OGGETTO: Autocarri in servizio postale e telegrafoni=co

Si comunica a cotesta Direzione Generale che questo Ministero ha acquistato dagli Alleati 150 autocarri di cui 25 sono stati ceduti alle cinque Società Telefoniche in Italia. Per i rimanenti 125 di proprietà di questo Ministero si stanno effettuando le pratiche perchè siano iscritti e targati come normali autocarri italiani e quindi in base alla legge di istituzione di cotesto Ente dovranno essere iscritti all'E.N.A.C.

Per quanto sopra questo Ministero non trova difficoltà.

Circa l'utilizzazione invece si fa presente che detti autocarri sono in parte addetti a servizi postali con percorsi periodici e in parte

a lavori di ricostruzione e manutenzione di linee telegrafiche e telefoniche per i quali occorrono sostamenti rapidi, improvvisi e imprevedibili. Il genere stesso dei lavori da svolgersi inoltre è tale che non possono ammettersi ritardi e interferenze sia per permessi o altro.

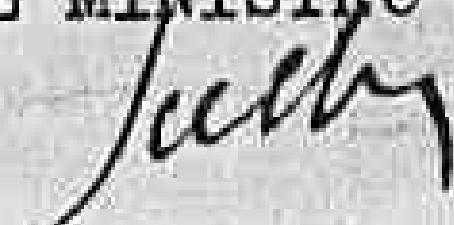

Questo Ministero non ha nulla in contrario, come già detto, circa l'iscrizione dei propri automezzi all'E.N.A.C. ma per quanto riguarda l'utilizzazione di essi deve poter disporre della propria autonomia onde assicurare il regolare andamento dei servizi.

Occorre pertanto che vengano studiate con corte Ente delle condizioni di impiego che pur rispondendo alle esigenze di corte Ente stesso lasci a questo Ministero la sua libertà di azione.

Il funzionario designato a trattare per conto di questo Ministero è l'Ing. Ugo Fadda del dipendente Ufficio Automezzi - Tel. 681814.

Si avverte che stante l'urgenza e le impellenti necessità una parte degli automezzi sopraindicati è già in attività munita di permessi provvisori.

SUBJECT: Motorvehicles for P.&T. Services.

We inform your General Directorate that our Ministry has purchased from the Allies 150 motortrucks of which 25 have been given to the five Telephone Companies in Italy. The remaining 125 belongong to the Ministry are being registered and inscribed as normal Italian motortrucks, and therefore on the basis of the law of institution of this Body must be registered by ENAC. As concerns the above we do not see any difficulty. On the other hand as regards their use we draw your attention to the fact that these motortrucks are partly assigned to postal services for regular trips and partly to reconstruction works and maintainance of telegraph and telephone lines for which quick, unforeseen and sudden trips are necessary. The kind of work to be carried out is such that delays and interference for permits or other things are inadmissible. The Ministry sees no objection as has already been said above, concerning the registration of its motor-vehicles with the ENAC, but as regards their use the Ministry must dispose of its own autonomy so to assure the regular operation of the service. It is therefore necessary that the conditions of usage be examined together with your Body, so that while complying with the exigencies of the ENAC the Ministry is left full liberty of action. The official appointed to discuss on behalf of the Ministry is Ing. FADDA of the dependent motor service. It is advised that owing to the urgency and necessities, part of the motor vehicles in question are already working, furnished with provisional permits.

Subject Assignment of benzine for the  
Leghorn - Genoa postal service.

The postal service between the South and North of Italy used to be carried out between Leghorn and Genoa by allied trucks and, lately on, with motor vehicles of the Truck Pool. From the 6th August this service is being done with two trucks of this Administration for which 4,000 litres of benzine and lubricants are necessary. This request has already been made with letter 805300/A of the 11th inst.. As, however, the local Ufficio provinciale dell'Industria has granted only 1500 litres, we kindly request that you give the necessary instructions for the regular assignment of the requested quantity so as to avoid complaints as the service is interrupted.

Oggetto: Servizio postale su automezzi =

Si è preso atto di quanto segnalato col foglio a riferimento, dal quale si rileva che la situazione delle comunicazioni postali a nord di Livorno e al Forlì non è troppo soddisfacente.

In base a recenti notizie avute dalla scrivente dai dipendenti organi del movimento, successive alla data della vostra segnalazione, risulta che i trasporti da Livorno a Genova siano notevolmente migliorati, in seguito alla utilizzazione di un automezzo di rilevante portata.

All'opposto, le comunicazioni su strada a nord di Forlì non sono normalizzate; e l'itinerario circolare ~~descritto~~ dagli automezzi utilizzati, sul percorso Forlì-Bologna-Ferrara-Pavenna-Forlì, non soddisfa alle esigenze del traffico postale.

La situazione migliorerà certamente con l'apertura dell'~~o~~ servizio del tronco di linea Firenze-Bologna.

Quando ciò avverrà, la scrivente esaminerà la possibilità di istituire un servizio di ambulante postale, il quale dovrebbe essere dato in transito, per l'immediato seguito, per lo smistamento e la formazione di appositi dispacci per i rispettivi capiluoghi, tutte le corrispondenze affluenti a Roma dalle regioni meridionali e dalle provincie viciniori; se Bologna a Roma l'ambulante dovrà servire a convogliare, in dispacci diretti, le corrispondenze convergenti a Bologna dal Nord e destinate alle provincie al ~~Nord~~ di Firenze.

A finchè il provvedimento ~~è~~ riuscisse maggiormente efficace, occorrerebbe che la comunicazione postale potesse effettuarsi almeno sei volte la settimana, avvalendosi di tradotte militari nei giorni in cui mancasse il treno viaggiatori.

Il provvedimento dovrebbe essere integrato dalla istituzione

La situazione migliorerà certamente con l'avertura dell'esercizio del tronco di linea Firenze-Bologna.

Quando ciò avverrà, la scrivente esaminerà la possibilità di istituire un servizio di ambulante postale, al quale dovrebbero essere date, in transito, per l'immediato seguito, per lo smistamento e la formazione di arpositi dispassati per i rispettivi capi luogo, tutte le corrispondenze affluenti a Roma dalle regioni meridionali e dalle province viciniori; da Bologna a Roma l'ambulante dovrebbe servire a convogliare, in dispacci diretti, le corrispondenze convergenti a Bologna dal Nord e destinate alle provincie al ~~del~~ di Firenze.

