G.S.B./mow

25 May 45

41a/PRB

SUBJECT: P.W.B. Functions in Northern Italy

TO : Executive Commissioner

1. Your attention is called to the attached letter from the Assistant Deputy Director, P.W.B., enclosing two papers submitted to the Chief of Staff, AFHQ, on P.W.B. functions in northern Italy.

2. Although AFHQ has not yet issued instructions based on the recommendations from P.W.B., I believe it would be advisable for the Communications Sub-Commission to study and prepare recommendations as to the date by which normal communications can be established with northern cities. Once this date is established and instructions have been received from AFHQ we can meet with private Italian agencies and with P.W.B. to determine the formal date on which P.W.B. will cease furnishing news in northern Italy.

3. Particular study should be given to para 4 under chapter IX "Recommendations".

TO : AG, (Attention of the Director of Public Relations),
Copy to PWB 15th Army Group.

FROM : Assistant Deputy Director, PWB-AFHQ

SUBJECT : PWB Functions in North Italy.

1. I herewith forward five copies of the Staff paper which is being submitted to the Chief of Staff, AFHQ, for his decision as to future procedure and approval.
2. I am addressing this letter and the copies to the Director of Public Relations as it was with that office that I discussed the matter while I was in Rome last week.
3. If liquidation of PWB responsibilities as proposed in the attached paper is to take place at an early date, it is necessary that steps be taken as soon as possible to secure the smooth transfer in the fields of Radio, Press and News.
4. PWB is already in close touch with the General Directorate of RAI to ensure that the PWB Radio arrangements in the north will be such as RAI eventually desires to take over, and that PWB actions in this field are confined to what is strictly necessary for the operational control of the programmes in the interim period.
5. PWB will also take the necessary steps to see that that part of the Press plan covering the pre-Fascist papers is put into operation as soon as possible so that these papers will have revived as information newspapers before the date fixed for the transfer and the consequent liquidation of PWB papers.
6. The smooth transfer of the news organization depends on the possibility of representatives of the private news agencies, including the Italian agencies, ANSA, ORBIS, and SI, being able to visit North Italy at an early date in order to make arrangements for the link up. In forwarding these copies of this proposal, PWB desires to draw attention to this point, as permission for the representatives of the Italian agencies to visit North Italy is a matter for the Public

SUBJECT: PWB Functions in North Italy.

TO : Chief of Staff.

I. DISCUSSIONS:

1. The Combined Chiefs of Staff have directed in FAN538 that informational activities in Liberated Italy should be separated on national lines when integration ceases to serve in direct support of military operations, and that public informational facilities should be released to civilian agencies as soon after liberation as military conditions allow. It is the opinion of PWB that the unconditional surrender of the German forces has brought about conditions in Italy in which allied control, other than censorship for security reasons, of the information services, is no longer necessary. It is also felt by PWB that the Italian Patriotic contribution to victory has been such that any attempt to prolong this control beyond the minimum period necessary for the re-establishment of communications, would arouse Italian hostility and excite non-cooperation to an extent which would embarrass allied administration more seriously than the inconveniences which might arise from the uncontrolled entry and dissemination of news, including comments critical of allied policy and administration.

2. Geographical Considerations.

These considerations apply to the whole of North Italy, but the matter is most urgent in the industrial areas of the North West, where the patriots, especially the Left elements, most critical of allied control, are strongest. It would therefore be logical to suggest that measures should apply in the first place to Lombardy, Piedmont, Liguria and Emilia, that they should be extended as soon as possible to the Veneto and if circumstances permit to Venezia Tridentina. Venezia Giulia is a special case which is not considered in this paper.

3. News

The first step in the release of public informational facilities in the admission of the private news agencies. On a previous occasion, the agencies requested one month's notice of intention to transfer responsibility in a given area. It is thought that this would be sufficient. An equally essential pre-requisite to transfer is the restoration of civilian communications, a technical problem which can be most easily studied by a technical sub-committee similar to that appointed to arrange the detailed transfer of facilities in Rome and Southern Italy.

