OCT. 1943 - DEC. 1944

UGO PELLEGRINI
NAPOLI

Naples 29th December 1944

STRICTLY CONFIDENTIAL

REPORT ON ASPIRATIONS OF SET PERSONNEL

Following the preceeding reports I beg to inform:

- 1)= Eng. Saldarelli = One of the Chiefs of the internal employee and worker commission of the SET = in a recent trip to Rome, has visited Authorities of the A.S. = Col. Henderson and Col. Scudder = and His Excellency Fano = to express the wish of the whole personnel for my return to the SET.
- 2)= Mr. Dino Gentile and Mr. Pierleoni, who are at the head of the Federation of Telecommunications, expressly called from Rome, came to Naples and held a meeting with the whole personnel, headed by E. Colombo, another member of the internal employee and worker commission of the SET, to express to the personnel itself their disapproval for the action taken on their behalf by Eng. Saldarelli.
- 3)= Then, said Mr. Gentile and Mr. Pierleoni returned to Rome with Mr. Colombo and, according to reports not yet controlled, they have visited the Italian Authorities whom H.E. Fano.
- 4)= Yesterday Mr. Colombo has promoted another meeting with the personnel of the SET. to express a vote against my return to the SET. to be sent to the Commission of Epuration and to the other Authorities in Rome and to the Prefect of Naples.
- 5)= Among the other arguments brought forward by Mr. Colombo, to bear pressure on the personnel, there was, according to his statements, that H.E. Fano would have told him that he, H.E. Fano, has already advised me to renounce to my return to the SET.
- 6)= I hardly believe H.E. Fano has made such a statement which could not fail to bring undue pressure on the employees gathered at the meeting. In the same meeting it was also advanced the proposal to remove from their posts Eng. Pistolesi, Accountant Iori, Eng. Santomauro ect.

has visited Mr. Fano = to express the wish
Col. Scudder = and His Excellency Fano = to express the wish
of the whole personnel for my return to the SET.

2)= Mr. Dino Gentile and Mr. Pierleoni, who are at the head of the
Federation of Telecommunications, expressly called from Rome,
came to Naples and held a meeting with the whole personnel,
headed by R. Colombo, another member of the internal employee
and worker commission of the SET, to express to the personnel
itself their disapproval for the action taken on their behalf
by Eng. Saldarelli.

3)= Then, said Mr. Gentile and Mr. Pierleoni returned to Rome
with Mr. Colombo and, according to reports not yet controlled,
they have visited the Italian Authorities whom H.E. Fano.

4)= Yesterday Mr. Colombo has promoted another meeting with the
personnel of the SET. to express a vote against my return to
the SET. to be sent to the Commission of Epuration and to the
other Authorities in Rome and to the Prefect of Naples.

5)= Among the other arguments brought forward by Mr. Colombo, to
bear pressure on the personnel, there was, according to his
statements, that H.E. Fano would have told him that he, H.E.
Fano, has already advised me to renounce to my return to the
SET.

6)= I hardly believe H.E. Fano has made such a statement which
could not fail to bring undue pressure on the employees
gathered at the meeting. In the same meeting it was also
advanced the proposal to remove from their posts Eng. Pisto-
lesi, Accountant Iori, Eng. Santomauro ect. ~~HW~~

7)= As for Mr. Colombo, I beg to call your attention that this is
the same man who, when I was arrested by the Germans, together
with Eng. Santomauro on Sept. 13rd 1943, on the charge to have
cut all the telephonic lines of the German Army, was named
"Commissary of the German Army for the plants of the SET".

2733

- 2 -

appointment that he retained until the Germans had our Central of the Borsa blown up, as the most scientific act of reprisal, and left Naples on the 29th Sept. 1943.

- 8)= Now, Mr. Colombo, still in the employment of the SRT. has covered himself by professing extremist ideas, and according to informations received from Eng. Pistolesi, Director of the SRT., and Acc. t Iori, Chief of the Personnel of the SRT., he is preaching to the personnel that he is expecting the arrival of the Russian in Italy.
- 9)= I am informed that the "Gruppo Interno" of the Reali Carabinieri of Naples has not long ago made a thorough investigation on Mr. RUGERO COLOMBO through which it has come to light the full collaboration of Mr. Colombo with the German Armies.
- 10)= Since the action of Mr. Colombo is intended to influence the decision of the Authorities of the epuration Commission, the same Authorities to whom the board of directors of the SRT. has recently addressed a request for my prompt reentry to the SRT, while the action itself is causing serious disturbance among the personnel, I beg you to bring your attention to the matter and take the steps you will consider necessary.
- 11)= The service of the SRT. is seriously resenting of this situation which is now lasting from too long a time and further inconveniences may occur, if such inconsidered trouble makers are not promptly put in position not to harm the normal running of the Company.
- 12)= I have not advised on this situation the Allied Commissary for Naples Area neither the Prefect, leaving it to your decision.

2734

UGO PELLEGRINI

After a violent press-campaign made in Naples by the Syndical paper "Battaglie Sindacali" and by communist and socialist press, Mr. Pellegrini on July 26, 1944, was dismissed as Director of the "S.E.T." of Naples owing to the Order N.3 issued by Colonel Poletti for the Third Region.

The causes of the above mentioned press-campaign are the following:

As it is logical and evident, telephone services were at disposal of the Armed Forces and Mr. Pellegrini having been appreciated by the Officers of the Allied Forces as a logical collaborator, was reconfirmed General Director of the "S.E.T." which was under the jurisdiction and control of the Chief Signal Officer and of the P.E.S.

Mr. Pellegrini submitted to the above mentioned Officers all the problems concerning the "SET" and those concerning its personnel. Thus the first requests concerning wage increases were submitted to the Officers of the Allied Forces.

The above mentioned requests were advanced by Mr. Dino Gentile - Syndical Organizer - who was well known by the Labor Sub-Commission and who was recently dismissed from the syndical organization by the Director of the C.G.I.L.

The Allied Officers submitted the aforesaid requests to the Allied Commission (Labor Sub-Commission) in Naples, the considerations of which were not in accordance with the request made by Mr. Gentile.

Mr. Pellegrini conformed himself with the disposition received from the Allied Officers who declared to be ready to witness the above mentioned question.

Moreover a press-campaign was initiated by the members of the Internal Commission headed by Ruggero Colombo - technical worker of the S.E.T. - who, during the period 13-29 September 1943 was appointed as civil Commissary of the German Army for the plants of the SET. (For further informations apply to the CC.RR. of Naples).

During said press-campaign, Mr. Pellegrini was the victim of slanderous accusations which have been proved to

The causes of the above mentioned press-campaign are the following:

As it is logical and evident, telephone services were at disposal of the Armed Forces and Mr. Pellegrini having been appreciated by the Officers of the Allied Forces as a logical collaborator, was reconferred General Director of the "S.E.I." which was under the jurisdiction and control of the Chief Signal Officer and of the P.B.S.

Mr. Pellegrini submitted to the above mentioned Officers all the problems concerning the "SEI" and those concerning its personnel. Thus the first requests concerning wage increases were submitted to the Officers of the Allied Forces.

The above mentioned requests were advanced by Mr. Dino Gentile - Syndical Organizer - who was well known by the Labor Sub-Commission and who was recently dismissed from the syndical organization by the Director of the C.G.I.L.

The Allied Officers submitted the aforesaid requests to the Allied Commission (Labor Sub-Commission) in Naples, the considerations of which were not in accordance with the request made by Mr. Gentile.

Mr. Pellegrini conformed himself with the disposition received from the Allied Officers who declared to be ready to witness the above mentioned question.

Moreover a press-campaign was initiated by the members of the Internal Commission headed by Ruggero Colombo - technical worker of the S.E.I. - who, during the period 13-29 September 1943 was appointed as civil Commissary of the German Army for the plants of the SEI. (For further informations apply to the CC.RR. of Naples).

During said press-campaign, Mr. Pellegrini was the object of slanderously accusations which have been proved to be unfounded by a clear documentation that in various occasions has been submitted to the Allied Commission and to the Military Tribunal of Naples.

Mr. Pellegrini was inscribed at the Fascist Party only since 1924 and he was imputed of the facts that have occurred prior 1924.

2733

- 2 -

At present, Mr. Pellegrini is subject to the decision of the Authorities of the Epuration Commission which has been appointed for all the telephone-organizations and which now is proceeding against the TPTI.

It would be convenient to confirm to the Commission, owing to its national character, the task of examining Pellegrini and the SET personnel, because alla reasons of convenience and of conformity which justified sometime ago such a solution, are still valid.

It must be considered that the above mentioned press-campaign made in Naples by the social-communist paper directed by Mr. Eugenio Reale, and by the paper "Battaglie Sindacali", directed by Dino Gentile, has created an unfavourable situation to make such a judgment.

Moreover it must be considered that since the jurisdiction of the SET is extended in all over Southern Italy and Sicily and since the greatest part of the personnel resides outside Naples, it is not convenient that the member who should be the representative of the SET be appointed among the personnel of Naples that during the press-campaign has proved itself to be hostile to the directorate. We suggest that a skilful representative be appointed among the personnel of the whole zone.

As it is evident, Mr. Pellegrini who had the task of civil Councillor of Telecommunications of the C.S.O. Allied Forces Headquarters, is disposed to accept that the proceeding be carried on in Rome in the seat of the above mentioned Commission and not in Naples.

Pointing out that Mr. Pellegrini beside the above mentioned report which demonstrates the apolitical life he carried on during last twenty years, it must be considered that in the morning of 9 September 1943 he cut all telephonic-lines of the German Army fighting in Southern Italy, just during the Allied landing in Salerno. It has been also ascertained that Mr. Pellegrini and Mr. Santomauro were arrested and sentenced to be shot, but they miraculously escaped.

The Officers of the English and American Army have declared to be ready to witness that Mr. Pellegrini has collaborated with the Allied Forces since their arrival.

As far as Mr. Pellegrini's dismissal from the Office is concerned Art. 16 and 17 of the Italian law on the epuration, have not been considered because the aforesaid articles were

1860

It must be considered that the above mentioned press-campaign made in Naples by the social-communist paper directed by Mr. Eugenio Reale, and by the paper "Battaglia Sindacali", direct by Dino Gentile, has created an unfavourable situation to make such a judgment.

Moreover it must be considered that since the jurisdiction of the SPT is extended in all over Southern Italy and Sicily and since the greatest part of the personnel resides outside Naples, it is not convenient that the member who should be the representative of the SPT be appointed among the personnel of Naples that during the press-campaign has proved itself to be hostile to the directorate. We suggest that a skilful representative be appointed among the personnel of the whole zone.

As it is evident, Mr. Pellegrini who had the task of civil Councillor of Telecommunications of the C.S.O. Allied Forces Headquarters, is disposed to accept that the proceeding be carried on in Rome in the seat of the above mentioned Commission and not in Naples.

Pointing out that Mr. Pellegrini beside the above mentioned report which demonstrates the apolitical life he carried on during last twenty years, it must be considered that in the morning of 9 September 1943 he cut all telephonic-lines of the German Army fighting in Southern Italy, just during the Allied landing in Salerno. It has been also ascertained that Mr. Pellegrini and Mr. Santomauro were arrested and sentenced to be shot, but they miraculously escaped.

The Officers of the English and American Army have declared to be ready to witness that Mr. Pellegrini has collaborated with the Allied Forces since their arrival.

As far as Mr. Pellegrini's dismissal from the Office is concerned Art. 16 and 17 of the Italian law on the epuration, have not been considered because the aforesaid articles were not contemplated by Mr. Poletti's Order, which had to be effective on July 26, 1944, and to be applied only in the City of Naples. Thus we come to the conclusion that the above mentioned dismissal should be considered void.

In the interest of the telephon-service, and in the expectation of a particular examination of Mr. Pellegrini's

- 3 -

case, it is necessary that the Commission starts with a preliminary examination of the facts as per Art. 16 and 17 of the Italian Law on the Epuration.

The abovementioned preliminary examination (that according to the law must be made prior that any sanction be applied), could be carried on in Roma and with the documentation and witness of the Allied Officers, of R.R.CC., of S.I.M., of the functionnaires of the Ministry of Transportation, high functionnaires residing now in Rome, and, if necessary, the Commission could hear the witnesses of Naples.

1808

Ugo PELLEGRINI

A seguito di una violenta campagna di stampa, locale e Napoli, fatta dall'organo sindacale Battaglie Sindacali, e su quello comunista e socialista, il Pellegrini, il 26 luglio 1944 veniva sospeso dal suo ufficio di Consigliere Delegato e Direttore Generale della Società Esercizi Telefoni di Napoli, in base all'ordinanza n.3 emessa dal Col. Poletti per la terza regione.

Le origini della campagna demigratoria sono le seguenti:

Come noto, e del resto logico ed evidente, i servizi telefonici sono a disposizione delle Forze Armate Alleate.

Il Pellegrini riconosciuto come valido e fedele collaboratore degli Ufficiali preposti al comando delle telecomunicazioni degli eserciti delle FORZE MILITARI ALLIATE, veniva da essi confermato al posto di D.G. e A.D. della S.E.T., la quale rimaneva però sotto la giurisdizione e sotto il controllo del Chief Signal Officer e del P.B.S.

A questi Ufficiali il Pellegrini sottoponeva quindi tutti i problemi riguardanti la S.E.T. compresi quelli riguardanti il personale.

Così vennero sottoposte tempestivamente le prime richieste di aumenti di paghe, patrocinate da un tal organizzatore sindacale a nome DINO GENTILE, ben conosciuto alla Labor Division of the A.C., e che di recente veniva allontanato dall'organizzazione sindacale dai dirigenti della Confederazione Generale del Lavoro.

Dette richieste, accompagnate dalla minaccia di un possibile sciopero, vennero sottoposte dai suddetti comandanti militari alleati alla Labor Division della A.C.C. allora sedente in Napoli, che diede il suo punto di vista non completamente aderente alle richieste patrocinate dal Gentile.

Il Pellegrini si è attenuto strettamente alle direttive avute dai suddetti Ufficiali alleati che si sono dichiarati pronti a testimoniare quanto sopra.

Da ciò ne è derivato un risentimento personale ed una vera caccia all'uomo, che si può constatare dagli articoli summenzionati.

Detta campagna veniva istigata dai membri della Commissione interna operaia capeggiata da tal Rugero COLONBO, capotecnico della SET, il quale dal 13 al 29 Settembre 1943, e cioè durante tutto il periodo di occupazione tedesca, fu da essi nominato commissario civile per conto dell'esercito germanico. (Chiedere informazioni sul Colombo al PR. di Napoli).

Come noto, e del resto logico, telefonici sono a disposizione delle Forze Armate Alleate. Il Pellegrini riconosciuto come valido e fedele collaboratore dagli Ufficiali preposti al comando delle telecomunicazioni degli eserciti delle FORZE MILITARI ALLEATE, veniva da essi conferito al posto di D.O. e A.D. della S.E.T., la quale rimaneva però sotto la giurisdizione e sotto il controllo del Chief Signal Officer e del P.B.S.

A questi Ufficiali il Pellegrini sottoponeva quindi tutti i problemi riguardanti la S.E.T. compresi quelli riguardanti il personale.

Così vennero sottoposte tempestivamente le prime richieste di aumenti di paghe, patrocinate da un tal organizzatore sindacale a nome DINO GENTILI, ben conosciuto alla Labor Division of the A.C., e che di recente veniva allontanato dall'organizzazione sindacale dai dirigenti della Confederazione Generale del Lavoro.

Dette richieste, accompagnate dalla minaccia di un possibile sciopero, vennero sottoposte dai suddetti comandanti militari alleati alla Labor Division della A.C.C. allora sedente in Napoli, che diede il suo punto di vista non completamente aderente alle richieste patrocinate dal Gentili.

Il Pellegrini si è attenuto strettamente alle direttive avute dai suddetti Ufficiali alleati che si sono dichiarati pronti a testimoniare quanto sopra.

Da ciò ne è derivato un risentimento personale ed una vera caccia all'uomo, che si può constatare dagli articoli summenzionati.

Detta campagna veniva istigata dai membri della Commissione interna operaia capeggiata da tal Rugero COLOMBO, capotecnico della SET, il quale dal 13 al 29 Settembre 1943, e cioè durante tutto il periodo di occupazione tedesca, fu da essi nominato commissario civile per conto dell'esercito germanico. (Chiedere informazioni sul Colombo ai RR.CC. di Napoli).

Il Pellegrini è stato fatto oggetto, nel corso di detta campagna, alle più calunniose accuse tutte pervenute infondate da ampia e chiara documentazione già sottoposta al giudizio degli Alleati in varie occasioni, e al Tribunale Militare di Napoli in occasione di un procedimento contro tutta la Commissione della Difesa Antiaerea per la popolazione civile di Napoli, conclusosi con la assoluzione con formula piena di tutti i membri della Commissione stessa.

- 2 -

Si noti che il Pellegrini si è iscritto al fascio solo alla fine del 1924, e gli si addebitano anche fatti avvenuti prima di tale data.

Il Pellegrini è ora sottoposto alla Commissione di Epurazione nominata per tutte le Società telefoniche concessionarie, che attualmente sta procedendo per la TEF.

