with unemployment of workers resulting from the withholding of approval by Allied Military Authorities of certain Public Works plans, which would involve the sum of two and a half billion Lire.

The sum itself, ~~even if it is~~ while in itself an indication of the seriousness of the financial undertaking, also proves how serious the desire to furnish work and means of sustenance to many families of unemployed workers.

I therefore dare to ask for your influential intervention with the competent Allied Finance Office so as to hasten the decision concerned.

Yours very truly,

SUBJECT : C.E.S.I.M. Proposals.

1. Reference attached communication, apparently received through Embassy channels.

2. The Italian Ministry of Labour has been consulted and stated that they have no objection to the firm operating in the manner indicated in the communication. Indeed they add that they would prefer that any future emigration or "expedition overseas" were conducted by reputable firms, rather than by individuals.

3. Apparently a similar firm the "Italstrade" company, who prior to and during the war carried out large and important highway works of construction in Libia and Eritrea, are prepared to undertake similar contracts overseas on the basis of the C.E.S.I.M.

President of the Council of Ministers

n. 589 Rome, 1.8.1945

Dear Admiral,

1) Referring to your letter of the 31st. in relation with the cessation of the activity of the Allied Commission for what concerns exports from Italy, I must express the satisfaction of the Italian Government for the progressive resumption of its economic and financial autonomy.

2) In my opinion, considering that the territory which is at present under the control of the Allied Military Government is shortly to be handed over to the Italian Government, it would be useless to study a particular procedure concerning the exports which might take place in the above mentioned territory, for the drafting and enforcement of a regulation necessarily require a certain period of time that might be longer than the lapse of time till the handing over of the Northern provinces to the Italian Government.

In any case, as the Allied Commission well knows, the liaison organisms between the above mentioned territory and that which has already been handed back to the jurisdiction of the Italian Government exist and can be made use of in case of need.

3) The Italian Government recognizes that the Allied Commission will go on keeping some control on export activities. A few observations are nevertheless necessary.

Regarding the control mentioned in a) of para 3) it must be taken in consideration that if the Allied Commission goes on examining statements about exportable surplus, even not included on list a), this will cause, as in the past, complications and delays prejudicial to the development of a normal trade.

It would be a good thing, at least for a certain list of products to be agreed upon, for us to be free to negotiate the exports without needing previous periodical authorizations based on declarations difficult to make.

One of the most serious problems for my Government is unemployment; the problem might be partly solved by importing raw materials to be transformed in finished products to be exported, but to reach this result, a certain liberty of action is necessary.

For what concerns control mentioned in letter b) of para 3) the Italian Government hopes that it may in time be lessened, so as to be able to use for foreign trade some important items of its commercial balance.

4) According to the wish expressed by the Allied Commission, my Government has already taken action to establish by decree n. 331 of May 17, 1945, the "Ufficio Italiano Cambi", which will have to enforce the ei-

One of the most serious problems for my Government is unemployment; the problem might be partly solved by importing raw materials to be transformed in finished products to be exported, but to reach this result, a certain liberty of action is necessary.

For what concerns control mentioned in letter b) of para 3) the Italian Government hopes that it may in time be lessened, so as to be able to use for foreign trade some important items of its commercial balance.

4) According to the wish expressed by the Allied Commission, my Government has already taken action to establish by decree n. 331 of May 17, 1945, the "Ufficio Italiano Cambi", which will have to enforce the effective control on foreign exchanges requested from us in letter n. 13432/F of the 18.7.1945.

While waiting for the particulars of the programs of the economic war which will have to be forwarded by the British and American Embassies, I hope that the question concerning the black list at present dealt with by the Minister of Foreign Affairs will soon be solved.

5) While expressing my great satisfaction at acknowledging what you expressed in point 5) of your letter, i. e. that all Nations are now free to negotiate directly with the Italian Government, and assuring you that we shall do our best to comply with what is expressed in point 6) of the said letter, and therefore find the information contained in n. 7 most useful, I take the liberty, my dear Admiral, of expressing a few wishes, on the granting of which depends the possibility of effectively carrying out an international trade.

NARA Date 8-5-96 Section 3.3/NND No. 785021

As State control of private commercial initiatives must be established, it is obvious that the Government requires the effective functioning of the customs; without their collaboration, there could be no economic, financial and exchange activity of international trade.

The Government therefore deems it its duty to point out to the Allied Commission that its action in this sector would be frustrated if the resumption of the functioning of customs services and under the orders of the competent Italian control organisms is not allowed on all the frontiers of the State.

b) The Italian Government also deems it its duty to point out to the Allied Comaission that though it will probably before long be able to resume foreign commercial correspondence, because the question of the black lists is shortly to be solved, the same thing cannot be said of foreign exchanges, which remains materially impossible till adequate means of transport, especially shipping, are available.

If freedom for international trade is to have a practical meaning, after being allowed to negotiate possible commercial agreements, Italy must have the material possibility of transporting wares with her own means, without depending for a hundred per cent from the other contractors who could make their privileged situation weigh heavily.

6) For what concerns the request which you expressed in point 9) of your letter, i.e. for my Government to take immediate action to organize its liaison offices and develop the necessary organization to carry out its new and indispensible requirements, I must tell you that I am doing everything to be ready as soon as possible to carry out these new tasks.

All the Administrations concerned are at present studying the question. The criterion which inspires them is to leave to private persons the task of managing, according to their own initiative, their relations with their foreign purveyors and clients, submitting nevertheless these relations to a strict control by the State. It will be necessary to draft a list which will include the greatest possible amount of exportable goods, and study at the same time a definite priority criterion for importable goods. All matters concerning foreign trade ought perhaps to be centralized in one State administration, the Industry and Commerce Department, which, with its Undersecretary for Foreign Trade, within the boundaries of the plan for imports and exports and according to the regulations fixed as exchange policy, will have a great possibility of action, and use as executive organ the "Istituto Commercio Estero", which has already had close contacts with the Allied Commission.

I shall send you the final organization draft on this matter, as soon as the Administrations concerned will be through with it.

31 August 1945

Secret

My dear Mr. Prime Minister:

I thank you for your letter dated 1 August 1945, replying to my communication of 31 July, and am taking this opportunity of replying to the various points which you raise.

With regard to paragraph 2 of your letter, I agree that, in the existing circumstances, it is not necessary to prepare a special procedure to govern exports to the territory at present under Allied military control.

Further, I am in agreement with the suggestion made in your paragraph 3 that a list of items, of which an exportable surplus exists, should be prepared. Therefore, I suggest that your Government submit such a list to this Headquarters, so that it may be reviewed and, if possible, an overall clearance given.

While you will be the first to appreciate, my dear Prime Minister, the necessity for maintaining control over the movement of those commodities which are in world short supply, I have every hope and reason to believe that, with the final cessation of hostilities, the list of such commodities will gradually be reduced.

As regards your paragraph 4, the Combined Chiefs of Staff have advised us that the United States Proclaimed and British Statutory Lists should be adopted by your Government as a prerequisite to direct trade between Italy and those countries to which such lists have been applied.

I am gratified by the establishment of the new exchange control agency, the Ufficio Italiano dei Cambi, and I hope it will proceed to an effective control of Italian external assets as soon as possible.

As regards paragraph 5 (a), I may say that we are in full agreement concerning the effective functioning of the Italian customs service. As far as we are aware, the customs service is operating at all ports and on all frontiers, except at those ports or portions of ports which are being used for Allied military or naval traffic. On the initiative of the Allied authorities the customs services in Allied Military Government territory have been reestablished and are functioning under normal Italian laws and regulations. The customs organizations now functioning in Allied Military Government territory (except Venezia-Giulia) will revert to full Italian Government control when [illegible] is returned to your Government.

While you will be the first to appreciate, my dear Prime Minister, the necessity for maintaining control over the movement of those commodities which are in world short supply, I have every hope and reason to believe that, with the final cessation of hostilities, the list of such commodities will gradually be reduced.

As regards your paragraph 4, the Combined Chiefs of Staff have advised me that the United States Proclaimed and British Statutory Lists should be adopted by your Government as a prerequisite to direct trade between Italy and those countries to which such lists have been applied.

I am gratified by the establishment of the new exchange control agency, the Ufficio Italiano dei Cambi, and I hope it will proceed to an effective control of Italian external assets as soon as possible.

As regards paragraph 5 (a), I may say that we are in full agreement concerning the effective functioning of the Italian customs service. The customs organizations now functioning in Allied Military Government territory (except Venezia-Giulia) will revert to full Italian Government control when such territory is returned to your Government.

