1. It is satisfactory with this Commission for you to base charges for transatlantic radio telephone charges on the new dollar - lira rate, 378,68 lire per U.S. dollar, effective 1 February 1947.
2. It is pointed out however that rates must be the same for civilian and military personnel of all nationalities. It is recommended, therefore, that the rates decided upon be approved by the Ministry of Posts and Telecommunications prior to becoming effective.

SIGNAL INSTRUCTIONS

SECTION IVWIRE COMMUNICATIONSItem 6: Accounting for Facilities and Services Furnished the Allied Forces in ITALY by Concessionary Italian Civil Telephone Companies.

-1. Purpose: The purpose of this instruction is to outline a procedure to be followed, by all Signal Officers concerned, in accounting for wire communications facilities and services furnished Allied Forces by Italian Civil Concessionary Companies and is applicable to the Areas of SICILY, SAR-DINIA and ITALY. The procedure outlined in this instruction is to provide a means, in this specific case, of adhering to the general policies set in AFHQ Administrative Memo No. 31, 1944.

2. Signal Officers: The term "Signal Officer", used throughout this instruction is construed to refer to the Signal Officer responsible in the area involved or a Signal Officer designated by him for the area under his signal jurisdiction.

3. Requisitioning of Facilities and Services: Facilities and services required by Allied Forces, will be requisitioned either verbally or in writing but, in any case, sufficient records of such requisitioned facilities and services will be kept by the requisitioning Signal Officer to permit him or his successor to certify that the facilities and/or services were furnished the Allied Forces. Reversion of Italian territory or provinces to Italian Government control will not alter the authority of Signal Officers to requisition facilities and services required by the Allied Forces.

4. Acknowledgement of Facilities and Services Furnished the Allied Forces.

a. Accounting for wire facilities and services will commence as of the date a province is (or was) turned over to Allied Commissions/Allied Military Government control, and concessionary companies will submit monthly statements beginning as of that date to the responsible or senior Signal Officer in the area.

b. Statements presented Signal Officers by civil companies will be accepted and, if correct, the following certificate will be placed on the statement, signed by the responsible Signal Officer, and forwarded to the Ministero della Guerra, Direzione Generale del Genio, Divisione Lavori, Roma.

"This is to certify that the facilities and/or services listed on

3. Requisitioning of Facilities and Services: Facilities and services required by Allied Forces, will be requisitioned either verbally or in writing but, in any case, sufficient records of such requisitioned facilities and services will be kept by the requisitioning Signal Officer to permit him or his successor to certify that the facilities and/or services were furnished the Allied Forces. Reversion of Italian territory or provinces to Italian Government control will not alter the authority of Signal Officers to requisition facilities and services required by the Allied Forces.

4. Acknowledgement of Facilities and Services Furnished the Allied Forces.

b. Statements presented Signal Officers by civil companies will be accepted and, if correct, the following certificate will be placed on the statement, signed by the responsible Signal Officer, and forwarded to the Ministero della Guerra, Direzione Generale del Genio, Divisione Lavori, Roma.

"This is to certify that the facilities and/or services listed on this statement have been furnished the Allied Forces and that those listed constitute all the facilities and/or services of the nature specified rendered to the Allied Forces for the period _____."

c. No accounting will be required for facilities and services furnished from state-owned sources and no Signal Officer will be required to certify and statement upon which appears service furnished from state-owned sources. Any service which results from the application of Allied Army apparatus or which results from permanent plant construction by Allied Forces will not be reported on statements until such time as such plant is taken over by concessionary companies.

d. When the lira account, provided for in paragraph 3 of Administrative Memo No. 31, has been established and is in operation, instructions will be issued governing the reimbursement of concessionary Italian civil telephone companies from that account under circumstances in which the Italian Government does not make direct payment. Until such instructions have been issued, in no case will a Signal Officer certify as to any amount charged for facilities or services and no discussion will be entered into with Italian civil telephone companies relative to any proposed rate or charge.

e. Differences existing between statements submitted by the civil companies and the records of the Signal Officer concerned will, if possible, be eliminated by direct contact between representatives of the company and the Signal Officer and only in cases of serious disagreement will the matter be referred to the ACC Telecommunications Officer for the particular area.

