(50)

To:- Executive Commissioner.

Ref. minute no. 49.

1. I agree with Col. Henderson's paras 1 + 2.

2. As regards para 4, I think that the Cypher Security Mission sh? continue to see outgoing telegrams - in order that they may satisfy themselves that the Italians are observing the drill laid down for the protection of their own cyphers. I quite agree that the Political Advisers are in no position to exercise the "military security" censorship which is apparently envisaged, but, if Civil Censorship is to undertake this work, it must be done in this building. I think the Tr. Govt. would object to a copy of the clear text, accompanying the cyphered text to the transmitting agency (where, I assume, Civil censorship is).

3. When Col. Henderson has been authorised to act in the manner suggested, the Hy F.A. sh? be informed that tels. received from abroad in separate cyphers will hereafter be delivered direct to them + no longer through the A.C.

2/iii/41.

2. Authority is requested toimplement the policy of the Deputy President in respect of the final part of para.2 of 48 A.

3. It is suggested that incoming telegrams should be delivered direct by the carrier agencies to the Italian Government without passing through this Commission.

4. As regards the check on outgoing telegrams, it is clear from the correspondence that the Commission policy does not require this check to be maintained for political reasons, but that the Allied military authorities require it for reason of military security. The question therefore arises as to whether the Political Section and the Cipher Security Mission are now the proper offices to carry out this check. Civil Censorship is a proper office to judge on infringements of military security. Your instructions are requested on this point.

6 May, 1945.

1. A study has been made of the monitoring sheets and tickets in respect of the Rome-Naples circuits for the period 15-17 April 1946, and the comments are attached.

2. The results of the monitoring show that while the Rome-Naples operating is better than formerly, much time is still being wasted and revenue lost. A study by the Traffic Department of the attached comments and action as suggested by the questions should lead to improved results on the Rome-Naples and other routes.

3. The present method of taking and recording the monitoring details does not appear to be very efficient, and the following suggestions are offered to affect an improvement.

(a) Method of timing the transactions while monitoring a call. The present method of shewing a "clock" time for each transaction seems to be an unnecessary complication. A simpler and more efficient method would be to "clock" time the commencement of the call and then quote "elapsed" seconds from the commencement of the call for every transaction. For example:

(1) call commences at 0800 hours 561

(2) distant exchange answers after 5 seconds.

(3) distant telephonist finishes repeating details of demand 15 seconds.

(4) distant ringing tone commenced 35 seconds.

(5) distant subscriber answered 95 seconds, etc.

13 MAG 1946

6 May, 1945.

1. A study has been made of the monitoring sheets and tickets in respect of the Rome-Naples circuits for the period 15-17 April 1946, and the comments are attached.

2. The results of the monitoring show that while the Rome-Naples operating is better than formerly, much time is still being wasted and revenue lost. A study by the Traffic Department of the attached comments and action as suggested by the questions should lead to improved results on the Rome-Naples and other routes.

3. The present method of taking and recording the monitoring details does not appear to be very efficient, and the following suggestions are offered to affect an improvement.

(a) Method of timing the transactions while monitoring a call. The present method of showing a "clock" time for <u>each</u> transaction seems to be an unnecessary complication. A simpler and more efficient method would be to "clock" time the commencement of the call and then quote "elapsed" seconds from the commencement of the call for every transaction. For example:

(1) call commences at 0800 hours 561

(2) distant exchange answers after 5 seconds.

(3) distant telephonist finishes repeating details of demand 15 seconds.

(4) distant ringing tone commenced 35 seconds.

(5) distant subscriber answered 95 seconds, etc.

To obtain the time of any one transaction, say item (3), it is only necessary to subtract the preceeding item (2 from 3).

4. The design of the monitoring form does not allow for the recording of sufficient information, particularly on "transit" calls, and the following list of items is suggested:-

Declassified E.O. 12356 Section 3.3/NND No. 785015

Col. - Item number

Col. - Calling number

Col. - Called " "

Col. 1 - Time telephonist picks up long distance circuit

Col. 2 - Speed of answer

Col. 3 - Completion of repetition

Col. 4 - Transit call - Second exchange answers

Col. 5 - " " " " completes repetition

Col. 6 - Called sub. answers, or advice given NR., NT., O.C.O. etc.

Col. 7 - Connection made OK or cause of non-connection

Col. 8 - Conversation completed

Col. 9 - Long distance circuit released

Col.10 - Chargeable time (in mints.)

Col.11 - Total circuit occupation time

Col.12 - Condition of circuit - noisy, faint, etc.

Col.13 - General observations, etc.

5. In addition to the foregoing it is suggested that the monitor, at the end of the day, should prepare a short report for the Zone Director, commenting on the operating during the day, etc.

Comments on Monitoring results

ROME - NAPLES route

15 - 17 April 1946.

---

1. Circuits 2, 35 & 43. Naples Exchange not ready to commence at 0800 hours.

Questions:-

(a) Has Naples not sufficient personnel to staff all positions at 0800 hours?

(b) Are personnel arriving on time?

(c) Are change of duties performed quickly?

2. Speed of answer. (Col.3) At both Rome and Naples average speed of answer = 20-30 seconds - with 6 circuits working 2 per position an average of 5 seconds is possible and must be obtained to avoid loss of time and revenue on these important circuits.

Questions:-

(a) Are all supervisory and pilot lamps at both exchanges in good order? Are they routine tested periodically?

(b) Are the telephonists efficient and attentive?

(c) Are the supervisors always near to assist the telephonists and to ensure good discipline?

3. Speed of answer of subscriber. (Col.7) At both Rome and Naples the time spent on calling the required subscriber vary considerably - in a number of cases the figures are as high as 4-6 minutes. This means much less of revenue as the long distance line is idle during these periods. It is appreciated that these delays are not the fault of the telephonists, but an effort must be made to overcome this problem

Questions:-

(a) Does the receiving telephonist make frequent attempts to complete the call during the waiting period and advise the controlling telephonist of the cause of the delay?

It is thought that the delays are caused by one or more of the following

Declassified E.O. 12356 Section 3.3/NND No. 785015

(a) Has Naples not sufficient personnel to staff all positions at 0800 hours?

(b) Are personnel arriving on time?

(c) Are change of duties performed quickly?

2. Speed of answer. (Col.3) At both Rome and Naples average speed of answer = 20-30 seconds - with 6 circuits working 2 per position an average of 5 seconds is possible and must be obtained to avoid loss of time and revenue on these important circuits.

Questions:-

(a) Are all supervisory and pilot lamps at both exchanges in good order? Are they routine tested periodically?

(b) Are the telephonists efficient and attentive?

(c) Are the supervisors always near to assist the telephonists and to ensure good discipline?

3. Speed of answer of subscriber. (Col.7) At both Rome and Naples the time spent on calling the required subscriber vary considerably - in a number of cases the figures are as high as 4-6 minutes. This means much loss of revenue as the long distance line is idle during these periods. It is appreciated that these delays are not the fault of the telephonists, but an effort must be made to overcome this problem

Questions:-

5 9

(a) Does the receiving telephonist make frequent attempts to complete the call during the waiting period and advise the controlling telephonist of the cause of the delay?

It is thought that the delays are caused by one or more of the following

(1) Delay on the part of the called subscriber to answer.

(2) Congestion in the automatic equipment at Naples or Rome which prevents the telephonist gaining access to the subscriber's telephone.

In the case of (1) it is suggested that no subscriber should be rang for more than 90 seconds, and if there is no reply the caller should be advised accordingly and a further call made in (say) half an hour.

- In -

Declassified E.O. 12356 Section 3.3/NND No. 785015

In the case of constant inattention on the part of a particular subscriber the matter should be brought to his notice by a letter.

In the case of (2) the problem is more difficult and, before suggesting a solution, it would be desirable to know what proportion of calls fail or are delayed due to congestion of the automatic plant. Perhaps the Traffic Section will obtain this information in respect of Rome and Naples.

4. Timing on of conversation (Col.11.) The times shewn on the monitoring sheet vary considerably from the times shewn on the relative ticket In some cases the time varied as much as 6 minutes.

Questions:-

(a) Is any attempt made to synchronize the calculagraphs, the exchange clock and the watches in the monitoring room?

5. Release of circuit (Col.16.) Generally the times in this column coincide with the times shewn in column 12 (Finish of conversation) - where there is a difference, however, the difference varies from 1-4 minutes.

Questions:-

(a) As there is no special column for "Speed of disconnection of circuit", does the monitor pay much attention to this item?

6. Termination of one call and commencement of another (Cols. 1 and 16).

In a number of cases the time of release of circuit (Col.16) and the time of calling the distent exchange for the next call (Col.1) shew a difference of a minute. This suggests lack of attention on the part of the telephonists and should be examined in relation to paragraph 2 of this report.

Questions:-

(a) Are the supervisors doing everything possible to ensure that the controlling telephonists are always ready to commence another call, for example checking that the tickets are in order, that the telephonist always has uncompleted tickets ready to commence setting up a call, etc.

Comunicato

MEMORANDUM FOR THE ALLIED COMMISSION

Subject: Official cable communications with the Italian Embassy in Brussels.

1. The Italian Embassy in Brussels has informed, with telegram N.4 of the 9th. inst., that the Allied Military censor prohibits forwarding cyphered messages to Rome.

The Ministry for Foreign Affairs beg to recall that prior to the departure of the Italian Chargé d'Affaires for Brussels the Cypher Office of this Ministry approached the Cypher Security Mission of the Allied Commission (Dr. Getty) in order that the Allied Military Authorities in Belgium be notified by the Allied Commission that the Italian Embassy in that country was authorized to send telegrams to the Ministry for Foreign Affairs both in clear and in controlled cypher.

It would be much appreciated therefore if the Allied Commission would kindly take the necessary steps to the end of authorizing the above said Italian Mission to send to Rome messages in deposited cypher.

2. The R.C.A. has withheld the dispatch to Brussels of the circular telegram herewith enclosed in copy, stating, with the enclosed service message, that traffic with Belgium is not yet granted.

The Ministry for Foreign Affairs beg the Allied Commission to point out to the proper Authorities that said measure is probably due to a mistake (as messages in clear from Brussels to Rome reach regularly their destination) and kindly provide that this Ministry be authorized to cable to Brussels.

The Divisional Manager,
Cable and Wireless Ltd.
Rome.

Dear Sir,

Reference your letter of 20th April, the matter is best explained by the correspondence which has passed on the subject, copies of the essential parts of which are enclosed; there is other correspondence which you are at liberty to see in my office if desired.

You will see that the case has been dealt with entirely as a special exception, not to be taken as a precedent, and that this is fully understood by all parties. The communications are entirely in direct aid to the combined work of the Italian Government and the Allied authorities and are strictly limited to that particular class of traffic, and cannot be considered as normal commercial communications.

The question of permitting similar facilities to a Bank or Banks with sterling balances in the United Kingdom was discussed, but it was found that there was no corresponding need at the moment for the service, which will certainly be granted if required.

The only other similar case has been the permission to send cablegrams granted to the International Institute of Agriculture, which has been made known equally to your office and R.C.A.

You may be assured that British interests will not be excluded from consideration, and that both the spirit and letter of any agreement will be scrupulously observed by this office.

Yours truly,

J.L.HENDERSON
Colonel,
Director.

SUBJECT: Cable Traffic

TO: A.F.H.Q. (Attention G-5)

1. Attached are copies of correspondence on the censorship aspect of C.S.B. letter on the subject of Italian banks using R.C.A. facilities.

2. The Italian Government has also raised the point as to whether the messages are to be considered official Government traffic. If so, charges should be debited against the Government, not paid for by the Banks at civil rates. Civil traffic is of course not permitted from Italy at present.

3. Presumably the intentionn is that these banks should be considered as Government offices. The charges should therefore be charged against the Italian Government and the messages should be governed by the same rules as cover the Italian Government traffic.

4. Would you be good enough to confirm this interpretation.

J.L.HENDERSON
Colonel,
Director.

Communications Sub-Commission JLH/epe

IT.262.39.03 22nd April, 1945

The Divisional Manager,
Cable and Wireless Ltd.
Rome.

Dear Sir,

Reference your letter of 20th April, the matter is best explained by the correspondence which has passed on the subject, copies of the essential parts of which are enclosed; there is other correspondence which you are at liberty to see in my office if desired.

You will see that the case has been dealt with entirely as a special exception, not to be taken as a precedent, and that this is fully understood by all parties. The communications are entirely in direct aid to the combined work of the Italian Government and the Allied authorities and are strictly limited to that particular class of traffic, and cannot be considered as normal commercial communications.

The question of permitting similar facilities to a Bank or Banks with sterling balances in the United Kingdom was discussed, but it was found that there was no corresponding need at the moment for the service, which will certainly be granted if required.

The only other similar case has been the permission to send cablegrams granted to the International Institute of Agriculture, which has been made known equally to your office and A.C.A.

You may be assured that British interests will not be excluded from consideration, and that both the spirit and letter of any agreement will be scrupulously observed by this office.

5/6

Youre truly,

J.L.HENDERSON
Colonel,
Director.

The Director,
Communications Sub-Commission
Allied Commission to Italy,
Rome.

Dear Sir,

It has come to our knowledge that A.F.H.Q. has authorised the Radio Communications of America to accept and deliver telegraphic traffic from and to certain civilian entities in Rome.

The last information which we received on the subject of the resumption of Civil External traffic Facilities was a communication reference 6/17/50/CS dated 22nd November 1944 from the Communications Sub-Commission of the Allied Commission stating that the Italian Government was not prepared to accept the Radio Communications of America or Cable and Wireless proposals for the resumption of civil traffic.

There now appears to be a unilateral arrangement permitting the Radio Communications of American to operate Civil Telegraph Facilities to the exclusion of British interests, and contrary to the spirit in which previous negotiations on the subject were carried out.

We should be please to have an explanation.

yours truly,

Mr. Edman
Divisional Manager
Mediterranean

Ministry of Communications

Rome 17th April, 1945

Ref: S/13/32090.

TO: Allied Commission
Posts and Telecomms
Sub-Commission
AFO 394

SUBJECT: Telegrams of Italian Banks

Reference is made to our letter S/13/31898, and in reply to your letters IT.242.CS dated 14th April and IT.242.CS dated 16th April, no.86.

Considering the exceptional conditions this Ministry agrees that the telegraph communications of the Bank of Italy Bank of Naples, and Bank of Sicily be passed via A.C.A. on the following conditions:

"that this special and limited traffic be allowed only temporary and exceptionally for the time the actual extraordinary conditions prevail, and not after the cessation of hostilities; with the reserve that the above shall not be considered as a precedent, and the question of general character will not in any way be compromised".

We thank you very much for the instructions issued by you on the matter and we would be grateful if you would kindly acquaint all the concerned authorities as to the above.

10 April, 1945

SUBJECT: Cable Traffic

TO: Headquarters, Allied Commission, APO 394
(Attention: Communications Sub-Commission)

1. Your letter of 7 April, 1945 IT.242.CS and inclosures raised certain questions respecting the transmission of cables by Italian banks to the U.S.A.

2. This Headquarters has authorised the transmission of messages dealing with the debiting of post-liberation dollar accounts in the United States by the Bank of Italy, Bank of Naples and Bank of Sicily after approval of the debit has been given by the Minister of the Treasury and the Allied Commission in accordance with TAM 312 of 2 November, 1944, and subject to civil censorship. This authority has been given to implement the provision in TAM 485 of 6th March, 1945 that where spped of debiting of AF accounts is essential, original cable communication should be sent directly by Italian bank to the correspondent U.S. bank followed by mail confirmation via the Allied Commission through APO channels to such correspondent bank.

3. It is believed that the purpose of TAM 485 is to advance the interests of the Italian Government. The traffic which has been authorised may originate only with the express approval, of the Italian Government. Notwithstanding the requirement of such approval, and the narrow scope of permitted traffic, it does not appear that the authorised messages should be regarded as government traffic. It is the view of this Headquarters that no communications originated outside of Italian Government bureaus or departments can properly be regarded as government traffic. It is not the intention to consider the designated banks to be government offices.

4. It is hoped that the Italian Government can be persuaded to permit these messages to be handed over to R.C.A. for transmission without respect to the existing rate controversy on civilian traffic.

Cipher Security Mission

Please comment on attached. If you are in agreement that many of the messages need not be marked FIL or FILAP, please arrange to avoid doing this as it confines the traffic to one of the carriers, viz Cable and Wireless.

No doubt if it is all routed to them, R.C.A. will then start complaining.

HEADQUARTERS ALLIED COMMISSION
SIGNAL OFFICE

19 April 1945

SUBJECT: Italian Foreign Ministry Traffic

TO : Communications Sub-Commission

1. Reference attached correspondence, a study of this traffic has been made, and it has been found that the error has been made in the Signal Center, Allied Commission. It has been found that at least 98% of Italian Foreign Ministry traffic is marked "FILAP" by the Cipher Security Mission. Due to instructions by the undersigned (not realizing the extent of FILAP application), the Signal Center has been making as nearly as possible an equitable disposition of this traffic to Cables & Wireless Ltd., and RCA for transmission.

2. However, I do not agree with Mr. Saith that this class of traffic has ceased via his routes during the past month. According to our records, Cables & Wireless Ltd. has received at least an equal share of the traffic during that period.

3. While I have given instructions that all Foreign Ministry traffic marked FILAP will be passed via Cables only, I cannot understand the nature of such traffic all requiring security transmission. I can understand that a certain percent of diplomatic traffic would require security transmission, but it seems to me that the proportion of Italian Foreign Ministry traffic requiring such transmission is completely out of proportion.

4. It is assumed of course that all Italian Ciphers were at some time compromised, however, with the employment of new keys it would appear to me that a certain amount of security would be regained.

ALLIED FORCE HEADQUARTERS
Office of the Assistant Chief of Staff, G-2
APO 512, U. S. Army

CCB/1100/ 352

9 April 1945.

SUBJECT: Commercial cable facilities for Italian banks.

TO: Headquarters, Allied Commission, APO 394, U. S. Army (Att: Director, Communications Sub-Commission).

1. It is desired to clarify the position of this headquarters towards the use of commercial cable facilities by certain Italian banks with interests in the United States and in the United Kingdom.

2. The only facilities of that nature having the approval of this headquarters are those connected with the cabling of payment instructions out of post-liberation dollar accounts of the Banco di Napoli, the Banco di Sicilia, and the Banco d'Italia in the United States. In the instance of the United Kingdom, the Banco d'Italia has certain balances with the Bank of England that may, at a later date, be debited in a similar fashion.

a. Such traffic requires the approval of the Italian Minister of the Treasury and of the Allied Commission prior to transmission.

b. The only censorship responsibility involved is that of ensuring that such messages have the necessary approval and that no other category of messages are accepted from these or any other banks.

3. It has come to the attention of this headquarters that the Banco di Roma has attempted to obtain commercial cable facilities. The Banco di Roma has no post-liberation dollar or sterling accounts and accordingly has no reason for using such cable facilities.

From the point of view of security also, it is undesirable that this bank be accorded commercial cable facilities of any nature whatsoever.

1. Attached are copies of correspondence on the censorship aspect of C.S.B. letter on the subject of Italian banks using A.C.A. facilities.

2. The Italian Government has also raised the point as to whether the messages are to be considered official Government traffic. If so, charges should be debited against the Government, not paid for by the Banks at civil rates. Civil traffic is of course not permitted from Italy at present.

3. Presumably the intention is that these banks should be considered as Government offices. The charges should therefore be charged against the Italian Government and the messages should be governed by the same rules as cover Italian Government traffic.

4. Would you be good enough to confirm this interpretation.

Italcable have sent us the attached letter. Regarding this we point out that the remarks mentioned by the said Company must be considered as well founded. Infact, even the Supreme Allied Command acknowledges that the communications of the Bank of Italy, of Naples and of Sicily have to be considered as official State communications (and, in this case they should be subject to the same rules of the State offices, that is without payment for transmission, the Italian Government being debited with the above) , ~~or the service has not been yet acknowledged and~~ the transmissions of telegrams should be considered as civil transmissions. In this last case, this Ministry cannot avoid to notice that this transmission would be made against the rights of the Italian Government. ~~and, consequently,~~ of the Societa' Concessionarie.

We would be ~~very thankful to you if you could take the problem into consideration~~ and ascertain if the basic information is exact, in order to put us in the position of judging the matter.

Gentlemen:

Reference is made to your letter of 15 March 1945 on the subject of Banco di Napoli messages.

The concurrence of G-2(C.C.), G-2(C.I.) and G-5, AFHQ, having been obtained, you are hereby authorized to accept and deliver traffic from and to the Banco di Napoli subject to such traffic being passed by the civil censor. Similar authorization is also given in respect of the Banco d'Italia and the Banco di Sicilia and their traffic may be handled without further reference to this office.

For the Chief Signal Officer:

Ref. No. Reparto Commerciale Cat.2.45 2401.

Rome, 31st March 1945.

Ministero delle Poste e delle Telecomunicazioni
Direzione delle Poste e Telegrafi,
R o m e.

The R/C.A. have made known that they have been requested by the Bank of Italy, and by the "Banco di Napoli" to transmit telegrams to the United States concerning bank operations of national interest. The R.C.A. have forwarded the request to the Supreme Command (AFHQ) from whom authorization was received to accept and transmit the telegrams sent by such banks and by the Bank of Sicily. The tariffs whould be those of R.C.A. (0,15 Dollars for ordinary word).

We beg to bring to your notice that the acceptance and the forwqrding of the said traffic through R.C.A., injureour interests and the interests of the Italian Administration. We, therefore, express our doubts about our eventual participation in the taxes, and about the damage we can suffer, because of the application of the reduced tariff, against the international rules.

We would be grateful to you if the attention of the Allied Commission could be drawn to our viewpoint, and if you can insist for the opening of a link with New York directly operated by our Company.

Yours faithfully,

ITC
Il Commissario
(S.gd) Martinato.

Office of the Secretary
Combined Signal Board

Ref: 676.3/13

8 April 1945

Manager,
RCA Communications, Inc.,
c/o HQ., Public Relations,
CMF.

Gentlemen:

Reference is made to our letter of 28 March 1945, authorizing you to accept telegrams from the Banco di Napoli, the Banco di Sicilia and the Banco d'Italia.

These telegrams are sent in connection with blocked accounts in the United States held by the above mentioned banks. Basic authority for each particular transaction must come from the Italian Treasury and the Allied Commission. Your authorization is limited to the acceptance and transmission of such telegrams, subject to censorship. Our letter does not authorize any banking arrangements, nor in any manner obviate the necessity for the bank to obtain the Treasury and Commission concurrences.

The Traffic is authorized to and from the United States only, except for the Banco d'Italia which also has sterling balances in the United Kingdom. Any desire on the part of these institutions to file messages to other places must be the subject of separate inquiry.

Until further notice the temporary authority to accept messages from the Banco di Roma is withdrawn. Please refer that case, and all future requests from Italian financial institutions to their proper governmental agency. If an Italian individual or institution wishes to file international telegrams, approval of the request should come from the Italian government. All that we have done is to tell you that the facilities of the American carrier may be used provided the sender has secured approval from his own government.

LUDWIG R. ENGNER
Major, Signal Corps,
Secretary,
Combined Signal Board.

TO : A.F.H.Q. (attention G-5).

1. Attached are copies of correspondence on the censorship aspect of C.S.B. letter on the subject of Italian Banks using A.C.A. facilities.

2. The Italian Government has also raised the point as to whether the messages are to be considered official Government traffic. If so, charges should be debited against the Government, not paid for by the Banks at civil rates. Civil traffic is of course not permitted from Italy at present.

3. Presumably the intention is that these banks should be considered as Government offices. The charges should therefore be charged against the Italian Government and the messages should be governed by the same rules as cover Italian Government traffic.

4. Would you be good enough to confirm this interpretation.

MINISTRY OF THE INTERIOR Rome, 28th March, 1945.

A.G.R. IV.
No. 500/71625.
subject: Use of cyphers.
A.C. P.S. S/C.

The Prefecture of Foggia has reported as follows:-

"In the last days of January last the Questore informed me that the Allied officer in charge of telegraph censorship at Foggia had stopped a cypher telegram addressed to the Questure at Catanzaro and that he would not forward it if he was not in possession of the cypher. The request was made by a civil employee at the Censor Office.

I hastened to interest the A.C. District Commissioner explaining that it was not possible to give a copy of the cypher for obvious reasons of secrecy, given also the fact that censorship is undertaken by civilians under the direction of the Allied censor.

The aforementioned censor officer, on the instructions of the A.C., insisted on the previous request or at least that the cypher should be explained verbally to the censor.

I therefore ask the Ministry to approach the appropriate Allied Sub-Commission so that the question may be resolved without prejudice to the secrecy of correspondence in cypher".

Will the sub-Commission please communicate its opinion on this question.

FOR THE MINISTER.

Reference your JII.5-6 dated 28th March, 1945:

1. The policy that Italian Government communications within territory administered by them are free from all censorship was decided on December, 1943. Copy attached of A.F.H.Q. telegram FHINC 19105 dated 25th December, 1943.

2. There was no doubt that this applied also to telegraph traffic and it was generally so applied, but on request from us to clear this point finally A.F.H.Q. sent another telegram F 23518 dated 26th March, 1944, copy attached.

3. Freedom from all censorship naturally implies permission to use any code or cipher in correspondence and this has always been appreciated by all branches at any time the matter of Italian Government communications has been under discussion.

4. The special restriction placed on Sardinia communications was made by Mrs. A.A.I. in letter 2783/2/X dated 16th March, 1944. Copies of this letter and of that part of this office letter to which it is a reply are attached. It will be noted that the point made in para.3 is clearly brought out in this correspondence.

5. The Military considerations requiring this special regulation for Sardinia at that time are of course now long obsolete. In fact no check was ever made on the Sardinia communications, though keys of the cipher were regularly supplied.

For the Chief Commissioner:

J.L.HENDERSON
Colonel,
Director.

TS/26/1/85

10th March, 1944

Reference your 2783/1X dated 8th March, 1944, it is confirmed that ciphers are in fact being used on the Naples-Sardinia cable.

It has been an AFHQ policy decision that there is no censorship on Italian Government official traffic within Government controlled territory, unless specially required by C.C. Sardinia is, of course, now included in that area. As there is no censorship, cipher of any kind is permissible unless a special regulation is made for a particular circuit.

Under present arrangements there can in fact be no effective censorship on the bulk of the telegraph circuits controlled by the Italian Government, and these circuits cover all Government territory except Sardinia, for which communications happen to have to pass over the military controlled cable. Sicily on the other hand can reached via Reggio without using the Naples-Palermo cable, although the latter is actually being used for convenience and speed.

If you consider that communications by the Italian Government with Sardinia come in a special category from the point of view of military security, no doubt you will raise this matter. As things stand no supervision is exercised over their communications with Sardinia or elsewhere in Government controlled territory.

Brigadier H.F.H. Nulder,
HQ. ACMF

Director,
Telecommunications and Posts Sub-Commission,
A.C.C.

Ref your T.S./26/1/85 of 10 March 44.

1. I am informed by GI (b) that they do not specially require to impose a censorship on Italian Government official traffic within Government Controlled territory.

2. The do consider, however, that is might be advisable to carry out an occasional snap check on traffic passed on the NAPLES-SARDINIA cable.

3. I should be grateful therefore, if you could forward copies of the book and keys, which I could then transmit to S.O. SARDINIA.

MEMORANDUM FOR THE ALLIED COMMISSION
Office of the Executive Commissioner

SUBJECT : Italian Government's cablegrams.

1. Reference is made to the Allied Commission's Note n. IT. 242. 55.~~25~~ of March 8th, 1945, in which it was stated that "official telegrams for Bulgaria or Rumania sent over commercial cables are only permitted in clear text in the English, French, Spanish or Portuguese languages".

2. The Ministry for Foreign Affairs venture to point out, however, that several cablegrams in cypher (code A R 38) have been recently received from the Italian Legation at Sofia, e.g. the telegrams under numbers 77, 78, 79, 80, 81, 83 sent from Sofia between March 15th and March 22nd.

3. As it appears that the Allied Authorities in Bulgaria have no objections to that the Italian Legation in Sofia should cable in code to the Italian Government, the Ministry for Foreign Affairs would be grateful if the Allied Commission could kindly consider the possibility of granting similar facilities for the messages from the Italian Government to the said Legation.

4. With the opportunity it would be much appreciated if the Allied Commission would kindly acquaint the Ministry for Foreign Affairs with the decision that may have been reached as regards the inclusion of the Italian language among those admitted for official communications in clear text between the Italian Government and all their missions abroad.

Ref. No.676035/9150/46 20th March 1945.

SUBJECT:- State telegrams for abroad of the Istituto Internazionale di Agricoltura.

The Istituto Internazionale di Agricoltura, to which diplomatic immunity is generally recognized, has recently drawn our attention to the necessity of restarting, with maximum haste, the exchange of telegraphic communications with the Governments, members of the Institute.

This is particularly in reference to its duties of collection and diffusion of data concerning production, commerce and prices, as also the diseases of plants.

The Countries actually members of the Institute are the following:-
Australia - Belgium and Belgian Congo - Brazil - Bulgaria - Canada - Chile - Cuba - Denmark - Egypt - France - Greece - British India - England - North Ireland - Jugoslavia - New Zealand - Holland and Dutch East Indies - Poland - Peru - Portugal - Spain - United States of America - Switzerland - Turkey - Hungary - Union of South Afrion - Uruguay - Venezuela -

We should be grateful if you would kindly examine this request and let us know the result. Should it be favourable, kindly inform us as to what office the State telegrams in question should behanded into, and if to these telegrams should be applied the normal ordinary rates.