Sarebbe opportuno che l'incarico di esaminare il Pellegrini e il personale della SET venisse confermato alla Commissione di carattere nazionale, persistendo tutte le ragioni di opportunità e di uniformità che militarono a suo tempo per tale soluzione.

Vi è inoltre da tenere presente che la innanzi accennata campagna di stampa fatta a Napoli dal giornale socialcomunista, diretto da Eugenio Reale, e del giornale Battaglie sindacali già diretto da Dino Gentile, ha creato un ambiente poco sereno per un giudizio del genere.

Si ricorda infine che poichè la giurisdizione della SET copre tutta l'Italia Meridionale e la Sicilia, e poichè la gran parte del personale dipendente dalla SET risiede fuori Napoli, potrebbe non essere opportuno scegliere il membro della suddetta commissione in rappresentanza del personale della SET tra quello di Napoli che per la suddetta campagna si è dimostrato il più ostile alla direzione, ma bensì detto membro dovrebbe essere scelto fra tutto il personale della zona in una persona che abbia i dovuti requisiti per il delicato compito affidatogli.

Il Pellegrini, che come è noto copre l'incarico di consigliere civile per le telecomunicazioni presso il C.S.O. Allied Forces Headquarters, è disposto ad accettare che il suo procedimento si svolga in Roma dinanzi alla succennata Commissione anzichè a Napoli.

Senza per ora entrare in merito, si tenga presente che il Pellegrini oltre la documentazione sopra menzionata che sta a dimostrare la sua vita apolitica nell'ultimo ventennio, vita spesa per lo sviluppo e la salvaguardia degli interessi della SET a lui affidati, ha, come notorio, la mattina del 9 Settembre 1943 interrotto le linee telefoniche dell'esercito tedesco ingaggiato nelle operazioni belliche dell'Italia Meridionale, proprio nei giorni dello sbarco di Salerno. E' anche notorio che egli venne, insieme all'Ingegnere Santomauro, arrestato durante l'operazione dalla quale riuscirono miracolosa-

sione di carattere nazionale, peraltro opportunit  e di uniformit  che militarono a suo tempo per tale soluzione.

Vi   inoltre da tenere presente che la innanzi accennata campagna di stampa fatta a Napoli dal giornale socialista, diretto da Eugenio Reale, e dal giornale Battaglie Sindacali gi  diretto da Dino Gentile, ha creato un ambiente poco sereno per un giudizio del genere.

Si ricorda infine che poich  la giurisdizione della SET copre tutte l'Italia Meridionale e la Sicilia, e poich  la gran parte del personale dipendente dalla SET risiede fuori Napoli, potrebbe non essere opportuno scegliere il membro della suddetta commissione in rappresentanza del personale della SET tra quello di Napoli che per la suddetta campagna si   dimostrato il pi  ostile alla direzione, ma bens  detto membro dovrebbe essere scelto fra tutto il personale della zona in una persona che abbia i dovuti requisiti per il delicato compito affidatogli.

Il Pellegrini, che come   noto copre l'incarico di consigliere civile per le telecomunicazioni presso il C.S.O. Allied Forces Headquarters,   disposto ad accettare che il suo procedimento si svolga in Roma dinanzi alla suaccennata Commissione anzich  a Napoli.

Senza per ora entrare in merito, si tenga presente che il Pellegrini oltre la documentazione sopra menzionata che sta a dimostrare la sua vita apolitica nell'ultimo ventennio, vita spesa per lo sviluppo e la salvaguardia degli interessi della SET e dei suoi affiliati, ha, come notorio, la mattina del 9 Settembre 1943 interrotto le linee telefoniche dell'esercito tedesco ingaggiato nelle operazioni belliche dell'Italia Meridionale, proprio nei giorni dello sbarco di Salerno. E' anche notorio che egli venne, insieme all'Ingegnere Santomauro, arrestato e condannato alla fucilazione dalla quale riuscirono miracolosamente a scampare.

Gli Alti Ufficiali degli Eserciti Inglese ed Americano si sono dichiarati disposti a testimoniare sulla collaborazione data dal Pellegrini alle Forze Militari Alleate fin dall'inizio del loro arrivo.

Poichè per la sospensione del Pellegrini dall'Ufficio non sono stati tenuti presenti gli articoli 16 e 17 della Legge italiana sulla epurazione, in quanto analoghi concetti non esistevano nell'ordinanza Poletti applicabile al 26 luglio u.s. solo per Napoli, detta sospensione dovrebbe di diritto ritenersi nulla.

Per colmare tale lacuna, anche nell'interesse del servizio telefonico interessanti le Forze Militari Alleate, ed in attesa di un profondo esame del suo caso, che il Pellegrini ha sollecitato ed attende da circa cinque mesi, sembrerebbe equo e secondo giustizia che la Commissione porti il suo esame preliminare sulla esistenza dei fatti contemplati dagli articoli 16 e 17 della Legge italiana sulla epurazione.

Detto esame preliminare, voluto dalla legge prima di applicare qualsiasi sanzione, appoggiato dalla documentazione e rispettivamente dalle testimonianze degli Alti Ufficiali Alleati, del R.R.CC., del SIM, da funzionari del Ministero delle Comunicazioni, e da alti funzionari già residenti a Napoli ed oggi residenti per il loro ufficio a Roma, potrebbe essere condotto in Roma stessa lasciando alla Commissione di udire ove lo ritenga necessario od opportuno, altri testimoni di Napoli.

VERBALE PER PEREQUAZIONE STIPENDI E SALARI
DEI DIPENDENTI DELLA SIELTE DI NAPOLI AL 1°/3/944.

Mod. 7 bis

L'anno 1944 addì 5 agosto, nei locali della Sielte di Napoli in Via dei Mille, 61, si sono riuniti la Direzione della Sielte e la Commissione Interna Aziendale per concludere il seguente accordo di perequazione degli stipendi e salari dei dipendenti di Napoli della Società. Sono presenti per la Direzione della Sielte l'Ing. Alfonso Guidetti, nella sua qualità di Procuratore delle Società, assistito dall'Ing. Michele Maffei, Reggente la Filiale di Napoli, e per la Commissione Interna della Sielte di Napoli i Sigg. Falco Raffaele e Massimo Renato (per gli impiegati), Giamminelli Antonio (per gli operai); assenti giustificati gli operai Conte Mario e Tomei Giuseppe, della Commissione, distaccati provvisoriamente per lavori della Società a Roma.

Si premette che gli accordi contenuti nel presente verbale avranno decorrenza retroattiva dal 1° marzo 1944 e che gli accordi stessi riguardano le categorie comprese nell'esistente contratto di lavoro.

Dopo ampia e cordiale discussione nonché accurato esame della situazione delle categorie di ogni singolo dipendente della Sielte di Napoli si sono raggiunti i seguenti accordi:

Perequazione stipendi impiegati Lo stipendio mensile base in atto, goduto da ciascuno impiegato, maggiorato dall'aumento di cui all' O.R.2 dell' 11/12/943, più l'indennità di presenza, più la media degli assegni familiari ricavata di L. 253,50 al mese per ogni impiegato, più l'aliquota della 13^a mensilità, il tutto al netto di tutte le ritenute e contributi di legge, sarà aumentato della percentuale appresso indicata per ciascuna categoria.

Dallo stipendio netto così concordato sarà tolta la media degli assegni familiari di L. 253,50 mensili e quindi aggiunti gli assegni familiari effettivi spettanti a ciascuno.

Quanto sopra e ciò che segue risulta dettagliatamente in cifre dalle relative 2 tabelle (1 e 2), compilate dalla Sielte di Napoli assistita dalla Commissione Interna, che si allegano al presente verbale, a corredo e precisazione.

Il seguente prospetto pone in evidenza le perequazioni fissate per singola categoria e per 1/12° dei 13 stipendi annui percepiti dagli impiegati.

Aumenti percentuali e massimi mensili

Categoria	Stipendio		Differenza	Totale
	Alleati	Medio		
I ^a	5.350	6.058,--	---	---
II ^a uomini	4.500	3.758,45	741,55	19,73
III ^a A. uomini	3.850	2.767,95	1.082,05	39,08
III ^a A. donne	2.800	2.059,--	741,--	36,--

Mod. 7 bis

Tutti gli stipendi massimi netti come sopra concordati sono fissati per 200 ore lavorative mensili non comprendendo gli intervalli per i pasti.

Come sopra è detto gli stipendi concordati sono al netto di tutte le ritenute e contributi di legge, prima a carico del personale, e cioè: Cassa Previdenza 2% per i non soggetti all'Assicurazione Sociale, Cassa Previdenza 1% e Assicurazione Sociale media 0,50 per chi soggetto, Cassa Mutua 1%, R.M. 8,16% su imponibile stipendio e su quota Ditta per Previdenza.

Le ritenute di cui al precedente periodo saranno portate dalla Ditta in aumento agli stipendi netti, come sopra concordato, di modo che, nella compilazione degli stipendi, togliendo le ritenute stesse tornino gli stipendi netti mensili da corrispondere come sopra fissato.

Da ciascuno degli stipendi concordati, che solo per il raffronto erano stati fissati per 12 mensilità annue, sarà tolta l'aliquota della 13^a mensilità che sarà accantonata e pagata dalla Ditta agli impiegati a fine d'anno, come di consueto.

Perequazione paghe operai La paga giornaliera base in atto, goduta da ciascun operaio, maggiorata dall'aumento di cui all' O.R. 2 dell'11/12 1943, più l'indennità di presenza, più la media degli assegni familiari, ricevuta di L. 7,85 al giorno per ogni operaio, più l'aliquota della 53^a settimana, il tutto al netto di tutte le ritenute e contributi di legge, sarà aumentata della percentuale appresso indicata per singola categoria e sottocategoria.

Dalla paga netta così concordata sarà tolta la media degli assegni familiari di L. 7,85 giornaliera e quindi aggiunti gli assegni familiari effettivi spettanti a ciascuno.

Quanto sopra e ciò che segue risulta dettagliatamente in cifre dall'apposita tabella n. 3, compilata dalla Sielte di Napoli assistita dalla Commissione Interna, che si allega al presente verbale, a corredo e precisazione.

Il seguente prospetto pone in evidenza le perequazioni fissate per singola categoria e per paghe giornaliere percepite dagli operai, comprensive dall'aliquota della 53^a settimana:

Aumenti percentuali e massimi giornalieri

Categoria	Paga giornaliera		Differenza	Totale
	Alleati	Media

Tutte le paghe massime nette come sopra concordate sono fissate per ore 8 giornaliere di lavoro, non comprendendo gli intervalli per i pasti.

Come sopra è detto, le paghe concordate sono al netto di tutte le ritenute e contributi di legge, prima a carico del personale e cioè Assicurazione Sociale media 0,50% - Cassa Mutua 2,25% - R.M. media 3% - contributo famiglie richiamati alle armi 2% sulle somme non soggette a R.M.

Le ritenute di cui sopra al precedente periodo saranno portate dalla Ditta in aumento alle paghe nette, come sopra concordate, di modo che, nella compilazione dei fogli paghe, togliendo le ritenute stesse, tornino le paghe nette giornaliere da corrispondere come sopra fissate. Dalla paga giornaliera concordata per singolo operaio sarà tolta anche l'aliquota della 53^a settimana che sarà accantonata e pagata dalla Ditta a fine d'anno, come di consueto.

- 3) Miglioramento categoria per alcuni impiegati. L'Ing. Guidetti accedendo alla richiesta della Commissione Interna di rivedere le categorie per qualche impiegato, da assicurazione che ciò sarà fatto appena potrà prendere contatto con la Presidenza della Società.

Letto, approvato e sottoscritto.

SIELTE

Mod. 7 bis

Relazione sulle proposte di perequazione paghe per il personale della SIELTE -

La S I E L T E (Società Impianti Elettrici e Telefonici Sistema Ericsson) esegue lavori di costruzione di reti telefoniche urbane ed interurbane in fili aerei ed in cavi aerei e sotterranei - impianti di centrali urbane e di centralini telefonici interni - impianti di sirene di allarme - segnalazioni stradali - orologi controllo - costruzioni di linee elettriche ad alta tensione e bassa tensione - cabine di trasformazione - impianti elettrici interni per edifici di una certa importanza: stabilimenti industriali - ospedali - pubbliche amministrazioni - etc. Il suo lavoro nella Italia Meridionale è per la maggior parte per conto della Concessionaria del Servizio telefonico: SET - Società Esercizi Telefonici - ma esegue anche lavori per conto di altri enti come la SME (Società Meridionale di elettricità) - la Ferrovia Circumvesuviana - il Regio Esercito - la Regia Aeronautica e la Regia Marina.

2722

Le ore di lavoro eseguite dal personale sono di 8 giornaliere. Il lavoro si svolge per la maggior parte del personale su scale italiane e su pali, talvolta in presenza di alta tensione. Gli operai indossano durante il lavoro una comune tonaca di lavoro e se su scale o su pali una cintura di sicurezza.

Data la mancanza di mezzi di trasporto gli operai si recano sui ponti di lavoro a piedi avendo la Società solo un automezzo per trasporti materiali -

Come raffronto fra il lavoro della SIELTE e quello di altre Società Industriali essa può essere paragonata a quello che esegue la SET nel campo telefonico ed a quello che esegue la SME nel

SIELTE

Mod. 7 bis

Campo elettrico.

La perequazione paghe è stata proposta dalla SIELTE in accordo con la Commissione Interna Aziendale per venire incontro alle richieste del personale.

I dati richiesti, si trovano riportati negli allegati prospetti e verbale di accordo.

SUBJECT: Advances to PP-TT Employees

TO : J.L. Henderson, Colonel, Director, Communication Sub-Commission.

Your ref. 09/13/3/57

1. Consideration is being given to the question presented in your memorandum of 24 August 1944. It will be necessary, however, to obtain the facts concerning the advances described in paragraph 2 of the letter of Minister Cerabona.

2. Will you request the Minister to furnish the following information:

- a. The provinces in which the advances were given.
- b. The amount of the advances and the date thereof.
- c. Whether the advances were given to all employees and, if not, the classifications to whom the advances were given.
- d. The extent to which the advances have been repaid either by actual repayment or withholding of current salary.
- e. What arrangements are in force for the amortization of the advances on an installment basis.

3. Further action will await reply to above.

C O P Y

TO: ALLIED CONTROL COMMISSION
Communications Sub-Commission

Rome 22/3/44

Ref: S/30/2280

Subject: Payment in Advance of Stipends - PP.TT. Employees.

1. The PP.TT. personnel of Sardinia has forwarded for our attention the fact that they are in poor economical condition, because of the particular situation of the Island, which has not many resources and supplies, and has therefore asked for an extraordinary subsidy or a payment in advance of monthly wages.
2. We:
 - a) Considering that the personnel in the Sicily, Campania, and Calabria have obtained during the last year payments in advance of from one to five months wages;
 - b) Considering that the above was also granted to the personnel of those provinces occupied by the last Government;think that it would be right to grant one month's wages to the personnel of Sardinia and other provinces which have not previously obtained it as an emergency measure.
3. The measure, besides relieving in part the wants of a class of employees, will remove the difference that some provinces have been excluded from a grant which should be of general application.
4. We request your permission before granting above.

The Minister

To : Labour Sub-Commission.

1. May I please have your comments on the attached copy of letter from the P.B.S. officer representing the S.E.T. telephone company.
2. As it is understood that there is a percentage scale of comparative wages to be paid in various districts, it would seem that there is no objection to the wages in these districts being brought up to this scale in relation to the approved current wages in Naples, though not to the same rates.
3. Presumably this percentage scale by districts is known to Regional Labour officers.

Attention Director Communications
Sub-Commission

Reference is made to wage adjustment agreements dated June 17th 1944 and July 8th, 1944 between the workers and the management of the Societa Esercizi Telefonici.

Approval by Authorities was given to aforesaid agreements so that approved pay scales have already come into force for the SET personnel working in the Province of Naples.

It is intention of this Company as previously agreed with local committee of workers representatives to extend same concessions as stated by already mentioned agreements, also to the personnel working in the SET Zone (Southern Italy and Sicily)

In order to facilitate and meanwhile urge all matters concerning approvals by A.C.C. of the Provinces, included in the SET telephone zone, we beg you to kindly extend approval already granted for the Province of Naples also to the following Provinces:

Benevento, Avellino, Salerno, Foggia, Bari, Brindisi, Taranto, Lecce, Matera, Cosenza, Catanzaro, Reggio Calabria, Messina, Catania, Siracusa, Ragusa, Palermo, Caltanissetta, Agrigento, Trapani, Enna/.

24 July 1944

SUBJECT: Wage adjustment - Public utilities -
Società Esercizi Telefonici

TO : Acting Regional Commissioner, Region III

1. Reference is made to a wage adjustment agreement furnished the Labor Sub-Commission by your Acting Regional labor Officer between the workers and the Management of the Società Esercizi Telefonici. The agreement was dated 8 July 1944 in Naples, Italy.

2. After a careful study of the exhibits by the Labor Sub-Commission, approval is given to the agreement with one exception as follows:

a. Apprendisti di età superiore ai 17 anni (uomini)
(B), proposed rate 65 £. The rate should not be greater than 55 £.

