Intanto, la ditta Castaldi, mentre assicura di aver chiesto istruzioni, accetterebbe posta per l'Egitto, ma a condizioni non negoziabili; e, cioé, polizza di carico, lire sterline 4 a m.t. e pagamenti in valuta inglese.

La ditta Costantino Tomas, raccomandataria del S/S " Cadio" per l'Egitto, si é riservata di fornire ragguagli dopo aver preso accordi col Comando di Bordo.

SUBJECT: Shipment of mail at Naples.

The postal service with ships controlled by Allied Authorities is almost normal and the questions inherent to compensations have been defined according to the International Convention of Buenos Aires. But for the transport of goods, to be liquidated at the Posts of State Administrations from which the Shipping Companies depend, concrete results could not be reached yet with some of social agents in Naples in order to obtain the possibility of loading on the ships who stop at that port en route for the various destinations, specially for Egypt and the Middle-East, because every Agency pretends to be waiting for instructions from the ship-owners concerned.

SUBJECT: Correspondence of the Ex-Feldpost and ex-Dienstpost at Bolzano ferrovia Post Office.

TO : G 5, A F H Q.

1. The Director General Ministry of Posts and Telecommunications has reported that on the cessation of hostilities in Northern Italy, correspondence in sealed mail bags was found in buildings previously occupied by the ex-Feldpost and ex-Dienstpost, and that after examination by Allied Military officials the bags were consigned to the Bolzano Post Office.

2. On examination by the Italian Civil Postal officials the items were found to comprise correspondence from German soldiers directed to Austria and Germany as well as items from internees and workers in Germany addressed to various parts of Italy. The latter items have been disposed of through normal civilian channels.

3. The remaining mail totals 4 sacks of ordinary correspondence, 2 sacks of parcels and 330 individual registered items. It is not stated whether the registered mail is ordinary letters, packets or parcels.

4. At the present time the Civil postal services to Austria and Germany are limited to ordinary letters only, up to 20 grs. in weight, no foreign parcel post services having yet been reintroduced.

5. Special authority is sought for the direct disposal of these items to Austria and Germany, but it is suggested that rather than permit the Civil Post Office to exceed their present limitations as regards existing services, it may be considered advisable to transfer the whole mail to the British Army Postal authorities for dispatch through military channels.

OGGETTO: Corrispondenze dell'ex Feldpost e dell'ex Dienstpost, giacenti a Bolzano ferrovia.

Alla fine del recente conflitto, in alcune località della provincia di Bolzano rimase giacente nei locali occupati in precedenza dall'ex Fledpost e dall'ex Dienstpost della corrispondenza chiusa in sacchi, che vennero successivamente consegnati agli uffici postali italiani.

All'apertura di detti sacchi é risultato che essi contenevano corrispondenze di ex militari tedeschi dirette in Austria ed in Germania, nonché corrispondenze spedite da ex internati e lavoratori in Germania dirette in Italia.

Dopo aver dato corso alle corrispondenze dirette in Italia, la Direzione P.T. di Bolzano ha chiesto al lo scrivente se e come debba esitare gli altri invii postali che si trovano tuttora giacenti presso l'Ufficio di Bolzano ferrovia e che consistono in 4 sacchi di corrispondenze ordinarie, in 2 pacchi ed in 330 raccomandate dirette in Austria ed in Germania.

SUBJECT: Corrispondence of the ex-Feldpost and ex-Dienstpost at Bolzano ferrovia.

At the end of the war, in some localities in the province of Bolzano was left in buildings precedently occupied by the ex-Feldpost and ex-Dienst-post, corrispondence closed in sacks, which were successively consigned to Italian post Officials.

When the sacks were open, it resulted that they contained corrispondence of ex-German soldiers directed to Austria and Germany, as well as corrispondence sent by ex-internees and workers in Germany directed to Italy.

After having sent the corrispondence directed to Italy, the Direzione P.& T. Bolzano asked us if and how the remaining mail which is still at the Ufficio di Bolzano ferrovia and are 4 sacks of ordinary mail, in 2 packs and 330 registered directed to Austria and Germany.

Please let us know what steps should be taken on the matter, having present the fact that parcel services with foreign countries is, as you know, still suspended and that the postal traffic with Austria and Germany is limited to the exchange of sole ordinary corrispondence up to 20 grs.

