SUBJECT: Control of Civil Censorship.

TO : HQ ACC.

1. INC (Communications Censorship Branch) state that after the transfer back of territory to the Italian Government cases came to their notice where some doubt was expressed by certain ACC officers in conversation with INC officers whether or not censorship had been turned over to the Italian authorities.

2. It is of course quite clear that censorship was not one of the functions to be turned back to the Italian Government but in order that there may be no doubt in the minds of any ACC officer it is suggested that it might be well to emphasise the position, say, in one of your periodic routine orders.
