MINISTRY OF INDUSTRY, COMMERCE AND LABOR
LABOR GENERAL DIRECTION

Prot. 446/53 AC

TO: THE ALLIED COMMISSION
LABOR SUB-COMMISSION
Rome

SUBJECT: "Granai del Popolo" (Granaries of the people)
Porterage in the province of Macerata.

It was already brought to the notice of this Ministry the fact that it seems that the rates fixed by the Labor Chamber of the province of Macerata, for the porterage work in connection with the Granaries of the People = rates approved by the A.M.G. = are different from those applied in the near-by provinces, and that they are considerably higher than the latter. Inasmuch as these differences may have a disturbing effect, both of financial and social character, we kindly ask to your Commission to issue directions intended to uniform, the porterage rates in all the provinces not yet turned over to the administration of the Italian Government.

We look forward to receive a word of reply to this note

for THE MINISTER

SUBJECT: Frontier Control.

14 November 1944

TO : Allied Force Headquarters, G-5 Section.

1. To enable this Commission to issue the necessary instructions regarding Italian frontier control, I would be grateful for your direction on the following points.

(a) Upon arrival of the Allied Armies on the frontiers of Italy with France, Switzerland, Austria and Yugoslavia, will these frontiers be temporarily closed to all movements of civilians and merchandise?
This Commission considers this desirable.

(b) After a period of time, will the S.A.C. permit civilian movement into or out of Italy provided the civilians are in possession of Military Travel Authorizations? This Commission considers this desirable.

(c) After a period of time, to what extent will the S.A.C. permit the movement of merchandise across the frontiers? On this matter this Commission puts forward the following views:

(i) Trans-frontier trade should be strictly controlled.
(ii) A maximum of imports should be allowed for the rehabilitation of Italy.
(iii) Only surplus goods should be allowed to be exported from Italy.
(iv) Since Italian-Swiss trade agreement may still be in force when the Armies reach the Swiss frontier, this would place Swiss-Italian trade in a different category from that of other frontier States. In view of the potentialities of Swiss heavy industry and its intimate knowledge of local problems it is considered wise to establish a priority on Swiss output.

2. When I have received your directions as requested above, I will be able to send my final recommendation to you so that they may at an appropiate moment be communicated to the various Governments concerned.

For the Chief Commissioner.

23 October 44.

My dear Mr. Prime Minister,

Recent incident arising out of the visits of certain Ministers of the Italian Government to areas in liberated Italy still in the military operational zone, that is to say, in the Army areas, have led General Alexander to the conclusion that it is undesirable that such visits should be repeated.

I do not deny the value, both to the population and the Ministers themselves, of such visits but my duty is to ensure that nothing should occur in these operational zones which may cause anxiety to the Military Commanders, a duty which I am sure you will help me to perform.

I would ask you, therefore, to note that only in the most exceptional cases can permission be granted to Ministers of the Government to visit such operational areas.

There will be no objection to Ministers and Undersecretaries of State visiting territories under the administration of AMG South of the Army areas. In such cases permissions should be sought from this Headqusrters and Ministers and officials should visit the Provincial Commissioner or the nearest Provincial Officer in the area which they are visiting.

Yours very truly,

ELLERY W. STONE,
Commodore, USNR,
Acting Chief Commissioner

His Excellency Ivanoe Bonomi,
The President of the Council of Ministers,
Italian Government.

NOTE

These minutes were taken from those remarks and statements at the meeting which were made in English. They therefore reflect the Ministers' statements in Italian only to the extent that they were translated or summarized by the Chairman (Mr. A. G. Antolini).

ANTOLINI: I will summarize briefly what I have told the Ministers as a preliminary to our discussion. I have notified the Ministers that as a preliminary step to the ultimate determination of the exact credit which will be passed on to the Italian Government we believe it to be important at this stage for them to state what they need, within certain definite limitation of foreign exchange. I have indicated to them in brief the mechanism of Washington procurement and screening and given them the criteria of judgment to be used on this program and/or requisitions. With your concurrence I shall review this paper with them. Anticipating the Ministers' questions I am going to talk to them briefly now in terms of giving them basic information that will be required on our system of requisitioning and our supply positions.

(Outline of program distributed to the Ministers and to Allied Commission representatives.)

Declassified E.O. 12356 Section 3.3/NND No. 785021

RUINI: Accepts the program and warmly applauds it on the part of the Italian Government and assures us of their closest cooperation. He restates the case of how this credit will be finally established. He poses the question which was in effect self-answered that the program should be one of determining the priority of needs for consumer goods and production goods. He implied that production goods would, of course, be of greater use to them so that they could, as soon as possible, be in a position to produce consumer goods for themselves. He fully understands that the program in scope is one of first aid and here I have translated his statement literally. I feel sure that he has understood and that our outline is clear to them. They have requested that we review the program point by point.

GRONCHI: Believes that to set a limit was important but to know the cost was fundamental. I told him I knew that getting exact costs presented difficult problems, but that we had experts to help them and I felt that we could reach an approximate figure on costs. We can get catalogs if we find we are in a vacuum.

GRONCHI: Question raised on coal: Is coal a Category "A" or a Category "B" item? As Col. Grafftey-Smith and Mr. Cleveland say, we perpetuate the end use of coal for Category "A" when it is a military necessity, but when the end use of coal falls outside the scope of military program it will naturally come under Category "B".

BERGAMI: Does the Category "A" item cease to be Category "A" when the geographic area involved is no longer of military importance? Would distribution come out of Category "A" regardless of geography?

ANTOLINI: Yes. For this purpose we cannot consider that there is a geographical distinction between Category "A" and Category "B".

BERGAMI: Assuming that food is in Category "A", it may result that the amount of food now being brought in under Category "A" may not be sufficient. Hence, will they be allowed to buy food out of the total credit in Category "B"?

ANTOLINI: I would think that the program should reflect the need in the first instance but with your permission I will answer their question in this way: We are bringing in the maximum we can with the shipping available, and if we cannot get it we are positive that the Italian Government cannot get it.

GRONCHI: Is transportation of requested items assured?

ANTOLINI: We know our program but shipping is not assured.

BERGAMI: Question has again reverted to food. Carrying out their thought he said that the Italian Government might want to use a substantial portion of this money for buying wheat. That might be a necessity for the tranquility of the people. Though we might accept [illegible] perhaps even if the world supply would support this

That might be a necessity for the tranquility of the people. Though we might accept it as a program, perhaps even if the world supply would support their needs, shipping might not be available in adequate amounts .... The other Ministers look upon this program as a "first-aid" program and feel that it should be reflected in the re-activation of agricultural and industrial production.

GULLO: Points out also that shipping is obviously the most difficult factor to be determined. If shipping is so difficult to be determined and if it is, in effect, the determining factor by and large; and if they find that we may consider that in Category "A" items like wheat it would be difficult to supplement our present import program, how do we see that we would be able to secure shipping for Category "B" supplies? I have answered his question to the effect that the considerations applying to wheat affect only the commodities which are bulk cargoes and require a great deal of shipping - mostly wheat and coal.

Declassified E.O. 12356 Section 3.3/NND No. 786021

SOLERI: Restates his position which seems to have the concurrence of the other Ministers to the effect that they, the Italian Government, must consider the Category "A" goods as top priority in shipping and perforce Category "B" items will be secondary in terms of need. Therefore, they feel that they must take the view of requesting only most urgently needed Category "B" items.

SOLERI: Says that all you are talking about is production goods and consumer goods but "you are not telling me that you are going to allow me to take any of this money for stabilizing the lira".

ANTOLINI: I have told the Ministers exactly what our position is on the feeding of this country. We have requested import to satisfy 300 gram ration and to date we have an unbalanced ration because we are unable to get shipping for imports. I have indicated that Category "A" items may well reflect a substantial portion of transportation and shipping. I have asked them to take a realistic viewpoint on the feeding of their country in terms of shipping problems.

RUINI: Suggests that it be added there, to put it on the positive side, that this Category "B" reflects a first-aid emergency program -- BERGAMI: "A harnessing program".

GRONCHI: Raised the question whether or not we will perhaps put "the cart before the horse" in asking to program certain goods without knowing their availability. He is afraid that the Italian Government position on the program - not knowing the availability of goods - would place them in an unrealistic position and indicated that if they knew something was not available they would have to use a substitute. I have told him that in all government purchases you screen programs as to end use and jusitification, and then you inquire as to the availability.

CLEVELAND: Should it not be explained to them that "availability" depends a great deal too on the justification of the requested items? (Antolini explained Mr. Cleveland's point to the Ministers.)

GRONCHI: Would like to treat it in some cases with an alternate plan. If we cannot supply an item requested they would like to substitute another item for the unavailable one. For instance, if they could not get the finished product, would it be possible for them to secure raw materials (and machinery, if necessary) for their own production.

VAUGHAN: Requested Mr. Antolini to tell Minister Gronchi that members of his Sub-Commission were always available for discussion of any problems the Ministry might have in this respect. (Antolini translated this message to Minister Gronchi.)

GRONCHI: Feels, on first impression, that priority in the Category "B" items should be somewhat as follows:

ANTOLINI: I have requested the Ministers to review 5.c. and 5.d. at once so that we may be given a deadline for their presentation. They have agreed to present to us in about a week an outline of programs related to 150, 200, and 250 million dollars in foreign exchange. At that time another meeting will be held with them.

SUBJECT: Levels of Appointment in which the Labor Sub-Commission is interested

TO : Economic Section

1. This is in response to an inquiry from the Economic Section as to the level of appointments made by or for the Italian Government in which the Labor Sub-Commission is interested. The following is an outline of the interests of this Sub-Commission.

2. Appointments

a. The Labor Sub-Commission desires to confer with and agree with the Italian Government on the appointment of all Commissioners or other appointed heads of all National Social Insurance Agencies and all other National Agencies formerly linked into the Fascist cooperative structures which have to do with labor matters, including such organizations as those dealing with the welfare, assistance, protection, and safety of workers.

b. In Italian controlled territory all new appointments to the position of Regional and/ or Provincial Labor Director may be made directly by Italian authority but only after clearance with the Labor Sub-Commission Headquarters through the Regional Labor Officer. It is understood, also, that the Italian Government will not remove Italian Officials who were appointed under A.M.G. from these positions except with the prior consent of Labor Sub-Commission Headquarters.

c. In Allied Control territory all new appointments to the position of Regional or Provincial Labor Director will be made directly by the Regional Labor Officer, without clearance with the Italian Government except where A.M.G. deems it advisable because of the continuing nature of their duties. In case the Italian Government wishes to propose an appointment to one of these posts clearance with the Regional Labor Officer will be required.

SUBJECT: Passing of powers in the provinces handed back to the Italian Government.

TO : Regional and Provincial Offices.

Hereunder are provisions issued by the Council of Ministers regarding the passing of powers in the provinces handed back to the Italian Government.

1. Starting from the date of the passing of powers - which is to be communicated from time to time - the Allied Military Authorities (A.M.G.) are changed into controlling organs (A.C.C.). Therefore:

a) all Italian offices and functionaries, even if established and appointed by the Allied Authorities, depend exclusively on the Italian Authorities;

b) the Allied Control Commission performs its duties in connection with the Italian Government and the Allied interventions are carried on usually through the Central Authorities.

2. From the date of the passing of powers to the Italian Authorities, provisions of legal contents issued by the Allied Military Authorities cease to be effective directly or by representation. Such provisions must be considered legal and effective for the period they were in force, therefore all acts made on their basis will remain.

It is obvious that each administration will have to propose - if necessary - other provisions to replace those that cease to be effective and this case the administrations will provide immediately in order to avoid prejudicial effects. 632

Although these employees are paid according to their grade the juridical position is very different than in the case of definite appointment, infact:

a) such employees do not belong to the Permanent State Employees' category;
b) they do not enjoy the guarantees given to State Employees, whereby their removal from the service may be effected by revocation of the position;
c) whenever for any reason they leave their position every employment connection with the Public

Administration is definitely discontinued.

