Suspended in Sept. 44 by the Prefect.

Defailed information requested from P.O. Region V, who asks for a substitute - Request more information on the qualification of the actual acting director - Corps Officer MARCOLINI - P.O. replies that Marcolini is all right, except for his rank - But further enquiries are being carried out on the situation of the direction - Further letter from P.O. stating that Dr Magrone has been the victim of an injustice and that he should be reinstated, Replied to P.O. quoting all previous correspondence in contradiction with the last letter and clarification requested - The Ministry asks if the appointment of a Director is still necessary - ~~and~~ being understood that Cav. Bocella, a capable Inspector, was acting Director of Pesaro - Replied to Ministry that Bocella is acting Director and that the position of Magrone will probably be reviewed.

Previously Inspector at Macerata. Then transferred to Ancona (apparently because at Macerata he was also working as a University teacher).

From 1st Nov. 43 he retired from service alleging sickness.

Now he asks to be re-instated in service at Macerata. Apparently the Ministry thinks he should be epurated as Fascist and suggests to keep the matter in abeyance till the territory comes under Italian Government jurisdiction.

Full particulars requested from P.O. Region V. On reply, instructed P.O. Reg. V. to keep the matter in abeyance till the territory comes under It. Gov. control, and to inform Dr. Meloni accordingly -

P.O. request that an other inspector be sent to cover Ancona & Macerata province, to replace also the Prov. Dir. of Macerata, incapable -

No action taken at this time -

Further appeal from Dr. Meloni transmitted by P.O. a parcel to the Under Secretary, saying that they may enquire direct at the Prov. Dir. of Macerata & Ancona.

Uguale situazione si é verificata per

to personale é stato senza notizie della propria famiglia e che l'ansia di rivedere i propri cari é determinata da comprensibili sentimenti umani, si prega codesta On. Commissione di esaminare la possibilità che al personale di cui si tratta, previa autorizzazione delle Autorità Alleate e secondo le modalità che potranno essere fissate dalle Autorità stesse, sia consentito di ritornare al più presto possibile nella propria casa.

Tale provvedimento sarebbe giovevole anche al buon andamento del servizio postale e telegrafico, in quanto nelle provincie restituite al Governo Italiano verrebbe eliminato quel personale in eccesso che potrebbe essere meglio utilizzato nell'Italia del Nord.

Si gradirà conoscere con cortese sollecitudine le decisioni di codesta On. Commissione.

SUBJECT: P.M. Personnel posted in localities under M.G. control.

We inform you that in the Provinces which have been returned to the Italian Govt, there are many employees, which, being previously on service at the P.M. at the time of the armistice and successively demobilised, could not and have not been able to return to their original residences, where they have their own families, at first owing to war events and now because such residences are still under A.C. control.

The same situation occurred to the personnel which ~~XXXXXXXXXX~~ while on military service, has been sent on leave, or that, finding themselves away from their post for service ~~XXXXXXXXXX~~ or other reasons, has been caught by war events and therefore have not been able to return to their residences.

Considering that for a long time such personnel has been without news of their own families and their ~~anxiety~~ to see again their relatives is determined by comprehensive human feelings, we beg you to examine the possibility that the personnel in question, with your authorisation and according to the regulations which will be established by you, be allowed to return as soon as possible to their own homes.

Such a provision would also be of help for the good operation of the postal and telegraph service, as the ~~XXXXXXXXXX~~ ^{superfluous} ~~excessing~~ personnel in the Provinces returned to Italian Govt could be ~~XXXXXX~~ better used in North Italy.

We would appreciate to ~~XXXXXX~~ have your early decision.

1. Thank you for the information given with your S/4.5/32869 of 5th July 1945 which will be studied and passed to Postal Officers for reference.

2. With regard to the second paragraph of your letter it should be mentioned that the information was requested merely in order to obtain an indication of the principles on which the various increases and allowances awarded in Italian Government territory had been applied to the class of "supplenti". It does not automatically follow that the same increases and allowances are payable in the North, as various Italian Government decrees are at present excluded from application in that territory. The question arises in connection with the application of an order granting special anticipatory increases for June - an order in which the class of supplenti was not specifically mentioned. Since then a new instruction has been issued by the Finance Sub-Commission implementing the following decrees in Military Government territory:

O G G E T T O:

Trattamento economico supplenti delle ricevitorie p.t.

I supplenti delle ricevitorie p.t. vengono assunti mediante stipulazione di apposito contratto direttamente dai titolari delle ricevitorie dai quali dipendono e sono retribuiti.

All'Amministrazione è demandato soltanto il diritto di approvazione dell'assunzione che viene senz'altro concesso se lo assumendo è in possesso dei requisiti necessari.

Ciò premesso s'informa che ai supplenti sono state concesse, in massima, tutte le provvidenze di carattere economico concesse ai ricevitori.