L'Istituto Internazionale di Agricoltura, al quale vengono generalmente riconosciute le immunità diplomatiche, ha prospettato in questi giorni la necessità in cui esso si trova di riprendere con la maggiore sollecitudine scambievoli comunicazioni telegrafiche con i Governi degli Stati membri dell'Istituto.

Ciò è particolarmente in relazione con i compiti, essenziali per l'Istituto, di raccolta e diffusione di dati attinenti alla produzione, al commercio e ai prezzi, come pure alla malattia delle piante.

I Paesi membri dell'Istituto sono attualmente i seguenti: Australia, Belgio e Congo belga, Brasile, Bulgaria, Canadà, Cile, Cuba, Danimarca, Egitto, Francia, Grecia, Indie britanniche, Inghilterra e Irlanda del Nord, Jugoslavia, Norvegia, Nuova Zelanda, Olanda e Indie olandesi, Polonia, Perù, Portogallo, Spagna, Stati Uniti d'America, Svizzera, Turchia, Ungheria, Unione dell'Africa del Sud, Uruguay e Venezuela.

SUBJECT. : Italian Government Communications. see 61

We have received your letter no.T.242.C9 dated 17th March,and we take notice of what is in the above letter.

We think that the contents of your letter is depending on the fact that our previous letter on the matter was probably not clear. Infact, our Ministry did not point out to you the necessity to apply to Ancona the same instructions issued by the Italian Government for the territory administered by us. But we were referring with that letter to a remark, verbally pointed out, and to our S/16/31483 dated 14th March, concerning the different ways, in which the economical instructions issued by the Italian Goverrment were put in force.

It was thereby referred that whilst the Florence Posts and Telegraph personnel have been authorized to get all the increases and indemnities stated by the Italian Government, at Siena and Ancona, e.g., such increases and idemnities had not been authorized. Because of this discontent has arisen which we thought it was our duty to point out;not because we would interfere with matters,with which we are not particularly dealing with,but for a spirit of collaboration,that we want to keep with you.

We perfectly agree in any case that the A.M.G. can issue instructions,as they believe best;examining,if they think it opportune,the possibility of uniforming,also in the A.M.G. territory,the economical financial rules concerning the service personnal.

HEADQUARTERS ALLIED COMMISSION
APO 394
Communications Sub-Commission JLH/rm

IT.242.62.CS 17th March 1945.

SUBJECT: Italian Government Communications.

TO : A.F.H.Q. (attn: G - 5).

1. Attached copy of memo from the Italian Ministry of Foreign Affairs is forwarded for consideration.

2. So far as Bulgaria and Rumania are concerned, the instruction was based on service messages from Cable and Wireless Ltd, notifying that the Allied Control Commission for those countries had forbidden the use of other than English, French, Spanish or Portugese in cablegrams, from 1st March 1945. If you concur with the request of the Italian authorities, perhaps you would recommend to the Allied authorities that this regulation be re-considered.

3. So far as France is concerned, we have no knowledge of this restriction being placed on communications with that country, though it is in line with a censorship policy that was being generally followed.

4. You will recall that Italian is now permitted in communications with the United States, on which a similar restriction was originally placed.

For the Chief Commissioner:

J.L.HENDERSON,

Memorandum for the Allied Commission
Office of the Executive Commissioner.

SUBJECT:- Cablegrams in clear text.

1. Reference is made to the Allied Commission Note No.IT.242.55. 25 of March 8th 1945, in which it was stated that " official telegrams for Bulgaria or Rumania sent over commercial cables are only permitted in clear text in the English, French, Spanish or Portoguese languages ".

2. From information received it appears, moreover, that the use of the Italian language would not be permitted for official telegrams in clear text from Italy to France.

3. The Ministry for Foreign Affairs would be very grateful if the Allied Commission could kindly use their good offices with the competent Authorities in order that, for evident reasons of a general and practical nature, the Italian language be added to the languages which can be employed in the Italian Government's official communications with all the Italian Missions abroad.

4. The reasonsof the above request appear to be all the more obvious as regards the communications with France, in view of the recent resumption of diplomatic relations between the two countries.

5. It is hardly necessary to recall that the use of the Italian language is approved for the Italian Government's cable communications in clear text with their Diplomatic Missions in other Countries (e.g. Spain, Portugal, Turkey, etc.)

6. The Ministry for Foreign Affairs will much appreciate an early reply on the matter.

12th March 1945.

TO: Major Cowyle.

FROM: Mr I.Cripps.

It would be appreciated if you could take steps to secure cancellation of letter No.M.2.2.Sheet of the 7th March from the Commissioner Sub-Commission, in which Colonel Henderson asks H.Q.M. Rome, Cable and Wireless and Telephones Rome, to note that messages for the Italian Government in clear or in cypher should from now be delivered direct to the addressee and not to this Commission.

The original procedure should stand for the time being as the Acting President, who is away at present, would like to go further into the matter on his return.

Copy to:- Chief Staff Officer to the H.Commissioner.
Colonel Henderson.
Mr Hemphinne.

INTER-OFFICE MEMORANDUM

Office of the Executive Commissioner

SUBJECT: Italian Government Telegrams to Missions Abroad

FILE No. P/723.1

TO : Communications Sub-Commission

6 March 1945

Request is made that your office submit a draft letter to the Italian Ministry of Foreign Affairs explaining the position with regard to telegrams in the Italian language.

Major,

for Brigadier
Executive Commissioner

(Please Return All Papers)

0106

Declassified E.O. 12356 Section 3.3/NND No. 785015

Major Stewart.

This morning's telegrams is a technical business & not our concern.

2. The point is surely that the transmitting agencies (& the censors) won't accept Italian as a means of communication. This attitude is quite sensible in countries like Bulgaria & Rumania. Then it's up to them to edit their messages into the approved language.

6/iii/45

(A. S. MELFORD)
Asst. Political Adviser

Political Section.

All this Commission can do is to inform the Italian Government of the advice of Cable and Wireless in their service telegram of 2nd March.

You may wish to protest against the ruling which I expect is made by the Allied Control Commission Bucharest, with whom we can communicate in Allied cipher through A.F.H.Q.

J.L.HENDERSON

5th March, 1945

Mrs Halford.

It is surely outside the scope of the Pol Adv. the Ex Com's Office & Cable Censorship which why a cable should be sent. I submit that Communications S/C should fight their own battles. i.e. Why should Stockholm deal with telegrams from Rome to Bucharest? Nothing to do with us. May I have your views.

Mr. Hopkinson:

Please see the attached Communications Sub-Commission file IT-242/CS and the minutes thereon. I discussed the implications of the new directive with Captain Duke of the Cypher Security Mission this morning.

2. As regards incoming telegrams, Captain Duke agreed that while it would be more difficult for his office to carry on its functions if incoming telegrams no longer passed through the Commission he would be prepared to agree to the abolition of this check since it was politically desirable to do so. You have since told me that the Foreign Office desire, for technical reasons, that the check on incoming telegrams should be maintained. This point will therefore have to be cleared with the Cypher Security Mission, Communications Sub-Commission and ultimately the Ministry for Foreign Affairs.

3. We do not propose to continue to exercise the political check, but we think it essential that the cypher security check should go on and that arrangements should be made for military censorship of the contents of telegrams. I said that military censorship was outside the competence of the Political Advisers and that G-2, Allied Force Headquarters should be asked to appoint an officer to do this work. Captain Duke suggested that G-2 might be prepared to delegate this responsibility to the Cypher Security Mission who would thus be able to exercise the two controls simultaneously. I agreed that this would be the best arrangement.

4. I suggest that Allied Force Headquarters be now formally consulted on the specific point of military censorship and the suggestion put forward that the responsibility for this work be delegated to Captain Duke or, if this is not acceptable, an officer by attached to Captain Duke for the purpose.

Office of the Resident Minister,
Central Mediterranean.

3/150/6.

To: Chief of Staff, A.F.H.Q.

From: Mr. Macmillan.

Your minute of the 14th February, CS/104.

I understand the position is as follows.

(1) You will not permit outgoing cypher messages to be sent by the Italian Government to its representatives abroad.

(2) You are prepared to agree to bag facilities both inwards and outwards. I am most grateful for this concession, which I think will have a very good effect, and I am glad that you are able to accept the limited risk involved.

2. There is one further point. At present the Italian Ambassador in London, who holds a cypher approved by us, takes his cyphered messages to the Foreign Office to be despatched. This naturally somewhat cramps his style on reporting interviews etc. I am informed that A.F.H.Q. have no objection to his sending them direct to the Italian Foreign Office in Rome through the normal telegraphic channel. It has been the practice to give a copy of the cyphered telegrams to the Allied Commission so that it may check incoming messages. I take it that you see no reason for insisting upon this on security grounds, and I propose to abandon it on political grounds. Outgoing telegrams will, however, be shown to the Allied Commission as before.

/s/ H.M.

(Ref TAM 363, MAT 469 and TAM 424 this is MAT 549)

Review has been made of the possibility of relaxing the restrictions set out in MAT 469 and approved in TAM 424.

It has been decided that for the reasons previously given undeposited cipher facilities must continue for the present to be denied to the Italian Government but it has been agreed in principle that secret bag facilities can now be allowed the Italian Government for use in correspondence with their representatives abroad.

The Italian Government is being informed accordingly and it is requested in pursuance of TAM 363 that notification of the above relaxation be given by you to all concerned

Att: Telecoms Officer

1. Attached for your information is a copy of a letter addressed to the Under-Secretary of State for Posts and Telegraphs.

2. Instructions should be issued to the Provincial Directors and Directors of Circoli in your present and (in due course) future Regions to ensure their compliance. The fact that Regional officers may not be in direct contact with certain of their Provinces for considerable periods will make it necessary to avoid being delayed with correspondence for forwarding whilst still maintaining contact with the more important matters being dealt with between the Ministry and their Provincial Headquarters.

J.L. HENDERSON
Colonel,
Director.

Encl: One letter.

Subject : Official Correspondence with Provincial Directorates in Allied Government Territory.

To : Under-Secretary of State for F.T.

1. On Sept. 7th, 1944, in our letter FS.16.20.15, we set out the scheme for dealing with the above noted class of correspondence

2. The question has been under review of permitting some relaxation in the conditions laid down; and in consultation with A.A.C. Sectional Commissioners the following modified procedure has now been agreed upon:-

a. Within the A.A.C. territory in which civil mail services are operating, correspondence between the Ministry of F.T. on the one hand, and the Provincial Directorates and C.C.T.'s on the other, may be transmitted direct when the matter being dealt with falls under one or other of the following headings:-

(i) Routine applications and inquiries
(ii) Minor postal and telecommunications operating arrangements
(iii) Requisitions for, and supplies of, postage stamps, books and miscellaneous postal stores.
(iv) Staffing matters not involving Provincial Directors, Inspectors, or Directors of CC.TT's or of Telegraphs.
(v) Damage to civil telecommunications plant (including that of the concessionary companies); no reference to be made to main underground cables or repeater station gantries or works.
(vi) Plant restored to civilian service (including that of concessionary companies); no reference to be made to civil facilities in military use.
(vii) Telecommunications stores in depots of the State or of concessionary companies. Urgent stores requirements.
(viii) Transport belonging to the State or to the concessionary companies.

see 43 part III

0430

IT.242. .OS

8th Feb. 45. Continued.

b. In matters of major importance the relative correspondence should be routed as follows:-

(i) From the Ministry to the Provinces:
Passed uncoded to this Sub-Commission, for forwarding, after scrutiny, either direct or through the A.L.C. Regional Commissioner as considered appropriate.

(ii) From the Provinces to the Ministry:
Passed uncoded to the Regional Postal or Telecoms. Officer, for forwarding to the Ministry after scrutiny either direct or through this Sub-Commission as considered appropriate

3. You will appreciate that the essential purpose of passing the more important papers through the Sub-Commission and the Regional Officers is to ensure:

(i) that the Allied Officers concerned are kept au fait with developments and intentions.
(ii) that the risk of conflicting instructions being issued is reduced to a minimum.

4. Will you be good enough to issue instructions to all your Departments to ensure that this new procedure is adhered to as closely as possible. It may be noted that we do not favour the direct transmission of your office to A.L.C. Provinces of "information" copies of instructions which you may issue to Italian Government Provincial Directorates calling for specific action on the part of the latter.

5. Provincial Directors and Directors, CC.TT. concerned are being advised as necessary.

J.L. HENDERSON
Colonel,
Director.

1. It has been decided to permit direct communications between the Head Offices of Italian State or para-statal departments and their provincial offices in Regional Military Government territory on minor matters.

Sections, Sub-Commissions and Regional Headquarters will proceed to make arrangements with the Italian Head Office concerned on the lines of policy given below, care being taken in defining the subject matter of correspondence that may be passed direct to ensure that no action is likely to result that might be prejudicial to A.M.G. interests.

2. Communications Fifth Headquarters:

a. Minor matters of a fact-finding or routine operational nature may be dealt with direct.

b. In the case of major matters particularly those involving policy, the issuing of instructions, and the duties and movements of key personnel the correspondence should be passed, unsealed, to the relative A.C. Sub-Commission, which will either

(i) Release for forwarding direct,
(ii) Forward via the relative Regional Commissioner, for delivery at the latters discretion (preset routine).
(iii) Return to the issuing office if its transmission is not approved.

3. Communications Fifth and Provinces.

a. Communications as defined in 2 (a) may be forwarded direct.
b. Correspondence of other character should be passed in unsealed envelopes to the appropriate A/G Provincial or Regional Officer who will either:-

(i) Release for forwarding direct
(ii) Forward (on behalf of the Regional Commissioner) through A.C. Hqs. if considered desirable.
(iii) Return to the issuing office if its transmission is not approved.

To : Regional Commissioners, Abruzzi - Marche Region — 40
Lazio - Umbria Region — 38
Toscana Region — 42

1. It is proposed to permit the Italian State Department of Posts and Telegraphs to communicate direct with their provincial offices in A.M.G. territory on minor matters.

2. The reasons for this relaxation of the general rule that all communications will take place through A.M.G. offices are:

a. the volume of correspondence, amounting to about 500 letters a week from provincial capitals
b. the delay incured by the present system, the Communications Sub-Commission not being represented below Regional Headquarters
c. the innocuous non-political type of correspondence
d. the existence of direct civil mail services.

3. A draft instruction that it is proposed to issue is attached. Will you please say if you have any objection to this being put into force.

4. It is emphasized that only the field covered by the Posts and Telegraphs Department is concerned.

24 Jan 45

SUBJECT : Communications with Italian Govt in AMG Territory

TO : CCG

1 Reference the suggestion of Col [illegible] at CCG meeting yesterday that communications should be allowed direct between the Italian Govt and their servants in the field in AMG Territory on certain routine matters, I attach a copy of a letter dated 22 Jan from Lazio Region which is relevant.

2 The matter was also discussed at my meeting of heads of Sub-Commissions yesterday. With one exception they were unanimous in feeling that no such communications should be permitted.

3 It was felt that once direct communication was allowed, the authority and prestige of the Provincial Commissioner as the representative of local government would be difficult to maintain in practice, and that if routine correspondence was allowed direct, then inevitably it would extend to questions of importance whatever directives were issued by AC.

4 The sole dissenting Sub-Commission (Public Safety) did so solely on the ground of the volume of work they had to handle.

5 I think the matter is worthy of further consideration and propose to raise it at your next CCG meeting.

SUBJECT : Italian Government in AMG Territory

TO : HQ Allied Commission
Civil Affairs Section

Would you kindly remind the Italian Government that communications to Provinces under AMG control must be made through the Provincial Commissioner.

We have had some minor difficulty over this in Perugia, in particular there was a telegram from Agriculture on the Olive Oil Amending and also a Ministry of War notice about the call-up.

If we are wrong in our understanding about the latter - that they must work through the Provincial Commissioner - please advise us.

ROME, 9 January 1945

PRESIDENCY OF THE COUNCIL OF MINISTERS **TO ALL MINISTRIES.**

Ref. 23515/16644/19.11

35-1

Subject: Instructions on contacts with the Allied Commission.

Ref. circular No. 18665/16644/19.11 dated 9 Nov. 1944.

Contrary to what was ordered with the above circular, their Excellencies the Ministers continue to submit for the President's signature letters requesting the action of the Chief of the Allied Commission on questions of a technical or secondary nature which come under the specific jurisdiction of the individual Ministries or the corresponding Allied Sub Commissions.

It is needless for me to point out once again the serious inconveniences that such a procedure creates, as reported also by the Commission itself; it causes delay and confusion in the treatment of various matters and nullifies the importance and significance of the Government's action which should be reserved for political questions and for those of primary importance.

In order to eliminate any possible misunderstanding, I hereby order that from now on the action of the President of the Council be requested by the Ministers only for questions of a political character which are of particular importance to the Government, and in those cases in which, providing always they are not of secondary importance or involving more details, it is intended to initiate the re-examination of decisions already adopted by the competent Allied Sub Commissions. In such cases a copy of every letter shall be sent to the Cabinet of the Presidency of the Council.

In every other case the Italian authorities must deal directly with the Sub Commissions, notifying or consulting with the Ministry of Foreign Affairs on questions of a political nature which arise in our relations with the Allies.

I beg Your Excellencies to communicate these instructions to all the offices of your respective Departments seeing to it that they are adhered to promptly and unfailingly.

Kindly acknowledge.

Declassified E.O. 12356 Section 3.3/NND No. 785015

WEDNESDAY OCTOBER 18th

10.45. DELLA ROSA of the Foreign Ministry came to see us this morning by arrangement. He brought with him Sig. Wittig, who is his technical assistant on cyphers. The points we covered were.

A. The A.D. code and tables now ready for distribution. On this we first of all raised the point that it seemed to us that the tables and instructions now submitted for ANKARA, BERN, DUBLIN and STOCKHOLM were something new in principle as well as in detail and not included in the original submission nor in the approval already given. Was this so?

It was admitted that it was so.

We said that as this was so, we should have to take account of it and refer it elsewhere, but this need not alarm them, as we ourselves were disposed to approve of the new element equally with the old and help them to get it through. It would merely mean a short delay. Subject to certain points, which we would now bring up. These were

1. Could they assure us of the physical security of the tables (S.M.80 BIS.S) for the LISBON - MADRID issue and of the tables TV (for the other issue)? On S.M. 80 BIS S we pointed out that these were named on an undated insert in the cover of Code A.E. published by MARINA. This made it possible that they were old tables and also that there might be MARINA holders outside Foreign Ministry's control.

To this they replied that the proposed tables S.M. BIS.S were printed this year by MARINA at the Foreign Ministry's, and that the entire set of copies was then handed over by MARINA to Foreign Ministry for the latters exclusive use. The reference on the cover of A.D. represented an intention never carried out. They suggested we confirm this with Capitano BRIZZI of MARINA. (It will not be necessary to do this as we already had it confirmed by Cdr. O'CALLAGHAN, S.O.(I)) two days ago.

request A

With regard to the T.V. tables, WITTIG said that

1. He had made them himself in the last two months
2. They were not based on any old keys.
3. They were printed under proper security conditions

On this point therefore, we have certainty, as far as we can hope to go.

We then raised certain points that we have noticed in the tables and instructions (inconcistencies, and points not sufficiently clear or prominent). All these were accepted as useful. None will require more than a slight correction, which can be done before issue.

Having reached this point, we said we were personally satisfied and would back the system subject to observation of the volume of traffic and subject to its being

Declassified E.O. 12356 Section 3.3/NND No. 785015

used as per instructions.
B. A.D. proposed system. Next step after we say "approved" is distribution.

We raised the possibility of not all six posts will receive their material at the same time. They each go ahead at once provided clear instructions are given which will prevent confusion over the proper table to use. They agreed to formulate an instruction which covers this, and there should now be no muddle, such as can occur with such keys.

C. We then went on to other points outside the A.D. proposed system, namely

1. limits of present proposal: Even now they are only providing a good system for six posts. What others are there, and what are they going to do about them e.g. TANGIER, LISBON/MADRID? Their point of view about that is that the system now to be issued covers the urgent needs of the immediate situation, and they will be thinking about the rest.

We suggested that at this stage a list of their posts in existence and of the cyphers they are believed to hold would be a good basis for discussion, and they will provide this. It is certain that they are making a new code-book but we don't know yet how soon it will be ready. A.D. which is Naval is not very suitable.

At our suggestion they will now instruct all posts not issued with the A.D. system that if they have to send strictly secret traffic (which is not often likely) they are to use Allied channels until included in a new system.

In regard to TANGIER they propose to continue the deposited ONIL LIGHT system. TANGIER was not included in the new issue simply because it was impossible to produce enough tables quickly.

We don't like this and would prefer ultimately one system for everyone, but recognised that at this stage its no use holding up A.D. because of that.

We pointed out that the relaying of messages involving change into another system is most undesirable. This point was appreciated by DMI/A.OS who is responsible for communications generally and it was agreed that such relaying into another system should be got rid of as soon as possible. It appeared that they do not know in Rome, in what cypher MADRID relays messages from ROME to BERNE/. (We did not think it necessary to tell them, as the practice will cease when A.D. comes in).

Of real inter-post traffic (apart from Reddys) they think there is little. The new system does not provide for it. Allied channels will have to be used

0157

Declassified E.O. 12356 Section 3.3/NND No. 785015

-----2-----

(until there can be inter-posts keys) or they can
communicate via Rome.
DUBLIN: A.F.S.B is now on its way, so the difficulty of
no code at all will be solved.
BUENOS AIRES: At present only through Madrid. And Foreign Ministry is concerned about the time it takes and the number of telegrams which seem to be missing. They think the code used from U.K. to Buenos is always A.F.S.B
(as in their information is wrong, but we didn't think it necessary to say so).
Mills was asked whether there could not be direct communication (with C.C.O. control) in a good system like U.S. We can see no reason why not, if in a system like A.F. He will put up a memo to Political Section if he still wants this.
We did not make any arrangements for meeting as in (except Socially) but they are bound to come to us again about the corrections agreed To-day.
A.F.S. must see the new part of the material, but we are delayed to send it up at once with our business request quick answer, and then see Political Section about distribution.

For Col. Henderson

123

TUESDAY: OCTOBER:17th.

11.45. DELL' ROSA, of Foreign Ministry, came to see us arranged. As he came so late in the morning and Duke [illegible] able to be present at the end of our talk, we decided not to go into details but to renew the meeting tomorrow, when he will bring a technical assistant.

I. I explained to him that we were specialists and were here to help him at this stage, Italian Security being Allied Security at the present time.

He said he fully understood this and would be glad to be helped. He himself was head of the cypher-making offices and also of the cyphering of the (ufficio cifra) but did not profess to be an expert. (I gathered that he didn't care for the post much). They knew that they urgently needed secure communication (especially with Berne at the moment) and that was why they were putting forward this new system and wanted to bring it in quickly.

2. I said we fully appreciated that. However on examining the material submitted by him on Wednesday and the correspondence it became to us that the tables and instructions for Berne, Stockholm etc. submitted last Wednesday were something new and quite outside what had already been submitted to and approved by AFHQ, was this so?

He said that quite possibly it was so, but that without his technical assistant, whom he could bring tomorrow, he could not say.

I said that, if this was so, he would realize that the now-added matter was of a new kind, we would have to refer the new tables elsewhere. On the other hand (subject to certain points which we would bring up tomorrow), we ourselves were disposed to recommend acceptance and wanted to get the matter through.

3.

I mentioned the two [illegible] security both of the tables already submitted to us (printed by Ministero della Marina) and of the new ones (printed by Ministero degli Affari Esteri) as a point on which we wanted certainty. He said we could be quite sure about that. The new tables were printed within the last few weeks inside the Ministero by Security Staff.

Subject : Italian Government Communications.

To : A.F.H.Q. (for C.S.C.). 26/1/85

Reference your X 426 dated 1st Oct., passed to this office for reply:

1. The Italian Government has authority to communicate with all Italian Embassies, etc., abroad, except that in the Argentine, in approved ciphers or in clear. In Clear includes the use of the AR 38 commercial code to save time and money, not for secrecy reasons.

Authorities are contained in A.F.H.Q. communications:

CCB/1101	dated	5th Sept.
PX 94339	"	9th Sept.
59095	"	2nd March.

2. Your last paragraph appears to be based on a misapprehension; no encoding of Italian Government cablegrams is done by the A.C.C. cipher Team. Its duty in this connection is merely to check outgoing cipher texts against approved clear texts for agreement, and to decode incoming cipher texts for submission of a clear copy to the Political Section.

Ref 723

15 September 1944

MEMORANDUM TO: G-5, Allied Force Headquarters.
Copies to: Communications Censorship, AFHQ.
British Resident Minister.
U. S. Political Adviser.
British High Commissioner.
U.S. Representative, Advisory Council to Italy.
Communication Sub-Commission, A.C.C. 6-1

With reference to your memoranda G5S/31/1 and G-5:311.5-6 of the 5th and 6th September, your attention is drawn to the danger in excluding the Italian Embassy in Argentine from the concession.

2. The routine that has necessarily been followed by the Italian Foreign Office for some time, and by this restriction must continue to be followed, is for all communications to and from the Argentine to be transmitted via Madrid. This involves a first transmission in one cipher held by Madrid and Buenos Aires and a second transmission in the cipher approved and checked by Allied Authorities.

3. It is evident that the existence of two cipher copies of the same texts is a serious factor in reducing the security value of either cipher, particularly as we must assume that the cipher in use on the Madrid-Buenos Aires link is known to the enemy.

4. On the other hand, except for causing delay and inconvenience, there is nothing gained by the restriction. It is not considered that it would reasonable to ban all Italian Government communications with the Italian Embassy at Buenos Aires because of the political tendencies of the Argentine Government.

5. Perhaps you would care to reconsider this ruling in view of the above considerations.

EXECUTIVE MEMORANDUM NUMBER 46

ITALIAN GOVERNMENT MESSAGE TRAFFIC

1. INTERNAL

(a) Italian Government messages within Government territory, except Sardinia, are not subject to censorship; messages may be in clear or in cipher. They may be subject to inspection, if required, to check the official nature of the message.

(b) Italian Government messages to or from Sardinia are liable to censorship; ciphers will therefore only be used on this channel that have been approved by Allied authorities and of which copies are held. The censorship exercised will be laid down by the Communications Sub-Commission from time to time, in accordance with instructions from the military authorities concerned.

2. EXTERNAL

(a) Italian Government messages may be passed over the commercially operated submarine cables from Naples to Malta or from Brindisi to Malta for Italian Missions, etc., abroad. Messages are subject to the approval of the Political Section, A.C.C.; they may be in clear or in the codes and or ciphers approved by Allied Force Headquarters. The detailed procedure for dealing with this traffic is given in Attachment "A".

(b) Italian Government messages may be passed over the commercially operated radio circuits from Italy to the United States or the United Kingdom for any addresses dealt with by the operating companies.

On these circuits, messages are subject to the approval of the Political Section and also to Field Press Censorship in case of Press messages; they may only be in clear and will be of an entirely non-secret nature. The detailed procedure for dealing with this traffic is given in Attachment "B".

3. GENERAL

Italian Government messages may be passed over Allied operated circuits, telegraph, cable or radio, as arranged with the military authorities concerned from time to time. These arrangements will be made the subject of instructions issued as required.

419

H.R.ALEXANDER
Brigadier.
Executive Commissioner.

Declassified E.O. 12356 Section 3.3/NND No. 785015

ATTACHMENT "A"

PROCEDURE FOR DEALING WITH ITALIAN GOVERNMENT TRAFFIC OVER THE COMMERCIALLY OPERATED CABLES, NAPLES - MALTA AND BRINDISI - MALTA.

1. All messages will bear the message instruction 'VIA' (to be transmitted by landline or cable only) at the beginning.

2. Outgoing messages may only be addressed to Italian Embassies, Missions, etc., abroad, and the Italian Embassy in the Argentine is specifically excluded from these communications.

3. Outgoing messages for transmission in clear. Messages will be handed in by the Italian Government to the Political Section, Headquarters, A.C.C., Rome. After approval they will be forwarded by the Political Section to the HQ Adjutant's office with an endorsement on one copy "Approved for transmission over commercial cables IN CLEAR" signed by the endorsing officer. Messages will then be authenticated by the HQ. Adjutant's office and passed to the A.C.C. Signal Center for transmission to the military signal office controlling the cable office.

4. Outgoing messages for transmission in cipher. Cipher and clear text copies will be handed by the Italian Government to the Political Section, HQ's A.C.C. After approval they will be forwarded by the Political Section to the HQ. Adjutant's office, with an endorsement on one cipher copy "Approved for transmission over commercial cables IN CIPHER" signed by the endorsing officer. A ciphered copy will then be authenticated by the HQ Adjutant's office and passed to the A.C.C. Signal Center for transmission to the military signal office controlling the cable office. A second cipher copy together with a clear copy will be sent by the HQ Adjutant's office to the A.C.C. Signal Center, for check for agreement of texts: after check both these copies will be returned to the Political Section with any necessary comment.
It should be noted that cipher copies of approved messages may be passed for transmission without being delayed for the check by A.C.C. Signals.