1. Whilst personally agreeing that the increased weight limit of letters for Air Services to Indo China indicates that the weight of ordinary letters should now be raised from 20 grs. to the normal limit of 2 kgs., it is not within the jurisdiction of this Commission to authorise such increases.

2. General authority has been given your Administration to propose increases of weight of the various types of correspondence within the limits set by the Universal Postal Union, and to reintroduce all normal services between countries not now restricted by military requirements, ie Japan and its dependencies.

3. The most satisfactory arrangement is for any such amendments to services to be introduced reciprocally and this can only be done by correspondence between the interested Postal Administrations.

BERNE, le 12 juillet **1946**

Circulaire N° 99

Autriche – Extension des services de la poste aux lettres

Monsieur,

Se référant à la lettre qui a fait l'objet de notre circulaire nº 98 du 9 juillet courant, la Direction générale des postes à *Vienne* **(AUTRICHE)** communique ce qui suit à l'intention des Administrations de l'Union:

«A partir du 15 juillet 1946, les imprimés, impressions en relief pour aveugles et objets groupés jusqu'au poids maximum de 500 g, ainsi que les cartes postales avec réponse payée seront aussi admis dans les deux sens pour le trafic avec l'étranger, excepté l'Allemagne et le Japon.

Les taxes en sont les suivantes: imprimés, 8 g par 50 g; impressions en relief pour aveugles, 4 g par 1000 g; objets groupés, 8 g par 50 g, avec minimum déterminé suivant le contenu de l'envoi; si celui-ci contient des papiers d'affaires, le minimum de taxe est 60 g, s'il ne contient que des échantillons et des imprimés, le minimum de taxe est 20 g. La taxe pour les cartes postales avec réponse payée est égale au double de la taxe des cartes postales simples, c'est-à-dire 70 g.

Pour le moment, les journaux et périodiques ne sont admis qu'à la taxe des imprimés ordinaires, c'est-à-dire à la taxe entière des imprimés.»

Veuillez agréer, Monsieur, l'assurance de ma haute considération.

Le Directeur,
MURI

To : Director General Ministry of Posts and Telecommunications.

Reference your letter 835029/IPS/706529 of 18th July 1946, forwarding Circular n. 98 from International Bureau of the Universal Postal Union.

1. The actual meaning of this Circular is that the Allied Commission for Austria has now approved of the Austrian Postal Administration undertaking the re-introduction of the services quoted.

2. Your Administration has already been granted permission to approach all other Administrations open to postal services with a view to re-establishing normal types of service within the limits of the control by the Treasury, and advisedly, in keeping with the ability of the Italian State Railways to handle the bulk of your mails.

3. The Circular cannot mean that all such types of services are to be immediately introduced without arrangements being made between the relative interested Administrations.

4. The Circular is returned herewith.

1. The Hungarian Postal Administration has been approached by the Italian Ministry of Posts and Telecomms with a new to establishing reciprocal mail services between the two countries, but no definite reply has yet been received to the effect that mails are being despatched to "Rome Railway Station Post Office". Mails from Italy to Hungary are being regularly despatched and so far as we are aware are receiving correct distribution and delivery.

2. In the weekly despatch from the Budapest Office of Exchange 72, to Rome, official correspondence and empty mail bags only are being received.

3. It would be appreciated if the details of the present circumstances could be communicated to this Office to enable an answer to be given to the Italian Postal Administration.

Subject: Postal Connections with Hungary.

The Hungarian Postal Administration, which was asked time ago by our Ministry, did recently let us know that it is not able to restore the normal postal traffic with Italy, owing to the fact that it hasn't obtained from that A.C.C. the necessary authorisation.

In the time bing the Budapest Ex Office of Exchange 72 includes in its weekly despatches for Rome Ferrovia empty sacks only, official correspondence and any correspondence wrongly immitted in the Hungarian postal boxes.

On the contrary, the above mentioned foreign postal Administration receives and distributes correspondence incoming from Italy.

Up till now our Ministry has never received any official claim from privates re the non-receipt of correspondence from Hungary. Owing to the fact that it probably such eventuality can be verified we beg your A.C. to examine - if possible - the possibility to interfere by the A.C.C. Budapest so to obtain that the postal traffic between Italy and Hungary be effectuated reciprocally, authorising the free course also of the private correspondence directed in this country.

Subject: Conveyance of the italisn despatches on british controlled ships.

Reference letter n. P.47.739/CS of 3rd June 1946.