3. Attached, for your future reference, is a copy of the approved pay scales.

4. It will be responsibility of Region III to make all necessary and appropriate announcements and issue proper notices to the parties concerned. Public announcements should follow the general pattern established in connection with the S.M.E. - S.E.D.A.C. agreements, a copy of which was sent to your office on 1. July 1944.

5. The usual reservations prevail as applied to this agreement and approval is given with the understanding that labor peace must be maintained at all time in this industry.

6. A general decision as to the length of time this agreement and other agreements will remain in force will be forthcoming in the near future.

279.7R. BAIN,
Colonel,
Director, Labor Sub-Commission

Traduzione -Baldazzi

24 luglio 1944

OGGETTO : Adeguamento salariale - Servizi pubblici
Societa' Esercizi Telefonici.

AL : Facente Funzione di Commissario Regionale
Regione III

1. Con la presente ci riferiamo all'accordo sull'adeguamento salariale comunicato alla Sotto-Commissione del Lavoro dal vostro facente funzione di funzionario regionale del lavoro, accordo intervenuto fra il personale e la direzione della Societa' Esercizi Telefonici. L'accordo concluso a Napoli, Italia, recava la data dell'8 luglio.

2. Dopo accurata considerazione della relativa documentazione da parte della Sotto-Commissione del Lavoro, si dichiara di approvare l'accordo, con una sola eccezione, cioè:

a. Apprendisti di eta' superiore ai 17 anni (uomini) - (B), tariffa proposta 65 L. La tariffa non dovrebbe superare le 55 L.

3. Accludiamo, per vostra buona norma nel futuro, una copia delle tariffe-salariali approvate.

4. Alla Regione III incombera' la responsabilita' di fare tutte le comunicazioni necessarie e gli annunci del caso e di dare esatte notizie al riguardo alle parti interessate. I comunicati per il pubblico dovrebbero in generalita' essere redatti secondo i modelli fissati in relazione agli accordi S.M.E. - S.E.D.A.C., una copia dei quali venne inviata al vostro ufficio in data 1 luglio 1944.

5. Le riserve d'uso sono applicabili all'accordo in oggetto, e l'approvazione e' data coll'intesa che la

pace sul lavoro dovrà essere sempre preservata nell'industria.

6. Una decisione d'ordine generale verrà tempestivamente comunicata, riguardo alla durata della validità di questo e di altri accordi salariali.

25 July, 1944

SUBJECT : Increase of Pay for Telephone Supervisors

TO : Major R.N. Allman, Chief, Landwire Subsection,
Civil Censorship Group

1. This is in response to your request to increase the pay of telephone monitors acting in a supervisory capacity in order to permit payment of supervisory salaries up to 220 lire per day.

2. Since it is clear that the supervising of telephone monitoring will require a complete technical knowledge and because of the highly confidential character of the work this Sub-Commission approved the payment of the above mentioned supervisors in accordance with the following established salary scale:

(a) Senior Administrative Assistants, Sub-Professional Workers,
Junior Executive Officers, etc.

Min. : 3.600 Max. : 6.000 per month.

3. This approved scale will permit the payment of as high as 230 lire per day on a 26 day month or 200 lire per day on a 30 day month.

3 July 1944

SUBJECT: Increase of Pay for Telephone Supervisors.

TO : Colonel J. R. Smith,
Advance Headquarters,
Allied Control Commission.

1. Confirming conversation of recent date it is requested that consideration be given to the possibility of increasing the rate of pay for telephone monitors acting in a supervisory capacity.

2. Supervisors of necessity are chosen for their superior mentality and ability to use good judgement. They must have a complete technical knowledge of telephone monitoring as well as a thorough understanding of the type of information that is required by the various security agencies. They are charged with control of monitors operating during their shift and the recording of all conversations that in their opinion are of sufficient importance.

3. It is therefore felt that because of the superior type of person required for this work their rate of pay should be based on a sliding scale of 120 to 220 lire per day instead of the present rate of 120 to 150 lire per day.

LABOR SUB-COMMISSION
APO 394

LAS. 091.471

24 July 1944

SUBJECT: Wage adjustment - Public utilities -
Societa' Esercizi Telefonici

TO : Acting Regional Commissioner, Region III

1. Reference is made to a wage adjustment agreement furnished the Labor Sub-Commission by your Acting Regional Labor Officer between the workers and the Management of the Societa' Esercizi Telefonici. The agreement was dated 8 July 1944 in Naples, Italy.

2. After a careful study of the exhibits by the Labor Sub-Commission, approval is given to the agreement with one exception as follows:

a. Apprendisti di eta' superiore ai 17 anni (uomini) \$B), proposed rate 65 L. The rate should not be greater than 55 L.

3. Attached, for your future reference, is a copy of the approved pay scales.

4. It will be responsibility of Region III to make all necessary and appropriate announcements and issue proper notices to the parties concerned. Public announcements should follow the general pattern established in connection with the S.M.E. - S.E.D.A.C. agreements, a copy of which was sent to your office on 1. July 1944.

5. The usual reservations prevail as applied to this agreement and approval is given with the understanding that labor peace must be maintained at all time in this industry.

6. A general decision as to the length of time this agreement and other agreements will remain in force will be forthcoming in the near future.

J.T.R. BAIN
Colonel,
Director, Labor Sub-Commission

To : Regional Labour Office.
Naples.

Here inclosed we have the honour to send a copy of the agreement arrived at with the Workers Internal Commission, which is to be in exchange of the one stipulated on 9 May 44 that we sent you in due time.

The agreement was arrived at after a cordial discussion adequating the wages of the above said agreement of 9 May last to those of Southern Electric Society (S.M.E.) that have been approved by Regional Labour Office and by A.C.C. Labour Division.

In this agreement, as in that of S.M.E. the length of time is not mentioned, nor are there any precautionary clauses regarding other eventual increases of a general character.

As it is a question of a general character we should like thereupon same regulations from the competent offices.

"Società Esercizi Telefonici"
General Director and Delegate
M. Pellegrini.

2699

In the year nineteen hundred and forty four, on the eighth July, in the seat of Società Esercizi Telefonici S.E.T. in Naples, (Telephone Managing Society) Via Francesco Crispi 125 - the direction of the Society "Esercizi Telefonici" and the Workers Internal Commission met for a revision of the agreement stipulated on 9/5/44 relating the equalisation of wages in conformity with the contents of letter 1st May 1944 Lab. 891.46143 of Headquarters Allied Control Commission, Labor Sub-Commission, signed by JTR. Bain, Director of Labour Sub-Commission, that is considered as reported.

Three representatives present are: Pellegrini Ugo for the direction, as General Director of the Society, assisted by Rag. Mario Jori, head of the Personnel, for the Workers Internal Commission Ing. Saldarelli Carlo, Colombo Ruggiero, Cinque Giuseppe, Esposito Antonio, Sampogna Giuseppe.

It is understood that the agreements contained in the present verbal that will be calculated from 1st March 1944 are to be submitted and subordinated to :

- a) to :
A.M.G. REGION 3 FOR PRELIMINARY REVISION AND APPROVAL.
- b) to :
A.C.C. LABOUR SUB-COMMISSION FOR FINAL APPROVAL.

The agreement regards the categories contained in the now existing workers contract.

After simple and cordial discussion and an attentive examination of the categories and of each singular workman's condition, the following agreements were arrived at:

The basis day's wage at present received by each workman, augmented by the increase as by Regional Order N.2 of 11th December 1943, plus presence indemnity plus the average family allowances fixed at Lire six a day for each workman, plus the 53d week all net of any law contribution or curtail, will be increased of the percentages as below indicated for every category and sub-category.

The new net daily pay obtained cannot exceed, in any way the highest complex net daily pay fixed, as below, for every category and sub-category.

From this agreed net pay the overage family allowance of Lire 6 a day for each unity will be subtracted, and the real family allowances competent to each worker will be added instead.

Daily percentage and maximum increase.

1st Category :

Central head mechanics

"Capi giuntisti"

Chief laboratory workmen

Specialized workers of automatic central telephone establishments

Specialized workers of internal telephone plants

Specialized handymen.

48% (Forty eight per cent) with a maximum of £ 125 (One hundred and twenty five) a day.

II Category

Foremen

Central-telephone-mechanics

"Giuntisti"

Handymen (Apparecchiatori).

Repairers and zone telephone line checkers

Qualified laboratory workers

Motor repairers

Motor conductors.

6% (Sixty one per cent) with a maximum of £ 115 (One hundred and fifteen) a day .

III Category

Assistant "Giuntisti"

Assistant handymen (Apparecchiatori)

Assistant central mechanics

Common gang workers

Common laboratory worker

Warehouse workers.

Common workers

Care-takers ,ushers, errand-boys

58% (fifty eight per cent) with a maximum of £ 100 (one hundred) a day.

Women "Permutatoriste addette alla prova" and "Permutatoriste"

45% (Forty five per cent) with a maximum of £ 65 (Sixty five) a day.

Women tending the cleaning of central organs

Laboratory women

Women tending the cleaning of the premises

43% (Forty three per cent) with a maximum of £ 60 (Sixty) a day.

"Notturnisti di commutazione"

Commutation night workers

48% (Forty eight per cent) with a maximum of £90 (NINETY) a day.

Telephonist women

35% (Thirty five per cent) with a maximum of £70 (Seventy) a day.

2697

For the apprentices the following day wages have been fixed, net of all law contribution as above, lent without indication of percentage increase, there being no worker of that category being at present in service.

Apprentice having above 17 years of age (Men) maximum daily pay £ 65 (Sixty five)

Apprentice above 17 years of age (Women) maximum daily pay £ 45 (Forty five)

Apprentice below 17 years of age (Men) maximum daily pay £ 40 (Forty)

Apprentice below 17 years of age (Women) maximum daily pay £ 35 (Thirty five).

At the above agreed net highest wages are fixed for eight hours daily work, excluding the intervals for meals.

It has been agreed that the care-takers can work up to 12 hours with appropriate increase of pay for the hours exceeding the eight, up to 12, without increase of extraordinary recompense, always excluding the intervals for meals.

As above said, the wages agreed upon are net of law contributions to the workers' charge, viz:

Pension fund 4% - Cassa Mutua 2% - Insurance against unemployment, Tuberculosis, births, marriages 1% - RM. (Income tax) overage 3% - Contributions for families of called to arms 2% on sums not subject to RM.

These above mentioned contributions will be calculated as an increase of the stipend, so that in subtracting them from the stipend in the work-pay folios, the net daily pay will be that agreed as above written.

From the agreed daily pay the quota of the 53d week will be taken off, which will be put by and given at the end of the year as usual.

Read approved and signed

SOCIETA' ESERCIZI TELEFONICI
 Direttore Generale e
 Consigliere Delegato
 (Fellegrini)

All.: 1

prot. in arrivo n. 5169 L.S.I.
 10 luglio 1944

L'anno millenovecentoquarantasette, addì otto luglio nei locali della Società Esercizi Telefonici di Napoli Via Francesco Crispi centoventicinque si sono riunite la Direzione della Soc. Esercizi Telefonici e la Commissione Interna Aziendale Operai della Soc. Esercizi Telefonici, per rivedere l'accordo del 9.5.1944 in merito alla perequazione delle peggiori in conformità del contenuto della lettera del 1° maggio 1944 Lab. 861,46143 del HEADQUARTERS Allied Control Commission Labor Sub-Commission e firma del Colonnello Jtr Bain Direttore della Sub-commission del lavoro che si intende come riportata.

Sono presenti: per la Direzione Generale della S.E.T. BELLEGRINI UGO; Direttore Generale, assistito dal Rag. MARIO JORI Capo del Personale per la Commissione Interna dell'opera della S.E.T., i Sigg. Inge. CARLO SALLARELLI, COLOMBO RUSSIERO, CINQUE GIUSEPPE, ESPOSITO ANTONIO, SANCIGNA GIUSEPPE.

Si promette che gli accordi contenuti nel presente verbale che avranno decorrenza dal 1° marzo 1944, saranno sottoposti e subordinati:

- a) - alla A.M.C. P.I. Region per preliminare revisione ed approvazione;
- b) - alla A.C.C. Labor Sub-commission per l'approvazione finale.

Gli accordi riguardano le categorie comprese nell'esistente contratto degli operai.

Dopo ampia e cordiale discussione e dopo accurato esame della situazione delle categorie e di ogni singolo operaio, si sono raggiunti i seguenti accordi:

La paga giornaliera, base, in atto goduta da ciascun operaio ²⁶⁹³ migliorata dell'aumento di cui all'Ordinanza Regionale n.2 dell'11 dicembre 1943, più l'indennità di presenza, più la media degli assegni familiari fissata in L. 6= al giorno per ogni operaio, più l'aliquota della 53a settimana, il tutto al netto delle ritenute e contributi di legge, sarà aumentata delle percentuali appresso indicate per ciascuna categoria e sottocategoria.

La nuova paga giornaliera netta così ottenuta non potrà, comunque, superare la paga massima complessiva netta giornaliera fissata come appresso per ciascuna categoria e sottocategoria.

Della paga netta così concordata sarà tolta la media degli assegni familiari di L. 6= giornaliera per ogni unità vi saranno aggiunti gli assegni familiari effettivi e ciascuno spettanti.

 " " officina
 " di magazzino
 Manovali
 Custodi, uscieri e fattorini
 58% (cinquantotto per cento) con un massimo di L. 100= (cento)
 giornaliero.
 Donne permutatoriste addette alla prova e permutatoriste
 45% (quarantacinque per cento) con un massimo di L. 65= (sessan-
 tacinque) giornaliero

./.

- 3 -

Donne addette alla pulizia degli organi centrali

" di officina

" addette alla pulizia dei locali

43% (quarantatre per cento) con un massimo di L. 60= (sessanta) giornaliere.

Notturnisti di computazione

48% (quarantotto per cento) con un massimo di L. 90= (novanta) giornaliere.

Donne telefoniste 35% (trentacinque per cento) con un massimo di L. 70= (settanta) giornaliere.

Per gli apprendisti si sono stabilite le seguenti paghe giornaliere massime al netto delle ritenute di legge come sopra, senza indicazione della percentuale di aumento, dato che attualmente non vi è in servizio alcun operaio appartenente a questa categoria:

Apprendisti di età superiore ai 17 anni (uomini)

(paga massima giornaliera L. 65= (sessantacinque))

" di età superiore ai 17 anni (donne)

paga massima giornaliera L. 45= (quarantacinque)

" sotto i 17 anni (uomini)

paga massima giornaliera L. 40= (quaranta)

" sotto i 17 anni (donne)

paga massima giornaliera L. 35= (trentacinque)

Tutte le paghe massime nette come sopra concordate sono fissate per otto ore giornaliere non comprendenti gli intervalli per i pasti. Per i custodi si conviene che possono eseguire fino a 12 ore giornaliere, aumentando proporzionalmente la paga per le ore in più. Oltre le otto e fino alle 12 senza maggiorazione di straordinario sempre non comprendenti gli intervalli per i pasti.

Come sopra si è detto, le paghe concordate sono al netto delle ritenute e contributi di legge a carico del personale operaio e cioè:

Fondo di pensione 4%;

Cassa Mutua 25%;

Assicurazioni, disoccupazione, tubercolosi, natalità e nuzialità 1%- R.M. media 3%;

contributo famiglie richiamati alle armi 25% sulle somme non soggette a R.M.

./.

- 4 -

Le ritenute di cui al precedente periodo saranno portate in aumento delle pesche nette come sopra concordate, di modo che togliendo nella fatturazione dei fogli le ritenute stesse, torni la paga netta giornaliera come sopra concordata.

Dalla paga giornaliera concordata sarà tolta anche l'aliquota 53a settimana che sarà accantonata e pagata a fine d'anno come di consueto.

Fatto, approvato e sottoscritto.

MEMORANDUM FOR MAJOR ALBRIGHT.

46147
not Smith JMS
1947
Maj. Babcock

The Italian Government knows very well tragic situation of the Government employees and in particular of the postelegraphic men, and had reported the matter to the A.C.C. telling them that the situation was becoming unbearable.

The Italian Government has sent its representatives several times to attend to these matters which were then pending. But no changes had been made.

A new promise from the Italian Government would be without effect.

The Italian Government will submit, as soon as possible to the A.C.C., the explanations to the general proposition sent to them a while ago which might be approved by the A.C.C.

It is hoped that the A.C.C. will inform the employees that the propositions of the Italian Government would be soon examined with comprehension.

Received 6 July

From Italian Ministry

Robert M. Albright

PRO - MEMORIA PER IL MAGGIORE ALBRIGHT

Il Governo Italiano è perfettamente conscio della tragica situazione dei dipendenti statali e in particolare dei postelegrafonici e la ha fatta presente da vari mesi all'A.C.C. preannunziando che sarebbe presto diventata insostenibile.

Da parte sua, il Governo Italiano ha invitato più volte i suoi dipendenti ad attendere i provvedimenti che ha allora annunziato, prossimi.

L'annunzio è rimasto senza seguito.

Una nuova promessa da parte del Governo Italiano non avrebbe alcuna efficacia per chiedere una ulteriore attesa.