Precisamente è stato loro elargito l'assegno temporaneo di guerra, l'assegno integrativo, l'aumento dell'aggiunta di famiglia e nei casi e per il tempo previsto dalla legge, l'indennità per offese belliche.

I supplenti delle ricevitorie p.t. vengono assunti mediante stipulazione di apposito contratto direttamente dai titolari delle ricevitorie dai quali dipendono e sono retribuiti.

All'Amministrazione è demandato soltanto il diritto di approvazione dell'assunzione che viene senz'altro concesso se lo assumendo è in possesso dei requisiti necessari.

Ciò premesso s'informa che ai supplenti sono state concesse, in massima, tutte le provvidenze di carattere economico concesse ai ricevitori.

Precisamente è stato loro elargito l'assegno temporaneo di guerra, l'assegno integrativo, l'aumento dell'aggiunta di famiglia e nei casi e per il tempo previsto dalla Legge, l'indennità per offese belliche.

E' stato altresì concesso ai supplenti il premio di congiuntura, ma non quello semestrale, che non si è dato neppure ai ricevitori.

Quanto alla misura dei singoli aumenti, questi a norma delle Leggi rispettive sono commisurati proporzionalmente alla mercede base; e non è quindi possibile poterli specificatamente determinare, in quanto le mercedi variano nelle diverse regioni e sono commisurate alle attribuzioni ed ai compiti assegnati ai supplenti dai singoli ricevitori.

/./

L'assegno viveri, però, non può essere concesso nella misura fruita dai ricevitori e dagli impiegati (L. 56.66 al giorno, ossia L. 2000 mensili) in quanto non dovendo superare questo il doppio dello stipendio mensile base si riduce in effetti nella maggioranza dei casi dalle L. 700 alle lire 1000 al mese. -- Si crede utile aggiungere che non è stato concesso ai supplenti il premio di ricostituzione accordato ai ricevitori della provincia di Roma, ed il premio pasquale (quest'ultimo neanche concesso ai ricevitori) e che al riguardo è stato interessato il Ministero del Tesoro per l'estensione dei premi stessi ai supplenti della provincia di Roma.

Informasi, altresì, che i supplenti percepiscono un compenso di 1 o 2 ore di straordinario giornaliero, rispettivamente se dipendenti da ricevitori di 2° e 3° classe ovvero di 1° classe. -- Tale concessione risale al 1942, e fu determinata dal maggior lavoro causato dal traffico di guerra.

Economic treatment of the P.T. Ricevitorie Assistants.

The P.T. assistants are hired by means of stipulation of a contract directly by the titolari of the ricevitorie from which they depend and are paid.

Only the right of approval for the hiring are asked to the Administration which are granted immediately if the person in question has the necessary requisits.

It is informed that the assistants have been granted, in a general line, all the arrangements of economic nature which are granted to the Ricevitori.

Precisely, they have been given the temporary "assegno di guerra", "l'assegno integrativo", "l'aumento dell'aggiunta di famiglia" and in the cases and for the time foreseen by the Law, also "l'indennita' per offese belliche".

Also the "premio di congiuntura" has been granted to the assistants, but not the "premio semestrale", which is not even given to the Ricevitori.

As regards the measure of the single increases, this following the respective regulations are given in proportion to the low wages; and it is not possible therefore, to determine them specifically, as the "mercedi" change in the various regions and are paid in measure of the attributions and the work assigned to the assistants by each Ricevitore.

"L'assegno viveri" cannot be granted in the measure of which the employees and ricevitory benefit (L. 66.66 per day, L. 2000 per month) because as this must not surpass the double of the monthly wages basis it comes to be effectively nearly always from 700 to 1000 Lire per month. We think, it is useful to add that the assistants are not granted the "premio di ricostruzione" which is given to the ricevitori in Rome province, and the "premio pasquale" (the latter is not granted even to the ricevitori) and concerning which the Ministry of Treasury has been interested for the extension of such premium to the assistants of Rome province.

We also inform you that, the assistants receive a compensation of 1 or 2 hrs of daily overtime, respectively, if they depend from 2 or 3 1st class ricevitorie. Such a concession started in 1942 and was caused by the increase of work due to war traffic.

1. Several inquiries have been received regarding the re-establishment of annual leave for personnel of the Provincial Directorates of Posts and Telegraphs. The information furnished was to the effect that such leave had not been granted since 1940. This has no doubt caused an increase in the number of days that personnel have been absent on sickness.