We have taken due note of what has been participated in the above mentioned letter re the formula which must be observed in the winding up of the accounts relative to the conveyance of the italian despatches on ships operating for the british Government.

It will be opportune, however, that the british postal Administration, before effectuates the winding up of said accounts, transmit time by time to the writer the same accounts, for the verification and the acceptance as in para.2 of art. 173 of the Universal Postal Convention, Buenos Aires, which is now in force.

Overthis, on purpose of the said winding up, we think it is opportune to make clear that the italian post offices are in credit towards the british posts of the sum of 249.052 gold fr. for territorial and maritime transit charges in the period from 1st January to 31st Aug. 1939 and that our Ministry is at present collecting the necessary realities to compile the account of the transit charges for the following period from 1st September 1939 to 10th June 1940, for which, with letter n. 939663/1DT of 15th May l.m. we have asked the London Postal Administration to know the weight of the despatches which must be taken in mind for the compilation of such account.

It will be much appreciated if your A.C. will kindly give information of what said above to the above mentioned Administration, and to let us know, in time, the determinations which it will adopt re this matter, making clear, as soon as possible, the measure of the freight tariffs which the British Ministry of ~~the~~ Transport will establish must be applicated for the forwarding of the italian despatches by means of ships at ~~the~~ british Government's service.

P.47.742/CS 4th June 1946

Subject: Despatches to Foreign Offices of Exchange.

To : Director General Ministry of Posts and Telecommunications.

With reference to your 799441/C/1 of 29th May 1946.

1. (a) The decision as to which Offices of Exchange should be used rests, of course, entirely with you and it is not wished to press the point if you consider that it is essential for Naples to be afforded relief as regards some of the despatches to the Middle East. My personal opinion, however, is that by making up some, but not all, of the despatches to this part of the world at Rome the concentration arrangements are complicated and that it would be well worth while to deal with all this correspondence at Naples especially as that Office is being relieved of the work of forming despatches to Northern Europe.

(b) Noted.

(c) Noted. It would be interesting to know what information has reached the Ministry concerning the relative frequency of departures from the ports mentioned.

(d) Noted.

(e) Noted. As a mail for Switzerland is now to be made up (and presumably censored) at Milan instead of Genoa do you intend to do the same in the case of other countries for which the despatches are routed via Switzerland ?

(f) Noted.

2. It is thought that the new arrangements should result in acceleration while maintaining fairly simple sorting arrangements if the instruction headed "Avvertenze concernenti l'avviamento delle corrispondenze comuni" is amended to permit full advantage to be taken of the improved concentration now practicable. Would it not suffice for this instruction to read as follows ? -

"Technical Sections of Movimento should fix the foreign circulation from each Province and ambulante their jurisdiction in the light of the information given in this Bulletin. In this connection the aim should be to simplify the sorting arrangements by arranging the circulation so that the correspondence for each distinct group of countries is due to be sent to the nearest or most easily reached Italian Office of Exchange shewn in column 2 as a despatching Office for the area concerned.".

Dear Wolstencroft,

Conveyance of Italian Civil Mails by British Controlled Shipping.

Many thanks for your letter of 17th May. I have sent the attached letter P.47.739/CS to all concerned.

As it seems from your letter that the Ministry of War Transport are working independently of Post Office channels in this matter I have taken the liberty of sending a copy to Bell, the M.W.T. representative here, who will presumably be the intermediary through whom the Italians will be notified of the rates for S.T. services.

I have been pegging away at the shipping authorities in this theatre about regularising these arrangements for about a year but it looks as if something definite will soon be forthcoming.

Yours sincerely.

Dear Mr Bell,

I enclose for your information a copy of a reply I have received from G.P.O. Headquarters in answer to enquiries which I made concerning the rates to be charged and method of accounting for Italian civil mails being conveyed by (a) S.T. ships (including troopers) and (b) British controlled commercial services.

At the present time it is, of course, the fast troopers in which the Post Office is principally interested though commercial services will no doubt come more and more into the picture as time goes on.

As it would appear that the Ministry of Transport is ~~apparently~~ working independently in this matter and the scheme appears to be for the payments to be made direct and not through international postal accounting you may wish to keep an eye on the matter and make some enquiries of the Ministry if in a short time you have no news of the rates to be notified to the Italian Post Office.

Yours sincerely

Subject: Conveyance of Italian Civil Mails by British Controlled Shipping.