5. Incoming Messages. Incoming messages, in clear or in cipher will be delivered without delay to the Italian Government. A clear copy of each message will also be delivered to the Political Section.

6. All charges by the cable company will be set by the Italian Government.

418

Declassified E.O. 12356 Section 3.3/NND No. 785015

ATTACHMENT "B".

PROCEDURE FOR DEALING WITH ITALIAN GOVERNMENT TRAFFIC OVER THE COMMERCIALLY OPERATED RADIO CIRCUITS FROM ITALY TO THE U.S. AND U.K.

1. Outgoing messages may be addressed to any address dealt with by the operating companies.

2. Messages will be in clear only, and will be of an entirely non-secret nature.

3. Messages will be handed to the Political Section, Hqrs. A.C.C. After approval they will be sent to the HQ. Adjutant's office with an endorsement on the copy "Approved for transmission over commercial radio in CLEAR, subject to Field Press Censorship Control." signed by the endorsing officer. The latter part of this endorsement will be deleted if it is not a press message.

The message will then be authenticated by the HQ Adjutant's office and passed to the radio operating company for transmission, via Field Press Censorship if so enforced.

4. Incoming messages will be delivered to the HQ. Adjutant's office A.C.C., which will pass them without delay to the Italian Government, sending a copy to the Political Section.

5. All charges by the radio company will be met by the Italian Government.

Information and Censorship Section
Press and Radio Censorship Branch
Detachment "A"
A.P.O. 794

19 September 1944

SUBJECT : Italian Government Message Traffic.

TO : Colonel J. L. Henderson,
Director, Communications Sub-Commission,
Allied Control Commission.

1. Reference your letter of 17 September enclosing proposed draft for the control of Italian Government message traffic, the following comment is made on para 2-b dealing with external Italian Government messages In Clear.

2. It is stated that Italian Government messages, both outgoing and incoming should pass through Field Press Censorship as laid down in Attachment 'B'.

3. It is considered that Italian Government messages other than Press messages should not be passed through Field Press Censorship but should be dealt with by the Civil Censorship Censors.

4. Similarly, incoming messages should not pass through Field Censorship. Such messages should be delivered by the Commercial Companies directly to the Headquarters Adjutant's Office, A.C.C.

5. Regarding outgoing messages, it is considered that the Civil Censorship should be responsible for reviewing and passing to the Field Press Censorship press cables. This is the normal procedure followed by censorship in England on commercial traffic.

V. E. SCOTT BAILEY,
Lieutenant Colonel, G.S.,
Chief, Press and Radio Censorship Branch.

SUBJECT: Italian Official Cables.

TO : The Ministry of Foreign Affairs, Italian Government.

1. Permission has been received for the Italian Foreign Office to communicate by cable with all Italian Embassies and Missions in Allied or neutral countries, with the exception of the Argentine.

2. The routine to be followed will be the same as for present cables to Madrid, etc.

3. Communications on entirely non-secret matters may be sent in clear or in the commercial code approved by A.F.H.Q. (AR 38). These may commence forthwith.

4. Communications on secret or confidential matters will require to be in an approved cipher. This may be either the cipher now in use, or the "A D" cipher proposed in your letter of 20th April. The use of this cipher is now approved, on the understanding that it is utilised in conjunction with new over-ciphering tables, and provided that the total number of groups to be enciphered shall not exceed approximately three and one half times the number of subtractor groups.

5. In order to expedite the delivery of these tables, every assistance will be given by this office by forwarding them through Allied channels of communication where desired.

6. Eight copies of the new code and tables should be delivered to the Communications Sub-Commission of A. C. C.

SUBJECT: WAR DEPARTMENT FILM "ON TO TOKYO" (U.S. PERSONNEL ONLY)

TO : ALL CONCERNED

The Chief of Staff of the War Department has personally directed that every enlisted man and officer in the Army be shown WD film, "On to Tokyo". Every American officer and EM, assigned or attached to this headquarters, will see this film on Wednesday, 6 June 1945, at 1000 hours, at the American Red Cross Theater, Piazza Barberini, Rome, Italy. Essential skeleton office personnel may be detailed to attend an alternative showing on Thursday, 7 June 1945, at 1000 hours. The showing of this film will take precedence over all other activities.

A certificate will be signed by each officer of this Headquarters certifying that he has seen this film. This certificate will be returned promptly to Room 28, 6th Floor. The required forms are being distributed to all Sections and Sub-Commissions. Any desired information may be obtained by calling 489081, Extension 351. (S-3 2675th Regt)

THE FOLLOWING INFORMATION IS REQUIRED FOR THE SUBMISSION OF A RECOMMENDATION FOR AWARD OF AN INDIVIDUAL.

1. Full name, including middle initial _____

2. Serial number _____ Arm or branch of service _____

3. Rank at time services were rendered _____ Present rank _____

4. Full title of position at time services were rendered _____

5. Full title of present position _____

6. Exact inclusive dates of period for which individual is being recommended.

   From _____ To _____

7. If no longer a member of this organization, where is individual assigned at the present time? _____

8. Previous decorations awarded to individual, including general order number and headquarters of issue. If none, so state. _____

9. Individual's home town and state at time of enlistment, induction, entry into West Point, or present home address _____

10. On a separate sheet, give a complete description of action. In case of service awards such as Legion of Merit, a complete description of service rendered in detail should be listed. What were the general duties and responsibilities of the individual? What difficulties were encountered in the accomplishment of the mission? What methods were used? What personal characteristics of the individual were displayed? What were the results of his efforts? In recommendation for other awards, a detailed and factual description of the incident is of utmost importance. Do not use general statements. The most common error in recommendations is that they do not contain enough detail. Facts, figures, obstacles, results achieved, etc. are important.

11. On a separate sheet, give a proposed citation. This should be a condensation of the letter of recommendation, including all pertinent facts upon which award is based. When an award is made, only the citation is published in orders; therefore, a resume of the act or service rendered must be in sufficient detail to justify the award.

ALLIED COMMISSION

R.T.F.

25th May 19'5.

To All Ranks of the Allied Commission:-

The Prime Minister has instructed me to return at once to England.

I cannot leave without sending a message of thanks and good wishes to all my friends in the Allied Commission and Allied Military Government.

Ever since the landings in Sicily, nearly two years ago, I have seen and admired your work. During recent months I have been more intimately associated with you. Many conflicting duties have hampered my capacity to do more than try to help my friends and your chief, Admiral Stone, to the best of my ability. But I shall always be proud of my association with your enterprise, and the high ideals which have inspired you all.

Good luck and God speed.

Yours ever
Harold Macmillan

Acting President.

AMERICAN RED CROSS

TO: Director, Public Relations Branch
Allied Commission, H.Q.

FROM: TOWN HALL
American Red Cross
Piazza Barberini, Rome

Lectures and orientation programs are not new to the members of the Armed Forces. They are programs which the Army and Navy has realized are most necessary to both men and officers in order that they may learn something of what goes on in the world of Art, Science, Music, Medicine, History, Travel, Religion and Current Affairs.

TOWN HALL is the department of the American Red Cross which operates a bureau of speakers who can give stimulating talks on subjects of interest to all. TOWN HALL works in close conjunction with the Army Information and Education program throughout the Mediterranean Theatre. Mr. A.B. Trowbridge began TOWN HALL in Algiers two years ago by inviting well known correspondents, heads of the various Army and Navy departments, enlisted men, and prominent civilians to units in that area to inform and discuss with the men, their activities in the war and in civilian life.

Interesting discussion periods were held in the Enlisted Mens Clubs, Officers Clubs, local units and hospitals. The I&E Officers found the program to be most satisfactory and requested a speakers list from which they could select speakers on specified topics which would augment their educational programs and prove generally stimulating and exciting to their groups.

It is our desire to have a potential speakers list of Enlisted Men, Officers, Civilians, British and Americans, who will volunteer to speak to groups in the Rome area. Having a centralized speakers bureau in the area is an insurance to the speaker that he will not be taxed beyond his endurance or patience.

TOWN HALL will be extremely grateful if you would bring this letter to the attention of the Officers and men in your section who might be interested in speaking for us. In this manner we can form the nucleus of the brilliant list of lecturers to assist the Army in its educational work.

COMBINED CHIEFS OF STAFF

COMBINED CIVIL AFFAIRS COMMITTEE

CCM Airgram 27, 22 May 1945, Washington, D. C.

From: CCAC

To: AC, repeated FHCEG

Subject: Imports into Italy from Additional Countries

Ref: MAT 630 and TAM 548

1. In general we are in favor of Italian Government seeking to import goods from third countries and have no objection to direct negotiations between Italy and natural governments or other countries subject to observance of procedure outlined below.

2. Overall control over commodities on reserved commodity list is maintained by Combined Boards. As regards such commodities Italian Government should submit requirements to Combined Boards indicating preference as to source of supply. For the present submission should be made through Allied Commission and CLAC(S).

3. With regard to items not on reserve commodity lists Italian Government may deal directly with other governments keeping Allied Commission informed.

4. In making any purchases Italian Government should observe statutory and proclaimed lists.

5. Shipping will have to be obtained through combined shipping authorities except in case of countries not in the Allied pool, e.g. Portugal, Spain and Turkey.

6. Reference paragraph 3 MAT 630, you may authorize use of Italian assets abroad to finance approved imports (reference paragraph 6, TAM Airgram 24). Italian Government is primarily responsible for determining for what purposes its assets will be used. AC approval should be granted except when it appears assets are being used extravagantly or in a way detrimental to allied interests. In case of Argentina, proceeds from sale of Italian ships were blocked pursuant to resolution of Inter-American Financial and Economic Advisory Commission. You will receive a separate communication relative to the

"THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT, U.S.C. 50; 31 and 32. THE TRANSMISSION OR REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW."

unblocking of these funds. In case of Spain proposal regarding payment to Italian owners is not clear. However Italians should be permitted to make whatever arrangements they wish. Presumably credit will be available in due course from Spanish Civil War debt, and Italians should be encouraged to come to terms with the Spanish Government.

7. In event Italians have no balances in supplying country, there would be no objection to Italians working out credit arrangement or a memorandum account procedure. In event latter is used, principles outlined in TAM 426 concerning trade between Italy and France should govern. See also paragraph 11, TAM Airgram 24.

8. In principle, post-liberation dollars may be used to pay for essential imports into Italy from other countries if they cannot otherwise be financed. US Government will for the time being wish to consider individual transfers on their merits and a Treasury license in each case will be necessary. In deciding whether to use dollars for such purchases, Italian Government will have to weigh its need for the particular commodities involved against its other requirements for dollars including products which might otherwise be bought in the US with the dollars. Sterling post-liberation accounts will not be available for purchases outside the sterling area.

1. It is found to be necessary to maintain at this HQ. an up-to-date record showing telegraph and telephone connections between provincial capitals.

2. Would you please send therefore at the end of each month a schedule showing for each of your provincial capitals:

a. A list of other provincial capitals connected to it by direct circuits or channels.
b. Number of telephone circuits or channels between it and each provincial capital connected to it directly.
c. Number of telegraph circuits between it and each provincial capital connected to it directly.

Date 18 MAY 1945

HEADQUARTERS ALLIED COMMISSION
APO 394
DISPLACED PERSONS AND REPATRIATION SUB-COMMISSION

DPR/1-5/APM

17 May, 1945.

SUBJECT: Notes on the Italian Refugee and Repatriation Situation as at 16 May, 1945.

TO: THOSE INTERESTED

1. (i) PRESENT PROBLEM

Repatriation :-

(a) Those who crossed before the Frontiers (with exception of North East) were closed.

(b) Those "Southerners" in the North and those "Northerners in the South. **

Approximate number to be dealt with at least 100,000.

(ii) FUTURE PROBLEM

Repatriation of those outside the Northern Frontiers. This, it is hoped can be "controlled", but the condition of those north of the Austrian Frontier is not yet known. Approximate number to be dealt with on all Northern Frontiers 1,000,000.

2. MOVEMENT OF REFUGEES.

Movement of refugees from the North by means of returning Army Transport is easy as far as EMILIA Region. This is the "Bottleneck" of the North, as the capacity of the railway lines is very limited. This "Bottleneck" should be eased when sea transport from Venice and Genoa is available. It is hoped shortly to obtain sea transport from Ancona to Bari and the South, and on the West Coast from Piombino to Reggio Calabria and Sicily. This will solve the second "Bottleneck" at ROME. Only one refugee train (1,000 persons) per day is available South from Rome. Five thousand Italians arrived on the 16th.

389

3. REFUGEE CENTRES.

Some 30 to 40 Refugee Centres have already been established in Northern Italy. Some with great capacity, such as TREVISO 20,000 and MODENA, 12,000 and several between 3,000 and 5,000. In addition there are many camps set up by the Provinces and Communes available for those walking or trucking East or West.

The standard of comfort dictated for any centre at pr sent depends on the number of refugees handled. The criterion is the number to be moved. Accommodation and feeding may be primitive, but the rapid return of the refugee to his or her home is the factor which must determine the amount of comfort available. As and when

Declassified E.O. 12356 Section 3.3/NND No. 738015

1. (i) PRESENT PROBLEM

Repatriation :-

(a) Those who crossed before the Frontiers (with exception of North East) were closed.

(b) Those "Southerners" in the North and those "Northerners in the South. **

Approximate number to be dealt with at least 100,000.

(ii) FUTURE PROBLEM

Repatriation of those outside the Northern Frontiers. This, it is hoped can be "controlled", but the condition of those north of the Austrian Frontier is not yet known. Approximate number to be dealt with on all Northern Frontiers 1,000,000.

2. MOVEMENT OF REFUGEES.

Movement of refugees from the North by means of returning Army Transport is easy as far as EMILIA Region. This is the "Bottleneck" of the North, as the capacity of the railway lines is very limited. This "Bottleneck" should be eased when sea transport from Venice and Genoa is available. It is hoped shortly to obtain sea transport from Ancona to Bari and the South, and on the West Coast from Piombino to Reggio Calabria and Sicily. This will solve the second "Bottleneck" at ROME. Only one refugee train (1,000 persons) per day is available South from Rome. Five thousand Italians arrived on the 16th.

3. REFUGEE CENTRES.

Some 30 to 40 Refugee Centres have already been established in Northern Italy. Some with great capacity, such as TREVISO 20,000 and MODENA, 12,000 and several between 3,000 and 5,000. In addition there are many camps set up by the Provinces and Communes available for those walking or trucking East or West.

The standard of comfort dictated for any centre at present depends on the number of refugees handled. The Criterion is the number to be moved. Accommodation and feeding may be primitive, but the rapid return of the refugee to his or her home is the factor which must determine the amount of comfort available. As and when conditions become more controlled the standards of refugee centres will improve.

4. FEEDING ARRANGEMENTS.

The food scale is laid down by Allied Commission and supplied, when possible, by SEPRAL from local resources, in order to save transport for other purposes. In cases where this is not obtainable Army or Allied Commission stocks are drawn on. Food stops are established on all railway lines and are the responsibility of the Prefect and Commune concerned. In addition to the food stops sufficient rations for the journey are put on each train.

/ 2 Contd.

0203

Declassified E.O. 12356 Section 3.3/NND No. 785015

5. FINALLY.

Many refugees are arriving in Rome - an average of at least 2,000 a day. Some of them have been away from their homes for many years and require a friendly welcome and a helping hand after the long journey. Many have walked from Berlin and Danzig to the Frontiers.

C.B. FINDLAY,
Colonel,
Director.

**

N.B. (a) The term "Southerner" indicates an Italian in Northern Italy whose home is south of the Appennines.

(b) The term "Northerner" indicates an Italian in South Italy whose home is north of the Appennines.

SUBJECT : Marriages - Anglo - Italian

TO : Distribution below

When applications are submitted to this HQ on behalf of a soldier who desires to marry an Italian civilian, the following instructions will be complied with.

(a) The application will be submitted in duplicate in accordance with GRO 162 of 1944.

(b) If the parties are of a different religion, GRO 121/45 will be complied with and a certificate to this effect attached to the application.

(c) A Medical report signed by a doctor will be forwarded in respect of the Italian civilian.

(d) The date on which it is desired that the marriage will take place must be given.

(e) The length of time the parties have known each other will be stated.

(f) It will be stated whether or not the soldier has been separated from his fiancee during the time they have known each other. The form shown overleaf will be completed by a responsible officer and forwarded in duplicate with the application.

(g) It will be certified that the contents of this H.Q. letter of even number dated 30 Oct 44 forwarding HQ 3 District letter as amended by this H.Q. letter of even number dated 7 Feb 45 have been brought to the attention of the applicant.

It is of importance that these instructions are carried out as failure to do so results in unnecessary delay in dealing with applications.

1. The newly organised United States Information Service is receiving a number of requests to provide American speakers to appear before Italian organizations to talk on their particular technical or professional subject. They have asked us if we can give them a list of Italian-speaking Americans in AC who might be available to talk before Italian groups on their professional or technical field. They are particularly interested in speakers who will outline current American developments in the expert's particular field.

2. It would be appreciated if your section could let the Public Relations Branch have a list of those who might be available for such speaking engagements.

SUBJECT: Release of Civilian Supplies by the Allied Armed Forces

TO : See distribution below

All concerned are reminded that, when application is made to the Armed Forces for release of supplies for civilian consumption, all such applications must state clearly that the supplies requisitioned are destined for civilian consumption as opposed to AC's own domestic consumptions. This is essential if proper accounting is to be maintained between the Allied Armed Forces and AC.

SUBJECT: Rail Construction Priorities

TO : Addressees shown below

1. Below is given for information of addressees the Priority Groups for the reconstruction of sections of lines and works of the Italian railways, authorized for completion under Allied Commission auspices; construction under M.R.S. control takes precedence over the following.

2. The list is revised monthly and issued about the 7th of each month; each list cancels all previous issues. Applications for the revision of a priority should reach this Sub-Commission by the 1st of each month.

Priority	No. of Line	Section of Line	Target Date
1	86	Ortona - Ancona	30-4-45
1	Bridge	Petrace	30-6-45
1	279	Termoli - Campobasso	30-4-45
1	219	Pisa - Empoli - Florence	15-7-45
1	65	Orte - Chiusi (perm. reconst.)	30-10-45
1	65	Rio Torto Viaduct	30-8-45
1	246	Giulianova - Teramo	15-8-45
1	242	Albacina - Civitanova	30-8-45
1	245	Porto D'Ascoli - Ascoli Piceno	30-8-45
1	277	Terni - Rieti	30-6-45
1	Priv. Rly.	Lauria Viaduct	--
1	Priv. Rly.	Terni - Todi - Perugia	30-3-45
1	244	Bastia - Ellera	30-3-45
1	Priv. Rly.	Cancello - Benevento	30-6-45
2	281	Avellino - Benevento	15-9-45
2	294	Avellino - Rocchetta	30-9-45
2	291	Torre Annunziata - Cancello	15-7-45
2	Viaduct	Ofanto	30-8-45
2	86	Pescara - Chieti	30-7-45
2	Bridge	Biferno	30-7-45
2	Bridge	Naples Central - Naples Scala	30-7-45
2	68	Rome - Avezzano	15-7-45
3	W/Shops	Cagliari	30-7-45
3	* 65	Florence - Arezzo	30-4-46
3	260	Rome - Ciampino - Albano	15-7-45
3	Loco Depot	Livorno Centrale	30-8-45

* Line 65 (Florence - Arezzo); Line 220 (Chiusi - Sinalunga - Empoli); and Line 279 (Campobasso - Beneventc) will be reconstructed on a two-phase basis:

Phase 1 - Clearance of permanent way, destroyed buildings and bridges and construction of bridge piers to springing level.

Phase 2 - Completion of line when materials become available.

SUBJECT: Wearing of Shoulder Insignia.

TO : All Units this Regiment.

1. All members of the 2675th Regiment, Allied Commission (Ovhd), will wear the "AF" shoulder insignia on the left shoulder sleeve.

2. Such personnel who have served in an active Theater of Operations, with one or more combat units, may wear (but it is not required), the shoulder insignia of that unit on the right shoulder sleeve, in the same relative position as that prescribed for the left shoulder sleeve.

3. Individuals may select the particular combat unit shoulder sleeve insignia they desire to wear, from those organizations to which they were assigned in an active Theater of Operations. Under no circumstances will more than one such insignia be worn on the right sleeve at a time.

ALLIED FORCE HEADQUARTERS

2 May, 1945

SPECIAL ORDER OF THE DAY

Soldiers, Sailors and Airmen of the Allied Forces in the Mediterranean Theatre

After nearly two years of hard and continuous fighting which started in Sicily in the summer of 1943, you stand today as the victors of the Italian Campaign.

You have won a victory which has ended in the complete and utter rout of the German armed forces in the Mediterranean. By clearing Italy of the last Nazi aggressor, you have liberated a country of over 40,000,000 people.

Today the remnants of a once proud Army have laid down their arms to you—close on a million men with all their arms, equipment and impedimenta.

You may well be proud of this great and victorious campaign which will long live in history as one of the greatest and most successful ever waged.

No praise is high enough for you sailors, soldiers, airmen and workers of the United Forces in Italy for your magnificent triumph.

My gratitude to you and my admiration is unbounded and only equalled by the pride which is mine in being your Commander-in-Chief.

H.R. Alexander

Field-Marshal,
Supreme Allied Commander,
Mediterranean Theatre.

SUBJECT: AMG Policy - Northern Italy.

TO : DCCAO, 15th Army Group. (2)
SCAO, AMG 5th Army. (10)
SCAO, AMG 8th Army. (10)
Regional Commissioner, LIGURIA Region. (23)
" " PIEMONTE Region. (43)
" " LOMBARDIA Region. (53)
" " VENEZIE Region. (73)
" " EMILIA Region. (43)
" " TOSCANA Region. (48)

1. I think it may be helpful to explain the policy of the Allied Commission with regard to Allied Military Government in newly liberated (Northern) Italy in the light of the conditions which we are finding at present.

2. While it is still the intention of the Supreme Allied Commander to set up Allied Military Government in the whole of Northern Italy, the application of Government must be regulated in accordance with circumstances.

3. The outstanding successes of the patriots in liberating their towns from Nazis and Fascists, the good administration, according to initial reports, set up by the CLN's, the execution of Mussolini and many of his accomplices, and the surrender, in some cases to the patriots, of a great bulk of the German forces, make a review of our policy necessary.

4. The greatest delegation possible should be made to the Italian authorities who will, in many cases, be members of the CLN's. At the same time every effort should be made to impress upon the people and the authorities that Allied Military Government is the temporary forerunner of the Italian Government, and that Allied Military Government is working in the closest cooperation with that Government at the Headquarters of this Commission.

5. We may well be approaching in Northern Italy a state of affairs somewhat similar to what was found in France, and it should be our endeavour to help the Italians to make of Italy one administrative entity, and to allow them to take over the management of their own affairs as early as possible.

6. The conditions at present prevailing, both political and economic, indicate the probability of a rapid transition from Allied Military Government to Italian Government.

Declassified E.O. 12356 Section 3.3/NND No. 785015

6. The conditions at present prevailing, both political and economic, indicate the probability of a rapid transition from Allied Military Government to Italian Government.

7. The implementation of this policy will not be easy. The greatest tact, the greatest patience will be necessary. We should all remember that it is for the Italians to determine their own destiny, and that military government in circumstances prevailing now is necessary only for the protection of Allied troops and installations. A light rein with a firm hand should be the order of the day.

8. Above all, we must remember that it is our duty to administer rather than to intervene in the political future of Italy.

MEMO TO: VP, CA Section
VP, Economic Section
VP, Establishment Section.

1. I am sure that Vice Presidents will appreciate that operations being now in progress, the SCAO's of Armies and Regional Commissioners with their staffs are faced with urgent operational matters in the newly occupied territory.

2. HQ Allied Commission can greatly assist forward AMG's in two ways:

(a) By refraining from sending to them any correspondence except that of the most urgent nature. Regional Commissioners will have little time to read long directives and instructions which, in any case, should have been forwarded to them in the planning period. If instructions now have to be sent, let them be concise and short.

(b) By prohibiting the visits of officers to the newly occupied Regions, except on the most urgent matters or unless called for by the SCAO's or Regional Commissioners themselves.

3. We should have planned sufficiently well to make such visits unnecessary in the initial stages. We must leave it to the Regional Commissioners and SCAO's to send us the necessary information rather than send troupes of officers who will only harass the AMG staff in their difficult initial work.

4. Vice Presidents will, therefore, ensure:

(a) That directives and instructions of any length or consequence are submitted to them for signature before despatch, and should call for the minimum of paper work (no long questionnaires).

(b) That written communications are restricted to the minimum.

(c) That no officer or civilian official visits the forward areas without their personal approval.

5. Vice President, Establishment Section will report to the Executive Commissioner daily the names of officers sent from Headquarters to the forward Regions.

HEADQUARTERS ALLIED COMMISSION
APO 394
Transportation Sub-Commission

Tele :- 47S303
Our Ref :- AC/31/3/Tn.3.

27 April 1945

SUBJECT :- Request for Road Transport.

1. Requests for Road Transport are frequently submitted direct to Roads Division. This procedure is incorrect and results in unnecessary delay.

2. Attention is invited to Movements Division (Roads) Memorandum No. 1 para 3 (a) issued under Ref. AC/31/1/Tn.3. on 5 April '45, in which the correct bidding procedure is set out.

HEADQUARTERS ALLIED COMMISSION
APO 394
Office of the Executive Commissioner

14 April 1945.

TO: All British Officers of Allied Commission Headquarters.

1. At the American Embassy (Palazzo Margherita, Via Veneto, opposite Ambassadors Hotel) is a book in which British officers can sign their names as a token of sympathy with the United States on the death of their President.

2. The book is kept on the right of the main entrance to the building and it is thought that British officers of HQ would like to take advantage of this privilege.

3. This book will be available from Monday, 16 April until Saturday, 21 April.

SUBJECT: Soldiers' Savings Campaign

TO: All Concerned

1. To the extent that it will not interfere with military operations it is desired to revitalize and accelerate the War Bond and Soldiers' Savings Campaign. Accordingly War Bond and Savings officers will make an analysis of payrolls and of pay vouchers of all personnel in their units in order to ascertain the correct status of individual savings. As soon as practicable after the analysis is completed, an interview will be conducted by an officer with each individual who does not have a systematic planned savings program covering that part of his pay which is not necessary for his current expenses. The savings program will be fully explained and the individual will be advised to take advantage of one or more of the available methods which are mentioned in letter, this headquarters, file AG 240/470 WDC-O, dated 3 April 1945, subject: "Soldiers' Savings Campaign". This must be on a strictly voluntary basis. No coercion or undue pressure will be employed but persuasive means will be used to induce the individual to save money.

2. To assist the War Bond and Savings Officers in conducting the campaign, an organization for this purpose will be perfected in each echelon. In this connection see letter, this headquarters, file AG 018.1/450 FD-O, dated 26 March 1945, subject: "Planning and Administration Board for War Savings Bonds and Soldiers Savings". The active participation in the campaign by all members of the council or board is essential. In the unit level (company, battery, Air Corps squadron, detachment, etc.), the commanding officer will take an active personal interest and will support the work of the War Bond and Savings Officer. The latter will be aided by the Personnel Officer, the Class "A" Agent Finance Officer, the First Sergeant, the Company Clerk, and as many additional enlisted personnel as are desired. Those selected should be schooled in procedure and given full information regarding the campaign so that they may produce the best results and act individually as salesmen.

3. The Seventh War Loan Drive is now in progress and it is desired that every effort be exerted to increase the number of Class "B" Allotments, to increase the amounts of allotments now in effect, and to encourage purchase of bonds for cash. No competition between units is to be conducted. An esprit de corps should be encouraged, however, and pride in his unit and desire for it to make a good showing should be fostered.

dtd 14 April 1945 (Cont'd)

4. The over-all plan by this headquarters is designed to aid the War Bond and Savings Officer. They are expected and urged, however, to use their own ideas to augment the plans of this headquarters. Any special means may be initiated or employed for the purpose of encouraging savings so long as they are equitable, fair and do not violate existing regulations.

5. Results largely depend upon the efforts of the War Bond and Savings Officers, and Commanders will utilize to the utmost the capabilities of their War Bond and Savings Officers in order that the objectives of the campaign will be attained.

SUBJECT : Status of School and University personnel employed by Allies.

TO : See Distribution

1 Various AC/AMG organisations are employing as civilian assistants, teachers and professors whose services are at present not required by the Minister of Public Instruction but who are in receipt of pay from the Italian Government.

2 Questions have been raised as to the present status of such employees in relation to the preservation of their civil service and seniority rights within the Ministry of Public Instruction.

3 These employees are drawing pay from the Italian Government as well as from the Allies.

4 There are attached copies of instructions issued by the Ministry of Public Instruction dated 15 Aug 1944, 25 Jan and 29 Jan 1945 which in brief sets out the present position of those employees with regard to pay and pension.

5 It is necessary, however, that details of individuals who are employed and pid by AC/AMG and at the same time drawing pay from the Italian Govt should be given to the Ministry of Public Instruction so that their status may be regularised. For this purpose two copies of the attached form will be completed and returned to Education Sub-Commission in respect of each such employee. It is requested that these forms be returned as soon as possible.

OGGETTO : Insegnanti e impiegati in servizio presso gli Enti Alleati.