3. Requisitioning of Facilities and Services: Facilities and services required by Allied Forces, will be requisitioned either verbally or in writing but, in any case, sufficient records of such requisitioned facilities and services will be kept by the requisitioning Signal Officer to permit him or his successor to certify that the facilities and/or services were furnished the Allied Forces. Reversion of Italian territory or provinces to Italian Government control will not alter the authority of Signal Officers to requisition facilities and services required by the Allied Forces.

4. Acknowledgement of Facilities and Services Furnished the Allied Forces. 7299

a. Accounting for wire facilities and services will commence as of the date a province is (or was) turned over to Allied Commission/Allied Military Government control, and concessionary companies will submit monthly statements beginning as of that date to the responsible or senior Signal Officer in the area.

b. Statements presented Signal Officers by civil companies will be accepted and, if correct, the following certificate will be placed on the statement, signed by the responsible Signal Officer, and forwarded to the Ministero della Guerra, Direzione Generale del Genio, Divisione Lavori, Roma.

"This is to certify that the facilities and/or services listed on this statement have been furnished the Allied Forces and that those listed constitute all the facilities and/or services of the nature specified rendered to the Allied Forces for the period _____."

c. No accounting will be required for facilities and services furnished from state-owned sources and no Signal Officer will be required to certify and statement upon which appears service furnished from state-owned sources. Any service which results from the application of Allied Army apparatus or which results from permanent plant construction by Allied Forces will not be reported on statements until such time as such plant is taken over by concessionary companies.

ALLIED FORCE HEADQUARTERS

SIGNAL INSTRUCTIONS

1ST REVISION
24 September 1945

d. When the lira account, provided for in paragraph 3 of Administrative Memo No. 31, has been established and is in operation, instructions will be issued governing the reimbursement of concessionary Italian civil telephone companies from that account under circumstances in which the Italian Government does not make direct payment. Until such instructions have been issued, in no case will a Signal Officer certify as to any amount charged for facilities or services and no discussion will be entered into with Italian civil telephone companies relative to any proposed rate or charge.

e. Differences existing between statements submitted by the civil companies and the records of the Signal Officer concerned will, if possible, be eliminated by direct contact between representatives of the company and the Signal Officer and only in cases of serious disagreement will the matter be referred to the ACC Telecommunications Officer for the particular area.

By command of Field Marshal ALEXANDER:

OFFICIAL:

/s/ GEORGE L. EBERLE,
Brigadier General, USA,
Asst, Chief of Staff, G-3

/s/ W.D. MORGAN,
Lieutenant General,
Chief of Staff.

DISTRIBUTION:

RESTRICTED

RESTRICTED.

1. Italian Government has raised question of payment of transit fees due to Governments of countries over whose lines pass long distance Allied military telephone calls originated in Italy.
2. Under international agreement such fees are payable periodically in gold after balancing debits against credits. For month of October 1946, cost to Italian Government of transit fees for Allied Military calls was 12,775 dollars.
3. Payment of these transit fees is at present treated as an occupational cost. Italian Government has asked through Alcom that it may be relieved of this charge and stresses adverse effect of gold disbursements on Italian economy.
4. Consider that by offering Italian revised armistice terms and accompanying civil and military affairs agreements, which they rejected, Allies have already given them opportunity to escape from rigid application of present armistice terms. In view however of policy of AMG to further economic rehabilitation of Italy matter is referred to you for decision. Your instructions as to reply to be made to Italian Government are therefore requested.
5. Similar signal has been despatched by C G MFOUSA to AGWAR.

