T.14B.119.CS 21th August, 1945

SUBJECT: Allied Stores for Italian Government.

TO : Under Secretary of State for PP.TT.

1. British held Stores on the attached lists may be made available for sale to the Italian Government, if you wish to purchase.

2. Kindly state which items you wish as soon as possible.

3. It is not possible to give prices at present.

4. As the material on schedule B is surplus to the requirements of N°1 Underground Cable Company, probably Capt Burus at Bologna will be able to give more details of the plant.

H.H.SCUDDER,
Lt.Col.Sig.C.
Director.

SUBJECT: Allied Stores for Italian Government

TO: C.S.O., A.F.H.Q. (Signal Supply)

Reference Combined Signal Project AFHQ/49 - Tabulation B.

1. In the above list, the following U.S.A. item appears:

"Item 5 Wire, W-122 ft 24,000".

2. This item was requested from P.B.S. Leghorn, but the A.C. Officer concerned was recently informed that the item had been cancelled as the wire was not available at the first time of demand.

3. Does this mean that the Allied Commission should place another requisition for the wire on A.F.H.Q.?

4. If so, does the same apply to Items 6 and 7, Switchboard cable, which have not yet been collected?

5. Both items are ugently required.

T.14.B.114.CS 9th August, 1945

SUBJECT: V.F.Telegraphs

TO: Under-Secretary of State for P.T.

1. In a conversation with an officer of A.F.H.Q. it was found that certain S - D British Army V.F. telegraph equipments were surplus to requirements and were likely to be sent out of Italy.

2. A request was made for some of these items as they would be exceedingly useful in Italy. They will have to be purchased by the Italian Government.

3. There was no opportunity to consult the Italian Government before the equipment was demanded owing to the urgency, but it is presumed that the Government will accept them on sale terms. Probably about nine pairs of terminals will be available.

4. The equipment provides a duplex telegraph circuit on any telephone circuit (without echo suppressors) by filtering out the band 1620-1920 cycles from the speech band. This is further sub-divided into 1620-1740 cycles and 1800-1920 cycles, one band being used for either direction. Teleprinters are usually used, but Teletype, Baudot, hand or automatic morse may be used.

5. Information and diagrams will be obtained.

TRANSLATION BY SE[illegible]N

SUBJECT. : T„ansmitters for Press service

As you know,actually the PT Administration is making use for the Press service of 3 transmitters,of which two are radiotelegraphic with a nom'nal power of 1Kw.,and one is radiotelegraphic and radiotelephonic with a nominal power of 3 Kws. They are installed in the radiotransmitting station of Rome Torrenova,belonging to the Italcable Company.

Since that,so as to be enabled to carry out the service in question,our Administration should need to have at its disposal its own transmitters,and since that,on the other hand,it is understood that the PWB is well disposed to effect the concession,would you please see if it is possible for you to purchase from PWB those equipments for yourselves,and then pass them to the PT Administration,as it has already been done for other stores.

Re. the price for the purchasing of the numerous apparatus,taking into account the actual value of same,the respective materials for antenna and the spare valves,this Administration is disposed to pay 500.000 Lire.

A kind and quick answer would be very much appreciated.

The Minister Scelba.

OGGETTO Trasmettitori per servizio stampa.

Come è noto, attualmente l'Amministrazione P.T. utilizza per il Servizio Stampa 3 trasmettitori, due radiotelegrafici della potenza nominale di 1 Kw ed uno radiotelegrafico e radiotelefonico della potenza nominale di 3 Kw, di proprietà del P.W.B. ed installati nella stazione radiotrasmittente di Roma Terreneva della Società Italcable.

Poichè, per effettuare il servizio in questione, l'Amministrazione ha interesse a disporre di propri trasmettitori e poichè, d'altra parte, sembra che il P.W.B. sarebbe disposto ad effettuarne la cessione, si prega Cotesta Commissione di

ALLIED FORCE HEADQUARTERS
ORDNANCE (BRITISH)

Subject:-Telegraph Poles.

Ref:DOS.8841 (Ord.2/13)
Tel:Freedom 142
18 August '45.

DADOS Moves.

1. In order that the clearance of 35 AOD may be accelerated in accordance with DOS expressed, wish a rail bid for movement of 2000 Tons of telegraph poles from ANCONA to PESARO at highest priority is requested.

2. It should be noted that flats will be needed and notification of acceptance of bid should be made to COO 35 AOD and Director of CIRCULO at ANCONA, who is arranging acceptance at PESARO.

