P. 11. 159. CD

29 November 1946

SUBJECT: Communications. Pt. II of UNRRA Italian Mission
Economic Survey. Vol. I. N°32.23 Aug. 1946.

TO : Headquarters
U.N.R.R.A.
ROME
(for attention of Mr. Cooper Programme Co-ordina-
tion and Statistics Branch)

1. Reference our previous discussions on subject of
data published under Part II of your Economic Survey for
23 Aug. 1946. pages 22 - 27.

2. The following details are submitted for the amen-
dments or additions to the previous publication, in the
preparation of your new work.

a. TELEPHONES.

(1) We have been unable to revise the estimates
and data in the 23 August 1946 Economic Notes, as the source
of the estimate is not known and the information is not in
most cases in line with that available to this office.

(2) The Piano Quinquennale of the Ministry of
Posts and Telecommunications shows proposed outlays over a
five year period on the following basis:

CROSS REF.	P11/159
FILE	
G 251	
Date of receipt	

804

167

- 2 -

167

	Stato Million Lira	Concessionary Companies (Million) Lira	Total Million Lira
1946	9,409	14,593	24,002
1947	6,790	12,899	19,689
1948	3,898	12,819	16,717
1949	1,656	9,759	11,415
1950	1,730	9,759	11,489
TOTAL	23,483	59,829	83,312

(3) Of this amount approximately 25,537 thousand million lira is the estimated cost of replacing buildings and equipment damaged by war, at 1946 prices. The remainder is the estimated cost for additions and improvements.

(4) The information in the 2nd and 3rd paragraphs above are from the Piano Quinquennale di Ricostruzione of the Ministry of Posts and Telecommunications. The Minister requests that this plan be cited if the figures are used in your publication.

b. POSTAL SERVICES: (1) Page 22 Economic Survey Supplement 23 Aug. 46 Postal.

(2) Para 102 (A) Suggest "Postal Service" not "Mail Service."
(3) Para 104 (A) Main Heading suggest "Postal Service"

(4) Para 106 An appropriate of 750 million lire was programmed in the budgets 1946-50 for the modernisation of equipment and the sum of 495 million lire for recovery of war damage. (Authority: Piano Quinquennale di Ricostruzione 1946)

(5) Para 104 First sentence hardly correct. Italys' Postal service was always regarded as reasonably fast between various centres but slow in delivery in City areas.

1.167

11

- 3 -

11

167

- (6) Italys' postal traffic is always comparatively low. With 11,500 Post Office handling 2,856 million letters annually, the service is slight compared to Great Britains which in 1941 with much the same population but only two thirds of the area had as many as 24,800 offices handling 6,250 million letters.
- (7) The returns for nine months of 1946 show that 6,996,444 gift parcels have been received in Italy from the United States of America.
- (8) Statistics for letter services for the current year are not available at the Ministry of Posts and Telecommunications and no comparison can therefore be made at present.

MINISTRY OF P. & T.
Capo Gabinetto del Ministro.

20 November 1946

With reference to letter G.251.161.CD of the 8.11.46.

Data relative to telecommunications reported on the "UNRRA Economic Survey" are not adjourned with the last addings and variants of the Piano Quinquennale of this Ministry.

Attached is the fascicle of mentioned addings and variants for correction of UNRRA's report.

It would be very much appreciated if in the publication the source of information, that is the Piano Quinquennale of this Ministry, would be cited.

Ministry of P.&T.
Azienda di Stato per
i Servizi Telefonici.

5 November 1946

SUBJECT: Telephone Exchange - Via Genova.

After recent incidents at the Ministry of the Interior (Viminale) and in order to protect the normal functioning of the Interurban Telephone Exchange of Via Genova, this Ministry finds necessary to abolish the entry to same Switchboard through the Ministry of the Interior's yard. This way is also prevented the possibility of having strangers entering with some kind of excuse the Telephone Exchange which at present represents a particularly delicate centre.

In the meantime removal of the reserve engines from the yard of the Ministry of the Interior would be provided. Same would be placed under a shed available now near the Repeater Station.

Please authorize above mentioned provisions.

THE MINISTER.

DEL _____

Oggetto: Centrale telefonica di Via Genova.

ALLA COMMISSIONE ALLEATA
SOTTOCOMMISSIONE POSTE E TELECOMUNICAZIONI

ROMA

See 165

6-251

6 NOV 1946

A seguito dei recenti avvenimenti verificatisi al Ministero degli Interni (Viminale) e nell'intento di salvaguardare il normale funzionamento della Centrale telefonica Interurbana di Via Genova, questo Ministero ha ravvisata la necessità di abolire l'accesso alla Centrale stessa dal Cortile del Ministero degli Interni. Così si elimina anche l'eventualità che elementi estranei possano con qualunque pretesto introdursi nella Centrale telefonica che rappresenta in questo momento un centro particolarmente delicato. 788

Contemporaneamente si provvederebbe a spostare i motori di riserva dal cortile del Ministero degli Interni sotto una tettoia resasi disponibile ed attigua alla Stazione Amplificatrice.