4. Even promotions given by the Allies give place only temporary employment connections mentioned above in reference to the appointments.

5. In cases in which it is deemed that individuals appointed by the Allies are not fit to perform their duties with profit, the Central Administrations will provide for their removal.

6. Naturally all possible facilities must be given to the Allied Authorities in order to mantain a loyal spirit of collaboration to which the Government inspires its own policy.

In relation to the above, we beg the Labor Offices to submit to this Ministry eventual proposals regarding paragraph 2 and 5.

MEMORANDUM FOR THE LABOR SUB-COMMISSION

The Ministry of Industry, Commerce and Labor has recently absorbed great part of the services carried on by the suppressed Ministries of Foreign Exchange and of War Production, and which, added to those that were carried on by the suppressed Ministry of Corporations, represent a number of offices very important which must deal with a great number of questions in connection with the problems of Mining, Industry, Commerce and Private Insurance. The Ministry has not failed to reduce the former services and has done away with non permanent employees.

Actually it cannot reduce permanent personnel for the following reasons:

1. - many employees have been transferred in northen Italy.
2. - many employees have been discharged because subject to "purging".

However the matter may be considered after the "purging" of the dependant personnel and when the Ministry will have all its services returning normalcy.

All non permanent personnel has been discharged although this administration is in need of them for the various services.

As soon as the functions of this administration will return to normalcy many non permanent employees, who have been discharged, will have to be reemployed, particularly file clerks and ushers.

APPUNTO PER LA COMMISSIONE ALLEATA DI CONTROLLO

SOTTOCOMMISSIONE DEL LAVORO

==========

Il Ministero dell'Industria, Commercio e Lavoro ha di recente assorbito la maggior parte dei servizi dei soppressi Ministeri degli Scambi e Valute e delle Fabbricazioni di guerra, e che, in aggiunta a quelli che già facevano parte dell'Amministrazione del cessato Ministero delle Corporazioni, rappresentano un complesso di uffici molto importanti, ai quali è demandata la trattazione delle numerose e complesse questioni inerenti ai problemi dell'industria e delle miniere, del commercio interno ed estero, delle assicurazioni private, del lavoro e della previdenza.

Esso non ha trascurato di snellire sensibilmente i servizi preesistenti, astenendosi anche dal richiamare in servizio i numerosi avventizi che vi erano addetti.

Allo stato delle cose, è però da escludere che si possa far luogo a riduzioni del personale di ruolo, tenuto presente anche che:

1 - vari impiegati si sono trasferiti al Nord col governo repubblicano;

2 - sono stati sospesi diversi impiegati sottoposti a giudizio di epurazione.

5630

La questione potrà, se mai, essere ripresa in esame dopo che sarà condotta a termine il giudizio per l'epurazione del personale dipendente e che i servizi del Ministero avranno ripreso la loro normale attività.

Per quanto riguarda il personale avventizio si fa presente che è stato da tempo tutto licenziato e che di esso però questa Amministrazione

STATEMENT OF ITALIAN GOVERNMENT

The Italian Government desires to announce that the official position of the Allied Control Commission was not accurately reflected in the statements which appeared in the newspapers this morning to the effect that approval of the ACC had already been given to certain proposals of the Italian Government concerning wage increases. The proper facts are that ACC has previously informed the Italian Government that it recognizes that the plight of the Italian workers is grave and that appropriate measures calling for wage adjustments are necessary and proper at the present time. The amount of such increases, however, and the manner in which they will be applied and other necessary details have not yet been fully worked out. It is anticipated that this can be accomplished very shortly at which time the details will be publicly announced.

It must be made clear that any advances given to employees in anticipation of the forthcoming increase will be deducted from the amount due to the employee by reason of the wage increase.

The Italian Government desires to assure the people of Italy that both its Government and the ACC are keenly aware of the seriousness and urgency of the wage problem. For this reason much study and thought has been given to it. It is necessary to take adequate precautions in order that the wage relief which will be extended to the worker will be genuine rather than illusory and to assure that the National Economy of Italy will not be further upset. We remain confident that the workers of Italy appreciate the difficulties involved and with their usual patience will avoid taking any ill-advised steps which might bring on serious consequence.

SUBJECT: Lodgings of Hon. Giuseppe Di Vittorio

TO : Real Estate Officer, Home Allied Area Command
(Att: Col. Mac Murtray)

1. Hon. Giuseppe Di Vittorio is a prominent member of the Committee of Liberation which was accorded semi-official status by the Allied authorities. He is closely connected with the Italian Government and also a very prominent labor leader whose services we are using in the solution of National labor problems.

2. The Italian Housing Commissario of Rome assigned him an apartment for his personal living uses, on 21 August, consisting of three rooms at Via Paolucci dei Calboli No. 8, which belonged to the Istituto Case Popolari. This apartment was formerly occupied by a Fascist named Serraglia Luigi, who escaped to Northern Italy. Mr. Di Vittorio has complained to us that when seeking to enter the apartment, he was told by the Prefettura di Roma for the account of the Allied Command, Section "B".

3. We would very much appreciate the restoration of this apartment to Mr. Di Vittorio, or if such action is impossible, that similar accommodation be accorded him.

Rome, 9 September 1944

The housing Commissario of Rome on August 21,1944, assigned me an appartment, consisting of 3 rooms, in the building located on Via Paolucci dei Calboli No 8, which belongs to the Istituto Case Popolari.

The said appartment was formerly inhabited by the fascista Serraglia Luigi, who escaped in Northern Italy.

While I was going to enter the said appartment the janitor has told me that the appartment has been requisitioned by the Prefettura di Roma for the account of the Allied Comand Section B.

Being that I have not much time to look for an appartment I beg you to have the appartment given to me again.

This follows the phonogram n.2770 of September 1st of which I send you a copy of the same.

Several Public Administrations, controlled directly by the various Ministries, because of various difficulties, have not been able to renew permits of autovehicles for circulations, according to the terms prescribed by the A.C.C.

Furthermore the A.C.C. has not yet decided which firms shall supply the fuel to such Administrations, for which reasons they have not been able to get from the agents of the Italian Government the prescribed declarations that the fuel will be furnished.

We beg you, therefore, to kindly consider urgently this problem. In order to permit the renewal of permits of circulations, this Ministry would propose:

1) - to give dispositions to the trasnportation Office of the A.C.C. of via Tomacelli 137 so that - pending the handling over the correspondence papers to the Italian Authorities - the permit of circulations already granted by the A.M.G. should be delayed and the applications for new permits should be accepted even if the same applications have been brought in late.

2) - The assigned fuel for vehicles for such administrations would be distributed by the Roman Chamber of Commerce according to the particular fuel allowance that this A.C.C. will dispose of.

We shall appreciate a quick reply on the subject.

SUBJECT: Request for Electrical Service

TO : Region IV, TCU Div - 45 Via del Mare, Rome

1. Service required by the Italian Ministry of Industry, Commerce and Labor, applicant, as follows:

a. Building at Via Flavia No. 6, Rome - Estimated 30 Kilowatts peak load.

b. Building at Piazza Dalmazia No. 1, Rome - Estimated 20 Kilowatts peak load.

c. Building at Via Sallustiana No. 53, Rome - Estimated 17 Kilowatts peak load.

2. Notes :

a. The building in Via Flavia houses the Ministry's Main Offices, and management and directive personnel controlling all activities of the Ministry. Adding and calculating machines are used throughout the working day. Office hours are from 0830 hours to 1400 hours and from 1600 hours to 1900 hours. Several departments may work at times until 2200 hours.

b. The building in Piazza Dalmazia houses all accounting and control departments over finances and operating policies of Social Security, Unemployment Compensation, Workmen's Compensation and Sick Benifit funds. Calculating and other electrical office appliances are used extensively. Water pumps are also electrically operated. Working hours are the same as #1) above.

c. The building in Via Sallustiana houses the Statistical and Labor branch of the Ministry. Here also, especially in the Statistical and, calculating machines and other electrically-operated machines are used constantly throughout the day.

3. Comments :

The electricity quota of the Ministry had been calculated on the basis of minimum needs, taking into consideration that lights will be used only on cloudy days, and during the late evening hours. The Ministry promises strict

5603

control over wastefulness in the use of electricity and will cooperate on all counts to keep power consumption at the lowest level. The activity of the Ministry will be seriously compromised if this application is not favorably received.

4. Please advise us when this matter receives your approval.

FROM : Labour Sub-Commission

SUBJECT : Italian Gov'T
Labour Legislation

There appears to be some confusion as to what action is to be taken on the above issue and on whom, at the moment, the onus lies.

I have a note from Major Albright in which it is stated that the Minister of Industry, Commerce and Labour "awaits a call from the Economic Section to continue the discussion scheduled for the meeting which was cancelled last week".

You will recall that at the meeting with three Trade Union Leaders emphasis was laid on the fact that we were awaiting the Governments proposals.

At the moment we appear to be waiting for each other.

The matter is urgent and unless you have orders to the contrary I propose to have H. E. Gronchi informed that we are in fact waiting for him and are anxious that progress be made urgently.

11 August, 1944

SUBJECT: Lack of development of Labor Administration in the Italian Government.

TO : Col. Bain - Director Labor Sub-Commission

1. In view of the many urgent labor problems existing at this time and foreseen for the immediate future, it seems a matter of grave importance that <u>there is virtually no Italian Government organization for any of the problems of Labor Administration</u>.

2. In the Provinces:

a) - The Regional and Provincial Labor offices have no legal standing in Italian Law, and receive little support and no direction from the Ministry of Industry; Commerce and Labor. In Sardinia and four Apulian Provinces, Labor Offices have not been established.

b) - The Inspection Service of the Ministry has not been recognized or restaffed and has no present definition of its field responsibilities.

c) - The Provincial offices for Employment Service and Social Insurance Law been reconstituted by ACC/AMG but have received no direction since being turned back to the Italian Government.

3. At the Central Government level, there is even less organization:

a) - There is no separate Ministry of Labor and although one of the two Undersecretaries to the Minister of Industry, Commerce and Labor is designated for Labor he has not been given responsibility in this field and has taken no action in it. The Minister himself has been too preoccupied with other matters of his Ministry to spend sufficient time on Labor Matters.

b) - There is no Labor Section designated by the Ministry. There are five persons headed by Dr. Mauro, Chief of the Labor Service under the previous Ministry, who are

./.

Declassified E.O. 12356 Section 3.3/NND No. 786021

"Holding the fort" but without confirmation of their position or authority to act.

Even if they had authority it is submitted that a staff of five is hardly sufficient to form the necessary sections to handle, among other matters.

1) - Field supervision of Labor Offices
2) - Labor Relations
3) - Wage cases
4) - Trade Unions
5) - Public Employment Service procedures.

c) - In the field of Social Insurance, the Ministry has not nominated Commissarios for the National Agencies in spite of present confusion due to two acting Commissarios for some and none for others.

Within the Ministry, no officer has been authorized to deal with Social Insurance although, as in the case of Labor Service, the former Chief and three assistants have continued to do what they could without authority or assignment from the present Ministry.

4. The Labor Subcommission since Nov.1943 has assigned a staff officer for daily Liaison with the Italian Ministry of Industry, Commerce and Labor.

Four Ministers of Industry, Commerce and Labor, including the present one, have promised to take action "subito" to develop the necessary staff and organization for Labor Administration.

As of this date, there is no such Organization, and no immediate prospect for its development.

5. Since requests and recommendations of the Labor Sub-Commission seem to be unavailing, please advise what type of action may be taken by the A.C.C. to further this action by the Italian Government.

OGGETTO: Lasciapassare per i Funzionari del Governo Italiano.

AL : Dr. Scocca, Capo-Gabinetto - Ministero dell'Industria, del Commercio e del Lavoro.