3. A rate of movement of 700 Tons per week is suggested as target.

T.14.B.121.CS

21st August, 1945

Dear Taylor,

I believe there has been some misunderstanding on the subject of telegraph repeaters. The repeaters we are trying to get are the ten originally released to us last March but which we have never been able to get.

They were released to us by teleram but we have been unable to get release from the depot concerned, who refuse to hand them over. We cannot find the reason for this, as they are controlled items officially released.

Apparently Major Hawker of this Sub-Commission, while I was travelling, thought you were concerned with the release hence his reference to you, but I have told him that A.F.H.Q. deals with the actual release.

Yours Sincerely,

H.T.M. MILLAR

HQ MTOUSA, OCSigO, APO 512, U. S. ARMY - 3 August 1945.

TO: Director, Headquarters Allied Commission, APO 394, U.S.Army.

1. A new release, S-2023, consignee copy attached, has been published to make available items formerly authorized on release, S-1878.

2. Cancellation of release, S-1878, was effected because Peninsular Base Section was unable to contact anyone desiring to make pickup and because of the undue length of time consignee held release without taking the necessary action to obtain released items. For reasons stated above this headquarters was led to believe the items were no longer desired.

3. It is desired that action be taken by Headquarters, Allied Commission for immediate pickup of items now being made available on release, S-2023.

Ref:DOS.8341 (Ord.13)
Tel:Freedom 142
25 July '45.

CAPSO, MAAF.

Further to 4757/4 of 7 July '45, and conversation THOMAS-COMTES of 24th July '45.

1. Arrangements are being made to dispose of the 14 pr 40 cable at CERVARO to the Allied Commission ROME.

2. A rail bid to move 1200 tons of cable at 60 ton per day from CERVARO to ROME in the period commencing 6 August is being made by this Directorate.

3. It is requested that the necessary arrangements to provide a loading party and to supervise marking and despatch of the cable may be made by the local Air Fmn. Signals unit.

4. 4 Coy. 6 Air Fmn.Signals will be notified direct of acceptance of the bids by 1st August and weekly thereafter. Upon receipt of this notification they should contact local RTC and arrange provision of waggons.

HEADQUARTERS ALLIED COMMISSION
APO 394
Communications Sub-Commission HTWM/ec

T.14B. .CS 30th July, 45

SUBJECT: Sale of wire to Italian Government.

TO : Sig.O., PBS.

Reference your AG400.3291 BPSIG of 23 June.

1. It is regretted that the shipping tickets cannot be signed in their present form as they do not apparently represent fact.

2. The Italian Government though ~~undebited~~ undebited for the concession of a supply of wire, can hardly be expected to pay some 80,000 lire toomuch to the Allies to straighten out an accounting detail, and, in fact, will agree to pay only for the amount they have specified as received.

3. In view of the fact that coils are not apparently normally weighed, it can be expected that some discrepancy may occur. The only fair alternatives would therefore be either to sell the wire by the coil, or to write off the discrepancy as a difference between approximate book entry weight and actual weight. In the first case, a certification of coils received would be enough.

4. The matter is quite important as it may occur in other future cases.

HEADQUARTERS ALLIED COMMISSION
APO 394
Communications Sub-Commission HTWM/ec

T14B. .CS 30 July, 1945

SUBJECT: Allied Stores for Italian Government.

TO : Regional Commissioner, Emilia Region (Att.Lt.Rushing)

Reference your EML (Telecoms of 23 July)

1. Copy of AFHQ/49 is attached. Please see U.S. material list in Tabulation B and note that items 3,4 and 11 to 21 should be monthly recurring demands.

2. The difficulty you were faced with however as regards recurring demands is due to the following. The first copy of AFHQ/49 was badly printed in places and in note 3 of Tabulation B (U.S. items) the words "11 to 21" were read as "11 and 21". Accordingly demands for items 12 to 20 were entered in full in requisition CSAI. Later, when the requisition CSA9 was being prepared, a clear copy of AFHQ/49 was used, and monthly demands were made for items 12 to 20. Meanwhile however the full amounts were actually received.

3. In requisition CSA9 therefore the third, fourth, fifth, sixth, and seventh items should be deleted. In future, only items 3,4,11 and 21 will be recurring. This lines up with your findings at the PBS store. It is regretted you have had unnecessary trouble.

4. No receipts or shipping tickets have yet been received from you for the following materials shown on requisition CSAI.

SUBJECT: Allied Stores for Italian Government.
TO : Director, Communications S/C, Hq. AC.

see 73 sec 71

Reference your letters T.14.B.--.CS., T.14.B.71.CS. and T.25.95.CS, all of 23 June 45.

