Reference your 6004/52 dated 7 October 1943.

In accordance with your instructions, I have taken formal custody of the furniture, equipment, etc, of the Ispettorato Corporativo in the offices they occupy:- 121 Via Umberto in this town, as per inventory attached as from 12 October 43.

The Ispettorato Corporativo occupy the first floor of a block of flats at 121 Via Umberto. The property is privately owned and leased by the Ispettorato for which they have been paying rent.

I have inspected the premises which are in good condition, the archives, records, etc, are kept in an orderly manner. I was informed by the secretary that during the first days of the invasion our troops tried to break in but were eventually admitted by the caretaker. The secretary states that 5 typewriters were taken by the troops.

No requisition or seizure order is available. I was shown the tables on which the machines were stated to have stood, beyond this I have no evidence to support the statement that the machines were taken by our troops.

There are two motor cars, one at Palermo and the other in this town. At the present moment Ing. Antonio Plastino, head of the local office, has gone to Palermo in the car usually kept here. I understand he is expected to be in Palermo until the 1st November when he will return here.

CATANIA,
Oct. 14, 1945.

1. I have had two extended conferences with the SCAC and the OAC on the above subject. They had no person in mind for the job and after considering the matter and looking around for someone myself, the thought occurred to me that perhaps Sr. Plastino might be appointed and combine the provincial labor office with his ispettorato corporativo. I am impressed with Sr. Plastino's ability and his knowledge of labor matters.

2. I took Sr. Plastino with me this morning for an ~~another~~ interview with the SCAC and the SCAC was impressed with him and agrees with me that he would be a good man to appoint if you have no objection to his holding two jobs - or one combined job. Please let me have your views on this and if you think it possible for Sr. Plastino to do the job then the SCAC will appoint him. If he is not satisfactory or you think we should have another man for this province I will go back again to the SCAC and make other suggestions.

3. Please also advise me how much the job will pay as I will need this information when I go into other provinces.

4. I am leaving now for Siracusa.

Enclosed herewith is the British intelligence report on signor Antonino di Emilio Plastino, former director of the above named organization.

I have obtained a list of the sixteen employees and have requested the British intelligence to furnish me a report on them. This will take about five days but I shall forward it as soon as it is available.

I have also requested the employees to fill out the forms you gave me and hope to be able to forward all of them to you Saturday morning. The slight delay is occasioned by the fact that some of the employees are not at present available in Catania.

 Subject Vetting of Capt. Dottor Antonino PLASTINO

Herewith information as requested:

Name PLASTINO Antonino di Emilio.
 Address Via Gabriella D'Annunzio 76, Catania.
 Born 22/7/1901 at Pavia.

He was not an early member of the Fascist Party, but later became a confirmed supporter of its cause. He attended all the Party functions but this was also necessary in connection with his work. In his work he was capable and there is nothing particular to criticise as regards the manner he carried out his duties. He is not regarded as a "dangerous Fascist" and there is no evidence that he is at present much concerned in any anti Allied propaganda or other activities against us. In our opinion there seems no objection to his reemployment in his post.

Assistant Controller of Property
through SIAO Palencia Province.

Assistant Controller of Property
through SIAO Oatania Province.

7 Oct 3.

1. The Isrettorato Corporativo is a state organization representing the Ministry of Corporations in house, and is responsible for the supervision of certain labour laws. It has two offices located in Palencia and Oatania, and it also has valuable records, equipment, furniture, and, it is alleged, automobiles.

2. The Labour Division of ASOTC intends to make the Palencia office of the Isrettorato the Headquarters for the new Regional Labour Office for Mexico, created by General Order No. 8, and to transfer the functions of the Isrettorato and all its equipment and personnel to the Regional Labour Office. The Oatania office will be continued as a subsidiary office of the Isrettorato, which will be a division of the Regional Labour Office.

3. You will take formal custody of the buildings, furniture, equipment, etc., ensuring that accurate inventories are prepared and agreed by all concerned, and will permit the same to be used as proposed by the Labour Division. No rent is to be paid for such use, but the actual occupants should be made responsible for the care and preservation of the properties.

Copy to: Director, Labour Division, ASOTC H.

1. Subject organization is a direct representative of the Ministry of Corporations in Rome, and has two offices located in Palermo and Catania respectively. It is a State Government body and is responsible for the supervision of certain labor laws.