I. Qui accluso abbiamo l'onore di inviarVi un copia dei testi riguardanti il permesso di circolazione per i dipendenti del V/ Ministero che dovranno viaggiare per affari di ufficio. Un modulo è pure accluso di modo che tutte le informazioni necessarie per questi lasciapassare dovranno essere sottoposte al nostro controllo.

2. Poichè la Sotto-Commissione del Lavoro potrà solo autorizzare i viuggi con scopo di lavoro, gli altri lasciapassare saranno sottoposti alla Sotto-Commissione dell'Industria o del Commercio secondo che tale Sotto-Commissione abbia poteri giuridici. Lo stesso avviene per i viaggi autorizzati direttamente dalla Sotto-Commissione Economica.

3. Appena avverrà un cambiamento dell'attuale procedura ci affretteremo a farvelo noto.

QUARTIERE GENERALE DELLA COMMISSIONE DI CONTROLLO

Sezione R.O. & M.G.- APO 394

26 Aprile 1944

OGGETTO : Controllo del movimento dei civili.

Ai Commissari Regionali delle Regioni I, II, III, V e VI

E.C.A.O.S. - Quinta ed Ottava Armata.

Restrizioni

a) Aree dell'Esercito o dei Corpi d'Armata:-

Nelle aree dell'Esercito (o dei Corpi d'Armata) i regolamenti esistenti continueranno ad essere applicati, per cui i civili non potranno viaggiare più di 10 chilometri dalle loro abitazioni senza un permesso del Governo Militare Alleato.

Quei civili i quali desiderano recarsi in tali aree dovranno ottenere uno speciale permesso, il quale sarà emesso dalle Autorità della A.M.G. dell'area nella quale desiderano viaggiare.

b) Territorio controllato dalla A.M.G.

Nel territorio controllato dall'A.M.G. dietro l'area dell'Esercito (e dei Corpi d'Armata), le restrizioni del movimento fra le provincie debbono essere, d'ora in poi, nuovamente imposte, cioé i civili in questa area non potranno viaggiare da una provincia all'altra senza il permesso dell'A.M.G.

c) Territorio Amministrativo del Governo Italiano.-

Non ci sarà restrizione di movimento in quella parte dell'Italia Meridionale la quale è amministrata dal Governo Italiano e nemmeno in Sicilia ed in Sardegna. Un permesso della Commissione Alleata di Controllo, tuttavia, è necessario per il movimento fra l'Italia Meridionale, la Sicilia e la Sardegna, come pure per il movimento dal territorio del Governo Militare Alleato in quello Italiano e viceversa.

(1) - Zone Costiere

a) Zone Militari a Foggia.-

Nel caso che le persone desiderino recarsi verso Nord-

ovest attraverso la linea di controllo (che segue in generale il corso del fiumi Biferno e Volturno) e entrare nella provincia di Foggia, la procedura esistente sarà normalmente seguita purchè enmi ottengano prima (attraverso la rappresentanza locale dell'A.M.G. - A.C.C.) un lasciapassare rilasciato dalle competenti autorità della A.M.G. nella zona della loro destinazione.

b) Le Province dell'A.M.G. -

Per gli altri viaggi che comportano movimenti nelle o attraverso le provinde comprese fra la zona limitata (e.g. da Bari ad Avellino, o da Foggia a Napoli) un lasciapassare sarà rilasciato dalla rappresentanza locale dell'A.M.G.-A.C.C. al momento della partenza.

c) Discrezione del Commissario Provinciale.-

La procedura descritta nel paragrafo (b) di cui sopra, deve essere usata nei casi descritti nel paragrafo (a) quando, per urgenze amministrative, economiche, o per altre ragioni, la procedura descritta nel paragrafo (a) fosse inattuabile a causa del fattore tempo. In tali casi i lasciapassare saranno rilasciati dal Commissario Provinciale o da un membro del suo Stato Maggiore, in suo luogo che dovrà inoltrare immediatamente i dettagli del rilascio di tali lasciapassare alla S.C.A.O., o P.G. della zona di destinazione.

d) Ragioni per viaggiare.-

E' necessario che il rilascio di permesso di attraversare la "Linea di Controllo" e entrare nella Provincia di Foggia sia strettamente limitato ai casi di vera utilità per la causa degli Alleati, o in cui ci saranno importanti ragioni amministrative o economiche o in casi eccezionali in cui vi siano motivi urgenti e compassionevoli. L'emissione di altri permessi sarà limitata a favore di quelle persone che abbiano buone e genuine ragioni di viaggiare, sia che per pratiche ufficiali che per affari o ragioni di famiglia.

e) Rilascio di biglietti per viaggiare.-

Gli ufficiali della Commissione Alleata di Controllo provvederanno anché i biglietti di trasporto non siano rilasciati dalle autorità ferroviarie o altre agenzie di viaggi poste nelle aree limitate, a meno che le persone che fanno domanda per i biglietti siano in possesso di un permesso per la destinazione ove intendono andare.

1. In riferimento al foglio 316/76/CA del 26 Aprile 1944 (del quale si allega una copia per facilità di riferimento).

2. Il paragrafo 4 (f) del foglio 316/76/CA viene corretto come segue :

(i) Impiegati governativi del Governo Centrale Italiano.-

Il sistema di rilascio dei lasciapassare agli impiegati del Governo Centrale Italiano sarà il seguente : L'impiegato si rivolgerà alla corrispondente Sezione, Sotto-Commissione o Ramo della A.C.C. per il lasciapassare. Se d'accordo, le sottocommissioni o rami dell'Amministrazione, Sezioni Economica e R.C. & M.G., inoltreranno i lasciapassare in duplo, a mezzo delle loro Sezioni, alla Segreteria Generale per la firma. Nel caso della Sezione Politica, Sotto-Commissione Indipendente e Ramo Relazioni Pubbliche, i lasciapassare da essi approvati saranno inoltrati direttamente alla Segreteria Generale per la firma. Tutti i lasciapassare in duplo dovranno essere redatti sui moduli giallo e blu dell'A.C.C. e portare in calce la seguente annotazione, prima di giungere alla Segreteria Generale :

" I dati esposti nel presente lasciapassare sono stati verificati e le disposizioni della lettera del Quartiere Generale della A.C.C. N° 316/76/CA del 26 Aprile 1944 applicate scrupolosamente."

(ii) Lasciapassare speciali per i Ministri del Governo Centrale Italiano.

Speciali lasciapassare saranno disponibili per i Ministri del Governo Centrale Italiano. Tali lasciapassare saranno emessi dalle Sotto-Commissioni interessate in duplo ed inoltrate a mezzo delle loro Sezioni alla Segreteria Generale per la firma. I lasciapassare dovranno essere redatti soltanto sui moduli giallo e blu della A.C.C. e verranno rilasciato esclusivamente se riferentisi a movimenti in località a sud della Linea di Controllo Militare. Essi saranno per un periodo di tre mesi e dovranno portare la seguente annotazione a tergo :

"S....., (designazione dell'ufficio) è autorizzato con il presente a recarsi in qualsiasi parte del territorio Italiano a sud della Linea di Controllo Militare. Dovrà essergli prestata ogni facilitazione e cortesia".

5588

Dopo la firma della Segreteria Generale, i lasciapassare saranno da essa inoltrati al Quartiere Generale dell'A.M.Z.C.B.I. (b) per il visto.

g) Personale militare italiano.-

I movimenti dei membri delle Forze Militari Italiane sono senza alcuna restrizione purchè si tratti di persone di servizio ed in possesso delle debite credenziali. Le Forze Militari Italiane fuori di servizio, per esempio in licenza, sono soggette alle stesse restrizioni dei civili.

h) Ufficiali autorizzati per rilascio permessi.

Sarà alla discrezione del Commissario Provinciale di autorizzare degli ufficiali designati ed approvati dal Questore o dai C.C.R. per il rilascio di permessi per viaggi nella provincia o da una provincia all'altra. E' tuttavia da notare che i permessi autorizzanti le persone ad entrare nelle aree dell'Esercito ~~oppure nella provincia di Foggia~~ devono essere rilasciati dagli ufficiali dell'A.M.G.-A.C.C.

i) Permessi permanenti.-

Nel caso di persone dimoranti presso il confine di una provincia i cui luoghi di lavoro si trovano in tutto o in parte in una o in più provincie vicine, si potrà rilasciare un permesso semi-permanente, e tali permessi avranno validità soltanto fino al 31 marzo, 30 giugno, 30 settembre e 31 dicembre di ogni anno. Essi potranno essere rinnovati in seguito a regolare domanda. Tali permessi potranno essere altresì rilasciati a tutte le persone aventi sufficienti motivi per viaggiare spesso da una provincia all'altra.

j) Si consiglia che allorchè una domanda di permesso per viaggiare in un area dell'esercito oppure nella provincia di Foggia, è presentata all'A.M.G./A.C.C., il competente ufficiale completi la domanda del permesso nell'interesse della richiedente (purchè le ragioni addotte per il viaggio siano sufficienti) e faccia pervenire il permesso stesso alle C.C.R.R. e P.C. per l'approvazione, per la firma e restituzione.

5 - Si vedrà che in seguito i Commissari Provinciali saranno autorizzati, in alcuni casi, di mettere permessi per entrare nelle aree delle Armate ~~nelle Provincie di Foggia~~ senza aver ottenuto prima un permesso del punto di partenza (vedi 4 (c), ed inoltre che il movimento dei membri delle Forze Armate Militari è limitato, (vedi 4 (g)).

SUBJECT: Permanent Building Passes for
Social Insurance Officials

TO: Major Albright

1. I find one insurance official who will have occasion to visit this headquarters regularly who was omitted from the consolidated list you turned in for building passes.

2. He is Dott. Franco Ghissetti (Identity Card: Tessera di Combattente No. 008300), Director General of the Istituto Nazionale Malattia, whom Dr. Malfettani brought up from Bari.

3. Could you arrange to have his name added? Thanks.

SUBJECT: Submission of Labor Legislation for ACC Approval

TO : Col. J.T.R. DAIN Director, Labor Sub-Commission

1. Please advise concerning ACC policy on the approval of Decree Laws of the Italian Government.

2. In two recent cases the Ministry of Industry Commerce and Labor has submitted labor legislation to the Council of Minister without prior approval of the Labor Subcommission:

a) A decree concerning the suppression of certain Fascist Confederations and the liquidation of their assets was submitted to this Subcommission only a few hours before it was presented to the Council of Ministers. There was no time for an official answer, but the Ministry was informed that the Decree was unacceptable in its present form. It was nevertheless presented and passed by the Council.

b) A decree concerning disputes arising from applications of the approved percentage increase in salaries and wages, was presented to the Council of Ministers or thursday, 27 July 1944 without prior submission or notice of any kind to the Labor Subcommission. The passage of this Decree was made known to the public through the Italian press.

3. Although it is understood that action by the Council of Ministers does not become law until approved by ACC and printed in the Gazzetta Ufficiale, it appears highly undesirable practice for the Italian Government to pass Decree Laws and leave the ACC in the position of considering, and sometimes as in the cited cases, disapproving of such Laws.

SUBJECT: Control of Civilian Movement.

TO : Regional Commissioners Regions I, II, III, V, and VI.
S.O.A.O's Fifth & Eighth Armies.

1. Introduction.

It is evident that the enemy intends to continue his efforts to introduce espionage and sabotage agents into Southern Italy on a considerable scale. In order to meet this threat and to neutralise as far as possible the activities of such agents, it has been decided that a wider and more effective system of control of civilian movement will be introduced.

Allied Control Commission officers are therefore requested to accord the Military Security Services every possible assistance, and to see that the restrictions referred to herein are properly and strictly imposed.

2. Restrictions.

(a) Army and Corps Areas.

In the Army (and Corps) areas the existing regulations will continue to apply whereby civilians are forbidden to travel more than 10 km. from their own homes without an AMG pass.

Those civilians who wish to proceed into such areas will require to obtain a special pass which will normally be issued by the AMG authority of the area into which they intend to travel.

(b) Territory under AMG.