Con riferimento alle circolari del 15 agosto 1944, n.376, e del 26 dicembre 1944, n.366, si precisa che le istruzioni impartite valgono non soltanto per gli impiegati ed insegnanti che prestano servizi o alle dipendenze della Sottocommissione Alleata per l'Educazione, ma altresi' per quelli che comunque si trovano in servizi o presso gli Enti del Governo Militare Alleato o presso le Forze Armate Alleate.

Resta fermo che, senza alcun pregiudizio per i loro diritti di carriera, verra' sospesa ai predetti impiegati e insegnanti la corresponsione degli assegni in godimento da parte della Amministrazione italiana. Alla corresponsione degli assegni provvederanno gli Enti Alleati, i quali faranno quanto prima conoscere se la corresponsione avverra' al lordo ovvero al netto.

Mentre si prega di impartire le opportune istruzioni agli uffici dipendenti, si ricorda, con riferimento alla circolare del 26 dicembre l'invito gia' rivolto a codeste Direzioni Generali di far conoscere a questo Gabinetto il loro avviso in merito alla questione dei "rilasci" per la pensione e simili.

IL MINISTRO

SUBJECT : Teachers and employees employed by Allied Units.

Reference is made to circulars of 15 August 1944, No.376, and 26 December 1944, No.366. It is understood that these instructions apply not only to employees and teachers employed by Education Subcommission, but to those also employed by Allied Military Government and by Allied Units.

It is further understood that, without any prejudice to their career, the Italian Administration will suspend payment of allowances to above mentioned employees and teachers. Allied Units will provide for the payment of allowances and will let us know if the payment is gross or net.

While it is requested to give the necessary instructions to the offices under you, the Directors General are reminded (see circular of 26 August) of the request made to them to inform this Cabinet of their opinion on the question of the "rilasci" of pensions and similar.

MOVEMENTS DIVISION - ROAD - MEMORANDUM No.1

Instructions for the Reception, Screening and Movement of AC and Civilian Freight by Road

see 63

1. INTRODUCTION

The object of this Memorandum is to clarify and lay down a system for the submission of applications for transport by road of AC and Civilian traffic, and to bring to the notice of all concerned some of the difficulties and the background which led up to the establishment of such a system, so that those concerned will observe the system laid down. See Appendix 'A' General Outline.

2. Broadly the traffic can be divided into the following categories:-

(a) Civilian traffic for movement within Italian Government Territory.
Note:- Movement may not take place outside Italian Government Territory without permission of AC/AMG.

(b) Civilian traffic for movement from, to or within that part of liberated Italy north of Italian Government Territory and south of Army Rear Boundary.

(c) AC sponsored traffic, that is traffic especially arranged by one of the AC Sub-Commission.

(d) Traffic moving in Army Areas. 339

3. BIDDING PROCEDURE AND MOVEMENT

(a) Civilian Traffic

Bids must be made to the Provincial Commissioner of ENAC on Form ENAC 3 (Appendix 'B'). Further particulars of ENAC organisation are given at Apps.'A', 'B', 'C' & 'D'.

(b) Civilian Traffic

1. INTRODUCTION

The object of this Memorandum is to clarify and lay down a system for the submission of applications for transport by road of AC and Civilian traffic, and to bring to the notice of all concerned some of the difficulties and the background which led up to the establishment of such a system, so that those concerned will observe the system laid down. See Appendix 'A' General Outline.

2. Broadly the traffic can be divided into the following categories:-

(a) Civilian traffic for movement within Italian Government Territory.
Note:- Movement may not take place outside Italian Government Territory without permission of AC/AMG.

(b) Civilian traffic for movement from, to or within that part of liberated Italy north of Italian Government Territory and south of Army Rear Boundary.

(c) AC sponsored traffic, that is traffic especially arranged by one of the AC Sub-Commission.

(d) Traffic moving in Army Areas.

339

3. BIDDING PROCEDURE AND MOVEMENT

(a) Civilian Traffic

Bids must be made to the Provincial Commissioner of ENAC on Form ENAC 3 (Appendix 'B'). Further particulars of ENAC organisation are given at App.'A', 'B', 'C' & 'D'.

(b) Civilian Traffic

Application for movement by road within that part of Liberated Italy, North of Italian Government Territory and South of Army Rear Boundary will be made to the AMG Provincial Commissioner of the Province wherein the loading point is situated.

The Provincial Commissioner will be responsible for deciding the priority, if it can be executed within the limits of transport at his disposal.

Declassified E.O. 12356 Section 3.3/NND No. 785015

If the Provincial Commissioner concerned is unable to execute, but feels that the traffic is of such importance as to warrant special consideration, he will submit the application to Regional HQ. If Regional Commissioner considers movement necessary but cannot arrange, he will submit application to the appropriate Sub-Commission (Commerce, Food, etc.) of HQ. AC. for consideration. That Sub-Commission will either:

(i) reject, in which event Regional Commissioner will be notified or

(ii) submit to Transportation Sub-Commission, Movements Division, Road Branch, on Road Transport Bid Form as per specimen attached at Appendix 'E' (in quadruplicate).

(c) AC (sponsored) Traffic

Bid Form as per specimen attached at Appendix 'E' will be completed by AC Sub-Commission concerned in respect of any application for Road Transport. Programmes are prepared for 10 day periods i.e. 1st 10th, 11th - 20th and 21st. - 31st. (30) of each month.
Bids must be lodged with Movements Division - Roads Branch of Transportation Sub-Commission by the first day of the period prior to the one during which movement is required.
In the case of movements involving 100 tons or more from one loading point as much warning as possible should be given.

(d) Army Areas

Application for movement in Army Areas will be submitted to SCAO, AMG 5 Army or 8 Army, whichever refers.
If movement is accepted it will be effected by the transport at the disposal of AMG - Army concerned.

(e) Traffic of all categories where other forms of transport are involved.

(i) RAIL

Before any traffic can be carried by Rail a Bid - Request for Rail Transportation - Form TSC/3 must be completed. This form includes a declaration that transport and labour has already been arranged for the loading and unloading of the rail

Declassified E.O. 12356 Section 3.3/NND No. 785015

(i) reject, in which event Regional Commissioner will be notified or

(ii) submit to Transportation Sub-Commission, Movements Division, Road Branch, on Road Transport Bid Form as per specimen attached at Appendix 'E' (in quadruplicate).

(c) AC (sponsored) Traffic

Bid Form as per specimen attached at Appendix 'E' will be completed by AC Sub-Commission concerned in respect of any application for Road Transport. Programmes are prepared for 10 day periods i.e. 1st 10th, 11th - 20th and 21st.- 31st. (30) of each month.
Bids must be lodged with Movements Division - Roads Branch of Transportation Sub-Commission by the first day of the period prior to the one during which movement is required.
In the case of movements involving 100 tons or more from one loading point as much warning as possible should be given.

(d) Army Areas

Application for movement in Army Areas will be submitted to SCAO, ANG 5 Army or 8 Army, whichever refers.
If movement is accepted it will be effected by the transport at the disposal of ANG - Army concerned.

(e) Traffic of all categories where other forms of transport are involved.

(i) RAIL

Before any traffic can be carried by Rail a Bid - Request for Rail Transportation - Form TSC/3 must be completed. This form includes a declaration that transport and labour has already been arranged for the loading and unloading of the rail wagons. Any firm, person or sub-Commission requiring the assistance of road transport for the commencement or completion of a railway haul must therefore make preliminary arrangements with the relative authority according to location as laid down in (a), (b), (c), (d) of this paragraph.

Declassified E.O. 12356 Section 3.3/NND No. 785015

(ii) SEA

Movements from Ships Side to local Warehouse will be effected under the normal conditions appertaining at the Port of Discharge of Ship. Movement by Road required from Ships side to a destination outside the Port Area will be requested from the relative authority as laid down in (a), (b), (c), (d) of this Paragraph.

4. DOCUMENTATION

Bid Form (Appendix 'E') must always be lodged with Movements Division - Road Branch in quadruplicate. If bid is accepted the four copies will be disposed of as follows:-

1 Copy returned to Sub-Commission which submitted bid notifying them of acceptance and the instructions passed to Roads Division.

2 Copies to Roads Division. One to be passed by them to operator and one to be retained for file.

1 Copy retained by Mov - Roads for file.

If bid is rejected 3 copies of form will be returned to Sub-Commission which submitted the bid and one copy retained by Mov - Roads for file.

5. CHARGES

All charges for Road Transport will be based on ENAC tariff (see Appendix 'D').

General Outline.

ENAC.

1. The Italian Government through its Ministry of Communications set up a Corporation to investigate the problem of Road Transport in Dec. 1943. Following upon these investigations Italian Law created the Corporation entitled :- ENTE NAZIONALE AUTOTRASPORTI COSE (National Agency Motor Transportation of Goods)., which will be referred to here after as ENAC. It was sanctioned by Lieutenancy Decree Law No. 188 dated 17 August 1944 and commenced to function 1 Feb 45. It is a non-profit organisation designed on commercial lines.

2. Under the Decree Law owners of vehicles are compelled to register with ENAC and are only permitted to trade through ENAC. It is prohibited to transport goods by road excepting with ENAC authority, and subject to ENAC terms, conditions and rates of freight. Plans are in hand for Italian Government Control of the issue of Tyres, Petrol and Spares whereby only those Commercial (Goods) vehicles operating for ENAC will be able to procure such supplies.

3. At the present time ENAC control all civilian road transport in Italian Government Territory, which territory includes all Provinces on the Mainland of Italy, south of (excluding) the Provinces of ASCOLI, PERUGIA, TERNI and GROSSETO and in addition the Island of SARDINIA. Road Transport in SICILY is at present operated by I.N.T. (National Transport Institute). It is anticipated that SICILY will be brought into the ENAC scheme in the very near future.

4. Transport within one Province or two adjoining Provinces is arranged by Provincial Directorate.

Transport outside one Province or two adjoining Provinces is arranged by Compartment Directorate, so long as it is confined to two adjoining Compartments.

Transport beyond two adjoining Compartments is arranged by H.Q. in ROME.

5. Scale of ENAC charges is given at Appendix "D".

W.D.VEHICLES.

[illegible] four of these Coys equipped

to function 1 Feb 45. It is a non-profit organisation designed on commercial lines.

2. Under the Decree Law owners of vehicles are compelled to register with ENAC and are only permitted to trade through ENAC. It is prohibited to transport goods by road excepting with ENAC authority, and subject to ENAC terms, conditions and rates of freight. Plans are in hand for Italian Government Control of the issue of Tyres, Petrol and Spares whereby only those Commercial (Goods) vehicles operating for ENAC will be able to procure such supplies.

3. At the present time ENAC control all civilian road transport in Italian Government Territory, which territory includes all Provinces on the Mainland of Italy, south of (excluding) the Provinces of ASCOLI, PERUGIA, TERNI and GROSSETO and in addition the Island of SARDINIA. Road Transport in SICILY is at present operated by I.N.T. (National Transport Institute). It is anticipated that SICILY will be brought into the ENAC scheme in the very near future.

4. Transport within one Province or two adjoining Provinces is arranged by Provincial Directorate.

Transport outside one Province or two adjoining Provinces is arranged by Compartment Directorate, so long as it is confined to two adjoining Compartments.

Transport beyond two adjoining Compartments is arranged by H.Q. in ROME.

5. Scale of ENAC charges is given at Appendix "D".

W.D.VEHICLES.

6. Italian G.T. Coys. There are four of these Coys equipped with 120 x 3 ton Br. lorries/trucks and driven by Italian Army drivers under the control of Italian Army Officers (for discipline and administration). Each Coy is under command of a British Major with a cadre of British Officers and ORs.

7. Q.M. Truck Coys. These Coys are each composed of 52 x 2½ tons GMC 6 x 6 trucks. Coys are organised and operated in accordance with American Army requirements. Vehicles are driven by Italian Army drivers under the control of Italian Army Officers (for discipline and administration). Each Coy is under the command of an American Army Officer with a cadre of American Personnel.

Declassified E.O. 12356 Section 3.3/NND No. 785015

8. Truck Pools. From November 1943 onwards W.D. vehicles were allotted to A.C. for the formation of A.C. Civilian Supply Truck Pools. There are at present approx 550 such vehicles, in operation in liberated Italy. In addition, suitable civilian vehicles have been organised into Pools known as UFFICI TRASPORTI COSE. These pools have operated under the supervision of Regional Transportation Officers. They are run on the lines of the ENAC organisation and operate on the same tariff. In Southern Italy and SARDINIA the control of these pools is vested in ENAC. Negociations are in hand for ENAC to take over the control of pools and other non-pool vehicles in SICILY. Vehicles are driven by civilians living under their own arrangements and in consequence, are not mobile.

9. Future Increases in M.T.

According to present shipping programmes, 3174 Cased Vehicles are due to arrive in Italy by the end of June 1945. It is expected that all will be in operation by the beginning of August 1945

It is intended that all Q.M. Coys and G.T. Coys will be under Command Motor Transport Group A.C. (Italian Army Personnel).

IL MINISTRO PER L'INDUSTRIA, COMMERCIO E LAVORO

DI CONCERTO CON

IL MINISTRO PER I TRASPORTI

Visto il decreto Ministeriale 31 maggio 1944 che fissa i corrispettivi per i trasporti di cose su strada con automezzi;

Visto il decreto legislativo Luogotenenziale 17 agosto 1944, n. 188, che stabilisce l'istituzione dell'Ente Nazionale Autotrasporti Cose (E.N.A.C.);

Ritenuta la necessità di adeguare i corrispettivi stessi alla situazione contingente;

Sentito il Comitato interministeriale dei prezzi;

Decreta:

Articolo unico.

I corrispettivi per i trasporti di cose con automezzi non potranno superare quelli indicati nelle unite tabelle e norme di applicazione.

Il presente decreto ha effetto dal 1° febbraio 1945.

Roma, addì 30 gennaio 1945

ALLEGATO *B*.

NORME PER L'APPLICAZIONE

I. — NORME GENERALI.

Agli effetti dell'applicazione delle tariffe di cui al presente decreto, s'intende:

a) per *autotreno* un autoveicolo atto al trasporto di cose composto congiuntamente di motrice e di rimorchio;

b) per *autocarro* un veicolo atto al trasporto di cose costituito dalla sola motrice;

c) per *motocarro* un autoveicolo a tre ruote, atto al trasporto di cose, avente portata utile compresa fra 350 e 1000 kg. e gli analoghi tipi di portata superiore, ancora eccezionalmente in circolazione;

d) per *motofurgone* un autoveicolo a tre ruote, atto al trasporto di cose, avente portata utile inferiore o eguale a 350 kg.;

e) per *automezzo* indistintamente l'autotreno, l'autocarro, il motocarro ed il motofurgone;

f) per *portata utile* quella indicata nella licenza di circolazione e solo ad essa bisogna riferirsi nel calcolare il corrispettivo dovuto al trasporto (salve le eccezioni più sotto elencate);

g) per *sosta*, il tempo intercedente tra il momento in cui l'automezzo giunge al luogo di carico o scarico e quello in cui riparte da detto luogo;

h) per *luogo di ingaggio*, il luogo dove è la stazione o l'ufficio dell'ENAC dalla quale il trasporto dipende.

II. — STRUTTURA DELLA TARIFFA.

La tariffa è composta:

a) da una quota di ingaggio, dovuta indipendentemente dalla distanza che l'automezzo deve percorrere e comprensiva del compenso per il percorso autorimessa-luogo d'ingaggio e ritorno;

b) da una quota chilometrica;

c) da una maggiorazione di L. 0,96 per ogni q.le-km. effettuato, non applicabile ai motofurgoni;

d) dell'imposta sull'entrata.

— le quote di cui alle lettere *a*) e *b*) risultano dalle allegate tabelle;

0321

Declassified E.O. 12356 Section 3.3/NND No. 785015

— le quote di cui alle lettere *c*) e *d*) devono essere computate *in aggiunta* a quelle risultanti da dette tabelle.

Pertanto, salvo le eccezioni di cui ai punti seguenti, a *ciascun trasporto* si applica:

a) la quota fissa di ingaggio;

b) la quota chilometrica e la maggiorazione di cui alla precedente lettera *c*), sia sul percorso di andata a carico, sia su quello di ritorno a vuoto o viceversa;

c) l'imposta sull'entrata sul totale delle voci precedenti, *dovuta per ciascun trasporto nella misura stabilita dalla legge*.

Dette tariffe sono le massime in ogni caso applicabili ed i prefetti, sentiti i direttori compartimentali dell'ENAC, hanno facoltà di ridurre le quote di ingaggio e le quote chilometriche nei limiti del 10 % per quelle province nelle quali il minor costo della vita giustifichi tale riduzione.

Per i trasporti di massa e specialmente per quelli che interessano l'alimentazione, i direttori provinciali e compartimentali promuoveranno speciali accordi forfetari con gli Enti interessati, in diminuzione delle presenti tariffe, eventualmente indicendo la gara fra gli autotrasportatori per l'appalto di tali trasporti.

III. — Carico, stivatura e scarico.

Il carico, la stivatura e lo scarico delle merci devono essere eseguite rispettivamente a cura e spese del mittente e del destinatario.

IV. — Peso tassabile.

Salvo le eccezioni di cui ai punti seguenti, le tariffe si applicano sulla portata utile dell'automezzo.

V. — Distanza tassabile.

Salvo le eccezioni di cui ai punti seguenti, le tariffe si applicano sul percorso: luogo di ingaggio, luogo di scarico del trasporto e ritorno.

L'itinerario tassabile è quello effettivamente seguito dall'automezzo tenendo conto delle necessarie deviazioni e delle circonvallazioni.

Le distanze si desumono dalla carta automobilistica al 200.000 della Consociazione Turistica Italiana (T.C.I.).

0324

Declassified E.O. 12356 Section 3.3/NND No. 785015

VI. — Effettuazione di più trasporti con lo stesso automezzo.

Se con lo stesso automezzo vengono contemporaneamente effettuate più spedizioni, da caricare e scaricare nello stesso luogo, le tasse si applicano, come se si trattasse di un unico trasporto, sulla portata utile dell'automezzo e si ripartiscono poi fra i vari trasporti in proporzione al peso di ciascuno.

Quando invece il carico e lo scarico non avvengono negli stessi luoghi, ma tuttavia trattisi di spedizioni da effettuare con lo stesso automezzo e sullo stesso itinerario (il cui termine sarà stabilito dal trasporto destinato più lontano) per *ciascun trasporto* sarà dovuta la quota di ingaggio che competerebbe per un automezzo di portata utile pari al peso reale del trasporto medesimo, mentre la quota chilometrica sarà calcolata sulla portata utile del mezzo e ripartita poi, così come la maggiorazione cui al punto II lettera c), fra i vari trasporti in proporzione dei q.li-km. di ciascuno.

Qualora la somma delle varie quote di ingaggio calcolate come è detto sopra, risulti inferiore alla quota di ingaggio che sarebbe dovuta in base alla portata utile dell'automezzo, si applicherà quest'ultima, ripartendola poi, come avviene per la quota chilometrica, fra i vari trasporti proporzionalmente ai q.li-km. di ciascuno.

VII. — Trasporti effettuati utilizzando percorsi a vuoto.

L'automezzo che, in relazione ad un primo trasporto, deve effettuare un determinato percorso a vuoto, può essere utilizzato per un altro trasporto da effettuare sul percorso medesimo.

Al nuovo trasporto si applica la tariffa che competerebbe per un automezzo di portata utile pari al peso reale del trasporto medesimo e per la distanza che questo effettivamente deve percorrere.

Il mittente del primo trasporto pagherà in tal caso la quota chilometrica e la maggiorazione di cui al punto II lettera c) afferente al percorso che si sarebbe dovuto effettuare a vuoto, diminuita della quota chilometrica e della maggiorazione sopra detta che viene a pagare il nuovo trasporto.

VIII. — Trasporti in serie.

Se l'automezzo, effettuato il primo trasporto, anzichè rientrare direttamente al luogo d'ingaggio, viene utilizzato per altre spedizioni poste su itinerario diverso da quello di ritor-

0325

Declassified E.O. 12356 Section 3.3/NND No. 785015

ne, la tariffa da applicare a *carsen trasporto* deve essere computata come segue:

a) calcolando la quota di ingaggio in rapporto alla portata utile del mezzo;

b) calcolando la quota chilometrica e la maggiorazione di cui al punto II lettera *c*) per il percorso da ciascuno effettuato a carico, pure in base alla portata utile dell'automezzo;

c) attribuendo a ciascuno una parte della quota chilometrica e della maggiorazione di cui al punto II lettera *c*) competente al percorso od ai percorsi a vuoto (sempre calcolata in base alla portata utile dell'automezzo) in proporzione dei chilometri da ciascuno effettuati a carico.

IX — Effettuazione di piu' trasporti nella medesima giornata.

Se un automezzo effettua più trasporti nella medesima giornata la quota di ingaggio deve essere riscossa una sola volta (calcolandola naturalmente sulla portata utile dell'automezzo) e ripartita in parti proporzionali ai q.li-km. da ciascun trasporto effettuati.

X — Maggiorazione della tariffa.

Quando, per disposizione del mittente, che dovrà tassativamente risultare da un documento scritto, il trasporto venga effettuato nelle ore notturne (cioè da 2 ore dopo il tramonto del sole all'alba) e dopo 8 ore dal momento in cui l'automezzo è stato posto a disposizione, la quota di ingaggio e le quote chilometriche saranno aumentate del 7 % nel primo caso e del 4,5 % nel secondo caso. Tale maggiorazione non si applica nel caso di prosecuzione di viaggio o di ritorno a vuoto.

Per gli automezzi costruiti con attrezzatura fissa e destinati al trasporto continuo ed esclusivo di determinate cose, la cui natura risulterà da apposita annotazione sulla licenza di circolazione, si applicheranno la quota di ingaggio e la quota chilometrica aumentate del 10 %.

Per i colli di straordinario peso, cioè per quelli eccedenti la metà della portata utile dell'automezzo, la quota di ingaggio e la quota chilometrica saranno pure aumentate del 10 %.

Per gli autotreni cisterna e le autocisterne saranno invece aumentate del 20 %.

0326

Declassified E.O. 12356 Section 3.3/NND No. 785015

XI. — Tempo a disposizione per il carico e lo scarico.

Le presenti tariffe sono comprensive del tempo occorrente per le operazioni di carico e scarico, che devono effettuarsi nel tempo massimo di 80 q.li all'ora per gli autotreni e di q.li 40 all'ora per gli altri automezzi.

Ogni perditempo dovuto ad operazioni di carico e scarico oltre i limiti sopra indicati, o ad altre ragioni comunque imputabili al mittente od al destinatario, è penalizzato nella misura seguente per ogni ora o frazione di ora:

L. 300 per gli autotreni di portata utile superiore a 120 quintali;

L. 250 per gli autotreni di portata utile fino a 120 q.li;

L. 200 per gli autocarri di portata utile superiore a 30 quintali;

L. 150 per i motocarri ed i motofurgoni.

XII. — Pernottazioni.

Se un automezzo resta impegnato durante la notte, cioè da due ore dopo il tramonto all'alba del giorno successivo, deve essere corrisposto al vettore, in aggiunta alla tariffa, la somma di L. 400 per ogni pernottazione.

Laws Relating to Marriage

50-2

. Special Provisions for French North and West Africa (Including Corsica).

French Ordinance of 16 April 1943.

'Article I - Members of the United States Forces, including members of the Women's Army Corps, are eligible to marry in the territories governed by the French civil and military commander-in-chief, notwithstanding the existence of the provisions of the decree of 12 November 1938, upon presentation of the certificate referred to in Article II hereof."

"Article II - A certificate by the Commander of the United States Forces, or a person designated by him, showing the military and civil status, domicile and, in accordance with United States law, the eligibility of the person to be married will be accepted in lieu of copies of birth certificates or the notary's affidavit set forth in 70 and following articles of the Civil Code, as well as the "Certificat de Coutume" stating that the domiciliary matrimonial requirements are in order."

"Article III - The above regulations are the law."

8. The original of the written approval of marriage granted as herein provided, when presented to the officer of civil status, will permit that official to waive the requirements of French law, except as to publication of banns which may be waived by the Attorney for the Republic in the district where the marriage is to be celebrated. A true copy of said certificate of approval will be filed with the service or other appropriate record of the individual and remain a permanent part thereof.

9. The proposed wife or husband, if not covered by the ordinance quoted above, must comply with the laws of France with reference to marriage. The French law requires as a preliminary to the celebration of marriage (1) the consent of his parents if he is under the age of 21 years; (2) a birth certificate and indorsed thereon the parental consent, if the person is under 21 years of age; (3) or in lieu of the certificate of birth a certificate of identity procured from a Justice of the Peace, which certificate must be approved by the Tribunal of First Instance of the place where the marriage is to be celebrated; and (4) wait ten days during which banns are published.

II. Special Provisions for Italy, Sicily and Sardinia.

Italian Decree of 28 December 1944, No. 430.

ARTICLE I: For the purpose of the celebration of marriage in Italian Territory between foreigners belonging to the United States Forces, subject to military law, land or maritime, or between them and Italian citizens, or foreigners resident in Italian territory, the Catholic chaplains of the said forces shall be deemed to be ministers of the Catholic Religion in the sense of the law of 27 May 1929, No. 847, and the non-Catholic chaplains shall be deemed of the same standing as ministers of the religions admitted by the State, nominated and approved in accordance with Article 3 of the law of 24 June 1929, No. 1159.

Marriage celebrated before the said chaplains shall produce civil effects as of the date of the celebration when it is followed by transcription in the registers of the Italian Vital Statistics Records ("Registri dello Stato Civile") Office pursuant to the provisions contained in the following article.

Declassified E.O. 12356 Section 3.3/NND No. 785015

affidavit set forth in 70 and following Articles of the Civil Code, as follows: the "Certificat de Coutume" stating that the domiciliary matrimonial requirements are in order."

"Article III - The above regulations are the law."

8. The original of the written approval of marriage granted as herein provided, when presented to the officer of civil status, will permit that official to waive the requirements of French law, except as to publication of banns which may be waived by the Attorney for the Republic in the district where the marriage is to be celebrated. A true copy of said certificate of approval will be filed with the service or other appropriate record of the individual and remain a permanent part thereof.

9. The proposed wife or husband, if not covered by the ordinance quoted above, must comply with the laws of France with reference to marriage. The French law requires as a preliminary to the celebration of marriage (1) the consent of his parents if he is under the age of 21 years; (2) a birth certificate and indorsed thereon the parental consent, if the person is under 21 years of age; (3) or in lieu of the certificate of birth a certificate of identity procured from a Justice of the Peace, which certificate must be approved by the Tribunal of First Instance of the place where the marriage is to be celebrated; and (4) wait ten days during which banns are published.

II. Special Provisions for Italy, Sicily and Sardinia.

Italian Decree of 28 December 1944, No. 430.

ARTICLE I: For the purpose of the celebration of marriage in Italian Territory between foreigners belonging to the United States Forces, subject to military law, land or maritime, or between them and Italian citizens, or foreigners resident in Italian territory, the Catholic chaplains of the said forces shall be deemed to be ministers of the Catholic Religion in the sense of the law of 27 May 1929, No. 847, and the non-Catholic chaplains shall be deemed of the same standing as ministers of the religions admitted by the State, nominated and approved in accordance with Article 3 of the law of 24 June 1929, No. 1159.

Marriage celebrated before the said chaplains shall produce civil effects as of the date of the celebration when it is followed by transcription in the registers of the Italian Vital Statistics Records ("Registri dello Stato Civile") Office pursuant to the provisions contained in the following article.

ARTICLE II: If the parties are both foreigners, the Officer commanding the military formation to which one of them belong shall, within thirty days of the celebration of the marriage, make request for transcription to the official of the Vital Statistics records ("Ufficiale di Stato Civile") of the commune in the territory of which the said celebration took place.

The request shall be accompanied by:

(1) the marriage certificate, countersigned by the said officer who will certify as to its authenticity. The following information shall result from the marriage certificate.

(a) The name and surname, the age and profession, the place of birth, the nationality, the domicile or residence of the parties in the State to which they belong;

Declassified E.O. 12356 Section 3.3/NND No. 785015

(b) the name and surname, the domicile or residence of their parents;

(c) the place and date of the celebration of marriage;

(d) the name and surname of the chaplain before whom the said marriage was celebrated.

(2) The translation of the certificate of marriage into the Italian language, bearing the visa of the said officer;

(3) a declaration in the Italian language or accompanied by a translation into the Italian language, bearing the visa as set out in the preceding paragraph, from which it results that pursuant to the laws to which the applicants are subject, there is no impediment to their marriage. Moreover, it must follow from this declaration that the dispositions of Italian law contained in Articles 85, 86, Nos. 1, 2, and 4 of 87, 88, and 89 of the Civil Code do not constitute an impediment to the marriage.

The declaration mentioned under No. 3 of the preceding paragraph shall be delivered by the General Commanding the North African Theater of Operations or by an officer delegated by him, and also in respect of persons accompanying the forces of the United States of America or who are in the service of the said forces or are in the employ of the Government of the United States. Such declaration shall contain the indications set out in Sub-Paras (a) and (b) of Para. 1 above.

ARTICLE 3: If one of the parties is an Italian citizen, the celebration of marriage must be preceded by publication, pursuant to Article 93 and following of the Civil Code, at the place of residence of the party who is an Italian citizen. The chaplain before whom the marriage takes place shall read Articles 143, 144 and 145 of the Civil Code to the parties.