1. Attached please find shipping ticket and receipt (Inclosure No.1) for that part of the material drawn on the requisition referred to in the first letter. This was brought to Bologna in a vehicle released to Italian Gov't and for which papers are attached (Inclosure No.2).

2. The remaining items on the above requisition were not expendibles and had been previously drawn (Desicant, Bandage, Tape TL-83, Tape 2 in., and Twine).

3. As the original copy of AFHQ Release 49 was sent to the archives along with other files of the Toscana Telecoms Office it is difficult to say exactly what the expendible items are, but it is believed that only Solder WN-31, Solder WN-33, Tape TL-94 and Sleeve FT-98 are involved. Will you please furnish us another copy of AFHQ.49? With this, a check at the PBS Signal Depot will give an exact picture of material yet to be drawn.

4. It will be noted (Inclosure No.2) that 75 cartons Sleeve FT-98 were drawn leaving a balance of 150. As these items have been set aside for release to AC it is suggested that 150 cartons Sleeve FT-98 be requisitioned next time to avoid breaking into the crate.

2945

5. Reference your second letter above the Wire, Cross-connecting W-122 was not available originally and will have to be re-requisitioned since the item was zeroed-out on the original.

SUBJECT: Allied Stores for Italian Government

TO: Regional Commissioner, Emilia Region
Att: Major R.H.Ayre

Reference your TCS/TELECOMMS of 2nd June,1945

1. The following stores are still outstanding on Requisition CSAI. No doubt you will keep in touch with P.B.S. to ensure receipt.

2. Stock No.	Articles	Unit	Required Yet
1A 153	Wire .080	Mile	240
1A 187	Wire GI # 17 Seizing	lb.	100
1B 122-1	Wire Cross connecting W-122	Foot	24,000
3F2-405	Cabinet BE-70	EA	7
3H-4701-3	Rectifier	"	9
6N-4004	Paraffin 1C-4	lb.	400
6N-4102	Paste soldering, 2oz. can	EA	400
6N-4273A	Paster, MC-73A	Roll	100
6N-6016	Sleeve, FT-98	CTN	45
6N-8003	Stearine 1C-3	lb.	125
6R-38047	Tool equipment TE-47	EA	18

3. As regards your third paragraph, there is some difficulty in continuing to issue monthly requisitions. The object in issuing such requisitions is to prevent a drain on stores in any one month. Accordingly, two months supply cannot be requisitioned at once.

4/ The reason why another month's supply has not been requisitioned yet is because several of the items supplied on a monthly basis have not yet been met (see para. 2 above).

5. In future however, monthly requisitions will be issued for the items met during the month.

79-1

Subject:- Copper weld wire for the Italian Government.

Referring to your T.14.103.CS. of the 9th April, and further to our letter No.602834/4800 of the 14th April, we beg to inform you that to the Circolo of Naples were assigned only 44.421 Kgs. of copper weld wire instead of the proposed 50.000 Kgs.

Considering the needs of this Administration, we would be pleased if you would have delivered the balance of Kgs.5579 and, possibly, a larger quantity.

We take the occasion to inform you that it would be of great assistance if we could avail ourselves of about another thousand joint sleeves and some tongs for the fitting and closing of these tubes.

We await your courteous early reply.

Il Direttore Generale.

Risposta al f. N. T.14.103.C.S.
del 9-4 c.a.

OGGETTO Copper-weld wire per il Governo Italiano.-

Con riferimento al foglio sopra citato ed a seguito della nota n.602834/4800.F. del 14.4 c.a., si informa che al Circolo di Napoli sono stati assegnati Kg.44.421 di filo copper-weld in luogo dei 50.000 chilogrammi proposti.-

In considerazione del bisogno di questa Amm.ne, riuscirebbe gradito che venisse consegnato il quantitativo residuo di chilogrammi 5579 e, possibilmente, un quantitativo superiore.-

Nell'occasione, riuscirebbe anche molto utile poter disporre di un altro migliaio di tubetti per giunzione e qualche morsa per la trafila dei tubetti stessi.

Cagliari, 8 April 1945

Post & Telegraph
Administration

To: Allied Commission - Hq Sardinia Region
Engineer Liaison Officer with Allies
(Capt Caddeo)
Circolo Costruzioni T.T.
Cagliari

SUBJECT: Telegraph Material.