With reference to the question of transport raised in your paragraph 6 (b), a control has now been set up to deal with the very involved question of world transport facilities, in order that all nations may receive their fair share of the availability. This controlling body is known as the United Maritime Authority (U.M.A.).

All applications for shipping should be submitted by the appropriate Italian authority to the Shipping Employment Policy Committee, Berkley Square, London, with copy to United Maritime Authority Zone 3 Committee, Navy House, Naples. It is essential however, that all applications for shipping made on United Maritime Authority through Shipping Employment Policy Committee, London, should be coordinated by one Central Italian Organization.

Declassified E.O. 12356 Section 3.3/NND No. 785021

I am very gratified to learn of the plans which are being prepared by your Government for the furtherance and control of Italy's foreign trade and I shall be very interested to see these when they are completed.

In my letter of 31 July, I presumed that the Italian Government authority which would be responsible for carrying on export activities would be your Istituto Nazionale per il Cosmercio Estero. Your letter to which I am now replying leads me to believe that perhaps this assumption was not entirely correct. In any case, I feel it my duty to draw your attention to the fact that the Istituto Cosmercio Estero has not been, in the past, as fully effective as might have been desired, due perhaps to the very heavy burden which was placed upon it. I am sure your Government will bear this in mind when considering its reorganization plans.

Rest assured, my dear Mr. Prime Minister, that any assistance or advice which the Allied Commission can render towards a happy solution of the foreign trade problems will be readily given.

Very truly yours,

Ringrazio vivamente la Presidenza delle Associazioni Cristiane Lavoratori Italiani per il gentile invito mandatoci per la chiusura del Corso per dirigenti sociali, e del Corso per dirigenti sindacali.

Mentre auguro il miglior successo a questa ottima organizzazione, purtroppo in questi giorni numerosi impegni mi impediscono di avere il piacere di accettare questo loro invito.

Rinnovando i miei piu' sinceri auguri, invio i miei cordiali saluti.

ORDINE DEL GIORNO

I lavoratori di Taranto tramite le loro Commissioni Interne hanno chiesto alla Camera Confederale di farsi interprete presso le competenti Autorità della loro viva protesta per i luttuosi fatti avvenuti nel Comune di Palagianello.

Questa Camera Confederale rendendosi interprete della volontà dei suoi organizzati e del popolo di Taranto chiede:

I) Che le truppe Polacche siano allontanate al più presto dalla nostra provincia e dall'Italia.
2) Il rilascio degli arrestati per tale motivo.
3) Che le Autorità Alleate prendano tutte le misure di sicurezza nei luoghi ove tali truppe sono di base al fine di tutelare la sicurezza e la libertà dei cittadini, i quali non hanno mai mancato di esprimere alle gloriose truppe Alleate la massima simpatia e offerto loro la più ampia collaborazione.

Protestano per il divieto delle Autorità alla volontà espressa dai lavoratori di effettuare un corteo in segno di lutto, manifestazione pacifica la quale nei loro propositi non era di protesta ma di cordoglio per il lutto che ha colpito la classe lavoratrice.

I lavoratori chiedono che le Autorità Alleate vogliano sempre riconoscere al popolo italiano il diritto alle libertà democratiche per la quale l'Europa ha lottato e vinto e che per lo stesso fine il popolo italiano ha portato il suo contributo di sangue.

Il Comitato Esecutivo della Camera Confederale del Lavoro proclama lo sciopero generale di una giornata, limitandolo a 2 ore per i servizi pubblici, sono esclusi dallo sciopero gli alimentaristi, Farmacie, Ospedalieri, Gas e Acqua.-

GENERAL ITALIAN LABOUR CONFEDERATION

PROVINCIAL CONFEDERAL LABOUR CHAMBER - TARANTO

Prot.n.2087

5 September 1945

H.EXC. ADMIRAL STONE
ROME

O R D E R O F T H E D A Y

The workers of Taranto through their own Internal Commissions (Plant Commissions) have asked this Confederal Chamber of Labour to voice out on their behalf to the competent authorities a strong protest for the sorrowful facts which have taken place in the commune of Pelagianello.

Therefore this Confederal Chamber, interpreting the will of all its members and of the people of Taranto at large, is making the following requests:

1) that the Polish troops should be sent away as soon as possible from our province and from Italy;

2) that all people arrested for that motive should be released;

3) that the Allied Authorities should adopt all securing measures needed in the places where such troops are cantoned, and this for the purpose of protecting the safety and freedom of the citizens, who have never failed to show the glorious allied troops their greatest sympathy and to offer them their co-operation.

At the same time the workers of Taranto are voicing out their protest against the prohibition intimated by the Authorities to hold a public procession as a sign of mourning. The purpose of such a procession was a peaceful one; it was not intended to be a manifestation of protest, but simply as a manifestation of sorrow for the mourning that the working class has been affected with.

Furthermore the workers are asking that the Allied Authorities should always recognise to the people of Italy

Declassified E.O. 12356 Section 3.3/NND No. 785021

the right to the enjoyment of democratic liberties, for which all Europe fought and won, and for which the Italian people has paid a tribute of blood.

For the above reasons the Executive Board of the Confederal Chamber of Labour is proclaiming a general strike of one day duration. However, the strike in question will be limited to a two hours duration for all employees of public services. The workers attached to pharmacies, hospitals, to foodstuffs producing and distribution agencies, gas and water services, will be dispensed from taking part in the general strike.

1. Dott. Ruo of your Ministry has recently favored us with a report on a recent inspection trip which he made in the North concerning labor offices. We are enclosing a copy of this report for your kind attention.

2. I know that this report will be of considerable interest to you as it has been to us. It is noted that Dott. Ruo received a favorable impression of the work performed both by the Uffici del Lavoro and by the Regional Italian Joint Advisory Committees established by the Allied Military Government. It is respectfully suggested that your earnest consideration be given to the preparation of plans for the maintenance of these offices and these committees after the territory has been turned over to the administration of the Italian Government.

3. Dott. Ruo comments upon the inspectorate are of equal interest. As you know, it has been the policy of Allied Military Government to maintain this organization intact but subordinate to the National Labor Office. It is suggested that steps be taken to clarify the exact position of this organization in order that it may function in an uniform manner throughout Italy.

Caro Sig. Barbareschi,

Abbiamo ricevuto una comunicazione telefonica dal Sig. Di Vece da Milano, egli afferma che durante la conferenza pomeridiana di ieri, accordi sono stati raggiunti su quanto segue:

1. Differenziale di paghe tra Uomini e Donne

Si e' d'accordo per mantenere l'attuale differenziale nella paga base, d'accordo per migliorare l'indennita' di contingenza per le donne, mantenendo un differenziale di Lire 10 tra uomini e donne. Questo accordo e' retroattivo al 6 Agosto -- data di compromesso tra la richiesta dei lavoratori per il 25 Giugno, data dall'originale accordo sulla contingenza, e la richiesta dei dirigenti per il 1 Settembre.

2. Differenziale tra Localita'

Si e' d'accordo per abolire il differenziale tra certe citta' per mantenendolo per altre; il differenziale non deve superare il 7% in ogni caso.

3. Versamenti speciali dell'Indennita' di Contingenza

Si e' d'accordo per ritirare la richiesta dei lavoratori per il versamento del 50% dell'Indennita' di contingenza agli operai assenti, salvo rinnovo della richiesta quando l'accordo originale dovra' essere revisionato prima della scadenza del 30 Settembre.

Si e' d'accordo per pagare agli operai il 50% dell'Indennita' per 30 giorni in seguito ad infortunio.

Si e' d'accordo per pagare il 75% dell'Indennita' per un periodo di due settimane agli operai all'atto di matrimonio.

4. Paghe Minime per Occupazioni Diverse

Nessun accordo e' stato raggiunto su questo punto. I dirigenti prepareranno le loro proposte, ed i lavoratori prepareranno proposte alternative che saranno pronte da presentarsi al Ministero del Lavoro Italiano il 6 Settembre. Si spera che il Ministero del Lavoro Italiano convochera' un convegno rappresentative

6 Sept

MEMORANDUM

Subject: Wage Agreement - Northern Italy.

1. At the meeting between the Camera del Lavoro, Milan, CGIL Northern Italy, and representative employers held at Milan on 29 August 1945, agreement was reached as follows:

(a) Pay Differential - Men/Women

Agreed to retain the present differential in basic pay; agreed to improve the women's contingenza bonus retaining a differential of 10 lire only between men and women. This agreement retroactive to 6 August -- a compromise date between the workers' demand for 25 June, the date of the original contingenza agreement, and the employers' demand for 1 September.