Affinché il provvedimento ~~si~~ riuscisse maggiormente efficace, occorrerebbe che la comunicazione postale potesse effettuarsi almeno sei volte la settimana, avvalendosi di tradotte militari nel giorno in cui mancasse il treno viaggiatori.

Il provvedimento dovrebbe essere integrato dalla istituzione di un servizio, almeno triestimanale, sui tre itinerari:

- a) Bologna-Livorno-Padova
- b) Bologna-Forlì
- c) Forlì-Ravenna

In tal modo le comunicazioni coll'Italia settentrionale sarebbero assicurate tutte con le linee Roma-Livorno-Pisa-Firenze-Bologna-Ancona, mentre i treni viaggiatori Roma-Ancona sarebbero utilizzati per le comunicazioni postali da e per le provincie del Lazio, dell'Umbria, delle Marche e, appena riattivate la linea Ancona-Ter-scara, degli Abruzzi.

Subject: Mail Motor services.

We acknowledge the information given to us in P.54.33/CS, from which it is understood that the ~~communications~~ situation of postal communications north of Leghorn and Forli is not too satisfactory.

On the basis of recent news we have received from the depending movement offices after your letter, it results that transportation from Leghorn to Genoa are ~~markedly~~ improved owing to the use of a motorvehicle of considerable capacity.

On the contrary, the ~~main~~ road communications north of Forli are not normal, and the circular intinerary covered by the motorvehicles used on the Forli-Bologna-Ferrara-Ravenna ~~route~~ Forli route do not satisfy the needs of the postal traffic.

The situation will ~~improve~~ certainly improve when trunk line Bologna Florence will commence.

When this will take place, we will examine the possibility of setting up an travelling postal service, to which should be given in transit, for immediate forwarding, sorting and making up of despatches for their respective capital towns, all the mail in arrival to Rome from the southern regions and nearby provinces; from Bologna to Rome the travelling service should carry in direct despatches, all mails converging to Bologna from the North and directed to provinces south of Florence.

So that such arrangement be really of use it would be necessary that postal communications be effectuated at least 6 times a week, making use of military trains on ~~days~~ the days when passenger trains are not available.

This arrangement should be completed by the institution of a ~~service~~ at least thrice weekly service, on three routes:

- a. Bologna Milan
- b. " Padova
- c. Forli' Ravenna

Thus communications with North Italy would be all assured with Rome-Leghorn-Pisa-Florence lines, while the Rome-Ancona passenger train could be used for postal communications from and for Lazio, Umbria, Marche Provinces and as soon as ~~is/will be established for~~ the Ancona-Fescara line will be re-established, for Abruzzi.

In case your Commission, which shews so great an interest to improve postal communications, considers ~~such a proposal to be appreciated,~~ ~~the~~ ~~discussed by~~ ~~an expert of the movement services of our~~ ~~General Directorate~~ appreciable such a proposal, it could be further discussed between an expert of our movement service and representatives of your and Transportation Sub-Commissions.

To : Under Secretary of State for Posts and Telecommunications.

With reference to P.16/336 of 16 May.

1. The present position regarding the proposed road services is as follows:

Route 1 Forli' to Venice

Transportation Sub-Commission has not yet been able to arrange the service but as a temporary expedient the Regional Commissioner is, with some considerable difficulty, providing a vehicle for this service. The Postal Officer Bologna has been asked to arrange with Venezia Region as regards operating details.

Route 2 Forli' to Milan

Transportation Sub-Commission has not yet been able to arrange this service but hopes to do so later this month. The present connection is by means of a contract service from Milan which is not at present operating very satisfactorily.

Rout 3 Leghorn to Genoa

A service with one vehicle was commenced by Transportation from Leghorn to Genoa on 5th June. Until experience of the service is gained the vehicle will depart Leghorn at 7.00 a.m. Tuesdays, Thursdays and Saturdays; returning from Genoa the following days.

Route 4 Genoa to Turin

This is unnecessary as train services are in operation.

2. Transportation Sub-Commission (Rails) has been asked to consider the possibility of increasing the frequency of the postal van on the Rome-Forli' train and extending it through to Bologna which may affect the working on Routes 1 and 2.

5612

3. Reference paragraph (5) and (7) of P.16.336/CS. In view of the removal of the restrictions on travel to the places concerned the reporting of the names etc. of the guards and the provision of special permits will be unnecessary. The men will require the usual Post Office documents and any necessary permits to ride on military vehicles will be issued in the Region from which a service operates.

Con riferimento alla lettera pari numero del 22 volgente, ed a seguito degli accordi verbali testè intervenuti, si ha il pregio di confermare che si è rinunziato all'uso del noto autoparco che avrebbe dovuto eseguire il viaggio straordinario Roma Milano (via Firenze - Bologna - Reggio - Parma - Piacenza), per valersi esclusivamente del treno Roma Forlì, onde sfollare la corrispondenza per l'Emilia, la Lombardia, e Veneto (in parte), di recente impostazione, giacente nell'Ufficio di Roma Ferrovie. Il treno militare Roma Forlì, in partenza il 23.5, ha trasportato, come primo invio ed in aggiunta ai consueti dispacki, una notevole quantità di sacchi (quattro - cinque carretti), pel peso approssimativo di due tonnellate, che sono stati alloggiati in un carro bagaglio, agganciato al convoglio all'ultimo momento. Non è stato possibile completare il carico e sfollare l'intera Giacenza, per non ritardare di troppo la partenza del treno. La quantità residuale e quella che possa accumularsi a Roma Ferr. nel frattempo, profitterà dello stesso mezzo in partenza venerdì prossimo (25 maggio 1945) e così di seguito, fino a che non interverrà

Sub Commission - Via Veneto -

Roma

Con riferimento alla lettera pari numero del 22 volgente, ed a seguito degli accordi verbali testè intervenuti, si ha il pregio di confermare che si è rinunziato, all'uso del noto autoparco che avrebbe dovuto eseguire il viaggio straordinario Roma Milano (via Firenze - Bologna - Modena - Reggio - Parma - Piacenza), per valersi esclusivamente del treno Roma Forlì, onde sfollare la corrispondenza per l'Emilia, la Lombardia, e Veneto (in parte), di recente impostazione, giacente nell'Ufficio di Roma Ferrovie.= Il treno militare Roma Forlì, in partenza il 23.5, ha trasportato, come primo invio ed in aggiunta ai consueti dispecci, una notevole quantità di sacchi (quattro - cinque carretti), pel peso approssimativo di due tonnellate, che sono stati allorati in un carro bagaglio, agganciato al convoglio all'ultimo momento. Non è stato possibile completare il carico e sfollare l'intera giacenza, per non ritardare di troppo la partenza del treno.= La quantità residuale e quella che possa accumularsi a Roma Ferr. nel frattempo, profitterà dello stesso mezzo in partenza venerdì prossimo (25 maggio per Forlì) e così di seguito, fino a che non interveranno motivi di modificazione.=

Significasi, nell'occasione, che, pure a Roma Ferrovia, sono giacenti notevoli quantità di corrispondenza ordinaria di vecchia data, dirette al Nord in genere, nonchè raccomandate private, per oltre un quintale, le quali possono esser istratte coi treni periodici Roma Livorno e Roma Falconara Forlì ( dando la preferenza, s'intende, a quella d'imposta zione recente), sempre che codesta Commissione non abbia nulla da eccepire.