2. Would you state what the present policy of the Ministry is in regards to this matter in Italian Government Territory so that the same policy may be adopted in AMG Territory. OGGETTO: CONCESSIONE BENEFICI ECONOMICI
A FAVORE DEL PERSONALE

=====

Data la grave situazione economica del personale p.t. di questa Direzione, il pseudo Ministero Repubblicano aveva concesso nei mesi di Giugno e di Luglio 1944 un compenso integrativo dello stipendio pari a 250/200 ore di straordinario, a seconda che si trattava di personale con o senza famiglia a carico. =

Tale compenso veniva concesso con Autorizzazione Ministeriale, di mese in mese, ed avrebbe dovuto cessare non appena fosse stato attuato il " premio di emergenza " (L.30 giornaliero) di cui al Decr. 29 Giugno 1944 N°.415 - premio che fu accordato infatti con effetto dal 2° Agosto 1944. =

Ciò nonostante lo scrivente dispose ugualmente il pagamento delle 250-200 ore di straordinario anche per il mese di Agosto, chiedendo poi, ed ottenendo, la sanatoria al pagamento stesso. =

Aggravandosi sempre più la crisi economica di questo personale si ottenne poi, di volta in volta, che la concessione delle 250/200 ore venisse accordata anche nei mesi di Settembre ed Ottobre 1944, dopo di che la ex Direzione Generale fece conoscere di non potere fare più oltre concessioni del genere. =

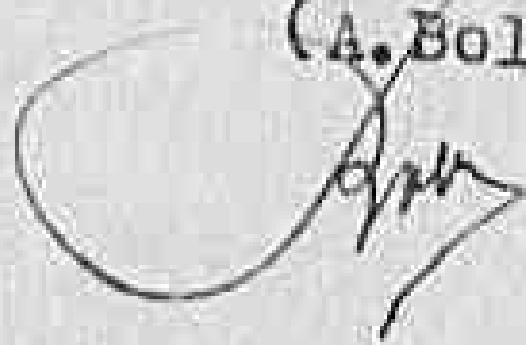

Senonchè, nel Marzo u.s., dato l'approssimarsi del fronte, il sempre più grave pericolo incombente sulla città ormai sottoposta al tiro delle artiglierie ed il vertiginoso aumento del costo della vita, fu rinnovata, con maggiore insistenza, la richiesta di un aiuto economico e la ex Direzione Generale concesse, infine, altre 250/200 ore per il detto mese di Marzo e per quello di Aprile. =

Giova osservare che il Ministero della pseudo repubblica era ricorso all'espedito di concedere un compenso in ore di straordinario, in luogo di altre assegnazioni, dato il divieto di

elargire al personale, oltre lo stipendio, prov-
videnze che non fossero estese a tutte le altre
Amministrazioni Statali . Compenso inoltre non
già a carattere continuativo, ma del tutto con-
tingente che veniva autorizzato, di volta in
volta, dall'ex Ministero delle Comunicazioni .

Ad avvenuta liberazione di Bologna, questo
personale, vieppiù assillato dal bisogno, sta
facendo ora insistenti pressioni , anche a mezzo
del Comitato di Liberazione Nazionale, per otte-
nere un sensibile aiuto e precisamente la cor-
responsione di una somma equivalente alle 250/200
ore di straordinario, per i quattro mesi dal No-
vembre 1944 al Febbraio 1945, somma che non fu
possibile ottenere dalla cessata Amministrazione
e che l'Ufficio Finanziario " del Comando Alleato,
come pure S.E. il Prefetto , non si è ritenuti
autorizzati a concedere . =

IL DIRETTORE PROVINCIALE 5171
(A. Bollo)

Concern of economic benefits to P. and T. personnel —

Because of the serious economic situation of the personnel depending from this Direction of Posts & Telegraphs, the so-called Republican Ministry had granted for the months of June & July ¹⁹⁴⁴ an allowance ~~to integrate the salary of~~ of 250/200 hours of extraordinary work to integrate the monthly salaries of the employees.

This allowance was granted by the ministry each month, and was to cease as soon as the "emergency recompense" should be effectuated (£30 each day). Decree of June 29, 1944, No 415.

This "emergency recompense" was granted on August 1, 1944.

In spite of this, the undersigned ordered the same to pay the 250/200 hours of extraordinary work in the month of August, asking & obtaining a readjustment of the pay ^{to £170} ~~itself~~.

But since the economic crisis was getting worse and worse, we obtained, each time, that the 250/200 hours of extraordinary work

should be granted also for the months of September and October 1944, after which the ex-General Direction informed us that there could be no longer any concession of that kind.

But in March 1945, since the front line was drawing near, the city was almost under artillery fire and the prices were getting higher and higher, we have requested with more force ~~and~~ economic allowance and the ex-General Direction granted the payment of 250/200 for the months of March and April.

It is useful to observe that the Ministry of the ex-Republic had found an expedient to grant the payment of extraordinary hours, instead of other allowances, because it was forbidden to give to the personnel any allowance which ^{was} not given also to all other State

administrations. This payment, besides, had no character of continuity but was to be authorized each time by the ex. Ministry of Communications.