(b) Differential Between Localities

Agreed to remove differential as between certain towns but to retain it for others; the differential not exceeding 7% in any case.

(c) Special Payments of Contingenza Bonus

Agreed to withdraw the workers' request for 50% of contingenza bonus to sick workers, subject to the request being brought up again when the original agreement is due for revision prior to its expiration due on 30 September.

Agreed to pay injured workers 50% of bonus for 30 days.

Agreed to pay 75% of bonus for a period of two weeks to workers on marriage.

(d) Minimum Wages for Different Occupations

Agreement not reached on this subject. The employers will prepare their proposals and the workers will prepare alternative proposals which will be ready for submission to the Italian Ministry of Labor on 6 September. It is hoped that the Italian Minister of Labor will convene a representative conference to consider these alternative proposals at an early date.

Declassified E.O. 12356 Section 3.3/NND No. 785021

2. As a result of the decisions arrived at on 20 August, the strike threatened for 21 August will be called off.

3. The workers are requesting the Italian Ministry of Labor to reconsider the Spinelli Decree of January 1945. The applications of this Decree was not made fully operative owing to the general denunciation of Fascist legislation, but the workers claim that it confers benefits upon them which should not be withheld.

SUBJECT: Control of Wage Increases.

TO : Ministry of Labor and Social Welfare.

1. As you know, the regulations of the Allied Military Government require that agreements providing for wage increases be submitted for approval before such increases are legally valid.

2. It is considered that this method of obtaining government approval of an agreement which has previously been freely negotiated is in the best interests of all concerned. This arrangement not only provides for orderly changes in the wage structure, but also operates as a bar to excessive inflation which may result from unreasonable increases in wages.

3. It is anticipated that the time when the administration of North Italy will be turned over to the Italian Government is not far off. At the present time there is no Italian Government legislation insofar as this Sub-Commission is aware which requires government approval of wage increases.

4. Your consideration is, therefore, earnestly invited to the question of whether or not such legislation should be enacted if it seems expedient to your government to do so.

5. This Sub-Commission would be very glad to discuss some of the problems and procedures which might be involved if you so desire.

1. Desideriamo portare a vostra conoscenza alcune informazioni che sono venute in possesso di questa Sotto-Commissione, attraverso una fonte che, per ragioni di polizia, non può essere rivelata.

2. Queste informazioni si riferiscono ad un conto di L.306.064,65 per assegni familiari relativi al periodo dal gennaio 1942 al febbraio 1943: questo conto è rimasto aperto, mentre avrebbe dovuto essere pagato alla sede di Cagliari dell'Istituto della Previdenza Sociale.

3. Uno degli interessati avrebbe dichiarato all'Istituto che tutti i registri erano stati distrutti in seguito al bombardamento di Cagliari del 28 febbraio 1943, durante il quale l'ufficio dell'Istituto fu danneggiato.

4. Il medesimo fa poi cenno ad un presunto complice nel settore assegni familiari, il quale avrebbe confermato il fatto ed attestato che il conto era stato pagato.

5. Egli ha anche parlato di una possibile analoga iniziativa per i conti relativi ai richiamati, agli assegni di matrimonio e alla 13a settimana, a condizione che gli fossero fornite le copie dei certificati (C.-12) che venivano trasmessi.

6. Egli parla di colloqui con una delle parti interessate, il Comm.Goffredo.

Liquidation Committee of the
Industrialists' Confederation
Rome

The Liquidation Committee of the suppressed Confederation of Industrialists has called our attention to the fact that in order to bring about a detailed recognition of the furniture and to draw up the respective inventory according to the law, it would be necessary that a few officers of the said Committee should receive the permission to enter the premises of the former Confederation, in Piazza Venezia 11, formerly occupied by the AMG, which placed under requisition all the furniture, type-writing machines, calculating-machines, equipments, etc.

Owing to the fact that the said premises are still occupied by an Allied Command, we beg you kindly to consider if it would possible to obtain, on behalf of the above mentioned officers, the permission to accede to the premises in question, for the fulfillment of the tasks they are entrusted with.

Il comitato di liquidazione della soppressa Confederazione degli Industriali ha fatto presente che, al fine di poter procedere alla ricognizione dei mobili ed alla compilazione del relativo inventario di sensi di legge, sarebbe necessario che alcuni suoi funzionari fossero autorizzati ad accedere nei locali della ex Confederazione siti in piazza Venezia n. 11 a suo tempo occupati dall'A.M.G. che requisì tutto il mobilio, le macchine da scrivere, calcolatrici, gli arredamenti, ecc.

MINISTRY OF LABOUR AND SOCIAL SECURITY

Prot.n°3166 - 14 - 28 mG

TO: the LABOUR SUB-COMMISSION
Rome

SUBJECT: Heads of the U.M.A. - Inspection of U.M.A administration in the North.

The Assistance Institute "Utenti Motori Agricoli" (Users of Agricultural Motors) (U.M.A.) has applied to this Ministry - under the supervision of which it is placed - explaining that its own officers: Ing.Pietro Pasquarella, Commissary; Avv.Salvatore Siani, Director; Rag.Giuseppe Allegro, Head of the Administrative Service, need to go very soon to Northern Italy to settle a number of questions connected with the organisation of Institute itself, the settlement of which was so far made dependent on the junction of the Rome' headquarters with the offices, which some time ago were removed to the North.

The above mentioned Institute has called especially our attention to the urgent necessity of carrying out a number of ascertainments concerning the actual situation of the finance and capital assets of the Institute itself, in order to settle the same situation and to pay the indemnity due to the dismissed personnel.

Finally, the Institute in question has remembered us that the said Heads - together with a member of the auditors' Board - would go to Milan on the motor-car owned by the same Institute (Fiat 1.500, registered Rome n°59235) drived by the driver Dario Manzoni.

In connection with the above this Ministry is convinced that the request of a settlement of all pending questions is well grounded - especially with respect to that of taking possession of the funds existing in the North on behalf of the Central Office of Rome - and is kindly asking this Sub-Commission, to exert its authorisative action, in order that the Heads in questions may be facilitated as much as possible in the fulfilment of their tasks.

We will appreciate a word of reply.

SUBJECT: Taxi-cabs requisitioned by Allied Commission

TO : Executive Commissioner

1. The Confederazione Generale Italiana del Lavoro has made representations to the Labour Sub-Commission in regard to the position when taxi-cabs, now being employed by the Allied Commission in Rome, are de-requisitioned. It appears that a letter from Colonel Parkin of Establishments Section has been circulated to the drivers and that it has caused much concern.

2. Colonel Parkin has been good enough to explain the position arising from present orders on the subject. It appears that as and when the de-requisitioning of the taxi-cabs is authorised they "will be deprived of all spare parts belonging to the U.S. Government, including the electrical batteries, the tyres and so forth".

3. Economic Section through the Labour Sub-Commission is concerned in the continued employment of the drivers of the taxi-cabs and also in the public transport situation which will arise in Rome if the cabs are returned without necessary equipment.

4. It is stated in para 3 of Col. Parkin's memorandum of 30th July 1945 (copy of which is attached) that "Allied Force Headquarters has specifically directed that all such vehicles returned would be returned sans all U.S. equipment and parts" and adds that "no further considerations can be given at this time".

5. It is requested that representations be made to secure some relaxation of A.F.H.Q. instructions, so as to provide that the taxi-cabs are returned in serviceable condition, in order to ensure the continued employment of some 70/80 drivers and at the same time afford relief to the public transportation situation in Rome.

SUBJECT: Taxis requisitioned by A.C. (Ref your ltr Lab/203/401)

TO : Director, Labor Subcommission

1. The issue of 25 requisitioned taxis and their owner-drivers has been one of considerable discussion and study by the G-5 (A) Section for many months.

2. These taxis were requisitioned on U.S. Army requisition forms and, therefore, became the property of the U.S. Government. Owners of these taxis were employed as drivers at the time of the requisition in an effort to assist them to earn a fair wage and to offer them suitable employment. The question of wages has been thoroughly dealt with and taxi-owner drivers received wages based on the authorized wage scale for drivers as laid down by higher authority.

3. Due to the provisions of existing Italian law, all vehicles requisitioned and no longer needed by A.C. are to be turned over to the Italian Government for disposition. Allied Force Headquarters has specifically directed that all such vehicles returned would be returned sans all U.S. equipment and parts.

4. Therefore, it is not deemed advisable to make any exceptions to the regulations for the sake of taxi owners since 1,500 other vehicle owners will receive their vehicles on the condition set forth by higher Headquarters policies.