1. The Combined Chiefs of Staff have directed in FM 38 that informational activities in Liberated Italy should be separated on national lines when integration ceases to serve in direct support of military operations, and that public informational facilities should be released to civilian agencies as soon after liberation as military conditions allow. It is the opinion of PWB that the unconditional surrender of the German forces has brought about conditions in Italy in which allied control, other than censorship for security reasons, of the informational services, is no longer necessary. It is also felt by PWB that the Italian patriot contribution to victory has been such that any attempt to prolong this control beyond the minimum period necessary for the re-establishment of communications, would arouse Italian hostility and excite non-cooperation to an extent which would embarrass allied administration more seriously than the inconveniences which might arise from the uncontrolled entry and dissemination of news, including comments critical of allied policy and administration.

2. Geographical Considerations.

These considerations apply to the whole of North Italy, where the patriots, especially the Left elements, most critical of allied control, are strongest. It would therefore be logical to suggest that measures should apply in the first place to Lombardy, Piedmont, Liguria and Emilia, that they should be extended as soon as possible to the Veneto and if circumstances permit to Venozia Tridentina. Venezia Giulia is a special case which is not considered in this paper.

3. News

The first step in the release of public informational facilities in the admission of the private news agencies. On a previous occasion, the agencies requested one month's notice of intention to transfer responsibility in a given area. It is thought that this would be sufficient. An equally essential pre-requisite to transfer is the restoration of civilian communications, a technical problem which can be most easily studied by a technical sub-committee similar to that appointed to arrange the detailed transfer of facilities in Rome and Southern Italy.

4. Radio

In Southern Italy the admission of the private news agencies was accompanied by the return of the radio network to Italian control. PWB feels that this should also happen in North Italy, but it is felt desirable to draw attention to the fact that Liberated North Italy

contd:

1092

contains powerful transmitters which, added to those already available at Roma, would place in the hands of RAI and so indirectly of the Italian Government, a propaganda weapon more powerful than that available to neighbouring allied countries, which might well raise grave objections. This would appear to be a political matter outside the competence of PWB, which will not require those transmitters for operational reasons, except to a very limited extent.

5. Press

With the entry of the private news agencies, it is not felt desirable to retain PWB controlled papers. It is however, considered essential that non-political information papers be set up as provided for in the North Italian Press Plan, and it would therefore appear essential that the pre-Fascist papers be re-started before PWB papers are suspended.

6. Information Services.

Transfer of information services to OWI and MOI should take place at the time of the entry of the private news agencies in accordance with the detailed plans laid down in respect of South Italy.

7. Intelligence

PWB Intelligence Units in Rome and Milan will be required as long as PWB retains responsibilities in any part of North Italy. In addition, it will be necessary for arrangements to be made for the transfer to other agencies of work at present done by PWB and still required by the State Department and PID. It is suggested that the persons required for this work, which will outlast the existence of PWB, be attached to the British and American Embassies. A detailed plan is attached, TAB A.

8. Austria

The present paper does not deal with PWB responsibilities towards Austria.

II. RECOMMENDATIONS

1. That AC be instructed to set up a technical sub-committee to examine the problems involved in the admission of the private news agencies to North Italy, and to recommend a date as soon as possible after June 15th for the transfer of responsibility for the collection and dissemination of news from PWB to the private news agencies, allied and Italian.

2. That as a first stage the transfer be made in Lombardy, Piedmont, Liguria and Emilia. That a second stage covering the Veneto and if conditions permit Venezia Tridentina follow as soon as facilities can be provided.

contd:

60
3. That PIB put into force as quickly as possible the provisions of the press plan concerning pre-Fascist Italian newspapers in order to ensure that non-political information papers exist in the Northern cities and that PIB cause publication of its own papers when the private news agencies are admitted.

4. That control, other than censorship, of the Italian radio network in the North be returned to RAI at the date fixed for the admission of the private news agencies and that should the retention of political control be considered desirable for the reasons cited above, the AC be invited in conjunction with the US and British Embassies and PIB to examine the problem and set up the necessary machinery.

5. That responsibility for British and US Information services be transferred to OII and SOI on the date fixed for the admission of the private news agencies and that the general lines of the transfer follow those laid down for South Italy.

6. That PIB restrict its activities in the field of intelligence to that needed for its own operation in North Italy and that other intelligence activities, at present carried out by PIB and still desired in Washington or London, be transferred to the US and British embassies.