As a result of agreement reached between Ministry of Post and Telegraph and the Allied Hq in Italy, your Regional Hq consigned the following telegraph material to me; receipt is herewith acknowledged by on the behalf of Post and Telegraph Administration:

Copper weld wire	8793 kg.
Zam iron wire	1227 kg.
Wire, double, covered	4946 kg.
Cables with rubber insulation, various types	2694
Traverses	846
Insulators	6065
Braces, curved	354
Braces, rotating	310
Bolts, various sizes	970
Screws	632
Small braces	920

Since the removal of the Elmas liaison line has not yet been completed, the equipment recovered by the Italian military personnel assigned to such duty by your Hq, will be consigned to the Circolo delle Costruzioni of Cagliari which is authorized to acknowledge receipt for it on behalf of Post and Telegraph Administration.

Inspection of Palau-Olbia and Palau-S. Teresa di Gallura lines will take place 10 April 1945.

Ref. No. 683663-1100. 8th June 1945.

Subject: Salvaged material. ad 56

Reference your T.14B.56. of the 1st inst., we thank you for the information therein.

This Ministry, having to provide for the construction of the zinc plates for Italian batteries, requested by the Telegraph Offices to guarantee the telegraph service, of which this Administration is in urgent need, having exausted the reserves of same, would willingly purchase the 50 tons of zinc, available at the Base Salvage Stores of Torre Annunziata.

The transport of the material could be effected by rail.

The relative payment for same would be made on delivery of the zinc.

Please let ushave your kind acknowledgement, so as to issue the necessary instructions to the Circolo delle Costruzioni of Naples, which should arrange for the payment and withdrawal of the material in question.

OGGETTO: MATERIALE RECUPERATO

Si ringrazia vivamente della comunicazione data con la lettera sopra distinta.

Questo Ministero dovendo provvedere alla costruzione degli zinchi per pila italiana, richiesti dagli Uffici per garentire il Servizio Telegrafico, e dei quali zinchi quest'Amministrazione ha urgente bisogno essendo esaurite le scorte esistenti, acquisterebbe molto volentieri le 50 tonnellate di zinco disponibili presso il Deposito Recuperi Base di Torre Annunziata.

Il trasporto del detto materiale potrebbe essere effettuato a mezzo ferrovia.

Il pagamento relativo verrebbe eseguito all'atto della consegna dello zinco. 2731

T.14.86.CS 31st May, 1945

SUBJECT: Purchase of Cable

TO: A.F.H.Q., Sigs (Ord)
Att: Major Thomas

1. Major Thomas spoke to Major Hawker of this Sub-Commission regarding the availability of the following quantities of cable for possible sale to the Italian Government.

200 miles - 14 prs/40 lead covered cable(unarmoured) at roughly L 9 -10 -0 per 100 yds.
50,000 yds- 26/19 tape armoured cable
10,000 yds- 28/40 wire armoured cable.

2. The Italian Ministry states that it favourably considers the purchase, but in order to get the necessary financial permission it will be necessary to put up a technical case for the project, and for this reason would like to know the approximate price of each of the last two cables and to have a small sample of each of the three.

3. Can the above be supplied please.

1. Further to the meeting held in this office with Col. LaBrum and Major Gleason this is to confirm that you will receive within the next week line maps showing the lines now in use by the Allied Military which it is intended to turn over to Italian civilian staffs for maintenance and eventual operation. It is highly probable that at a later date the lines and probably a portion of the carrier and other equipment used will be offered for sale to the Italian Government.

2. The turn over would appear to be best effected in three stages.

a. Assignment of Italian personnel for training in operation and maintenance of equipment and maintenance of lines.
b. Operation and maintenance by Italian staffs with a skeleton Allied staff present.
c. Full operation and maintenance by Italian personnel.

3. In order to plan for carrying out the above it will be necessary for you to study the line diagram as soon as received in order to determine:

a. what personnel will be needed
b. from what organization such personnel will be drawn and what organization will be responsible as we must designate a responsible organization for each line or group of lines. Divided responsibility cannot be accepted.
c. what materials will have to be supplied from Allied sources to permit maintenance and operation by Italian staff.
d. whether such operation and maintenance can best be performed by contract or by having individual workers taken into Allied payrolls.

4. There will be a meeting in the office of this Sub-Commission on Monday June 4th, at 10.00 A.M. at which it is hoped you will be able to present all data necessary to formulate a definite plan for carrying out the work outlined above.

Declassified E.O. 12356 Section 3.3/NND No. 785015

T.24. .CS

26th May, 1945 Continued.

5. To assist you in preliminary study prior to receipt of line diagram it may be stated that the lines already listed in our letter 15th April, 1945 reference number T.24.67.CS, will form the major part of the lines to be taken over.