2. It has valuable records, equipment, furniture, and it is alleged, automobiles.

3. It is the plan of this Division to make the Palermo office of the Ispettorato the headquarters for the new Regional Labor Office for Sicily created by General Order Number 8; and to transfer the functions of the Ispettorato and all of its equipment and personnel to the Regional Labor Office. This applies to both the Palermo and Catania offices. The Catania office will be continued as a subsidiary office of the Ispettorato. The Ispettorato will be a division of the Regional Labor Office.

4. It is requested that the necessary steps be taken for record or control transfer of the office space, records, equipment, etc., of the Ispettorato to the Regional Labor Office; it would seem that the only transfer required would be of a bookkeeping nature.

5. Advise action taken.

AMGOT/9013/LAB.

5th October 1943.

Ref. Minutes on folio 18 of file 9013/LAB.

We agree in principle. I should like however to feel that the very important health factors in labour are not to be cast out.

This I think would be a retrograde move for which AMGOT would run the risk of adverse criticism.

I think we should have a saving clause that the health factor will now become the concern of S.A.P.H.O through the existing Italian medical services to whom all questions arising in provinces will be referred as may be necessary.

Any general orders to be made by AMGOT centrally should be coordinated with P.H.Div. when the health of the workers is likely to be concerned.

REF No. AMGOT/5013/5AB

AMGOT HQ SICILY

3 Oct. 1943

1. The Ispettorato Corporativo is a state organization heretofore responsible directly to the Ministry of Corporations in Rome. It has two offices, one in Palermo, the other in Catania, both of equal level and responsibility. The organization is responsible for inspecting and securing compliance with laws concerning the hygiene and health of workers, and the supervision of laws concerning accident prevention, child labor, welfare of women in industry, etc. It is also responsible for making recommendations to the Ministry of Corporations on the advisability of permitting new industries to open. It employs approximately twenty-five people.

2. We have investigated the organization very carefully and have concluded that:

- a. It should be continued only insofar as its jurisdiction over labor matters is concerned. The balance of its functions should be abolished since they have always been incidental and very seldom respected or enforced, and irrelevant to the main and primary function.
- b. The name of the organization should be changed to Ispettorato del Lavoro in view of the abolition of the Ministry of Corporations.
- c. The organization should be transferred to the Regional Labor Office for Sicily and permitted to function as a separate division of said office.
- d. The employees and present director should be continued and transferred to the Regional Labor Office, after which their competency can be ascertained and background further examined so that changes in personnel may be made where warranted.
- e. The present locations and physical equipment of the Ispettorato in both Palermo and Catania should be acquired and maintained by AMGOT for the Regional Labor Office. Sufficient space and equipment is available for this

HEADQUARTERS

7 OCT 1943

AMGOT

Subject: Ispettorato corporativo.

To: Captain David Morse, Director Labor Division, AMGOT Hq.
Palermo.

Your memo of the 26th on the above subject reached me late yesterday afternoon.

The Director of the above named organization is Signor Antonino di Plastino who resides at Via Gabriele D'Annunzio 76, Catania. I made every effort to contact him personally. At first I heard he had fled to Rome; later that he lived in Aci Castello so I went there this morning but he had never been heard of there. I learned finally and correctly that Sr. di Plastino has been in Palermo for seventeen days where he went to present to AMGOT Hq all the information and data about his organization. Possibly by the time this report reaches you, you will have had a conference with Sr. di Plastino.

The headquarters and offices of the Ispettorato Corporativo are at No. 121 via Umberto I. They have a whole floor of the building with some twenty rooms. I visited the offices there today. Apparently none of the records and files have been destroyed and they all seem to efficiently kept and in good order. Much valuable information is available there.

(a) The functions of the organization are to send inspectors into industrial plants to see if employers are complying with contracts; to see if there are proper health, hygiene and sanitation arrangements; to see if the morale of the employees is good; to ascertain and handle grievances; to enforce contracts; to handle accident claims; to help negotiate contracts where necessary. I am told the organization has ample authority by statute to do these things and can at times even insist on changes in contracts and enforce such changes. It seems to me to have a great deal of power over both labor and industry.

(b) The Catania office employs ten women, six men, and nine carabinieri. Eight of the women are typists and clerks; one woman is an inspector; one woman is head clerk and General executive officer and the men and the carabinieri are the inspecting and enforcing personnel.

(c) As I have indicated, it has not been possible to interview Sr. Plastino and I cannot therefore comment personally on his efficiency or his ability. I will say, however, that the woman who is the General executive officer is a highly capable woman by the name of Signora Anna Di Stefano-Berneri. She has been with the organization since its beginning in 1919, is thoroughly familiar with all the functions and I suspect she has a great deal to do with formulating policies and putting them into execution. She is very intelligent, about fifty years old, energetic and well qualified for her job. It was impossible for me to interview any of the other employees since the office is not operating now. I did talk with one of the carabinieri who described his duties to me.