In Territory under Allied Military Government in rear of the Army (and Corps) areas, restrictions on inter-provincial movement is to be re-imposed forthwith, i.e., civilians in this area will be prohibited to travel from one province to another without an AMG pass.

(c) Italian Administered Territory.

There will be no restriction on movement within that part of Southern Italy which is administered by the Italian Government, nor within Sicily and Sardinia. An Allied Control Commission pass will, however, be required for movement between Southern Italy, Sicily and Sardinia, and also for all movement from AMG territory into King's Italy and vice versa.

(c) Italian Administered Territory.

There will be no restriction on movement within that part of Southern Italy which is administered by the Italian Government, nor within Sicily and Sardinia. An Allied control document pass will, however, be required for movement between Southern Italy, Sicily and Sardinia, and also for all movement from AMG territory into King's Italy and vice versa.

3. Check Points.

(a) In Restricted Areas.

In Army (and Corps) areas and in territory administered by Allied Military Government every effort will be made to enforce the above restrictions by means of a widespread system of 'snap' check points, which will be established for a few hours daily at irregular times and at varying points. The responsibility of arranging such checks will rest with F.S.S. or C.I.C., Units.

5575

Declassified E.O. 12356 Section 3.3/NND No. 786021

The object of these check posts will be : (i) to turn back those seeking to move outside the prescribed limits without a pass, (ii) to take action against those who have committed serious and flagrant breaches of the regulations, (iii) to question or detain for investigation persons whose conduct or "story" is suspicious.

(b) In Unrestricted Areas.

In territory administered by the Italian Government a similar system of 'unrep' check posts will be established. In this instance, however, the objects will be limited to (1) briefly questioning those passing the point with a view to discovering suspicious individuals who should be subject to further interrogation, and investigation, and (2) instilling a sense of insecurity in the minds of agents or other undesirable individuals so that they may hesitate to move about or even abandon their mission.

(c) Organisation and Composition.

This system of check posts will be organised by Army, Corps, District and Base Section Headquarters and NOT by AMG/ACC, both AMG and ACC territories.

These check posts will normally be manned by appropriate combinations, according to circumstances of M.S.P./C.I.C., S.I.M. (C.S.), CC.RR and Guardia di Finanza.

Every effort will be made by Allied Control Commission officers to ensure the fullest co-operation of the Italian Police in connection with these duties.

4. Passes.

(a) Army Areas and Foggia.

In the case of persons wishing to move North-Westwards across the "Control Line" (which follows the general line of the Rivers Biferno and Volturno) or to enter Foggia Province, the existing procedure will normally be followed whereby they must first obtain (through their local AMG/ACC representative) a pass issued by the appropriate AMG authority in the area of their destination.

(b) AMG Provinces.

For other journeys involving movement into, or between, Provinces within the restricted area (e.g. from Bari to Avellino or from Foggia to Naples) a pass will be issued by the local AMG/ACC representative at the point of departure.

(c) Discretion of Provincial Commissioner.

Declassified E.O. 12356 Section 3.3/NND No. 785021

with a view to discovering suspicious individuals who should be subject to further interrogation, and investigation, and (2) fruitfully a sense of insecurity in the minds of agents or other undesirable individuals so that they may hesitate to move about or even abandon their mission.

(c) Organisation and Composition.

This system of check posts will be organised by Army, Corps, District and Base Section Headquarters and NOT by AMG/ACC, both AMG and ACC territories.

These check posts will normally be manned by appropriate combinations, according to circumstances of P.S.P./C.I.C., S.I.M. (C.S.), CC.RR and Guardia di Finanza.

Every effort will be made by Allied Control Commission officers to ensure the fullest co-operation of the Italian Police in connection with these duties.

4. Passes.

(a) Army Areas and Foggia.

In the case of persons wishing to move North-Westwards across the "Control Line" (which follows the general line of the Rivers Biferno and Volturno) or to enter Foggia Province, the existing procedure will normally be followed whereby they must first obtain (through their local AMG/ACC representative) a pass issued by the appropriate AMG authority in the area of their destination.

(b) AMG Provinces.

For other journeys involving movement into, or between, Provinces within the restricted area (e.g. from Bari to Avellino or from Foggia to Naples) a pass will be issued by the local AMG/ACC representative at the point of departure.

(c) Discretion of Provincial Commissioner.

The procedure described in para (b) above may be employed in cases described in (a) above when, for urgent administrative, economic or other reasons, the procedure described in (a) would be impracticable owing to the time factor. In such cases the passes will be issued by the Provincial Commissioner or by a member of his staff on his behalf who will immediately forward details of the issue of such passes to the SCAO or PC of the area of destination.

Declassified E.O. 12356 Section 3.3/NND No. 786021

(d) Reasons for Travel.

It is essential that the issue of passes to cross the "Control Line" or to enter Foggia Province be strictly limited to those cases where the journey will benefit the Allied cause, or where there are important administrative or economic reasons, or in exceptional cases, where there are urgent compassionate grounds. The issue of other passes will be limited to persons who show good and genuine reason why they wish to travel, whether on official matters, business or family grounds.

(e) Issue of Travel Tickets.

Allied Control Commission officers will ensure that transport tickets will not be issued by the railway authorities or other travel agencies to passes within restricted areas unless the persons applying for tickets are in possession of a proper pass to their intended destination.

(f) Italian Government Officials.

Passes for Italian Government officials will be issued by this Headquarters and signed by the Secretary General or by the Deputy Secretary General, Allied Control Commission, and will be issued after application has been received from the Government Department concerned or from Italian Liaison Section, Allied Control Commission, and considered by the appropriate Sub-Commission who will be responsible for examining the application as to actual necessity for the proposed journey. Such passes will be prepared for signature by the Sub-Commission concerned.

(g) Italian Military Personnel.

The movement of members of the Italian Military Forces is unrestricted providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g. when on leave, are subject to the same restrictions as civilians.

(h) Issuing Officers.

It will be within the discretion of the Provincial Commissioner to authorise specified and approved officers of the Questore or P.S. HQ to issue passes for inter provincial travel. It is emphasised, however, that passes permitting persons to enter the Army areas or Foggia Province must be issued by AMG/ACC officers.

5574

(i) Semi-Permanent Passes.

In the case of persons living near a Provincial boundary and whose place of employment is in, or partly in, and adjoining Province or Provinces, a semi-permanent pass may be issued and such passes shall expire on 31 March, 30 June, 30 September and 31 December annually, and then become renewable upon further application. Such passes may also be issued to all persons who have sufficient reason for frequent travel between Provinces.

(j) It is suggested that when an application for travel in an Army area or into

Declassified E.O. 12356 Section 3.3/NND No. 785021

not be issued by the railway authorities or other travel agencies to places within restricted areas unless the persons applying for tickets are in possession of a proper pass to their intended destination.

(f) Italian Government Officials.

Passes for Italian Government officials will be issued by this Headquarters and signed by the Secretary General or by the Deputy Secretary General, Allied Control Commission, and will be issued after application has been received from the Government Department concerned or from Italian Liaison Section, Allied Control Commission, and considered by the appropriate Sub-Commission who will be responsible for examining the application as to actual necessity for the proposed journey. Such passes will be prepared for signature by the Sub-Commission concerned.

(g) Italian Military Personnel.

The movement of members of the Italian Military Forces is unrestricted providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g. when on leave, are subject to the same restrictions as civilians.

(h) Issuing Officers.

It will be within the discretion of the Provincial Commissioner to authorise specified and approved officers of the Questure or C.C.RR to issue passes for inter provincial travel. It is emphasised, however, that passes permitting persons to enter the Army areas or Foggia Province must be issued by AMG/ACC officers.

5574

(i) Semi-Permanent Passes.

In the case of persons living near a Provincial boundary and whose place of employment is in, or partly in, and adjoining Province or Provinces, a semi-permanent pass may be issued and such passes shall expire on 31 March, 30 June, 30 September and 31 December annually, and then become renewable upon further application. Such passes may also be issued to all persons who have sufficient reason for frequent travel between Provinces.

(j) It is suggested that when an application for travel into an Army area or into Foggia Province is received in AMG/ACC territory that the officer concerned completes the pass on behalf of the applicant (provided he is satisfied with the sufficiency of reasons for such travel) and forwards it to the SCAO/PC of the destination for approval; signature and return.

5. It will be seen that in future, Provincial Commissioners will be authorised under certain circumstances to issue passes for entry into Army areas or Foggia Province without prior permission from the point of destination (vide 4 (c) and further that the movement of members of Italian Military Forces is unrestricted, (vide 4 (g)).

SUBJECT: Control of Civilian Movement.

TO : Regional Commissioners Regions I, II, III, V, and VI.
S.C.A.O.'S Ninth & Eighth Armies.

1. Introduction.

It is evident that the enemy intends to continue his efforts to introduce espionage and sabotage agents into Southern Italy on a considerable scale. In order to meet this threat and to neutralise as far as possible the activities of such agents, it has been decided that a wider and more effective system of control of civilian movement will be introduced.

Allied Control Commission officers and Headquarters are requested to accord the Military Security Services every possible assistance, and to see that the restrictions referred to herein are properly and strictly imposed.

2. Restrictions.

(a) Army and Corps Areas.

In the Army (and Corps) areas the existing regulations will continue to apply whereby civilians are forbidden to travel more than 10 km. from their own homes without an AMG pass.

Those civilians who wish to proceed into such areas will require to obtain a special pass which will normally be issued by the AMG authority of the area into which they intend to travel.

(b) Territory under AMG.

In Territory under Allied Military Government in rear of the Army (and Corps) Areas, restrictions on inter-provincial movement are to be relaxed forthwith, i.e., civilians in this area will be forbidden to travel from one province to another without an AMG pass.

(c) Italian Demilitarised Territory.

There will be no restriction on movement within that part of Southern Italy which is administered by the Italian Government, nor within Sicily and Sardinia. An Allied Control Commission pass will, however, be required for movement between Southern Italy, Sicily and Sardinia, and also for all movement from AMG territory into Liberated Italy and vice versa.

(c) Italian Administered Territory.

There will be no restriction on movement within that part of Southern Italy which is administered by the Italian Government, not within Sicily and Sardinia. An Allied Control Commission pass will, however, be required for movement between Southern Italy, Sicily and Sardinia, and also for all movement from AMG territory into King's Italy and vice versa.

3. Check Posts.

(a) In Restricted Areas.

In Army (and Corps) areas and in territory administered by Allied Military Government every effort will be made to enforce the above restrictions by means of a widespread system of 'snap' check posts, which will be established for a few hours daily at irregular times and at varying points. The responsibility of arranging such checks will rest with P.S.S. or C.I.C., Units.

5571

Declassified E.O. 12356 Section 3.3/NND No. 785021

The object of these check posts will be : (i) to turn back those seeking to move outside the prescribed limits without a pass, (ii) to take action against those who have committed serious and flagrant breaches of the regulations, (iii) to question or detain for investigation persons whose conduct or "story" is suspicious.

(b) In Unrestricted Areas.

In territory administered by the Italian Government a similar system of 'snap' check posts will be established. In this instance, however, the objects will be limited to (1) briefly questioning those passing the point with a view to discovering suspicious individuals who should be subject to further interrogation, and investigation, and (2) instilling a sense of insecurity in the minds of agents or other undesirable individuals so that they may hesitate to move about or even abandon their mission.

(c) Organisation and Composition.

This system of check posts will be organised by Army, Corps, District and Base Section Headquarters and NOT by AMG/ACC, both AMG and ACC territories.

These check posts will normally be manned by appropriate combinations, according to circumstances of P.S.P./C.I.C., S.I.M. (C.S.), CC.RR and Guardia di Finanza.

Every effort will be made by Allied Control Commission officers to ensure the fullest co-operation of the Italian Police in connection with these duties.

4. Passes.

(a) Army Areas and Foggia.