J.L.HENDERSON

Translation by C. Gardiner.

Ref. No. 1383/R. 24th May 1945.

Subject:- Purchase of cables.

We have taken due note, and thank you for your letters T.14.CS of the 13th and 15th inst., and beg to advise that this Administration has favourably considered the purchase of the 14, 26 and 28 pair cables.

So as to prepare, however, the necessary documentation to be submitted to the technical and economical consultive offices of this Ministry for their definite decision, we kindly request you to let us have:-

1. - The prices of the cables as specified at b) and c) of your letter of the 15th inst.

2. - A sample of each type of cable offered for sale.

FILE T.14 E/I wd.
26 MAR 1945

Confirming conversations WALKER - THOMAS.

1. A stock of 687 drums of lead covered and jute protected 14pr/40 cable is held at CERVARO railway siding (near ROMA). The length on each drum averages 950 yds making an approximate total of 370 miles.

2. This cable has been run through, repaired, dried out and tested by R Signals personnel.

3. This cable is no longer needed for military purposes in this theatre.

4. Please advise if the ITALIAN government would be interested in purchasing this cable. Basic price is advised as £9.12.0. per 100 yds.

5. Final disposal would, of course, be subject to War Office approval.

Office of the Chief Signal Officer

APO 512, U. S. Army
20 May 1945

SUBJECT: Proposed Sale of Certain U. S. Army Wire Facilities in ITALY, Sparanise to Minturno and Minturno to Terracina.

TO : Deputy President
Allied Commission
FOR: Communications Sub-Commission, APO 394
ATTN: Lieutenant Colonel H. H. Scudder

1. Due to changing military requirements, the wire facilities between Sparanise and Minturno are no longer excess to the needs of this theater. Advice has been received that these facilities will be required in connection with the recently established training program to be conducted in that area.

2. Whenever it is determined that the need for this line no longer exists and it is declared surplus by the War Department, it will be suggested to the Army-Navy Liquidation Commission that the advice of your office be sought in connection with the disposal thereof.

3. This office has also been advised that the wire facilities between Minturno and Terracina are part of the L of C and, as such, will be required indefinitely.

SUBJECT: Purchase of Cable.

TO : Ministry of Communications.

1. It is understood that the following cable will shortly be available for purchase from military sources:-

(a) 200 miles 14 pair lead covered cable (unarmoured)
(b) 10,000 yards 26/19 pair armoured cable.

2. Item (a) is cable similar to that used by the Allied forces to connect Bari to Foggia and might be useful to connect Foggia to Macerata or Ancona. Item (b) is suitable for submarine cabling, river crossing etc.

3. Please say if you have an interest in the above and if so this office will pursue the question of price etc.

J.L.HENDERSON,
Colonel,
Director.

2767

May Thomas rang today to say
price for (a) would approximately £9.10 per 100 yds.
Probably rather more than 200 miles available
(b) is 50,000 yds Cape armoured - Not guaddled.
also 10,000 yds 25/d.o wire armoured guaddled.

2nd May 1945. 44-1

Ref. No. 2200.

SUBJECT:- Purchase of Speranise-Minturno line.

see 29

Referring to your letter T.11B.29.CS of the 5th inst., and further to ours No.1368/R of the 10th inst., we beg to confirm that we had a survey made by one of our employees of the line in question, for the purpose of examining the best way of utilizing same in view of the traffic necessities.

As a result of that survey, we are examining the possibility of re-activating a telegraph/telephone circuit Rome-Velletri-Cori-Fondi- Speranise-Naples availing ourselves, where possible, of already existing lines. As in the Fossanova-Speranise stretch there is no polification, the line offered by you would be of great service.

Please, therefore, let us know, as urgently as possible, the procedure to be followed to obtain delivery of the line in question, and, as soon as possible, the conditions of sale.

Kindly also let us know the exact diameter of the wire on each stretch.

- Ufficio III° di questo Servizio VI° S E D E.-
- Ufficio Tecnico di Coordinamento S E D E.-

A seguito del foglio n.1368/R del 10 corr., si conferma che nei giorni scorsi, da parte di un Funzionario Centrale è stato effettuato un sopraluogo alla linea in oggetto, allo scopo di studiarne la migliore utilizzazione in vista delle necessità del traffico.