To : Director General Ministry of Posts and Telecommunications.

With reference to my F.47.710/GS of 26th April 1946 to C.C. (Now C.C. A.F.H.Q.) copy to you.

1. I am informed by the General Post Office that arrangements are being made by the British Ministry of Transport under which accounts for the conveyance of Italian civil mails by ships working for the British Government (Sea Transport Ships) will be presented to the London representative of the Italian Bank for settlement in sterling.

2. In these circumstances it is confirmed that on the forms T 510 used with these shipments the heading should be completed to show the freight as "chargeable to the Italian Postal Administration" and the forms should be endorsed "freight to be collected in London". A supply of these forms was left at Naples Ferrovia Office at the time of my last visit and other copies can be obtained from the Naples Sea Transport Officer when required.

3. I am not yet in possession of details of the freight charges to be fixed by the British Ministry of Transport for these services but I think that it may safely be assumed that they will be cheaper than the Postal Union gold franc rates. 47 96

4. When the rates fixed by the British Ministry of Transport for the conveyance of civil mails on Govt. operated ships are known the shipping agents should have no difficulty in obtaining from their London Headquarters details of rates to be charged for similar transport by British-controlled commercial shipping.

5. It is thought that under the proposed arrangements the British Ministry of Transport will expect to receive payment from the Italian Government for all civil mails loaded on S.T. ships by the Italian Post Office. If this is the case you will presumably raise with the other Administrations concerned the question of the submission of accounts in respect of transit charges due to your Administration.

AIR MAIL

17th May, 1946.

Dear Green,

Reference your letters of the 25th and the 27th of April, about civil mail shipped by the Italian P.T. & T.

We got in touch with the Ministry of War Transport on this question, and found that arrangements are nearing completion whereby the Ministry will present accounts in respect of conveyance of Italian civil mails to a London representative of the Italian Bank, who will settle in sterling. This fits in with the arrangement you describe whereby the form T 810 is now endorsed "freight to be collected in London"; and it would seem appropriate for the form to be completed as you suggest "freight chargeable to Italian Postal Administration".

The Ministry officials were not able to quote us offhand the actual rates of conveyance which had been fixed, but the rates would be related to the normal freight charges over the various routes, and will probably prove considerably cheaper for the Italian Post Office than the suggested American method of charging at Postal Union gold franc transit rates.

4751

The situation would therefore appear to be satisfactorily settled so far as S.T. ships are concerned, and no action on

our part would be necessary or desirable. With regard to transit mails, if Italy is receiving such mails for onward shipment I take it that the Italian Post Office will render accounts on the basis of actual statistics to the Administrations of origin at the standard P.U. transit rates, or will agree with the administrations concerned for an ultimate settlement on this basis, if for some reason immediate payment is impracticable.

The remaining question is that of the British-controlled commercial services. Now that the Ministry has fixed rates for the shipment of mails by the Italian Post Office the Agents should have no difficulty in getting a rate quoted by their London principals for non-Ministry sailings; the Conference representatives in London would agree a rate after consulting the Ministry about the rates which they are charging. No doubt also payment could be arranged in London between the Italian Bank and the Conference. If you have further trouble on this question, however, and will let us know, we will see whether we can do anything towards speeding things up by informal approach to the Ministry at the Conference.

Kind regards.

Yours sincerely,

C. Wheatcroft.

Subject: Mail Service to Somaliland.

To : The Ministry of Foreign Affairs.

1. With reference to your memorandum of 22nd May regarding the mail service from Italy to Somaliland.

2. This is a matter which can best be dealt with through your Ministry of Posts and Telecommunications which, through its Offices at the various ports, is able to obtain all the necessary information concerning sailings for Africa. That Ministry has been urged to keep a close watch on the frequency with which mails are actually being sent from Italy to Egypt and to make enquiries if a reasonable frequency of service is not being obtained.

3. So far as this Commission is concerned all possible steps have been taken to facilitate the acceptance of Italian civil mails on ships bound from Italy to Egypt and there has been no recent report from the Italian Post Office of any difficulty in that respect.

4. It is possible for the Ministry of Posts and Telecommunications to ascertain from the Office of Exchange in Mogadiscio the actual transit times of its more recent despatches and to pursue the matter with the Egyptian Postal Administration if there appears to be any undue delay in the service from Egypt onwards.