In the case of persons wishing to move North-Westwards across the "Control Line" (which follows the general line of the Rivers Biferno and Volturno) or to enter Foggia Province, the existing procedure will normally be followed whereby they must first obtain (through their local AMG/ACC representative) a pass issued by the appropriate AMG authority in the area of their destination.

(b) AMG Provinces.

For other journeys involving movement into, or between, Provinces within the restricted area (e.g. from Bari to Avellino or from Foggia to Naples) a pass will be issued by the local AMG/ACC representative at the point of departure.

(c) Discretion of Provincial Commissioner.

The procedure described in para (b) above may be employed in cases [illegible] administrative, economic or other

Declassified E.O. 12356 Section 3.3/NND No. 785021

further interrogation, and investigation, and (2) the creation of insecurity in the minds of agents or other undesirable individuals so that they may hesitate to move about or even abandon their mission.

(c) Organisation and Composition.

This system of check posts will be organised by Army, Corps, District and Base Section Headquarters and NOT by AMG/ACC, both AMG and ACC territories.

These check posts will normally be manned by appropriate combinations, according to circumstances of F.S.P./C.I.C., S.I.M. (C.S.), CC.RR and Guardia di Finanza.

Every effort will be made by Allied Control Commission officers to ensure the fullest co-operation of the Italian Police in connection with these duties.

4. Passes.

(a) Army Areas and Foggia.

In the case of persons wishing to move North-Westwards across the "Control Line" (which follows the general line of the Rivers Biferno and Volturno) or to enter Foggia Province, the existing procedure will normally be followed whereby they must first obtain (through their local AMG/ACC representative) a pass issued by the appropriate AMG authority in the area of their destination.

(b) AMG Provinces.

For other journeys involving movement into, or between, Provinces within the restricted area (e.g. from Bari to Avellino or from Foggia to Naples) a pass will be issued by the local AMG/ACC representative at the point of departure.

(c) Discretion of Provincial Commissioner.

The procedure described in para (b) above may be employed in cases described in (a) above when, for urgent administrative, economic or other reasons, the procedure described in (a) would be impracticable owing to the time factor. In such cases the passes will be issued by the Provincial Commissioner or by a member of his staff on his behalf who will immediately forward details of the issue of such passes to the SCAO or PC of the area of destination.

Declassified E.O. 12356 Section 3.3/NND No. 786021

(d) Reasons for Travel.

It is essential that the issue of passes to cross the "Control Line" or to enter Foggia Province be strictly limited to those cases where the journey will benefit the Allied cause, or where there are important administrative or economic reasons, or in exceptional cases, where there are urgent compassionate grounds. The issue of other passes will be limited to persons who show good and genuine reason why they wish to travel, whether on official matters, business or family grounds.

(e) Issue of Travel Tickets.

Allied Control Commission officers will ensure that transport tickets will not be issued by the railway authorities or other travel agencies to places within restricted areas unless the persons applying for tickets are in possession of a proper pass to their intended destination.

(f) Italian Government Officials.

Passes for Italian Government officials will be issued by this Headquarters and signed by the Secretary General or by the Deputy Secretary General, Allied Control Commission, and will be issued after application has been received from the Government Department concerned or from Italian Liaison Section, Allied Control Commission, and considered by the appropriate Sub-Commission who will be responsible for examining the application as to actual necessity for the proposed journey. Such passes will be prepared for signature by the Sub-Commission concerned.

(g) Italian Military Personnel.

The movement of members of the Italian Military Forces is unrestricted providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g. when on leave, are subject to the same restrictions as civilians.

(h) Issuing Officers.

It will be within the discretion of the Provincial Commissioner to authorise specified and approved officers of the Questure or CC.RR to issue passes for inter provincial travel. It is emphasised, however, that passes permitting persons to enter the Army areas or Foggia Province must be issued by AFW/ACC officers.

(i) Semi-Permanent Passes.

5570

In the case of persons living near a Provincial boundary and whose place of employment is in, or partly in, and adjoining Province or Provinces, a semi-permanent pass may be issued and such passes shall expire on 31 March, 30 June, 30 September and 31 December annually, and then become renewable upon further application. Such passes may also be issued to all persons who have sufficient reason for frequent travel between Provinces.

Declassified E.O. 12356 Section 3.3/NND No. 785021

issued by the railway authorities or other travel agencies to places within restricted areas unless the persons applying for tickets are in possession of a proper pass to their intended destination.

(f) Italian Government Officials.

Passes for Italian Government officials will be issued by this Headquarters and signed by the Secretary General or by the Deputy Secretary General, Allied Control Commission, and will be issued after application has been received from the Government Department concerned or from Italian Liaison Section, Allied Control Commission, and considered by the appropriate Sub-Commission who will be responsible for examining the application as to actual necessity for the proposed journey. Such passes will be prepared for signature by the Sub-Commission concerned.

(g) Italian Military Personnel.

The movement of members of the Italian Military Forces is unrestricted providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g. when on leave, are subject to the same restrictions as civilians.

(h) Issuing Officers.

It will be within the discretion of the Provincial Commissioner to authorise specified and approved officers of the Questore or CC.RR to issue passes for inter provincial travel. It is emphasised, however, that passes permitting persons to enter the Army areas or Foggia Province must be issued by AAI/ACC officers.

(i) Semi-Permanent Passes.

In the case of persons living near a Provincial boundary and whose place of employment is in, or partly in, and adjoining Province or Provinces, a semi-permanent pass may be issued and such passes shall expire on 31 March, 30 June, 30 September and 31 December annually, and then become renewable upon further application. Such passes may also be issued to all persons who have sufficient reason for frequent travel between Provinces.

(j) It is suggested that when an application for travel into an Army area or into Foggia Province is received in AAI/ACC territory that the officer concerned completes the pass on behalf of the applicant (provided he is satisfied with the sufficiency of reasons for such travel) and forwards it to the SCAO/PC of the destination for approval; signature and return.

5. It will be seen that in future, Provincial Commissioners will be authorised under certain circumstances to issue passes for entry into Army areas or Foggia Province without prior permission from the point of destination (vide 4 (c) and further that the movement of members of Italian Military Forces is unrestricted, (vide 4 (g)).

16 July 1944

Memo to Maj. Babcock:

A.C.C. is faced with the necessity of decreasing its staff of officers and EM.

The Commission's activities are not decreasing but increasing and will continue to do so until its functions are gradually taken over by the Italian government. Therefore, officers and EM should be continually replaced by high caliber Italian personnel, who would receive training and be of value to the Italian government when the Commission ceases operations. In the interim, these Italian personnel would provide good liaison between A.C.C. and comparable governmental agencies.

To implement this program:-

1. Intensive recruitment should be instituted for Italian administrative, technical, and professional personnel to serve A.C.C. The first step would be employment of a professional Italian personnel man for the A.C.C. employment office.

2. The Italian professional staff should work between A.C.C. and the Italian government, and understand that the A.C.C. is only temporary and their future lies with the government. Such an understanding could be made clear to them by A.C.C. Liaison section, who would also coordinate their inter-governmental relationships.

3. A.C.C. should be able to enter the labor market on an equal basis with private industry in order to procure high type personnel. Some doubt exists of their ability to do so under the present Naples base rate for administrative and professional personnel. (Top rate $ 96 per mo.) Labor Sub-Commission should determine the labor market scales for this class personnel and make corresponding recommendations to AAI for any needed changes.

Subject : Movement of " Infortuni" from Air Ministry building.

1. Pursuant to arrangements made by Col. Elliot of the Air Sub- Commission and Col. Smith of the Labor Sub-Commission and approved by you this morning, the following movement will be made at once into space set aside by Maj.Shove:

a) "Infortuni" will vacate 3 floors in their present location, turning same over to the Italian Air Ministry, excepting rooms now occupied as archives and libraries which will be retained by "Infortuni" and be placarded against requisitioning for military purposes.

b) "Infortuni" will move to and occupy floors 2,3 and 4 in the entire space facing Via Susanna and Via S. Nicolo da Tolentino in the I.N.A. building on that site (as indicated on the blue prints held by Maj.Shove, and per assignments approved by him).

The entire space will be placarded at once against requisitioning for military purposes.

c) "Infortuni" will move such furniture and equipment as is necessary for proper operation, since amount found in new premises is totally inadequate.

Notification of Functionaries for the Liberation of Rome.

In reference to the verbal request made by Major Albright regarding the functionaries belonging to this office that remained in Rome on 8 Sept. 1943, and who could be useful when the city is liberated, we note the following:

This Ministry would find it necessary upon the liberation of Rome by the Allies, or soon afterwards, that an Employment Office be set up between this Office (that like all others would remain where it is) and A.M.G. in Rome.

Said Employment Office would be set up personally by H.E. Attilio Di Napoli, Minister for Industry, Commerce and Labor, who would be assisted by the Head of the Cabinet, Dott. Prof. Vincenzo Boognamiglio, Dott. Ennio Marinaro, Prof. Mario Saibante, and by Sig. Doriano Di Napoli. After the Office has been set up H.E. Attilio Di Napoli, the Head of the Cabinet, Prof. Mario Saibante and Sig. Di Napoli would return to their Office, and in the Office at Rome there would remain Dott. Marinaro who would be assisted by the following members of this Ministry:

Roselli Dott. Ferdinando -- Via Bessagno No. 24, Rome
Accardi Dott. Saverio -- " " " " "
Pittore Dott. Tommaso -- " " " " "
D'Alessio Dott. Mario -- " " " " "

Obviously, from time to time, it may be necessary for H.E. The Minister, or H.E. The Undersecretary Avv. Giulio Sanconetti or other functionaries of this Ministry to be called to Rome at a moment's notice to contact A.M.G. or the Employment Office and provisions to make this possible should be made.

We also ask the Commission to keep in mind the necessity that this Ministry have an immediate contact in Rome where many organs exist that concern the whole Nation; and also so that a better system of reports be set up between the Italian Government, A.M.G. and A.C.C. which will be very necessary after the liberation of the Capitol for both the interests of the Allies and the Nation.

Below we list the functionaries that will collaborate with the A.M.G. after the liberation of Rome, and their last known addresses:

: Segnalazione funzionari liberazione di Roma.-

In relazione alla richiesta verbale fatta a questo Ministero dal Magg. ALBRIGHT relativamente ai funzionari dipendenti da questa Amministrazione che rimasero a Roma l'8 settembre 1943 e che potrebbero essere utilizzati all'atto della liberazione di quella Città, si fa noto quanto segue:

Questo Ministero avrebbe viva necessità che all'atto della liberazione di Roma da parte delle armate Alleate o nel più breve tempo da tale liberazione, fosse creato un Ufficio di Collegamento tra questa Amministrazione (che, come tutte le altre, rimarrebbe nell'attuale sede,) e l'A.M.G. in Roma.

Tale Ufficio di Collegamento verrebbe creato personalmente da S.E. Attilio Di Napoli Ministro dell'Industria, del Commercio e del Lavoro, il quale sarebbe assistito dal sub Capo di Gabinetto Dott.Prof. Vincenzo Scognamiglio, dal Dott. Ennio Marinaro, dal Prof. Mario Balbante e dal Sig. Doriano Di Napoli. Una volta creato l'Ufficio predetto, S.E. Di Napoli, il Capo di Gabinetto, il Prof. Mario Balbante ed il Sig. Di Napoli rientrerebbero in Sede e nell'Ufficio a Roma rimarrebbe il Dott. Marinaro che verrebbe coadiuvato dai seguenti funzionari di ruolo di questo Ministero:

RUSELLI Dott. Ferdinando domiciliato in ROMA Via Bisagno, 24
ACCARDI Dott. Saverio " " " -
PITTERA' Dott.Tommaso " " " -
D'ALESSIO Dott. Mario

Evidentemente sia S.E. il Ministro, che S.E. il Sottosegretario Avv. Giulio Bensubetti e quei funzionari di questo Ministero che in un secondo momento potrebbero essere segnalati, dovranno avere la possibilità di recarsi periodicamente a Roma per i contatti con la A.M.G. che con il citato Ufficio di Collegamento.