5. This Headquarters will endeavor to have all taxis released direct to taxi owners instead of releasing them to the Italian Government, and all tires, tubes, batteries, etc. from other than U.S. sources will be returned with the vehicle.

6. No further consideration can be given at this time.

Dear Signor Barbareschi:

On 4th June Minister Grocchi sent to me copy of a draft labor law dealing with registration of syndical associations, the procedure for conciliation, and the organization and functions of a central labor council and the Regional and Provincial Labor Offices. Minister Grocchi said that this draft was only provisional and would require much revision and modification.

I wonder whether you have decided to continue with the issue of a decree of this nature, and, if so, whether its present form differs materially from the draft sent to us by Minister Grocchi. There are one or two points in the draft sent to me on 4 June that I would have liked to comment on, or perhaps discuss with you, but I should be obliged if you would first let me know whether you are still proceeding with the decree, and whether its form has been materially changed.

Caro Signor Barbareschi,

In data 4 Giugno u.s., il Ministro Gronchi mi fece pervenire copia di un progetto di legge riguardante la registrazione delle associazioni sindacali, la procedura per la conciliazione delle vertenze, l'organizzazione e le funzioni di un Consiglio Centrale del Lavoro, nonché degli Uffici regionali e provinciali del lavoro. Il Ministro Gronchi mi scrisse che il progetto di cui si tratta era soltanto provvisorio e che avrebbe richiesto un considerevole lavoro di revisione e di modifiche.

Sarei curioso di sapere se intendente perseverare nel proposito di promulgare un decreto di tal genere e, in caso affermativo, se la presente forma dello stesso differirà radicalmente dal testo del progetto di legge inviatomi dal Ministro Gronchi. Vi sono alcuni punti del decreto inviatomi in data 4 Giugno u.s., sui quali mi piacerebbe fare alcuni commenti e forse anche discutere con Voi, ma vi sarei grato di farmi sapere preventivamente se continuate a lavorare sulla base del progetto di decreto in parola, oppure se la forma del medesimo è stata radicalmente alterata.

YOUR FILE: 721/4 30th June 1945

1.- The new Ministry of Reconstruction continue the activity of the Interministerial Committee of Reconstruction (C.I.R.).-

2.- For the execution of this activity, the Ministry of Reconstruction must maintain a close collaboration with the Economic Section of A.C. and with the various Sub. Commissions as has been done up to now with very appreciable results in several occasions with the Interministerial Committee for Reconstruction.

3.- To coordinate better this collaboration, this Ministry in agreement with all the Ministers composing the Committee of Reconstruction informs you the necessity of:

a) That each Economic Sub. Commission should infor this Ministry of any action that may regard the work for which this Ministry has been established, of whatever sector they may be and whatever may be the Italian Administration in whose competence these acts fall.-

b) That this Ministry should be informed of the allocations and supplies of goods and products that through the Allied Authorities are sent to Italy except food supplies.-

I am sure you will agree on the advisability of our request and will take necessary actions that it may be carried out.-

Dear Minister,

The Regional Commissioner, Piedmont, reports that as the result of a disorderly demonstration of women workers in Turin on 11th July, the Unione Industriale have, under pressure, signed an agreement to give equal treatment to women workers in respect of the recent increase.

In view of the fact that the Italian Government have decided to apply the principles of the Milan Agreement to Northern Italy, it is considered that an important variation such as the granting of equal terms to the women should not be made without the knowledge and approval of the Italian Government. The Regional Commissioner is accordingly refusing to recognise the agreement and we should be glad to learn at the earliest opportunity the decision of the Italian Government with regard to this Turin variation.

Yours sincerely,

My dear Mr. Prime Minister:

1. I write with reference to the Aide-Memoire of 24 February, 1945, which was communicated by the Acting President and the Chief Commissioner of the Allied Commission to the President of the Council of Ministers, outlining certain steps taken by the Allied Governments to hand over an increasing measure of control to Italian administration.

2. In order to implement further the Declaration of 26 September, 1944, by the President of the United States and the Prime Minister of Great Britain regarding Italy, I am now directed by the Combined Chiefs of Staff to inform your Government that the intervention of the Allied Commission in Italian fiscal matters and other internal financial affairs will in future be confined to cases involving Allied military necessity. The Allied Commission will assist or advise your Government on financial matters in territory under your jurisdiction only when your Government specifically requests such advice or assistance, which will be given at a high level between the senior officers of this Commission and appropriate officials of your Government.

3. I am further directed by the Combined Chiefs of Staff to inform your Government that, subject to certain exceptions and conditions which are indicated below, it is no longer necessary to obtain the approval of the Allied Commission prior to the execution of Italian external financial transactions.

4. The exceptions to this general rule are as follows:

(a) the Italian Government is requested to consult with the Allied Commission before authorizing the use of Italian external assets for the purpose of paying claims arising prior to 8 September, 1943. Thus all questions relating to the settlement of Italian clearing accounts should be discussed with this Commission before any action is taken.

(b) the Italian Government is requested to direct its exchange control and other appropriate authorities to consult with the Allied Commission before authorizing any external financial transactions undertaken by Italian insurance companies or involving the foreign branches or subsidiaries of such companies.

5. The Combined Chiefs of Staff have stated that as a condition of the relaxation of Allied control over Italian external financial transactions, the Italian Govern-

3. I am further directed by the Combined Chiefs of Staff to inform your Government that, subject to certain exceptions and conditions which are indicated below, it is no longer necessary to obtain the approval of the Allied Commission prior to the execution of Italian external financial transactions.

4. The exceptions to this general rule are as follows:

(b) the Italian Government is requested to direct its exchange control and other appropriate authorities to consult with the Allied Commission before authorizing any external financial transactions undertaken by Italian insurance companies or involving the foreign branches or subsidiaries of such companies.

5. The Combined Chiefs of Staff have stated that as a condition of the relaxation of Allied control over Italian external financial transactions, the Italian Government is required to keep the Allied Commission fully informed as to the status of Italian external assets and of Italian external financial transactions. It is 3 therefore requested that your Government:

(a) keep the Allied Commission fully advised as to the policies that may be adopted by the Italian Government, or any agency or committee thereof (including the Banca d'Italia), regarding the utilization and control of Italian external assets. You may find it desirable to consult with the Allied Commission before authorizing new policies or types of transactions, in order that no conditions may arise that might be prejudicial to the interests of the United Nations.

(b) submit fortnightly reports in triplicate to the Allied Commission listing all external financial transactions permitted or undertaken by the Italian Government during the period covered by the report, indicating the names of all parties to the transactions, a detailed statement of the nature and purpose of the transaction, the amount thereof, the currencies involved, the rates of exchange utilized, and any other relevant information.

Declassified E.O. 12356 Section 3.3/NND No. 785021

6. In conjunction with the relaxation of control indicated in this letter, the Combined Chiefs of Staff have directed me to inform your Government that it will be expected to take the following steps:

(a) to establish and maintain an effective foreign exchange control agency

(c) to adopt measures in support of the economic warfare objectives of the Allied Governments.

The details of the economic warfare programme are to be communicated to your Government in the near future by the British and American Embassies in Rome, and it is expected that representatives of your Government will work with the two Embassies in the development and implementation of this programme. I am further directed to inform your Government that failure to take the steps specified in (a) and (b) of this paragraph within a reasonable period of time will result in the reimposition of prior control of Italian external transactions by the Allied Governments through the instrumentality of the Allied Commission. I should be grateful if you would keep me as closely informed as possible of your progress in the development of the programme requested by the Allied Governments.

7. I would also request that you give assurances that you assume responsibility for ensuring that remittance payments are not made to undesirable persons in Italy.

8. The Combined Chiefs of Staff have also instructed that remittances to Italy from neutral countries are to continue to be channelled through banks in the U.S. and U.K. until the measures in support of the economic warfare objectives of the Allied Governments are taken.

9. The Allied Commission has, as part of the general suspension outlined in the third paragraph of this letter, suspended the supervision and control of arrangements concluded by the Italian Government with Allied and neutral countries concerning the financing of foreign trade, except that your Government is required to ensure that the proceeds of export sales will be made available for the purpose of making essential payments arising from import needs of Italy, Italian diplomatic, consular, or military expenditure, maintenance of the Italian merchant marine, and similar expenditure.

10. Finally, I am directed to state that the relaxation of control of Italian external assets is not to be construed as affecting the rights of the Allied Governments under the Armistice Terms with respect to Italian foreign assets, nor to prejudice or affect the status of Italian property in Allied countries which has been subjected to exceptional war measures, such as sequestration, vesting, and freezing.