5. Civil Air Mails from Italy are forwarded daily by air to Cairo and in the absence of some definite evidence to the contrary it can be assumed that letters sent by this service are reaching Somaliland very quickly.

Subject: Mail service with Somaliland.

1. Several complaints on the mail service between Italy and Somaliland have reached this Ministry on the part of people who have their next-of-kin in that colony and who are expressing their disappointment on the present irregularity and inadequacy of the service.

2. In order to mitigate the conditions of moral distress in which many displaced people are still living in Somaliland after years of separation from their relatives and friends, the Ministry for Foreign Affairs would highly appreciate any steps that the Allied Commission could see fit to take for the improvement and speeding up of the foregoing service.

Ref. P.47.726 we inform you that the despatches for foreign countries, made up by our O/E, are exclusively authorised by the writer: the lists are recorded on apposite books, duly kept up to date, which your Commission can see whenever you consider it useful.

However we must point out that while we have been able to arrange the precise routing - by means of trains and outgoing means - for each despatch addressed to European countries we can, on the contrary, indicate approximately only the port of embarkation of the despatches for overseas countries; this as you are aware, because the departure of the ships are not of a fixed periodicity.

However the instruction of reciprocal and timely notification of forseen departures from their own ports amongst the different offices concerned with the embarkation remains in force, to enable the despatches to reach them in time for embarkation.

Subject: Despatches from O/E for Abroad.

Reference your P.47.722/CS we inform you of the following:
a) considering the quantity of correspondence addressed to Eritrea, Somaliland and above all to Egypt, and if no objection is seen on behalf of your Commission, the writer considers best to maintain the despatches in operation from Rome Ferrovia to Asmara, Mogadisclo, Cairo, Alexandria and Port Said, so not to increase an already heavy work at Naples Ferrovia Office.
b) the despatches for Ottawa are already in act from Rome Ferrovia and Naples Ferrovia; it will be therefore informed on 4/6/46, a similar despatch also from Genoa Ferrovia.
c) we are examining whether, according to the present shipping availability Naples Ferrovia offers some advantage in respect to Bari, for the exchange of correspondence directed to Greece.
With this aim we draw to your attention the fact that Naples Ferrovia and Bari Ferrovia Office as well as Taranto Ferrovia and Brindisi transit, keep each other reciprocally informed in time re the departures forseen by the respective ports.
d) despatches from Naples Ferrovia to Marseilles Gare and Tunis R.P. shall be discontinued as from 1/6. The relative correspondence shall be forwarded to Rome Ferrovia which will set up a despatch to Algiers Gare as from 3rd June.
e) as from 1st June 46 the despatches from Naples Ferrovia to London, Amsterdam, Bruxelles, Copenhagen, Luxemburgo, also shall be discontinued.
f) the despatches from Genova Ferrovia and Rome Ferrovia to Krakow 2 (which were directed to Gdansk 2 up to June 4th) shall cease and a despatch will be formed from Venice Ferrovia to Kracow 2.
As from 1st June the following despatches:
from Bari F to Tirana and Belgrade 2
" RomeF. to Praga 7, Budapest 72, Bucarest I, Masca, Sofia Gare, and Wien I shall instead be formed by VeniceFerrovia.
It is therefore made clear that the new despatches from Venice Ferrovia to Krakow 2, Praha 7, Budapest 72 Mosca and Wien I shall be routed via Tarvisio Villach (in agreement with the Austrian Administration) and those for Bucarest I, Sofia Gare, Belgrade 2 and Tirana shakl be forwarded via Trieste Lubiana.

OGGETTO: Dispacci dall'Italia per il Dodecanneso.

Con riferimento alla vostra lettera sopradistinta:

I) - Si restituisce il foglio n.79762/C.1 del 29.4. u.s. di questa Direzione Generale a voi indirizzato, restituito insieme con gli allegati.

2) - Dall'esame dei dati forniti risulta non esatta l'asserzione che siano trascorsi due mesi prima che la posta italiana sia stata ricevuta a Rodi: infatti, se è vero che la spedizione n.2, approntata il 4/2/ u.s. partì da Bari il 25/2 a distanza di 21 giorni, (e ciò per mancanza di mezzi marittimi di trasporto e non per colpa o negligenza degli uffici postali), non è men vero che le spedizioni n.3 e n.4 partirono da Bari, rispettivamente, sette e due giorni dopo la loro chiusura.