After the Liberation of Bologna, this personnel, more pressed by urgent necessities, is requesting, also through the Committee of N.L., an allowance, and precisely, the sum equal to the payment of 250^{hrs.}/200 of extraordinary work for the months from November 1944 to February 1945; this sum the ex. Administration could not pay and the Finance Officer of AMG and the Prefect do not feel authorized to grant.

Reference you letter P. 9.254/65 of 23 May 1945 concerning the position of Dr. Magrone. These answers are from memory as the file in question was turned in on the closing of Reg.V, 9 May 1945.

PSS was requested to review the case and sent a copy of their report to the Regional Officer. No such report was ever received.

It is believed that this case warrants an investigation by a member of Ministerial Staff, especially as it seems improbable now any report will be filed.

On March 19 you reported that in view of certain fresh evidence revealed by an enquiry by Inspector Bernabini, it had been suggested that the justification for the suspension of Dr. Magrone should be reviewed within the Province.

Can you say whether Dr. Magrone's case was reviewed, and, if so, with what result?

The Ministry ask for information, as, they say, Dr. Magrone, who was suspended some time ago, is still out of the service.

di aver dato disposizioni all'Ufficio di
Roma Ferrovia affinché avverta con apposito

Non può esser comminato comunque il li-

il provvedimento disciplinare sia anche ec-

SUBJECT. : Postal messengers on military trains.

Reference is made to your letter P.9.245/CS dated 2nd inst. We assure you that we have issued instructions to the Rome Ferrovia Office, so that they warn, with an apposite "service order" the travelling personnel, charged with the escort of despatches on military trains, that serious provisions will be taken against whosoever carries abusively food stuffs.

Immediate dismissal cannot, however be given, in compliance with your suggestions, because the rules in force on the matter at our Administration do not consent to actuate immediately, as requested, such provision.

On the other hand, the transfer from the Rome Ferrovia Office of the two messengers Mascarini and Bellomo, guilty of having abusively carried food stuffs, has meant for each one of them the loss of more than thousand Lire monthly. We therefore think that such provision be even excessive in their regards, if, from a declaration attached to the papers of an enquiry in course, and done by the Officer himself of the Allied Police, it appears that only 15 Kgs. of beans were seized from each of the messengers.

Anyway, disciplinary measures are being taken against the aforementioned messengers.

With reference to your 473973.8/2 R of 17th April, 1945.

1. I have to draw attention to paragraph 4 of my P.9.239/CS which asks what action is proposed with a view to preventing similar trouble in future.

2. In view of the fact that postal services to the north are likely to depend for a long time on concessions to use military transport, it is essential that a satisfactory assurance should be given to the Transportation Sub-Commission on this point.

3. It is suggested that arrangements should be made for each member of the civil Post Office staff who is employed on military trains to be given a written warning that any deliberate misuse of the facilities for private purposes will lead to instant dismissal from the service. Mere transfer to other duties is not likely to prove a sufficiently effective deterrent.

During 1944 most of this personnel, owing to war actions which interested directly this Region, could not have the yearly leave. In the liberated areas administrated by the Italian Government the leave was of 30 days.

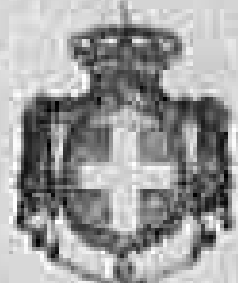

It has been applied to the Ministry that an extraordinary service indemnity be granted for the period of the missed leave.

The Under-Secretary of State, Pano, was favourable.

Will you kindly give your authority. We point out that the compensation would be of 7 hours of extraordinary service for each day on which the personnel could not be granted the rest.

OGGETTO
Concessione sussidi

In relazione alla Vostra lettera n. 25.155.C.S. in data 12 - 2 relativa alla concessione di sussidi al personale di questa amministrazione si risponde, in ordine ai Vostri quesiti:

Con la circolare n. 6 del 6 ottobre 1943, diramata ai dipendenti uffici, fu disposto che, in caso di morte in attività di servizio, di funzionari, impiegati o agenti, indipendentemente dalla causa del decesso, fosse elargito normalmente un sussidio corrispondente ad una mensilità dello stipendio base senza il supplemento di servizio attivo.

In seguito alle provvidenze disposte in favore dei dipendenti statali, per cui gli stipendi furono aumentati del 70%, anche i sussidi furono maggiorati di uguale percentuale.