11. Our supplementary financial directive from the Combined Chiefs of Staff deals with certain other matters relating to Allied military lire purchases and other

SUBJECT: Entry of Civilians into Italy

TO : Economic Section
Attn: Capt. Jack Williams

1. The following are comments and recommendations on Economic Section memorandum of 14 July 1945. (Ref: 2.14/ES)

2. It is agreed that restrictions on entry and travel of private citizens to Italy could be removed to the extent recommended in TAM 626 of 9 July.

3. Considerable difficulty is expected unless the Italian Government assumes responsibility of providing food, accommodations and transportation for private visitors as indicated in the signal. It is indeed doubted whether the Italian Government can in fact assume such responsibility, since the position is so difficult that high ranking Italian officials and industrialists can only be given necessary facilities with considerable difficulty.

4. The Allied authorities should, therefore, face the fact that civilian visitors may be stranded without accommodation and facilities in various parts of Italy and that either emergency measures will have to be available to meet their needs through action of Allied authorities or difficult situations will arise which may reduce prestige and status of Allied Nationals in Italy.

5. It will, therefore, be useful to have the Italian Government's views on the possibility of reserving living accommodations, temporary or in transit, and giving clarity of transportation for Allied Civilian Nationals and for Civilian Nationals of other countries, before informing CCS that TAM 626 can be operated.

16 July 1945

Dear Minister,

It has been brought to our notice that on 26 June 1945 the C.L.N. for Venezia Region issued an Order of the Day regarding payment of wages to all employees of private and public undertakings who were obliged to absent themselves from work to avoid Fascist persecution. The Order provides that in respect of the whole period of absence from work these employees should receive, from their normal employer the full wages including bonuses and indemnities that were paid to their colleagues who remained at work.

The June agreement regarding the functions of Comitato di Liberazione Nazionale makes it clear that the Committees are to operate in an advisory capacity only. It is suggested, therefore, that in issuing an Order of the Day on a wages question the Venezia Committee has exceeded its scope, and the Committee should have been content, acting in an advisory capacity, to submit its views through existing negotiating machinery. In addition it is the opinion of this Labour Sub-Commission that the question of payment of wages during periods of absence is one of general application, which will be met with in many parts of Northern Italy. It seems therefore desirable that unilateral action in the Venezia Region should be avoided until the Italian Government and A.M.G. have agreed a clear policy that can be applied to all Northern Italy.

If you agree with these views, and if you see fit, perhaps you will inform the Venezia C.L.N. that it is not acting within its agreed functions in issuing orders of this nature and that the question should be raised in the proper quarter, for consideration through existing joint negotiating channels.

SUBJECT: Entry of civilians into Italy

TO : Headquarters, Allied Commission, APO 394

1. Reference is made to MAT 729 of 2 June, of which you have information copies, setting out the conditions on which this Headquarters at that time was prepared to extend entry into Italy.

2. Attached is a copy of TAM 626 of 9 July received from CCS. You will note from this cable that CCS consider the recommendations in MAT 729 to be unduly restrictive in view of the termination of the European war, and recommend that entry be opened up generally. In this connection you will also note that they do not consider it desirable for the military to assume responsibility for providing food, accommodation or transportation for private visitors and believe the Italian Government could assume the responsibility if necessary.

3. We believe that the reply contained in TAM 626 is sound policy in every way, and will serve to promote the general objectives of TAM 487. It is in line with policies which this Section has consistently advocated in past, but which, for various reasons, have not proved generally acceptable.

4. On a related subject the Swiss have recently protested against present restrictions imposed on travel to and from Italy by Swiss Nationals. As an interim policy, and in order to expedite the settlement of the MEDLOC arrangements with the Swiss Government, it is probable that this Headquarters will shortly authorise a special concession whereby Swiss Nationals may travel to and from Switzerland for personal reasons only. TAM 626 will, it is thought, enable the general question of relaxation of entry to be dealt with satisfactorily.

5. You are requested to comment urgently on TAM 626 and particularly on paragraph 2. It is probable that you will consider it advisable to recommend that accommodation for the use of commercial visitors should be made available to the Italian Government at key points throughout Italy; bearing in mind the handbook of territory which you now envisage. It is requested that you include this point in your general comments.

TRIPLE TAM 626, DATED 09 JULY 1945.

1. IT IS THOUGHT THAT THE RECOMMENDATIONS SET FORTH IN MAT 729 ARE CONSIDERED UNDULY RESTRICTIVE CONCERNING THE ENTRY OF CIVILIANS INTO ITALY SINCE THE TERMINATION OF THE EUROPEAN WAR.

2. IT IS BELIEVED THAT THE ITALIAN GOVERNMENT COULD, IF NECESSARY, ASSUME THE RESPONSIBILITY OF PROVIDING FOOD, ACCOMMODATION AND TRANSPORTATION FOR PRIVATE VISITORS. IT IS NOT BELIEVED DESIRABLE THAT YOU ASSUME THE RESPONSIBILITY. WITH THE REDUCED LOAD OF MILITARY NECESSITIES TAKEN FROM THE ITALIAN GOVERNMENT IT IS THOUGHT THAT SUFFICIENT FACILITIES WILL BE AVAILABLE FOR THIS PURPOSE.

3. IT IS AGREED ON THE POLICY THAT TRAVEL WILL BE RESTRICTED IN GENERAL TO THE AREAS HANDED BACK TO ITALIAN GOVERNMENT CONTROL, HOWEVER, THIS WILL BE SUBJECT TO YOUR DETERMINATION. TRAVEL TO OTHER THAN AREAS HANDED BACK TO THE ITALIAN GOVERNMENT SHOULD BE PERMITTED ONLY TO THE EXTENT THAT YOU DEEM PRACTICABLE. IT IS RECOMMENDED THAT RESTRICTIONS ON THE ENTRY AND TRAVEL OF PRIVATE CITIZENS, ALLIED AND NEUTRAL, BE LIMITED TO THOSE LISTED IN PAR. 3, MAT 729. NO CATEGORY OR QUOTA SYSTEM SHOULD BE ESTABLISHED.

4. IF THIS RECOMMENDED POLICY IS ACCEPTABLE THE PUBLIC WILL BE NOTIFIED THAT THE MILITARY WILL NOT BE RESPONSIBLE FOR PROVIDING ACCOMMODATIONS FOR PRIVATE CITIZENS, INCLUDING FOOD OR TRANSPORTATION. THIS WILL ASSURE THAT INDIVIDUALS WILL PROCEED TO ITALY AT THEIR OWN RISK AND SHOULD NOT COUNT ON ASSISTANCE OF THIS TYPE FROM YOU, AND THAT THEIR RETURN TO THE UNITED STATES WILL BE DELAYED INDEFINITELY. ALL PERSONS WHO RECEIVE PASSPORTS WILL BE INFORMED OF THIS IN WRITING BEFORE HE PROCEEDS TO ITALY.

5. AS HAS BEEN THE POLICY HERETOFORE GOVERNMENT PERSONNEL OF THE UNITED STATES, UNITED KINGDOM AND DOMINICAN GOVERNMENT ENTERING ITALY WILL RECEIVE WHATEVER ASSISTANCE REQUESTED OF YOU AND THAT YOU ARE ABLE TO GIVE THEM.

Declassified E.O. 12356 Section 3.3/NND No. 785021

6. THE ITALIAN GOVERNMENT SHOULD HANDLE THE QUESTION OF INTERFERENCE IN ITALIAN POLITICS ON THE PART OF ENTRANTS IN AREAS RETURNED TO THE ITALIAN GOVERNMENT, REFERENCE PAR. 4 OF MAT 729. THE FOREGOING WOULD BE A GOVERNMENTAL RATHER THAN MILITARY QUESTION. APPLICATION OF SUCH A CONDITION PRIOR TO THE GRANTING OF TRAVEL FACILITIES WOULD CAUSE ADVERSE COMMENT.

7. IN THE FORMULATION OF YOUR REPLY IT MAY BE CONSIDERED BY YOU THAT THERE WILL BE NO MILITARY RESPONSIBILITY FOR PROVIDING ACCOMMODATION FOR THESE CIVILIANS IN ITALY; UNTIL THE COMPLETION OF THE BULK OF THE REDEPLOYMENT PROGRAM THERE WILL BE NO REST BOUND ALLIED TRANSPORTATION TO THEM; AND THAT THE PROPOSED RELAXATION ON CIVILIAN ENTRY INTO ITALY WILL NOT BE CONSTRUED TO JUSTIFY INCREASING THE QUOTA OF TRAVEL SPACE AVAILABLE FOR QUASI-OFFICIAL TRAVEL. REQUEST YOUR VIEWS EARLIEST.