Da parte sua il Governo Italiano sottoporrà al più presto all'A.C.C. i chiarimenti alle proposte generali da tempo presentate, che siano al più possibile persuasivi e tali da poter essere accettati dall'A.C.C.

Per ottenere ancora pazienza dai dipendenti statali, sarebbe invece efficacissima una comunicazione fatta direttamente dalla A.C.C., con la quale si annunzi che le proposte del Governo Italiano saranno sollecitamente esaminate con spirito di comprensione.

LAB 091.46147

20 June 1944

SUBJECT: Wages of Italian State Employees

TO: Director, Communications Sub-Commission
(Thru: Economic Section)

1. This is in reply to communication of 2 June 1944, regarding the inadequacy of the present scale of wages in the Post and Telegraph Branch of the Italian State service:
2. The problem of public service wages has been under discussion with the Italian Ministry for some time, and first steps for corrective action have been taken. There is attached a copy of a memorandum and a document dealing with the subject of uniform interpretation of the wage increase orders. The Labor Sub-Commission feels that until this document is published and its provisions put into effect, that no further action can be taken.
3. It will be up to the Italian Ministry to submit a plan, if they feel that the public service wages should be adjusted upward. This Sub-Commission has not, as yet, received any such comprehensive plan and does not anticipate receiving one in the near future.
4. In the light of the recent announcement that the basic ration would be increased from 200 grams per day to 300 grams per day, thus solving one of the most serious problems facing public servants, this Sub-Commission will take a very conservative view of any proposal to adjust wages upward. Its primary concern will be the elimination of inequities in the present public service wage structure.
5. Quoted herewith is a portion of a memorandum received from Colonel Foley, Joint Director of the Finance Sub-Commission, which reveals that the general policy of the Finance Sub-Commission is in line with the policy of the Labor Sub-Commission:

LAB 091.4311 dated 20 June 1944 (Cont'd)

*2. The Italian Government's proposal to increase the wages of public employees has been examined by the technical staff of Finance Sub-Commission. It appears to us that insufficient information has been furnished to determine the effect of the proposed increase, upon various classes of employees. Before a decision is made, we should like to see a request go to the Government asking for more adequate information, including the distribution of employees by grades and estimates covering all of liberated Italy and all affected employees, both statal and parastatal.

3. I note particularly that the Government has not made a real attempt to simplify the needlessly complex and confusing wage structure of public employees. This, to our way of thinking is the real basis for any change in the wage rates. Our preliminary investigations have indicated that the wage structure should probably consist of only three elements - the basic wage, a temporary cost-of-living adjustment (calculated and applied by general areas) and a family allowance. However, this is much more in your field than ours.

4. I am in complete agreement that a general wage increase at the present time would be a potent source of further inflation. Obviously di Napoli's suggestion that all differentials be abolished cannot be countenanced. Much of the pressure for wage increases is resulting from the sharp rise in the cost of living in recent weeks, itself a result of the exhaustion of 1943 wheat stocks. The 1944 harvest is just beginning and we may expect a reduction in the cost of living with a consequent easing of the whole situation. The summer is the period when foods of all kinds are more plentiful and when the cost of living can be expected to decline. It is for this reason especially that a general wage increase now for either public or private employees is clearly undesirable. In addition the formation of a new Government, the capture of Rome, and the opening of a Second Front, are psychological factors working in our favor.

JAMES O. BARCOCK,
Major, Spec. Res.,
A/D/Director, Labor Sub-Commission

LABOR 091.4311

14 June 1944

SUBJECT : Uniform Interpretation of A.M.C. Regional Wage Adjustment Orders of December, 1943, as Applied to Public Employees.

TO : Executive Officer, Economic Section.

1. Attached is an instruction on the above subject addressed to Regional Commissioners in Regions III, IV and V in English and Italian providing for the issuance, on a uniform basis, of regional orders interpreting and supplementing the original wage adjustment orders, as applied to public employees.

2. The urgent necessity for such a uniform interpretation is apparent. The following facts are among those which led the Labor Sub-Commission to undertake a study of the existing situation with respect to application of the wage adjustment orders in public offices and to propose the attached instruction:

a. The Regional Wage Adjustment orders were promulgated, starting in Italy 1 November, 1943, at a time when very little exact information was available on the transitionally complex compensation system for public employees. As a result, the general rule, given in Article I of the orders, for applying the scale of percentage increases to governmental wages left many questions unanswered or open to a variety of interpretations.

b. On 24 April, 1944, the Chief Planner Officer, Region III, issued an administrative instruction to interpret the Wage Adjustment order in Region III, where widely diverse practices had come to his attention. On May, 1944, the Executive Commissioner, A.C.C., directed the withdrawal of this Administrative Instruction (at the request of the Labor Sub-Commission, with the concurrence of the Finance Sub-Commission) because it was apparent by then that the problem of uniform interpretation affected all Regions and a single ruling would be necessary, particularly since national public agencies were involved. Moreover, information already collected by the Labor Sub-Commission indicated that the Region III Administrative Instruction left a number of points uncovered and would have failed to clarify others adequately.

c. Nevertheless, the burden of carrying out this most important study was thrown upon the Labor Sub-Commission by the realization of and admission by several Ministers that the public service wage structure was so complicated and involved as to make it impossible for them:

2657

LAB 091.4311 dtd 14 June (Cont'd)

to undertake the responsibility of study themselves. The Ministers of Finance, Agriculture, Telecommunications and Industry, Commerce and Labor, in conference in Colonel Adams' office, which was attended by representatives of the Labor Sub-Commission, made it very clear that the ministers only wanted "something done" to raise wages for the public servants. They sidestepped difficulties inherent in such a plan and admitted political expediency in their proposal. Collectively, freely, and almost brazenly, they entered a plan for general wage increases regardless of facts or the results of studies to support or deny their claims.

2. The Ministers pointed out that many different interpretations of the A.M.G. Regional Wage Adjustment Orders had been made in Sicily and Region II, and then asked that the A.C.C. furnish an interpretation which could be applied uniformly, with respect to public employees, throughout liberated territory.

3. The Labor Sub-Commission did not hesitate to make the study, despite its small staff, because it recognized that:

a. The public service wage rate problem is a national problem and not one that can be dealt with by Regional or Provincial officials.

b. There were many inequities in the present wage structure (hence, the attached proposal), which if permitted to stand would be further enhanced by any general wage increase order. Correction of existing inequities will do much to bring labor peace in the public service field; and

c. The Ministries of the Italian Government neither had the qualified personnel, nor did they appear to be interested in obtaining the qualified personnel to make a factual study and develop a proposal to submit to A.C.C.

d. The interpretation of the Wage Adjustment Orders already promulgated was clearly the responsibility of the promulgating authority and not of the Italian Government.

e. In order to make this important study, the Labor Sub-Commission found it necessary to employ, and did employ Italian civilian economists to assist in the work. No such staff was available through the Ministry.

5. The attached proposed instruction may appear to be, and in fact, is complex. The instruction is, however, intended for the use of technicians who take up civilian public service payrolls and it will be understood by them. These latter persons are pleading for this kind of document as is evidenced by their enthusiastic reception of the study which has led to this proposed corrective action.

6. The proposed uniform interpretation is consistent with the original intent of the Regional Orders, but at the same time has been so construed as to eliminate downward adjustments in pay and to permit the continuance to the maximum possible degree, of compensation which was allowed public employees under any reasonable interpretation of the Orders.

LAB 091.4311 dtd 14 June 44 (Cont'd)

7. If the attached instruction is approved, the present Badoglio Italian Ministry of Labor has said they will take later parallel action in King's Italy.

8. The provisions of the letter were developed only after very careful case studies of State, Provincial and Communal salary and wage schedules in Avellino, Benevento, Naples and Salerno Provinces. In summary, it was found that:

- a. Per offices applied the wage order on the same basis, and
 - b. The salary structure was much more complex than even the Italian suggested.
9. This is only the first step in a definite program of action to solve the complex public service wage problem. The planned steps are as follows:
- a. Uniform interpretation of the application of the wage orders as evidenced by the attached proposal;
 - b. Consolidation of the very complex parts of the wage structure into a few main parts such as:
 - (1) Base Wage
 - (2) Family Allowances; and
 - (3) An undetermined amount representing an adjustment to the high cost of living as a result of the wartime inflation.

This presents the serious problem of determining the proper level of the base wage for normal times, an agreement with the Italian Government in reference to Family Allowances, and an adjustment in wages to meet the high cost of living.

9. The creation of an Italian body in the Ministry to continue corrective action on the wage front for the public service. This cannot be done until after the basic labor law proposed by the Labor Sub-Commission goes into effect.

10. The letter should be reproduced in the Regions, or elsewhere as determined by higher authority, and placed in the hands of the Directors of every Regional, Provincial, and Communal public office, as well as being applied to all opposite numbers in the military.

11. Throughout the development of this letter, the Labor Sub-Commission has worked in close collaboration with the Finance Sub-Commission.

12. This whole plan for the public service is but a small part of the wage planning that is to come. Industrial wage structures are just as complex, but much less easily studied and controlled. They frequently conflict with the Armed Forces Wage Structure and if we were to keep our relations with A.A.L. at their present high level, we must make many parallel studies in the industrial field.

/s/ J.T.R. BAIN

SUBJECT : Uniform Interpretation of Regional Wage Adjustment Orders
of December, 1943, as Applied to Public Employees.

TO : Regional Commissioners: Region III
Region IV
Region V
Region VIII

1. Reference is made to Articles I and IV of the A.M.C. Regional
Wage Adjustment Orders of December, 1943, reading in part as follows:

ARTICLE I
WAGE ADJUSTMENT FOR GOVERNMENT EMPLOYEES

1) Employees of permanent and temporary status of the State,
Province, Communes, Enti Pasa-Statali, and Public Institutions and Concerns
(Azende) which are administered by any of the foregoing governmental units
shall receive a temporary wage adjustment which shall be calculated upon the
base of present total salaries (base plus ordinary and extraordinary inden-
nities which normally represent an integral part of their total salary) as
described in Article IV below.

ARTICLE IV
SCALE OF WAGE ADJUSTMENT

The foregoing provisions shall be applied in accordance with the
following scales:

1) On 1st L 1,000 per month (or fraction thereof)	70%
2nd " " " "	60%
3rd " " " "	30%
4th " " " "	20%
5th " " " "	10%

ii) In respect to the salaries or wages which exceed L 5,000
per month, no increase in excess of L 1,900 shall be granted.

2. Surveys by the Labor Sub-Commission have revealed numerous mark-
edly different interpretations of the above wage adjustment provisions, not
only in different provinces, but also in different public offices within
the same province. As a result, serious inequities have been created in

2634

LAB 091.4311 dated 8 June, 44 (Cont'd)

the treatment of public employees entitled to equal consideration in the pay adjustment authorized. In order to eliminate such inequities and to insure uniform procedure consistent with the wording and intent of the orders, the rules set forth in following paragraphs of this memorandum will be strictly observed.

3. The scale of percentage increases in Article IV will be applied only to the TOTAL SUM of such of the following items as are applicable in the case of particular employees:

- a. BASE SALARY (STIPENDIO BASE)
- b. SUPPLEMENT FOR ACTIVE SERVICE (SUPPLEMENTO DI SERVIZIO ATTIVO)
- c. TEMPORARY WAR ALLOWANCE (ASSEGNO TEMPORANEO DI GUERRA)
- d. FAMILY ALLOWANCE (AGGIUNTA DI FAMIGLIA)

e. EMBARRASSMENT INDEMNITY (INDENNITA' DI BOMBARDAMENTO) -- To be included only in those cases where it is legally payable under provisions of Italian law or competent authorization given by Allied Military Government prior to 1 January 1944. Where payable, it will be calculated solely on the basis provided by R.D.L. No. 1498 of 16 December 1942, irrespective of previous differing procedures in particular offices; and its calculation will not take into consideration any increase previously or hereafter authorized in the amount of the Mission Indemnity (Indennita' di Missioni) as established by R.D.L. No. 76, of 27 February 1942.

f. MISCELLANEOUS COMPENSATION FOR SPECIAL GROUPS (COMPENSI VARI PER GRUPPI SPECIALI) -- This term shall be understood to include all special indemnities and allowances provided by law in fixed amounts as recurrent, integral parts of the total compensation of public employees in particular branches of government service or working under particular conditions, excluding, however, such items as are dealt with separately in paragraph 4. Example of items included are the Toga Indemnity for magistrates, the Special Service Indemnity for public safety employees, the Penning (Per-correnza) Indemnity for State railway workers, the Evening and Night Service Indemnity for post office and other employees, etc. When such indemnities, as in the case of the Toga Indemnity or the Disadvantageous Residence Indemnity, are normally paid at longer intervals than monthly, a monthly average will be established for purposes of applying the scale of percentage increases in Article IV.

4. The following special rules will govern the calculation of the payments listed below, which are considered as not properly coming within the group of items to be totaled for the purpose of applying the scale of percentage increases in Article IV:

a. PRINCIPAL PREMIUMS FOR INDUSTRIOUSNESS AND PRODUCTIVITY (PREMI PRINCIPALI DI OPEROSITA' E PRODUTTIVITA') -- This term shall be understood to include all premiums, however designated, which are normally and

2653

LAW 0914311 dated 6 Jun 44 (Cont'd)

regularly paid periodically to selected employees on the basis of their relative merit, whether paid quarterly, semi-annually, or annually. The total sum allocated for the purpose of the premium, the scale of individual payments, and the basis for selecting eligible employees shall be determined by the governmental authority legally empowered to make such provisions, except, however, that in no instance may the provision adopted entail the allocation of a larger total sum nor entail a higher scale of payments than was in effect for the last periodical premium of this type paid in 1943.

b. MONTHLY PREMIUM FOR INDUSTRIOUSNESS AND PRODUCTIVITY
(PREMIO MENSILE DI OPEROSITA' E PRODUTTIVITA') -- In all offices where this premium is based on hourly rates, it will be calculated as follows:

(1) The hourly rates will be those established by law (or by the governing bodies of the offices in accordance with powers derived from law) prior to the A.M.G. Wage Adjustment Order.

(2) For State employees, the maximum number of hours for which the premium may be paid with respect to any month may not exceed 75, as prescribed by R.D.L. No. 162 of 17 February, 1924, except for State employees for whom a different maximum was prescribed by law prior to the A.M.G. Wage Adjustment Order. For other public employees, the number of hours for which the premium may be paid with respect to any month shall be in accordance with regulations heretofore or hereafter adopted by the governing bodies of the offices, subject to a maximum of 75 hours.

In the case of public offices which, prior to the A.M.G. Wage Adjustment Order, paid this premium on the basis of a fixed amount established by a central governing body, rather than on the basis of hourly rates and a specified number of hours, the premium will continue to be calculated on the basis of such fixed amount. Subject to the limitations of this paragraph, the premium may be paid irrespective of whether or not work is done in excess of normal hours.

c. 13th MONTH AND SIMILAR PREMIUM BASED ON EXTRA MONTH'S SALARY
(PREMIO MENSILE MENSURATO SULLA BASE DI UN MESE DI SALARIO) -- This type of bonus may be paid only in the cases of offices where, and to the extent that, it is normally and customarily payable to all employees as an established part of their annual compensation, in accordance with regulations and provisions adopted by central governing bodies, prior to the AMG Wage Adjustment Order. Where payable on the basis of the above criteria, the amount of the bonus will be calculated only on the sum of the Base Salary (plus Supplement for Active Service) and the Family Allowance, augmented in accordance with the scale of percentage increases in Article IV.

d. COMPENSATION FOR ACTUAL OVERTIME EXCEEDING NORMAL HOURS OF WORK
(COMPENSO PER LAVORO STRAORDINARIO EFFETTIVO ECEDENTE L'ORARIO NORMALE) This provision is applicable only to agencies in which overtime exceeding normal hours of work is authorized by law or by competent regulations of central governing bodies. Proper control will be exercised in accordance with such regulations, subject to the further provision that all compensable overtime

LAS 091.4311 dated 8 June 44 (Cont'd)

must be designated as essential by the head of the office concerned, must be performed at his direction, and must be verified by adequate records. Compensation will be based on such fixed hourly rates for overtime as were legally in force prior to the AMG Wage Adjustment Order, plus and increase of 70%.

5. No increase in the Mission Indemnity (Indennita' di Missioni) was authorized by the AMG Wage Adjustment Order, since this indemnity clearly is not part of total salary or wage, but rather is in the nature of a reimbursement for specific expenses incurred by an employee in the course of his work. The same is true of the Mileage Indemnity (Indennita' Chilometrica) and other similar payments intended to offset to greater or less degree an out-of-pocket expense. However, with respect to the two indemnities mentioned, the following adjustments in rates are hereby authorized:

a. MISSION INDEMNITY (INDENNITA' DI MISSIONI) -- The daily rates established by R.D.L. No. 76 of 27 February 1942, shall be increased by 70%.

b. MILEAGE INDEMNITY (INDENNITA' CHILOMETRICA) -- The rate per kilometer established by R.D.L. No. 1311, of 14 September 1918, as amended, shall be uniformly set at 5 lire.

6. This Instruction will be effective on and after 1 June 1944. Its provisions will be applicable to monthly salary payments commencing with the month of June 1944, and to weekly salary payments commencing with the week beginning 26 June 1944. All public offices will be notified accordingly by means of a Regional Order.