A seguito di tale sopraluogo, questa Amministrazione sta esaminando la possibilità di riattivare un arteria telegrafonica Roma-Velletri-Cori-Fondi-Sparanise-Napoli, appoggiandosi, ove possibile, su linee già esistenti. Poichè nel tratto Fossanova-Sparanise non esiste più alcuna palificazione utilizzabile, la linea offerta da codesta Commissione, riuscirebbe di grande utilità.-

Si prega, pertanto, far conoscere, con cortese urgenza, le modalità per la presa in consegna della linea in questione e, appena possibile, le modalità di

Declassified E.O. 12356 Section 3.3/NND No. 785015

TRANSLATED BY SELAN

SUBJECT: Segments for frequency generators.

TO : Allied Commission Communications S/C/

Reference is made to letter T.14.300S of 26/4/1945.

We thank you very much for your interest as regards the frequency generators for harmonic telegraphy. Will you please see if you can adhere to the following:

1. It is deemed opportune that, for a definit judgement on the seguents in question, further tests be carried out on another harmonic telegraphy system.

2. Two segments for frequency generators will be handed to your Sub-Commission by a person entrusted with this, by our Ministry. Will you please substitute the contacts there, taking care that the height of the contacts on the plane of the segments is 0.85 mms.

As soon as we get the segment repaired, we will make some brief functionning tests, and if the result is positive, we will as soon as possible communicate the numberrof segments necessary for the various harmonic telegraphy systems.

by order of
Underseoretary of State
Col. BOSCO.

File Tit 131

Requisition Procedure for Stores Supplied to Meet Disease and Unrest Conditions.

1. General: This procedure is not quite the same as the official ICE procedure, but it has been arranged with Finance S/C. (Col. Crawshaw) to suit the special conditions. (such as the fact that the above stores are received from Military Signal Stocks). This procedure will not apply to stores required for the general rehabilitation of Italy.

2. Procedure: Goods are divided into three categories:

a. British Controlled Items
b. British non-controlled items.
c. All American items.

To obtain supplies, authorised already by A.F.H.Q., G-5, under Combined Signals Projects, the following procedure is used:

Category(a)stores: A copy of the Combined Signals Project concerned is sent to this HQ. The controlled British stores shown therein will be received shortly afterwards with the relevant vouchers.

Category(b)stores: On receipt of the Combined Signals Project concerned with these stores, three copies of an indent for the non-controlled stores will be prepared, of which two will be sent to DADOS, Rome with a covering note referring to the Combined Signals Project.

Category(c)stores: A release note will be sent to this HQ. Four copies of a requisition will be prepared of which three will be sent to the Regional Telecomms Officer whose area includes the American stores depot concerned, with instructions to assist the Italiansto collect.

3. Receipts for American Stores:

Either a responsible Italian official may sign the American receipt for stores at the American Dept. concerned, or the Regional Telecomms Officer may do so, demanding at once from the Italian official a signed receipt, fully describing the stores by code numbers, etc.

4. Receipts for British Stores:

When British stores are received, the Delivery Vouchers should be removed before the stores are passed to the Italian Government. On collection of these stores by the Italians usually from this HQ. a receipt should be obtained from the Italian Government, showing the full descriptions and codes nos. of the stores.

Declassified E.O. 12356 Section 3.3/NND No. 735015

5. Delivery Vouchers and Shipping Tickets, etc.

Shipping tickets for American stores should be sent by Regional Telecomms Officer, along with associated Italian receipts, to this Sub-Commission. If an Italian has signed the American Depot receipt instead of giving a separate receipt this should be stated.

6. After collection of any item by the Italians, the delivery voucher or shipping tickets should be sent by this S/C. with the appropriate Italian receipts to the Finance S/C. (Att: Col. Banning). If an Italian has signed an American Depot receipt on the spot and there is therefore no separate Italian receipt this should be stated to the Finance S/C.

7. Each month the Italian Government should prepare a list of stores received from Allied sources and send to this S/C. whence it should be passed to the Finance S/C. after being certified as O.K.

8. The schedule associated with the relevant file should be kept up-to-date as each step is taken.

H.T.W.MILLAR
Lt. Colonel,
Chief Telecomms
Officer.

SUBJECT: Cost of Copper and Copper-Steel Wire

TO: Under-Secretary of State for P/T.

With reference to your letter No.1365/R of 3rd April, it is probable that the cost of the above wires will not exceed the following prices. These should be used only for the purposes of rough estimates since firm prices cannot be obtained yet from Britain or America, the above prices being based on local figures.

Copper-Steel Wire - .080:	.281	dollars per pound.
Copper Wire - 3 mms. :	.388	dollars per pound.

T.14.35.08 12th April, 1945

SUBJECT: Sale of Allied Line to Italian Government

TO: Major J.A.Bridgeman, A.M.G. Naples,Commune.