78

HEADQUARTERS ALLIED COMMISSION
APO 794
Communications Division

LRM/ec

T.35.344.CD

25 November 1946

SUBJECT: Telephone Long Distance Rates

TO : Allied Force Headquarters
Att: G-5

See 88

1. With the return of telephone long distance telephone circuits to the Italian civilian telephone agencies for operation, priorities for Allied Military calls were established as shown on the attached sheet and below:

Allied Military Priority	Italian Priority Number
Urgent or Clear the line	1
Priority or operational priority	5
Routine	10

See 91

2. This order of priority results in an Allied Military Routine call receiving prior handling to Italian civilian Very Urgent Calls. The establishment of this system of priorities was necessary in order that Allied Military Routine Calls would be completed. As shown on a waiting time report of the Venezia Giulia area, copy enclosed, the normal civilian ordinary classification (comparable to military classification of routine) does not receive consideration sufficient to justify booking the call, at many exchanges.

3. At the present time, while the Italian Government is paying the Allied occupational costs, the Allies are not directly concerned with telephone communication costs. However, at the time that occupational costs become payable by the Allies,

COPY FOR FILE

1.78

- 2 -

we will be concerned. In the interest of establishing rates that will be acceptable now for payment by the Italian Govt. and later by the Allied Governments, the Ministry of Posts and Telecommunications has proposed that payment for Allied Military calls be based on the order of priority in relation to all priorities shown.

4. It is proposed by the Minister that Routine Allied Military Calls (number 10) be charged at Urgent rates as it is above the Very Urgent private classification. This cost is three times the cost of an ordinary private call (number 19). It is further proposed that Operational Priority or Priority Allied Military calls (number 5) be charged at Very Urgent rates. This cost is three times the ordinary rates plus 150 lira. Italian priorities number 6,7,8,9 and 15 are at this rate. Urgent or Clear the Line, Allied Military Calls (number 1) would cost the same as number 5.

5. The revenues of the Italian civilian telephone service organizations do not support the cost of operation. Mounting labor costs and uncontrollable equipment costs steadily exceed income. Also since the Allied priorities exceed corresponding Italian priorities it would be in line with present practices of supporting Italian economy to approve the charges proposed by the Ministry of Posts and Telecommunications.

L.R. HUMBERT,
Lt. Col. Sig. C.
Director.

MINISTRY OF P. & T.
Azienda di Stato per i
Servizi Telefonici.

14 October 1946

SUBJECT: Telephone Tariffs.

We understand, on the basis of the communicated text, that the request made in the letter to which we are replying, refers to the interurban and international telephone service.

We notify that the relative tariffs charged to offices depending on the Ministry of War (and all the other Governmental Corporations) as well as to the Commercial Companies, on our Azienda's lines as well as on lines operated by the Concessionaries or the Italcable, are equal, with the sole difference, on the field of interurban and international service that communications requested by Governmental Corporations have priority over the calls of Commercial companies (and all other private calls).

Attached copy of interurban and international tariffs for calls out going from Rome.

As far as the telegraph service is concerned, reply will be sent separately.

Ritenendo, in base al testo comunicato, che la richiesta di cui al foglio al quale si risponde, si riferisce esclusivamente al servizio telefonico interurbano ed internazionale, si comunica che le tariffe relative praticate tanto nei confronti degli uffici dipendenti dal Ministero della Guerra (e di tutti gli altri Enti governativi) quanto nei confronti della Società commerciali, sulle linee di quest'Azienda come su quelle gestite dalle Società concessionarie o da l'Italcable, sono usuali, con questa sola differenza, nel campo del servizio interurbano e internazionale, che le comunicazioni richieste dagli Enti governativi hanno la precedenza su quelle delle Società commerciali (e di tutti gli altri privati).

Si unisce copia delle tariffe interurbane ed inter-nazionali per le comunicazioni in partenza da Roma.

Per quanto riguarda il servizio telegrafico, si