Per la morte in seguito ad infortunio in servizio, coperto dall'assicurazione ai sensi dell'art. I del R.D. 16.6.1938 n. 1275, oltre al sussidio predetto, si corrisponde agli aventi diritto un assegno una volta tanto, nella misura di L. 2000 in caso di sopravvivenza del coniuge con figli minori di 15 anni o inabili al lavoro; di L. 1500 in caso di sopravvivenza del coniuge senza figli minori di anni 15 o inabili al lavoro e di L. 1000 negli altri casi.

Al rimborso di detti assegni provvede la Direzione di Roma con i fondi di accreditamento del Capitolo 7/1.

Con disposizione di massima, diramata volta per volta alle singole Direzioni Provinciali nei territori già sottoposti alle offese belliche, è stato stabilito di far corrispondere ai dipendenti che hanno subito danni alla propria abitazione o alle proprie cose, in base a certificati rilasciati dai competenti uffici del Genio Civile o dall'arma dei

Fg

CC/RR. ed attestanti l'entità dei danni stessi, un sussidio proporzionale ai danni, tenuto anche conto del carico di famiglia del sinistrato, in misura non eccedente le L.1500.

E' da tenere però presente che detti sussidi non rivestono il carattere di indennizzo, in quanto a ciò provvedono gli appositi uffici del Ministero delle Finanze preposti al risarcimento dei danni di guerra, ma hanno lo scopo di venire incontro al sinistrato per le necessità più urgenti.

Si conviene che i sussidi, comunque concessi, non sono adeguati agli attuali bisogni, ma ciò, oltre che dalla limitazione dei fondi a disposizione, dipende soprattutto dal fatto che gli stipendi, sia pure aumentati del 70% ed i sussidi maggiorati della stessa percentuale, hanno subito un aumento per nulla adeguato a quello sproporzionatamente superiore subito dal costo della vita.

Nella quasi totalità dei casi i sussidi vengono concessi in base ad informazioni sulle condizioni economiche del richiedente e si tiene quindi conto se egli tragga anche da altri cespiti i mezzi di sussistenza.

In quanto alla esistenza di altri fondi per elargizione, sussidi al personale in casi di maggiore gravità si deve dichiarare che non esistono in bilancio altri capitoli oltre quello stabilito per gli ordinari sussidi.

Oltre a quelli menzionati, vengono concessi sussidi vari da L.300 a L.1000 e qualche volta oltre, ad ex dipendenti che fruiscono o no dell'assegno di pensione, per casi di malattia dello stesso pensionato, per morte del medesimo o per disgrazie in seno alla sua famiglia; nella stessa misura, variante dalle L.300 alle L.1000, avuto riguardo al carico di famiglia, al grado ed alla categoria dei dipendenti ancora in servizio, nei casi di eventuali malattie dei medesimi, dei loro famigliari o per la morte di un congiunto.

Questi ultimi sussidi vanno in aggiunta alle somme eventualmente elargite dallo Istituto di Previdenza per gli impiegati dello stato, a titolo di rimborso delle spese sanitarie, cui ogni dipendente statale ha diritto.

Non si ha motivo di proporre altro metodo da applicare nella concessione dei sussidi, in quanto, come sopra è detto, la limitazione dei fondi del capitolo dei sussidi non consente di erogare somme maggiori.

Subject : Allowances.

Ref. your letter P.25.155/CS of 12 Feb. referring to the subsidies granted to personnel of this Administration, we reply herewith to your queries:- With circular N. 6 of 6 Oct. 43, issued to the subordinate offices, it has been arranged that, in case of death, in active service, of officials, clerks etc., independently from the cause of the death, an allowance should be normally paid, equal to a month of basic salary, without the supplement of active service.

Following the measures taken in favour of State employees, by which salaries have been increased of the 30 %, also the allowances under notice have been increased of the same percentage.

In case of death due to an accident in service, covered by the Insurance mentioned in Art. 1 of the R.D. 16.6.38 N. 1275, in addition to the above subsidy, an allowance is paid, once for all, amounting to 2.000 lire, if the surviving wife has children under 15 years of age, or unable to work; to 1500 lire, if there are no children under 15 years of age, or unable to work; to 1.000 lire in all other cases.

The Prov. Direction of Rome provides the reimbursement of such allowances, with the funds of Entry 7/4 of the budget.

With a general disposition, issued, time by time, to the Prov. Directions whose territory suffered from war events, it has been arranged to correspond to the employees who have suffered damages to their house or their properties, on the basis of a certificate, issued by the Genio Civile Office concerned, or by Carabinieri, proving the amount of damages suffered, a subsidy proportioned to the damages, considering also the family position of the employee, and for an amount not exceeding 1.500 lire.

It must be pointed out that such allowances have not the character of an indemnity, which will be paid by the office concerned of the Ministry of Finance dealing with the indemnities for war damages, but their purpose is to meet the most urgent necessities of the damaged employee.