8. UNTIL FURTHER INSTRUCTIONS ARE FORMULATED THE PROCEDURE SET FORTH IN MAT 729 WILL CONTINUE AS AN INTERIM MEASURE.

Direzione generale della previdenza e delle assicurazioni private

Istruzioni alle Commissioni Comunali per l'accertamento dei lavoratori agricoli

L'accertamento dei lavoratori agricoli che le Commissioni comunali sono chiamate a compiere, deve essere eseguito con la massima cura ed obiettività in considerazione sia dello scopo cui esso tende (erogazione delle prestazioni assicurative e assistenziali agli aventi diritto), sia dei riflessi che esso viene ad avere sull'onere contributivo gravante sull'economia agricola.

Le Commissioni comunali dovranno pertanto curare — in particolare — che siano evitate le indebite esclusioni ed inclusioni di lavoratori agricoli negli elenchi nominativi, la errata attribuzione di categoria e la inesatta valutazione del numero di giornate di lavoro a ciascuno attribuite.

L'accertamento deve effettuarsi secondo le norme stabilite dal R. D. 24-9-1940, n. 1949.

Per l'anno agrario 1944-45 — anziché procedere alla compilazione di nuovi elenchi nominativi dei lavoratori agricoli, come stabilito dall'art. 12 del predetto R. D. — si è ritenuto opportuno provvedere al solo aggiornamento di quelli esistenti. Tale aggiornamento deve essere effettuato in base ai contratti di lavoro, ai libretti di lavoro ed alle risultanze dei registri degli Uffici di collocamento agricolo, ove esistano, nonché alle istanze dei lavoratori per la iscrizione negli elenchi, alle denuncie dei datori di lavoro per le variazioni da apportarsi agli elenchi stessi, agli esiti dei ricorsi al Prefetto e alle dirette notizie che le Commissioni assumeranno sui singoli lavoratori.

Ai sensi del citato R. D. 24-9-1940, n. 1949, i lavoratori agricoli da accertare vengono classificati nelle seguenti categorie: salariati fissi e assimilati; obbligati o braccianti fissi; avventizi e assimilati; coloni e mezzadri; compartecipanti familiari.

Per stabilire la categoria di appartenenza dei singoli lavoratori, le Commissioni comunali terranno innanzi tutto presente:

sia dei riflessi che esso viene ad avere sull'onere contributivo gravante sull'economia agricola.

L'accertamento deve effettuarsi secondo le norme stabilite dal R. D. 24-9-1940, n. 1949.

Tale aggiornamento deve essere effettuato in base ai contratti di lavoro, ai libretti di lavoro ed alle risultanze dei registri degli Uffici di collocamento agricolo, ove esistano, nonchè alle istanze dei lavoratori per la iscrizione negli elenchi, alle denuncie dei datori di lavoro per le variazioni da apportarsi agli elenchi stessi, agli esiti dei ricorsi al Prefetto e alle dirette notizie che le Commissioni assumeranno sui singoli lavoratori.

Per stabilire la categoria di appartenenza dei singoli lavoratori, le Commissioni comunali terranno innanzi tutto presente:

a) per i salariati fissi e assimilati, per gli obbligati o braccianti fissi, per i mezzadri e coloni e per i compartecipanti familiari, la esistenza all'inizio dell'anno agrario 1944-45 di un rapporto contrattuale specifico per ciascuno delle menzionate categorie;

b) per gli avventizi e assimilati, l'avvenuta prestazione di lavoro quali giornalieri di campagna nell'anno agrario 1943-44.

In particolare, poi, le Commissioni dovranno seguire i seguenti criteri di massima senza però dimenticare che vi sono numerose figure di lavoratori agricoli, spesso identificate solo da particolari denominazioni locali, che dovranno essere attribuite all'una o all'altra delle categorie sopra indicate tenuto conto delle caratteristiche del rapporto di lavoro.

Salariati fissi. — Sono veri e propri salariati fissi i lavoratori vincolati per la durata di un anno e retribuiti a salario mensile.

Ai fini dell'accertamento debbono considerarsi salariati fissi anche i salariati che risultino assunti a contratto inferiore all'anno.

Per i salariati fissi a contratto inferiore all'anno (compresi i cosidetti «mesaroli»), necessita accertare e indicare l'effettivo numero di giornate di occupazione risultante dal contratto di lavoro.

Per gli appartenenti alla categoria dei salariati fissi, l'accertamento dovrà anche rilevare il sesso, la data e il Comune di nascita, la data di inizio e di cessazione del rapporto di lavoro, nonchè le generalità del datore di lavoro e la denominazione del fondo.

Obbligati o braccianti fissi. — Sono obbligati o braccianti fissi quei lavoratori ai quali viene garantito per contratto un numero di giornate di lavoro da compiersi durante l'anno secondo le esigenze dell'azienda. Il numero minimo di giornate di lavoro da attribuire agli obbligati o braccianti fissi è quello stabilito dai contratti collettivi di lavoro tuttora vigenti per la zona e, nel caso che questi siano scaduti, in base ai singoli contratti individuali.

Anche per gli obbligati l'accertamento dovrà rilevare il sesso, la data ed il Comune di nascita, la data di inizio e di cessazione del rapporto di lavoro, le generalità del datore di lavoro e la denominazione del fondo.

Avventizi. — In questa categoria verranno classificati i giornalieri di campagna (braccianti) nei cui confronti le Commissioni dovranno indicare il sesso, la data ed il Comune di nascita e il numero di giornate di lavoro da ciascuno prestato nell'anno agrario 1943-44.

In ordine alle giornate lavorative da accertare per i giornalieri di campagna le Commissioni comunali dovranno anche tener presente che nei riguardi del lavoro eseguito per conto di Enti statali e pubblici e di aziende esercenti attività di particolare natura, vigono i seguenti criteri:

A) debbono essere accertate ai fini della iscrizione negli elenchi le giornate di lavoro agricolo prestato alle dipendenze di enti statali e pubblici quali: Monopoli dello Stato - Guardia nazionale forestale - Benefici parrocchiali - Istituti e Comunità religiose - Istituto della Previdenza sociale - Aziende pubbliche di allevamento quadrupedi (limitatamente al personale civile) - Parchi e ville nazionali - Opera Nazionale Combattenti - Provincie e comuni - Enti di co-

Lo stesso dicasi per le giornate di lavoro prestato dagli avventizi alle dipendenze di Caseifici e latterie aziendali e sociali (escluso il personale addetto a macchine mosse da agenti inanimati) - Ville private per la coltivazione ed il governo dei parchi e giardini, con esclusione delle ville comprese nel catasto urbano solo per il personale domestico anche se adibito a lavori di giardinaggio - Consorzi di miglioramento e irrigazione, ecc.;

Pat. Application No. 12356 Section 3.3/NRD No. 785021

B: non debbono invece essere accertate ai fini anzidetti, le giornate di lavoro prestato dagli avventizi alle dipendenze di aziende che provvedono al versamento dei vari contributi previdenziali ed assistenziali direttamente agli istituti ed enti gestori delle assicurazioni sociali obbligatorie, quali: Ditte industriali e commerciali per la raccolta delle frutta e di altri prodotti agricoli - Ditte industriali e commerciali per la cernita e l'imballaggio dei prodotti ortofrutticoli - Ditte industriali e commerciali per la raccolta di uva da tavola - Ditte industriali che eseguono la vinificazione con uve proprie - Ditte industriali che gestiscono frantoi da olive - Ditte industriali che eseguono la raccolta e la degusciazione dei pinoli - Ditte non agricole che eseguono l'allevamento dei cavalli puro sangue - Ditte non agricole che eseguono l'allevamento degli animali da pelliccia - Ditte industriali che effettuano il taglio e la riduzione delle piante, la carbonizzazione e il loro trasporto - Associazioni turistiche per lavori di giardinaggio e simili - Società immobiliari per attività di bonifiche - Consorzi fra produttori dell'agricoltura - Caseifici e latterie aziendali e sociali e ditte agricole che gestiscono frantoi da olive, ecc. per il personale addetto alle macchine mosse da agenti inanimati - Consorzi di bonifica - Cooperative ed Enti similari che svolgono attività di manipolazione di prodotti agricoli, etc.