Naturalmente verrà provvedere perchè, col treno militare Roma Forlì, sia assegnato, al servizio della posta, un mezzo di trasporto più capace di quello attuale ( p.es. una carrozza o un carro bagaglio), dato che esso potrà valere anche per inviare al Nord carte valori postali e finanziarie, stampati, materiale, prove viste in genere, occorrenti a rifornire quegli uffici.

Analogia richiesta è stata già avanzata alla Sezione Movimento ferrovie Stato-Reparto circolazione veicoli, come da nota che si allega in copia.=

Per quanto riflette l'afflusso delle corrispondenze senso Nord-Sud, restasi in attesa delle comunicazioni impartite o che costituisce Commissione ritenesse opportuno d'impartire, onde regolare quest'importante parte del servizio.=

Ref. 47446

SUBJECT: Eventual Rome-Milano trip.

Re. letter of same subject of 22nd inst., and owing to verbal agreement, we  
bent to confirm that we have renounced to use the known truck, which should  
have had to perform the extraordinary Rome-Milano trip(via Florence-Schio na-  
Modena-Reggio-Parma-Piacenza), making use exclusively of the Rome-Forli' train  
to forward the correspondence for Emilia, Lombardia and Veneto(partially), la-  
tely posted and lying at the Office of Rome Ferrovia. The Rome-Forli' mili-  
tary train, which left on 23th, has carried, as a first delivery and in addition  
to the normal despatches a noticeable amount of bags(4 or 5 vans), for an appro-  
ximate weight of two tons, which were put in a baggage van, attached to the train  
at the last moment. It has not been possible to complete the loading, and to  
sort out all the lying stock of letters, in order not to delay too much the de-  
parture of the train.

The remaining quantity, and the eventual incoming letters at Rome Ferrovia will  
be forwarded with the same train in departure next Friday(25th May for Forli')  
and so on, until further orders.

We inform you, by the way, that, also at Rome Ferrovia, noticeable stocks of old-  
dated ordinary correspondence, generally directed to the North, and also priva-  
te registered letters, for a weight of more than a hundred kilos, are lying there;  
they could be routed by means of the periodical trains Rome-Leghorn and Rome-  
Falconara-Forli'(giving priority to the early dated mail), if your Commission  
has objections of course, provisions should be made so that, on the Rome-Forli'  
military train, be assigned to the Post Service larger space~~s~~ than the actual  
one(i.e.a van, or a baggage van), since it can be used also to send Northwards  
carte valori and financial matters, printed matters, materials, any kind of sup-  
plies necessary for those Offices.

Same request has been forwarded to the State Railways movement Section-Vehicles  
sub-Section, as in letter hereby attached.

So far as the routing of correspondence for the other way(North-South)is con-  
cerned, we are awaiting the instructions already issued by you, or which you  
might think opportune to issue, in order to regularize the important part of  
the service.

SUBJECT: Eventual journey to Milan.

Ref. our agreement by phone 14 May and later, we confirm that our office will have ready (so to give course in any moment, also without previous adequate advise) all the correspondence of recent date, for the below mentioned provinces, that are on hand and incoming from the territory of liberated Italy.

These must be forwarded to their respective Capital Towns by means of separate despatches of extraordinary character which will be, time by time, (probably 23/5) withdrawn by a motorvehicle, hired together with its driver by this Ministry. The despatches will be given in charge, after having withdrawn the prescribed receipt to the custody of two messangers of this office, which in their turn, will withdrawn for each delivery performed, the prescribed receipt, as is done ordinary.

The motorvehicle will follow the Rome - Florence, Bologna, Modena, Reggio Emilia, Parma, Piacenza Milano route and will leave at Bologna the despatches for Bologna, Ferrara, Rovigo, Padova, Venezia, Belluno, Treviso, Vicenza; it will perform a line service on the Bologna - Milano trunk on the agreement that the despatches, which eventually could not be directly delivered to the offices to which they were addressed, must be carried forward as much as possible so that they will retrocede with the first means of conveyance.

Also at Bologna (eventually Modena, or at the ~~ufghat~~ at Milan) the despatches for Mantova, Verona, will be left at Modena and Reggio Emilia, and at Piacenza the despatches will be left for the respective places. Also at Piacenza the despatches (for Cremona will be unloaded, except if it must

Also at Piacenza the despatch for Cremona will be unloaded, except if it must be exceptionally carried to Milan for further forwarding.

At Milan the despatches for Milen, Varese, Sondrio, Pavia, Bergamo, Brescia will be re-delivered. It is understood that the way bill model 33 quarter, will be kept up to date on the voyage, as regards the part referring the out going it is also understood that the arranged delivery might be changed, accordingly to the news collected by the agents from the various offices, having in view the means of transportation available in the North.

It seems superfluous to point out that, accordingly to the availability of weight ad of space, the load of the truck in

object, may be completed with sacks containing POW mail, which has to be treated like the other despatches to the same addresses, to the effects of delivery.

We remind ~~to~~ you the possibility of granting adequate pre-payments to the agents eventually appointed for such service, and that it is necessary to supply them with documents fit to justify their presence, their attributions on the car, and the value of ~~the~~ <sup>any</sup> ~~any~~ <sup>charge</sup> ~~charge~~ ~~expenses~~ (necessary for the needs of the feeding and of the lodging during the trip, and for stay out of their residence), in order to avoid remarks of any kind from the agent of the block posts.

The said agents will return to their residences with the truck used during the first part of the trip, and will get from the Office of Milano ferrovia instructions for such return, and for the treatment to be used for the mail and despatches for the central and southern Italy, and for the Islands eventually under their jurisdiction.