785015

4. That control, other than censorship, of the Italian radio network in the North be returned to RAI at the date fixed for the admission of the private news agencies and that should the retention of political control be considered desirable for the reasons cited above, the ACO be invited in conjunction with the US and British Embassies and PIB to examine the problem and set up the necessary machinery.
5. That responsibility for British and US Information services be transferred to OII and MOI on the date fixed for the admission of the private news agencies and that the general lines of the transfer follow those laid down for South Italy.
6. That PWB restrict its activities in the field of intelligence to that needed for its own operation in North Italy and that other intelligence activities, at present carried out by PIB and still desired in Washington or London, be transferred to the US and British Embassies.

785015

DETAILED PLANSUBJECT: P.B RESPONSIBILITIES FOR THE COLLECTION OF INTELLIGENCE
IN ITALY.

1. On 31st March 1945, the Chief of Staff directed Psychological Warfare Sub-Committee to examining the possibility of reducing the activities of P.B in regard to the collection of intelligence in Italy.

2. Since that date, lack of personnel and the necessity of freeing officers for work in North Italy has already caused the cessation of P.WB activities in the field of economic intelligence and in the reporting of press and publications in Liberated Italy. In addition, the work of the Italian Documents Section has been temporarily suspended.

3. As long as P.WB retains any responsibility for psychological warfare activities in Northern Italy, it will be necessary to retain intelligence units in Rome and Milan and other centres where P.WB offices exist, for the collection of the intelligence needed to guide and direct propaganda and other activities. Reports by these units should be made available to other allied agencies as at present, after clearance with AG on existing lines.

4. It is however, felt that the scope of these reports should in future be restricted to the following matters:

- a) the growth and doctrines of Italian political parties.
- b) Italian public opinion, more particularly in its reaction to current events.
- c) Reactions to allied propaganda.
- d) Information about Italian press, publications, etc.

It is further felt that a daily cable of press extracts for the use of G.I and P.D should continue until such time as other arrangements can be made.

5. The personalities section located in Rome should continue to function until such time as information available from North Italy can be incorporated in the card index. Arrangements have been made for micro-filming of this card index so that copies may be available to the American and British Embassies in Rome and for dispatch to Washington and London.

6. The activities of the Italian Documents section have been temporarily suspended in order to make the personnel available for work in North Italy. One Officer and one NCO have been attached to the

10th May, 1945

2 1 2

the activities of PIB in regard to the collection of intelligence in Italy.

2. Since that date, lack of personnel and the necessity of freeing officers for work in North Italy has already caused the cessation of PIB activities in the field of economic intelligence and in the reporting of Press and publications in Liberated Italy. In addition, the work of the Italian Documents Section has been temporarily suspended.

3. As long as PIB retains any responsibility for psychological warfare activities in Northern Italy, it will be necessary to retain intelligence units in Rome and Milan and other centres where PIB offices exist, for the collection of the intelligence needed to guide and direct propaganda and other activities. Reports by these units should be made available to other allied agencies as at present, after clearance with IC on existing lines.

4. It is however, felt that the scope of these reports should in future be restricted to the following matters:

- a) the growth and doctrines of Italian political parties.
- b) Italian public opinion, more particularly in its reaction to current events.
- c) Reactions to allied propaganda.
- d) Information about Italian press, publications, etc.

It is further felt that a daily cable of press extracts for the use of G.I and PID should continue until such time as other arrangements can be made.

5. The personalities section located in Rome should continue to function until such time as information available from North Italy can be incorporated in the card index. Arrangements have been made for micro-filming of this card index so that copies may be available to the American and British Embassies in Rome and for dispatch to Washington and London.

6. The activities of the Italian Documents section have been temporarily suspended in order to make the personnel available for work in North Italy. One Officer and one WCO have been attached to the 5th Army Combat Team with specific instructions to locate and report on certain Fascist archives, including the Mussolini archives and the Archives of the Ministry of Popular Culture which were transferred to North Italy in September 1943. It is felt that further research of those archives

contd:

109

785015

- 2 -

would not be of immediate benefit to PIB and that such research would fall outside the proper functions of PIB. It is, however, known that such research is desired by the State Department and by the Foreign Office and it is felt that the appropriate organisation to carry out this research should be attached to the US and British Embassies, and that PIB should be relieved of all responsibility in this respect.