In tali sensi si prega codesta Commissione di voler tener presente la urgente necessità da parte di questo Ministero di avere un immediato punto di appoggio in Roma dove molti urgenti interessanti l'intera economia del Paese risiedevano, e ciò anche per un più

Roma - 5 mar 2074 + Fall Radio

AGREEMENT BETWEEN P.W.B. AND THE ROYAL ITALIAN MINISTERY OF COMMUNICATIONS ON THE ADMINISTRATION AND TECHNICAL CONTROL OF E.I.A.R.

1. The Italian Authorities in consultation with the Allied Authorities will immediately form a General Directorate of EIAR which will reorganise the administration and take sole charge of all administrative matters, including technical management but excluding program management, which will remain with PWB until such time as AFHQ directs otherwise. With the approval of Allied authorities, a General Commissioner for EIAR will be appointed and vested with the powers of President and Chairman of the board. It is agreed that all employees will meet integrity requirements and Allied security standards.

2. All sums collected in Liberated Italy as payment for Radio-Audition taxes will be deposited with the Finance Ministry. This Ministry, after deducting the percentage lawfully due the State, will credit the balance to the Concessionary Corporation, EIAR, which will use said balance to cover expenses outlined in the following paragraph.

3. EIAR, through its General Directorate, will be responsible out of current receipts for all the following expenses :

a) All expenses met by PWB in the operation of Italian broadcasting stations from September 3rd. 1943 to date. These expenses will be refunded by EIAR to PWB.

b) Salaries of all EIAR technical and administrative personnel. It is understood that one of the requisites of Italian technical management of the EIAR stations will be conformance to PWB engineering standards and that failure to maintain these standards, (so far as possible conforming to FCC standards), would result in control of these stations reverting in the last resort to PWB. Technical directives to effectuate the foregoing will be furnished by PWB to EIAR.

0334

c) All salaries and all expenses incurred by PWB for programming and transportation for radio purposes ; PWB making the contracts and disbursements and submitting at the end of each month a list of these payments for reimbursement.

d) All expenses relative to the construction, improvement and maintenance of radio installations owned by EIAR or managed by EIAR for the Italian Government and all expenses on future EIAR installations or their appliances directed or ordered by PWB, (power, lines, antennae, equipment, real estate, rental, etc.) : American or British equipment imported by PWB to be excluded.

/p2.....

0372

Declassified E.O. 12356 Section 3.3/NND No. 785021

e) All expenses relative to the technical and administrative operation of EIAR stations, and of the administrative offices, (rents, furniture, stationery, light, heating, typewriters and business machines, automobiles, fuel, etc.)

f) In general, all expenses entailed by PWB broadcasting operations of any kind of all stations in Liberated Italy, except army broadcast transmitters used as mobile units.

4. All personnel engaged in the administration and functioning of EIAR will be taken over administratively by EIAR, and their position settled according to the Italian laws on private employment, (seniority, insurance, social security, settlement upon dismissal, etc.)

5. At a later time, (namely, after having reorganized the administration), the General Commissioner of EIAR will take over technical operation under the direction of PWB of stations operated by PWB for broadcast purposes except army broadcast transmitters used as mobile units.

6. Disposal of the funds remaining to EIAR's account after the above expenses have been met will be determined by the Finance Sub-Commission, ACC.

SUBJECT: Provision of Italian Officials in Forward Areas.

TO : Regional Commissioners,
Regions I, II, III, VI and VII.

1. Organisation of the forward areas is a more difficult task than the administration of an already organised back area and calls for active, forceful and efficient Italian officials capable of putting up with a certain amount of hardship.

2. Regional Commissioners may be inclined to object to the release of such individuals who are chosen to go forward on the grounds that they are indispensable and necessary to the Region concerned.

3. The release of such men to forward areas will throw more work on the remaining, probably less highly skilled, officials.

4. It must, however, be recognised that when moving forward and taking over new provinces and cities, good men are essential.

5. Regional Commissioners should release officials asked for unless there is some special reason making it imperative that a particular official should be retained. There should not be many cases like this. Where they occur a full report should be submitted with the minimum of delay.

LAB ~~Op-154~~

SUBJECT: Recommendations of Italian Ministry of Industry, Commerce and Labor for Labor Administration in Rome

TO : Region IV Advanced Headquarters; 5th Army CAS

1. Liaison: The Ministry requests direct liaison with A.M.G. in Rome, prior to the transfer of the Ministry and at the earliest moment possible for purpose of collaboration in matters of personnel, premises and liquidation or alteration of Italian Agencies, particularly those of National responsibility. (See Appendix, Para. I, for names of Ministry officials.)

2. Premises: The Ministry requests that three buildings, now occupied by offices of the Ministry (or its counterpart in Rome) be reserved for use of the Ministry when it moves to Rome. (See Appendix, Para.2 for names and address of offices.)

3. Fascist Agencies: The Ministry presumes that local syndicate organizations in Rome Province will be abolished as in other Provinces, but as regards the National Confederations whose headquarters are in Rome, the Ministry requests that Commissioners be appointed for each (see Appendix, Para.3, for list) to serve the following functions:

a. To substitute for present Fascist directors, experienced but non-Fascist directors;
b. To conserve real and personal property;
c. To gradually eliminate and replace Fascist politicians, functionaries and clerks of these Confederations.

5528

The reason stated for this request to continue, at least temporarily, these Confederations is that they hold real and personal property whose value constitutes the only guarantee for the liquification of debts not only of the Central Offices, but also of the branch offices already disbanded in Occupied Italy, which number about ten thousand.

4. Social Insurance Agencies: The Ministry suggests that it is not necessary to make special provisions for certain non-political agencies of the Ministry whose continuation has already been recognized by Allied authorities in Liberated Italy. (See Appendix, Para. 4 for list of Agencies.)

5. Industrial Agencies: The Ministry asks that no provisions be made for the disbanding of certain technical and industrial "enti" or

Declassified E.O. 12356 Section 3.3/NND No. 785021

"Asiende" having offices in Rome. (See Appendix, Para.5, for list of Agencies.)

6. Other Agencies: The Ministry requests to be consulted before action is taken to abolish or alter other agencies not specifically mentioned in these requests.

7. Personnel: The Ministry suggests the names of certain functionaries in Rome who should be considered by Allied authorities for positions requiring experienced Italian personnel.

The Lists furnished as suggestions only and with no knowledge of the activity of these individuals after 8 September, 1943. (See Appendix, Para. 6, for names.)

ROME

Notification of Functionaries for the Liberation of Rome.

In reference to the verbal request made by Major Albright regarding the functionaries belonging to this office that remained in Rome on 8 Sept. 1943, and who could be useful when the city is liberated, we note the following:

This Ministry would find it necessary upon the liberation of Rome by the Allies, or soon afterwards, that an Employment Office be set up between this Office (that like all others would remain where it is) and A.M.G. in Rome.

Said Employment Office would be set up personally by H.E. Attilio Di Napoli, Minister forIndustry, Commerce and Labor, who would be assisted by the Head of the Cabinet, Dott. Prof. Vincenzo Scognamiglio, Dott. Ennio Marinaro, Prof. Mario Saibante, and by Sig. Doriano Di Napoli. After the Office has been set up H.E. Attilio Di Napoli, the Head of the Cabinet, Prof. Mario Saibante and Sig. Di Napoli would return to their Office, and in the Office at Rome there would remain Dott. Marinaro who would be assisted by the following members of this Ministry:

Roselli Dott. Ferdinando -- Via Bresagno No. 24, Rome
Accorti Dott. Saverio -- " " " " "
Pittera Dott. Tommaso -- " " " " "
D'Alessio Dott. Mario -- " " " " "

5522

Obviously, from time to time, it may be necessary for H.E. The Minister, or H.E. The Undersecretary Avv. Giulio Sansonetti, or other functionaries of this Ministry to be called to Rome at a moment's notice so ~~that~~ A.M.G. or the Employment Office and provisions to make this possible should be made.

We also ask the Commission to keep in mind the necessity that this Ministry have an immediate contact in Rome where many organs exist that concern the whole nation; and also so that a better system of reports be set up between the Italian Government, A.M.G. and A.M.G. which will be very necessary after the liberation of the Capitol for both the interests of the Allies and the Nation.

Below we list the functionaries that will collaborate with the A.M.G. after the liberation of Rome, and their last known addresses:

by the Allies, or soon afterwards, that an Employment Office be set up besides this office (that like all others would remain where it is) and A.M.G. in Rome.

Said Employment Office would be set up personally by H.E. Attilio Di Napoli, Minister for Industry, Commerce and Labor, who would be assisted by the Head of the Cabinet, Dott. Prof. Vincenzo Scognamiglio, Dott. Ennio Marinaro, Prof. Mario Galbente, and by Sig. Doriano Di Napoli. After the Office has been set up H.E. Attilio Di Napoli, the Head of the Cabinet, Prof. Mario Galbente and Sig. Di Napoli would return to their Office, and in the Office at Rome there would remain Dott. Marinaro who would be assisted by the following members of this Ministry:

Rosalli Dott. Ferdinando -- Via Bergamo No. 24, Rome

Obviously, from time to time, it may be necessary for H.E. The Minister, or H.E. The Undersecretary Avv. Giulio Cassonetti or other functionaries of this Ministry to be called to Rome at a moment's notice to contact A.M.G. or the Employment Office and provisions to make this possible should be made.

We also ask the Commission to keep in mind the necessity that this Ministry have an immediate contact in Rome where many organs exist that concern the whole nation; and also so that a better system of reports be set up between the Italian Government, A.M.G. and A.C.C. which will be very necessary after the liberation of the Capitol for both the interests of the Allies and the Nation.

TO : The Ministry of Industry, Commerce and Labor.

FROM : Labor Sub-Commission, ACC (Capt Robert M. Albright).

1. This Memorandum is submitted as a statement of the present working relationship of the Labor Sub-Commission with the Ministry. If the Ministry is not in full agreement with the statements made herein, it is requested that a promp report be made in order that a complete accord may be reached.

2. As a matter of policy, it is understood that the Ministry will not make any changes in laws, decrees, ordinances or policies affecting labor or labor organizations, and will not make any major personnel changes or any changes in personnel appointed by Allied Military Authorities without prior approval of the Labor Sub-Commission. In addition, the Ministry will keep the Sub-Commission advised of any labor shortages, disputes, or programs which may affect work being performed for the Allied Military Forces, or which may affect labor policy in areas now under direct control of the Allied Military Forces.

To facilitate the clearance of these matters, a Liaison Officer for the Labor Sub-Commission is stationed at ACC Rear Headquarters, and will visit the Ministry regularly each day.

3. The matters which appear to the Labor Sub-Commission to be of greatest urgency are as follows:

a) Syndicates: The Ministry has agreed to submit to the the Sub-Commission for approval on or before 15 March 1944, the revised draft of a decree which will (1) formally abolish the Syndicates (2) assure liberty of organization for new Syndicates or Unions and (3) Establish Regional and Provincial Labor Offices, responsible to the Ministry for the Employment Exchanges, labor statistics, arbitration, mediation and conciliation of labor disputes and other duties as assigned by the Ministry.

A separate decree will establish the procedure for recognition of a particular Syndicate as the bargaining agent for a given group of workers and for jurisdiction over different types of disputes.

be made in order that a complete accord may be reached.

2. As a matter of policy, it is understood that the Ministry will not make any changes in laws, decrees, ordinances or policies affecting labor or labor organizations, and will not make any major personnel changes or any changes in personnel appointed by Allied Military Authorities without prior approval of the Labor Sub-Commission. In addition, the Ministry will keep the Sub-Commission advised of any labor shortages, disputes, or programs which may affect work being performed for the Allied Military Forces, or which may affect labor policy in areas now under direct control of the Allied Military Forces.