On the basis of the above mentioned names I trust you with the job of providing necessary authorization for the agents: CARNEVALLI CARLO (latter Dalmazio and of CARRA' Margherita, born on 20.9.1898 at Quaragneto (Alessandria), Railway Identity card N° 41117 living in Rome, via Mecenate 27. Subject:- Postal Service with the North.

Having in view the future re-opening of the postal communications with Northern Italy, and in agreement with the Allied Commission, we inform you of the following:

1. - The Rome Ferrovia Office will make despatches for all the Provincial Towns of the North, and precisely for:- Pisa, Massa Apuania, and for Liguria and Piemonte, Lombardia; Emilia, Romagna, Veneto, Venezia, Euganea excluding Udine. Same will be re-addressed by railway to Livorno and Forlì, as follows:-

- A) - To Livorno those for Pisa and for Massa Apuania, Liguria, Piemonte,
- B) - To Forlì those for Emilia, Romagna, Venezia, Euganea, excluding Udine and Lombardia.

The further delivery from Livorno and from Forlì will be carried out by car and with the following itineraries (at least for the present).

From Livorno: 1) - Livorno, Pisa, Massa Apuania, La Spezia, Genova.

- From Forlì : 2) - Genova, Alessandria, Asti, Torino.
- 3) - Forlì, Ravenna, Ferrara, Rovigo, Padova, Venezia.
- 4) - Forlì, Bologna, Modena, Reggio Emilia, Parma, Piacenza, Milano.

We will detail the itineraries and the respective hours in due course.

2. - Every truck will be escorted by two messengers, personnel dependent from the offices of Livorno, Genoa, Forlì (unless the Allied Local Command is of contrary opinion), who must carry the travel permits, granted by the Allied Commission.

3. - The terminal and intermediate offices will provide to the loading of the mails, avoiding as much as possible, any delay during the trip of the trucks.

4. - The agents, charged with the job of escorting the above, must be chosen amidst those who, for skill, attitude and disciplinary precedents seem to be suitable to perform this job. Besides the travel permits, referred to in para. 2, they must be provided by their respective Provincial Directions, from which they defend, with bilingual documents, in order to justify their presence on the trucks, their position and the money they possess, necessary to cover the food and lodging expenses during the trip, and while they are out of residence in order to avoid remarks from the personnel of the blockade posts.

The Provincial Directions will also provide to advance to such agents the necessary money.

5. - The escorting agents on the above trucks are absolutely forbidden to carry any letter or other items, not dealing with the service, and are warned that, since the transgression might give place even to the immediate suspension from the service, against them severe measures will be taken, and will include also the eventual dismissal from the service.

6. - The concerned Directions must transmit, as soon as they can, the name, address, number of railway identity card, fathers and mothers name of all the aforementioned agents. The above must be communicated to the Allied Commission, in order to obtain the respective travel permits, on condition that, if the service is effected at once, the respective Directions will provide to get, in due time, a temporary permit from the local Allied Authorities.

It is understood that the Offices in the North, in agreement with the Allied Commission, will be able to forward, by the same means, the correspondence for Central and Southern Italy and for the Islands.

3. The civil post offices will be responsible for loading and unloading the motor trucks, and arrangements should be made, at each of the post offices to be served by road, for the necessary staff-postmen and porters-to be available at the scheduled times of arrival to ensure that the trucks are not delayed.

4. Two guards, provided by the civil Post Office, who must be in possession of permits issued by this Allied Commission, will be required on each truck to safeguard the mails. These guards will, of course, be responsible for the collection and delivery of all mails.

P.16.336/CS of 16th May 1945  
Continued

5. Please furnish the names, and particulars, of the guards you propose to employ on each route so that the necessary permits should be issued. They must be carefully chosen, and stops must be taken to ensure that no letters and goods are carried by them on their journeys. Any irregularities will be severely punished, and may result in the immediate suspension of the services.

6. If<sup>2</sup> and when it is decided that provision can be made for the proposed services, you will be furnished with full particulars, including the scheduled times of running.

7. In the meantime, no time should be lost in preparing the necessary instructions for all concerned, and collecting the guards and furnishing their names, and particulars, to this Sub-Commission, as the services may be provided at very short notice.

1. Reference your Parallel 47.Cs dated 14 May 1945, and discussion<sup>1</sup> with Henderson/Sieff of 14 May 1945.

2. Immediate action was taken to initiate restoration of civil postal services in the North.

3. Your Lt. Col. <sup>Ronan</sup> discussed the matter with Lt. Col. Christensen of Roads Branch, Movements Division in the afternoon, giving details of the services required. Based on his information, the attached signal was dispatched to 15th Army Group on the evening of 14 May.

4. Your letter now shows your requirements are materially greater than those given by Lt. Col. <sup>Ronan</sup>, who evidently did not tie up the matter completely with Col. Henderson.

5. In view of the fact the signal has been dispatched, it is not proposed to take any further action until a reply is received from 15th Army Group. Once the reply has been received, and providing the 15th Army Group agrees to the suggestions contained in this signal, there should be no difficulty subsequently in increasing the services in accordance with your wishes.

Further to my P.41.130.08 dated 2nd May 1945 and  
to discussion with Colonel Sieff.

1. Approval has been given by Military Security (15  
Army Group) for restoration of postal services with the North.

2. Application has been made to 15 Army Group for W.D.  
transport for the purpose but this has been refused.

3. It is believed that rail - service is working Genoa -  
Turin. The service proposed in my earlier letter can therefore  
be reduced to those stated on attached, which has been put into  
loads, rather than vehicles.