Coloni e mezzadri. — In questa categoria vanno classificate le vere e proprie mezzadrie (tipiche quelle della Toscana, Marche, Umbria, Emilia) nonchè le colonie parziarie (molto diffuse in alcune regioni dell'Italia centrale e meridionale). Non vanno invece comprese le semplici compartecipazioni che, come si vedrà in seguito, sono classificate in categorie differenti. La distinzione tra colonia parziaria e compartecipazione non è sempre agevole. Tenuto conto che ai fini della legislazione sociale i coloni parziari sono trattati come mezzadri ed i compartecipanti come giornalieri di campagna, si può in massima suggerire, per i casi dubbi, che quando si tratti di contratti poliennali, con impiego di scorte e capitali di esercizio da parte del lavoratore, si considereranno come contratti di colonia parziaria, quando invece si tratti di contratti annuali o comunque non ci sia apporto di scorte e capitali da parte del lavoratore, si considereranno come semplici compartecipazioni.

Per le famiglie mezzadrili e coloniche, le Commissioni comunali dovranno indicare le generalità del titolare, le generalità ed il sesso de componenti la famiglia, la data ed il comune di nascita, le generalità del datore di lavoro e la denominazione del fondo, la data d'inizio e di cessazione del rapporto di lavoro, la superficie del fondo e delle singole colture in esso praticate.

6-21

Compartecipanti. — Nell'accertamento de compartecipanti, le Commissioni comunali dovranno tener presente che sono da considerarsi: 1) **compartecipanti individuali** coloro che assumono la coltivazione di un terreno impegnando solo l'opera di determinate unità lavorative e non della intera compagine familiare; 2) **compartecipanti familiari** coloro che in base a patti

Per i compartecipanti individuali le Commissioni dovranno indicare la data e il comune di nascita, nonchè le colture le relative superfici tenute in compartecipazione. Per i compartecipanti familiari, oltre alle generalità del titolare e dei componenti la famiglia impegnati nella

compartecipazione, dovranno essere indicati la data e il Comune di nascita di ciascuno, le generalità del datore di lavoro, la durata del rapporto di lavoro, e la superficie delle singole colture tenute in compartecipazione.

Le risultanze degli accertamenti eseguiti nei riguardi di ciascun lavoratore, dovranno essere riportate su appositi moduli che saranno trasmessi a parte dagli uffici provinciali per i contributi agricoli unificati.

Le Commissioni comunali trasmetteranno — entro il minor tempo possibile — le risultanze degli accertamenti agli uffici provinciali anzidetti, affinchè questi possano procedere alla compilazione degli elenchi nominativi ordinari principali.

Le Commissioni comunali dovranno inoltre curare permanentemente la raccolta degli elementi riguardanti sia le variazioni da apportarsi agli elenchi nominativi ordinari principali, relativamente ai salariati fissi e assimilati, agli obbligati o braccianti fissi, ai mezzadri e coloni, e ai compartecipanti familiari, sia la cancellazione di nominativi di lavoratori di qualsiasi categoria che abbiano cessato ogni attività lavorativa in agricoltura.

Considerato che le variazioni agli elenchi ordinari principali si effettuano trimestralmente a mezzo di elenchi ordinari suppletivi, le Commissioni comunali dovranno tempestivamente trasmettere tali elementi ai predetti uffici provinciali dei contributi agricoli unificati.

TO : Mr. Sachs

1. The "Ispettorato del Lavoro" was first established in Italy in 1922: its organization and functions were amplified by two laws of 1923 and 1938; this last law gave to "Ispettorato" very important place in the fascist corporative organization of labour relations.

The most important activities of the Ispettorato were of a supervising character and they involved the following subjects:

a) application of labor and social security laws and of collective agreements:

b) activity of Trade-Unions and of Social Security Institutes for the welfare of the workers;

c) control on the local branches of the Ministry of Corporations.

The Ispettorato had a central and a local organization: the central organization had its seat by the Ministry of Corporations and was formed by several central Inspectors; the local organization was formed by interprovincial offices, which, in 1940, were 15.

2. After the liberation of Italy and the institution of Uffici del Lavoro, the position of Ispettorato became quite difficult.

I talked on this matter with Comm. Simeone of the Ministry of Labour, and his opinion is that the new Minister must decide as soon as possible which would be the most appropriate local organization of the Ministry, as well as which would be the respective position of Ispettorato and of Uffici del Lavoro.

THE ORIGIN AND AIMS OF THE E. N. A. L.

In 1919 the engineer Mario Gianni, former director of the S. I. Westinghouse founded in Rome with his own money a moral and cultural organisation for workers on the lines of Welfare Work and Loisirs Ouvriers the structure of which he had carefully studied during his frequent stays abroad.

Tho this italian organisation was given the nome of Dopolavoro and after some years' hard work it began to get known and to deve lop; so much so that the Bureau International du Travail at the June 1924 Congress in Geneva mentioned the founder in a very flattering way.

Wilfully misrepresented and turned down by the fascist government during its first years of existence this organisation for the workers' recreation caught its fancy in 1927. The segretary of the party in power in that time then took over the flourishing institution and in 1937, having also seized hold of its plentiful funds, fascism turned the «Off» political propaganda while it became a veritable gold mine for party leaders.

The new democratic Government, risen to power after the fall of fascism and the liberation of Rome, decided to keep the organisation going. Vincenzo Baldazzi was apointed Chairman. He is a true patriot, who has succeeded in retaining an undaunted spirit and a life-long faith in liberty despite twenty years fascist perecution: first he was put in jail then confined. A democrat to the core, Vincenzo Baldazzi, when he undertook his charge was at pains to make clear that from now on the chief functions of the organisation shall for the most part be directed towards aiding the workmen materially. This is a particularly important task since the suffering and poverty caused by war have so much lowered the standard of living of the mass

Declassified E.O. 12356 Section 3.3/NND No. 785021

of the itslian people, who are now working under extremely difficult and often painful conditions.

Before one could begin work a number of complicated problems had to be solved foremost of which the replacing of the funds dispersed partly thanks to German looting and partly illegally appropriated by the forme fascist directors. Next one had to proceed to reorganise the bulk of the institute and its provincial branches throughout liberated Italy. A hard enough task to undertake were one not upheld by the excellence of the goal to be reached. The Commissary, aided by a small number of direct collaborators set to work and after the first few months' untiring labour there are already some satisfactory results to show for it. At the same time the relief work has been pushed forward and several schemes have met with the approval of those for whom they have been planned.

Recentily the Cabinet from whom the organisation depends has changed its name from O.N.D. (national organisation for workers' recreation) to E.N.A.L. (national organisation for workers' welfare) which comes nearer the aims of the Society.

Thus renewed the organisation takes the decided form of a free and apolitical association built on a thoroughly democratic basis and no political pressure wil be exercised to find adherents. The members of each suburbian organisation named C.R.A.L. (aid and recreation clubs for workers) will be able to elect their own heads through the usual democratic system of free voting and the provincial and national directors will also be elected in the same way.

Moreover all other similar organisations (run by groups of people, political parties, religious or cultural institutes) if they think fit may also adhere in order to be able to profit by the advantages offered by the E.N.A.L. to its members such as: reductions on theatre tickets, on the purchase of goods, on hospital and sanatorium fees, accident insurances for more than one person and free entrance tickets to museums picture galleries etc.

This short summary of the advantages the society will be able to afford its adherents does not comprise all the social schemes it has in mind in favour of workers.

Declassified E.O. 12356 Section 3.3/NND No. 785021

The foremost place in the E.N.A.L.'s programme is held by its educational scheme, bent on uplifting the worker's mind morally intellectually and spiritually thus contributing towards the formation of his social conscience. Firm-libraries will therefore be reconstituted and furnished with interesting or amusing books calculated to forward this end.

Prominent people in various fields will also hold lectures in the factories on subjects of outstanding political, cultural of professional interest. For the same purpose wireless transmissions will be given special attention that friendly people's voices may reach the workers, taking an interest in their problems and keeping them amused with light programmes put on the air on purpose for them.

E.N.A.L. intends to devote particular attention to the theatre. In small towns where it is not possible to get up really good shows with fine staging the so-called Carri di Tespi will give first-class performances with first class artists. These Carri di Tespi are regular theatres built on a large scale and set on motor wagons; they are able to hold upwards of 6,000 spectators each.

In order to improve workers' standard of production the association intends to organise special professional courses. This will give the most willing a chance of specializing in their work thus affording them the possibility of bettering their economical status.