331

A separate decree will establish the procedure for recognition of a particular Syndicate as the bargaining agent for a given group of workers and for jurisdiction over different types of disputes.

b) Wage adjustment: The Ministry is gathering the necessary information on present differentials, and will present a report as soon as possible in order that some joint agreement may be made between the Finance and Labor Ministries of the Italian Government and the Finance and Labor Sub-Commission of the ACC.

c) Pensions: It is understood that augmentation of pensions to government employees has already been provided, and that similar increases for priority workers are being

Declassified E.O. 12356 Section 3.3/NND No. 785021

studied by the Italian Government and will be submitted in the near future to the ACC.

d) Insurance coverage for workers of Allied Military Forces: It is understood that a joint proposal will be made by the Italian Ministries of Labor and of Finance to the Labor Sub-Commission, for clearance with the Finance Sub-Commission, and presentation to the appropriate Allied Army Headquarters. The proposal will provide for

(1) Furnishing of lists and wages of workers by Army employing units.
(2) Payment of necessary funds to the Insurance agencies by the Italian Government.
(3) A simplified procedure for the submission of forms by the Allied Military Forces and for application for benefits by the covered workers.

4. Other matters of importance in the Labor program include:

a) A revision and unification of the Italian Inspection Services both fiscal and administrative.

b) The establishment of a Commission to study and recommend revisions in the Social Security program.

c) A study and unification of procedures for the Uffici di Collocamento.

d) The establishment of a procedure for Mobilization of essential workers through the Labor offices and Uffici di Collocamento.

e) A study and revision of the general wage structure with a view to eliminating premiums and indemnities and substituting a higher basic wage.

MEMORANDUM

TO : ALL CONCERNED

1. Effective on a date to be announced, probably in the near future, the Allied Military Government will turn over to the Italian Government certain portions of the territory now occupied by the Allied Forces. At that time Allied Military Government will cease and the Italian administration will assume full responsibility for civil government in such territory.

This will involve the withdrawal of a part of the Allied Military Government personnel from the territory. The balance will continue as representatives of the Allied Control Commission.

This memorandum is to outline certain general principles which will guide A.C.C. personnel in the territories administered by the Italian Government.

Present Status - Co-Belligerency

2. Effective September 3, 1943 the Italian Government concluded an Armistice with the Governments of the United States and Great Britain acting in the interests of the United Nations. Subsequently the Italian Government signed an instrument of surrender governing the relations between the United Nations and Italy, which instrument contained various provisions designed to protect the interests of the Allies and to promote the war effort, and called for the appointment of a Control Commission to enforce and implement those provisions.

3. Following the declaration of war on Germany, Italy was accorded the status of co-belligerent. According to the tripartite statement of 13 October 1943 announcing this new status,

> "The relationship of co-belligerency between the Government of Italy and the United Nations' Governments cannot of itself affect the terms (of the Instrument of Surrender) recently signed, which retain their full force and can only be adjusted by agreement between the Allied Governments in the light of the assistance which the Italian Government may be able to afford to the United Nations' cause."

The situation of a co-belligerent does not mean that Italy is recognized as one of the United Nations or is admitted as an ally. It means that the Italian Government is fighting the same enemy and in this respect has the support of the United Nations.

The situation of a co-belligerent does not mean that Italy is recognized as one of the United Nations or is admitted as an ally. It means that the Italian Government is fighting the same enemy and in this respect has the support of the United Nations.

General Functions Allied Control Commission

4. The general functions of the Allied Control Commission, as laid down in the directive of the Combined Chiefs of Staff, are as follows:

(a) To enforce and execute the instrument of surrender under the orders and general directives of the Allied Commander-in-Chief.
(b) To insure that the conduct of the Italian Government conforms to the requirements of an Allied Base of Operations, especially transportation and communications.
(c) To be the organ through which the policy of the United Nations towards the Italian Government is conducted and the relations between the United Nations and the Italian Government are handled.

Organization of the Allied Control Commission

5. The Allied Commander-in-Chief will be ex officio President of the Commission. The General Officer Commanding-in-Chief, Allied Central Mediterranean Forces, will be acting President. The acting senior officer of the Commission will be Chief Commissioner who will serve as Deputy President of the Commission.

6. The Commission will be divided into five Sections: Economic, Administrative, Military, Political, and Communications. Sections will be in charge of Vice Presidents or Directors and, in each case, will comprise one or more Subcommissions. The tentative organization of the Commission into its various Sections and Subcommissions is set forth in Appendix A hereto.

7. Each Section or Subcommission will maintain a headquarters staff. Some will also have representatives in the field. The existing regional organizations will be continued initially to correspond to such regional authority as may be set up by the Italian Government, or otherwise as administrative convenience may dictate.

8. A.C.C. personnel in the field will be known as Control Commissioners with designation of their particular specialist category where appropriate. For example, Control Commissioner (Legal), Control Commissioner (Public Health). The Chief Control Officer in the Region will be known as the Regional Control Commissioner (RCC).

Functions and General Duties of A.C.C. Officers in the Field

9. Particulars as to the nature of the duties of A.C.C. field officers will be specified by the Subcommissions to which they are assigned. However, the following guides are applicable to all:

(a) The primary function of A.C.C. officers in the field will be to give assistance and guidance to and to supervise the local Italian officials and to convey such instructions to them as may be authorized either in specific instances or generally under this and further directives.

(b) Each A.C.C. officer will also carefully observe the operation of the Italian Government in the area or administrative field of his responsibility in order to determine whether the terms of the surrender are being vigorously and effectively enforced. The results of such observations will be the subject of periodic or special reports to higher headquarters.

(c) A.C.C. field personnel will have no power to command or direct Italian officials in connection with the performance of their duties. In this respect their powers and duties are to be contrasted with those of officers of AMG.

(d) Particularly during the transition stage and until the authority of the Italian Government is fully established and the administrative machine is functioning smoothly, the Italian officials will probably require considerable advice, information and assistance from A.C.C. officers. It is entirely proper in this way to sup-

(c) A.C.C. field personnel will have no power to command or direct Italian officials in connection with the performance of their duties. In this respect their powers and duties are to be contrasted with those of officers of AMG.

(d) Particularly during the transition stage and until the authority of the Italian Government is fully established and the administrative machine is functioning smoothly, the Italian officials will probably require considerable advice, information and assistance from A.C.C. officers. It is entirely proper in this way to support the authority of the Italian officials. Care should be taken, however, not to interfere directly or to give the appearance of interfering directly in or with the local administration except in real emergency.

(e) A.C.C. personnel must also take great care to avoid becoming involved in political disputes or conflicts. A.C.C. officers will deal only with the officials selected by the Italian Government. The competency of these officials and the quality of their administration will be the responsibility of the Italian Government. However, when officials behave in a manner likely to prejudice the position of the Allied Forces by violation of the terms of surrender or otherwise, A.C.C. personnel will take any action that may be authorized and promptly submit a report with recommendations to higher headquarters.

Declassified E.O. 12356 Section 3.3/NND No. 785021

(f) Close coordination will be necessary between A.C.C. and tactical and administrative forces in the area. Certain committees have already been established (i.e. Local Resources Boards). Information as to these committees and other inter-service agencies will be communicated to field personnel where necessary. It is essential in order that confusion be avoided that the channels of communication with the Italian authorities remain as few and as simple as possible.

10. The disposition of A.C.C. personnel and their operations will be communicated by Regional Commissioners or by A.C.C. HQ. The following general rules will, however, apply:

(a) Generally there will be no A.C.C. field officers in the communes or in a position comparable to that of the C.A.O. or C.A.P.C. under AMG. General administration will, therefore, be subject to A.C.C. control at the provincial level. Such local inspection as may be required will be worked out from A.C.C. regional or provincial HQ.

(b) In the transition stage and until the Italian administration is functioning satisfactorily A.C.C. personnel will, subject to subparagraph (a) above, be disposed on a basis approaching that of AMG. An effort will be made to reduce numbers as quickly as conditions permit.

Regional Organization

11. It is understood that the Italian Government intends to appoint Italian Regional Commissioners in certain areas to function until the Italian Government can effectively communicate with and maintain control of the provinces. In other areas to be turned over, the Italian Government may communicate directly with the provincial officials. In either case, A.C.C. will initially appoint a Regional Control Commissioner. In regions in which there is an Italian Regional Commissioner the R.C.C. will, under directives of A.C.C. headquarters, establish control at the regional level and work with his Italian counterpart. In regions where there is no Italian commissioner the R.C.C. will serve as channel for communication with A.C.C. personnel in the field and as a regional representative of A.C.C. HQ.

Attitude toward Italian Officials

12. The members of the Commission, whether acting officially or otherwise, should maintain a correct attitude toward members of the Italian Government, neither autocratic on the one hand nor familiar on the other.

It must be emphasized that the Allied Control Commission occupies a position in relation to the Italian Government which is quite different from that of Allied Military Government. MEMORANDUM TO: Deputy Chief of Staff (O. & S.I.)

FROM: Labor Sub-Commission

SUBJECT: Comments on Draft of "Instruction" to Allied Control Commission Personnel.

1. The Labor Sub-Commission is in consonance with the contents of the proposed draft, as it affects the planning and operations of our personnel.

2. Query is made as to whether sub-section (c) paragraph 10, might be interpreted to read that Allied Control Commission field personnel can direct Italian officers through orders issued to Allied Military Government.

3. As an important section of our Headquarters staff, we have set up in our organizational plan a Field Operations Section to be headed by a Lieutenant Colonel. This section is charged with the supervision and inspection of regional and provincial labor offices to insure uniform policies and procedures. It will also manage and supervise a headquarters field force. It is our intention to have adequate representation at the regional level, as a minimum, during the entire period prior to complete assumption of authority by the Italian Government in the various regions. When the latter action is effectuated (and in light of your proposed draft), we would then plan to have at least one permanent representative at the regional level acting as Labor Commissioners.

4. The foregoing field set-up is considered of essential importance during the entire period up to complete evacuation, to make certain that such plans and procedures as we may determine are necessary in the conduct of all labor matters for the most fruitful accomplishment of our aims, which at the same time, will take complete cognisance of Italian needs, customs and traditions, shall be carried out promptly and satisfactorily by any and all agencies which may be operating at any one time in the regions.

5. Specific instruction therefor which might be issued to field representatives of the Labor Sub-Commission would list the following duties:

a. To supervise the carrying out by the proper authorities of the organization and administration of the supply and distribution of labor for all services and purposes, so that all action will conform with the policy laid down by Headquarters.

b. To supervise and advise the proper authorities in their handling of industrial relations, the formation of free associations of employers and employees and for arbitration between them, with a view that all such action will conform with policy and procedure laid down by Head-

a. To supervise the carrying out by the proper authorities of the organization and administration of the supply and distribution of labor for all services and purposes, so that all action will conform with the policy laid down by Headquarters.

b. To supervise and advise the proper authorities in their handling of industrial relations, the formation of free associations of employers and employees and for arbitration between them, with a view that all such action will conform with policy and procedure laid down by Headquarters.

c. To ensure, through the proper authorities, that approved standards of safety and welfare are adopted in factories and workshops.

d. To secure, through the proper authorities, in each occupied province, the reinstatement of pre-war labor laws, as far as they are equitable or feasible, which control hours of work and employment of women and children.

e. To enforce through the proper authorities, such wage standards in each industry and province, as are approved by Headquarters.

f. To supervise the activities of, and advise, the proper authorities in the collection and just distribution of Social Insurance premiums and benefits, and in the organization and operation of benefit payment procedures.

4. To supervise the activities of the proper authorities and advise them regarding registration of man-power and woman-power and the working of an unbiased "placing" machine to which all vacancies shall be filled.

5. To supervise and advise with the proper authorities in the matter of priorities for labor in short supply.

6. To supervise and advise with the proper authorities in carrying out Headquarters' plan for the absorption of demobilized Italian soldiers into the Italian economic life and for the proper coordination of the rate of demobilization with the rate of maximum absorption.