7. The Regional Order shall include a "penalty clause" stating that persons violating its terms or the terms of the original AMG Wage Adjustment Order, as presently interpreted, will be liable to fine or imprisonment, with or without other lawful punishment, upon conviction by a Court of competent jurisdiction.

8. No adjustment of any kind will be undertaken with respect to past payments of compensation made under varying interpretations of the original AMG Wage Adjustment Order.

9. For reference in the preparation of the Italian version of the Regional Order putting this Instruction into effect, an Italian translation of paragraphs 1 to 5, inclusive, is appended.

By Command of Lt. General MARCON MASPARILLANI

MISSIONE ALLIATA DI CONTROLLO

OBIETTO: Norme per l'interpretazione uniforme degli Ordini Regionali del Dicembre 1943, sulla sistemazione degli stipendi e salari dei pubblici impiegati e salariati.

1. Si fa riferimento agli articoli I e IV degli Ordini Regionali emanati dal Governo Militare Alleato sulla sistemazione degli stipendi e salari:

ARTICOLO I

SISTEMAZIONE DEGLI STIPENDI E SALARI PER IMPIEGATI ED UFFICIALI GOVERNATIVI.

1) Gli impiegati di ruolo ed avventizi dello Stato, Provincia, Comuni, Enti Parastatali ed Istituti ed Aziende Pubbliche, i quali sono dipendenti da qualsiasi ufficio governativo su menzionato, riceveranno una sistemazione provvisoria degli stipendi e salari che saranno calcolati sulla base del presente totale di paghe percepite (paga base più le indennità ordinarie e straordinarie che nominalmente rappresentano una parte integrale dello stipendio o salario totale) come specificato nel seguente articolo IV.

ARTICOLO IV

Le disposizioni suddette saranno applicate in base al seguente prospetto:

1) Sulla prima L. 1000 al mese (o frazione di L. 1000 mensili)	- 70%
" seconda " " "	- 60%
" terza " " "	- 50%
" quarta " " "	- 40%
" quinta " " "	- 30%

11) Per quegli stipendi e salari che eccedono le L. 5000 al mese vi sarà un aumento massimo di L. 1900.

2. Indagini svolte dalla Labor Sub-Commission hanno rivelato che numerose e molto diverse sono state le interpretazioni date alle norme sulla sopra citata sistemazione degli stipendi e salari, non solamente nelle varie Province, ma anche nei diversi pubblici Uffici nell'ambito della stessa provincia. Come risultato, gravi disparità si sono determinate nel trattamento dei pubblici impiegati i quali, tutti, avevano diritto ad una eguale ed uniforme considerazione per quanto riguarda la sistemazione delle paghe autorizzata dagli Ordini Regionali citati. Al fine di eliminare tali irregolarità e per assicurare una procedura uniforme ed aderente alla lettera e alla finalità degli Ordini Regionali, dovranno essere osservate le norme dettate nei paragrafi che seguono.

3. La graduazione dell'aumento percentuale previsto nell'articolo IV sarà applicata solamente sulla somma totale di quelle voci che seguono quando esse rappresentano parte dell'ascolamento degli impiegati:

- a. STIPENDIO BASE
- b. SUPPLEMENTO DI SERVIZIO ATTIVO
- c. ANZICHIO TEMPORANEO DI GUERRA
- d. AGGIUNTA DI FAMIGLIA

e. INDENNITA' DI SOGGIORNO. Da includere solamente in quei casi in cui essa e' legalmente dovuta secondo la legge italiana oppure secondo la competente autorizzazione accordata dall'A.M.S. prima del 1 gennaio 1942. Quanto ne e' stabilito il pagamento, l'indennita' di bombardamento verrà calcolata solamente sulla base prevista dal D.L. n. 1498 del 16 dicembre 1942, senza tener conto delle diverse procedure adottate precedentemente da determinati uffici ed il suo calcolo non terrà in considerazione alcun incremento precedentemente o in seguito autorizzato nell'ammontare della indennita' di missione, come e' stabilito dal R.D.L. n. 76 del 17 febbraio 42.

f. GIORNI VARI PER GRUPPI SPECIFICI. Sotto questa denominazione vanno incluse tutte le speciali indennita' e gli assegni previsti dalla legge in misura fissa, una parte nonché gli integrali del compenso totale dei pubblici impiegati appartenenti a speciali rami della pubblica amministrazione o che svolgono le loro attività in particolari condizioni, escludendo tuttavia quelle voci che sono state trattate separatamente nel paragrafo a.4. Esempi delle voci da includere sono l'indennita' di toga per i magistrati, l'indennita' di servizio speciale di P.S. per gli impiegati di pubblica sicurezza; il premio di permanenza per gli impiegati delle F.F.S.; l'indennita' di servizio serale e notturno per gli impiegati delle Regie Poste e per gli altri impiegati. Quando tali indennita', come per esempio l'indennita' di toga o l'indennita' per disgiunta residenza, sono normalmente pagate a scadenze superiori al mese, sarà stabilita una nota mensile ai fini della applicazione della graduazione dell'aumento percentuale previsto nell'articolo IV.

g. Le seguenti norme speciali regoleranno il calcolo delle voci sottelenate, le quali non si debbono considerare comprese nel gruppo delle voci da sommare ai fini dell'applicazione della graduazione dell'aumento percentuale previsto nell'articolo IV:

h. PREMI PERIODICI DI OPEROSITA' E MERITO. Con questo termine s'intende comprendere qualsiasi premio comunque denominato, pagato normalmente in modo periodico e regolare (trimestralmente, semestralmente o annualmente) agli impiegati che si sono distinti per meriti. Le quote individuali, la somma totale stanziata allo scopo ed i sistemi di valutazione del merito degli impiegati, saranno determinati dagli organi amministrativi investiti all'uopo dalla legge, purché, tuttavia, in nessun caso le quote individuali e la relativa somma totale stanziata siano superiori a quelle relative all'ultimo premio periodico dello stesso genere pagato nel 1943.

2647

2. PREMIO MENSILE DI OPEROSITA' E PUNTUALITA'. In tutti gli uffici in cui questo premio viene corrisposto sulla base di tariffe orarie, esso verrà calcolato come segue:

i) le tariffe orarie saranno quelle stabilite dalla legge (o dagli organi amministrativi degli uffici secondo i poteri attribuiti dalla legge) prima dell'ordine dell'A.M.C. sulla sistemazione degli stipendi e salari.

ii) per quanto riguarda gli impiegati dello Stato, il numero massimo di ore per cui il premio può essere concesso, per qualsiasi mese, non può eccedere le 75 ore, come prescritto dalla R.D.L. n. 182 del 17 febbraio 1924, ed eccezione degli impiegati statali in favore dei quali un numero superiore di ore era fissato dalla legge prima dell'ordine dell'A.M.C. sulla sistemazione degli stipendi e salari. Per gli altri pubblici impiegati il numero di ore per cui il premio può essere concesso, per qualsiasi mese sarà regolato dalle precedenti norme o da quelle in seguito adottate dagli organi amministrativi dei vari uffici, col limite massimo di 75 ore mensili.

Nel caso di uffici pubblici, che prima dell'ordine dell'A.M.C. sulla sistemazione degli stipendi e salari, corrispondevano questo premio sulla base di una somma fissa stabilita da un organo amministrativo centrale, invece che sulla base di tariffe orarie e di un determinato numero di ore, si continuerà a calcolare il premio sulla base di detta somma fissa.

Forma restando le limitazioni dettate in questo paragrafo, il premio può essere pagato senza tener conto che il lavoro eccedente l'orario normale sia stato o meno svolto.

3. TRATTAMENTO ECONOMICO ED ALTRA GRATIFICAZIONE SIMILARI CORRISPONDENTI ALLA BASE DI UNA MENSILITA'. Questo tipo di gratifica può essere pagato solo dagli uffici e nella misura in cui costituisce normalmente e per consuetudine una parte del complessivo emolumento annuale pagato a tutti gli impiegati, secondo i regolamenti e le disposizioni adottate dagli organi amministrativi centrali prima dell'ordine Regionale dell'A.M.C. sulla sistemazione degli stipendi e salari. Nel caso in cui sia pagabile, l'emolumento di questa gratifica sarà costituito solo dalla somma dello stipendio base (e del supplemento di servizio attivo) e dell'aggiunta di famiglia, aumentata delle percentuali previste dall'articolo IV.

4. COMPENSO PER LAVORO STRAORDINARIO EFFETTIVO ECCELENTE L'ORARIO NORMALE. Questo compenso sarà limitato ai pubblici uffici nei quali il lavoro straordinario eccedente l'orario normale è autorizzato dalla legge e da regolamenti emanati da Organi Amministrativi Centrali in mancanza di contrarie disposizioni di legge. Adeguato controllo di lavoro straordinario sarà effettuato secondo tali regolamenti, tenendo presente inoltre la norma per cui tutto il lavoro straordinario da compiere deve essere dichiarato indispensabile dal capo ufficio, deve essere eseguito nel suo ordine ed annotato per iscritto in un registro delle ore eseguite. Le tariffe di tale compenso saranno quelle in vigore per il lavoro straordinario effettivo alla data dell'ordine dell'A.M.C. sulla sistemazione degli stipendi e salari, aumentate del 70%.

5. Nessun aumento e' stato autorizzato sulla indennita' di missione degli Ordini Regionali che prevedono la sistemazione degli stipendi, per il fatto che essa evidentemente non rappresenta una parte integrale dello stipendio, ma piuttosto ha il carattere di un rimborso di spese effettivamente sostenute nello svolgimento della missione. Lo stesso vale per l'indennita' chilometrica e per le altre indennita' di eguale natura intese a rimborsare in maggiore o minore misura una spesa di denaro effettua. Tuttavia relativamente alle due indennita' ora menzionate, nel presente ordine, sono autorizzate le seguenti sistemazioni alle loro tariffe:

- a. INDENNITA' DI MISSIONE. La misura giornaliera stabilita dal R.D.L. n.76 del 27 Febbraio 1942, dovra' essere aumentata del 70%.
- b. INDENNITA' CHILOMETRICA. Il compenso per ogni chilometro stabilito dal R.D.L. n.1311 del 14 Settembre 1949, sara' elevato in modo uniforme a L.3.

SUBJECT: Wage Policy

TO : Director, Labor Sub-Commission

1. Reference your memoranda LAB 091.461 dated 21 and 27 May, 1944.
2. The Italian Government's proposal to increase the wages of public employees has been examined by the technical staff of Finance Sub-Commission. It appears to us that insufficient information has been furnished to determine the effect of the proposed increase upon various classes of employees. Before a decision is made, we should like to see a request go to the Government asking for more adequate information, including the distribution of employees by grades and estimates covering all of liberated Italy and all affected employees, both statal and parastatal.
3. I note particularly that the Government has not made a real attempt to simplify the needlessly complex and confusing wage structure of public employees. This, to our way of thinking, is the real basis for any change in the wage rates. Our preliminary investigations have indicated that the wage structure should probably consist of only three elements - the basic wage, a temporary cost-of-living adjustment (calculated and applied by general areas) and a family allowance. However, this is much more in your field than ours.
4. I am in complete agreement that a general wage increase at the present time would be a potent source of further inflation. Obviously di Napoli's suggestion that all differentials be abolished cannot be countenanced. Much of the pressure for wage increases is resulting from the sharp rise in the cost of living in recent weeks, itself a result of the exhaustion of 1943 wheat stocks. The 1944 harvest is just beginning and we may expect a reduction in the cost of living with a consequent easing of the whole situation. The summer is the period when foods of all kinds are more plentiful and when the cost of living can be expected to decline. It is for this reason especially that a general wage increase now for either public or private employees is clearly undesirable. In addition the formation of a new Government, the capture of Rome, and the opening of a Second Front, are psychological factors working in our favor.

Subject : Wages of Italian State Employees.

To : Economic Section. ✓

1. The Under-Secretary of State for Telecommunications and Posts, has drawn our attention to the inadequacy of the present scale of wages in the Post and Telegraph branch of Italian State service, and has requested that we do what we can to obtain an increase.
2. It is understood that a meeting was held during May at A.C.C. HQS between representatives of the Economic Section and the Italian Ministries of Industry, Finance, Commerce and Communications on the subject of the wages of Italian State employees.
3. Could this Sub-Commission please be informed of the result of the meeting and be given an outline of the policy on the subject.

Subject : Proposed Increases in Postal, Telegraph, and Telephone Rates.

To : Economic Section.

Reference your ES/41 of 10th April and 19th April, 1944.

1. Enclosures.

- | | | |
|-----|--|---------------|
| (a) | Copy of Royal Decree relating to Postal Rates | (numbered 1). |
| (b) | " " " " "Telephone " | (" 2). |
| (c) | " " " " "Telegraph " | (" 3). |
| (d) | Balance Sheet and letter re postal and telegraph rates | (" 4). |
| (e) | Balance Sheets and letter re telephone rates | (" 5). |

2. Postal and Telegraph Rates.

(a) The supporting arguments for an increase of roughly 180% on postal and telegraph rates are contained in enclosure No. 4, which also includes a statement of expected expenditures and receipts. Owing to considerable changes from month to month in the postal, telegraph, and telephone situations during the past few months, figures for these months would be worthless as a guide to the future. Estimates based on expected expansion of the services are therefore necessary.

(b) The chief argument of expenditure in favour of the increase is obviously the increase in cost of personnel. This item of cost in 1943-44 represented at least 75% of the total expenditures.

(c) The table at the foot of page 1 of the letter in enclosure No. 4, showing comparative figures for personnel in 1943 and 1944, is rather misleading since the figures for 1943 (not stated but since inspected) show the number of staff in that year to be roughly the same as those shown for 1944 in the table.

(d) Although the numbers of staff are approximately the same, the increases in wages, and the other additions mentioned

2614

PS/16/2/

12 June, 1944 Continued.

under the paragraph headed "Personnel Expenses" have resulted in a large increase in expenditure.

(e) The increased cost of maintenance of telegraph services is considered to be justifiable due to the rise in costs of materials and transport.

(f) On the revenue side, the reduction shown under "Receipts" appears reasonable.

(g) Even though the increase in personnel costs may be a little overstated, most of the increase must be necessary, and this combined with the much reduced receipts, is felt to fully justify an average increase in costs of about 100%.

3. Telephone Rates.

(a) The telephone system in Italy consists of a local and junction service operated by the Societa Esercizi Telefonici (S.E.T.) and a State-owned inter-urban service operated by the Azienda di Stato per i Servizi Telefonici.

The estimated expenditure and receipts are shown in enclosure No. 5.

(b) The S.E.T. Statement is considered to be a fair representation of the position.

(c) The Azienda statement of increased expenditure on personnel seems somewhat high, but as the State is not in the same position as the S.E.T. as regards conditions of employment of staff, etc., a larger increase in cost of personnel must be expected.

(d) The remaining figures for expenditure seem reasonable.

(e) On the other hand, one would have expected a greater percentage reduction in receipts than that shown, as the inter-urban service is only open to subscribers nominated by the Prefect, which is a severe restriction on traffic.

(f) On a balance therefore, it is recommended that the suggested increases receive your agreement.

J.L.HENDERSON
Colonel

Director, Communications Sub-Commission

Translation No. 447 - Communications - 15-51-44 - R. Orano

POSTAL RATES

1) Letters and folded postal cards:

- (a) - addressed to places within the postal district of the mailing office, for every 15 grams or fraction of 15 grams. L. $\frac{0.50}{0.25}$
- (b) - addressed to places outside the postal district of the mailing office, for every 15 grams or fraction of 15 grams. L. $\frac{1.00}{0.50}$

2) Government postal - cards and those of private industry.

- (a) Ordinary:
- within the district L. $\frac{0.30}{0.15}$
- outside the district. L. $\frac{0.60}{0.30}$
- (b) with prepaid reply:
- within the district. L. $\frac{0.60}{0.30}$
- outside the district. L. $\frac{1.20}{0.60}$

3) Manuscripts:

- for the first 200 grams. L. $\frac{1.20}{0.60}$
- for every successive 50 grams or fraction of 50 grams. L. $\frac{0.40}{0.20}$

4) Illustrated Post - cards:

- with only the signature of sender and date with not more than 5 words of comments not type greetings or salutations. L. $\frac{0.20}{0.10}$
- L. $\frac{0.40}{0.20}$

5) Visiting Cards:

- with not more than 5 words of conversational type greetings or salutations. L. $\frac{0.40}{0.20}$

6) Commercial Bills:

- Having requirements established by the regulations L. $\frac{0.50}{0.25}$
- L. $\frac{0.30}{0.15}$

7) Announcements of birth, death, marriage and such in printing.

- 8) Statements of accounts of newspapers administrations **2642** L. $\frac{0.20}{0.10}$

9) Coupons of library commissions.