1. The Italian Government has been offered the route Sparanise - Mintarno on sale terms and will buy it.

2. When the offer was made by this HQ. to the Italian Government, the latter stated that you had informed the Circolo of Naples that the complete line Capua-Terracina would be dismantled by the Allied Command.

3. If you believe this to be so, would you kindly find out from Major Gleason, A.F.H.Q. whether it is the intention to offer the wire on the Mintorno - Terracina section of route to the Italian Government, as wires on this section would be very valuable.

OGGETTO Acquisto linea Sparanise-Minturno.-

U R G E N T E

1.- Con riferimento al foglio sopra citato, si comunica che questa Amministrazione è disposta ad acquistare la linea t.t. tra Sparanise e Minturno in "copper weld," e si rimane in attesa di conoscere le condizioni.-

Intato, si assicura di avere incaricato un funzionario di questo Ministero, che si trova nella zona per ragioni di servizio, di ispezionare detta linea insieme ad un Funzionario del Circolo di Napoli.

2°- Il maggiore BRIDGEMAN ha, d'altro canto, informato il Circolo di Napoli, fin dalla fine dello scorso mese, che i Comandi Militari Alleati provvederanno allo smantellamento della linea telegrafonica Capua-Terracina.- 2729

Si gradirebbe ora conoscere:

../..

Lie 29.35, 40.42.

Declassified E.O. 12356 Section 3.3/NND No. 785015

a) se la linea offerta con il foglio sopra citato costituisce oppur no una parte della linea che dovrebbe essere demolita;

b) se è possibile, in ogni caso, evitare tale smantellamento e cedere la linea stessa a questa Amministrazione che ne ha gran bisogno.

Comunque, riuscirebbe molto utile la cessione della tratta Pontone-Terracina, ove in un primo tempo potrebbero essere posati quei conduttori che collegavano a Littoria tutti i centri di tale provincia, situati tra Terracina e Formia, salvo poi a provvedere, appena possibile, al ripristino dell'intera linea fino al fiume Volturno.-

Col ripristino di tali circuiti, si eviterebbe inoltre la sicura asportazione dei pali da parte di terzi, in attesa che la linea venga riutilizzata.

Si rimane in attesa di un cortese sollecito cenno di riscontro.-

SUBJECT: Sale of Allied Stores to Italian Government

TO: Under-Secretary of State for P.T.

1. The following stores have arrived at this HQrs. for the Italian Government and should be collected as early as possible as space for storage is small. The men collecting the stores should call first at this Office (Room 46, 4th Floor):

a.	Solder, Tinman's Soft Grade B	-GB 10827	504 lbs.
b.	Tape, Insulating, 3/4 inch.	-WB 0968	12 lbs.
c.	Paraffin Wax	-	112 lbs.
d.	Spunyarn Hemp Tarred 3 yarn	-HA 0926	20 lbs.

2. A receipt should be given with the items, described as above.

3. The solder can be used now. The other items are for N.Italy for civilian cable joints. (not for Col.Keith's work).

4. The Stores Voucher has not been found as it is probably buried in the Paraffin Wax box. If this is found kindly send it to the contents of the Office.

T.14.B.29.C8 5th April, 1945

SUBJECT: Purchase of Wire - Minturno Sparanise

TO: Under-Secretary of State for P.T.

1. The U.S. open wire line between Sparanise and Minturno, point A to point D on the attached sketch, is not now required by the Allies. It can be sold for Italian use.

2. The route would have to be purchased complete with poles, wire, etc. in the conditions existing at the time of purchase.

3. The construction was as follows at the time of the erection of the route.

A to B - 8 Pin arms } 700 - 30 ft. Allied poles.
B to C - 10 " " }
C to D - 5 circuits on existing Italian concrete poles.
Some 22o miles of .080 copper weld and associated small stores.

4. Kindly inform this Hq. as soon as possible whether you wish to purchase or not. Apparently SET is interested in purchasing if you do not do so.

3 April 1945

SUBJECT: Surplus Open Wire Lines, SPARANISE-MINTURNO, ITALY.

TO : Director, Communications Sub-Commission, Allied Commission, APO 394, U. S. Army.

1. The Peninsular Base Section has completed a survey of the U. S. open wire line between SPARANISE and MINTURNO and has declared the line between Point A and Point D, indicated in red on the attached map, surplus and in excess to the foreseeable needs of this Theater.