(d) It was impossible of course for me to obtain information about fascist activity of director and staff by direct questioning. I have interviewed several reliable persons here about Sr. Plastino and they all give him a very good recommendation, advising that he was never a fascist. I have great respect for the opinion of Dr. Gavino Gallesio-Fola who is at present head of the Industrial Division of AMGOT and who has been prominent in labor circles here for years. He says di Plastino is absolutely all right; that he was never a fascist and was

I will say, however, that the woman who is the general executive officer is a highly capable woman by the name of Signora Anna Di Stefano-Gerniri. She has been with the organization since its beginning in 1919, is thoroughly familiar with all the functions and I suspect she has a great deal to do with formulating policies and putting them into execution. She is very intelligent, about fifty years old, energetic and well qualified for her job. It was impossible for me to interview any of the other employees since the office is not operating now. I have great respect for the opinion of Dr. Gavino Gallisay-Tola who is at present head of the Industrial Division of AMOT and who has been prominent in labor circles here for years. He says di Plastino is absolutely all right; that he was never a fascist and was frequently in trouble for not wearing a fascist emblem on his lapel. The AMOT Director of Economics here, Dr. Michelini, also gives di Plastino a good recommendation. I am a bit puzzled frankly, as to how di Plastino managed to hold the job he had if he were not an ardent fascist because as you know this organization was directly under the Ministry of Corporations of Rome and the Ministry of Corporations was Mussolini's personal responsibility and was the most ardent of the fascist organizations. I have taken the liberty of asking the help of the British Intelligence on this point. They are making for me a careful investigation into the activity of di Plastino and his general reputation and ability, etc. This report has been promised me by Saturday and I shall forward it promptly.

(e) The typists and clerks received a net income of 722 lire per month; the inspectors slightly more and the head clerk, Signora Di Stefano-Gerniri and the Director received moderate salaries - but I have been unable to ascertain them exactly due to the complicated payment system. The carabinieri received their pay from the Commandant of Carabinieri and got the usual amount of pay but all their work was with this organization. The Ministry of Corporations in Rome paid all employees and refunded to the Commandant of Carabinieri the money paid

to these carabinieri who worked for Ispettorato corporativo. The employees and employers are not required to contribute anything at all to this organization. It was purely a governmental agency and was run at government expense, by the Ministry of Corporations. The big problem of reorganization is who is to pay these employees?

(5) MY investigation showed that the organization has been very successful in the past in handling the aforementioned labor matters. One reason perhaps has been that it has been an all powerful organization and its decisions were nearly always final though I believe it was possible in some instances to resort to the labor courts. The organization is impartial so far as employer-employee is concerned. The Catania office had jurisdiction in the provinces of Messina, Catania, Enna, Ragusa and Siracusa.

I have been advised that the Palermo office of the organization is already functioning.

Since you requested my recommendations as to whether or not the organization here should be permitted to function, I shall be happy to give them, although this is of course a matter of policy which I feel should be determined either by you or by the staff at HQ. I say this so you will not feel I am attempting to establish a policy or exceed my authority. From what I have learned of the organization I think it can serve a very real need. Sicilian labor and industry are both used to the organization and no doubt have a healthy respect for it. I would certainly suggest, however, that its final decisions be subject to review by you as Labor Director and possibly approval by the HQ staff. I feel that we cannot permit the organization to have as much authority as it has had in the past and that it must be made quite plain to all concerned that the organization is now carrying out AMOT policies. With these main changes and possibly some minor ones in procedure, I would suggest that the organization be permitted to operate and that AMOT bear the expense. The expense is quite small but I think the salaries will have to be raised. Obviously no one could be expected to live on 722 lire a month now. Before SR. di Platino is permitted to head the organization again, I should like to await the report of the British Intelligence. I feel that the other employees here are satisfactory.

I hope I have given you the information you want.

Via Roma 404

ISPETTORATO DELL'INDUSTRIA, COMERCIO E DEL LAVORO.-

E' il piu importante Ufficio del Ministero dell'Industria, Commercio e Lavoro, ed è stato istituito con la legge 22/12/1912 n. 1361.

Il Covenant (1919) che istituì a Ginevra il Bureau International du travail, stabilì che in ogni Nazione aderente alla Società delle Nazioni, fosse istituito un corpo di Ispettori per la tutela delle leggi del lavoro e previdenza.