L. $\frac{0.10}{0.05}$

- 2 -

10) Periodicals prints mailed under advance deposits of publishers:

1st group: daily newspapers - including those which are not issued on recognized holidays:
for every copy not exceeding 50 grams L. $\frac{0.02}{0.003}$

for every 25 grams or fraction of 25 grams in excess L. $\frac{0.01}{0.004}$

2nd group: newspapers, magazines, reviews and the like which are not daily but are issued at least once every 15 days:
for every copy not exceeding 50 grams. L. $\frac{0.02}{0.011}$

for every 50 grams or fraction of 50 grams in excess. L. $\frac{0.01}{0.009}$

3rd group: newspapers, magazines, reviews and the like, which cannot be included in the two preceding groups and are issued at least once a month:
for every copy not exceeding 50 grams. L. $\frac{0.03}{0.014}$

for every 50 grams or fraction of 50 grams in excess L. $\frac{0.02}{0.009}$

4th Group: newspapers, magazines, reviews and the like which cannot be included in the preceding groups, issued at least twice a year:

Advertising, printed matter, catalogues, commercial bulletins and lists, editorial or book-store announcements, issued under any periodical system providing they are issued at least twice a year:

for every copy not exceeding 50 grams. L. $\frac{0.10}{0.048}$

for every 50 grams or fraction of 50 grams in excess L. $\frac{0.04}{0.018}$

(11) - Non-periodical printed matter (advertising matter), mailed under advance deposits in quantities not less than 10,000 copies for each mailing:
rate equal to the periodical prints of the fourth group.

(12) - Non-periodical prints and periodical prints mailed second-hand:
for every 50 grams or fraction of 50 grams in excess L. $\frac{0.20}{0.10}$

(13) - Advertising leaflets:
inserted as a page in with the text of magazines and other bound publications mailed under advance deposits of publishers, if not numbered progressively with the pages of the text itself:
for every 50 grams or fraction of 50 grams (but not less than 10 cent. for each publication), in addition to the tax charged for the magazines, mailed under advance deposits, of which they form part. L. $\frac{0.10}{0.05}$

(14) - Cards in braille for the benefit of the blind ²⁶⁴¹ every kilogram or fraction. L. $\frac{0.10}{0.05}$

- 3 -

(15) Samples of merchandise

for the first 100 grams	L.	<u>0.70</u>
		0.35
for every 50 grams or fraction of 50 grams in excess	L.	<u>0.30</u>
		0.15

(16) Free samples of medicines mailed directly to doctors, hospitals, clinics and special care-institutions from the producing plants:

for the first 100 grams.	L.	<u>0.50</u>
		0.25
for every 50 grams or fraction of 50 grams in excess	L.	<u>0.20</u>
		0.10

(17) Postal packets:-

for the first 100 grams.	L.	<u>2.40</u>
		1.20
for every 50 grams and fraction of 50 grams in excess	L.	<u>0.60</u>
		0.30

(18) Tax to be paid on every item stamped by machine and posted in mail boxes.

L.	<u>0.40</u>
	0.20

(19) Commission to be paid on allowances made to the users of stamp machines for metered mail, which have not been posted: 10% with a minimum of L. $\frac{2}{1}$

(20) Foreign newspaper subscriptions through post offices (service limited to international service):

fixed payments;	L.	<u>6.00</u>
Monthly payments for remailing:		3.00
(a) for periodicals which are published more than once a week.	L.	<u>5.20</u>
		1.60
(b) for other periodicals	L.	<u>2.60</u>
		0.80

(21) Legalization of deeds and certificates:

for every transaction, in addition to the regular fees.	L.	<u>2.00</u>
		1.00

(22) Notification of judicial acts:

(a) postage of each item according to regular tariffs.		
(b) registration each item, according to the regular tariff, varying according to whether mailed open or closed:		
(c) notice of receipt, returned by registration	L.	<u>2.20</u>
		1.10

2610

DRAFT OF ROYAL DECREE - LAW

Increase of Telephone Rates and Fixing the Days in which rates for Inter-urban lines are reduced.

Victor Emanuel III

By the Grace of God and the Will of the Nation

King of Italy

Whereas the Consolidated laws on telephones approved with R. decree of May 3, 1903 No. 196 and the relative regulations approved with the Royal decree of May 21, No. 253 with subsequent modifications.

Whereas the Royal Decree-Law of 23rd August, 1912 No. 1079 and a subsequent modification; and

Whereas the Royal Decrees of 8th February, 1923 No. 233 and of 3rd May 1923, No. 1131; and

Whereas the Royal Decree-Law of 14th June, 1926, No. 834 embodied into the law of 16th March, 1926, No. 562, and subsequent modifications; and

Whereas the Royal Decree-Law of 15th October, 1925, No. 1990 embodied into the law of 16th March 1926 No. 562 and;

Whereas the article 1 and 3 of the law of 31st January, 1926 No. 100; and

Whereas the Royal Decree-Law of 20th August, 1926, No. 1433, embodied into the law of 18th December, 1927 No. 2424; and

Whereas the Royal Decree-Law of 9th May, 1926, No. 903 embodied into the law of 6th December, 1928, No. 2943; and

Whereas the Royal Decree-Law of 13th January 1927, No. 15 embodied into the Law of 18th December, 1927 No. 2428

Whereas the Royal Decree-Law of 12th May, 1927 No. 837 and

Whereas the Royal Decree-Law of 24th December 1930 no 1726

and

Whereas the Royal Decree-Law of 9th April, 1931 No. 399; and

Whereas the Royal Decree-Law of 30th October, 1933 No. 2/B;

Agreed upon the need for urgent increases to adapt the telephone rates to the present economic situation;

Heard the Council of Ministers:

Upon a proposal made by our Minister of Communications in concert with that of Finance.

We have decreed and do hereby decree:

Article 1.

Article 4 of the Royal Decree-Law of 20th August, 1926 No. 1433 is substituted by the following:

Article 4 - The rates for inter-urban telephone calls which take place, either wholly or in part, on the Government's inter-urban lines are fixed, for the first three minutes of the call, as follows:

II

On lines with a total length up to 25Km.....	L.	4 (1.5)
Over 25 Kilometers " " 50Km.....	L.	4 (2)
" " 100 Km.....	L.	9 (4)
" 100 " " 200 ".....	L.	15 (7)
" 200 " " 400 ".....	L.	20 (9)
" 400 " " 600 ".....	L.	24 (11)
" 600 " " 800 ".....	L.	29 (13)
" 800 " " 1000 ".....	L.	35 (16)
" 1000 " " ".....	L.	40 (18)

Article 2

Article 3 of the Royal Decree-Law of 12th May, 1927 No. 537 is repealed. (This article provided a 20% reduction in charges for urgent calls)

Article 3.

The 3rd paragraph of article 6 of the Royal Decree-Law of 23rd November 1921, No. 1624 is substituted by the following:

For every five minutes of a call in public telephones, 1.50 (0.60) lire on lines up to three kilometers and up to 10; 3 (1.0) lire on lines over 10 Kilometers;

Article 4.

The first paragraph of article 78 of the Regulations relative to the Consolidated Laws on telephones, approved through the Royal Decree of 3rd May, 1903 No. 196, is substituted by the following:

Article 78 - Every concessionaire of telephone lines for private use will pay the Government a yearly rent of 440 (220) lire for every communication circuit up to 3 Km. and with two stations. For every kilometer or fraction of a kilometer over the first 3 kilometers and for every station over the first two, a rent of 65 lire a (30) year will be added.

Article 5.

The first paragraph of the Royal Decree-Law of 9th May 1926 No. 903 is substituted by the following:

The tariff of 4 (2) lire is established for every message of not more than 20 words.

2626

Article 6.

Article 1 of the Royal Decree-Law of 13th January 1927, No. 15 is substituted by the following:

Article 1. Every telephone subscriber may receive or transmit telegrams through his own telephone line by means of a appropriate dictating office referred to in the following articles.

III

The transmission of telegrams by telephone is subject to, besides the usual telegraph taxes, a surtax of 1 lire (.50) for every telegram of 12 words, and of .50 (.30) lire for every successive group of 12 words of a fraction thereof; This surtax is in favor of the telephone concessionaire.

Article 7.

The sole article of the Royal Decree of 9th April 1931, No. 399 is substituted by the following:

Sole Article - The reduction of telephone rates, set forth by Article 1 of the Royal Decree-Law of 20th August 1926 No. 1433, embodied into the law of 18th December 1927, No. 2424, can be applied on holidays recognized as such according to all civilian purposes. (previous decree mentioned numerous Fascist holidays)

Article 8.

This decree becomes effective from 1st July, 1944 and will be presented to the Legislative Assemblies to be made law.

The Minister of Communications is authorized to present this draft of law.

We order all those concerned to observe this decree and have others observe it as a law of the Nation.

Translation No. 310

Ministerial Decree

"Increase of Rates for City and Inter-Office Telephone Lines"

The Minister of Communications

Whereas the Consolidated Laws of telephones of 3rd May 1903, No. 196 and relative regulations of 21st May, No. 253 and successive amendments; and

Whereas the Royal Legislative Decree of 8th February 1923 No. 399; and

Whereas the R.D.L. of 30th April 1924, No. 596, amended by law of 17th April, 1925, No. 473;

Whereas the R.D.L. of 14th June 1925, No. 884 amended by the law of 18th March 1926, No. 562;

Whereas article 46 of the conventions stipulated with concessionary societies of the public telephone service and approved respectively by the Royal Decrees dated 23rd April, 1925, No. 505, 506, 507, 508, and 509.

Whereas the Ministerial Decrees of 20th June 1928, of 31st December 1930, of 11th October 1932, of 11th September 1934; and

Whereas article 3 of the Royal Decree of 3rd October 1929, No. 1887 containing rules on the inter-office derivation of urban telephone network;

Whereas the Ministerial decree of 21st November 1929; and

Whereas the Ministerial decree of 31st December 1930; and

Whereas the Ministerial decree of 11th October 1932; and

Whereas article 232 and 233 of the Postal and Telecommunications Code approved by the Royal Decree of 10th January 1944, No. 10; and

Considering the urgent-necessity of measures the telephone tariffs to meet present economic conditions; and

Considering the present particular technical situation of the urban telephone installations of Naples; and

In accord with the Minister for Industry, Commerce and Labor and for Finance;

Decrees

Article 1.

Article 1 of the Ministerial decree of 11th September 1934 is substituted by the following: (see explanation of changes in attached memo)

Article 1 - The city network will be divided, according to the application of subscription rates, in the following 4 groups:

- | | |
|-------------|---|
| 1st Group - | Network of more than 10,000 subscribers |
| 2nd Group - | " " " " 2,000 up to 10,000 subscribers |
| 3rd Group - | " " " " 500 " " 2,000 " |
| 4th Group - | " " " " from 25 to 500 subscribers; |

In order to assign the networks to each group it is necessary to consider the number of subscribers attached to each single network on the 1st January 1943, i.e. before any destruction by **2824**

II

The subscribers of each group are divided in five category determined thus:

1st Category:

- (a) Credit Institutes - Banks and Bankers;
- (b) Exchange agents, Exchange commissioners and the like;
- (c) Agencies and commercial societies with a capital of at least 1,000,000 lire and their fillials and branches, industrial plants, etc. with over 100 workers;
- (d) Hotels, boarding houses, caffes, restaurants and eating houses declared first class by the competent authorities; bars;
- (e) Telephones used in common by several separate professional offices.

2nd Category:

- (a) Commercial Industrial businessmen- agencies and Commercial societies with a capital less than 1,000,000 lire, Insurance agencies;
- (b) Professional studios,
- (c) Private administrations;
- (d) Private clinics
- (e) Hotels, boarding houses, caffes, restaurants etc. declared second class by the competent authorities;
- (f) Confederations, Federations, Associations, Syndicates, syndicate unions;
- (g) Sports associations, clubs and similar;
- (h) Door-Keepers telephones;
- (i) Provincial and communal offices, including municipalized concerns in the networks with over 2000 subscribers, and for subscriptions taken out after 1st July 1925;

3rd Category:

- (a) Hotels, boarding houses, caffes, restaurants, etc. not declared first or second class;
- (b) Shop keepers and retailers of food and clothing, serving family needs, excluding articles of luxury;
- (c) Artisans working on their own account small industries in which they work themselves, with not more than three employees; for ordinary work and five for artistic work;
- (d) Owners and leases who are themselves cultivators of farming property and sharecroppers;
- (e) Persons exercising professions, in the first three years.

4th Category

- (a) Homes of private and professional persons who have no studio or consulting room;
- (b) Public Welfare agencies, excepting the holy institutions included in the fifth category;
- (c) Parishes and convents;
- (d) Private institutes of educations and instructions;
- (e) Mutual and societies;
- (f) National target shooting, National Union for officers on leave; National Soldiers Associations, National associations for families of killed, National Association for war volunteers, fire - arms association;

III

and similar:

(g) Institutes and agencies which cannot be included in the fifth category because of the limitations therewith indicated.

5th Category:

- (a) State administrations;
- (b) Offices depending from the same administrations;
- (c) Agencies whose expenses are met entirely by the Government. The limitation referred to in article 13 of the Royal Decree of 8th February 1923, No. 399 is applied to the administrations offices and agencies of letters (a) and (b) and (c);
- (d) Daily political and sports newspapers and news agencies, their directors, assistant directors, administrators, assistant administrators, ordinary reporters and correspondents who are employed uniquely or principally in journalism;
- (e) Communal and provincial offices and municipalized agencies not included in the 2nd Category.
- (f) Holy institutions legally recognized;
- (g) National association for war invalides and mutilated;
- (h) High officials of administration who for business reasons have their office at home; the regional concessionary societies must furthermore observe the other facilities set forth by the respective conventions of article 47.

The rate to be applied in the various categories of the networks belonging to each of the above named groups, are established, with immediate effect in the following measures:

Network of 1st Group.

Category 1	-----	L 3600 (1670)
" 2	-----	L 2400 (1070)
" 3	-----	L 1700 (770)
" 4 singular	-----	L 1300 (575)
" " duplicate	-----	L 840 (380)
" " multiplicate	-----	L 600 (280)
" 5	-----	L 1200 (525)

Network of 2nd Group.

Category 1	-----	L 2900 (1340)
" 2	-----	L 2000 (920)
" 3	-----	L 1500 (700)
" 4 singular	-----	L 1100 (500)
" " duplicate	-----	L 740 (330)
" " multiplicate	-----	L 500 (250)
" 5	-----	L 1000 (450)

Network of 3rd Group.

Category 1	-----	L 1900 (880)
" 2	-----	L 1300 (605)
" 3	-----	L 960 (460)
" 4	-----	L 780 (350)
" 5	-----	L 700 (325)

2622

IV

Network of 4th Group.

Category 1	-----	L 1500 (710)
" 2	-----	L 960 (460)
" 3	-----	L 730 (370)
" 4	-----	L 660 (300)
" 5	-----	L 560 (250)

The duplex and multiples subscriptions are permitted where the technical possibilities of the installation allow it, in the circumscription of a block of buildings.

Article 2.

The telephone company concessionaire of the 5th Region, is authorized to apply within the city of Naples the meters for city telephone calls.

Each category of subscribers may make in every three months, the following maximum number of calls.

Category 1	-----	No. 900
" 2	-----	No. 600
" 3	-----	No. 400
" 4	-----	No. 300
" 5	-----	No. 500

Beyond the above determined numbers the subscribers must pay one lire for each call.

Article 3.

Article 2 of the Ministerial Decree of 21st November 1929 is replaced by the following:

Article 2 - The subscription rent due to the concessionaire societies for each telephone deriving from principal telephones, regardless of the total number, are established in the measure of (360 (120) Lire annually in the networks of up to 2000 subscribers and of 480 (160) lire in the other networks.

There are no subscription rents for inter-office telephone independent from the city network and regarding supplementary and accessory installations.

Article 4.

Article 3 of the Ministerial decree of 21st November 1929 is replaced by the following:

Article 3 The rent for upkeep and hiring, due to the concessionaire societies for internal installations made by the society itself, are set out in the following measure which includes all loans free of service and expenses.

v

Internal Installation

	<u>System</u>		
	<u>Local Battery</u>	<u>Central Battery</u>	<u>Automatic</u>
(a) For simple derivation including a commutator.	270 (90)	270 (90)	270 (90)
(b) For switch-board installations with up to 5 derivations for each telephone	270 (90)	420 (140)	510 (170)
(c) For a single derivation inter-communicating with the principal telephone and supplied by city power.	---	525 (175)	525 (175)
(d) For the following special installations requested extra by the user, bell, receiver, commutator excluding all rates for other accessories.	55 (18)	55 (18)	55 (18)
(e) Supplement for table phone (mobile)	90 (30)	90 (30)	90 (30)

Half of the total charge for subscription, upkeep and lease, is to be payed under the title of installation recompense.

Article 5.

Article 4 of the Ministerial decree of 21st November 1929 is replaced by the following:

Article 4 for inter-office installations the property of the users or leased from private installations, a rate is to be payed for upkeep, as well that for subscription, to the concessionaire Society in the following measure:

2620

VI

City Installations

	System		
	Local Battery	Central Battery	Automatic
(a) For simple derivations including a commutator.	125 (42)	125 (42)	125 (42)
(b) For switch-boards installation up to 5 derivations for each phone. For switch-board installation of different type with independent power supply.	125 (42)	155 (52)	195 (65)
1. For every telephone having also direct communication with the city.	330 (110)	360 (120)	375 (125)
2. For each phone communicating with switchboard.	120 (40)	225 (75)	330 (110)
(c) For a single derivation intercommunicating with the principal phone and with city power supply		225 (75)	225 (75)
(d) For the following special installation requested extra by the user; bell, receiver, commutator, excluding all charges for other accessories.	30 (10)	30 (10)	30 (10)
(e) Supplement for table phone (mobile)	30 (10)	30 (10)	30 (10)
(f) For plug or intercommunicating levers installations for each phone able to communicate with the city.	360 (120)	360 (120)	360 (120)
for each phone not " " " " " "	180 (60)	180 (60)	180 (60)

Article 6.