The marriage certificate must be compiled immediately after the celebration, written in the Italian language in the form provided for by Articles 107 and 108 of the Civil Code and Articles 126, 128, and 129 of the Royal Decree of 9 July 1939, No. 1238 on Civil Status regulations, and must be transmitted in original to the official of the vital statistics records to whom the request for publication was made, not more than five days after the celebration. In respect of the party who is not an Italian citizen, the declaration indicated in sub-para (3) of the preceding Article must accompany the certificate of marriage.

If the marriage has been celebrated before a Minister of the Catholic religion, the transcription follows according to the prescriptions of Articles 9, 11, 12, 13, 14, and 15 of the law of 27 May 1929, No. 847.

ARTICLE 4: Whenever the persons mentioned in Article I intend celebrating marriage before an official of the Italian Vital Statistics records, the declaration prescribed in sub-para (3) of Article 2 of the present law shall take the place of the declaration required under Article 116 of the Civil Code.

If the marriage has been celebrated before a Minister of the Catholic religion, the transcription follows according to the prescriptions of Articles 9, 11, 12, 13, 14, and 15 of the law of 27 May 1929, No. 847.

ARTICLE 4: Whenever the persons mentioned in Article I intend celebrating marriage before an official of the Italian Vital Statistics records, the declaration prescribed in sub-para (3) of Article 2 of the present law shall take the place of the declaration required under Article 116 of the Civil Code.

Civil Code

ARTICLE 85 - Interdiction because of unsound mind.

No person interdicted for mental incapacity shall contract marriage. Pending the issue for the petition of interdiction, the public attorney may request that the celebration of marriage be suspended. In this case the marriage cannot be celebrated until the time for appeal of the judgment for interdiction has elapsed.

ARTICLE 86 - Impediments.

No person bound by a previous marriage shall contract marriage.

ARTICLE 87 - Consanguinity, Affinity, Adoption and Fosterage.

Marriage shall not be contracted between the following persons:

1. The ascendants or descendants in the direct line, whether legitimate or natural.

Declassified E.O. 12356 Section 3.3/NND No. 785015

2. Brothers and sisters whether of the whole or of the half blood.

3. The collateral relations in the direct line. This impediment applies also in case the marriage from which it springs is declared null.

50-3

RTICLE 88 - Crime.

No person who has been convicted of murder or of attempted murder may c.n-tract marriage with the spouse of the victim. If the date has been set for the trial or if the arrest of the person has been ordered, the marriage shall not be celebrated until judgment of acquittal has been rendered.

ARTICLE 89 - Time Limitation on Re-Marriage.

The wife shall not be at liberty to contract another marriage until three hundred days after the dissolution or the annulment of her preceding marriage, unless the marriage has been declared null according to Article 123.

The Sovereign or competent authorities may make exceptions to such prohibition.

This prohibition terminates the day on which the wife gives birth.

ARTICLE 107 - Formalities of celebration.

On the day set for the marriage, the official of vital statistics records shall read off to the intended husband and wife the provisions of Articles 143, 144, and 145 in the presence of two witnesses, who may be related to the parties. He shall receive from each of the parties separately and in succession their declaration of the desire to take each other for husband and wife respectively and he shall then declare that the parties are united in marriage.

The marriage certificate shall be drawn up immediately after the celebration.

RTICLE 108 - Prohibition of the setting of time limits and conditions.

The declaration of each party that they take each other in marriage shall not be subject to time limits or conditions. If the parties should add a time limit or a condition, the official of vital statistics records shall not proceed with the celebration of the marriage.

If the marriage is celebrated in spite of it, the time limit and conditions shall be disregarded.

ARTICLE 143 - Mutual duties.

Marriage binds the parties to the mutual obligation of cohabitation, fidelity, and support.

RTICLE 144 - Marital authority.

The husband is the head of the family. The civil status of the wife shall be identified with that of the husband; she takes his surname and is obliged [illegible] he chooses to reside.

Declassified E.O. 12356 Section 3.3/NND No. 785015

If the marriage is celebrated in spite of it, the time limit and conditions shall be disregarded.

ARTICLE 143 - Mutual duties.

Marriage binds the parties to the mutual obligation of cohabitation, fidelity, and support.

RTICLE 144 - Marital authority.

The husband is the head of the family. The civil status of the wife shall be identified with that of the husband; she takes his surname and is obliged to follow him wherever he chooses to reside.

ARTICLE 145 - Duties of the husband.

The husband is bound to protect his wife, to support her while with him and to furnish her with whatever is required for the convenience of life, in accordance with his means.

The wife shall contribute to the support of the husband if he lacks sufficient means.

Law of 24 June 1929, No. 1159

RTICLE 3. The appointment of ministers of religions different from the State religion must be notified to the Minister of Justice and Religious Affairs for approval. No civil effects can be recognized for acts performed in the course

Declassified E.O. 12356 Section 3.3/NND No. 785015

of their ministry by such ministers of religion, if their appointment has not received governmental approval.

Royal Decree No. 1238 of 9 July 1939.

ARTICLE 126. The marriage certificate shall indicate:

(1) the name and surname, the age, the citizenship or the status as a subject, the race, the occupation, the place of birth and the residence of the spouses;

(2) the name and surname of their parents;

(3) the consent of the person exercising paternal power or guardianship or the consent of the guardian of the emancipated minor, if such guardian is one of the parents, or the authorization referred by Art. 88, fourth paragraph, of the first book of the civil code.

(4) the date of the banns, or the decree of dispensation (from banns).

(5) the date of the decree granting dispensation from any legal impediments.

(6) the declaration by the spouses that they wish to take each other as husband and wife.

(7) the place where the marriage will be celebrated, in the case provided for by Art. 108 of the first book of the civil code and the reason for the transfer of the official of vital statistics to such place.

(8) the statement by the official of vital statistics that the spouses have been married.

The requirements set out under No. 3, 4, and 5 shall not apply in the case provided for by Art. 99 of the first book of the civil code.

If the spouses at the celebration of the marriage, declare to acknowledge any natural children, such declaration shall be inserted in the marriage certificate and the provisions on the declaration of acknowledgement set out in Art. 73 shall apply.

ARTICLE 128. If the spouse is deaf or deaf and dumb and is able to read, the official of vital statistics shall have him read the Articles Nos. 141, 142, and 143 of the civil code.

If the spouse is deaf and dumb and is able to write, he shall state in writing that he wishes to contract marriage.

ARTICLE 129. If the spouse is deaf or deaf and dumb and is able neither to read nor write, the official of vital statistics shall appoint an interpreter in accordance with the provisions set out in Art. 105, and, after having taken his oath in conformity with the said article, shall through the interpreter question the spouse, obtain the answers from him and shall inform him as to the provisions of the law.

The compliance with such formalities shall be stated in the marriage certificate.

Declassified E.O. 12356 Section 3.3/NND No. 785015

guardian is one of the parents, or the authorization referred by Art. 88, fourth paragraph, of the first book of the civil code.

Col. Henderson.

I do not know if the Econ. Sec. was supplied by us with the information on p.4. on the principle of the land justifying the means, but it seems scarcely accurate.

3rd para: I understood this suggestion had already been discredited, the fact being that the wires were cut at Ragusa.

4th para: When the Shipping S/C approached me some months ago, all of the ports they mentioned had telegraph facilities, but no "secret" facilities.

Secondly, of a very long list of ports, small and large, all were on the telegraph except two small ports (with telegraphs within a few miles) and one or two in the Army area still barred to us.

5th para: The material was for 3/0 restoration in occupied, not liberated, Italy. Far more than 3/0 has been restored.

6th para: The statement here hinges on the interpretation of the word "almost" in the fourth line.

H. D. Henderson
6/4/45.

JUSTIFICATION

49-6

Perhaps the most vulnerable part of any modern nation is its communication system. It is the nervous system of the country, linking political, military and industrial headquarters with thousands of municipal bodies, military installations and factories.

Communications in Italy are centered in and emanate from Rome. This made it a relatively easy matter for the Germans to disrupt the system which they did with characteristic thoroughness.

With the passing of administrative control of liberated Italy to the Italian Government the need for communication facilities separate from the military arrangements has become a matter of vital importance. The present lack of this essential has resulted in, for instance, news of importance to the Italian Government reaching it after considerable delay and then only via military channels. The report of the recent disturbances in Sicily is an example of this.

Part of the system of movements control instituted by the Allied Commission, is the securing of daily telegraphic reports from each of the dozens of ports which are operated by the Italians (including both relatively large civilian ports like Castellammare and Civitavecchia and smaller ports used chiefly for coastwise schooner traffic. When it was first instituted, the new system nearly broke down (and the movements control of essential civilian supplies nearly broke down with it) on the simple mechanical problem of communications -- the inability to transmit the necessary reports from the ports involved because of the destruction and disrepair of the telegraph and telephone systems. To the extent that this reporting system is now working effectively, military telephone and telegraph facilities are largely being used.

A program is already in hand to provide for the restoration of 5 percent of prewar communications facilities in the liberated portion of Italy. A requisition for imported communications equipment and supplies, to accomplish this purpose has been sent forward as MCS-184-SIC and has been approved by the Combined Civil Affairs Committee.

When this requisition was prepared, the important aspects of the civil affairs responsibility in liberated Italy were still being performed by military agencies, including the Allied Commission, which have the whole of the communications systems of the American and British Armies at their command. This responsibility has now been handed over to the Italians; but the Italian authorities start with almost nothing in the way of rapid communications. It is considered that restoration of communications facilities up to 20% of prewar level is now required. Without this limited restoration, the Italian Government will not be able to perform the essential functions of administration and consequently will be unable to control. It is therefore considered that the provision of the required communication facilities properly falls within the military responsibility as defined in FAM 487 and is accordingly so submitted.

Declassified E.O. 12356 Section 3.3/NND No. 783015

With the passing of administrative control of liberated Italy to the Italian Government the need for communication facilities separate from the military arrangements has become a matter of vital importance. The present lack of this essential has resulted in, for instance, news of importance to the Italian Government reaching it after considerable delay and then only via military channels. The report of the recent disturbances in Sicily is an example of this.

Part of the system of movements control instituted by the Allied Commission, is the securing of daily telegraphic reports from each of the dozens of ports which are operated by the Italians (including both relatively large civilian ports like Castellammare and Civitavecchia and smaller ports used chiefly for coastwise schooner traffic. When it was first instituted, the new system nearly broke down (and the movements control of essential civilian supplies nearly broke down with it) on the simple mechanical problem of communications -- the inability to transmit the necessary reports from the ports involved because of the destruction and disrepair of the telegraph and telephone systems. To the extent that this reporting system is now working effectively, military telephone and telegraph facilities are largely being used.

A program is already in hand to provide for the restoration of 3 percent of prewar communications facilities in the liberated portion of Italy. A requisition for imported communications equipment and supplies, to accomplish this purpose has been sent forward as MCS-134-SIC and has been approved by the Combined Civil Affairs Committee.

When this requisition was prepared, the important aspects of the civil affairs responsibility in Liberated Italy were still being performed by military agencies, including the Allied Commission, which have the whole of the communications systems of the American and British Armies at their command. This responsibility has now been handed over to the Italians; but the Italian authorities start with almost nothing in the way of rapid communications. It is considered that restoration of communications facilities up to 20% of prewar level is now required. Without this limited restoration, the Italian Government will not be able to perform the essential functions of administration and consequently will be unable to control. It is therefore considered that the provision of the required communication facilities properly falls within the military responsibility as defined in FAN 437 and is accordingly so submitted.

CLAC I-240, Electric Light Bulbs
CLAC I-241, Insulators
CLAC I-233, Communications
CLAC I-242, Miscellaneous

SPECIAL PROGRAM : The items listed below are requested by the Italian Government for procurement and shipment to Italy as early as possible unless otherwise indicated below.

The Italian Governmen t authorizes payment out of the fund established pursuant to the letter addressed by the Italian Minister for the Treasury to the U.S. Secretary of the Treasury on 20 January 1945 for * such of the items listed below as shall be assigned for procurement to the United States.

Ship to : Italian ports to be detailed later

Consignee : Istituto Nazionale per Il Commercio Estero (ICE)

Shipping Markings : In accordance with WD Shipping Marking Directives; to include letters ICE and above Requisition Number.

Shipping D Documents : It is requested that four copies of the Ocean Bill of Lading be sent by Air Mail to Economic Section, AC, immediately after ship sails.

Program of Essential Italian Imports 1945

ELECTRIC POWER

Program No 10

Requisition Nos.	CLAC I-236	Electric Supply Industry
	237	Motors & Transformers
	238	Cables & Conductors
	239	Switches & Brushes
	240	Electric Light Bulbs
	241	Insulators
	233	Communications
	242	Miscellaneous

This program calls for materials and equipment designed to ensure a more efficient utilization of available electric power, especially for industrial purposes, and to provide for the effective transmission and utilization of additional electric power as the program for electric reconstruction goes ahead.

Italy has been a nation of abundant electricity; but much of the generating capacity has now been destroyed and the Italian Government is naturally anxious to make the fullest possible use of what is left or can be reconstructed.

The following paragraphs summarize the types of supplies requisitioned to aid in the production, transmission and efficient utilization of electric power in Liberated Italy.

ELECTRIC SUPPLY INDUSTRY

Program No.II-a-Requisition No. CLAC I-236

In general, two kinds of equipment or materials are required:

a) Maintenance, repair and operating supplies to be distributed or earmarked according to the most urgent demonstrated needs at the time they are delivered.

b) A variety of critically needed capital goods items to replace key items removed or destroyed by the Germans or rendered inoperative by fire.

The list of needs in the electric supply field have been made in the intention of including "common user" items as far as possible, so that they can be used in the North as well, if the need there is greater than that in Central or Southern Italy at the time the supplies actually arrive in Italy.

316

Declassified E.O. 12356 Section 3.3/NND No. 785015

239 Switches & Brushes
240 Electric Light Bulbs
241 Insulators
233 Communications
242 Miscellaneous

This program calls for materials and equipment designed to ensure a more efficient utilization of available electric power, especially for industrial purposes, and to provide for the effective transmission and utilization of additional electric power as the program for electric reconstruction goes ahead.

Italy has been a nation of abundant electricity; but much of the generating capacity has now been destroyed and the Italian Government is naturally anxious to make the fullest possible use of what is left or can be reconstructed.

The following paragraphs summarize the types of supplies requisitioned to aid in the production, transmission and efficient utilization of electric power in Liberated Italy.

ELECTRIC SUPPLY INDUSTRY

Program No.II-a-Requisition No. CLAC I-236

In general, two kinds of equipment or materials are required:

a) Maintenance, repair and operating supplies to be distributed or earmarked according to the most urgent demonstrated needs at the time they are delivered.

b) A variety of critically needed capital goods items to replace key items removed or destroyed by the Germans or rendered inoperative by fire.

The list of needs in the electric supply field have been made in the intention of including "common user" items as far as possible, so that they can be used in the North as well, if the need there is greater than that in Central or Southern Italy at the time the supplies actually arrive in Italy.

816

MOTORS

Program No.II-b-Requisition No.CLAC I-237

Italy before the war produced approximately 150,000 electric motors per year of all sizes and had in operation at that time about 1,500,000. (Exclusive of motors of less than 1/4 KW capacity). When occupied Italy is liberated it is foreseen that repair and construction of motors, due to high essentiality of this item, will be resumed almost immediately. Upon receipt

Declassified E.O. 12356 Section 3.3/NND No. 785015

of the necessary raw materials possibly 50% of Italy's pre-war manufacturing facilities can be placed in operation within a very short period of time. The plan, therefore, is to supplement this expected manufacturing program through the importation of some 60,000 motors of various sizes, primarily as replacements for motors removed or destroyed by the Germans. (See II-b). The removal or blowing up of key motors is one of the German specialties, as every industrial observer in Italy has remarked. The Germans took special care to blow all the comparable motors of the same size in an industry, in order to prevent cannibalization.

TRANSFORMERS

Program No. II-b-Requisition No. CLAC I-237

Considering that the removal and destruction by the Germans of Italy's transformer capacity is less serious than that of motors and the fact that there are two small transformer manufacturing plants in Liberated Italy that could start producing, were the necessary raw materials available, the import program covering this item has been reduced to only 1350 transformers of various types. The materials required by the transformer industry are included in Program No. II-c.

ELECTRIC CABLES AND CONDUCTORS

Program No. II-c-Requisition No. CLAC I-238

So that the repair of motors and transformers can be resumed as quickly as possible, the items shown under II-c are most urgently needed. These can be classed as maintenance, repair and operating supplies.

In addition finished submarine cables urgently needed for the transmission of electric power are included and should be classified as a capital expense item. They cannot be produced in Liberated Italy.

SWITCHES AND BRUSHES

Program No. II-d-Requisition No. CLAC I-239

(a) Three Pole Auto-Circuit Breakers

In order that Electric Energy may be harnessed and distributed for use it is most essential that this type of safety device be on hand.

Table 1 attached not only shows the estimated essential inventory requirements for both Liberated and Occupied Area as a minimum in order to start Italy on the "road" to recovery, but it also shows the quantities that should be considered (Column 1) as necessary for the immediate support of the transportation, electrical and industrial plant repair programs.

Declassified E.O. 12356 Section 3.3/NND No. 785015

for motors removed or destroyed by the Germans. (See II-c). The removal or blowing up of key motors is one of the German specialties, as every industrial observer in Italy has remarked. The Germans took special care to blow all the comparable motors of the same size in an industry, in order to prevent cannibalization.

TRANSFORMERS

Program No. II-b-Requisition No. CLAC I-237

Considering that the removal and destruction by the Germans of Italy's transformer capacity is less serious than that of motors and the fact that there are two small transformer manufacturing plants in Liberated Italy that could start producing, were the necessary raw materials available, the import program covering this item has been reduced to only 1350 transformers of various types. The materials required by the transformer industry are included in Program No. II-c.

ELECTRIC CABLES AND CONDUCTORS

Program No. II-c-Requisition No. CLAC I-238

So that the repair of motors and transformers can be resumed as quickly as possible, the items shown under II-c are most urgently needed. These can be classed as maintenance, repair and operating supplies.

In addition finished submarine cables urgently needed for the transmission of electric power are included and should be classified as a capital expense item. They cannot be produced in Liberated Italy.

SWITCHES AND BRUSHES

Program No. II-d-Requisition No. CLAC I-239

(a) Three Pole Auto-Circuit Breakers

In order that Electric Energy may be harnessed and distributed for use it is most essential that this type of safety device be on hand.

Table 1 attached not only shows the estimated essential inventory requirements for both Liberated and Occupied Area as a minimum in order to start Italy on the "road" to recovery, but it also shows the quantities that should be considered (Column 1) as necessary for the immediate support of the transportation, electrical and industrial plant repair programs. 315

None of the items can at the present time be manufactured in Liberated Italy. It is important therefore that a quantity of these be obtained as soon as possible, held in jobbers hands, for quick distribution as needed.

Declassified E.O. 12356 Section 3.3/NND No. 785015

ELECTRIC POWER (Cont.)

PROGRAM NO. II

48-4

(b) Graphite Brushes

All electro-generating sets, slip ring motors, portable electric tube equipment such as drills, etc., must have frequent changes of brushes. These items are purely MRO material and in the consumption category. They are not replaceable or repairable but consumed and new ones must be readily available for replacement at any time.

It is most essential that an adequate supply of finished brushes be on hand to keep existing equipment operating and to make repaired apparatus operatable. There are no adequate facilities for the production of these items in Liberated Italy at the present time. The items, therefore, should be included and considered as urgent in this First-Aid program.

ELECTRIC LIGHT BULBS

Program No. II-e-Requisition CLAC I-240

Italy's pre-war production and consumption of this commodity was approximately 5,000,000 per month. The importation program includes only approximately 2⅓ months' normal supply of electric bulbs. At present, even the military have to import bulbs into Italy to meet their own needs, and there is no production. The import of finished bulbs is therefore necessary to utilize properly the small amounts of power available, especially in industrial and minimum home use. These amounts are geared to the amount of power expected to be available for lighting purposes.

INSULATORS

Program No. II-f-Requisition CLAC I-241

Most of the items under this Section II-f are for high tension heavy duty work; they are particularly needed for municipal and public works extensions. A portion of the requirements are however vitally needed for new plant extensions and for situations where lines are down and must be relocated and restrung to existing plant sites.

There are no manufacturing facilities in Liberated Italy for this type of high electric resistant porcelain. In Table 2. attached, are shown the list of items deemed by the Italian Government to be essential for both Liberated and Occupied Italy. In addition, under Column 1. are given the quantities of the various materials that are considered to be necessary to have available as soon as possible in jobbers hands, for immediate use in restoring Electrical Services to those vital industries such as Transportation work-shops, telephone and telegraph lines, industrial plants and many equivalent repair plants. The quantities shown under Column 1. should be considered as falling within a priority category.

0358

Declassified E.O. 12356 Section 3.3/NND No. 785015

There are no adequate facilities for the production of these items in Liberated Italy at the present time. The items, therefore, should be included and considered as urgent in this First-Aid program.

ELECTRIC LIGHT BULBS

Program No. II-e-Requisition CLAC I-240

Italy's pre-war production and consumption of this commodity was approximately 5,000,000 per month. The importation program includes only approximately 2½ months' normal supply of electric bulbs. At present, even the military have to import bulbs into Italy to meet their own needs, and there is no production. The import of finished bulbs is therefore necessary to utilize properly the small amounts of power available, especially in industrial and minimum home use. These amounts are geared to the amount of power expected to be available for lighting purposes.

INSULATORS

Program No. II-f-Requisition CLAC I-241

Most of the items under this Section II-f are for high tension heavy duty work; they are particularly needed for municipal and public works extensions. A portion of the requirements are however vitally needed for new plant extensions and for situations where lines are down and must be relocated and restrung to existing plant sites.

ELECTRICAL EQUIPMENT FOR COMMUNICATIONS FACILITIES

Program No. II-g-Requisition No. CLAC I-238

This section of the Program calls for electrical materials and equipment required for the maintenance, repair operation of communications facilities (telephone, telegraph, and radio).

All items included are critical maintenance or replacement equipment which it is necessary to have on hand so that they can be drawn from stock rapidly when and where required. Equipment such as magnets, Telefunken and Siemens valves, enameled copper wire, mica condensers, fuses, etc., is requested. All the items can be classed as MRO supplies with the exception of four (Items 6, 7, 18, and 19). These latter are capital goods and are to replace equipment destroyed during hostilities.

The general picture on communications systems in Italy is outlined in the Justification attached to Requisition No. AC-SIG-100-45 (Program No. I-m, Communications).

MISCELLANEOUS MATERIALS

Program No. II-h-Requisition CLAC I-242

The five items listed in this section are for linesmen doing repair and trouble-shooting in connection with communication lines. They are most essential and the quantities listed under Liberated Italy should be shipped as soon as possible.

ELECTRIC POWER

Motors and Transformers

motors must be constructed with external terminals with 12 terminals in order to fulfill
nditions:

50 Periods		45 Periods		42 Periods	
Delta	Star	Delta	Star	Delta	Star
138-150-152	238-250-262	124-130-136	214-220-240	118-125-132	200-220-229
276-288-304	475-500-525	248-260-273	428-450-480	230-250-264	400-440-457

Quantity No.	Power	Total Power	Remarks
400	50	20,000	The transformer must be built with primary columns, divided in two parts of 9000 volts which could be connected either in series or in parallel and in the three columns connected between each other in star or delta. These operations would be effected extracting the transformer from the casing.
500	100	50,000	
300	150	45,000	
150	200	30,000	
1,350		145,000	

The secondary must be of 240 volts, starlike with two taps at 10% supported by clamps in oil bath.

Neutral supported on external insulator located outside the casing.

Frecuency - 50 Periods

HEADQUARTERS ALLIED COMMISSION
AFO 394
CIVIL AFFAIRS SECTION

ED/SG/4.1/AC

4 April, 1945

SUBJECT : Lectures for scholars in ITALY.

TO : All Directors of Sub-Commissions.

COMMUNICATION f/c

1. The Minister of Public Instruction suggests an interchange of lectures in ROME and FLORENCE between Allied and Italian scholars regarding the important characteristics of their respective lives and cultures. He will arrange lectures for interested Allied personnel and has requested the Education Sub-Commission to submit names of Allied officers willing to give lectures to Italian scholars.

2. Suggested topics are shown in the attached list but these should not, however, be considered as definite or exclusive. Officers with specialised knowledge in other fields which they would be willing to share with Italian colleagues, are invited to make this fact known.

3. The lectures will be given in the university of ROME and the university of FLORENCE to professors, advanced students and others interested, at times convenient to the lecturers. As a rule lectures will be in English, but a digest of each lecture will be translated into Italian (by the Ministry) and distributed to members of the audience in advance.

4. Please notify Education Sub-Commission if any members of your Sub-Commission at HQ, or in the field, would be able and willing to speak on one or more of these topics.

5. If members of your Sub-Commission know of other Allied personnel who might be able to speak effectively on one or more of these topics, will you please likewise notify the Education Subcommission?

Economics

U.S.A., Great Britain and Italy in post-war economy.
Economic reorganization in a country completely devastated by war.
Artisan markets and industrialized markets.
Post-war absorptive capacities of European markets.
Progress and evolution of American and British shipbuilding industry.

Art, moral sciences, literature.

War and religious problems.
Literary and artistic merits of war-propaganda literature.
War songs, music and literature in America and Great Britain.
Mechanization and art.
The progress of sciences in world-cooperation.
Moral aftermath of the present war.

Schools.

Character of British and U.S. schools.
School of political orientation.
School of sociology.
Sociological orientations and juridical organization.
School organization and its relations to practical life.

Political Science.

The population problem in its relations to labour.
The average Britain and American and the average European pass judgment on each other.
The British and American conception of democracy and its main expressions.

Juridical organization.

Liberty of sea and air traffic after the war.
Effective and essential elements of lasting relations between peoples of the world.

TO: H.E. The Under-Secretary of State for F.T.

1. Reference is made to your letter of 26th March, 1945 Prot.S/15.0/31743.

2. The question has been discussed with the Education Sub-Commission which is taking an active interest in obtaining the regular dispatch of technical reviews to Italy from the United States. It is expected that a solution will be reached shortly.

3. With reference to the three reviews mentioned in your letter namely:

Electrical Communications
Bell System Technical Journal
Electronics

Special arrangements are being made so that issues of these publications can be received regularly thru' this Sub-Commission until such time as regular printed matter mail service is available.

J.L.HENDERSON
Colonel,
Director.

1. - Come ci è stato suggerito con il foglio in oggetto, ci si è rivolti al Ministero degli Affari Esteri (Sig. Migone) per ottenere la ripresa dell'invio delle riviste tecniche inglesi ed americane.

Il Ministero degli Esteri ci comunica di non essere per altro in grado di aderire alla nostra richiesta, sia per difficoltà di trasporti, sia per difficoltà di valute.

2. - Poichè si è saputo che enti culturali di Roma pare possano ricevere alcune riviste, tramite la Education Sub-Commission ci si è rivolti a detta Sottocommissione con la lettera S/15.0/31723 che si allega in copia, per richiedere il suo appoggio per il ricevimento di cinque riviste di carattere tecnico-scientifico, organi ufficiali di enti culturali inglesi e americane.

3. - Ci sarebbe ora gradito sapere se codesta Sottocommissione può aiutarci nel rivevere alcune riviste, emanate da Società od enti privati, quali:

a) Electrical Communications della Standard ; 284
b) Bell System Technical Journal;
c) Electronics - Mc Graw - Hill, N. Y.

Si confida nel cortese interessamento di codesta Commissione e si porgono anticipati ringraziamenti.

29th March, 1945

SUBJECT: Pompei Antonio

TO: Air Force Sub-Commission
Att: Sqdn. Ldr. F.L. Bradshaw

It would be appreciated if the matter reported in the attached letter could be taken up with the Italian Air Force.

J.L.HENDERSON
Colonel,
Director.

Incl: One report.

0411

Declassified E.O. 12356 Section 3.3/NND No. 785015

42.2

SUBJECT: POMPEI ANTONIO

Driver of Italian Air Force Truck Number RA 2466

I have to report the above-named Italian airman for reckless and dangerous driving and for hostility and impertinence to a senior British Officer.

I was being driven in Car. No.109 of the Allied Commission by my usual chauffeur along the Via Morgagni in Rome at about 1540 hours 28th March. We had just slowed up to allow the passengers of a stationary tramcar to mount and dismount when the Italian truck, fitted as a troop-carrier and carrying about ten airmen, going much too fast, tried to pass us. When the bonnet of the truck was about level with my seat in the back of the car the truck driver apparently realised that he could not pass with safety owing to the tram and people in the road and pulled in behind just in time to avoid an accident. It was a very careless and dangerous piece of driving; my chauffeur had nothing to do with the incident and can in fact scarcely have witnessed it.

A little later the truck passed us going very fast indeed and immediately herded my car into the curb; the driver, Pompei Antonio, leant out and ran to my car and began to abuse and lecture my chauffeur. I got out of the car and. though not speaking Italian, made it clear to the truck driver to get out of our way. He must have appreciated that he was being addressed by an Allied Officer; his attitude was deliberately hostile and contemptuous and insolent and impertinent in the extreme. He took the number of my car and the name of my chauffeur, created a great disturbance and caused a crowd to assemble, and with great reluctance and after long, vociferous protests showed a practically illegible identity card.