- (a) la Ditta dovrà attenersi a un regolare schema di viaggi, come esposto nell'accleso modulo.  
Non saranno ammessi cambiamenti d'orario, di destinazione e di percorso, senza previa approvazione;
- (b) la tariffa massima sarà di una lira e mezza (1,50) per persona/km o quella indicata nel modulo. Dovranno esser trasportati gratuitamente 10 Kg. di bagaglio a persona. I bagagli di peso superiore ai 10 Kg. e i colli non accompagnati saranno trasportati alla tariffa massima di L. 0,05 a kg./km.;
- (c) saranno autorizzate a viaggiare solo le persone che avranno pagato l'importo del biglietto;

- (d) i funzionari dello Stato che viaggiano per servizio avranno la precedenza assoluta per i posti a sedere. Per gli altri passeggeri si terrà conto della lunghezza del viaggio, dando la preferenza a coloro che debbono percorrere le distanze più lunghe;
- (e) il trasportatore sarà responsabile che i viaggiatori e la merce trasportati siano forniti di autorizzazione. Nel caso che il percorso tagli il confine fra due provincie, il trasportatore dovrà assicurarsi che nessun viaggiatore oltrepassi tale confine senza avere prima esibito regolare permesso firmato dalle autorità competenti;

- (f) la Posta Ufficiale Italiana sarà trasportata in base alle tariffe applicate dal Governo Italiano.  
In nessun caso potrà essere trasportata corrispondenza privata;

- (g) una nota completa ed accurata, verificata da un pubblico notaio, dovrà essere presentata non più tardi del 10 di ogni mese a dimostrazione delle spese di gestione effettivamente sostenute durante il mese precedente. Al termine di 90 giorni di attività tali spese saranno riesaminate e, a giudizio di questo ufficio, saranno autorizzati convenienti aggiornamenti delle tariffe.

- (h) tutte le spese incontrate dal trasportatore saranno pagate con i suoi fondi e con gli incassi effettuati;

- (i) il trasportatore si attinerà a tutti i decreti, bandi, leggi e regolamenti emessi dal Governo Ita-

SUBJECT: Transport for Civil Postal Services.

TO : Transportation Sub-Commission, A.C.

1. As part of the "Prevention of Disease and Unrest" programme for North Italy, re-establishment of civil postal services on a scale adequate to convey a limited volume of letters of restricted weight is considered as having a good priority, as the best means of re-establishment of contact between the North and South of Italy.

2. The military authorities have agreed in principle to the commencement of postcard services to main centres as soon as practicable, and will probably be prepared to extend this authority to the conveyance of letters to all provincial capitals shortly.

3. The immediate problem will be to provide trunk road services working from railheads until rail transportation is available.

4. An outline of possible services is attached; each would require one lorry, running in each direction on alternate days. They would be required to carry two postal messengers, and to pick up and deposit mails at the main post offices of the provincial capitals.

5. Would you say whether this transportation can be made available for this service. Normal bid form specified in Appendix E to AC/31/1 Tn 3 of 10th April 1945 does not seem appropriate to this request.

Enclosure: Outline of possible services.

OOGGETTO Autoservizi postali  
in provincia di Foggia

A seguito della nota N. 487167-C.A.2, riguardante le difficoltà, segnalate dalla Direzione di Foggia, con sede in Lucera, circa i trasporti postali sospesi, a causa della mancanza di gomme occorrenti agli autoservizi adibiti ai detti servizi, la Direzione, con telegramma del 28 volgente, ha segnalato la mancata assegnazione, da parte della locale Prefettura, dei pneumatici messi a disposizione dalle Autorità Alleate, ma che invece sarebbero stati assegnati a parecchi uffici provinciali, escludendone i servizi postali.

Insiste, pertanto, la detta Direzione nella richiesta di 12 copertoni necessari a mettere in efficienza le tre automobili adibite ai trasporti in parola.

Data l'urgenza del caso, si rinnova a cotesa Commissione Alleata viva, cortese preghiera di voler prendere in benevola considerazione la esigenza così pressantemente segnalata nell'interesse di un servizio che, nelle attuali contingenze, riveste carattere vitale, disponendo che venga favorita la ripresa delle regolari comunicazioni postali, impartendo opportune

disposizioni onde venga assegnato il predetto materiale.

Tornerebbe gradito un cenno di assentimento.

Subject : Postal motorservices in Foggia Province.

Following our 487161-C.A. 2, concerning the difficulties indicated by the Foggia Directorate, residing at Lucera, about the postal transport which were suspended owing to the lack of tyres needed by the vehicles which perform this service, the Directorate with a telegram of 28th March, has informed us of the failed ~~xxx~~ allotment by the local Prefettura, of the tyres which the Allied authorities had put at disposal, and which instead would have been given to various provincial offices, not including the postal services.

Therefore the said Directorate insist ~~xxxxxx~~ on its demand of for 12 tyres which are necessary to put into efficiency the 3 cars which perform this service.

x As the question is most urgent, we ~~xxxxxxxxxxxxxx~~ again beg your Commission to take into favourable consideration this exigency of which we ~~xxxxxx~~ have been urgently informed, in the ~~services~~ interest ~~which~~ in the present situation, is of vital importance, arranging favouring the reestablishment of regular postal communications, issuing the necessary arrangements to obtain that the tyres be allotted.

We would appreciate acknowledgement.

La Direzione di Teramo continua a segnalare la sos-

con gli organi alleati, al fine di ottenere l'assegnazio-

La segnalazione fatta al riguardo allo Ispettorato Generale della Motorizzazione Civile e dei trasporti in concessione ha avuto, anch'essa, in fruttuoso risultato.

In attesa di una riattivazione della Ferrovia Teramo-Giulianova, ciò che è nei voti di questo ministero, sulla cui linea si è verificato ultimamente la sospensione dell'importante autoservizio omonimo —

Ref. : 487159/C.A.2

SUBJECT: Request for tyres for Postal motorservices. Teramo Direction.

The Teramo Direction has pointed out the interruption of many and important motorser vices, because of lack of tyres. They have also notified the failure of action taken by the Prefettura at Allied Commands, in order to obtain the assignment of the material necessary to ensure, though with reduced programmes the good functioning of the postal services.

Having pointed out their remarks to the Ispettorato Generale della Motorizzazione Civile e dei trasporti in concessione, they failed to get any satisfying reply.

While we are awaiting the reactivation of the Teramo-Giulianova Railway (on this line in fact the important motorservice in question has been broken) will you please take into consideration the interruption to the postal communications, caused by the abovementioned (particularly as far as the money service is concerned).

Therefore we beg you to take action, in order to have the necessary supply of tyres assigned to the operators of postal motorservices.

Subject : Naples Postal Transport.

To : Zone Commissioner Naples Zone.

With reference to your N 2/52/8 of 28 March 1945.

1. The requisitioning of the motor vehicles of the Corbara firm was decided upon only after the Southern Region Transportation and Postal Officers had made many endeavours to persuade the Contractor to perform the service at rates which bore some relationship to those laid down in the Regional Order operative at that time.

2. Copies of relative letters on the subject including a summary of the case made in September last are enclosed for reference.

3. The actual details of the requisition (understood to be ten vehicles) which took effect on the 1st August 1944 were arranged by representatives of the Prefect, the Post Office and the U.T.C. A requisition for a further six trucks was apparently arranged by the U.T.C. (presumably with agreement of Transportation) and the Prefect's Office on 31st August 1944. No doubt this was considered necessary owing to the bad condition of some of the vehicles and difficulties in maintaining the number required in service but the Post Office was not consulted in that case, as will be seen from the enclosed copy of the Provincial Director's letter 20997/3 of 16 September 1944 to the U.T.C.

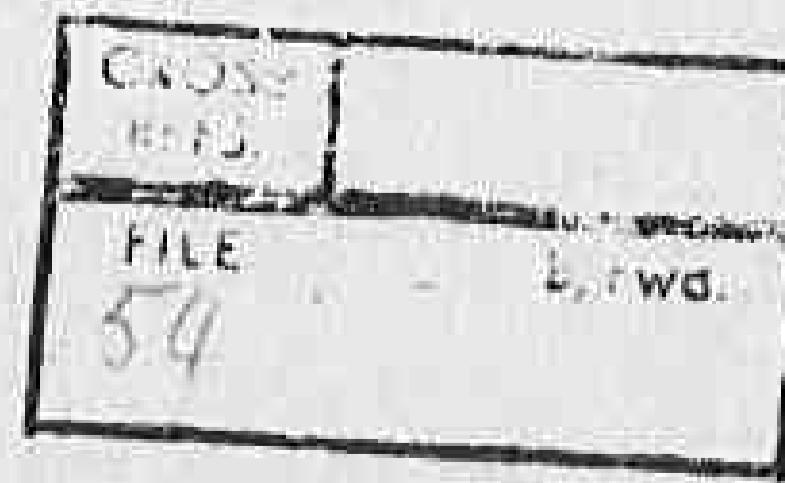

4. No request for the derequisitioning of the vehicles has come to the knowledge of this Sub-Commission. If any such derequisitioning is contemplated by A.O. locally, no doubt the Prefect's reminder as to the necessity for the Post Office Provincial Directorate being put in a position to make alternative arrangements will be borne in mind.

By Command of Rear Admiral Stone.

1. It will be seen from the attached letter that Corbara is still playing for time.
2. Although he has been told that all the special conditions of the old contract can be dropped in favour of a simple hiring agreement for vans and drivers he still refuses to admit that the service can properly be costed on the basis of the Regional Order rates.
3. As the majority of the proposed services either come under the hourly rate (less than 50 kilometres) or the first stage (75 kilometres) of the mileage rate I do not think that there should be any real difficulty in applying the Order. There does however seem to be some substance in a contention that if the rate is correct for a straightforward haul of 75 kilometres it is obviously not correct when the vehicle is regularly retained for say 8 hours to perform that distance .
4. As, however, the contractor shews no inclination even to discuss the pricing of the contract on the basis of the Regional Order and is obviously intent on maintaining an arbitrary and much higher comprehensive charge, I should be very glad if you would allow the Post office Directorate to discuss with the Ufficio Trasporti the possibility of taking over the service as from 1st August .
5. There are certain services involving the transport of large sums of money to and from the Sub-Offices in the City for which closed vehicles are essential.

2. The original contract is now expired and all that is required of him is a simple agreement for the hire of vehicles and drivers for a certain number of hours each day for use at the Administration's discretion on town services.
3. The payment which can legally be made is governed by the total covering period at which each vehicle is due to be at the disposal of the Administration (with a minimum of eight hours in the case of any vehicle) or the mileage rate, whichever is the more favourable.
4. If at the end of the month the contractor can prove exceptional features justifying a percentage increase on the rates laid down in the Regional Order, the claim will be considered and if necessary the decision of the Regional Commissioner will be sought.

1. In view of the attached report by the Naples Directorate to the Ministry regarding the Naples Motor Services it may be of interest to have a record of the developments in this case as I have seen them.
2. When I took up duty in this Region the Naples Town Motor services were being operated by the Corbara Firm on the basis of a three month's additional act to the original contract providing for ten vehicles (seven in service for an average of 8 hours per day, one for occasional use and 2 for reserve) at a monthly cost of 300,000 lire. In my opinion it was a mistake to have restored the services on the basis of such an additional act because the very fact that the number of vehicles and hours of work were so drastically reduced rendered it practically impossible to say which of the clauses of the original very comprehensive contract could be regarded as legally enforceable.

3. This agreement expired 31st March 1944 and as on 20th March the Provincial Director reported that all his efforts to obtain cheaper and more satisfactory tenders were unsuccessful it was necessary to renew it for another three months.

3. This agreement expired 31st March 1944 and as on 20th March the Provincial Director reported that all his efforts to obtain cheaper and more satisfactory tenders were unsuccessful it was necessary to renew it for another three months.

4. In the following three months I had many conversations with the Provincial Director regarding this service which was a perpetual worry to him and to me from the point of view of cost; applications by the contractor regarding inability to obtain parts and tyres and inability to the contractor to give any promise of providing for the additional services which could be foreseen.

5. I made various enquiries as to the possibility of helping the contractor to obtain parts and tyres but without useful results.

6. The high price of the contract was also a concern to me in view of the publication of Regional Order N.42 fixing road transport rates. This Order could perhaps be held not strictly applicable to a service such as the post Office contract but raised questions of the inadvisability and legality of continuing to pay at the contract rates.

7. During May there was a good deal of correspondence between the Directorate and Contractor regarding the conditions of renewal and the possibility of providing additional services

during which the contractor did little but stress the insuperable difficulties of operating the service, while Reparto 3 tended to err in the opposite direction of taking an unrealistic view of the situation and trying to stand on the obligations of the original contract.

8. The Director on several occasions urged me to have the vehicles requisitioned, stating that it had been an unwritten agreement when the service was restarted that the high remuneration was partly to be devoted to the cost of putting more vehicles in service and that he feared that the Contractor was repairing and selling his vehicles and had lost interest in the contract. I was reluctant to resort to requisitioning, firstly because I could not see how the Post Office could satisfactorily organise the maintenance of vehicles in such poor condition, and secondly because I was not convinced that the Contractor was altogether dishonest. I had a good deal of sympathy with his trouble in keeping the vans in service.

9. In May and June the Transportation Section of this Region took an interest in the Corbara Firm and expressed the opinion that the Contractor should be able to continue the service though admittedly short of tyres. The Transportation Section also offered to try to obtain through the Consorzio Trasporti some small vehicles to supplement Corbara's but the Directorate was strongly opposed to having vehicles from two sources in service because of operating difficulties.

10. The contract was allowed to run during July while negotiations were proceeding but in the end, after a series of evasive letters in which Corbara refused to discuss pricing the contract on the basis of the Regional Order, it was decided to ask the Prefect to requisition the vehicles and hand them over to the Ufficio Trasporti to operate and maintain.

11. The Ufficio Trasporti made certain reservations as regards the cost as it had to bear in mind the fact that the requisition was temporary and in might have to bring the vehicles back after spending a good deal on them for repairs. It was however understood that there would be no question of making a large profit and the service was undertaken in order to keep an essential public service in operation.

12. The service was taken over and operated by the Ufficio Trasporti as from 1st August.

13. The main difficulty anticipated in pricing the actual running costs of the service arose from the unreliability of the Kilometercounters and the fact that exceptional services are necessary but I thought that this should not cause too much trouble because most of vehicles performed less than 50 Kilometers a day and therefore came under the hourly rate while only three vehicles were likely to exceed the 75 kilometers as the minimum for the distance rate. I recommended that where there was any question of such mileages being exceeded checks should be imposed and the question of any discrepancies settled by discussion with a representative of the Ufficio. Reporto 3, however, has thought fit to require a most elaborate set of statistics.

14. The position as regards the costing of the service has however now been complicated by the fact that the Regional Order has now been superseded by an Italian Decree (Gazzetta Ufficiale No. 44) which has no hourly rate and has tables on a quintalkilometer basis which will be even more difficult if not impossible to use as a basis for Post Office work. It is understandable therefore that the Ufficio needs a little time to arrive at a reasonable costing basis.

15. I have tried to impress on the Directorate that the Ufficio is a semi-official organisation dealing with transportation in a big way and the Post Office work which has undertaken to help us is but a small fraction of its task. It is clearly not able to devote a large part of the time of its administrators to such a relatively small fraction of its work. I do not think that the report to the Ministry as worded would have been signed by Comte Huber, who I asked to look into this matter and who I think would have done so but for his unfortunate accident.

16. In the case of the Provincial Services, which previously were a perpetual nuisance through breakdowns and failures, the Ufficio uses its own vehicles and since it took over the service has not given us the slightest trouble and will have saved the Administration a great deal of money. Similarly the Naples-Rome service run by the Ufficio is far more reliable, cheaper and carries much more mail than the Post Office contract service which alternates with it. The town services will always be more difficult and costly while the Corbara vans are used, but given good will on both sides, less correspondence and a little more direct contact between Reparto 3, the Ferrovia Office and the Ufficio people, I think that a satisfactory working arrangement should be possible both as regards costing and additional vehicles.

17. An Italian translation of this report is connected for convenience if you wish to refer it to the Undersecretary.

Il Comm. Salvatore Corbara riferisce che con Decreto di  
S.E. il Prefetto in data 31 agosto us, notificatogli il 2 corr.  
gli sono stati requisiti altri sei automezzi da adibire al  
servizio dei trasporti postali.

Si prega di far conoscere se il provvedimento sia stato  
provocato da codesto Ufficio, indicando nell'affermativa, le  
ragioni che lo determinarono, dal momento che per l'esecuzione  
del servizio in oggetto con l'attuale organizzazione furono  
ritenuti sufficienti, a suo tempo, sette autofurgoni in servi-

SUBJECT: Postal transports at Naples

Comm. Salvatore Carbone informs us that by decree  
of H.E. the Prefect, dated 31 August 44, notified him on  
Sept 2nd, six additional motorvans have been requisitioned  
from him, to use them for postal transports.

We beg you to let us know if such measure has been  
provoked by your Office, informing us, in the affirmative,  
of the reasons which have caused it, in view of the fact  
that 7 motor vans in service and 3 for reserve, were, in a first  
time, considered sufficient to operate the service under notice  
with the present organization.

Subject: Requisition of truck belonging to Firm Salvatore Corbara.

This Prefettura, on 31 August 1944, upon request of Maj W.H. Green director of the Allied Control Commission Post Office, Region III, requisitioned 16 trucks belonging to the Firm Salvatore Corbara, to favour of the Ufficio Trasporti della Campania, to ensure the functioning of the postal services.

As it appears that the Firm Corbara would provoke the intervention of the Allied Commission to get the restitution of the above trucks, we beg, if possible, to inform us previously of the eventual derequisition, so that the Post Administration be put in condition to timely provide for a new organisation of postal transportation.

Al Commissario di Zona dell'A.C.

NAPOLI

Questa Prefettura, in data 31 agosto 1944, requisiva su richiesta del Magg. W.H. Green, dirigente l'Ufficio Poste dell'Allied Control Commission, Regione III, N° 16, Autofurgoni di proprietà della Ditta Salvatore Corbara, a favore dell'Ufficio Trasporti della Campania, onde assicurare il funzionamento dei servizi postali.

Poichè sembra che la Ditta Corbara avrebbe intenzione di provocare l'intervento della Commissione Alleata per ottenere la restituzione dei detti Autofurgoni, pregsi, ove possibile, dare comunicazione, con congruo anticipo di tempo, dell'eventuale derquisizione, onde mettere l'amministrazione delle Poste e Telegrafi in condizioni di tempestivamente provvedere ad una nuova organizzazione dei trasporti postali.

To : Transportations Sub-Commission.

1. Enclosed is a letter from the Ministry of Posts and Telegraphs dealing with difficulties which have arisen through the sequestration - apparently by an A.C. Officer - of military tyres used on a vehicle belonging to a Post Office motor contractor.

2. It would be appreciated if something could be done to ascertain the facts of the case and, if possible, to arrange so that the motor service can be resumed.

ROMA

Oggetto: Sequestro pneumatici autoservizi della D/na di FOGGIA.

La dipendente Direzione Provinciale di Foggia, con sede in Lucera, ha riferito circa l'avvenuto sequestro, operato dal Tenente Sig. Carboni, il 14 corrente, di 4 pneumatici americani di cui era munita l'automobile dell'esercente l'autoservizio postale Sig. Giuseppe Delle Noci, che è stato anche trattenuto in arresto, nonostante che egli fosse munito di permesso della A.C.C. di Lucera, autorizzante l'uso delle gomme Alleate.

Ha riferito, altresì, la detta Direzione, circa l'esito negativo delle pratiche svolte presso la R. Prefettura e il Comando del Gruppo dei RR. Carabinieri per ottenere la concessione, ancorchè temporanea, delle gomme sequestrate occorrenti alle macchine con le quali si provvede ai trasporti postali di numerose località della provincia.

Mediante telegramma in data del 22 corr; viene, ora, segnalata la persistente interruzione, per la ragione suaccennata, del servizio postale ed il grave progiudizio derivante dal mantenuto sequestro delle gomme, onde la necessità del rilascio di almeno cinque buoni per l'acquisto, sul mercato, di altrettanti pneumatici.

Considerati i gravi inconvenienti derivanti dalla prolungata sospensione dei trasporti postali, particolarmente per quanto riguarda il movimento dei fondi, e data la mancanza di altre autovetture e l'impossibilità di una sostituzione delle gomme sequestrate, si prega codesta Commissione di voler cortesemente intervenire, disponendo, con benevola attenzione, i provvedimenti del caso al fine di consentire la sollecita ripresa del servizio postale interrotto, accordando l'uso dei pneumatici sequestrati, autorizzando i competenti Organi Alleati a mettere, a disposizione della predetta Direzione delle Poste, i pneumatici i cui quantitativi e misure sono stati indicati come segue:

sei N.00, 16 oppure sette N.00,15

Si gradirà un cortese cenno di riferimento, circa le determinazioni che saranno prese.

Ref. No. 487161/C.A. 2.

27th March 1945.

SUBJECT:- Sequestration of postal service tyres  
of the Direction of Foggia.

The Provincial Direction of Foggia, with central offices in Lucera, has reported to us re the sequestration made by Tenente Sig. Carboni on the 14th inst. of 4 american tyres with which was equipped the car of Signor Giuseppe delle Noci, entrusted with the postal motor service and who was also kept in arrest notwithstanding he was in possession of a permit issued by the A.C.C. of Lucera which authorized the use of Allied tyres.

The abovementioned Direction has also reported to us the negative results of the steps taken with the R. Prefettura and the Command of the RR. Carabinieri to obtain the release, if only temporary, of the sequestered tyres necessary for the cars with which the postal transport is made to numerous localities of the province.

With telegram dated the 22nd inst. we have now been informed of the persistent interruption, for the abovementioned reason, of the postal service and the grave prejudice caused by the upholding of the sequestration of the tyres entailing the necessity of the release of at least five coupons for the purchase, on the market, of an equal number of tyres.

Considering the grave inconvenience brought about by the prolonged suspension of the postal transport, particularly concerning the movement of funds, and owing to the lack of other motor cars and the impossibility of a substitution of the sequestered tyres, we kindly ask you to intervene taking the necessary action the case requires so as to allow for a hasty resumption of the interrupted postal service, allowing the sequestered tyres to be used, authorizing the competent Allied Organs to place at the disposal of the aforesaid Postal Direction the following tyres:

Six No. 00,16 or Seven No. 00,15.

We should be glad to read you on the subject and as regards the decisions that will be taken.

US of S.

5555

St. Carboni is an American Officer sent to Foggia to inquire about stocks of tyres. Signor Noci had a permit from A.C.C. to use Allied Tyres, but apparently he could not reply satisfactorily about the source of such tyres & therefore he has been arrested. The Prefect has been informed but for the moment he has not been able to do anything.

OGGETTO: Trasporti postali  
a Taranto.

La Direzione Provinciale P.T. di Taranto informa che nella notte dal 5 al 6 c.m. vennero traiugate sei ruote complete di pneumatici, dotazione dell'autofurgone Fiat 521 di proprietà del Sig. Emilio Storelli, e dal medesimo editito al trasporto degli effetti postali nella città di Taranto, che egli gestisce in appalto per conto di questa Amm.ne.

Poichè in loco, malgrado l'interessamento della predetta Direzione, non si è potuto ottenere altro materiale in sostituzione di quello traiugato, mentre è evidente la necessità di provvedere al regolare svolgimento del servizio in esame, si prospetta il caso a codesta On. Sub Commission, perchè voglia esaminare la possibilità di intervenire per l'assegnazione allo Storelli delle ruote complete con pneumatici occorrenti per giungere in efficienza l'automezzo sopra specificato.

Subject : Postal transport at Taranto.

The Prov. Direction of Taranto informs us that, on the night between the 5th and 6th March, 6 wheels complete of tires, belonging to the motorvan FIAT 52I of Mr. Emilio Storelli, used for the transport of postal items in the city of Taranto, for which service Mr. Storelli has a contract with our Administration, were stolen.

On the spot, in spite of the interest taken by the above Direction, it has not been possible to obtain the substitution for the material stolen. In consideration of the evident necessity of providing for the service under notice, we expose the case to your Commission, begging you to examine the possibility to interpose your good offices to obtain the allotment to Mr. Storelli of the wheels complete of tyres necessary to put again in operation the above mentioned motorvan.

Your reference on the matter will be very appreciated.

In ordine all'interessamento spiegato da codesta  
Commissione a mezzo del Ten. Allen, circa lo stato della pra-  
tica riguardante la elevazione dei canoni corrisposti  
alle imprese automobilistiche incaricate dei servizi  
interurbani di trasporto degli effetti postali, è gra-

porti, nella cui sfera di competenza spettano la sorve-  
glianza e l'andamento tecnico dei servizi della specie.

All'uopo, è stato predisposto un provvedimento  
legislativo, nel quale, come è stato testé precisato dal  
prefatto Dicastero, oltre all'aumento dei canoni postali,  
saranno stabilite talune norme dirette a regolare le  
prenotazioni per il rilascio dei biglietti di viaggio.

Si aggiunge che il testo definitivo, più concre-

To : Communications Sub-Commission.  
Subject: Increase of motorcar postal rates.

Following the interest shewn by your Sub-Commission through Lt. Allich, as to the present position of the proposals for the increase of rates payable to the motor-car firms concerned with inter-urban Postal transport services, we are glad to inform you that the instructions will be issued together with other orders, worked out by the "Ispettorato Generale della motorizzazione civile e dei trasporti in concessione" of the Ministry of Transport, in whose competence belongs the control and the technical supervision of such services. For such purpose a legal order will be issued, in which, as has now been determined by the above Ministry, besides the increase of postal contract payments, some regulations will be established so to regularise the reservation of travel tickets. It is added that the definite text, already laid down, will as soon as possible, be submitted for the approval of the Ministry's of the Treasury. We have good reason to think it will soon become effective.