Article 5 of the Ministerial decree of 21st November, 1929 is replaced by the following:

Article 5 - For users who have one or more installations each and of such an importance as to require constant supervision the Concessionaire societies may consent to the upkeep of such installations being provided for by the owner at his own expense and with workers employed by him. In the case of dispute an appeal may be made to the Ministry of Communications, which will decide at its own discretion.

VII

In the case stated in the preceding paragraph the sum of lire 30 (10) for every active derivation is to be paid to the Concessionaire society as well as the subscription rate, under the title of technical supervision expenses. This sum, can in no case exceed, for each installation, the maximum limit of 4,500 lire (1500) annually.

Article 7.

Article 4 the Ministerial decree of 31st December, 1930 is replaced by the following:

Article 4 - A new type of telephone derivation called "Inter-office plug derivation" has been instituted.

The rate for every inter-office plug derivation is fixed, for any type telephone network, at 150 (50) lire annually which includes all loans free use and expense.

Article 8.

Article 1 of the Ministerial decree of 11th October 1932 is replaced by the following:

Article 1 - If in the building or habitation which the new subscriber occupies there exists already a working telephone installation or one which has been cut off not more than two months before the date of new application the recompense for expense and installation remains fixed at lire 330 (150) for the subscribers classifiable in categories 1 and 2 and in lire 165 (75) for those classifiable in the other categories.

Article 9.

Article 2 of the Ministerial decree of 11th October 1932 is replaced by the following:

Article 2 - If a subscriber moves to a building or locality where there exists a working installation or one which has been cut off not more than two months before the date of new application the expense for new use remains fixed at L. 220 (150) for subscribers classified in categories 1 and 2 and 165 (75) for those in other categories.

Article 10.

Article 7 of the Ministerial decree of 20th June 1926 is replaced by the following:

Article 7 - A) External derivations. - External derivations are normally not allowed. In polycentrical networks or ones with sub-exchanges, external derivations may be allowed only within the limits of the control zone of the Exchange or sub-exchanges to which the principal phone is connected.

The rate for the derivated phone will be equal to half that of the principal telephone plus L. 60 (20) for every 200 meters or fraction of 200 meters beyond the first 100 meters of the derivating line,

The Minister of Communications

VIII

unless the said derivation requires the use of two pairs of cable wire, in which case the rate will be equal to that of the principal phone. If however, the deriving phone must for its use be classified in a category superior to that of the principal one, the total rate to be paid by the user for the two phones will consist of the rate for the superior category plus half of or the whole rate of the inferior category according to whether one or two pairs of cable wires are used.

(b) Derivation from door-keeper. For derivation from door-keeper the principal phone is included in category 2. The derivation are admitted up to a maximum of four and only for private use. The rate for each derivation is equal to half that established for category 4. The expense for installation is equal to the rate as determined above for derivation 1.

Article 11.

The regulations of the present decree will come into force dating from 1st July, 1944.

The present decree will be published in the Official Gazette of the Kingdom, special number.

The Minister of Communications

The Ministers of Commerce, Industry and Labor.

The Minister of Finance.

Ministry of Communications
Under Secretary of State for Posts and Telegraphs.

REPORT ON MINISTERIAL DECREES AND DECREES - LAWS PROPOSED FOR REGULATING
TELEPHONE RATES.

For December 1943 the Telephone Company (SEI) of Naples requested and obtained the AMI authorisation to change for the Naples district, the telephone rates for urban and inter-urban lines. It not only increased them by 200%, but it revised altogether the paying system (a meter in the city networks and radial rates for inter-urban lines).

The Italian Ministries concerned (Communications and Finance) were opposed to such increases and changes for the following reasons:-

- (i) It was not possible to substantially change the local rates within a city without general organic revision of telephone tariffs.
- (ii) It was not possible to change out of town telephone rates for calls originating from Naples, since a limited change imply that a telephone call from Naples to Bari would have a rate different than a call from ~~Naples~~ Bari to Naples.
- (iii) Italian law establishes that urban and inter-urban rates should be determined by Government authorisation, in order to achieve uniformity, and under prescribed rules, and cannot therefore be the result of a unilateral proposal of the interested company.

In view of the above:-

In view of the fact that in these recent times the existing telephone rates have been found inadequate to meet the high increase of expenses which are incurred through service and maintenance of telephone installations, be they run by the Zone concessionary companies or by the State Agency for Telephone services.

In view of the fact, finally that the SEI Company has in Naples, suspended receipts of the current quarterly period, awaiting the deliberation of the measures concerning the canons to be received, there is acknowledgement of the need to study the adoption of a special provision which may serve (at least in part) to approximate the rates themselves to the greater costs incurred by operation of telephone service.

For the purpose of establishing equitable percentages of increase which may be allowed over the existing rates at the present time, this Ministry has ordered a more detailed survey of the situation, and by the Inspector's Office for the 5th Zone of the State Agency for telephone services, and by experts of the Ministry of Finance.

Both surveys, carried out thoroughly, conclude as follows:-

- (a) It is not an easy matter at the present time to determine with precision the greater expenses incurred under present conditions, because

of the great fluctuations of purchase prices of materials which generally tend towards further increase, and because of the practical impossibility of determining the necessary financing for the resumption of operation of installations damaged or destroyed by military operations. An accurate study of telephone tariffs can be made only when the prices are fixed, and when we know the ways and means by which the necessary financing are made for the reconstruction of the installations. So that we may be able to determine the expenditures for the operation and maintenance of them.

(b) It is necessary for the present, to limit ourselves to measures of a special and temporary character, awaiting the time when more careful and precise investigations can be made upon the true expenses which affect the fixing of rates..

(c) It is urgent to affect without delay such an increase so as not to dislocate any further the capital assets of the concessionary companies, in order not to put an extra burden, because of the great increase of expenses for material and labor, upon the State agency for Telephone Services (the principal interested organization relative to inter-urban service).

(d) It is necessary to allow an increase in telephone rates in a proportion not less than:

120% on local calls
120% out-of-town calls
200% for intercommunications systems

To meet the considerably large prices reached by the relative materials and the great difficulty of getting supplies.

On the basis of the above conclusions there have been prepared:

(a) A draft of R.D. concerning "Increase of Telephone rates and fixing the holidays in which out-of-town rates are reduced".

(b) A ministerial Decree concerning "Increase in rates for city and inter-office telephone installations".

By means of the R. Decree Law mentioned in (a) above, which amends the regulations established by law, the following provisions would be adopted.

Increase of 120% in rates for inter-urban communications and upon phone-telegraphic circuits.

The rescinding of the 20% reduction instituted under R. Decree law of 12th May, 1927, No. 837 on the surtax for very urgent communications, which amounts returns to 100 lire, from 80 lire.

The increase of 100% on rates for special service (telephone message service, receiving and transmitting telegrams);

Bringing up to date, because of the present political situation, the list of holidays on which the reduction on inter-urban communications (established by R. Decree Law 9th April, 1931, and which includes, among the others October 28th) is applicable generally extending the reduction to holidays acknowledged as such for all civil purposes.

By means of the Ministerial Decree as per B) above the following provisions would be adopted instead:

Subscription rates for local networks and for changes of residence are increased 120%.

The existing categories, under which subscribers belonging to the same group are divided, and reduced from 6 to 5, with the fourth category being abolished. This last category which had been established by the dissolved National Fascist Party, included, almost exclusively, agencies or offices of said party. Public Welfare agencies, present assigned to the fourth category, will be transferred to the fifth.

For the City of Naples, by way of exception, there will be adopted a local rate on the meter system, since the telephone network of said city, because of the great damages undergone 1) through aerial bombardments, and 2) through the destruction of the Central Exchange caused by the Germans, finds itself in an unusual circumstance. Following the explicit requests of the Allied, it is necessary to reduce to a minimum (within strictly indispensable limits) the existing telephone traffic, so that military telephone service may not be interfered with.

It is a well-known fact that there were about 15,000 subscribers connected to the above-mentioned Central Exchange; at the present time the most important and civilians users who belonged to said exchange have been connected to the remaining exchanges of Amedeo and Nolana, by means of junction lines which connected the three exchanges. The present junctions between the two surviving exchanges are not sufficient to handle the large amount of traffic which runs through them, nor is it possible to increase the number of ~~connections~~ connections. The need therefore arises of adopting a strict control of traffic, in order to guarantee the maximum curtailment of civilian telephone calls and the consequent normal handling of military service.

The adoption of a meter rate with a fixed maximum number of calls for each category, beyond each call over the allotted number would be paid singly, is the only provision which can assure a complete control over traffic, limiting users from indulging in superfluous calls.

In view of the fact that the concessionary company SET had started the collection of quarterly payments for the second quarter of 1944 under increased rates by authorization previously allowed by ANS, and that after the suspension issued by the AOC it suspended collection of said rates, it seems equitable to establish that such increases be applicable from the 1st March, 1944 (beginning the 2nd quarter).

Hence the urgency of approving what has been proposed above.

4614

DRAFT OF ROYAL DECREE-LAW

INCREASE IN CABLE RATES IN THE INTERIOR OF THE KINGDOM

VICTOR EMANUEL III
BY THE GRACE OF GOD AND WILL OF THE NATION
KING OF ITALY

Seen articles 8, 191 & 193 of the Postal Code and Telecommunications,
approved by R. Decree 27th February 1936 No. 645.

Seen R.D. 30 October 1943 No. 2/B

Seen R.D. 27 November 1943 No. 11B

Heard the Council of Ministers

On the proposal of the Under-Secretary of state for Railroads,
Civilian Motorization and Transport Licensees, under the functions
of the Communications Ministry, in agreement with that of Finance:

WE HAVE DECREED AND DECREE:

Part.1. The Minister of communications has the right to bring about
increases of general character in tariffs for the acceptance and
transmission of telegrams in the interior of the Kingdom, up to the
maximum limit of 100 per cent, on the basis of tariffs established by
the "Telegraphic Tariff for transmission of wires and marconigrams,
internally and internationally, published by the General Inspectorate
for telegraphic and Radiotelegraphic Traffic of the General Postal
and Telegraph Direction, in effect from the 1st of September, 1939.

Par.2. By order of the same Ministry increases may be effected up to
a maximum of 100 percent in tariffs for special telegraph services
and accessories, registration taxes for cable addresses and receipt
taxes on the basis of tariffs established by the aforementioned
Telegraph Tariff.

Art.3. By order of the same Minister of Communications increases may
be authorized in the same measure, as in par.1., for telegrams accepted
and transmitted by concessionnaires of private, and railroad and
tramway installations, used for public telegraph service.

Par.4. The present decree will have effect as of 1st July 1944 and
will be presented to the Legislative Assemblies for conversion into
law. The proponent Under-Secretary of State is authorized to present
the relative law draft.

We order whomsoever may be concerned, to obey the present decree and to
have it observed as a Law of the State.

2613

/ecc

ILLUSTRATIVE SUPPLEMENTARY NOTES TO THE OPERATINGBUDGET FOR THE FISCAL YEAR 1st JULY, 1944 -30th JUNE, 1945Personnel Expenses.

The 70% increase of the present estimate over the previous year is not due to the application of 70% increase in salaries, as per law.

The legal increase (RDL 6 Dec. 43, No. 18/B) is on a graduated scale from 70% to 60, 30, 20, and 10% in each 1000 lire bracket and cannot be more than the individual income of 1900 lire: it would therefore have been erroneous to base it according to 70% maximum increase throughout all salaries.

It is only a numerical coincidence and it must be taken into consideration as a result of lack of adjustment of salaries in the previous fiscal year.

The chapters which did not have sufficient equity are:

- Chapter 2. Payments to personnel not on the permanent list
1. Bonuses for diligence.
 2. Travelling indemnity.
 3. Transfer indemnity
 12. Subsidies (allowances) to permanent and temporary personnel.
 13. Uniform furnishings expenses.
 28. Insurance contributions for temporary personnel.

Among the chapters without any adjustment whatsoever there is Chapter 114/1 for expenses arising from evacuating subsidies and daily indemnity for war damages, which payments, especially when the latter was changed to presence indemnity as per orders of the Allied Command, make conspicuous inroads into the funds.

The preceding considerations are good also and in a larger way, for personnel of receiving offices, P.T. and for aural letter carriers, since in these categories, the differences among the estimated expenses for 1943-4 and those actually incurred in payment of "greater traffic of war", special and personal, war damage indemnity or presence indemnity common to all the personnel, have been quite heavy.

We also point out that the numerical strength of the employees as of 1 July, 1939, as indicated in the report on the budget and the situation referred to as of 1st May, 1944 shows an increase rather than a decrease. Although we cannot present an exact picture of the personnel at present employed by this Administration in the 22 Provinces controlled by the Italian Government the following figures pertaining to the Bari and Salerno offices offer a very clear index of the increase in personnel during those periods:

	July 39	May 44	July 39	May 44
Permanent Employees.	172	173	100	80
Temporary "	70	255	47	73
Permanent Agents	162	162	63	56
Temporary "	34	179	14	34

- 2 -

	Bari Offices		Salerno Office	
	July 39	May 44	July 39	May 44

Expenses for Postal Services.

In the Internal Expenses for Postal Services the percentages of increase do not show themselves to be very high, because expenses for 1944-5 have been strictly limited even though the Presidency of the Council allowed for an increase of 150% on allowances for service expenses to provincial offices (such expenses involving mainly stationery, electric power for lighting and industrial installations, heat, water, real estate repairs, purchase of publications and travelling expenses). The price increase of materials needed for the operation of postal services are, instead very high, so that in order not to put too heavy an onus on operation expenses, we were compelled to hold them down to an indispensable minimum.

Among the typical expenses of postal services the main ones are those involving transportation of mail by Companies or private enterprises by contract with the Administration. These are followed by transportation expenses for train, trolley, lake and marine means operated by private industries and the hiring of transport for mail not conveyed by armed guard; the reimbursement to State Railroads for transportation expenses, exchanges of mail and the hiring of postal trucks; the garages and maintenance of motor mail delivery; the premium for the sale of postal securities. An important expense today is incurred by printing securities and forms used in the bank-post service, such as money order forms, savings books, interest-bearing postal bonds and current accounts. Finally there are expenses for purchasing and maintaining property of the post office, installation of boxes on the American plan, purchase and repairs to hand trucks used for moving postal articles at railroad stations, and purchase of parts and accessories for mail trucks.

Internal Expenses of Telegraph Service. These are divided into 2 groups. Equipment expenses, which improve the asset situation of the Department, and operating and maintenance expenses. These funds are normally allocated for equipment expenses than to operating expenses, but under the present circumstances, in view of the damages caused by war events, larger sums must necessarily be diverged to reconstruction of technical installations, an indispensable condition for the resumption of services and the general economic improvement. But both equipment and operational expenses feel the increase of prices in connection with supplies needed for the work, metal equipment of good quality and machinery which is very scarce or ²⁶¹¹completely lacking on the market.

- 3 -

It will certainly be impossible to put back into operating efficiency, within the period of one year, all internal and external installations because especially for the latter, the repair, and in certain cases the complete reconstruction of buildings is necessary. It is for this consideration that the amount set down for installation expenses is much less than the real requirements.

Common Expenses.

Under this item are grouped all the expenses, outside of personnel expenditures, are classified commercially as "general" which are difficult to break down into various departments, and for which the only recording can be made on a total basis.

Among the most important items there are those for lighting motive power, heating, air conditioning, purchase, transportation and maintenance of furniture and fixtures, typewriters, calculating machines for the central administrations and for provincial administration; expenses for the purchase of wrapping paper, string sealing wax paraffin carbon paper and typewriter ribbons; expenses for the supply of registers, paper and forms for all the services for the payment of provincial and communal fiscal taxes; court expenses, contributions to national and international for matters concerning postal and telecommunications services.

In this branch, too, many expenditures must be considered indispensable for the partial or total restoration of equipment damaged or destroyed by military operations. For many items, especially those of general use, as for example typewriters, while there won't be the possibility for a long time to stipulate contracts with retailers or manufacturers involving advantageous prices, we are compelled to accept sporadic offers from private individuals with prices which reach percentages of increase from 1000 to 1500 of the pre-war level.

Loss for the fiscal year 1944-45.

The estimate of the budget of the current fiscal year has designed the sum of 211,552,642.85 as the operating balance to be deposited in the Treasury. The political - military situation that developed from July 1943 just at the beginning of the fiscal year, has completely upset this estimate, and the end of this fiscal year will be marked by a heavy operating loss -- for which an amortization quota should have been included in the estimate of the 1944-45 fiscal year. However, we have hopes that with adequate increase in the tariffs an improvement may be realized at end of the next fiscal year and the loss, which may later be verified with precision, can thus be absorbed.