My chauffeur is a good driver, safe but not slow and in this case in any event is completely innocent as the incident was not connected with his driving. The mere fact that this heavy truck was attempting to pass and finally did pass a powerful Alfa-Romeo car which was being driven as fast as normal safety and courtesy require is in itself a sufficient indication of the responsible person.

I would suggest that Pompei Antonio is quite unfit to drive on public roads, and that he should be mentally examined and, if considered sane, that severe disciplinary action should be taken.

PUBLIC RELATIONS BRANCH

4-46

39

GSB/mew

22 March 1945

SUBJECT: Pictures for AC/AMG Activities

TO : Civil Affairs Section
Economic Section
Communications Sub-Commission
War Materials Disposal & IPOW Sub-Commission

1. The Public Relations Branch is anxious to get pictures of AC/AMG activities to send to various publications in Great Britain and the United States and to accompany stories which will be prepared by this branch for newspapers or magazines, including technical and professional publications.

2. Each sub-commission is invited to suggest picture possibilities as regards activities with which it is concerned. This may be an activity which was put out of operation by war damage but which will be rehabilitated in the near future. Or, it may be of work being done on some activity which will start functioning at some later date. It may be an activity which has just gone into operation.

3. One of the things we are looking for is "before and after" pictures. A picture taken now of work in progress coupled with another picture taken three or five months hence of the same activity in operation makes possible an interesting story which might well warrant attention.

4. To this end it is suggested that each sub-commission compile a list of activities which are believed to warrant pictures. The list should indicate the nature of the operation, its current status, its location, and when would be the best time to photograph it.

5. Your cooperation will be appreciated and will greatly facilitate our job of representing AC/AMG activities accurately. We may have some difficulty in arranging to take pictures of all the subjects suggested, but will do our best.

Translation

TETI HAS BEEN SUED BEFORE COURT

The civil Co." La difesa del consumatore " has asked Teti on what law dispositions or authoritive orders she changes the contract that exists between the subscriber and the telephone Co.by limiting telephone conversations.

TETI has not answered ,this means therefore that she cannot justify the abuse and that shed does not care for the subcriber's rights

By cutting the telephone calls as she does because the subscriber has exceeded a certain number of calls ,she comits also a violation to privite rights.

The civil Co."La difesa del consumatore "has decided to sue the the TETI Co. at her expenses for the telephone subscriber's who will send their assent to the main office in via Giustiniana 5 (tel.564.793)by recalling the Co; to the respect of her obligations twards the telephone subscribers and to the State Monopoly that she excercises without respecting the charge chapter.

37-2

LA TETI CITATA IN GIUDIZIO.

La Società civile: la "difesa del consumatore" ha chiesto alla Telefonica Tirrena in base a quale disposizione di legge o ordine di autorità modifica unilateralmente il contratto che esiste tra Utente e Società con la limitazione del numero delle conversazioni telefoniche.

La Telefonica Tirrena non ha risposto, ciò significa che non è in grado di giustificare l'abuso e che se ne infischia dei diritti degli utenti.

Interrompendo, come fa, le comunicazioni telefoniche perchè l'abbonato, valendosi del suo diritto contrattuale, superà un certo numero di telefonate, commette anche una violazione del diritto privato.

La Società civile la "difesa del consumatore" ha deciso di chiamare in giudizio a sue spese la Telefonica Tirrena per conto degli abbonati al telefono che invieranno la loro adesione alla sua Sede in Via Giustiani 5, (tel. 564-793) richiamando la inadempiente Società al rispetto degli impegni che si è assunta verso gli abbonati al telefono per il contratto che ha in vigore e verso lo Stato per il monopolio che esercita senza rispettare il capitolato d'oneri.

SECRET.

Subject is common system of time.

1. It is planned to confrom to SHAEF and change to "B" time effective here ~~8 Mar~~ 020200A April for the following areas for which this Headquarters is operationally responsible: ALGERIA, TUNISIA, HUNGARY, JUGOSLAVIA, ALBANIA, ITALY and the MEDITERRANEAN ISLANDS except CYPRUS and MALTA. No change is contemplated for FRENCH and SPANISH MOROCCO which will remain on "A" time, nor for GREECE, TURKEY, RUMANIA or BULGARIA, which will remain on "B" time.

2. MAAF has no preference retention of "A" time or change to "B" time.

3. Comments of 15 ARMY GROUP, BAF, and DF and MI GREECE requested as to effect on current operations of above changes as time and date indicate.

4. Comments of MIDEAST requested as to effect on MIDEAST operations. MIDEAST is requested to TTATU (?) intended dates of change from "B" to "C" time and in TRIPOLITANIA from "A" to "B" time.

5. Desirable from naval standpoint that MALTA and GIBRALTAR conform. Comments of MALTA and GIBRALTAR requested.

6. Comments of ALCOM requested as to effect on Italian Government.

7. Comments of ETOUSA requested concerning effect on FRENCH civil authorites in NAT A.

8. Comments of AMET requested concerning effect on AMET operations in NORTH AFRICA.

9. Above arrangements contingent of final confirmation of exact

In reply
refer to: A.253.23.C3

Subject : Memo.

To : Transport Officer

1. The delay in return is due to an accident, a skid on the Bari - Foggia road.

2. The skid, which took place on an open straight level empty road was due to:

a. incompetence of the driver
b. stiff steering due to lack of greasing

The latter has been rectified.

3. A brake tube was broken in the accident and has been replaced. The bodywork needs some repair.

4. The car is not pulling well at slow speeds, the second cylinder from the front seems to be over-oiling, though the plug is all right. It might be a broken piston ring.

COMMUNICATIONS SUB-COMMISSION HQ. A.C. APO 374 28th January, 1945

TO: COMMUNICATIONS OFFICER SOUTHERN REGION

1. Use as parking space of that portion of the State telephone office destroyed by mines would seriously handicap carrying out the plans for reconstruction already in hand in addition to causing further damage as pointed out in basic communication.

2. The requisitioning by Allied Military authorities of facilities and space necessary for essential civilian communications must be discouraged. Operational Allied requirements, are of course paramount but this is not to be interpreted as permitting requisitioning for convenience only.

J.L.HENDERSON
Colonel,
Director.

HEADQUARTERS
SOUTHERN REGION, ALLIED COMMISSION
APO 394, U.S. ARMY
COMMUNICATIONS DIVISION

CU - 35/45

13 January 1945.

SUBJECT: Request for Parking Accomodations.

TO Hq. Allied Commission
(attn. Director Communications, Sub Commission
AC. APO 394).

1. The A.Q. M.G. (M) Movements, West Italy, (I believe this is a section of the 8th Port) has requested the use of that part of the State Telephone Office, which was destroyed by mines.

2. They would like to use this as a parking lot as it is near their office.

3. The part desired is the first floor where it has been cleared. Below this is a basement at present not in use. The floor leaks and water runs in the basement. If this is used as a parking lot the floor will surely leak more which may cause damage to the heating system which is also in the basement.

4. It is my understanding a 3 million lire project has been approved for these repairs.

5. Attached are copies of the two letters covering this subject.

6. Your advice is requested.

John A. BRIDGMAN
Maj. AUS.
Communications Officer.

e per notizia:

All'Ufficio danni di guerra di questa D.ne G.le;
All'Ufficio Legislazione e Pubblicazioni di questa Direzione Generale;
Al Ministero degli Affari Esteri (Direzione Generale Affari Economici);
Al Ministero dei Lavori Pubblici (Direzione Generale del Genio Civile);
Al Ministero dei Trasporti (Direzione Generale delle Ferrovie — Ufficio Lavori).

Scopo della presente circolare è quello di dare le norme necessarie perchè si proceda fin da ora all'accertamento dei danni subiti dalla nostra Amministrazione e dagli Enti di cui all'indirizzo per effetto delle operazioni di guerra e si prepari il conto generale delle riparazioni da chiedere alla Germania al tavolo della pace. È ovvio, quindi, che per il momento essa non può essere diramata che nelle sole provincie del territorio nazionale liberato e passato alla amministrazione del Governo Italiano.

Una speciale Commissione Interministeriale riunitasi al Ministero degli Affari Esteri, della quale fa

Declassified E.O. 12356 Section 3.3/NND No. 785015

parte un Rappresentante di questo Ministero, ha fissato le norme di massima che tutte le Amministrazioni dello Stato dovranno seguire nella determinazione e nella valutazione dei danni; norme che vengono a modificare sostanzialmente il criterio a cui fu informata la circolare telegrafica N. 308180 del 18 ottobre scorso e che fu naturalmente seguito dagli Organi centrali e periferici nelle notizie fornite in adempimento.

Occorre quindi ritornare sull'argomento, e trattarlo in conformità delle norme di massima che sono qui appresso specificate.

Le voci dei danni dovranno essere *aggruppate per materia* e comunicate all' "Ufficio danni di guerra „ di questa Direzione Generale.

L'Ufficio predetto a mezzo degli Organi Centrali, dovrà controllarle e riassumerle.

NORME DI MASSIMA

I — *Rilevamento dei danni.*

Dovranno formare oggetto di rilevamento i danni relativi ai beni immobili ed ai beni mobili:

a) per qualsiasi fatto di guerra (compresi i bombardamenti o altri attacchi per terra, per mare, per aria) compiuto da Forze Armate Nazionali, Alleate, o nemiche, coordinato alla preparazione ed alla esecuzione delle operazioni di guerra, od anche occasionate dalla stessa;

b) per effetto di asportazioni, saccheggi, furti, distruzioni, danneggiamenti, da parte della Germania e dei suoi alleati;

c) per effetto di prelevamenti, requisizioni irregolari (cioè requisizioni dichiarate tali, ma tramutatesi poi in vere e proprie asportazioni), ammende o sanzioni analoghe imposte dalla Germania o dai suoi alleati:

II — I rilevamenti dovranno essere limitati ai danni subiti da persone fisiche o giuridiche di *nazionalità italiana;*

III — Per tali rilevamenti *la data iniziale* dovrà essere quella *dall' 8 settembre 1943;*

IV — il rilevamento dei danni causati dai Tedeschi *anteriormente* alla data dell' 8 settembre 1943, e cioè nel periodo di alleanza con l'Italia, dovrà essere limitato ai danni derivati da *atti illeggittimi* da essi commessi (asportazioni, saccheggi, furti, requisizioni irregolari, danneggiamenti o distruzioni non imposte da esigenze di guerra).

V — *Natura del danno.* Il danno dovrà essere:

a) patrimoniale;
b) positivo (e cioè danno emergente e non lucro cessante),
c) diretto (escluso cioè il danno indiretto, quale, ad esempio, la vendita della cosa a prezzo vile in vista del pericolo d'invasione).

VI — *Valutazione del danno.* Il danno dovrà essere calcolato *sulla base del valore che le cose avevano al mese di dicembre 1939,* al netto di ogni e qualsiasi deprezzamento cui, per effetto dell'uso

Declassified E.O. 12356 Section 3.3/NND No. 785015

sono qui appresso specificate.

Le voci dei danni dovranno essere *aggruppate per materia* e comunicate all' "Ufficio danni di guerra „ di questa Direzione Generale.
L'Ufficio predetto a mezzo degli Organi Centrali, dovrà controllarle e riassumerle.

NORME DI MASSIMA

I — *Rilevamento dei danni.*

Dovranno formare oggetto di rilevamento i danni relativi ai beni immobili ed ai beni mobili:

a) per qualsiasi fatto di guerra (compresi i bombardamenti o altri attacchi per terra, per mare, per aria) compiuto da Forze Armate Nazionali, Alleate, o nemiche, coordinato alla preparazione ed alla esecuzione delle operazioni di guerra, od anche occasionate dalla stessa;

V — *Natura del danno.* Il danno dovrà essere:

a) patrimoniale,
b) positivo (e cioè danno emergente e non lucro cessante),
c) diretto (escluso cioè il danno indiretto, quale, ad esempio, la vendita della cosa a prezzo vile in vista del pericolo d'invasione).

VI — *Valutazione del danno.* Il danno dovrà essere calcolato *sulla base del valore che le cose avevano al mese di dicembre 1939,* al netto di ogni e qualsiasi deprezzamento cui, per effetto dell'uso e della vetustà, le cose medesime fossero andate soggette.
Sarà poi cura del Ministero degli Affari Esteri, coordinatore per tutte le Amministrazioni dello Stato, applicare ai valori denunciati un coefficiente di maggiorazione corrispondente alla elevazione dei prezzi.

VII — *Danni causati ai fabbricati.*
Per i danni causati ai fabbricati di cui al n° 1 del paragrafo 35 del Bollettino delle Poste e delle Telecomunicazioni - parte 2ª - anno 1944, nonchè agli stabili trovantisi nell'ambito di stazioni ferroviarie, gli uni e gli altri sedi di uffici della nostra Amministrazione o di uffici di qualcuno degli Enti

Declassified E.O. 12356 Section 3.3/NND No. 785015

di cui all'indirizzo, occorrerà controsegnare con speciale annotazione quelli in cui sia già intervenuta l'opera del Ministero dei Lavori Pubblici (Genio Civile), o delle Ferrovie dello Stato (Ufficio Lavori); e ciò ai sensi del paragrafo 70 - comma 2° - del Bollettino citato. Anche per questi danni occorrerà indicare *il valore rapportato al mese di dicembre 1939,* indipendentemente dal «costo di ricostruzione» che da parte loro potranno indicare in separata sede il Genio Civile e l'Ufficio Lavori delle Ferrovie.

VIII — *Distruzione parziale dei fabbricati.*

Il valore del danno parziale dovrà essere rappresentato dalla differenza fra il valore a prezzo anteguerra che l'immobile avrebbe avuto nel mese di dicembre 1939 se non fosse stato danneggiato, e quello a prezzo anteguerra che esso avrebbe avuto alla stessa data nello stato di parzialmente danneggiato.

IX — *Specificazione dei danni.*

a) Danni arrecati ai *Beni Patrimoniali,* e cioè:
— agli immobili, compresi gli impianti di luce, gas, acqua, riscaldamento, suoneria, telefoni, ascensori, montacarichi; — al mobilio, alle casseforti, agli armadi, agli arredamenti, alle macchine da scrivere, alle macchine calcolatrici, ai ciclostili, ecc.

b) Idem alle *consistenze di cassa,* e cioè:
— al denaro liquido, alle carte valori in genere, alle marche delle assicurazioni sociali, ai titoli di credito, alle sovvenzioni in numerario ed in carte valori, ai versamenti in numerario ed in carte contabili.

c) Idem alle *Consistenze degli Economati Previciali P. T.;*
d) „ „ „ *dei Magazzini Provinciali Stampati;*
e) „ „ „ *dei Depositi Materiali Circoli Costruzioni T. T.*
f) „ „ „ *delle Biblioteche ed arredamenti dei Dopolavoro Provinciali e Sezionali;*
g) „ „ „ *delle provviste di lampadine elettriche ed oggetti di cancelleria;*
h) „ „ „ *del Deposito Centrale dei Materiali telegrafici e telefonici (Roma);*
i) „ „ „ *del Deposito Centrale Materiali postali (Roma):*
l) „ „ „ *del Museo Postale e Ufficio Filatelico (Roma);*
l) „ „ „ *del Museo Telegrafico Telefonico (Roma);*
m) „ „ „ *dell'Officina Centrale P. T. (Roma)*
n) „ „ „ *del Gabinetto Chimico Centrale (Roma)*
o) „ „ „ *dell'Ufficio Centrale Carte e Valori (Roma);*
p) „ „ „ *dell'Italcable;*
q) „ „ „ *della Società Marconi (S.I.R.M.);*
r) „ „ „ *della R. A. I. (ex E.I.A.R.)*
s) „ „ „ *delle Agenzie di recapito;*
t) „ „ „ *degli Accollatari di trasporti postali;*
u) „ „ „ *dei materiali e dei valori postali degli uffici singoli* cioè:
— Pieghi valori - oggetti con dichiarazione di valore - oggetti comportanti indennizzo a favore dei mittenti - vetture postali ambulanti e bagagliai posta - impianti meccanici in uffici di stazione, di arrivi e partenze, di arrivi e distribuzione - cassette di impostazione e casellari porta - sacche meccaniche per i vuotacassette - sacche speciali per i Messaggeri - borse di cuoio per i portalettere ed i portapacchi - carrette, brevette ed altri mezzi di trasporto - macchine bollatrici elettriche e manuali meccaniche - casellari, banconi, tavoli, sgabelli, bascule, stadere, bilancie, pesi - provviste di spago, ceralacca, paraffina, carta da speciali - sacchi - cestoni - ceste.

v) Idem ai *materiali telegrafici e telefonici di linea degli uffici singoli* e cioè:
— conduttore in filo nudo, in filo isolato, in cavo - bracci, traverse, mensole, isolatori - pali, sostegni in ferro, in cemento armato, in legno, antenne, zoccoli - prese di terra, cassette di raccordo, cassette Pupin.

z) Idem ai *materiali telegrafici e telefonici d'ufficio, degli uffici singoli* e cioè:
- conduttori - macchine telegrafiche - apparati telefonici - trasmettitori r.t. e r.t.f. - radioricevitori -

Declassified E.O. 12356 Section 3.3/NND No. 785015

VIII — *Distruzione parziale dei fabbricati.*

Il valore del danno parziale dovrà essere rappresentato dalla differenza fra il valore a prezzo anteguerra che l'immobile avrebbe avuto nel mese di dicembre 1939 se non fosse stato danneggiato, e quello a prezzo anteguerra che esso avrebbe avuto alla stessa data nello stato di parzialmente danneggiato.

SUBJECT: Italian Population Figures

TO: Distribution List A, Groups 1, 2, and 3.

1. The tabulation of results of the Census of liberated Italy has now progressed sufficiently to enable revised estimates of the resident population to be prepared.

2. Comparison of the figures resulting from the present census with the corresponding figures in the 1936 Census provides an index which has been applied to the 1936 population figures for the 56 provinces of Italy not included in the present census.

3. Attached is a tabulation of population of Italy by provinces. The population of the provincial capital, which is included in the total for the province, is shown separately.

4. It is requested that in all future staff Studies, appreciations, etc., involving calculations based on population, these figures be used throughout, so that all planning in this respect, will be working on a common basis.

ROME AREA ALLIED COMMAND, OFFICE OF THE SIGNAL OFFICER, APO #794, US Army, 9 January 1945.

To: Communications Sub-Commission, AC, APO #394, US Army.

1. The article itself appears satisfactory and presents the facts of the case, however I question the basic policy of placing ourselves in the position of being on the defensive for actions of military or civic necessity.

2. It is suggested that the editors themselves be acquainted with the facts and enlist their aid in weeding out unfounded and inflamatory articles and then, through their own efforts, keep the people informed.

Rome, January 8th, 1945. 15-3

To Colonel J.L.HENDERSON
Director, Communications Sub-Commission.

Reference is made to the letter of A.C.C.Hq., addressed to Mrs. Aschieri and signed by you, of which copy is herewith enclosed.

Attached to it was a letter from my nephew Franco Aschieri -shot by the Allies- written to his mother shortly before his execution.

I am the Aunt of Franco Aschieri, and the only person that could see the letter, because his mother went north some months ago on business and his father -the Architect Pietro Aschieri- has been for several years in such bad health that I deemed it inopportune to inform him of the tragic end of his only son.

From the day in which the above letter was forwarded to me no official statement of the execution has reached the family.

I am ignorant of the mission entrusted to the boy that induced him to cross the lines, I am also ignorant where he has been captured, where prosecuted, and where he was executed.

Trusting in the humanitarian feeling that must arise from such a tragedy I ask permission to be acquainted with all the details -permitted by the present state of war- as to the place where he has been buried as well as the possibility of transporting his body to the family tomb.

You being the medium of the above letter, I beg you to forward my request to proper authorities.

I also beg you for humanitarian reasons to send directly to me any communication on the subject, in order to spare his father -who is ignorant of this tragedy- any such sorrow which might cause his death.

239

Thanking you in advance.

Signed : CLOTILDE ASCHIERI

To Admiral Stone
Allied Commission - Rome

General Eisenhower in a statement transmitted by the wireless during the 'Army Hour' program of the War Department of the United States has asked to increase the output of radio-telegrafic material.

In the 'Message to the Italian People', Vice-President Truman hopes that Italian ability will contribute (to put new means at the disposal of the war effort, and to give a better basis to the activity of the Nation in the post-war period.

Doing during this, I send the following note about my radiophonic set, hoping to have it put to trial.

Simultaneous Radiotelegraphic-radiotelephonic sets already exist, but my device can offer greater advantages from the point of view of convenience and above all because of the possibility to use it on a large scale.

Every set includes a transmitter and a receiver (of course, carefully selected sets of the latest models) which placed one by the other will *like a watch have a special device at the outlet of their oscillating circuit.

The heads of the former should rapidly move on the face made of several contacts, which will collect both circuits electrically separated and isolated to join the aerial.

A small, not very powerful electric engine will suffice for the movement of the hands.

With adequate agreements, it will be possible to hear and answer at the same time any station, to talk by means of a headset or with a microphone.

It is not necessary that the construction should be made in various stages, but all at the same time, for each oscillating, transmitting and receiving ~~app~~ circuit, the set works very well even if the stations are very far from and the cost is small for little power is required.

My studies about the captation of electromagnetical waves have led me to plan a set adapted to the practical solution of important radiotechnical problems, transformation of the waves of the ether in heat, light and power, which might be very useful to the war effort, for defence as well as for attack purposes. 237

I made the study of an engine for air defence, based on the experiences of Franklin, Arno, Garbasso etc.

The new system could oppose the flight of a plane and cause a violent discharge (artificial lightning) against a flying plane.

This can also be used by the navy. Knowing that a torpedo also has a gyroscope (depth regulator), we can admit that when it enters the influence

Declassified E.O. 12356 Section 3.3/NND No. 785015

...cess during this, I send the following note about my radiophonic set, hoping to have it put to trial.

Simultaneous radiotelegraphic-radiotelephonic sets already exist, but my device can offer greater advantages from the point of view of convenience and above all because of the possibility to use it on a large scale.

Every set includes a transmitter and a receiver (of course, carefully selected sets of the latest models) which placed one by the other will like a watch have a special device at the outlet of their oscillating circuit.

The hands of the former should rapidly move on the face made of several contacts, which will collect both circuits electrically separated and insulated to join the aerial.

A small, not very powerful, electric engine will suffice for the movement of the hands.

With adequate agreements, it will be possible to hear and answer at the same time any station, to talk by means of a headset or with a microphone.

It is not necessary that the construction should be made in various stages, but all at the same time, for each oscillating, transmitting and receiving app circuit, the set works very well even if the stations are very far from and the cost is small for little power is required.

My studies about the captation of electromagnetical ...ves have led me to plan a set adapted to the practical solution of important radiotechnical problems, transformation of the waves of the ether in heat, light and power, which might be very useful to the war effort, for defence as well as for attack purposes.

237

I made the study of an engine for air defence, based on the experiences of Franklin, Argo, Leonardo etc.

The new system could oppose the flight of a plane and cause a violent discharge (artificial lightning) against a flying plane.

This can also be used by the navy: Allowing that a torpedo also has a gyroscope (depth regulator), we can admit that when it enters the influence zone of the electromagnetical waves, near the battleship, it could feel its effects, being deviated from its original direction; the effects of a direct blow would thus be avoided.

My sets tend at bringing a new contribution for practical realization in the field of narcohitherapy, cold light, television, and electroculture. I think my work will find a concrete and scientific application.

MEMORANDUM

per l'illmo signor Commodoro
C.Ammiraglio STONE
Commissario Capo
della COMMISSIONE ALLEATA
in Italia Roma

Il generale Eisenhower in una dichiarazione trasmessa alla radio durante "l'Ora dell'Esercito" programma del Ministero della Guerra degli Stati Uniti per il Popolo Americano, ha esortato, fra l'altro, ad aumentare la produzione di materiale radio-telegrafico.
Ora il Vice-Presidente Truman, "nel messaggio al Popolo Italiano" auspica l'uso del talento italiano (per potere in questo periodo bellico mettere a disposizione dell'esercito nuovi mezzi e per potere nel dopoguerra impostare l'attività della Nazione veramente su basi migliori).

In considerazione di ciò, presenterò la seguente nota illustrativa per il mio apparecchio radiofonico, nella speranza di potere attuare l'impianto di prima prova.

" Da parecchio tempo sono in funzione apparecchi radiotelegrafici - radiotelefonici simultanei; tuttavia il mio dispositivo può offrire maggiori vantaggi dal lato della comodità e soprattutto la possibilità di essere adoperato su vasta scala.

236

Ogni stazione comprende i due apparecchi abbinati, e cioé il trasmittente ed il ricevitore (ben inteso occorreranno apparecchi scelti e di ultimo modello), i quali, posti l'uno accanto all'altro, avranno, nel punto di uscita dei rispettivi circuiti oscillanti, un adatto dispositivo simile ad un orologio.

La lancetta di questo dovrà rapidamente ruotare sul quadrante composto di tanti contatti, i quali raccoglieranno i due circuiti separati ed isolati elettricamente, per raggiungere l'aereo ecc.

Per il movimento della lancetta basterà un motorino elettrico di piccola potenzialità.

Con opportuni accordi si potrà udire e rispondere contempora-

Il generale Eisenhower in una dichiarazione trasmessa alla radio durante "l'Ora dell'Esercito" programma del Ministero della Guerra degli Stati Uniti per il Popolo Americano, ha esortato, tra l'altro, ad aumentare la produzione di materiale radio-telegrafico.
Ora il vice-Presidente Truman, "nel messaggio al Popolo Italiano" auspica l'uso del talento italiano (per potere in questo periodo bellico mettere a disposizione dell'esercito nuovi mezzi e per potere nel dopoguerra impostare l'attività della Nazione veramente su basi migliori).

In considerazione di ciò, presenterò la seguente nota illustrativa per il mio apparecchio radiofonico, nella speranza di potere attuare l'impianto di prima prova.

" Da parecchio tempo sono in funzione apparecchi radiotelegrafici - radiotelefonici simultanei; tuttavia il mio dispositivo può offrire maggiori vantaggi dal lato della comodità e soprattutto la possibilità di essere adoperato su vasta scala.

236

Ogni stazione comprende i due apparecchi abbinati, e cioé il trasmittente ed il ricevitore (ben inteso occorreranno apparecchi scelti e di ultimo modello), i quali, posti l'uno accanto all'altro, avranno, nel punto di uscita dei rispettivi circuiti oscillanti, un adatto dispositivo simile ad un orologio.

La lancetta di questo dovrà rapidamente ruotare sul quadrante composto di tanti contatti, i quali raccoglieranno i due circuiti separati ed isolati elettricamente, per raggiungere l'aereo ecc.

Per il movimento della lancetta basterà un motorino elettrico di piccola potenzialità.

Con opportuni accordi si potrà udire e rispondere contemporaneamente per qualsiasi stazione e cioé fare le conversazioni con

Declassified E.O. 12356 Section 3.3/NND No. 785015

cuffia o mediante microfono.

Non é necessario che la costruzione sia fatta a diversi stadi, ma in una sola volta per ogni circuito oscillante trasmittente e ricevente; l'apparecchio può funzionare benissimo anche se le stazioni sono lontanissime e con spesa non eccessiva, occorrendo poca energia. "

Il mio studio riguardante la captazione delle onde elettromagnetiche mi ha fatto progettare un apparecchio adatto effettivamente alla risoluzione pratica d'importanti problemi radiotecnici (come alla trasformazione delle onde stesse dell'etere in calore, luce, forza) il che può apportare notevoli servizi nel campo bellico per la difesa che per l'offesa.

La base dello studio da me fatto di un apparecchio atto alla difesa contraerea si fonda dalle esperienze di Franklin, Argo, Beccaria ed altri, Hertz, Marconi, Lodge, Steinmetz.

Il nuovo sistema sarebbe atto ad ostacolare la corsa di un aeroplano o a produrre una scarica violenta (fulmine artificiale) contro un apparecchio volante.

Può servire anche per la marina : infatti, sapendosi, fra l'altro, che un siluro porta seco anche un giroscopio (regolatore di profondità), si può ammettere che quando questo entra nella zona d'influenza delle onde elettromagnetiche in prossimità della corazzata, potrebbe subirne l'effetto mediante una deviazione della direzione verso la quale é diretto, nel qual modo si verrebbero a scongiurare gli effetti catastrofici di un colpo diretto.

Ad ogni modo i miei apparecchi tendono a portare nella tecnica moderna un nuovo contributo di pratica realizzazione nel campo della marconiterapia, luce fredda, televisione a colori a domicilio e elettrocultura; ed insisto con il dichiarare che il mio lavoro enuncia un sistema che dovrà trovare la sua concreta e scientifica applicazione.

To Admiral Stone
Allied Commission - Rome

General Eisenhower in a statement transmitted by the wireless during the 'Army Hour' program of the War Department of the United States has asked to increase the output of radio-telegrafic material.

In the 'Message to the Italian People', Vice-President Truman hopes that Italian ability will be made use of (to put new means at the disposal of the war effort, and to give a better basis to the activity of the Nation in the post-war period).

Considering this, I send the following note about my radiophonic set, hoping to have it put to trial.

Simultaneous radiotelegraphic-radiotelephonic sets already exist, but my device can offer greater advantages from the point of veiw of convenience and above all because of the possibility to use it on a large scale.