L'Italia che già aveva tale corpo, si limitò a perfezionarlo.

Gli Ispettori hanno per legge la veste di Ufficiali di Polizia Giudiziaria.

N.B. Si fa osservare che tutti gli altri Uffici del suddetto Ministero e cioè :

- a) Corpo Reale delle Miniere, con sede a Caltanissetta;
- b) Ufficio metrico e del saggio delle monete e dei metalli preziosi, con sede in ogni Provincia, sono già stati riconosciuti e funzionano regolarmente.

ATTIVITA' DELL'UFFICIO - Vigilanza per l'applicazione di tutte le leggi del lavoro e di previdenza sociale mantenute in vigore per disposizioni del Governo Alleanza di occupazione.

Ispezione alle aziende a qualunque presso qualsiasi datore di lavoro che occupi personale retribuito.

Raccolta di informazioni relative agli impianti industriali, alla loro produzione, potenzialità.

Rilascio patenti ai fuochisti delle caldaie a vapore, e relativa commissione di esami.

Vigilanza per rilascio di licenza ai panifici e molini per accertare condizioni tecniche e igieniche.

Controllo ai montacarichi industriali per rilascio licenza di esercizio.

Comunicazione di notizie relative all'Industria della Sicilia e relative produzioni, all'Autorità tutoria.

L'Ispettorato ha la giurisdizione su tutta la Sicilia, con due Uffici :

- a) PALERMO - per le Province di Palermo, Trapani, Caltanissetta, Agrigento.
- b) CATANIA - per le Province di Catania, Messina, Siracusa, Enna, Ragusa.

E' da notare che sono stati riconosciuti ed autorizzati a funzionare dal Governo Alleato sia l'Istituto della Previdenza Sociale, sia l'Istituto Assicurazioni Infortuni sul Lavoro, sia l'Associazione Nazionale del Controllo della Combustione e che sotto l'opera dell'Ispettorato dell'Industria del Commercio e del Lavoro, che controlla l'osservanza delle leggi, tali istituti vengono a trovarsi in di facoltà per assicurare la riscossione dei contributi dovuti dai datori di lavoro; si fa inoltre presente che presso l'Ispettorato sono giacenti numerose pratiche di operai e dei suddetti Istituti, in più l'Associazione citata è legata all'Ispettorato sia per controllo sulle caldaie, sia per rilascio delle patenti ai conduttori delle stesse, patenti che previo esame vengono rilasciate dall'Ispettorato.

Si fa inoltre notare che i due Istituti citati concorrono per legge alle spese dell'Ispettorato e che le contravvenzioni elevate da questo a carico dei datori di lavoro inadempienti importano una cifra rilevante, che si ritiene nel complesso totale possa ascendere a più della metà della somma necessaria per funzionamento dell'Ispettorato.

Corporate Inspectorship Legislation.

TRANSLATION

9

By the law of December 22nd 1912 n.1361, a body of industry and labor inspectors was created. Particulars of its functioning were fixed in the regulation of April 27th, 1913 n.431 -

By Royal Decree and Law of December 30th 1923, the Inspectorship of Industry and Labor was reorganized.

By R. D. L. of December 28th, 1931 n.1684 and law of June 16th 1932 n. 886, the original heading was modified in "Corporate Inspectorship" and also were established the functions pertaining to labor.

Functions.

A) Labor.

Gathering of data on the national production - control on the functioning of Social Welfare hygiene and sanitation in favor of workers and clerks - supervision on the application of laws protecting boys and women, laws concerning holiday rest, night work, preventions and accidents, etc.

B) Industry.

Opinions on the starting of new industries such as factories, mills, installments of apparatuses, steam boilers, etc.

Effective Functioning.

The Corporate Inspectorship, at least in Sicily, has done nothing seriously.

Supervision on the observance of laws pertaining to labor and of collective contracts was accomplished instead, by the Workers' Chambers. In the future, these functions will instead be an accomplishment of "Labor Chambers".

As to the functions of authorizing certain new plants, they fall with the re-established industrial liberty of today.

After all, in the past, authorizations were rather given by recommendations, if not altogether by pecuniary compensations, even if this is hard to be specifically proved.

Un appunto importante è che "l'assettamento" dei rapporti fa parte della "comunicazione" con
la "realtà" e non è un "atto" separato. L' "assettamento" è un "atto" che si svolge nel "contesto" della
comunicazione e non è un "atto" che si svolge al di fuori della comunicazione.