It is agreed that the subsidies, granted in all the above cases, are not adequate to the present needs, but this is due not only to the limitation of funds at disposal, but mainly to the fact that the salaries, also increased of 70 %, as well as subsidies, increased of the same percentage, have not been increased in proportion with the much higher increase of the cost of living.

In nearly the whole of the cases the subsidies are granted on the basis of information on the economic conditions of the applicant, taking into consideration possible additional sources of his means of support.

As regards the existence of other funds for the allowances to personnel in more compassionate cases, we inform you that we do not have any other entry in the budget, besides the one fixed for the ordinary subsidies. Besides the ones mentioned above, other subsidies, which may amount from 300 to 1.000 lire and sometimes more, are granted to former employees, entitled or not to pension, in cases of illness or death of the former employee, or in cases of family mishaps; subsidies of the same amount are granted to the employees on service, considering the number of

mentioned in Art. 1 of the R.D. 16.6.38 N. 1275, in addition to the above subsidy, an allowance is paid, once for all, amounting to 2.000 lire, if the surviving wife has children under 15 years of age, or unable to work; to 1500 lire, if there are no children under 15 years of age, or unable to work; to 1.000 lire in all other cases.

The Prov. Direction of Rome provides the reimbursement of such allowances, with the funds of Entry 7/4 of the budget.

With a general disposition, issued, time by time, to the Prov. Directions whose territory suffered from war events, it has been arranged to correspond to the employees who have suffered damages to their house or their properties, on the basis of a certificate, issued by the Genio Civile Office concerned, or by Carabinieri, proving the amount of damages suffered, a subsidy proportioned to the damages, considering also the family position of the employee, and for an amount not exceeding 1.500 lire.

Such subsidies are allowed in addition to the amounts paid by the Istituto di Previdenza to Statal employees, as a reimbursement of medical expenses, to which all Statal employees are entitled.

We do not see any reason for proposing an other system for the distribution of subsidies, because, as it is said above, the limitation of the funds assigned does not allow to pay bigger sums.

Subject : Travelling Allowances.

To : Under Secretary of State for Posts and Telecomms.

1. Our Postal Officer in Florence has received representations from the Directorate there that distance allowance of 75 centesimi per Km. should be paid to the messengers who travel with the mail conveyances.

2. The Directorates' proposal is based on the contentionst:-

(1) That the hourly allowance provided for in para. 13 of your Bulletin n° 1 is insufficient.

(11) That higher rates are understood to be paid in Rome and elsewhere.

3. Will you be good enough to let us have your views on the matter, particularly as regards item 2.(11). Whatever may be the actual effect of the application of the regulations detailed in the Bulletin quoted, the suggested allowance is not considered to be an appropriate one. As an example, each journey between Florence and Pisa occupies 6-7 hours. On the basis of the suggested distance allowance, the relative amount payable would be as much as 120 lire per trip. Time occupied, and not distance travelled, is of course the generally accepted basis for this type of allowance.

Subject: Allowances for Travelling Personnel.
TO : Communications Sub-Commission, Headquarters, A.C.

1. Attached is the translation of a letter submitted by the Chief Inspector, Florence (the Provincial Director is at present on sick leave) in which a request is made for an allowance of 75 cents, per Km. for travelling personnel. This personnel accompanies the postal vans travelling within Florence province and to other Provinces.

2. The Chief Inspector's attention has been drawn to the table contained in para.13 of Bulletin no.1 of August 1944 but he does not consider the rates quoted are sufficient and states that he understands higher rates are being paid in Rome and elsewhere.

3. As the matter is one which affects all provinces, it is submitted for a ruling. If the rate claimed in the letter were authorised the allowance payable in respect of the run Florence-Pisa, for example, would be in the vicinity of 120 lire per day; *the return journey occupies 6-7 hours including waiting time at Pisa.*

Subject: Messenger Service.

TO : Capt.R.S.DRUMMOND, Regional Postal Officer.

As it is known, the Administration is paying an allowance to the personnel on detached duty owing to the cost of life and food.

In order to settle the economic treatment of the messengers on duty on the intra and inter-provincial road services, we propose to give them an allowance of 75 cents per Km. This would also ~~qualify~~ ^{equalize} the compensation and would be of a great help for the high expenses the dependents have to face when they are out of the normal residence.

We are now waiting for a favourable answer by that Command, and we can assure that no abuse would be taken on the number of Kms. which can be strictly checked with the meter of the car and controlled by a responsible clerk.

Subject : Subsidies to Post Office Personnel and
their Dependents.

To : Under Secretary of State for Posts and Telecomms.

1. It is understood from your 28 7120/224 of 9th February, and from observation of certain other cases, that it has been the policy and practice of your Administration to make small ex-gratia payments to Post Office de-route and non de-route employees or their dependents in case of distress caused by wartime circumstances or other misfortunes.