Under the E.N.A.L.'s assistential head comes the institution of: dining halls in the plants; factory markets block purchasing thus enabling workers to receive periodical distributions of particularly essential goods. Owing to the painful food situation in which the italian population is foundering especially in the large towns everyone's output is poorer than it should be, and this is not to be wondered at for if you don't get enough to eat both body and mind cannot give of their best.

The absolute dead necessity of overcoming at least in part this dangerous denutrion is very strongly felt by E.N.A.L. The Society intends to set about it organising an incessant flow of supplies direct from the country to the plant-dining-

Declassified E.O. 12356 Section 3.3/NND No. 785021

halls e factory markets. This will enable the workers to get more food and at reasonable prices.

Over and above all this E.N.A.L. intends to start a long series of recreational schemes: out of door games, trips, excursions friendly sporting competitions.

And lastly the new organisation will devote particular attention to helping young people, be they the sons and daughters of workers be they themselves young workers. A special programme will be thought out on purpose for this delicate and highly important branch.

There will be special educational and recreational schemes for cildren and above all moral assistance will be given young people in the firms factories and agricultural plants.

* * *

E.N.A.L. in organising all this hopes to solve the biggest social problem of our present day, given the wretched conditions of the mass of the Italian working class which the war has deprived almost entirety of its sources of production.

Our people who ask no more than to be able to rebuild an existence for themselves by means of their own labour and to rehabilitate themselves in the eyes of their fellow-workmen all over the world will find in our organisation, wich the Italian Government and the Allied Authorities shound be willing to aid morally and materially, a great help in reaching real welfare in a climate of true liberty.

The Ente Nazionale Assistenza Lavoratori (E.N.A.L.), which has its national seat in Via Sardegna 36, pn.45062, has taken the place of the former fascist organisation, called " Dopolavoro", the purposes of which were mainly recreation and education. The legal situation of ENAL is presently not yet established and no official provision has been taken in order to determine the field of its activity.

For the time being ENAL devotes all its action to assist armed forces (recreation, health assistance, legal assistance and so on). For the future ENAL will probably extend its action to all the workers and will provide many forms of social assistance.

One of the most important question will be that of relations between ENAL and " Patronato Nazionale per l'Assistenza Sociale", which was an institution created by the fascist workers'organisations, with the purpose of assisting the employees in their legal actions against their employers. Patronato has been abolished as well as all fascist syndical organisations and its functions have now been taken by ENAL: but it is probable that this Patronato will be reconstituted and this would mean, for ENAL, a considerable limitation in the field of its activity.

ENAL is at present under the administration of a Commissioner, Mr.Vincenzo Baldazzi: its Director General is Mr. Aldo Vergano and its Vice Director General is Mr.Armando Messina.

This information has been given to me on Thursday morning 22 February by Mr. Testi, who is a functionary of the National Seat of ENAL.

ALLIED CONTROL COMMISSION
LABOR SUB-COMMISSION

OFFICE MEMO

4 August 1944

SUBJECT: Opera Nazionale DOPOLAVORO

TO: Col. Smith

1. In accordance instructions, I talked with Maj. Shriver, Property Control Officer, Rome AMG, and also Maj. Hamilton, AMG Finance, regarding DOPOLAVORO properties in Rome and the Commissario situation. Subsequently, I located and called to my office for an interview, yesterday, Avv. Giuseppe Berlingieri, acting head of both the national and provincial offices of Dopolavoro in Rome. Findings follow.

2. Dopolavoro is an old movement in Italy, antedating Fascism by some years. When it was taken over by the Fascists, it became, along with the newly created GIL, Ballila and similar organizations, an instrumentality of the Party and, with respect to national and provincial offices, a roosting place for Party bureaucrats. The local workers' clubs, theaters and recreation facilities, however, have an important function in the after-work lives of workers, have been considerably expanded under Fascism, and with no alteration except management should most certainly be encouraged and continued, as a movement.

3. In recognition of above, the Dopolavoro properties in Rome have not been disturbed nor requisitioned, with the exception of one local club which is occupied by a Partisan unit and which Major Shriver took nominal control of when an effort was made to evict the Partisan unit (Jugo-Slav) from the offices. All Dopolavoro funds were initially blocked under Proclamation No. 4 and remain so, except small amounts allowed local clubs by Maj. Hamilton to meet salaries. Rome Region Administrative Order No. 32 provided for taking over, as State property, all buildings and assets of dissolved Fascist syndicates, but Maj. Shriver says the order is now considered as not applicable to Dopolavoro.

4. It was Maj. Shriver's belief that a Commissario had been appointed for Dopolavoro by the Badoglio Government before 8 September 1943 and was now in Rome attempting, not too successfully, to take charge; and that he should either be confirmed or replaced by a new National Commissario. Apparently the Major was misinformed, however, since I was informed by Avv. Berlingieri (see para. 5) that the Commissario referred to

6268

Declassified E.O. 12356 Section 3.3/NND No. 785021

was ousted by the puppet Republican Government and has not since been heard from in Rome. His name was Limongelli.

5. Avvocato Giuseppe BERLINGIERI, as attested by a letter he showed me, was nominated Reggente (acting director) of both the Rome Provincial Office and the National Office on 23 June, 1944, by authority of the Presidency of the Council of Ministers at the request of the Minister of the Interior. There is no Commissario at present, but Avv. Berlingieri told me that the Minister of the Interior plans to nominate one in the very near future. I gather that Berlingieri, who says he was an active anti-Fascist before fall of Mussolini, is a candidate for the Commissario post. He has been an attorney in private practice, still maintains his law office at Corso del Rinascimento, No. 24, and was picked for the temporary regency of Dopolavoro simply as an anti-Fascist professional man. He has no special experience for the job, but struck me as being interested, intelligent and probably capable.

6. The Dopolavoro offices under Berlingieri are located as follows:

Sede Nazionale--Via Capo d'Africa (CLOSED--no staff)

Sede Provinciale--Via Piemonte, 68; telephone 42788

The Provincial office has a staff of about 20 workers and is carrying on whatever work is being done from national standpoint, which currently consists of compiling inventories and making reports for the Ministry of the Interior.

7. Avv. Berlingieri had one brief interview with Lt. Col. LANE about three weeks ago; has had no other contact with Allied officers. Col. Lane asked him for a summary report which he submitted. He has not been in touch with Minister GRONCHI, since the Industry, Commerce and Labor Ministry is apparently not concerned with Dopolavoro activities.

8. Regarding national office, Berlingieri stated:

a. All funds and good share of furniture, plus an electric transformer, were transferred north in April or May.

b. A lot of other movable property was transferred to warehouses and sold cheaply and illegally. A list of sales exists and Berlingieri plans to attempt recovery after completion of inventory.

c. About 200 ex-employees, dismissed 15 November, by

Declassified E.O. 12356 Section 3.3/NND No. 785021

puppet Republican Government, allegedly for refusal to cooperate, are seeking to get their jobs back.

d. The Camera del Lavoro claims that the building of the National Office at Via Capo d'Africa belonged to their organization before Fascism and they wish to reestablish title to it.

e. The National Office owns 5 theaters in Rome, used for Dopolavoro entertainment (one being Casalina delle Rosse, now an ARC E'e club); MMMMMM and also other properties.

f. The puppet Republican Government appointed an Inspector last Fall to attempt to convert Dopolavoro theatrical facilities and companies into means of entertainment for the Germans, but Berlinguer's [illegible] attempt was not successful.

g. The national organization set-up will need complete overhauling and thorough epurazione, since national president was Fascist Party Secretary and top jobs were held by Party officials.

3. RECOMMENDATION:

a. A Commissario should be appointed as soon as possible.

b. The Labor Sub-Commission has a collateral interest in the proper functioning of Dopolavoro activities, but direct responsibility probably falls either in the Education or Interior Sub-Commission, or both, since the Ministry of the Interior is the branch of the Italian Government involved. Since Education has already undertaken reorganization of GIL, it is probably logical that they also supervise DOPOLAVORO.

c. It might be well to query Education and Interior Sub-Commissions as to their plans and whether they will vet the candidate for Commissario.

d. I have asked Avv. Berlinguieri for a brief written report and when this comes in ~~XXXXX~~ (next week) a final decision should be made as to Labor Sub-Commission responsibility, if any, and which officer should take it on.

Dr. Caroggi has been appointed by the International Labour office to occupy a post as advisor to the Italian Government on matters concerning the I.L.O. He has just known to be in Switzerland and arrangements were being made to expedite his passage to Rome.

Please enquire through the appropriate channels at A.C. or at A.F.H.Q. to ascertain whether his passage has been approved and when he is expected to arrive. It is felt he can perhaps be among the first to make contact with him as Labour Sub-Commission.