Così pure, a mezzo del piroscafo "Sam Crest", partito il I° aprile, furono inoltrati dispacci approntati rispettivamente sette giorni ed un giorno prima della partenza.

Infine, le spedizioni approntate il 2, il 5 ed il 6 aprile poterono partire da Bari col M/V "S.NICOLA" il 6.4.46; e cioè, rispettivamente quattro, due ed un giorno dopo ch'erano state chiuse.

2) - Non corrisponde a verità che la scrivente ignorasse la giacenza, a Bari, di dispacci per il Dodecanneso tra un imbarco e l'altro; ma pure essendone a conoscenza, la scrivente non poteva fare di più che sollecitare gli uffici di Bari, di Taranto, di Napoli, di assumere notizie, da qualunque parte potessero, di eventuali partenze, e di scambiarle tra loro, in modo da consentire la più sollecita partenza da un porto o dall'altro.

Ove però cotesta On.S.C. ritenga che il corso della corrispondenza sarebbe stato più celere, se essa fosse stata compresa nel dispaccio per il Cairo, non ha che da comunicarlo, e

Ove però cotesta On.S.C. ritenga che il corso della corrispondenza sarebbe stato più celere, se essa fosse stata compresa nel dispaccio per il Cairo, non ha che da comunicarlo, e noi si modificherebbe in tal senso l'avviamento delle corrispondenze per Rodi. Ma, in proposito, si tenga presente che, con telegramma del I° corrente, la Direzione di Rodi, nel segnalare l'arrivo delle spedizioni N.10 e II partite da Bari il 6/4 con il M/V S.Nicola, ha richiamato le spedizioni 6,7,8 e 9 che partirono appunto da Bari il 1/4 col piroscafo S.Crest diretto a Port.Said.

3) - Si è, pertanto, d'opinione che ogni motivo di reclamo cesserebbe se fosse possibile mettere in linea due motovelieri,

od altra specie di natanti, con orario alterno, Rodi - Bari, in modo da avere due partenze la settimana; ma tale provvedimento non è - attualmente - di competenza di questa Direzione Generale, ma piuttosto dell'Ufficiale Inglese adetto alla sovraintendenza dei servizi postali in Rodi, al quale, cotesta C.A. potrebbe segnalare, per esame ed eventuale attuazione, la proposta sopra indicata.

~~Ref. your~~ P.47.720/CS

1. Letter 79762/CI of 29.4 addressed to you from our General Directorate is returned to you to gether with the enclosures.
2. From examination of the data supplied the statement that 2 months have passed since Rhodes has received italian civil mail is not exact; in fact if it is time that despatch n. 2 made up on 4th February left Bari on the 25th February at 21 days distance (owing to the lack of sea transport and not to caulessnes of P.O.s) it is newerthless time that despatches n. 3 and 4 left Bari respectively seven and one days before departure.

Also by means of the S/s Sam Crest which sailed on April 1st we reforwarded despatches respectively made up seven and one days before departure.

Lastly despatches made up on 2, 5 and 6 April were able to leave Bari on Motorboat S. Nicola on 6th April, that is respectively four, two and one day after having been closed.

It is not true that the writer was not aware of the despatches for the Dodecanese lying at Bari between one embarkstion and another; but although he was aware of the fact the writer could not do anything more than press the Bari, Taranto and Naples Offices to obtain news of eventual departures from whatever port they could take place from and to exchange the information amongst them so to allow a speedy departure from one port to another.

But, if your S/C considers that the course of the correspondence would have been quicker had it been included in the Cairo despatch, let us know & we will alter accordingly the routing of correspondence to Rhodes. But, regarding the matter, it must be borne in mind that the Rhodes Directorate in telegram dated 1st May while notifying the arrival of despatch n. 10 and 11 which left Bari on 6th April on the M/S San Nicola has claimed despatches 6, 7, 8, 9 which in fact left Bari on 1st April on S/S S. Crest directed to Port Said.

4. Therefore my opinion is that any reason of complaint would cease if it were possible to put two motor-sailings boats or any other kind of ship with alternative departures Rhodes-Bari, so to obtain two sailings per week; but such arrangement is not at present of our General Directorate's competence

Subject: Despatches by Sea.

To : Director General for Posts and Telecomms.

With reference to your 797205 C/1 of 19th April.

1. The information given has been studied with interest.

2. It is suggested, however, that for practical purposes it would be more valuable in providing you with information as to the quality of service if the record were maintained in your office to indicate in respect of each Foreign Office of Exchange to which a sea borne despatch is authorised the date, port and ship by which each numbered despatch is forwarded.