2. The amount of such subsidies taken individually do not appear to bear much relation to the actual needs of the cases, and they seem to be made irrespective of the question whether or not the person or family concerned is entitled as ordinary citizens to relief or support from other sources.

3. It is gathered that there may be other funds available to meet cases such as the one in question, and our first reaction is that it should be referred by the Provincial Director to the Prefect for consideration. It is, after all, quite incidental that the husband was a postal employee; the stated circumstances of his death seem to go beyond Departmental obligations, and it is unfortunately probable that case of distress due to enemy action are likely to be more frequent in the northern Provinces.

4. If you still feel that the course which you proposed is the appropriate one we here will have no objection to it being followed. Perhaps you will notify us one way or the other, and for general information furnish some particulars of your Administration's policy and authorities in these matters.

SUBJECT: Removal of employees of fascist Republican Government.

TO: See distribution.

1 In the advance through areas recently in German occupation, AMB and CA officers will have before them the problem of cleansing various Government services.

2 It has sometimes been assumed that every employee of the Republican Fascist Government is ipso facto unemployable. If this course is followed administrative chaos will result. Already in some areas so many persons of some services have been removed that insufficient are left to carry out essential duties. It is essential that sufficient personnel be retained in all the various services to allow them to function.

3 The principle to be followed is that:

- a) Heads of services or of important concerns must be dealt with in accordance with the Exec Memo 67 (or G.O. 35 when the latter is in operation).
- b) Those of the lower ranks as to whom there is no evidence of active fascist participation will be retained to work under new anti-fascist heads but employees who have been really active fascists may also when desirable be suspended.

4 The new heads will, if any personnel of suitable qualifications ability and antecedents are available, be promoted with temporary rank from those retained. If none are available, replacements will be requested.

5 Every effort will be made to organize sufficient and efficient services and if, after review, insufficient personnel remain to carry out necessary duties, reinforcements must be requested, but it must be realized that owing to the universality of the process of defascistizing no large reserves of personnel can anywhere be available. Hence the necessity for prudence in ordering suspensions.

Subject: Postal Inspector to accompany Allied Officers in ABC Territory.

Following on the verbal arrangements with Lt. Col. Reed, we would like to request the recognized opportunity of appointing one of our inspectors to accompany the Officers of your Commission when, from time to time, they are sent for postal inspections in the area under the ABC Administration, and subject to the control of your Sub-Commission.

It would be useful that, as is done for the telegraph section by Capt. Cigli who accompanies Lt. Col. Miller on his trips for inspection, our Postal Inspector would always accompany Allied Officers traveling for inspection in the above mentioned area, keeping this Ministry informed of their dispositions and interests, and of the particular conditions of the various places.

If agree generally on this point, our suggestion would be to appoint Inspector Antille Severin for this service.

Your reply on this matter would be highly appreciated.

EXTRACT FROM "AVANTI" OF 28 JANUARY 1945 222

= AT LAST THE MILIZIA RETURNS =
=====

The PP.TT. is rejoicing: at last the Milizia has returned to the service. We really felt that they were missing.

The former Fascist Militia has received a most favourable treatment from the democratic anti-fascist government. They have been suspended from the service some time after the liberation of Rome, and now all those who belonged to the Militia, are reinstated and they will perceive the arrear salaries and all the indemnities. It is not so bad, and no better treatment could be conceded to the gallant people, that so well deserved from their country. They have enjoyed 6 months of extraordinary leave, and now their nerves being all right again and without fear of reprisals, they can now return serenely to their work. Our best wishes follow them. But without turning it into a joke, we really do hope it is all a mistake. We do not intend to imply that all the people belonging to the Militia are scoundrels, but it is certainly true that not all these heroes are honest men. If they don't want to dismiss them in bulk there is no reason to reimburse them without any reserve.

Why in't the responsibility of each examined, so to take back into service the single ones who are not guilty, after having employed them on another job?

Except of course if we don't want to shew all our gratefulness to the Militia!

1. Reference your letter 517/6 of 24 January, enclosing a further appeal for reinstatement by Giuseppe Meloni.

2. This matter is at present in abeyance as a reply has not yet been received from you to my P. 94206/CS of 4 January which asked various questions about this man following upon representations already made to the Ministry. There is little use in forwarding applications of this kind to this Office unless you have ascertained as much as possible locally of the facts of the case.

3. In Meloni's latest application there is a reference to his dual employment as a university teacher. You may find on further enquiry that the conflict of this second employment with his Post Office duties was responsible for his transfer from Macerata to Ancona. It would be interesting to know whether he was actually working as a teacher in Macerata when he was supposed to be on Post Office duties at Ancona.