Nel portare a conoscenza di codesta Sottocommissione quanto sopra si prega di voler dare il proprio gradimento in quanto detto accesso alla Centrale fu voluto dagli Alleati per il personale adibito all'esercizio dei motori di riserva che possono ora essere trasportati più vicino all'Amplificatrice.

MEMO

TO: Executive Commissioner

1. Under date of 30 June 1945 G5 Allied Force Headquarters wrote the Headquarters, Allied Commission:

"This Section confirms that cipher and bag facilities may be granted to neutral nations without reference to this Headquarters".

2. Since that date, there is no further record of any further action in the Communications Division to regulate the use of codes and ciphers.

3. From the records, it appears that the Communications Division obtained codes and ciphers from the Italians and submitted them to AFHQ.

L.R. HUBERT,
Lt. Col. Sig. C.

21 October '46

MEMO

TO: The Executive Commissioner.

1. Codes and ciphers of the Italian Government are not held by the Allied Commission. At the time that a cryptographic section was assigned to the Allied Commission, an Italian subsection, under an Italian Army Officer handed Italian codes and ciphers. These codes and ciphers were withdrawn along with British and American codes and cyphers when cryptographic work of the Allied Commission was taken over by the Signal Office of the Rome Area Allied Command.

2. I have not found a directive, or indication of a directive, requiring the Communications Sub-Commission to obtain copies of Italian Codes and Ciphers.

L.R. HUMBERT,
Lt.Col. Sig.C.
Director.

SUBJECT: Brazilian Telegrams to Frankfurt.

TO : Allied Force Headquarters
Att: Chief Signal Officer

1. The Brazilian Embassy in Rome receives telegrams from Frankfurt, Germany, but is unable to reply by telegram because commercial facilities are not available and there is no authority for sending such telegrams over Allied Military Circuits.

2. It is recommended that the Rome Area Allied Command Signal Center be authorized to transmit official Brazilian Embassy telegrams to Frankfurt.

- a. The number would be small and it would aid expeditions communication between Brazilian representatives.
- b. An examination of traffic on that circuit indicated that additional traffic imposed by such authority would not interfere with military traffic.

RISPOSTA AL N. G. 251.136 CS
DEL 16-8-1946

Oggetto: Collegamento con il Signal Office del Comando Alleato di
Roma-Ten.te Romolo Lepore.

ALLA COMMISSIONE ALLEATA
SOTTOCOMMISSIONE PER LE COMUNICAZIONI

R O M A

Con riferimento alla lettera sopradistinta, questo Ministero è spiacente di dover comunicare che non ha la possibilità di assumere alle proprie dipendenze come impiegato civile il tenente Romolo Lepore della Marina Italiana, attualmente ufficiale di collegamento presso il Signal Office del Comando Alleato di Roma, poichè, a parte il fatto che ad un provvedimento del genere potrebbero ostare difficoltà di ordine amministrativo inerenti alla posizione rivestita dal predetto Ufficiale nei confronti del Ministero della Marina, per l'art. 14 del R.D. 19 luglio 1941, N.884, l'Azienda Telefonica di Stato può assumere eventualmente personale diurnista ma solo in relazione alle normali specifiche esigenze dei propri servizi.

Si ritiene che la questione riguardante l'Ing. Lepore potrebbe essere esaminata da codesta Commissione Alleata di intesa con il Ministero della Marina.

ALLA COMMISSIONE ALLEATA
SOTTOCOMMISSIONE PER LE COMUNICAZIONI

R O. M. A

Con riferimento alla lettera sopradistinta, questo Ministero è spiacente di dover comunicare che non ha la possibilità di assumere alle proprie dipendenze come impiegato civile il tenente Romolo Lepore della Marina Italiana, attualmente ufficiale di collegamento presso il Signal Office del Comando Alleato di Roma, poichè, a parte il fatto che ad un provvedimento del genere potrebbero ostare difficoltà di ordine amministrativo inerenti alla posizione rivestita dal predetto Ufficiale nei confronti del Ministero della Marina, per l'art. 14 del R.D. 19 luglio 1941, N. 884, l'Azienda Telefonica di Stato può assumere eventualmente personale diurnista ma solo in relazione alle normali specifiche esigenze dei propri servizi.

Si ritiene che la questione riguardante l'Ing. Lepore potrebbe essere esaminata da codesta Commissione Alleata di intesa con il Ministero della Marina.