Every set includes a transmitter and a receiver (of course, carefully selected sets of the latest models) which placed one by the other will *like a watch have a special device*at the outlet of their oscillating circuit.

The hands of the former should rapidly move on the face made of several contacts, which will collect both cicuits electrically separated and isolated to join the aerial.

A small, not very powerful electric engine will suffice for the movement of the hands.

With adequate agreements, it will be possible to hear and answer a the same time any station,ie talk by means of a headset or with a microphone.

It is not necessary that the construction should be made in various stages, but all at the same time, for each oscillating, transmitting and receiving set circuit, the set works very well even if the stations are very far from and the cost is small for little power is required.

My studies about the captation of electromagnetical waves have led me to plan a set adapted to the practical solution of important radiotechnical problems,(transformation of the waves of the ether in heat, light and power),which might be very useful to the war effort, for defence 295 ella as for attack purposes.

I made the study of an engine for air defence, based on the experiences of Franklin, Argo, Seccaris etc.

The new sistem could oppose the flight of a plane and cause a violent discharge (artificial lightning) against a flying plane.

This can also be used by the navy: knowing that a torpedo also has a gyroscope (depth regulator), we can admit that when it enters the influence zone of the electromagnetical waves, near the battleship, it could feel its [illegible] deviated from its original direction; the effects of a direct

Declassified E.O. 12356 Section 3.3/NND No. 785015

set, hoping to have it put to trial.

Simultaneous radiotelegraphic-radiotelephonic sets already exist, but my device can offer greater advantages from the point of veiw of convenience and above all because of the possibility to use it on a large scale.

Every set includes a transmitter and a receiv r (of course, carefully selected sets of the latest models) which placed one by the other will *like a watch have a special device*at the outlet of their oscillating circuit.

The hands of the former should rapidly move on the face made of several contacts, which will collect both cicuits electrically separated and isolated to join the aerial.

A small, not very powerful electric engine will suffice for the movement of the hands.

With adequate agreements, it will be possible to hear and answer a the same time any station,ie talk by means of a headset or with a microphone.

It is not necessary that the construction should be made in various stages, but all at the same time, for each oscillating, transmitting and receiving ~~set~~ circuit, the set works very well even if the stations are very far ~~from~~ and the cost is small for little power is required.

My studies about the captation of electromagnetical waves have led me to plan a set adapted to the practical solution of important radiotechnical problems,(transformation of the waves of the ether in heat, light and power)/which might be very useful to the war effort, for defence as well as for attack purposes.

I made the study of an engine for air defence, based on the experiences of Franklin, Argo, Beccaria etc.

The new sistem could oppose the flight of a plane and cause a violent discharge (artificial lightning) against a flying plane.

This can also be used by the navy: knowing that a torpedo also has a gyroscope (depth regulator), we can admit that when it enters the influence zone of the electromagneticel waves, near the battleship, it could feel its effects, being deviated from its original direction; the effects of a direct blow would thus be avoided.

My sets tend at bringing a new contribution of practic al realization in the field of marconitherapy, cold light, television, and electroculture. I think my work will find a concrete and scientific application.

Translation

12-2

To Admiral Stone
Allied Commission - Rome

General Eisenhower in a statement transmitted by the wireless during the 'Army Hour' program of the War Department of the United States has spoken to increase the output of radio-telegrafic material.

In the 'message to the Italian people', Vice-President Truman hopes that Italian ability will be made use of (to put new means at the disposal of the war effort, and to give a better basis to the activity of the Nation in the post-war period.

. Soon during this, I send the following note about my radiophonic set, hoping to have it put to trial.

Simultaneous radiotelegraphic-radiotelephonic sets already exist, but my device can offer greater advantages from the point of view of convenience and above all because of the possibility to use it on a large scale.

Every set includes a transmitter and a rupely r (of course, carefully selected sets of the latest models) which placed one by the other will like a watch have a special device at the outlet of their oscillating circuit.

The hands of the former should rapidly move on the fade made of several contacts, which will collect both circuits electrically separated and isolated to join the aerial.

A small, not very powerful electric engine will suffice for the movement of the hands.

With adequate agreements, it will be possible to hear and answer at the same time any station, to talk by means of a headset or with a microphone.

It is not necessary that the construction should be made in various stages, but all at the same time, for each oscillating, transmitting and receiving set circuit, the set works very well even if the stations are very far from and the cost is small for little power is required.

214

My studies about the captation of electromagnetical waves have led me to plan a set adapted to the practical solution of important radiotechnical problems, (transformation of the waves of the ether in heat, light and power), which might be very useful to the war effort, for defence as well as for attack purposes.

I made the study of an engine for air defence, based on the experiences of Franklin, Arago, Ducretin etc.

The new system could oppose the flight of a plane and cause a violent discharge (artificial lightning) against a flying plane.

This can also be used by the navy: Knowing that a torpedo also has a gyroscope (depth regulator), we can admit that when it enters the influence zone of the electromagnetical waves, near the battleship, it could feel its

Declassified E.O. 12356 Section 3.3/NND No. 785015

set, hoping to have it put to trial.

Simultaneous radiotelegraphic-radiotelephonic sets already exist, but my device can offer greater advantages from the point of view of convenience and above all because of the possibility to use it on a large scale.

Every set includes a transmitter and a receiver (of course, carefully selected sets of the latest models) which placed one by the other will "like a watch have a special device at the outlet of their oscillating circuit.

The hands of the former should supply note on the face made of several contacts, which will collect both circuits electrically separated and destined to join the aerial.

A small, not very powerful electric engine will suffice for the movement of the hands.

With adequate appointments, it will be possible to hear and answer at the same time any station, to talk by means of a headset or with a microphone.

It is not necessary that the construction should be made in various stages, but all at the same time, for each oscillating, transmitting and receiving circuit, the set works very well even if the stations are very far from and the cost is small for little power is required.

ROME TELEPHONE SERVICE

Although the question of a possible increase in the civilian telephone service in Rome is continually under study, a review just made of the situation shows that no material increase for private users can be expected until the electric power supply is considerably more reliable, the Communications Sub-Commission of the Allied Commission said today.

The Allied Communications officers pointed out that, before the war, the telephone company had excellent alternative power supplies as a result of the power being available from Rome's two electrical companies. As a result of power being available from two sources, emergency power plants attached to exchanges were not needed. Therefore, there are only a very few emergency plants on hand here and these are not sufficient to provide power necessary for telephone service in Rome in the event of a power failure. The present frequency of power failure however, as a consequence of war damage, is now very high. Even with the present restricted telephone service, a failure of power supply for only a few hours would result in the closing of many telephone exchanges; if unrestricted telephone calls were permitted the service would have to close after such a short period of power failure that neither the Italian Government nor the Allied military authorities can approve the present restrictions being removed in these circumstances.

In devising a system of telephone service that would meet these hard facts, the first allotment was necessarily made to Military and Governmental users. The remainder was then apportioned on the basis of insuring that every subscriber received an equitable share of the common facility. Duplex users got two calls a day, single telephones got four a day and business houses got nine, a figure which was determined by sub-dividing what power was left over after private users had been taken care of.

Pay stations were left unlimited, first, because of the difficulty of limiting calls fairly from such sources, and secondly and more important, following the principle of giving the greater benefit to the greater number, because the pay station is the only means of telephone service available to many persons, who otherwise would have no service at all.

Actually, the number of calls now being made in Rome is almost half that made prior to the arrival of the Allies. In fact, calls made currently by ordinary subscribers in Rome in relation to telephone service in the pre-war years compare favourably with telephone service in Allied countries, who have also had to restrict private users in favour of official business.

6th January, 1945

Dear

Thank you for your letter of 3rd January; glad to hear you are fit again.

We shall be pleased to have the attachment of the two Pilot Officers for training and the assignment of S/Ldr. Deason to the Civil Censorship Group. As you already know, I should be grateful for anything that can be done to promote L/Cpl. Hanscomb.

Hope to see you up here soon.

Yours

To: Lt.Col.E.D.Lovegrove

Dear Col. Henderson,

1. You may have heard that I have been out of business since early November through an attack of broncho-pneumonia, but I have been back in the saddle for the last ten days, and hope to have the opportunity of calling on you in Rome in the near future.

2. I believe Major Boyle spoke to you in October about future Civil Censorship operations which were being planned by this Headquarters. The exact extent of our commitment is not yet known, but we are going ahead with our detailed planning and recruiting personnel.

3. The Royal Air Force are co-operating in our new venture, and have promised us nine officers, some well experienced, and others quite new to the game. I am anxious that they should get practical experience and be kept fully employed until the time comes for their definite assignment, which may not be for many months.

4. When he passed through Caserta on his way to U.K., Col.McKean expressed his willingness, subject to your consent, of employing such personnel in Civil Censorship Group, Italy.

5. Two officers, P/Os Schiff and Cramp, have now arrived from Air Ministry. The former knows Bulgarian and the latter Yugoslav and both have had a censorship course with Imperial Censorship in London. They are now being familiarised with Italian Civil Censorship regulations.

6. Would you please let me know if you agree to the temporary attachment of these officers to Civil Censorship Group, Italy, to be employed as you think fit. They will be carried on an Air Ministry W/E.

7. The Royal Air Force is also prepared to make available S/Ldr. Deason for definite assignment to Civil Censorship Group, Italy. Deason has been employed as Air Adviser to Imperial Censorship in U.K. and Director (M.E) Civil Censorships, and is now Chief RAF Base Censor in Middle East. He has fluent Italian and travelled extensively in Italy before the war. He has a pleasant personality and I think should prove very useful. He would be carried on a M.A.A.F. W/E.

" CORRIERE DEL MATTINO " - Firenze 10 November 1944.

(summarized)

As we know postal service has been reduced since 1943 owing to transportation difficulties.

Afterwards the Germans practically stopped the service.

After the liberation re-establishment of postal service proved to be very difficult owing to severe damages done by the Germans and to the complete lack of communications.

But as soon as possible postal communications within Florence were restored as well as banking facilities through the postal service.

As far as telegrams are concerned the service could not be re-established up to now owing to the severe damages suffered by the installations, but also on this branch work is going on rapidly in order to be able to restore as soon as possible the service.

A particular difficulty has been the solution of the transportation problem for postal service. It could be overcome with the help of theA.M.G. who put at our disposal the necessary means.

Registered letter services has been granted only to the banks and to other public offices.

The Postal Director of the Province is working hard in order to put into effect a service whose whole restauration is naturally bound up with military necessities.

Il discorso di Churchill

(Continuazione dalla 1.a pagina)

gli Stati Uniti hanno combattuto in gran numero, con il loro abituale valore.

« La prima di queste due operazioni è quella svolta dall'Armata del gen. Alexander. I nostri soldati hanno superato la grande barriera degli Appennini e la linea dei Goti e questa avanzata ci ha portati nella valle Padana. L'inoltrarsi della stagione ha tuttavia fatto sì che noi ci trovassimo a combattere con un tempo freddo, pessimo, veramente eccezionale per questo periodo dell'anno: avanzare in tali condizioni è difficile, ma il forzamento di questa linea montagnosa, ben fortificata e presidiata da un esercito numeroso, rappresenta un'ardua impresa. Questa lotta costa a noi ed ai nostri alleati poco meno di 50.000 uomini.

La seconda battaglia che si è svolta in Olanda, sotto la guida del Maresciallo Montgomery, ha aperto la Schelda alla navigazione e porrà presto il grande porto di Anversa a disposizione del fianco settentrionale degli eserciti alleati, che di lì muoveranno direttamente in Germania, per la lotta finale. In queste due operazioni, in Italia, in Olanda e nel Belgio, le maggiori perdite, in proporzione, sono state subite dalle forze britanniche e canadesi. Ritengo giusto far notare in modo preciso e definito che queste due importanti battaglie, quella sugli Appennini e quella in occidente, non sono che un preludio di altre grandi operazioni, che saranno condotte nei prossimi mesi.

« Ora noi ci troviamo alle soglie della Germania e ci vorrà tempo, tutto lo sforzo delle tre grandi potenze, tutta la loro energia per frantumare la disperata resistenza che ci attendiamo da questo avversario furiosamente militarista, finalmente ricacciato nella sua tana.

Appello a tutte le energie

« Non posso prospettarvi oggi, così come non l'ho potuto fare in nessun altro momento, un facile avvenire nel continente europeo. E' sempre all'ultimo istante della corsa che si debbono compiere i grandi sforzi. Non è questo il momento di rallentare. Per quanto duro possa sembrare, dopo cinque lunghi anni di guerra, ogni uomo ed ogni donna dell'Isola deve ora mostrare di che cosa è capace. Sono certo che i nostri soldati al fronte si mostreranno all'altezza del grande sforzo che è necessario per coronare tutto ciò che è stato conseguito e soprattutto, per porre termine a questa orribile carneficina e devastazione in Europa nel più breve tempo possibile. Questo, in ogni caso, è il pensiero dominante del Governo di Sua Maestà. Io posso assicurarvi che è nostro dovere lavorare intensamente, come abbiamo fatto in passato, per produrre vasti [illegible] e il rafforzamento e il

Fort White in Birmania

raggiunto dagli anglo-indiani

KANDY (Ceylon), 9. Le truppe alleate, dopo due giorni di aspri combattimenti, hanno conquistato il caposaldo giapponese di Fort White sulla strada Tiddim - Kalemyo nella « Birmania nordoccidentale. Fort White lungamente contesa, si trova a circa 24 km. da Tiddim, la principale base da cui i giapponesi sferrarono i loro attacchi nel vano tentativo di invadere l'India, lo scorso anno.

La « B. B. C. » ha detto oggi che Fort White è caduta in seguito a manovra di accerchiamento, effettuata da truppe britanniche e indiane, e che l'avanzata è continuata fino a circa 7 km. oltre il caposaldo. Truppe dell'Africa orientale stanno progredendo in una seconda avanzata verso Kalemyo.

Frattanto, bombardieri della 14.a Forza Aerea Americana, come informano dispacci della stampa, hanno distrutto martedì le banchine di Kowloon sulla costa cinese di fronte a Hong Kong.

I giapponesi avanzanti nella provincia del Kwangsi hanno conquistato Hauijen, circa 320 km. ad ovest di Canton, e hanno sferrato un violento attacco nei sobborghi di Kweilin.

Il generale Wedemeyer ha descritto, in una intervista dopo il suo arrivo a Ciung King, la situazione militare in Cina come sfavorevole « ma non irrimediabile » e ha fatto chiaramente capire che egli non interferirà in nessun modo nella politica cinese.

« Dopo la guerra — ha detto — il popolo cinese potrà decidere da chi vuol essere governato. Io sono venuto in Cina per fare tutto il possibile onde raggiungere la maggiore efficienza della potenza alleata contro il Giappone. Un esame preliminare mi porta a credere che non si debba essere pessimisti ».

A Leyte la 24.a Divisione di fanteria ha avanzato in profondità e su un ampio fronte.

Gli americani si sono impossessati di posizioni situate sulle colline ad est della strada di Ormoc che attraversa la vallata omonima.

Dopo l'assassinio di Lord Moyne

Dichiarazioni di Eden

LONDRA, 9. Eden ha così riferito oggi, alla Camera dei Comuni, circa l'assassinio di Lord Moyne, ministro britannico nel Medio Oriente, avvenuto al Cairo. « I due colpevoli — ha detto il Ministro — hanno confessato di far parte dell'associazione combattenti per la libertà d'Israele e di aver agito dietro istruzioni impartite dall'organizzazione conosciuta come « Il

Rassegna della stampa

Segnaliamo un editoriale di *La Punta*, supplemento de *Il popolo* e organo della gioventù democratico-cristiana. In esso, dopo avere affermato che « l'Italia potrà trovare il suo equilibrio quando tutto il popolo di ogni ceto, tanto i governanti quanto i governati, tanto i politicamente attivi quanto gli indifferenti, si troveranno coscientemente uniti da un unico patrimonio spirituale », il quale patrimonio è rappresentato sostanzialmente dal Cristianesimo; si afferma: « Una grande efficacia educativa può oggi avere la convivenza al potere dei principali partiti: è un fatto di importanza storica, che oltre a tutte le correnti politiche tradizionali, oltre al socialismo, anche il comunismo partecipi al Governo. Occorre difendere e prolungare con ogni sforzo questa convivenza e soprattutto lo spirito di reciproca comprensione e tolleranza che deve giustificarla. Le accuse contro il Governo del C. L. N., contro l'esarcato, soprattutto quando vengono da gente avente una cultura politica e da nuclei politici forniti di una certa consistenza, provano solo un'evidente malafede. Quasi tutti i paesi del mondo, naturalmente ad eccezione di quelli in cui si ha un Governo presidenziale dotato di stabilità pluriennale, in tempo di grave emergenza sono retti da Governi di unione nazionale. In Italia oggi l'unico Governo di unione nazionale politicamente possibile è quello del C. L. N., che potrà essere ritoccato e perfezionato (in particolare mediante la costituzione di un'assemblea consultiva in cui abbia voce anche l'opposizione, e mediante l'utilizzazione di uomini di altri partiti o senza partito, soprattutto per incarichi tecnici e periferici) ma che dovrà continuare a vivere ».

Il giornale auspica d'altra parte che i sei partiti formulino d'accordo una base programmatica comune, che possa iniziare il rinnovamento totale del Paese. « Tale programma minimo comune dovrà comprendere la rivalutazione del fattore morale, e il rispetto della tradizione cattolica, e del metodo liberale-democratico». Il giornale chiede anche la riforma agraria, e la socializzazione della grande industria monopolistica, compiuta in silenzio, con riflessione e con serietà.

Risorgimento Liberale in un articolo di fondo dal titolo «L'Italia di domani», chiarisce, parlando della celebrazione del 4 novembre fatta da Orlando, il significato profondo della storia italiana degli ultimi trent'anni, con argomenti che anche noi abbiamo svolto recentemente su queste colonne; e non a caso, perchè essi sono ormai patrimonio comune della coscienza degli italiani. Esso dice: « Nel discorso di V. E. Orlando ritorna, ancora una volta, un motivo fondamentale per una adeguata comprensione di quest'ultimo periodo storico della vita italiana. Già Benedetto Croce ne aveva fatto oggetto della sua appassionata disamina nel discorso pronunciato al Teatro Eliseo: l'avvento del fascismo al potere rappresenta nella nostra storia una brusca frattura, un totale capovolgimento di valori. La continuità ideale che ci aveva portato dalle prime affermazioni del nostro Risorgimento fino a Vittorio Veneto appare compromessa: l'Italia del popolo italiano, che aveva fatto la sua guerra e conquistata la sua vittoria nel 1918, sembra oramai sommersa. Dottrine, modi di vita assolutamente a lei estranei — ed informati del resto a concezioni che nulla hanno a che fare con il nostro costume — le sono imposti con assoluto disprezzo per la sua tradizione e per il suo patrimonio morale e culturale. Ma lo sbandamento è soltanto all'esterno; le incrinature restano alla superficie. Messa di fronte a prove supreme, al sacrificio estremo l'Italia sa ritrovare sè stessa. Sotto tali riguardi la tradizione è allora saldata: questo quattro novembre si ricongiunge all'ormai lontano quattro novembre 1918 ».

Un corsivo di *Ricostruzione*, quotidiano del partito democratico del lavoro, dà notizia, e riassume una polemica svoltasi fra Perticone e Gonella sui problemi fondamentali del socialismo. « Perticone e Gonella difendono, l'uno nel « Tempo », l'altro nel « Popolo », due opposte concezioni. Il primo ritorna ad affermare la fatalità e la progressiva realizzazione del processo di proletarizzazione delle classi medie, già espresso da Marx, mentre il secondo, discriminando « proletarizzazione » che è, per lui, stato di subordinazione sociale legato al sistema salariale capitalistico, da « immiserimento » che è fatto meramente economico e contingente, nega recisamente il verificarsi storico della prima condizione, e quindi respinge le conseguenze che se ne possono trarre; ivi compresa la giustificazione, che il Perticone ne deriva, della « dittatura proletaria provvisoria » quale difesa delle libertà minacciate dalla stessa democrazia che vive nel clima economico degli egoismi e quale mezzo per arrivare all'autogoverno democratico della società.

Partendo da premesse diverse i due articolisti non possono certo arrivare ad identiche conclusioni. Ma all'attento osservatore le distanze appaiono sensibilmente raccorciate. Poichè, evidentemente, la progressiva proletarizzazione delle classi medie, nel significato di progressivo impoverimento, è, in Perticone, constatazione di un fatto storico, come tale ammesso anche da Gonella, e quindi punto di partenza per la successiva proletarizzazione del proletariato ».

Conclude dissentendo da Perticone, quando questi parla di una necessaria dittatura del proletariato. « Perchè la dittatura e la violenza sono innaturali e illogiche, quando per la fatale immissione delle classi medie nel proletariato, questo, numericamente superiore, in un regime di vera democrazia politica, può legalmente conquistare il potere. E', dunque, la democrazia politica che dobbiamo assicurare e difendere, ad ogni costo, contro gli assalti totalitari di destra o di sinistra. Il resto si svolgerà, saremmo per dire, secondo i piani prestabiliti ».

Il dovere e le necessità dei produttori d'olio

BARI, 9. Il consiglio dell'Associazione provinciale degli agricoltori, rivolge un caldo appello ai contadini perchè l'intera produzione dell'olio sia conferita agli oleari del popolo, ed ha espresso il voto che gli organi governativi rivedano il quantitativo assegnato al fabbisogno familiare dei produttori, tenuto conto che i dieci chilogrammi a testa non soddisfano le necessità minime di una popolazione che dell'olio fa uso come unico grasso alimentare, e che esso rappresenta il condimento indispensabile per l'alimentazione invernale. Infine, trattando il problema delle tariffe della mano d'opera agricola, l'Associazione è del parere che esse vengano fissate al centro perchè possano costituire l'espressione delle reali esigenze economiche dei lavoratori e dei produttori, e siano sottratte ad ogni influenza locale.

Messaggi dei civili per i militari italiani in Germania

ROMA, 9 - Il Ministro delle Comunicazioni informa che, in seguito ad accordi presi col Comitato internazionale di Ginevra della Croce Rossa internazionale, si è ottenuto, con effetto immediato, che i messaggi civili inviati per il tramite della Croce Rossa internazionale, i cui moduli si trovano in vendita presso gli uffici postali al prezzo di L. 15 ciascuno, possono essere indirizzati anche ai militari italiani in Germania, sia che si trovino nei campi di concentramento, sia che abbiano come recapito il numero della posta da campo.

mento di rallentare. Per quanto duro possa sembrare, dopo cinque lunghi anni di guerra, ogni uomo ed ogni donna dell'Isola deve ora mostrare di che cosa è capace. Sono certo che i nostri soldati al fronte si mostreranno all'altezza del grande sforzo che è necessario per coronare tutto ciò che è stato conseguito e soprattutto, per porre termine a questa orribile carneficina e devastazione in Europa nel più breve tempo possibile. Questo, in ogni caso, è il pensiero dominante del Governo di Sua Maestà. Io posso assicurarvi che è nostro dovere lavorare intensamente, come abbiamo fatto in passato, per produrre vasti schemi per il miglioramento e il progresso sociale. Benchè sia nostro dovere fare i preparativi per il passaggio dalla guerra alla pace, o dalla guerra in Europa ad una guerra in Giappone e nell'Asia orientale, noi dobbiamo dedicarci al lavoro con la massima intensità possibile; nessun ostacolo deve frapporsi sulla via della continuazione della guerra fino alla sua estrema conclusione ».

La Germania
è una fortezza assediata

LONDRA, 9. - Il generale Kurt Dittmar, commentatore militare nazista alla radio, ha dichiarato che « la Germania è una fortezza assediata che potrebbe diventare una trappola mortale ». Il generale Dittmar ha soggiunto malinconicamente: « Noi che siamo stati allevati nella tradizione del corpo degli ufficiali prussiani, ammettiamo che non consideriamo la guerra entro una fortezza, come una prospettiva particolarmente attraente ».

Una notizia da Stoccolma reca che il generale di fanteria tedesco Herman Reinecke, uno dei giudici della Corte di Giustizia del popolo tedesco, la quale processò e condannò a morte i generali germanici accusati di avere complottato contro Hitler il 20 luglio, è stato ferito ad una spalla e che il suo autista è rimasto ucciso in seguito a un attentato compiuto da un ignoto armato di mitragliatrici, fra Danzica e Thorn.

Hitler che ieri, come era sua consuetudine annua, doveva pronunciare un discorso in occasione della commemorazione del «putsch» della birreria di Monaco, non ha parlato. La celebrazione, secondo quanto afferma la «Transocean» è stata rimandata a data da destinarsi a causa del decreto sulla mobilitazione generale, che proibisce ogni manifestazione.

Il generale Arthur Phlebs, Comandante di una divisione di volontari della S. S. tedesca sul fronte sud orientale, è stato ucciso in combattimento.

Un generale tedesco ucciso in Francia

PARIGI, 9. Il generale tedesco Von Brodowsky, comandante delle truppe che devastarono l'intero villaggio di Cradour, nella Francia centrale, è stato ucciso da appartenenti alle F. F. I. mentre tentava di evadere dalle Ormoc che attraversa la vallata omonima.

Dopo l'assassinio di Lord Moyne
Dichiarazioni di Eden

LONDRA, 9. Eden ha così riferito oggi, alla Camera dei Comuni, circa l'assassinio di Lord Moyne, ministro britannico nel Medio Oriente, avvenuto al Cairo. « I due colpevoli — ha detto il Ministro — hanno confessato di far parte dell'associazione combattenti per la libertà d'Israele e di aver agito dietro istruzioni impartite dall'organizzazione conosciuta come « Il gruppo Stern ». Quale movente del delitto hanno addotto che Lord Moyne era capo della sezione politica del Governo Britannico nel Medio Oriente e svolgeva attività contraria a quella del nazionalismo ebrei. Per ciò il « Gruppo Stern » decise la sua morte. Non è stata ancora stabilita l'identità dei due uccisori, ma essi hanno dato i nomi di Moshe Cohen e Chaim Saltzmann ».

« Le indagini continuano e sono condotte con tutta l'energia dalle autorità egiziane con le quali collabora la polizia di Palestina. Tanto re Faruk quanto il Governo egiziano hanno dato prova di grande simpatia e hanno prestato il massimo aiuto ».

Il conservatore conte Winterton, ha domandato: « Il Governo intende pubblicare un libro bianco sulla vera portata del terrorismo in Palestina? Circolano a Londra voci malevole secondo le quali il Governo esiterebbe a farlo per tema di suscitare sentimenti antisemiti e danneggiare i nostri rapporti con l'America ».

« Credo — ha risposto Eden — che tutte le informazioni in nostro possesso siano state rese di pubblica ragione. Mi piacerebbe considerare col Ministro delle colonie la possibilità di pubblicare un libro bianco ».

Tutta la stampa ebraica in Palestina condanna fraternamente gli assassini di Lord Moyne. Se sarà provato che gli autori dell'attentato sono israeliti, essi avranno inflitto al movimento sionista il più grave colpo che questo abbia mai subito finora.

In un giornale, il « Telaviv Haretz », si legge: « Con questo solo delitto, gli assassini hanno fatto più di quanto non si possa immaginare per demolire quello che è stato costruito da tre generazioni di pionieri ebrei ».

Il « Palestine Post » afferma che gli atti di questa piccola banda di traditori non sono quelli del popolo israelita. Questi criminali devono venire ricercati e distrutti dagli stessi ebrei.

Smentita ad una falsa notizia

ROMA, 9. L'agenzia « Telegraphique Suisse » ha diramato una notizia secondo la quale il Vaticano starebbe prestando i suoi buoni uffici, affinchè si addivenga ad uno scambio fra parenti di personalità fasciste e parenti di personalità antifasciste che lo stato di guerra tiene ora separate dai loro familiari. La notizia non ha alcun fondamento.

La graduale ripresa del servizio postale

Il servizio regolare postale fu, com'è noto, ridotto, verso il 1943 a causa della diminuzione dei treni e delle linee automobilistiche, e in seguito fu completamente paralizzato dai bombardamenti, che interruppero in più punti le linee ferroviarie. Questa situazione quanto mai precaria, fu l'inizio della cessazione di ogni attività postale nella stessa Firenze. La stasi si verificò nel periodo che precedette lo stato d'emergenza con l'esodo in massa degli impiegati e fattorini postali, che si sottrassero così alle retate naziste. I tedeschi poi si installarono nel palazzo centrale delle poste, e prima di lasciare la città, lo minarono, danneggiando anche tutti gli impianti telegrafici e telefonici con mazze ferrate.

Il riassestamento del servizio, nei primi giorni della liberazione si è dimostrato arduo a causa delle ingenti distruzioni e dall'assoluta mancanza di comunicazioni. Appena il personale fu riassunto, si cercò di organizzare un servizio postale di corrispondenza, di vaglia e di conti correnti, per la città, che per quanto ridotto si mostrò utilissimo. Si è pensato poi a far riprendere la loro attività, man mano che i territori della provincia venivano liberati, ai servizi in danaro; cioè si è disposto che gli uffici postali staccati, aventi un'indipendenza propria finanziaria sopperiscano a tutte quelle operazioni postali che riflettono il pagamento di pensioni di guerra, vaglia, conti correnti, pagamenti di pensioni ordinarie ecc. nonchè all'accettazione di tutta la corrispondenza per i prigionieri di guerra.