PROCEEDS

Revenues.

The postal and telegraph revenues, in general, are those which come to the firm as a result of the execution of the various services which the firm gives to the public. These result on one hand from the tariffs on the various types of transmission of postal

2610

- 4 -

and telegraph correspondences, or on the shipping of other items, of publications, general samples and parcels, and on the other hand on the various cash and bank services; finally, on connections established with other domestic and foreign public services, with agencies and individuals, and on various services for which it receives adequate compensation.

The postal and telegraph revenues come to the Firm mostly through the sale of postal paper-values, partly through the collection of taxes and duties on the basis of the prevailing tariffs and partly through government or bank bonds.

These revenues can be examined from different points of view classified and regrouped in many ways. From the economic point of view, for they have been classified and regrouped thus in the budget estimate, they are divided into postal, telegraph and miscellaneous revenues.

Postal Revenues.

The postal revenues are derived from the tariffs on the mail service on money orders, on current accounts, and on postal checks. Postal paper-values (ordinary, special and parcels stamps, stamped forms, post cards, labels for parcels, reply voucher, duty stamps and money orders blanks) are the main source of postal revenues. In the estimate of the 1943 - 44 fiscal year they comprised 60% of all the yields, while the total revenues of the postal services approach 80% of the total processing.

A comparative study of the revenue situation of the period before the war and that before the occupation and that which followed is not possible yet, due to the lack of complete up-to-date data, which cannot even be requested from the dependent offices as the files of some of these have been destroyed or damaged by various causes. Reliable indexes which are sufficient to make us understand this situation are given by the following data regarding the Provincial Salerno Office.

				<u>COLLECTED REVENUES</u>				%	%
1st July	-	31st December	1938	/	3,066,499	/	100	/	-
"		"	1942	/	5,446,904	/	177	/	100
"		"	1943	/	1,437,653	/	46	/	26

In the 1st July - 31st December semester of 1942 the postal revenues of the province of Salerno rose to 177% of the level reached in the same period of 1938, with an increase of 77%; evidently this increase was influenced by the presence of troops in the area and by a greater traffic brought about by the war.

In the same period of 1943, immediately after the Allied occupation, the revenues suddenly fell to 46% of those 1938 and to 26% of those of 1942, with a decrease of 54% and 74% respectively.

2609

- 5 -

If we had statistics for the respective provinces, we would find similar situations in many other provinces, with the exception of those which have felt more directly the war, and where the percentages in the decrease would be unquestionably very close to the maximum.

On the basis of these approximate indexes, the estimated revenues for the 1944-45 fiscal year, computed for the 22 provinces administered by the Italian Government, should have been approximately 82,453,750 lire. However, it has been considered that in some provinces (Bari, Brindisi, Lecce, Taranto and Sardinia) the decrease in the revenues has not been too high, while in others the causes of the suspensions of the services are gradually disappearing. Therefore the percentage in the decrease has been diminished from 70% to 50% and we hope that such an estimate will be justified by the facts.

Telegraph Revenues.

These are derived from the revenues from telegraph, radio-telegraph services and from radio auditions.

The telegraph revenues, too, have felt the effects of the political and military events that have taken place from 1938. Percentage indexes are, however, higher because in abnormal times the bulk of people make greater use of speedy communications even though, as a result of the abnormal conditions in which life of the country is carried out, may not always be the surest and the speediest and then, whenever, as result of unusual circumstances, the telecommunications services become somewhat inactive, the revenues drop sharply to the lowest levels. The following figures, which also refer to the province of Salerno, offer convincing proof of this:

<u>COLLECTED REVENUE</u>				%	%
1st July - 31st December	1938	677,056	100	-	-
" - "	1942	1,712,424	252	100	-
" - "	1943	206,673	30	12	-

In the second semester of 1942 telegraph revenues rose to 252% of those of the same period in 1938 with an increase of 152%, while the postal revenues rose to 177%, with an increase of 77%.

In the same period of 1943, following the paralysis of the communications, the revenues drop to 30% of those of 1938 and to 12% of those of 1942, with a decrease of 70% and of 88%, while the analogous fluctuations in the postal revenues are less marked.

No strict account has been taken of the data given above in establishing the criteria for the estimate of the postal revenues as well as for the estimate of the telegraph revenues for the 1944-45 fiscal year. Thus the telegraph revenues have been estimated to be 60% of those of 1943-44 rather than 12-15%.

Miscellaneous Revenues.

These can be divided into two groups: 1. Reimbursements, bids deposits and returns - 2. Sundry revenues received or receivable.

To the 1st group belong: deposits for uniforms, monies gotten back following fraud in the various services, reimbursements due to internal or external administration, income from cost of material

2608

- 6 -

taken for telegraphic installments for third parties, reimbursements and bids in connection with telegraph service, reimbursements of the deposit and loan department on savings accounts service, reimbursements as above for postal bonds, holding back 6% on pension fund, reimbursement of the telephone Agency for expense of pensions and subsidies, revenue from the telephone agency for maintenance expense.

The second group includes: profits from the sale of postal dead mail, changes of personnel and fines to receivers and rural letter carriers, the eventual revenue from postal services, and from telegraph service, sums taken from the reserves for unforeseen expenses (translator note: Presumably meant to be used, but were not), imports, taxes and state deductions on salaries and on payments to third parties.

The percentage of decrease in the estimate of Sunday revenues is higher than the preceding because many of them come from reimbursements and bids of internal and external administrations, which are almost non-existent because of the interruption of the services.

However, in view of the low amount of revenues the application of a higher coefficient of decrease does not greatly influence the final result of the estimate.

Ministry of Communications

State Agency for

Telephone Services.

Revision of Telephone Tariffs.

A) The necessity for increasing the urban telephone tariffs, referred to in the draft of the decree prepared by this Ministry, is created by the comparison between the Economic Report of the S.E.T. Company, which runs the service, and the estimate for the current fiscal year of the same company.

As can be seen from the data that follows, while the total expenditures estimated for 1944 are considerably greater than that of the expenditures of the preceding fiscal years, the revenues to be obtained by the Company will be much smaller than those of previous years.

The following table shows the revenues of the S.E.T. Company in the four year period, 1939-1942. The figures are in thousands of lire.

	1939	1940	1941	1942
Number of Subscribers	63,161	65,434	63,788	72,852
Revenues: Urban Comm.	46,983	49,995	51,126	65,689
Inter-Urban Comm.	8,895	7,450	2,779	3,478
Compensations from Requisitions				
Lines	3,864	9,600	26,958	31,244
Miscellaneous	1,516	1,906	2,442	2,554
Total Revenues	60,453	68,360	83,305	93,965

From this table we can see the following:

- a) The revenues from urban communications have increased during the four year period under examination proportionally with the expansion of the services.
- b) The revenues from inter-urban communications have diminished considerably from 9 millions in 1939 to a little more than 3 millions in 1942. This decrease, however, has been compensated by revenues obtained from the requisition of lines by the State, reaching 31 millions in 1942.

In 1944 the revenues from urban communications will necessarily have to be smaller than those of previous years due to the reduced number of subscribers, which, considering the condition of the network and the availability of equipment, cannot be more than half of those of 1942.

The expenditures, on the other hand, will have to undergo a considerable increase, first because of the increases granted by law to the personnel and, secondly, because the cost of material, as well

- 2 -

known, has increased relatively to a very high degree.

In the first three columns of enclosure No.1 the economic accounts for the fiscal years, 1939 and 1942 are reported, as well as the estimates of the Company for 1944.

These estimates have been corrected by this Ministry not only as regards revenues but also as regards expenditures; in the fourth column the totals are listed. Compensations obtained from the requisitions of lines have been included in the revenues, on the supposition that they will be paid by the Government for the lines requisitioned by the Allies.

Considering the estimates made during the revision period, with the revenue of frozen tariffs, and excluding the profits from capital, a deficit of 71 millions is obtained against an estimated deficit of 134.

In view of the considerable deficit which the Company would in any case face, it is necessary to increase the tariffs temporarily so that the revenues can contribute partially to the economic improvement of the company.

The Government, for obvious reasons, is faced with the necessity of authorizing the increase only within certain limits so as not to contribute to inflation; the increase of the tariffs has been therefore established at 120%, and the city of Naples has been authorized to adopt the meter system.

The last column in the enclosed prospectus reports the analysis of the Company on the basis of the tariffs increased by such percentage; with this increase the estimated deficit, excluding profits from Capital, would come to about 30 millions.

B) Inter-Urban Tariffs.

A similar observation can be made to show the necessity of increasing inter-urban tariffs.

For these it is necessary to examine the economic analysis of the State Azienda for Telephone Services, which is the Agency mostly interested in the inter-urban Service.

However, it is not possible to refer to exact budget data for this Agency, as was done for the S.E.T. Company, because the only available data are to be deduced from the economic analysis for the 1938-1939 fiscal year, which covers all of Italy. The figures relating to Liberated Italy are approximately one fifth of those for the entire country.

The total revenues from inter-urban communications will be considerably reduced in the current fiscal year. First, because the complete traffic with Central and Northern Italy will be lacking, secondly because of the known present limitations in Liberated Italy, and finally because of the reduced number of circuits in operation. Moreover, for the circuits requisitioned by the Allied we have not been able to compute the requisition compensation to be paid by the Government because the Agency itself is a State Agency.

On the basis of these observation prospectus No.2 has been compiled. As revealed in the prospectus a deficit of 15 millions would result if the amortizations are excluded, and if included, a loss of 23 millions.

By increasing the inter-urban tariffs by 120% (column 4 of enclosed prospectus No.2), the total deficit would be reduced to 10 millions, or equivalent more or less to the amortization quota.

TO: COMMISSIONE CONTROLLO ALLEATA NAPOLI
SIGNAL MESSAGE CENTER No: _____
FROM: SECRETARY LEONE (LECCE) CLASSIFICATION: _____
REFERENCE No: _____ PRECEDENCE: _____
DATE AND TIME OF ORIGIN: MAY 29 1110 OFFICE OF ORIGIN: _____

I HAVE THE HONOR OF TRANSMITTING AN ORDER OF THE DAY: THE MEMBERS OF THE LECCE SECTION OF THE SYNDICATES OF POST & TELEGRAPH, HAVING MET IN CONSIDERABLE NUMBER ON THE MORNING OF MAY 28TH, 1944, DO NOT CONCEAL THEIR PAINFUL SURPRISE UPON LEARNING THAT THE ALLIED COMMAND HAS VOTED THE PROMISED ~~SALARY~~ ^{SALARY} INCREASES, FOR WHICH IT WAS BELIEVED ONLY THE AMOUNT WAS YET TO BE FIXED AFTER RADIO AND PRESS HAD MADE KNOWN THAT APPROPRIATE COMMISSIONS IN WHICH THE ALLIES WERE PARTICIPATING HAD RECOGNIZED THE NECESSITY TO MEET THE EMPLOYEE CLASS. THE EMPLOYEES IN GENERAL AND THE POST & TELEGRAPH EMPLOYEES ESPECIALLY WHO HAVE LOST OR BEEN REDUCED IN VIEW OF PRESENT CONTINGENCIES TO A MINIMUM THE INCOME OF EXTRA WORK FOR TRAVEL AND NIGHT COMPENSATION, LIVE A LIFE OF MISERY INADEQUATE WITH THE PRESENT STANDARD OF LIVING OF THE SOCIAL CLASSES UP TO NOW CONSIDERED THE MOST HUMBLE. AND EVEN SO THEY ACCOMPLISH A JOB UNIVERSALLY RECOGNIZED USEFUL TO THE NATION. WELL AWARE OF THE HOUR AND NO LESS FILLED WITH PATRIOTISM THAN ALL OTHER SOCIAL CLASSES, THEY HOPE THAT DESPERATION WILL NOT COMPEL THEM TO ACTS WHICH THEY THEMSELVES CONSIDER INSANE. CONSIDERING THAT THEIR EVERY RESERVE OF CLOTHING, SHOES, SMALL GOLDEN OBJECTS OF LITTLE VALUE BUT OF GREAT MORAL VALUE, HAVE GRADUALLY BEEN DESTROYED OR USED UP SO THAT TODAY OUTSIDE OF THEIR

FEDERAZIONE ITALIANA
DEI SINDACATI POSTELEGRAFONICI

Palermo 5/6 ⁴⁶¹⁴⁷

SEZIONE DI SIRACUSA
AL GOVERNO NAZIONALE SALERNO. ALLA COMMISSIONE ALLEATA DI CONTROLLO SALERNO.
AL C.C. FED. ITALIANA SIND. PP. TT. BARI. AL C.R.E. FED. ITAL SINDAC.
PP. TT. PALERMO = A TUTTE LE SEZIONI DELLA FED. ITALIANA SIND. PP. TT.
Agrigento & Catania & Roma = Ragusa = Palermo = Trapani = Messina =

Tutto il personale Postelegrafico di Siracusa, aderente alla Federazione Nazionale dei Sind. PP. TT., riunito in assemblea il giorno 4 Giugno 1944 :

C O N S T A T A T O

che il gravissimo ed assillante problema economico ed alimentare degli impiegati statali non ha trovato ancora da parte del Governo la sua urgente ed inderogabile soluzione ;

C O N S I D E R A T O

che le loro condizioni economiche sono arrivate ad un punto così tragico e così pietoso da spingerli alla disperazione ed ai più estremi propositi giustificati dalla fame che è cattiva consigliera ;

C O N V I N T O

che non saranno certamente quelle limitate somme che potrebbero essere stanziare per sollevarli un po' dalla miseria che comprometterebbero la rivalutazione della lira, già svalutata per un complesso di cause inerenti alle attuali contingenze economiche politiche e militari, e per la triste conseguenza di venti anni di ruberia di malgoverno e di dilapidazioni ;

I N V I T A

il Governo Centrale volere risolvere con urgenze e con umanità l'angoscioso e tragico problema economico-alimentare dei dipendenti statali che insieme ai lavoratori a retribuzione fissa, sono i più sacrificati ed i più martoriati di tutto il popolo italiano, pur contribuendo largamente con il loro indefesso lavoro, con la loro proverbiale onestà, con la loro disciplina e con il loro oscuro sacrificio, alla resurrezione ed alla ricostruzione della nuova Italia.

I N F I N E

fa voti che la Commissione di Controllo Alleata, che è l'espressione più fulgida e più pura della giustizia e della libertà, compenetrandosi della tragica situazione economica impiegatizia, approvi quelle provvidenze economiche che il Governo Italiano sottoporrà al suo assenso.

Il Segretario della Sezione:
(C. Accolla)

Siracusa 7/6/1944/.

15 January 1944

Subject: Wage Increase of Post Office Raccvitori
To : Labor Sub-Commission

1. At my request the Regional Postal officer has presented the question of the application of General Order No 14 to the Post Office Raccvitori in the attached letter. The problem is, first, whether Article 1 of ^{the} wage order applies to these employees; and, second, if so, precisely how it shall be applied.
2. The application should be handled on a uniform basis for all of Italy and the problem therefore should be considered by the Labor Sub-Commission.
3. If it is found that there is no legal basis for applying Article 1 of General Order No 14 to these employees, I strongly urge that the adjustment of their compensation be taken up with the Italian Government. In my opinion their compensation should be made comparable to that of employees regarded as being within the scope of Article 1 of General Order No 14.

Arnold Zempel
Captain
Labor Division

Incl. 1 letter from RPO

ALLIED MILITARY GOVERNMENT
SICILY REGION HEADQUARTERS
APO 394

File: RPO 040-230

14 January 1944

Subject: Wage Increase of Post Office Ricevitori.

To : Labor Division, Region I.

1. Request a decision be given in the case of Post Office Ricevitori as to whether these postal employees are entitled to the wage increase granted by General Order No. 14.

2. If these employees are entitled to the wage increase should the increase be granted on their gross income which the Post Office gives them or should it include only the allowance which is given to them as salary for themselves and their employees (Supplenti).

3. To clarify the problem may I present the following points:

a. Ricevitori receive a monthly sum from the Post Office which may be broken down as follows:

- (1) Salary.
- (2) Salary for employees.
- (3) General Expense Allowance (rent, light, printing, ink, supplies, etc.).

b. In addition the employees (Supplenti) received a monthly indemnity (Indennita' di caro vivere e di guerra) from the Post Office Dept. Should the wage increase be calculated on this indemnity?

c. Taking a practical situation:

A ricevitori, with 3 employees, receives 300 Lire per month which is broken down as follows:

- (1) Salary for Titolare - 1000
- (2) Salary for employees - 1000
- (3) General Expenses - 1000

Should the increase be calculated on the 2000 (Total of 1 and 2) as a whole, or on the 333 Lire (Salary of each of 3 employees) individually?

d. Should the salary of the employees (Supplenti) and the indemnity given by the Post Office be combined and the increase calculated on the one figure?

4. As this situation not only exists in Region I but also in other Regions, it may be advisable to see how these other Regions solved this problem.

5. Other details regarding the status of these employees and the nature of their duties have been submitted, I believe by Lt. Ieno of Finance Dept. However if more details are necessary this office is ready at all times to help clarify any vague points, if possible.

By order of Lt. Colonel Charles POLETTI:
