T.14.100.08

6th April, 1945

SUBJECT: Control of Italian Stores

TO: Chief Signal Officer, A.F.H.Q.

1. Reference is made to our Memo. of 4th February, 1945 copy of which is inclosed for ready reference.

2. Since our Memo. was written C.S.O. Memorandum # 13 of 13th February, 1945 has been issued but the Signal Officer M.E.I.A. refuses to recognise the application of this Memo. or A.F.H.Q. Ordinance British DOS 3430 which he claims is at variance with A.F.H.Q. Circular No. 29, A.F.H.Q., 1944.

3. It is believed that only satisfactory solution will be by issuance of DOS 3430 in the form of an A.F.H.Q. circular. In such circular specific reference should be made to the fact that altho' A.F.H.Q. Circular 29 provides that stores held in Italian Army Depots may be released only on written authority of M.E.I.A., this does not mean that stores of general application are to be regarded as being the sole property of the Italian Army.

J. L. HENDERSON
Colonel,
Director.

Ref. No 1365/R

3rd April 1945.

SUBJECT:- Copper Wire.

We thank you for your letters Nos. T 36 CS of the 27th March 1945 and T 14 of the 30th March 1945 concerning the purchase by the Italian Government of 100 tons of copper wire of the diameter of 0,128".

Whilst we await to learn the conditions of the purchase and the day on which the contract can be signed, we assure you that we are actually studying the use of the wire in question conforming to your indications in para. 4 of your letter T. 36 CS of the 27th ult.

We further assure you that we have instructed the Naples Circolo to make a speedy search for a suitable store for the material in question.

Si è preso atto e si ringrazia di quanto cote-
sta Commissione comunica con i fogli a riferimento
circa l'acquisto da parte del Governo Italiano di
100 tonnellate di filo di rame del diametro di 0.128
pollici.

↑ Mentre si rimane in attesa di conoscere le condi-
zioni dell'acquisto ed il giorno in cui potrà avve-
nire la firma del contratto, si assicura che è attual-
mente allo studio l'utilizzazione del filo in oggetto
in conformità di quanto accennato al n.4 del foglio
n.T.36.C.S. del 27 u.s.

Si assicura altresì che sono state impartite di-
sposizioni al Circolo di Napoli per la sollecita ri-
cerca di un magazzino adatto a ricevere il materiale
di cui sopra.

T.36. .03

27th March, 1945

SUBJECT: Copper Wire

TO: Under-Secretary of State for P.T.

1. One hundred tons of 0.128 inches diameter copper wire will very shortly be received for use by the Italian Government and the Concessionary Companies.

2. This will be sold to the Italian Government.

3. The condition under which it is sold is that the Italian Government should give this HQ. a plan showing in approximate fashion where the wire will be used and for what purposes.

4. Generally speaking, it would probably be a better policy to use it for repairs to damaged routes rather than to add to the circuits on an undamaged route in military use, since in many cases the military will gradually return the circuits to civilian use.

5. Would you kindly therefore submit your proposals as soon as possible. In A.M.C. areas the local officials should consult the A.C. Telecommunications Officers before putting forward their ideas.

Ref. No. S/8.0/30858

12th February 1945.

SUBJECT:- Bursar.

The increasing shortage of finished articles and raw materials necessary for the working of our services, makes it necessary to send, with absolute precedence, a Bursar to the liberated cities for the purpose of buying, in the limits of local availability, the products necessary for our Administration.

Whilst we enclose an approximate list of the necessary products which, we believe, in part could be purchased at more convenient prices if the Bursar could fulfill the abovementioned programme, we should be grateful for your opinion as regards the fulfillment of same.

We await to read you on the subject.

Roma 12 febbraio 1945

ALLA COMMISSIONE ALLEATA
Posts And Telecommunications Sub-Commission -

R O M A

OGGETTO: Funzionario Economo.

La sempre crescente penuria di prodotti finiti e materie prime necessarie per il funzionamento dei nostri servizi, avrebbe posto in rilievo la necessità di poter inviare nelle città liberate, con assoluta precedenza, un funzionario economo con lo scopo di acquistare, nei limiti delle locali disponibilità, i prodotti stessi nell'interesse della nostra Amministrazione.

Nell'allegare un elenco approssimativo di tali prodotti che in parte si riterrebbe possibile acquistare a prezzi più convenienti se tale funzionario potesse attuare il programma sopracitato, si sarebbe grati del parere di codesta spett.le Commissione circa l'attuazione dello stesso.

Restiamo in attesa di vostro cortese cenno di riscontro al riguardo.

Il Sottosegretario di Stato
F/to: Mario Fano

Communications Sub-Commission

HTNM/epc

7.14.83.08

20th March, 1945

SUBJECT: Paper Tape for Telewriters

To: Industry Sub-Commission
Att: Dr. Opatowski

1. As per telephone conversation, the case is explained below.

2. In the telegraph system in Italy, paper tape is an essential item for the operation of the telegraph service. Dimensions of the tape are fixed by the machines in which it operates. There are two normal sizes, the dimensions of one type being as follows:

Width 15mm
Thickness 0.08mm

The usual length of roll is 400 metres and the weight 200 grams.

3. It has not been found possible to obtain supplies of this type of tape from Allied sources. As the requirement is urgent and essential would you kindly say whether 250 rolls per month may be manufactured in (say) Foggia mill, and the same of the second type of tape of somewhat similar size. (dimensions can be given later)

J.L.HENDERSON
Colonel,
Director.

Communication Sub-Commission.

Reference to your letters T.14.72 dated 17 Jan and 7.14.70 CS. dated 5 March, please note that the local market has been fully investigated and only 20 rolls of each of the two types of paper are available. Please say if they are of any use to you.

The nearest available paper in Ord. stocks is Paper Undulator Pt. No. YA.03849, and this is 13mm. wide with centre hole. Please state if this is a suitable alternative.

Translation by C. Gagliardi

Ref. No. 15883T/8350

2nd March 1945.

SUBJECT:- Supplies of paper and telegraph tape.

As you are aware, on the 1st inst. the Societa' Italcable will begin the Press Agencies telegraph service on the Rome-Naples-Messina-Catania-Palermo circuits, and for that service the presumed monthly use of paper and telegraph tape is as follows:-

15,000	square sheets	ciclostyle type	paper;
90,000	"	"	onion skin paper;
22,500	"	"	carbon paper;
300	rolls	ungummed	telegraph tape;
500	"	gummed	" " for Baudot machines;
500	"	ungummed	" " " " "

Taking into consideration that the Soc. Italcable has supplies of the above materials for only about two months, excepting the telegraph tapes for Baudot machines of which they have sufficient supplies for some months, they request the assignment of:-

100,000	square sheets	ciclostyle/	type	paper;
600,000	"	"	"	onion skin paper;
125,000	"	"	"	carbon paper;
2,000	rolls	ungummed	telegraph	tape

sufficient to guarantee the working of the abovementioned circuits for at least six months.

We request that you grant the above assignment, and shall await to hear from you on the subject.

OGGETTO: Approvvigionamento carta e zone
telegrafiche

Com'è noto a codesta On. Commissione col 12 marzo p.v. la Società Italcable inizierà l'espletamento del servizio telegrafico per le Agenzie giornalistiche sui circuiti di Roma-Napoli-Messina-Catania-Palermo e per tale esercizio è previsto un consumo mensile di circa:

- 15.000 fogli di carta tipo cyclostyle formato quadrato;
- 90.000 fogli di carta vergatina formato quadretto;
- 22.500 fogli di carta carbone formato quadretto;
- 300 rotoli di zone non gommate per macchine tele-scrittenti;
- 500 rotoli di zone gommate per apparati **2589**;
- 500 rotoli di zone non gommate per apparati Baudot.

Considerato che la Società Italcable ha una disponibilità dei suddetti materiali bastevole appena

Per due mesi circa, ad eccezione delle zone per
appareati Baudot delle quali ha ancora una scorta
sufficiente per alcuni mesi, la Società medesima
chiede l'assegnazione di :

- 100.000 fogli di carta tipo cyclostyle formato qua-
drotta;
- 600.000 fogli di carta vergatina formato quadrotta;
- 125.000 fogli di carta carbone formato quadrotta;
- 2.000 rotoli di zone non gommate per macchine
telescriventi

sufficienti per garantire il funzionamento dei
circuiti sopra indicati per almeno sei mesi.

Si prega codesta On. Commissione di voler
concedere l'assegnazione di cui sopra e si rimane
in attesa di riferimento.

5th March, 1945

SUBJECT: Tools at Fogglioreale Stores

TO: Under-Secretary of State for P.T.

With reference to your letter No. 681268/1100 of 29th January, apparently the Allied Military Railway Service maintains an interest in the Fogglioreale Store. It is suggested that you attempt to withdraw the tools on the strength of the A.F.H.Q. authority sent to you with A.C. letter No. T.14.17.08 of 3rd February, and inform this HQ. if you encounter any difficulty.

SUBJECT: Salvage Wire.

TO : Headquarters Allied Commission
(Attn. Director, Communications Sub-Commission AC APC 394)

Your file T. 14.56.A.CS dated 27th February 1945.

1. Quartermaster Dump Q-571 Salvage has wire and strand for sale.
2. The Signal Wire is a twisted pair strand wire consisting of 4 strands of steel and 3 of copper. It is salvaged material and much of the insulation is worn off in places. It is in all lengths from a few feet to several hundred feet. A S.E.T. engineer was with me at the time of inspection and stated it would be a good buy at the price quoted below.
3. The cable steel strand is rusty and two large for telephone a telegraph use.
4. (A) If it is the wish of Hq. AC. to designate a civilian buyer the Salvage Dump will set a price and no bids required otherwise 3 bids are required and the highest bidder gets the items.
5. The signal wire will sell for \$ 50:00 or \$ 60:00 a ton. The strand for about \$ 50:00 a ton. Unable to get exact prices at this time.
(B) The wire is in serviceable condition. No specification.
(C) B answers this question however for your information no solid copper is sold.
6. The Quartermaster advices they are waiting your reply before disposing of these items.

REMARKS:

Form ACC-MAT No: 10.

[Handwritten signature and initials]

Indication: This will be for ~~some~~ telecommunication purposes and, it is thought, should therefore be allocated entirely to the Dept. or Companies concerned with the National Telephone or Telegraph Service.

The SET is the concessionary company operating the local telephone service in South Italy, and it has negligible amounts of wire in stock.

It intends to recover portions of the salvage wire for use, if permitted.

Col. Henderson.

What attitude shall
we adopt here?

MIDA overlooks the fact
that ^{some of} the Army projects may
be trivial compared with
civilian or even, say, Navy,
or Air Force, and that joint use is
the correct principle at the moment.
I suggest the matter be
referred to AFHQ.

H. M. Sullivan
1st Lt.

28/2/45.

(As a matter of interest, some 5000
tons of iron wire have been used
in Sardinia without authority
from AAI - I think this must be
due to It. Army activities - We have
practically no iron wire left now)

T.14.56.A.CS

27th February, 1945

SUBJECT: Salvage Wire

TO: Major J.A. Bridgeman, Telecomms Officer
Southern Region.

1. It is reported that there will be available for sale during March at P.B.S. Depot Southern District the following items of salvage which might be of interest to the Italian telephone and telegraph people.

Signal Wire	220,000 Kilograms
Cable Steel strand	20,000 "

2. Will you please examine this and inform us before March 8th, 1945 on the following points:

- a. Is material sold to highest bidder or is it available at a set price. If so what is price.
- b. Is material usable in present state - what are specifications.
- c. If not usable, signal wire if made of copper could possibly be used for reclaiming copper which could then be used for making bare copper wire.

SUBJECT. : Control on Italian Stores.

1) - We notify receipt of the instructions issued by the C.S.O? L.of C. Italy; enclosed in the aforementioned letter .

2) - We thank you very much for the proxy granted by your Commission to the Italian Government, that is to me, for the control of the Italian Stores, assuring you that special stocks of such materials will be collected at the depots of the Circoli di Costruzioni, for the needs of still occupied Italy.

3) - An up to date list will be compiled, as soon as possible, concerning the most important stores used for the presently existing communications, which are actually lying or at the warehouses of the State Railways, containing materials ~~ADMINISTRATION~~ property of our ~~State Agency for the Telephone Services~~, or at the depots of the Circoli and of the ~~State~~ Agency for the Telephone Services.

In such list the stocks which will be reserved for the needs of Northern Italy will be indicated.

Precise instructions will be issued to all the dependent Bodies, concerning the use of the reserved supplies. A copy of the above will be sent to you in due course.

APQ 394

OGGETTO: Controllo sui materiali italiani.-

- 1°) - Accuso ricevimento delle istruzioni del C.S.O. A.F.H.Q. allegate alla lettera sopra distinta.-
- 2°) - Ringrazio sentitamente della delega fatta da codesta Commissione al Governo Italiano, e, per esso, allo scrivente per il controllo dei materiali, assicurando che di tali materiali saranno costituite delle scorte intangibili presso i depositi dei Circoli delle Costruzioni per le esigenze dell'Italia ancora occupata.
- 3°) - Sarà subito redatto un elenco aggiornato dei principali materiali per telecomunicazioni in atto esistenti sia presso i magazzini di approvvigionamento delle Ferrovie di Stato, contenenti materiali, di proprietà di quest'Amm.ne, sia presso i depositi dei Circoli o dell'Azienda di Stato per i Servizi Telefonici.-

In tale elenco saranno indicati i quantitativi che si riterrà opportuno riservare per le necessità del-

.../...

l'Italia Settentrionale.-

Rigorose istruzioni saranno impartite a tutti gli Enti dipendenti per l'uso di tali quantitativi riservati. Di tale elenco ne sarà inviata copia a codesta On.le Commissione.-

8) Submarine telephone-type cable Krarup, single quad.	Naut. Miles	20	40 tons
9) 4 wire amplifiers: 18 bays each equipped with 6 terminal amplifiers and 6 through type amplifiers; 6 bays each with 6 terminal amplifiers only Total 4 w. amplifiers	No.	252	7 tons

Note : Above amplifiers must be of suitable characteristics for use on long distance cable with 0,9 m/m conductors and H-44-25 loading.

- 10) 2 wire amplifiers :
3 bays each with 8 amplifiers;
6 ditto each with 4 amplifiers

Total 2 w. amplifiers

236548

Note : These amplifiers must be suitable for use on long distance cables 0,9 and 1,3 m/m dia. and H-177-63 loading.

- 11) Thru channels high frequency systems (each system with 2 terminals) for high frequency equipment of aerial lines. It is requested that frequency bands if possible be over 60 Kilocycles
- 12) Voice frequency 3 channels telegraph systems (each with two terminals) for equipment of aerial lines.

No. 27

5 tons

No. 14

4 tons

single quad.

9) 4 wire amplifiers:

18 bays each equipped with 6 terminal amplifiers and 6 through type amplifiers;
6 bays each with 6 terminal amplifiers only

Total 4 w. amplifiers

Note : Above amplifiers must be of suitable characteristics for use on long distance cable with 0.5 m/m conductors and H-44-25 loading.

- 10) 2 wire amplifiers;
3 bays each with 6 amplifiers;
6 ditto each with 4 amplifiers

Note : These amplifiers must be suitable for use on long distance cables 0.9 and 1.3 m/m dia. and H-177-63 loading.

- 11) Thru channels High frequency systems (each system with 2 terminals) for high frequency equipment of aerial lines. It is requested that frequency bands if possible be over 60 Kilocycles
- 12) Voice frequency 3 channels telegraph systems (each with two terminals) for equipment of aerial lines.
- 13) Automatic exchange apparatus, for 500 numbers, normal traffic.

- 14) Ditto for 1,000 numbers
15) Ditto " 2,000 "

Note : Above exchanges must be fitted with necessary main frames and test desks.

- 16) Centr. battery switchboards, 24 or 48 Volts for 1,400 numbers each composed of 5 sections

Miles 50 270 Km

Naut. Miles 20 40 140 Km

(10 positions), 8 cords (with plugs). Each switchboard will include 40 junctions to other central battery switchboards and 20 junctions to local battery switchboards. All lines will have to be multiplied on each section.

No. 2 8 Km.

Note: Every switchboard must be fitted with main frame, 2 ringing machines, 3 breast type telephones for each position, and cable turning sections at each end of the board.

Km. 200 2 Km.

- 17) Jumper wire (2 conductors each 6/10 mm.)
- 18) Sections for long distance 24 V. switchboards. Each section must have 2 operating positions, and must be equipped with strips of line lamps, "busy" indicator lamps, jack and associated lamps (strips of twenty lamps) for 200 lines per section.

Multiple will be formed according to local needs; therefore the necessary cables will have to be supplied in cells. Each operating position must have 8 cords.

Each section will include the complete equipment for these cord circuits and the operating circuits complete with dial and associated alarm circuits.

It will also be fitted with a calculograph possibly of the number 1091726 R. 13597 type of Calculograph Co. New York.

Each operating position must also be fitted with timing devices, with electrical indication every three minutes and 12 minutes dial.

Total sections No. 30 17 Km.

- 19) Cord for long distance positions.

50,000 cords, approx. length 2 mt. without plugs, both with ends prepared for taking plugs.

Km. 100 6 Km.

- 20) Batteries of stationary type secondary cells each 100 ampere-hours capacity at 130 Volts, with rectifiers for full charge in about 10 hours.

Mains supply: three-phase 220 Volts, monophase 125 Volts, 42-50 cycles.

No. 10 6 Km.

- 21) Standby sets - each composed of I.C. engine coupled to a generator for charging above batteries to be used in case of mains breakdown.

No. 10 5 Km.

- 22) Batteries of stationary type secondary

2364

of twenty lamps) for 200 lines per section.

Multiple will be formed according to local needs; therefore the necessary cables will have to be supplied in cdl's. Each operating position must have 8 cords.

Each section will include the complete equipment for these cord circuits and the operating circuits complete with dial and associated alarm circuits.

It will also be fitted with a calculograph possibly of the number 1094786 R. 13597 type of Calculograph Co. New York.

Each operating position must also be fitted with timing devices, with electrical indication every three minutes and 12 minutes dial.

Total sections No. 30 17 km

- 19) Cord for long distance positions.
50,000 cords, approx. length 2 mt.
without plugs, both with ends prepared for taking plugs.
- 20) Batteries of stationary type secondary cells each 100 ampere-hours capacity at 130 Volts, with rectifiers for full charge in about 10 hours.
Mains supply: three-phase 220 Volts, monophase 125 Volts, 42-50 cycles.
- 21) Standby sets - each composed of I.C. Engine coupled to a generator for charging above batteries to be used in case of mains breakdown.
- 22) Batteries of stationary type secondary cells, each 100 ampere-hours capacity, 220 VOLTS, with rectifiers for full charge in 10 hours. Mains supply: 220 Volts three-phase, 125 V. monophase, 42-50 cycles
- 23) Batteries of stationary type secondary cells, 200 ampere-hours capacity 24-48-60 Volts
- 24) Ditto, but 500 ampere-hours capacity
- 25) Manual type telephone sets I.B. type.

- 54
- 11°) N° 27 sistemi a tre canali alta frequenza (ciascun sistema composto di n. 2 terminali) per equipaggiamento alta frequenza di linee aeree. Si chiede che le bande di frequenza siano possibilmente superiori ai 60.000 periodi
- 12°) Sistemi ad alta frequenza (ciascun sistema composto di 2 terminali) a tre canali telegrafici, per equipaggiamento in A F di circuiti aerei
- 13°) Centrali automatiche urbane tipo STANDARD ELECTRIC CO. da 500 numeri, traffico normale
- 14°) Centrali automatiche urbane tipo STANDARD ELECTRIC CO. da 1000 numeri a traffico normale
- 15°) Centrali automatiche urbane tipo STANDARD ELECTRIC CO. da 2000 numeri a traffico normale
- Nota: le suddette centrali devono essere fornite coi relativi permutatori e tavole di prova.
- 16°) Centrali a B.C. a 24 o 48 V. per 1400 numeri composte ognuna da 5 tavoli (10 posti di lavoro), 8 cordoni. Ogni centrale dovrà essere 40 linee di giunzione verso altre centrali a B.C., 20 linee verso centrali automatiche 20 linee verso centrali a B.L. Tutte le linee dovranno essere multipliate su ogni tavolo
- 17°) Trecciola di permutazione a due conduttori rame 6/10 mm.
- 18°) Tavoli per montaggio di centrali telefoniche interurbane a 24 V. Ogni tavolo dovrà essere a due posti di lavoro, equipaggiato con striscie di lampade di linea - d'occupato - e di jack e relative lampade (striscie a venti) - per 200 linee (per tavolo). Il multiplo sarà eseguito in base alle esigenze locali e pertanto i cavi per il multiplo stesso dovranno essere forniti in bobina. Ogni posto di lavoro deve avere 8 circuiti di cordoni. Ogni tavolo comprenderà tutti gli organi per il circuito dei cordoni e di operatrice con disco combinatore, nonché i circuiti d'allarme relativi.
- Ogni tavolo dovrà pure essere provvisto di un calcolografo possibilmente del tipo 1091786 H.13597 fornito dalla Calculograph Co. di New York. Ogni posto di Lavoro dovrà essere dotato di cronoscopi con indicazione elettrica ogni tre minuti e quadrante per 12 minuti

LIST OF CONTROLLED MATERIALS

A. 1st CATEGORY - LIST OF MATERIALS CONTROLLED BY AFLR(I)B

a. Controlled by Engineering Materials Committee.

I. Metals - Ferrous.

1. Cable & Wire
2. Machine & Tool steel
3. Structural Steel, sectional dimension exceeding mm.150
4. Foundry Pig.

II. Metals - Non ferrous.

5. Brass, unfabricated
6. Copper, unfabricated and scrap
7. Chromium
8. Lead in all forms
9. Nickel
10. Solder
11. Tin
12. White metal for bearings

III. Timber.

13. Standing timber in the two areas reserved for British and American services in Calabria.
14. Plywood

IV. Other Building Materials.

15. Paint
16. Pigments for paint
17. Varnish
18. Linseed & Linseed Oil

2358

I. Metals - Ferrous.

1. Cable & Wire
2. Machines & Tool steel
3. Structural Steel, sectional dimension exceeding mm.150
4. Foundry pig.

II. Metals - Non ferrous.

5. Brass, unfabricated
6. Copper, unfabricated and scrap
7. Chromium
8. Lead in all forms
9. Nickel
10. Solder
11. Tin
12. White metal for bearings

III. Timber.

13. Standing timber in the two areas reserved for British and American services in Calabria.
14. Plywood

IV. Other Building Materials.

15. Paint
16. Pigments for paint
17. Varnish
18. Linseed & Linseed Oil

2358

V. Electrical Materials.

19. Accumulators & Batteries
20. Copper and Aluminium conductors
21. Electric Light bulbs
22. Electric Light fittings
23. Motors
24. Portable generators
25. Switch gear
26. Transformers
27. Welding rods
28. Wires & Cables

-1-

T.14.

VI. Industrial Gases & Chemicals.

29. Gas bottles and containers
30. Ammonia
31. Caustic Soda
32. Calcium Carbide
- 32A. Soda Ash

VII. b. Controlled by Miscellaneous Purposes Committee

33. Hemp: raw, tow and manufactured (excluding binder twine & 3rd, 4th and 5th quality rope).
34. Leather and all leather articles.

B. 2nd CATEGORY - RESTRICTED MATERIALS (MATERIALS CONTROLLED WITH PRIORITY FOR CIVILIAN NEEDS).

1. Matches
2. Phosphate Rock
3. Tanning Materials
4. Cellulose for paper-making
5. Carbon Bisulphide
6. Cement (only for production of factories which are not under Allied Military Authorities control).
7. Soap

C. 3rd CATEGORY - MATERIALS CONTROLLED BY THE MINISTRY OF INDUSTRY COMMERCE AND LABOUR.

I. Metals.

1. Iron bars, iron plates, tin plates
2. Steel - in blooms, ingots, billets and slabs - other than special machine and tool steel.
3. Structural steel, sectional dimension of 150 mm. or less.
4. Aluminium in pig, ingots, plates or semifinished materials (rolled, drawing, powders, grains, etc.).
5. Scrap metals other than copper and lead already mentioned in category 1, para II.
6. Aluminium scraps.

II. Building Materials.

7. Trunks only of: fir, larch, pine and chestnut tree, average sectional dimension not less than 15 cms.
8. Sawn timber of the above mentioned species, average sectional dimension not less than 15 cms.

1. Matches
2. Phosphate Rock
3. Tanning Materials
4. Cellulose for paper-making
5. Carbon Bisulphide
6. Cement (only for production of factories which are not under Allied Military Authorities control).
7. Soap

C. 3rd CATEGORY - MATERIALS CONTROLLED BY THE MINISTRY OF INDUSTRY
COMMERCE AND LABOUR.

I. Metals.

1. Iron bars, iron plates, tin plates
2. Steel - in blooms, ingots, billets and slabs - other than special machine and tool steel.
3. Structural steel, sectional dimension of 150 mm. or less.
4. Aluminium in pig, ingots, plates or semifinished materials (rolled, drawing, powders, grains, etc.).
5. Scrap metals other than copper and lead already mentioned in category I, para II.
6. Aluminium scraps.

II. Building Materials.

7. Trunks only of: fir, larch, pine and chestnut tree, average sectional dimension not less than 15 cms.
8. Sawn timber of the above mentioned trees (small boards, planks, big planks, cuts etc.) with a thickness of 20 cm. or more.
9. Beams of the above mentioned trees regardless of manufacture (axed or sawn), sectional dimension not less than 15 x 15 cms.
10. Small beams of the above mentioned trees regardless of manufacture (axed or sawn), sectional dimension not less than 7 x 7 cms.
11. Slats of the above mentioned trees regardless to their sectional dimension and length.
12. Glass (sheet).

- 3 -

III. Chemicals.

13. Sulphuric acid (pure, to be employed for electrical accumulators.).

IV. Greases and solvents.

14. Greases for industrial purposes, excluding petroleum products (1).
15. Solvents; (carbon tetrachloride, trichloride, excluding petroleum products). (1)

V. Textile fibres.

16. Artificial textile fibres
17. Cotton, cloth and other textile products.
18. Binder twine and 3rd, 4th and 5th quality rope.

D. 4th CATEGORY - MATERIALS UNDER SPECIAL CONTROL.

1. Solid fuel
2. P.O.L. (Petroleum products, oils and lubricants), methane gas.
3. Newsprint and printing paper (for the Provinces given back to the Administration of the Italian Government and for Naples).

- (1) Petroleum greases for industrial purposes, petroleum lubricants and solvents must be considered as P.O.L. products.

LISTA DELLE MATERIE CONTROLLATE

A. 1^a CLASSE - MATERIE CONTROLLATE DALL' AFIR(I)B

a. Materie controllate dall' Engineering Materials Committee.

I. Metalli ferrosi

1. Funi e fili
2. Acciai speciali per macchine e utensili
3. Acciai profilati, la cui dimensione massima della sezione ecceda mm. 150.
4. Ghisa di seconda fusione.

II. Metalli non ferrosi

5. Ottone, non lavorato.
6. Rame, non lavorato e in rottami.
7. Cromo.
8. Piombo di ogni genere.
9. Nichel.
10. Leghe per saldatura dolce.
11. Stagno.
12. Metallo bianco per cuscinetti.

III. Legname.

13. Legname in piedi nelle due zone della Calabria riservato alle Forze Armate Britanniche e Americane.
14. Legno compensato.

IV. Altri materiali da costruzione.

15. Colori.

53-4

Committee.

I. Metalli ferrosi

1. Fili e fili
2. Acciai speciali per macchine e utensili
3. Acciai profilati, la cui dimensione massima della sezione ecceda mm. 150.
4. Ghisa di seconda fusione.

II. Metalli non ferrosi

5. Ottone, non lavorato.
6. Rame, non lavorato e in rottami.
7. Cromo.
8. Piombo di ogni genere.
9. Nichel.
10. Leghe per saldature dolci.
11. Stagno.
12. Metallo bianco per cuscinetti.

III. Legname.

13. Legname in piedi nelle due zone della Calabria riservato alle Forze Armate Britanniche e Aus. **2256.**
14. Legno compensato.

IV. Altri materiali da costruzione.

15. Colori.
16. Pigmenti per colori.
17. Vernici.
18. Seme di lino e Olio di Seme di lino.

V. Materiali elettrici.

19. Accumulatori e pile.
20. Conduttori di rame e di alluminio.
21. Lampadine elettriche
22. Minuterie elettriche
23. Motori.
24. Generatori portatili.
25. Interruttori.
26. Trasformatori.
27. Elettrodi per saldatura.
28. Fili e cavi.

- 2 -

VI. Gas Industriali Prodotti Chimici.

- 29. Bombole e recipienti per Gas.
- 30. Ammoniaca.
- 31. Soda caustica.
- 32. Carbone di calcio.
- 32a. Carbonato di Soda (Soda Solvay).

b. Materie controllate dai Miscellaneous Purposes Committees.

- VII. 33. Canapa: Grezzo, stoppa e manufatti (escluso lo spago per mistatrici-legatrici e la 3^a, 4^a e 5^a qualità di corda).
- 34. Cuoio e tutti i manufatti di cuoio.

B. 2^a CLASSE - PRODOTTI SOTTOPOSTI AL CONTROLLO CONDIZIONATO (PREORDINATA PER IL FABBISOGNO CIVILE ITALIANO).

- 1. Piazziiferi.
- 2. Fosfato di calcio. (Fosforiti)
- 3. Prodotti concimanti.
- 4. Cellulosa per carta.
- 5. Cemento (limitatamente alla produzione delle fabbriche che non sono sotto il controllo della Autorità Militari Allegate).
- 6. Solfuro di carbonio.
- 7. Sapone.

C. 3^a CLASSE - PRODOTTI CONTROLLATI DAL MINISTERO DELL'INDUSTRIA, COMMERCIO E LAVORO.I. Metalli.

- 1. Vergella, lamiera o latta.
- 2. Acciai in blocchi, lingotti, billette e bidoni diversi da quelli speciali per macchine e utensili.
- 3. Acciai profilati, la cui dimensione massima della sezione sia di 150 mm. o inferiore.
- 4. Alluminio: in fogli, lingotti, placche ed in semilavorati (laminati, trafilati, polveri granella, ecc.).
- 5. Rottami metallici comprendenti quelli di rame e di piombo compresi nella classe I^a, categoria II.
- 6. Rottami di alluminio.

B. 2^a CLASSE - PRODOTTI SOTTOPOSTI AL CONTROLLO CONDIZIONATO
(PREVIDENZA PER IL FABBISOGNO CIVILE ITALIANO).

1. Pianniferi.
2. Peseto di calcio. (fosforiti)
3. Prodotti corrotti.
4. Cellulosa per carta.
5. Cemento (limitatamente alla produzione della fabbrica che non sono sotto il controllo della Autorità Militari Alleate).
6. Solfuro di carbonio.
7. Sapone.

C. 3^a CLASSE - PRODOTTI CONTROLLATI DAL MINISTERO DELL'INDUSTRIA,
COMMERCIO E LAVORO.

I. Metalli.

1. Vergelle, lamiera e latti.
2. Acciai in forma, lingotti, billette e bidoni diversi in quelli speciali per macchine e utensili.
3. Acciai profilati, la cui dimensione massima della sezione sia di 150 mm. o inferiore.
4. Alluminio in pezzi, lingotti, piastre ed in semilavorati (laminate, trafilati, polveri granelli, ecc.).
5. Rottami metallici costituiti quelli di rame e di piombo compresi nella classe I, categoria II.
6. Rottami di alluminio.

II. Materiale da costruzione.

7. Tronchi delle specie comuni di abete, larice, pino e castagno di diametro medio non inferiore a cm. 15.
8. Legname segato delle anzidette essenze (travetti, tavole, tavoloni, panconi ecc.) della spessore da mm. 20 in sopra.
9. Travi delle anzidette essenze comunque lavorate (canne e segate) di sezione non minore di cm. 15 x 15.
10. Travicelli delle anzidette essenze comunque lavorate (estese e segate) di sezione non minore di cm. 7 x 7.

- 3 -

(segue : Materiale da costruzione)

11. Listelli delle sopradette essenze di qualsiasi sezione e lunghezza.
12. Vetri (lastre).

III. Prodotti chimici.

13. Acido solforico puro adatto per accumulatori elettrici.

IV. Grassi e solventi.

14. Grassi per usi industriali, esclusi i prodotti petroliferi (1).
15. Solventi; (tetracloruro di carbonio, trielina, esclusi i prodotti petroliferi (1)).

V. Fibre tessili.

16. Fibre tessili artificiali.
17. Filetti, tessuti ed altri prodotti tessili.
18. Spago di canapa per mietitrici - legatrici e la 3°, 4° e 5° qualità di corda.

D. 4° CLASSE - PRODOTTI SOTTOPOSTI A SPECIALE CONTROLLO.

1. Combustibili fossili.
2. P.O.L. (Prodotti Petroliferi, Olii e lubrificanti) Gas metano.
3. Carta da giornali e da stampa (per la provincia re-stituite all'Amministrazione del Governo Italiano a per Napoli.).

2355

-
- (1) I grassi per usi industriali ed i lubrificanti di origine petrolifera, nonché la benzina solvente vanno compresi fra i prodotti P.O.L. (della 4° Classe).

Subject: Signal Stores (Italian)

To : Land Forces Sub-Commission

Ref your X511/6 of 22nd February 1945.

1. The provisions of para 1-~~6~~ AFHQ Circular 13, 1944 Had not been overlooked but AFHQ Instruction of 31st January 1945 is regarded by this Sub-Commission as providing the exceptional direction referred to in that paragraph as modifying the general rule.

2. It is considered very important that Telecommunications Stores of a general character should not be used by individual services without the coordination of the US of S for PP.TT. as such use would inevitably involve overlapping projects with consequent waste.

3. If you are unable to agree with this reading of AFHQ instructions this case should, perhaps, be submitted to AFHQ for a ruling.

OGGETTO:

Funzionario economo

TRANSLATE

La sempre crescente penuria di prodotti finiti e materie prime necessarie per il funzionamento dei nostri servizi, avrebbe posto in rilievo la necessità di poter inviare nelle città liberate, con assoluta precedenza, un funzionario economo con lo scopo di acquistare, nei limiti delle locali disponibilità, i prodotti stessi nell'interesse della nostra Amministrazione.

Nell'allegare un elenco approssimativo di tali prodotti che in parte si riterrebbe possibile acquistare a prezzi ^{piu} convenienti se tale funzionario potesse attuare il programma sopracitato, si sarebbe gravi del parere di questa spett. Commissione circa l'attuazione dello stesso.

Restiamo in attesa di vostro cortese cenno di riscontro al riguardo.

T.14.38.CS

19th February, 1945

SUBJECT: Signal Stores (Italian)

TO: Land Forces Sub-Commission

1. Reference your X 511/6 of 17th February, 1945.
2. It cannot be agreed that the stores in question are to be regarded as the sole property of the Italian Army.
3. Circular No.29 A.F.H.Q. 1944 provides that stores held in Italian Army Depots may be released only on written authority of Land Forces Sub-Commission. For this reason your authority was sought for release of these stores to the Under-Secretary of State for P.T. in order to implement the provisions of para. 1 of A.F.H.Q. instruction of 31st Jan. 1945 by which the Under-Secretary of State controls Italian telecommunications stores owned by the State including Army Navy and Air Force stores other than those peculiar to the particular service concerned.
4. None of the stores in question is peculiar to Army use and I should be glad therefore to have the requisite written authority for their release to the Under-Secretary.

SUBJECT: Salvage Scrap - wire

TO: W.M.D. and I.F.O.W. Sub-Commission

Reference your WMD/51/416 of 16th February, 1945

1. P.B.S. has informed the Regional Telecomms. Officer in Toscana Region that no such wire is available at Leghorn.

2. If the wire is in reasonably good condition for use as wire, this Sub-Commission would like to bid for it, but as it is not possible to find where the dump exists in the time given, obviously the Italian Government cannot be committed to the purchase.

3. Could at least a week's notice be given please in future cases?

SIGNALS (BRITISH)

C.S.O. MEMORANDUM NO. 13

SECRET

CONTROL OF ITALIAN TELECOMMUNICATION STORES.

1. The Under-Secretary of State, Ministry of Communications, controls the issue of all State-owned Italian Telecommunication Stores. These include Italian Army, Navy and Air Force stores, other than those peculiar to the particular Service concerned.
2. Hitherto, such stores have not been issued except on the authority of C.S.O., 15 Army Group.
3. Authority to issue is now delegated to the Communications Sub-Commission of the Allied Commission in the case of general telecom stores, and to the appropriate Service Sub-Commission in the case of items peculiar to Services. Allied Commission may delegate its authority to the Italian Government provided that a reasonable proportion of general telecom stores is reserved for use in the part of Italy now in enemy occupation.
4. Similar conditions will apply to stores taken over, as further Italian territory comes under Italian administration.
5. Demands for Italian telecom stores needed by Allied units for Allied Force Projects should be made through normal channels to C.S.O., 15 Army Group or to C.S.O., AFHQ, depending on the area in which the project is being carried out.

NUMBER 29

9 December 1944

Removal of Materiel, Supplies and Stores from Italian Military
Depots 400 I
Rescission of Circulars II

I -- REMOVAL OF MATERIEL, SUPPLIES AND STORES FROM ITALIAN
MILITARY DEPOTS

1. Repeated instances have been reported of Allied troops removing materiel, supplies or stores from Italian Military Depots without proper authority. This is a violation of paragraph 1b, AFHQ Circular Number 13, 1944.

2. No materiel, supplies or stores will be removed from any Italian Military Depot, Factory, or Italian Military organization, by units or individuals of this command without express written authority of one of the following Sub-Commissions of the Allied Commission at Rome:

- a) For stocks from Italian Army Depots, Land Forces Sub-Commission (MWIA)
- b) For stocks from Italian Navy Depots, Naval Forces Sub-Commission.
- c) For stocks from Italian Air Depots, Air Forces Sub-Commission

2379
In an emergency only, authority may be granted by the appropriate Liaison Officer of one of the above Sub-Commissions of the Allied Commission, in the area where depot or organization is located.

11

= 2 =

00

3. The above does not preclude the right of operational commanders to make such use of the items mentioned as may be necessary for operational reasons only.

4. The appropriate Sub-Commissions, Allied Commission, will post notices Italian Depots, covering these instructions.

5. All commanders are directed to publish these instructions to members of their command, and to take appropriate action on any violations.

REF. : 681593/1100

In reply to : T.14.26.CS

SUBJECT. : Bronze and copper wires.

With reference to the above mentioned letter, it is pointed out that the stock of material specified by the Societa Metallurgica Corradini of Naples, for the transformation of bronze waste into 3mm wire, is of:

60 Kgs. of mine coal

100 Kgs. of Coke

0,500 Kgs of Cadmium for every 100 Kgs of bronze wire, as from the letter of our Ministry no. 681204/1100 dated 7th February.

Also to me that stock looks considerable, but, since I am not acquainted with the actual organization of the said Societa, I am not in the position to make any remark on the matter.

Considering the not great stock necessary, we hope it will be possible to obtain from your Commission authorization to use the fuel and the Cadmium already at the disposal of the Societa Corradini, for the execution of the concerned work.

ROMA

Con riferimento alla nota sopra distinta, si precisa che i quantitativi dichiarati dalla Società Metallurgica CORRADINI di Napoli, per la trasformazione di rottami di bronzo in filo da 3 millimetri sono Kg.60 di carbon fossile, Kg.100 di coke e Kg.0,500 di cadmio per ogni 100 chilogrammi di filo di bronzo, corrispondenti ai quantitativi indicati nella lettera di questo Ministero n.681204/1100 del 7 c.m.-

Anche allo scrivente detti quantitativi sembrano notevoli, ma non essendosi a perfetta conoscenza dell'attrezzatura attuale della Società in parola, non si è in grado di effettuare una critica fondata.

Dato il non grande quantitativo necessario, si spera che sia possibile ottenere da codesta On.le Commissione l'autorizzazione di usare il combustibi-

.../...

le ed il cadmio già in possesso della Società Corradini, per l'esecuzione del lavoro in oggetto.-

Si ringrazia sentitamente.-

HEADQUARTERS, ALLIED COMMISSION
Navy Sub-Commission APC 394

HSC/1630
7 February 1945

From: Navy Sub-Commission, Hq. Allied Commission.
To : Ministry of Marine - ROMA.
Subject: Control of Italian Telecommunication Stores.

1. The Ministry of Marine is informed that in accordance with the agreed policy of the Communications Board, Italy, Dr. Fano, Under-Secretary of State, Ministry of Communications, controls Italian Telecommunication Stores owned by the State, including Army, Navy and Air-Force stores other than those peculiar to the particular service concerned. He is responsible for maintaining accurate stock records.

2. Up to the present time, such stores have not been issued without the authority of the Chief Staff Officer, HQ. A.A.I. Allied Force Headquarters has now authorized the use of general Italian telecommunication stores in Italian administered territory on Italian projects, with the authority of the Communications Sub-Commission, A.C. and particular Service items with the authority of the Land Forces, Navy and Air-Force Sub-Commissions, whichever is concerned. The Communications Sub-Commission, A.C. has delegated its authority to the Italian Government, provided that a reasonable proportion of telecommunication stores are reserved for use in German Occupied Italy. The Navy Sub-Commission delegates its authority to the Italian Ministry of Marine, subject to the same conditions.

3. Similar authorization will automatically apply to stores now in Allied Military Government territory when it is returned to Italian administration.

R. W. ZINGOLI,
Commander, U. S. Navy,
for Chief, Navy Sub-Commission, AC.

8th February, 1945

Subject : Copper and Bronze Wire

all 36

To : H.E. The Under-Secretary of State for P.T.

1. Reference is made to your letter of 4th February, 1945 Prot. 681204/1100 Servizio VI Ufficio V. in which it is stated that in order to convert 3600 Kgs. of bronze scrap into 3 m/m wire Corradini will need:

Cadmium 18 Kgs.
Long Flame coal 2160 Kgs.
Coke 3600 Kgs.

The quantities of the last two items seem to us excessive especially as Corradini is at present working for the Armed Forces and presumably receiving supplies of both coal and coke.

2. A request is being forwarded to A.F.H.Q. to have this question investigated with a view to determining the need for the items and their availability.

17

1. Reference is made to instruction issued by AFHQ, Ordinance British ref DOS 3430 (ORD 13) dated 31st January 1945.
2. This Sub-Commission is fully in agreement with the text of this instruction but it is feared that implementation of instruction may be extremely limited.
3. As previous routine for handling such stores was covered by CSO, ACMF, Memo No. 45 of 12th February 1944, it would seem preferable for text of DOS 3430 to be issued as a CSO, AFHQ Memo or even as an AFHQ memo, since regulations apply to all arms and services.

Dear

You may wish to see the attached instruction from A.F.H.Q. if you have not already received it. I enclose also a copy of the old instruction to which it refers.

You will see that the Italian Government may use Telecommunication stores in Home Area as it likes, except where these have been projected as urgent requirements with A.F.H.Q. authority. We have devolved to the Government.

This is merely a personal copy in case an official copy reaches you late. The Italian Government has already been informed.

Yours sincerely,

Subject : Tools for Telecommunications Purposes at Poggioreale-
Naples - Railways store.

To : Regional Commissioner, Southern Region
Att: Major J.A.Bridgeman.

1. To see the attached request.
2. The history of this case is as follows:

The Military Railway service controlled this store at the time of a previous application from the Under-Secretary of State for P.T. MRS agreed to release a large proportion of the tools on 13th June, 1944.

3. It is not known whether the tools previously requested were all withdrawn, and obviously it should be checked first that this has been done. Your letter of 24th June to Capt. Phillips, Depot Commander, M.R.Service Stores Depot No.1175, Poggioreale referred. Would you check if possible please?

4. Can you ascertain whether the new demand (copy attached) refers to stores for which authority has never been given by M.R.S. for withdrawal?

5. Is M.R.S. still in charge of this store, or do you think that no military unit is likely to be concerned with these stores locally. Any other information about the stores could be useful.

RESTRICTED

OSO, ACMP, MEMORANDUM NO. 45

Control of Italian Stores

12 Feb 44.

1. In accordance with the agreed policy of the Communications Board (ITALY), Lt. Fano, Under Secretary, Italian Ministry of Communications, will now control all Signal stores owned by the State and the Italian Army, Navy and Air Ministries. He will submit to OSO ACMP a complete list of all stores held, and will be responsible for maintaining accurate stock records in future.
2. Stores will not be issued without the authority of OSO ACMP.
3. Demands for Italian stores will be passed through the normal channels to OSO ACMP who prepares release orders in triplicate. One copy will be given to the unit requiring the stores, one copy will be passed to the Italian Signal Park or depot concerned who will prepare the stores for issue, and the third copy will be sent to Lt. Fano, for record purposes.
4. The unit drawing the stores will acknowledge receipt on the Signal Park copy of the release order.
5. To reduce the amount of work involved by numerous demands for small quantities of minor stores, arrangements may be made to issue reasonable stocks of certain items to the OSO or Mission concerned. In such cases all stores released will be removed from Depot or Park in toto by authority to whom released, as Italian storekeepers cannot be expected to run sub accounts.
6. This procedure will also be followed in respect of demands for stores by Italian forces, and issuance will only be made against projects or demands sponsored by the appropriate mission or Allied representative.
7. It is probable that at a later date it will become convenient

2. Stores will not be issued without the authority of CSO ACMP.
3. Demands for Italian stores will be passed through the normal channels to CSO ACMP who prepares release orders in triplicate. One copy will be given to the unit requiring the stores, one copy will be passed to the Italian signal park or depot concerned who will prepare the stores for issue, and the third copy will be sent to Mr. Paro, for record purposes.
4. The unit drawing the stores will acknowledge receipt on the signal park copy of the release order.
5. To reduce the amount of work involved by numerous demands for small quantities of minor stores, arrangements may be made to issue reasonable stocks of certain items to the CSO or mission concerned. In such cases all stores released will be removed from Depot or Park in toto by authority to whom released, as Italian storekeepers cannot be expected to run sub accounts.
6. This procedure will also be followed in respect of demands for stores by Italian forces, and issues will only be made against projects or demands sponsored by the appropriate mission or Allied representative.
7. It is probable that at a later date it will become convenient to invest C.S.O. I or C.I.M.I.V. with the authority to make releases of Italian stores.

Subject : Italian Stores - Salerno

To : The Under-Secretary of State for PP.TT.

1. With reference to your letter No. 681154/1122 of 29th January, although efforts are being made to have all Italian telecommunications stores in Italian Government territory handed back to your full control, the matter has not yet been finally settled. Accordingly the existing procedure still holds good.

2. Stores can only be released either for individual projects or for maintenance over a period. The quantities shown at Salerno are too great for a general maintenance release. If you wish a proportion released however, this will be done on receipt of your list of maintenance requirements or requirements for individual construction projects.

Ref. N^o. 681154/1122.

29th January 1945.

SUBJECT:- T.T. materials at Constructional
Circle of Salerno.

The Constructional Circle of Salerno has informed us that the t.t. materials, as per attached list, were blocked by the "Signals Office" at the time of the landing and occupation of that city.

As, owing to lack of materials, the aforesaid Circle cannot provide for the urgent and indispensable t.t. lines maintenance jobs, would you kindly revoke the above provision.

OGGETTO:

Materiali T.T. presso
il Circolo Costruzioni Salerno

Il Circolo delle Costruzioni di Salerno ha fatto conoscere che il materiale t.t. di cui all'unito elenco, fu bloccato dal "Signal Office" al momento dello sbarco e della occupazione di quella Città -

Poichè, per mancanza di materiali, il detto Circolo non può provvedere agli urgenti ed indispensabili lavori di manutenzione delle linee t.t., si prega codesta Commissione di volersi compiacere di revocare il provvedimento suddetto.

Il Sottosegretario di Stato

(Fino)

SUBJECT: Recovered Italian Army Signal Material.

TO : Headquarters Allied Commission
(Attn, Director Communications Sub-Commission
AC. APO 394.)

1. Signal Intransit depot Naples turned over to this office 5 boxes of test sets, motors and some copper wire.
2. Attached is a complete list.
3. All items are old, appear to be out of working condition and certainly of no use to the Allies.
4. These items are temporarily in the store room of Circolo Naples.
5. Recommend these items be turned over to Signals of the Italian Army Naples.

MATERIALE IN 5 CASSE DAL SIGNALS IN TRANSITO A NAPOLI.

- TRE MACCHINE PER LA GENERAZIONE DELL'ENERGIA ELETTRICA (dalle caratteristiche esterne sembrano due dinamo ed un motorino);
- UNA VALVOLA TERMOIONICA PER APPARECCHIO RADIO TRASMITTENTE (dalle caratteristiche esterne appare bruciata);
- UN PANNELLO DI APPARECCHIO RADIO MILITARE (sembra di un apparecchio per trasmissione);
- TRE TELEFONI DA CAMPO (due con custodia metallica ed uno di legno);
- UN APPARECCHIO PER MISURA DI RESISTENZA ELETTRICA DI CONDUTTORI (ohmetro con dinamo);
- SEI ROLLI DI CONDUTTORI DI RAME COPERTO CON ISOLAMENTO LEGGERO (isolamento in carta amianto, ciascuno del peso di circa Kg. 20).

MATERIAL IN 5 BOXES FROM SIGNALS INTRANSIT NAPLES.

- THREE SMALL GENERATORS (two dynamos and a motor);
- A RADIO TUBE (it appears that this tube is burned out);
- A SECTION OF A MILITARY RADIO;
- THREE FIELD TELEPHONES (two are placed in iron boxes and one in a wooden box);
- A MEGGER (a dynamo);
- SIX ROLLS OF COPPER WIRE (each roll weights 20 Kg.).