7. In collaboration with other sub-Commissions concerned and with the proper Italian authorities, to ensure the welfare of employed and unemployed and their dependents.

8. To act as liaison officers at the regional level on all labor matters which singly or collectively affect Headquarters Allied Control Commission and other Sub-Commissions, such AMG authorities as may be operating, and the various echelons of the Italian Government.

which retain their full force and can only be adjusted by agreement between the Allied Governments in the light of the assistance which the Italian Government may be able to afford to the United Nations' cause."

The situation of a co-belligerent does not mean that Italy is recognized as one of the United Nations or is admitted as an ally. It means that the Italian Government is fighting the same enemy and that the United Nations support it for that purpose.

General Functions Armistice Control Commission

6. The general functions of the Armistice Control Commission, as prescribed by the Combined Chiefs of Staff, are as follows:

(a) To enforce and execute the instrument of surrender under the orders and general directives of the Allied Commander-in-Chief.

(b) To insure that the conduct of the Italian Government conforms to the requirements of an Allied Base of Operations, especially transportation and communications.

(c) To be the organ through which the policy of the United Nations towards the Italian Government is conducted and the relations between the United Nations and the Italian Government are handled.

Organization of the Armistice Control Commission

7. The Allied Commander-in-Chief will be ex officio President of the Commission. The Deputy President is the active senior officer of the Commission. The Acting Deputy President is Major General Kenyon A. Joyce, U.S.A.

8. The Commission will be divided into four Sections: Military, Political, Economic and Administrative and Communications. Each Section will be in charge of a Vice President and comprise a number of Subcommissions, which are as follows:

Functions and General Duties of A.C.C. Officers in the Field

10. The nature and extent of the duties of A.C.C. field officers will depend on the Sub Commission to which they are specifically assigned. However the following guides are applicable to all:

(a) The primary function of A.C.C. officers in the field will be to give assistance and guidance to the local Italian officials on matters within their competency and to convey such instructions as may be authorized in either specific instances or general by ~~appropriate~~ authority under this and further directives of A.C.C.

(b) A.C.C. officers will also carefully observe the local operation of the Italian Government in their field in order to determine whether the terms of the surrender are being vigorously and effectively enforced. The

Declassified E.O. 12356 Section 3.3/NND No. 785021

results of such observations will be the subject of periodic reports to higher headquarters.

(c) A.C.C. field personnel will have no power to command or direct Italian officials in connection with the performance of their duty. In this respect their powers and duties are to be sharply contrasted with those of officers of AMG. ~~In administrative matters the function of A.C.C. officials is constantly to observe, assist and report to higher headquarters in order that representations may be made to the Italian Government at the appropriate level.~~ (How A.C.C. can deal thru AMG)

(d) Particularly during the transition stage and until the authority of the Italian Government is fully established and the administrative machine is functioning smoothly, the Italian officials will probably require ~~the~~ considerable information advice and assistance of A.C.C. officers. It is entirely proper in this way to support the authority of the Italian officials. Great care should be taken, however, not to interfere directly or give the appearance of interfering directly in the local administration.

(e) A.C.C. personnel must also take great care to avoid becoming involved in political disputes or conflicts. An early resumption of political activity and discussion is to be anticipated. A.C.C. officers will deal only with the officials selected by the Italian Government. The competency of these officials and the quality of their administration is now the responsibility of the Italian Government. ~~the field officers of the Commission.~~ However, when local officials behave in a manner likely to prejudice the position of the Allied Forces by violation of the terms of surrender or otherwise A.C.C. personnel will promptly submit a report and recommendations to higher headquarters, and to the extent that authority may have been delegated to them, take action.

(f) In order to harness the economic resources of Italy to the war effort, it will be necessary for the Italian Government rigidly to control many private industries and the use of much private property. Whenever an

that representations may be made to the [redacted] level. (Was all considered there Gen G)

(d) Particularly during the transition stage and until the authority of the Italian Government is fully established and the administrative machine is functioning smoothly, the Italian officials will probably require ~~the~~ considerable information advice and assistance of A.C.C. officers. It is entirely proper in this way to support the authority of the Italian officials. Great care should be taken, however, not to interfere directly or give the appearance of interfering directly in the local administration.

However, when local officials behave in a manner likely to prejudice the position of the Allied Forces by violation of the terms of surrender or otherwise A.C.C. personnel will promptly submit a report and recommendations to higher headquarters and, to the extent that authority may have been delegated to them, take action.

11. In order to harness the economic resources of Italy to the war effort, it will be necessary for the Italian Government rigidly to control many private industries and the use of much private property. Whenever an authorized Italian official requests the assistance of A.C.C. field officers in order to render this control more effective, such requested assistance should be rendered. On occasions the authority of A.C.C. may be persuasive in securing the necessary cooperation of the Italian citizen or property owner.

11. The specific duties of A.C.C. field personnel of the various Subcommissions will be separately set forth in a memorandum supplemental to this general instruction. These specific instructions will be in accordance with the following:

Declassified E.O. 12356 Section 3.3/NND No. 785021

(a) Generally there will be no A.C.C. field officers in the communes or in a position comparable to that of the C.A.O. or C.A.P.O. under AMG. General administration will therefore be subject to A.C.C. control at the provincial level. Such local inspection as may be required will be worked out from A.C.C. provincial HQ.

(b) In the transition stage and until the Italian administration is functioning satisfactorily A.C.C. personnel will, subject to subparagraph (a) above, be disposed on a basis approaching that of AMG. An effort will be made to reduce numbers as quickly as conditions permit. Probable exceptions to the foregoing will exist in the case of personnel in (i) transportation and communication fields by reason of military requirements (ii) in the supply field, including fuel, because of the responsibility of the Allied Forces for assisting in provision of adequate civilian supplies and the necessity of coordinating the supply program with the military supply and shipping requirements.

(c) Close coordination will be necessary between A.C.C. and military tactical and administrative forces in the area. Certain committees have already been established (i.e. Local Resources Boards and Transportation Coordinating Committee). The scope of the activity of these committees and other inter-service agencies will be communicated to field personnel. It is essential that confusion be avoided and that the channels of communication with the Italian authorities remain as few and as simple as possible.

(d) Personnel engaged in the supply services of the Communications Section and the Industry and Commerce and Public Works and Utilities Subcommissions will also be required to maintain close liaison with the Commissions of the military section who are responsible for war material production and war material disposal. The competency of and lines of authority between these Subcommissions within A.C.C. will be specified.

Regional Organization

12. It is anticipated that A.C.C. will in certain areas establish regional headquarters under a Regional Control Commissioner who will act as a counterpart to and work with the Italian Regional Commissioner who, it is understood, will be appointed to function until the national government is established at Rome or elsewhere and can effectively communicate with the provinces.

13. In areas where Allied Commissioners are appointed the following principles will apply:

Declassified E.O. 12356 Section 3.3/NND No. 785021

(a) Personnel. The Regional Commissioners will command all personnel assigned to their respective regions. Together with the senior regional officer of the opposite nationality, they will have the power to discipline personnel under their command and will make recommendations for promotions and transfers to and from the Region.

~~In the case of most officers and some El/ORs assigned to regions, the field of activity in which they are to be engaged will be specified. Any assignments of such specialist personnel must be observed except in cases of emergency and then only for the duration of the emergency.~~

(b) Communications. Orders to personnel in the Regions, including specialist personnel, will be issued only by the Regional Commissioner. Communications on technical matters must be sent from headquarters to the specialist personnel in the Regions through the Regional Commissioner.

~~Officers from A.C.C. HQ may and will make inspection trips within the Regions. On such occasions they will make their presence and the nature of their mission known to the Regional Commissioner, or where impossible, to the nearest Provincial Commissioner. No orders or directives will be communicated by such officers to the specialists in the field; technical observations may, however, be so communicated either from personnel at headquarters to officers in the field or vice versa. If such are in written form, copies will be furnished to the Regional Commissioner.~~

(c) Procedure. For obvious reasons it will be desirable that procedure adopted by Regional Commissioners, particularly in dealing with the Italian administration, shall be uniform throughout Italian territory. In cases where uniform procedure has been or is hereafter prescribed by A.C.C. HQ, such procedure will be binding uniformly on the staffs in each Region.

14. Where Regions exist it will be necessary for A.C.C. Regional Commissioners to keep in close touch with their counterparts under the Italian

14. Where Regions exist it will be necessary for A.C.C. Regional Commissioners to keep in close touch with their counterparts under the Italian regional set up. Some control will be exercised under the Italian administration at this level, which control may vary in accordance with the needs of the different Subcommissions. ~~In cases where no Regions have yet been established lesser control may be exercised over the Italian administration at the Provincial level, but in general matters requiring the execution of any measure on the Italian administration will be referred to headquarters in advance.~~

Declassified E.O. 12356 Section 3.3/NND No. 785021

15. Details in regard to the division of functions between A.C.C. headquarters and any such Regional headquarters will be worked out and specified in further instructions, depending upon the exact powers and functions of the Italian regional administration.

Attitude toward Italian Officials.

16. The members of the Commission, whether acting officially or otherwise, should maintain a correct attitude toward members of Italian Government, neither autocratic on the one hand nor familiar on the other. They should bear in mind that the provisional arrangements between the Allied Governments and that of Marshal Badoglio are dictated by war needs and are not to stand in the way of the Italian people, after the elemination of Fascism and the eviction of the German Forces, having a government of their free democratic choice. In the meantime it is important that there be built up an anti-Fascist Government on the broadest base possible. It is, therefore, desirable that all healthy elements which can deliver some good be rallied to the common effort.

LEGAL SUB-COMMISSION

AMG/4102/L

Subject: Restoration of Territory

20th November 1943

To : Labor Sub-Commission.

1. Upon restoration of territory to the jurisdiction of the Italian Government the provisions of Proclamations and General Orders of A.M.G. will cease to have effect in such territory in the absence of their repromulgation in the form of law enacted by the Italian Government.

2. Each sub-commission will therefore please consider how far it will be necessary, within its own field, to compel the Italian Government to enact by decree an **immediate** continuance of the provisions of the A.M.G. Proclamations and General Orders. (e.g. obviously the rate of exchange must be continued by the Italian Government. It is a matter for respective sub-commissions to consider how far price and wage fixing and rationing general orders are to be continued and many other examples could be given.)

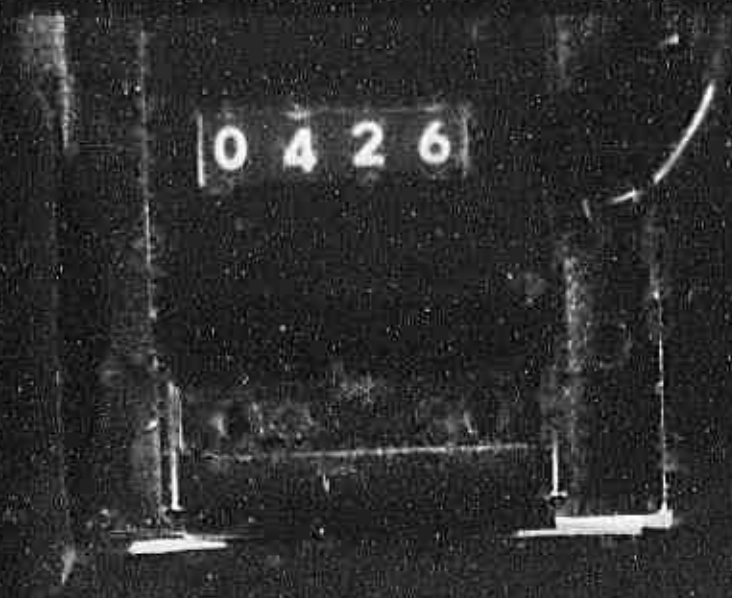

3. Please return the attached Questionnaire with your answers to Legal Sub-Commission, Room, 32, 8 Via Bari by 0900 hrs, Tuesday, 23rd November 1943.