Per quanto riguarda il telegrafo, per ora non è possibile riattivare il servizio a causa dei danni subiti dagli impianti; comunque il personale sta lavorando per mettere in completa efficienza le linee, in modo che i cittadini possano usufruire del telegrafo non appena l'allontanamento del fronte di battaglia lo potrà consentire.

Il più grave problema, che hanno dovuto affrontare i dirigenti, per poter completare le comunicazioni postali con la provincia, è stato quello dei mezzi di trasporto; però, per l'interessamento del Governo Militare Alleato è stato da tempo autorizzato un servizio di cartoline postali con l'Italia liberata, che funziona con mezzi di trasporto e personale dell'A.M.G.

Il servizio per le raccomandate in città, per ragioni di carattere interno, è stato concesso solo agli istituti bancari e agli uffici pubblici.

Il Direttore provinciale delle Poste dott. Francesi continua ad ogni modo a lavorare attivamente per riportare alla normalità il servizio postale, la cui completa ripresa è sottoposta, come è ovvio, alle esigenze di carattere militare

Una Messa in suffragio
dei soldati alleati caduti in Italia

In occasione della commemorazione dell'Armistizio una Messa solenne sarà celebrata domani, 11 novembre alle ore 11 nella Chiesa francese di Santa Maria Maddalena de' Pazzi, Borgo Pinti, 58, in suffragio dei soldati alleati caduti sul campo di battaglia, in Italia.

Solenni onoranze
alle salme di due partigiani

Alla Rufina hanno avuto luogo solenni onoranze alle salme dei partigiani Luciano Ceffi e Luigi Fabbroni, della divisione «Arno» caduti in combattimento contro i tedeschi il 17 aprile scorso, a Secchieta sul Frattomagno.

La popolazione della Rufina ha partecipato commossa all'estremo tributo alla memoria di questi due valorosi la cui salme esumate da Secchieta erano state in precedenza trasportate in paese. Oltre alle autorità locali era intervenuto un rappresentante del Comando Alleato della zona. Avanti che le salme venissero tumulate nella Cappella dei caduti in guerra della Rufina, ha pronunziato un discorso rievocativo dei due Caduti, il partigiano Lodo Cocerri acclamando viva commozione nei presenti.

del capolavori dell'Arte Italiana

Vivo interesse ha suscitato nella cittadinanza la notizia dell'allestimento di una Mostra dei maggiori capolavori dell'Arte Italiana, promossa dal Governo Militare Alleato e che verrà attuata con la collaborazione della nostra Soprintendenza alle Belle Arti. La Mostra comprenderà, oltre alle opere dei maggiori maestri della pittura e della scultura dei secoli XIII, XIV, XV e XVI esistenti agli Uffizi, a Pitti ed alla Galleria dell'Accademia, anche quelle appartenenti a Musei, Chiese e collezioni di tutta la Toscana. Fra l'altro, per quanto riguarda la scultura, la Mostra sarà arricchita delle preziose opere di Nicola e Giovanni Pisano fra le quali i magnifici pulpiti del Battistero e del Duomo di Pisa, già smontati per difenderli dall'offesa nemica e che verranno appositamente ricostruiti per la mostra fiorentina.

Quanto ai locali che la ospiteranno, è stato opportunamente deciso che le opere di pittura dal '200 al '400 verranno esposte agli Uffizi, quelle del '500 a Palazzo Strozzi, mentre tutte le sculture, comprese le opere del Pisano, saranno collocate nel Museo Nazionale del Bargello.

Al lavoro di cernita delle opere si accompagna quello della preparazione dei locali. Come si sa la Galleria degli Uffizi è rimasta priva di una gran parte dei vetri in seguito alle esplosioni che fecero saltare i ponti fiorentini, e le assegnazioni, finora ottenute, non sono sufficienti al bisogno. Molte sale comprese le « Tribune » prendono la necessaria luce dai vasti lucernari, le cui riparazioni richiedono la permanenza degli operai sui tetti, cosa che, con l'attuale stagione, non è sempre possibile. Da qui la lentezza dei lavori che rende, almeno per ora, impossibile lo stabilire la data di apertura di una così grandiosa manifestazione artistica, destinata a suscitare il più vivo interessamento.

Precisazione

Parchitani Adelina e Croci Gianfranco, indicati quali sospetti autori di un furto ai danni del signor Luigi Spano, non hanno nulla a che fare col furto in parola.

Per gli studenti d'ingegneria

Il Governo Militare Alleato della Toscana, comunica di aver ricevuto, in data 6 corrente, una Comunicazione di cortese premura del Consiglio del Collegio degli Ingegneri della Provincia di Firenze che ha prospettato la situazione in cui si trovano circa 250 studenti del terzo, quarto e quinto corso di ingegneria residenti nella città di Firenze ed in località limitrofe, impossibilitati per le attuali contingenze, a proseguire i loro studi.

Il Governo Militare Alleato, rendendosi perfettamente conto della necessità di un numero così elevato di studenti, fa noto che è in corso di studio un'adeguata soluzione del problema che, in via provvisoria, permetta agli allievi di sostenere gli esami che di seguire corsi regolari in Firenze.

...ale ripresa ...zio postale

...no dovuto affrontare i dirigenti, per poter completare le comunicazioni postali con la provincia, è stato quello dei mezzi di trasporto; però, per l'interessamento del Governo Militare Alleato è stato da tempo autorizzato un servizio di cartoline postali con l'Italia liberata, che funziona con mezzi di trasporto e personale dell'A.M.G.

Il servizio per le raccomandate in città, per ragioni di carattere interno è stato concesso solo agli istituti bancari e agli uffici pubblici.

Il Direttore provinciale delle Poste dott. Françoni continua ad ogni modo a lavorare attivamente per riportare alla normalità il servizio postale, la cui completa ripresa è sottoposta, come è ovvio, alle esigenze di carattere militare.

Una Messa in suffragio dei soldati alleati caduti in Italia

In occasione della commemorazione dell'Armistizio una Messa solenne sarà celebrata domani, 11 novembre alle ore 11 nella Chiesa francese di Santa Maria Maddalena de' Pazzi, Borgo Pinti, 58, in suffragio dei soldati alleati caduti sul campo di battaglia, in Italia.

Solenni onoranze alle salme di due partigiani

Alla Rufina sono avute luogo solenni onoranze alle salme dei partigiani Luciano Celli e Luigi Fabbroni, della divisione «Arno» caduti in combattimento contro i tedeschi il 17 aprile scorso, in Secchieta sul Frassinago.

La popolazione della Rufina ha partecipato commossa all'estremo tributo alla memoria di questi due valorosi le cui salme esumate da Secchieta erano state la precedenza trasportate in paese. Oltre alle autorità locali era intervenuto un rappresentante del Comando Alleato della zona. Avanti che le salme venissero tumulate nella Cappella dei Caduti in guerra della Rufina, la prof.ssa Cioli ha pronunciato un discorso rievocativo dei partigiani Caduti, il partigiano Luigi Cassini incitando vivi commossi nei presenti,

dei capolavori dell'Arte Italiana

Vivo interesse ha suscitato nella cittadinanza la notizia dell'allestimento di una Mostra dei maggiori capolavori dell'Arte Italiana, promossa dal Governo Militare Alleato e che verrà attuata con la collaborazione della nostra Soprintendenza alle Belle Arti. La Mostra comprenderà, oltre alle opere dei maggiori maestri della pittura e della scultura dei secoli XIII, XIV, XV e XVI esistenti agli Uffizi, a Pitti ed alla Galleria dell'Accademia, anche quelle appartenenti a Musei, Chiese e collezioni di tutta la Toscana. Fra l'altro, per quanto riguarda la scultura, la Mostra sarà arricchita delle preziose opere di Nicola e Giovanni Pisano fra le quali i magnifici pulpiti del Battistero e del Duomo di Pisa, già smontati per difenderli dall'offesa nemica e che verranno appositamente ricostruiti per la mostra fiorentina.

Quanto ai locali che la ospiteranno, è stato opportunamente deciso che le opere di pittura dal '200 al '400 verranno esposte agli Uffizi, quelle del '500 a Palazzo Strozzi, mentre tutte le sculture, comprese le opere del Pisano, saranno collocate nel Museo Nazionale del Bargello.

Al lavoro di cernita delle opere si accompagna quello della preparazione dei locali. Come si sa la Galleria degli Uffizi è rimasta priva di una gran parte dei vetri in seguito alle esplosioni che fecero saltare i ponti fiorentini, e le assegnazioni, finora ottenute, non sono sufficienti al bisogno. Molte sale comprese le «Tribune» prendono la necessaria luce dai vasti lucernari, le cui riparazioni richiedono la permanenza degli operai sui tetti, cosa che, con l'attuale stagione, non è sempre possibile. Da qui la lentezza dei lavori che rende, almeno per ora, impossibile lo stabilire la data di apertura di una così grandiosa manifestazione artistica, destinata a suscitare il più vivo interessamento.

Precisazione

Turchiani Adelina e Croci Gianfranco, indicati quali sospetti autori di un furto ai danni del signor Luigi Spano, non hanno nulla a che fare col furto in parola.

...ribuzione latte ...ammalati

La Sezione Provinciale dell'Alimentazione comunica:

In riferimento al precedente comunicato del 20 ottobre u. s., relativo alle modalità per la distribuzione dei prodotti ittici si avverte che, dall'11 corr. tutto il quantitativo di pesce che perverrà al Mercato Centrale, sarà distribuito ai prenotati presso i singoli esercizi nei quali è stata effettuata la prenotazione.

Latte per ammalati

Il Medico Provinciale ci comunica:

Nonostante l'invito rivolto ai medici di concedere il supplemento di latte, nel mese di novembre, ai soli ammalati gravi e nelle forme acute, i sanitari addetti al controllo annonario si sono trovati, in questi giorni, dinanzi un numero grandissimo di richieste.

E' necessario dunque ripetere che la quantità di latte in questo momento disponibile in Firenze è scarsissima, e che essa deve essere riservata ai soli ammalati gravissimi: gli stessi vecchi, anstropatici, enteropatici, cardiaci, tubercolosi, a meno che non si trovino nelle condizioni di gravità che i medici possono apprezzare, debbono fare a meno del latte. Se la situazione cambierà, e ciò può dipendere anche dal più scrupoloso apporto dei produttori di latte alla SERRAL, la distribuzione di questo alimento ricomincerà anche ad altre categorie di ammalati.

Conferenze e riunioni

AL CORSO DI ORIENTAMENTO SOCIALE oggi venerdì il dott. Gianl Meucci parlerà sul «Concetto cristiano della proprietà».

Un grave processo alla Corte Superiore Alleata

Mercoledì la Corte Superiore Alleata, le cui sessioni hanno luogo nei locali della Corte d'Appello in via Cavour 57, ha rinviato a sabato 11 novembre la causa contro: Catullo Arturo, Albergo Robecchino Firenze, Calvetti Folchino, via Cimarosa 86 Napoli, Cavaliere Umberto, Carè Vincenzo, Lungarno A. Vespucci 24 Firenze, De Rosa Giuseppe, Salvatore, Albergo Lombardia Firenze, causa che è già stata discussa durante sei udienze.

Gli imputati sono accusati di vari reati, fra cui corruzione di un militare ed uso illegale di un automezzo alleato; essi sono altresì accusati di correità nei suddetti delitti.

Le udienze sono pubbliche.

Denunzia alla Autorità Giudiziaria per l'uccisione del cap. Modugno e di altri due cittadini

Nei primi giorni della liberazione di Firenze, precisamente l'11 agosto, venivano uccisi il capitano della Guardia di Finanza Mario Modugno, il cassiere della Banca Toscana Nicola Berardi e il commerciante Umberto Sette. I famigliari hanno ora presentato denunzia all'Autorità Giudiziaria contro gli ignoti autori della uccisione.

Un carico di generi alimentari sequestrato a Tavarnelle

A Marcialla, nei pressi di Tavarnelle Val di Pesa, elementi del C.L.N. hanno fermato un camioncino carico di 20 q.li di generi alimentari. I carabinieri di Tavarnelle, ai quali è stato deferito il caso, constatato che il proprietario dell'automezzo, tale Maurizi Mario, non aveva alcun permesso per il trasporto

Declassified E.O. 12356 Section 3.3/NND No. 785015

Una notizia da Stoccolma reca che il generale di fanteria tedesco Herman Reinecke, uno dei giudici della Corte di Giustizia del popolo tedesco, la quale processò e condannò a morte i generali germanici accusati di avere complottato contro Hitler il 20 luglio, è stato ferito ad una spalla e che il suo autista è rimasto ucciso in seguito a un attentato compiuto da un ignoto armato di mitragliatrici, fra Danzica e Thorn.

Hitler che ieri, come era sua consuetudine annua, doveva pronunciare un discorso in occasione della commemorazione del «putsch» della birreria di Monaco, non ha parlato. La celebrazione, secondo quanto afferma la «Transocean» è stata rimandata a data da destinarsi a causa del decreto sulla mobilitazione generale, che proibisce ogni manifestazione.

Il generale Arthur Phleps, Comandante di una divisione di volontari della S. S. tedesca sul fronte sud orientale, è stato ucciso in combattimento.

Un generale tedesco ucciso in Francia

PARIGI, 9. Il generale tedesco Von Brodowsky, comandante delle truppe che devastarono l'intero villaggio di Cradour, nella Francia centrale, è stato ucciso da appartenenti alle F. F. I. mentre tentava di evadere dalle carceri di Besançon.

Nel villaggio di Cradour, gli uomini di Von Brodowsky avevano appiccato il fuoco alle case dopo aver seviziato ed uccisi gli abitanti, quale rappresaglia per l'attività che i patrioti svolgevano nelle vicinanze.

La ricostruzione della Camera dei Comuni

LONDRA, 9. E stato pubblicato il progetto per la ricostruzione della Camera dei Comuni, distrutta dai bombardamenti aerei. L'opera, che è stata affidata all'accademico Sir Giles Gilbert Scott, importerà una spesa di 784.000 sterline e richiederà, per essere condotta a termine, qualche anno. Il progetto, che si attiene alle vecchie dimensioni, prevede tuttavia ampliamenti nei servizi accessori e nello spazio riservato al pubblico e alla stampa.

Ricerche di scienziati per prolungare la vita umana

OXFORD, 9 - Lord Nuffield ha versato la somma di 3000 sterline a quello che probabilmente è il più strano circolo del mondo. Si tratta, infatti, di un circolo il cui scopo è di prolungare la vita e renderla più felice. Ne sono membri degli scienziati che effettuano ricerche per poter dare a tutti una esistenza di 115 o 120 anni e sino alla fine in buona salute e in possesso di tutte le facoltà.

che tutte le informazioni in nostro possesso siano state rese di pubblica ragione. Mi piacerebbe considerare col Ministro delle colonie la possibilità di pubblicare un libro bianco».

Tutta la stampa ebraica in Palestina condanna frattanto aspramente gli assassini di Lord Moyne. Se sarà provato che gli autori dell'attentato sono israeliti, essi avranno inflitto al movimento sionista il più grave colpo che questo abbia mai subito finora.

In un giornale, il «Telaviv Haretz», si legge: «Con questo solo delitto, gli assassini hanno fatto più di quanto non si possa immaginare per demolire quello che è stato costruito da tre generazioni di pionieri ebrei».

Il «Palestine Post» afferma che gli atti di questa piccola banda di traditori non sono quelli del popolo israelita. Questi criminali devono venire ricercati e distrutti dagli stessi ebrei.

Smentita ad una falsa notizia

ROMA, 9. L'agenzia «Telegraphique Suisse» ha diramato una notizia secondo la quale il Vaticano starebbe prestando i suoi buoni uffici, affinchè si addivenga ad uno scambio fra parenti di personalità fasciste e parenti di personalità antifasciste che lo stato di guerra tiene ora separate dai loro familiari. La notizia non ha alcun fondamento.

Il nuovo direttore degli stabilimenti di pena romani

ROMA 9. Il dottor Domenico Donati, già Direttore del carcere di Napoli, è stato nominato direttore di Regina Coeli e delle Mantellate. Il comm. Strazzera Perniciani, avendo portato a termine l'incarico di commissario straordinario per gli stabilimenti di pena di Roma, lascia la direzione di quegli stabilimenti

...sui tetti, cosa che, con l'attuale stagione non è sempre possibile. Da qui la lentezza dei lavori che rende, almeno per ora, impossibile lo stabilire la data di apertura di una così grandiosa manifestazione artistica, destinata a suscitare il più vivo interessamento.

Precisazione

Turchiani Adelina e Croci Gianfranco, indicati quali sospetti autori di un furto al danni del signor Luigi Spano, non hanno nulla a che fare col furto in parola.

Per gli studenti d'ingegneria

Il Governo Militare Alleato della Toscana comunica di aver ricevuto, in data 8 corrente, una Commissione di quattro membri del Consiglio del Collegio degli Ingegneri della Provincia di Firenze che ha prospettato la situazione in cui si trovano circa 250 studenti del terzo, quarto e quinto corso di ingegneria residenti nella città di Firenze ed in località limitrofe, impossibilitati per le attuali contingenze a proseguire i loro studi.

Il Governo Militare Alleato, rendendosi perfettamente conto della necessità di un numero così elevato di studenti, fa noto che è in corso di studio un'adeguata soluzione del problema che, in via provvisoria, permetta agli allievi sia di sostenere gli esami che di seguire corsi regolari in Firenze.

Studio di lingue straniere all'Università Popolare

Le iscrizioni ai corsi di lingua russa, inglese, francese e tedesca alla Università Popolare Palagio di Parte Guelfa, Via di Candeccio, 3 si chiudono il 10 novembre.

La tassa di frequenza per ogni corso, della durata di sei mesi con tre lezioni la settimana, è fissata in L. 300 per il francese, tedesco, inglese in L. 400 per il russo.

Alcuni soci hanno richiesto un corso di lingua croata. La Segreteria dell'Università Popolare accetta le prenotazioni, salvo a decidere sulla possibilità e convenienza di aprire un corso di detta lingua.

Per la Divisione «Garibaldi»

Il Ministero della Guerra ha aperto in Firenze - Via Venezia, 5 - un Ufficio Informazioni, Assistenza e Propaganda per i reduci e le famiglie dei militari già appartenenti alle Divisioni «Venezia» e «Tridentina» inquadrati successivamente nella Divisione italiana partigiana «Garibaldi» dislocata in Balcania.

Gli interessati potranno rivolgersi al predetto ufficio tutti i giorni feriali dalle ore 9 alle ore 19.

Si informa inoltre che l'Ufficio stesso è incaricato di provvedere all'inoltro della corrispondenza diretta ai combattenti della «Garibaldi».

Un Ambulatorio pediatrico della Croce Rossa Italiana

Presso il Preventorio «Anna Torrigiani» della Croce Rossa Italiana in via di Camerata n. 2, è stato istituito un ambulatorio pediatrico gratuito per i poveri che interessa particolarmente le zone di S. Gervasio e di S. Domenico. L'orario per le visite è attualmente il seguente: lunedì e giovedì dalle ore 11 alle 12.

Problemi agricoli verso la soluzione

All'Associazione degli Agricoltori ferve il lavoro per la risoluzione di alcune questioni urgenti e importantissime, fra le quali quella delle tariffe salariali e dei trebbiatori, lo spinoso problema del bestiame da lavoro e la messa a punto dei Contributi Unificati.

Circa le tariffe salariali le trattative con i Lavoratori dell'Agricoltura procedano alacremente ed un accordo è imminente. Si spera anzi di poter dare l'annunzio della sua stipulazione nell'entrante settimana, giacchè molti punti sono stati concordati ed altri lo saranno al più presto.

Anche la discussione delle tariffe con il Consorzio Trebbiatori sta per volgere alla sua conclusione. Sappiamo che in linea di massima la tariffa per la trebbiatura del grano sarà fissata tenendo conto di due epoche distinte: prima dell'11 agosto e dopo questa data. Per le trebbiature avvenute dall'11 agosto in poi la tariffa si aggirerebbe sulle lire sessanta al quintale. Da tale cifra verrebbe detratta la spesa del carburante quando non fosse stato fornito dal trebbiatore. Il rimborso del carburante sarebbe valutato, a quanto ci risulta, al prezzo del mercato corrente.

Nei riguardi della questione zootecnica, e più precisamente della questione del bestiame da vita e da lavoro, possiamo assicurare che essa è stata affrontata nella sua complessa vastità. Ma appunto per questo suo carattere essa ha bisogno di un'analisi profonda e di una ampia discussione. Non se ne può improvvisare una soluzione qualsiasi. Ma, come già più di una volta abbiamo detto la sua urgenza è indiscutibile. Si muovano dunque gli enti interessati a non perdere del tempo prezioso.

L'Ufficio dei Contributi Unificati non ha ancora ripreso a funzionare regolarmente, Lè potrà fra breve funzionare. Un po' di tempo sarà richiesto dal riordinamento dell'importante schedario, in modo che possano stabilirsi le varie rivalse per l'anno agricolo passato e per quello in corso. Molti saldi colonici non sono stati firmati appunto per la mancanza o deficienza di questa voce.

Con la riorganizzazione dei vari uffici dell'Associazione degli Agricoltori e dell'Unione dei Lavoratori Agricoli ogni deficienza in questo campo sarà in breve eliminata.

Raccolta indumenti per i patrioti

Si è costituito presso gli uffici del Patriot Branch, Via Ricasoli n. 28, primo piano, un Comitato delle donne fiorentine per la raccolta di indumenti, pacchi pacchi, d'ogni genere, di cui v'è urgente bisogno per i Patrioti e le loro famiglie, che hanno incontro all'inverno completamente sprovveduti.

Il Comitato, data la difficoltà di ricevere sufficienti quantità d'indumenti, prega di molto anche qualsiasi offerta in denaro.

G'indumenti e le offerte potranno essere consegnati ogni giorno all'ufficio raccolta che sarà aperto dalle 10 alle 12; lo stesso ufficio provvederà al ritiro a domicilio presso coloro che vorranno comunicare l'indirizzo.

Un gesto significativo

Ieri l'altro 1 novembre alle ore 14, una compagnia di soldati americani ha offerto alle orfanelle del Piccolo Educatorio di S. Anna di Prato una simpatica ed abbondante merenda molto festeggiata ed apprezzata dalle ricoverate.

L'Educatorio ringrazia del simpatico gesto.

Per gli ufficiali e sottufficiali

Tutti gli ufficiali e sottufficiali che a suo tempo hanno ottemperato alla presentazione presso il Centro presentazione e reclutamento R. E. di Firenze e che non hanno ancora ritirato il «foglio di congedo» o «licenza illimitata» sono invitati a farlo entro il corrente mese di novembre presentandosi presso il suddetto Centro, in Via della Regina n. 2.

Per coloro che non ne fossero in possesso del foglio necessario di congedo si precisa che, per disposizione ministeriale, la data deve intendersi il 31 agosto 1944.

Invito agli allievi delle Accademie Militari

Gli allievi delle RR. Accademie dell'Esercito che non si fossero ancora presentati per regolare la loro posizione, sono invitati a farlo subito presso il nucleo Distretto Militare (Piazza S. Spirito).

Turchiani Adelina e Croci Gianfranco, indicati quali sospetti autori di un furto ai danni del signor Luigi Spano, non hanno nulla a che fare col furto in parola.

Problemi agricoli verso la soluzione

All'Associazione degli Agricoltori ferve il lavoro per la risoluzione di alcune questioni urgenti e importantissime, fra le quali quella delle tariffe salariali e dei trebbiatori, lo spinoso problema del bestiame da lavoro e la messa a punto dei Contributi Unificati.

Circa le tariffe salariali le trattative con i Lavoratori dell'Agricoltura procedono alacremente ed in accordo è imminente. Si spera anzi di poter dare l'annunzio della sua stipulazione nell'entrante settimana, giacchè molti punti sono stati concordati ed altri lo saranno al più presto.

Anche la discussione delle tariffe con il Consorzio Trebbiatori sta per volgere alla sua conclusione. Sappiamo che in linea di massima la tariffa per la trebbiatura del grano sarà fissata tenendo conto di due epoche distinte: prima dell'11 agosto e dopo questa data. Per le trebbiature avvenute dall'11 agosto in poi la tariffa si aggirerebbe sulle lire sessanta al quintale. Da tale cifra verrebbe detratta la spesa del carburante quando non fosse stato fornito dal trebbiatore. Il rimborso del carburante sarebbe valutato, a quanto ci risulta, al prezzo del mercato corrente.

Nei riguardi della questione zootecnica, e più precisamente della questione del bestiame da vita e da lavoro, possiamo assicurare che essa è stata affrontata nella sua complessa vastità. Ma appunto per questo suo carattere essa ha bisogno di un'analisi profonda e di una ampia discussione. Non se ne può improvvisare una soluzione qualsiasi. Ma come già più di una volta abbiamo detto la sua urgenza è indiscutibile. Si invitano dunque gli enti interessati a non perdere del tempo prezioso.

L'Ufficio dei Contributi Unificati non ha ancora ripreso a funzionare regolarmente, nè potrà fra breve funzionare. Un po' di tempo sarà richiesto dal riordinamento dell'importante schedario, in modo che possano stabilirsi le varie rivalse per l'anno agricolo passato e per quello in corso. Molti saldi colonici non sono stati firmati appunto per la mancanza o deficienza di questa voce.

Con la riorganizzazione dei vari uffici dell'Associazione degli Agricoltori e dell'Unione dei Lavoratori Agricoli ogni deficienza in questo campo sarà in breve eliminata.

Raccolta indumenti per i patrioti

Si è costituito presso gli uffici del Patriot Branch, Via Rasuoli n. 28, primo piano, un Comitato delle donne fiorentine per la raccolta di indumenti, anche usati, d'ogni genere, di cui c'è urgente bisogno per i Patrioti e le loro famiglie, che hanno incontro all'inverno completamente sprovvisti.

Il Comitato, data la difficoltà di rinvenire sufficienti quantità d'indumenti, crederà molto anche qualsiasi offerta in denaro.

Gl'indumenti e le offerte potranno essere consegnati ogni giorno all'ufficio raccolta che sarà aperto dalle 10 alle 12; lo stesso ufficio provvederà al ritiro a domicilio presso coloro che vorranno comunicare l'indirizzo.

Un gesto significativo

Ieri l'altro 1 novembre alle ore 11, una compagnia di soldati americani ha offerto alle orfanelle del Ricordo Educatorio di S. Anna di Prato una simpatica ed abbondante merenda tutto festeggiata ed apprezzata dalle ricoverate.

L'Educatorio ringrazia del simpatico gesto.

Per gli ufficiali e sottufficiali

Tutti gli ufficiali e sottufficiali che a suo tempo hanno ottemperato alla presentazione presso il Centro presentazione - reparti R. E. di Firenze e che non hanno ancora ritirato il «foglio di congedo o licenza rinnovabile» sono invitati a farlo entro il corrente mese di novembre presentandosi presso il suddetto Centro, in Via della Dogana n. 2.

Per coloro che come ufficiali in congedo nel luogo necessario di comando si precisa che, per disposizione ministeriale, detta data deve intendersi il 31 agosto 1944.

Invito agli allievi delle Accademie Militari

Gli allievi delle RR. Accademie dell'Esercito che non si fossero ancora presentati per regolare la loro posizione, sono invitati a farlo subito presso il nucleo Distretto Militare (Piazza S. Spirito).

Denuncia alla Autorità Giudiziaria per l'uccisione del cap. Modugno e di altri due cittadini

Nei primi giorni della liberazione di Firenze, precisamente l'11 agosto, vennero uccisi il capitano della Guardia di Finanza Mario Modugno, il cassiere della Banca Toscana Nicola Berardi e il commerciante Umberto Sette. I famigliari hanno ora presentato denuncia all'Autorità Giudiziaria contro gli ignoti autori della uccisione.

Un carico di generi alimentari sequestrato a Tavarnelle

A Marcialla, nel presso di Tavarnelle Val di Pesa, elementi del C.L.N. locale, fermato un camioncino, sequestrò 11 sacchi carico di generi alimentari. I carabinieri di Tavarnelle, ai quali è stato deferito il caso, constatato che il proprietario dell'automezzo, tale Manzini Mario, non aveva alcun permesso per il trasporto delle derrate, lo hanno denunziato alla Prefettura. Di qui la clemenza è passata al Tribunale Militare Alleato che l'ha rinviata alla Autorità Giudiziaria. Il carico del camioncino è così composto: kg. 118 di farina, kg. 121 di carbone, kg. 90 di castagne, pollami, conigli e piccioni è stato sequestrato per essere immesso al normale consumo.

Bambino ucciso da una mina

Ieri l'altro, il settenne Sergio Berti, abitante in via 5 Novembre, 41, mentre giocava nei pressi della sua abitazione, urtava contro una mina interrata e non segnalata che, esplodendo, lo feriva gravemente.

Il piccolo Berti era trasportato all'Ospedale di Santa Maria Nuova, ma nonostante le amorevoli cure dei sanitari, vi decedeva ieri mattina alle ore 8.

Gli spettacoli al Verdi

A motivo della sospensione della energia elettrica, la recita dell'opera «Rigoletto» che doveva avere luogo ieri è stata rinviata a sabato 11: Domenica - Bohème - con Liliana Paoli, Franco Bonacini, Enzo Mascherini, Giulio Neri, Rinolfa Rambelli e Melchiorre Luise. Dirige il Maestro Egisto Tieri.