3. It is not clear how long the vacancy for an Inspector at Macerata has existed, but if the position in that Directorate is actually as bad as you represent, would it not be preferable to fill the vacancy on a temporary basis by someone at present serving in one of the AMG provinces of your Region, of whose capacity you can make proper enquiries, rather than give the post to Meloni who seems to have been out of touch with the since 1943 and of whose character, record, and ability you appear to be at all sure?

By Command of Rear Admiral Stone.

Reference attached application for reinstatement from A/M.
I realise the Ministry prefers to deal with this matter themselves
but I hope they may be persuaded to make a decision rapidly, to either
reenstate the Inspector or replace.

Macerata had a badly disorganized Directorate when AMG
entered the Province, one inefficient Director was replaced by another
with little if any more ability.

There are records in this Office of letter taking two to three weeks
to get from the Province of Macerata to the censorship Office in Ascoli P.,
four days should be the maximum for this trip.

The Director has been warned that unless the service improves rapidly
he will be suspended.

Would you be good enough to call this matter to the attention of
the Ministry.

Macerata, li 20 gennaio 1945

Ill.mo Sig. Ten. ALLEN,

Poichè finora non ho avuta alcuna notizia circa le mie domande di riprendere servizio con destinazione a Macerata, ove è ancora vacante il posto di ispettore e vicedirettore, da cui fui allontanato nel 1941 per ordine del segretario federale - come alla dichiarazione in Vostre possesso - mi prenda la libertà di pregarVi di voler accogliere la mia aspirazione.

Per 3 anni sono stato separato dalla mia famiglia; dal 12 novembre 1943, quando caddi malato ad Ancona, non ho percepito alcun assegno di retribuzione; dal 12 giugno 1943 il medico fiscale ha dichiarato la mia guarigione; perciò richiedo di riprendere servizio.

Ritengo ora utile informarVi che, poichè io sono docente universitario con debita autorizzazione ministeriale, la Commissione di epurazione per il personale universitario, presieduta dal Presidente del Comitato di liberazione nazionale, ha deciso oggi la mia discriminazione, dopo di aver particolarmente esaminata e valutata tutta la mia attività.

Mi permette in conseguenza di pregarVi di voler disporre la mia riassunzione in servizio presso questa Direzione di Macerata.

Vogliate perdonare la mia libertà di dirigermi a Voi direttamente e personalmente; e pregoVi gradire i miei più devoti ossequi.

MACERATA 20 Jan. 1945

To : Lt. Allen

Till now I have not yet received any reply to my application to be reinstated in service with residence at Macerata, where the place of Inspector and Deputy Director is still inoccupied, place from where I have been removed in 1941 by order of the Segretario Federale (as shewn by the documents in your hands). So I take the liberty of asking you to satisfy my application. For 3 years I lived far from my family; from Nov. 1st 1943, when I falled sick at Ancona, I did not receive any salary; from June 12th 1943 the control hisician declared I was recovered; so I asked to undertake the service again.

It seems useful to inform you that, because I am also an University teacher, the epuration Commission for the University personnel, resided by the President of the Committee of National Liberation, has decided to release me, after having particularly examined and valued all my activity. I take therefore the liberty of begging you to arrange for my reinstatement in service at the Provincial Direction of Macerata. I hope you will forgive me for my addressing to you direct.

I am your sincerely

MELONI

 3. Can Mr. Longhitano confirm if on the preceding day, that is to say on July 8th, any other insured items arrived for S. Michele Ganzeria and if owing to the interruption of the secondary Railway Caltagirone-Piazza Armerina, said items could not pursue the voyage.

OGGETTO:
Direzione Provinciale P.T. Benevento.

L'ex Segretario Dott. Francesco Fallarino, nel 1926, fu dichiarato dimissionario dall'impiego perenne, trasferito da Caserta a Grosseto per sentimenti ostili al Governo fascista, non raggiunse la residenza assegnatagli.

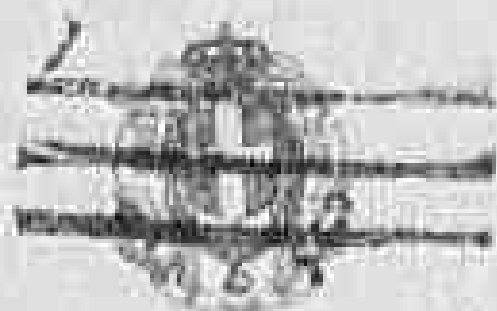

Poichè detto funzionario è stato ora riammesso in servizio, con effetto immediato, questa Direzione Generale avrebbe in animo di destinarlo a Benevento per assumere la dirigenza di quella Direzione Provinciale Poste e Telegrafi rimasta affidata ad un funzionario non previsto del grado adeguato.

Se ne informa codesta Commissione, rimanendo in attesa del suo benestare, che si gradirà ricevere con cortese sollecitudine.