3. You would then be able to keep under observation the frequency of service and other relevant matters and make any enquiries necessary if there seemed to be unreasonable intervals between despatches or if an alteration in the concentration arrangements seemed desirable in view of the services available from the various outports.

P.47.724.CS 6 May 1946

SUBJECT: Italy to America - Conveyance of Civil Mails.

TO : Director General of Posts & Telecommunications

With reference to P.47.544.CS of 2 December 1945.

1. It was observed in the course of a recent inspection at Naples that the letter mails for America and also the empty parcel bags for return to the U.S.A. are still being forwarded through the American Army Post Office.

2. Bearing in mind the fact that a special concession was obtained in September last to continue the system of disposal through the APO temporarily until you could make the necessary arrangements with the Shipping Authorities for direct despatch, it is very disturbing to find that no progress has been made in this matter.

3. Apart from the question of the unnecessary work and trouble involved to the Army Post Office, the system of sending these mails to the Base Post Office, (now transferred to Leghorn) gives a worse service for the civil mail than could be secured by taking advantage of the direct sailings from Naples and Genoa.

4. It is understood that the delay is due to some questions raised in correspondence between your Ministry and the U.S. Postal Administration concerning whether or not the conveyance charges should be at the rates quoted in the Universal Postal Convention. Such arguments, however, do not appear to affect the case because the same questions of payment arise whether the mails are shipped through the Army Post Office or directly.

5. The U.S. Army Post Office staff in this country has been drastically reduced and can no longer undertake this work.

It is recommended, therefore, that you immediately send a responsible representative to see the War Shipping Administration representative at Naples and make final arrangements for the acceptance of these mails at Naples and Genoa irrespective of any further correspondence you may have with the U.S. Postal Administration concerning charges due.

HEADQUARTERS ALLIED COMMISSION
AFO 394
Communications Sub-Commission

P.47.722.CS 2 May 1946

SUBJECT : Despatches to Foreign Offices of Exchange.

TO : The Director General for Posts and Telecoms.

1. The attached lists which have been compiled from the information furnished in the April "Bollettino Mensile" indicate that in the more recent establishment of foreign despatches regard has not always been paid to the desirability of keeping the arrangements uniform as far as possible and thus simplifying the circulation arrangements at the offices throughout the country.

2. You may wish to give consideration to the following observations on the various groups of despatches

a. By Sea Via Middle East

As the bulk of the mails in this group are formed only at Naples it seems desirable to cease the despatches from Rome to Asmara, Mogadiscio and Cairo. All offices in Italy could then concentrate all the correspondence for the East on Naples.

b. By Sea to America.

As all the other despatches to America are formed at Naples, Rome and Genoa, it would be worth making up despatches for Ottawa at each of the three Offices of Exchange, (even if the amount of correspondence for Canada is relatively small) in order to permit a uniform circulation of the correspondence for all America.

c. By Sea Various.

No comments at present, but it will be necessary to study whether under present shipping arrangements Bari offers any advantages over Naples as the Office of Exchange for Greece. It is thought that at present the majority of the sailings for Greece leave Naples.

d. By Rail Via Marseilles.

These despatches have become very much out of line. It seems desirable to cease the Naples despatches to Marseilles and Tunis and to establish a new despatch from Rome to Algiers, if it is necessary to use Rome as well as Genoa as a concentration office for this line of mails.

e. By Rail Via Chiasso.

The Naples despatches to London, Brussels, Copenhagen, Luxembourg, Oslo and Amsterdam could be ceased, leaving Rome and Genoa as the Offices of Exchange for this group. Later, if arrangements could be made to screen against the "Black Lists" at Milan it might be desirable to substitute Milan for Genoa as the Office of Exchange.

f. By Rail Via Ljubljana and g. Via Villach.

There does not seem to be any special reason why the mail for Gdansk should be made up at Genoa. As there appears to be no immediate prospect

for a regular sea service to Split and Durazzo you may consider it advantageous to make up the despatches for Tirana and Belgrade at Rome instead of Bari.

Have you discussed with Comando Militare the possibility of using Venice as an Office of Exchange and concentration Office for the correspondence for countries served via Lubiana and Villach? This was suggested when the Lubiana Route was first brought into use. (see F.47.460 of 23 Oct.1945).
