II. SALUTING (DE FORCE ONLY):

NOTES: dated 3 October 1946, in published for information and guidance of all concerned.

"1. IN THIS THEATER THE SALUTE IS REQUIRED AT ALL TIMES EXCEPT WHEN INDIGNS, OR WHILE AT TRAINING OR WORK.

"2. Section VI, WD Circular 208, 1946, providing that the hard salute will not be required off military installations, except in Occupied Territory, has been amended by WD csole WD 35400, 13 August 1946:

"The hard salute may be required in any foreign country when deemed advisable by the Theater Commanders or Military Attaches."

"3. It is most important that the hard salute be continued throughout the Mediterranean Theater. Any instructions to the contrary given at deception in this Theater, or Ganges in the Zone of the Interior, or by Commanders Circular 208, are hereby rescinded as provided in the WD csole quoted in paragraph 2, this circular.

"4. Saluting is present is purposely below the high standard desired by the Theater Commander. This is unacceptably attributable to the failure of both senior and junior officers to correct indigns who fail to salute or who salute incorrectly. Emphasis on instruction is required of every officer.

"5. a. Each Major General will include instruction in this subject in the training program of the command.

b. This training will insure a thorough knowledge, by all officers and men, of Chapter 3, WD 22-5, February 1946, on how and when to salute.

c. It will be impressed upon each officer that it is his personal responsibility to correct every failure to salute, or to salute properly, that he observes. Senior officers will take immediate measures to correct junior officers who fail in any respect to fulfill these requirements."

ADM 195.48.03

31 January 1946

SUBJECT: Reduction of Telephones in HQ A.C.

TO : HQ Commandant.

1. In connection with the general policy of reduction of Signal commitments the Signal Officer, B.A.A.C. has requested consideration be given to a reduction of direct exchange lines connected to this Headquarters.

2. A comparison of personnel and telephones as at 1st May 1945 and the present day is as follows:-

	1 May 1945	31 Jan. 1946
Officers (A + B)	334	208
Civilians (A+B Ita- lians of officer Status)	99	111
Total personnel	433	319
Direct exchange lines	138	135

Allowance made for 30 officers likely to be declared surplus.

3. In view of the approximate reduction of 26% of the personnel it appears reasonable to effect a 20% reduction of direct exchange lines at once followed by further reductions as the personnel is decreased in the future.

4. It is requested, therefore, that the following Sub-Commissions be informed that it is proposed to reduce the number of direct exchange lines as shown and that they should advise the A.C. HQ Signal Officer of the telephone numbers they wish to be disconnected.

5. It might be pointed out that at this stage no reduction of internal extension lines is contemplated and that every Department is well supplied with extensions most of which are available for calls to the City automatic system and Trunk calls etc. A schedule is attached for your information showing the number of officers and telephones allotted at present to the various Sub-Commissions etc.

SUBJECT: Survey of Telephones in Headquarters, A.C.
TO: Communications Sub-Commission.

1. Inclosed is survey of telephones by sections including number of officers per section and a breakdown of types of installations.

2. This survey is of installations and officers in the Headquarters building only.

3. It should be mentioned that any decrease in the number of external (six digit) lines in this building will merely divert this traffic to the PRX which is loaded to capacity now. This is true assuming that present external lines carry normal traffic.

3. In addition to the installations in Headquarters building, there are approximately 100 external lines in use by Allied Commission agencies in other locations in zone. RAAC has the records of these installations. A survey of them can be made by this section with the cooperation of RAAC.

Subject : Typewriters.

To : HQ. Commandant.

1. This Sub-Commission previously had six typewriters in operation, two of which were the personal property of individuals who have now gone, and which were fully used.

2. An effort was made to continue with four machines, but it is impossible, especially as the work of the Sub-Commission has been increasing, instead of decreasing, as international communications now come into the picture.

3. Under the circumstances, it is requested that a fifth typewriter be supplied of the type with long carriage for tabular statements.

4. In addition, to make matters worse, one of the existing machines with long carriage is repeatedly going out of order, and several visits from mechanics have produced no permanent repair.