7. If the foregoing suggestions be accepted, it is submitted that the Intelligence Services of PIB should continue only so long as PIB is responsible for the control of the Press and Radio in Northern Italy and that PTD, O.I and other organisations at present receiving PIB Intelligence reports should immediately be informed, so that alternative arrangements may be made by the organisations themselves to obtain their legitimate requirements through other channels.

卷之三

Captain ANDERSON said that he thought we might forget about the "equitable" question altogether for the time being. He would like to know whether PWS could give its licensees local news to the Bone News papers on Monday evenings.

Major STILDEEN said that this was a new point which had never been discussed, but locally, since the news papers were nothing but a paying basis, any PWS news should be sold to them on the same terms as agency news. Otherwise, there would be no market for it. The distribution was only in newspaper, book cover distribution; important point was to avoid monopoly by rules. PWS was given a virtual monopoly to ANSA by rule. All licensees should concentrate on a local business. All licensees should concentrate on a local footing.

Mr. SMITH said that nobody wanted a free press. None that he and his thought that Captain ANDERSON had used the "whole world" which he said "meant the world" employees; he maintained "that's what it takes" to have to decline on the available to him. PWS had absolutely no connection with ANSA.

Major STILDEEN objected that it was generally thought that PWS was sponsoring ANSA and there was much little reason of publication, so before it should not have pre-empted treatment above any other agency.

Mr. WATKINSON said that he thought these considerations added to the point of view of Captain ANDERSON. He said that "the country does not want monopolies." Until big associations were taken, he thought that PWS should distribute information to the public through the Bone News papers. Major STILDEEN agreed.

3. Note 3:

Mr. WATKINSON said that it was very useful. Many officers could not read Italian. He himself found it essential, though he did not understand it. There would be quite impossible to prevent it from getting into the hands of the wrong people.

Mr. WATKINSON said that it was surely a luxury. There were the English papers, and tiny digests; in fact top (1) many people were able to digest.

Mr. MAGILLIAN suggested that one of the operational sections and a communications section be established in the Bureau's new command center.

Mr. HODKINSON said that it was really a question of who controlled the organization. Why should the unit as a whole not be transferred to AG? He thought that it continue as it was for the time being, but a communications committee should be set up and its functions eventually transferred.

Mr. REDFORD said that his suggestion was very complicated and suggested that the CO should appoint someone to discuss the matter with him.

Mr. MAGILLIAN agreed that it was a difficult problem and might best be left over to a technical committee to take recommendations from various sources that a coordinating committee should be set up.

Mr. MAGILLIAN wished Mr. BARNES to an organization of the communications and liaison department propounded by Mr. KENNEDY initially should be zoomed in on with AG.

Mr. MAGILLIAN thanked Mr. BARNES for suggesting the paper, and suggested that we form an idea of the initiation of activities. We should now have to consider how these activities can be handled AC, ONI, MCIT, and the Embassies. That would be too numerous of a function meeting, which should be kept as soon as possible.

- AC I-10. Unit to be established at Oshawa, N.Y. for provision of
communications and services to spot news to Am. J. L.
- AC I-11. Message service to be established until the Ministry
of Defense can find a location to serve the W.M.C.
Second least to the same service should be provided
by D.C. or D.A. (both) (see Note 1 to Annex 4),
or second to role as an Agent Station (see Note 4),
or stations by Am. J. and Journals.
- AC I-12. Unit for the monitoring of this industry, to
be organized in the U.S. basis, to be established.
Mr. S. Monroe, D/C, to make recommendations
on the distribution of staff, etc., to provide communications
more rapidly, if the equipment, for the post, available to the
above units.
- Note 1: A Sub-commission uniting the Canadian Office of Standard
Steel is already studying the possible connection with
the provision of surveillance services to post liaison offices.
Note 2: D.C. - when new file is made, issued from Nov. 10, to be
discontinued.
- Note 3: D.C. will be discontinued, unless to be continued as
long as present conditions, which cannot be discontinued
to Tr. 1.4, persist in force.
7. Monitoring: Following lines to be established:
a. AC I-13. Unit to monitor communications services of Tr. 1.4
b. AC I-14. Unit to monitor communications services of Tr. 1.4