2. Approximately 700 thirty foot poles, 220 miles of .080 copperweld wire, and component materials, were used in building this line. The construction was as follows:

Point A - Point B -- 8 pin lead on U. S. poles.
Point B - Point C -- 10 pin lead on U. S. poles.
Point C - Point D -- 5 circuits mounted on existing Italian concrete poles.

3. Informally, PBS indicated that S.E.T. is interested in purchasing the above open wire line, though no written commitment has been received.

4. It is requested that you contact the proper Italian authorities to determine if they will purchase this line on a "where is, as is" basis. If it is found that the Italian authorities are not interested, we will order this material salvaged immediately to alleviate unavoidable pilferage.

In reply refer to AG 602.2/006 D-O

28 March 1945

SUBJECT: Proposed Sale of Certain United States Army Wire Communications Facilities in ITALY, Civitavecchia to S. Marinella

TO: Deputy President
Allied Commission
FOR: Communications Sub-Commission, APO 394
Attention: Lieutenant Colonel H. H. Scudder

1. All of the items shown on the attached line route diagram have been declared surplus by the War Department which has authorized disposition of this property in accordance with paragraph c (2), Section VI, War Department Circular No 379, dated 19 September 1944.

2. Authority to consummate the disposition of the facilities referred to above is delegated to Lieutenant Colonel H. H. Scudder, (A), Communications Sub-Commission, Allied Commission.

3. The property will be sold to the Italian Government and payment thereof is to be evidenced by a credit entered on the books of account of the Allied Commission in favor of the United States Government against the Italian Government in the amount agreed upon. A record of this transaction will be maintained on the books of the Fiscal Director, this headquarters.

4. The property will be released to agencies designated by the Italian Government. Shipping tickets and the contract of sale will be executed in eight copies and will be distributed as follows:

a. Original and three copies will be forwarded to this headquarters, two of which will be transmitted to the War Department.

b. A duplicate original of the contract and one set of shipping tickets will be delivered to the purchaser at the time of execution of the contract.

c. One copy of the contract and one set of the shipping tickets will be retained by the Communications Sub-Commission, and one copy of each will be forwarded to the Chief Signal Officer, this headquarters, for his records.

d. One copy of the contract and one set of shipping tickets will be furnished the Chief Accountant, Allied Commission.

CONFIDENTIAL

Declassified E.O. 12356 Section 3.3/NND No. 785015

5. Representatives of the Office of the Chief Signal Officer will prepare the shipping tickets and the form of contract and will render you such technical and legal assistance as may be necessary to consummate the transaction.

6. It is requested that Colonel Scudder make immediate arrangements for a conference between himself, representatives of this headquarters, and representatives of the Italian Government for the purpose of discussing the terms of sale, and that he advise this headquarters as soon as possible of results.

T.14.B.22.CS 28th March, 1945

SUBJECT: Surplus Allied Signal Material

TO: H.E.The Under-Secretary of State for P.T.

1. With further reference to our letter of 2nd March, 1945 reference T.14.A.8.CS we have been informed that the line material of the line Civitavecchia - S. Marinella has now been delcared surplus. You have full details of material involved and it is suggested that you arrange to have this line inspected so as to be in a position to conclude contract for its acquisition.

2. A meeting will be held in the offices of this Sub-Commission on April 4th, at 10.00 A.M. and it would be appreciated if you could be present so as to sign necessary papers. The procedure will be the same as was followed for the sale of surplus material in Sardinia.

3. In our opinion the only practical way to handle such sales is for the Administration to make all purchases, later disposing of material to other agencies at its discretion.

400.703/2

SUBJECT: Sale of Surplus Signal Material.

TO : Director, Allied Commission, Communications Sub-Commission, APO 394 U. S. Army.

see 13

1. Reference is made to your letter, subject as above, file T.14.B-12CS, dated 9 March 1945.

2. The signal material needed to consumate the sale of the surplus open wire plant in SARDINIA has been made available by this Headquarters on Signal Release, S-1154, dated 14 March 1945, as follows:

4000 each	6N5614 Sleeves
4 each	6R22743-A Sleeve Compressing Tools, TL-143-A.

3. It was necessary to substitute the 6N5614 for the 6N5812-4 sleeve requested. Both of these types of sleeves are used in splicing .080 CW wire, but, the sleeve supplied is more adaptable for use with the sleeve compressing tool, TL-143-A, which has been released.

UNITED STATES ARMY
APO 512

5 March 1945

SUBJECT: Proposed Sale of Certain United States Army Wire Communication Facilities in Sardinia

TO: Deputy President
Allied Commission
Attention: Communications Sub-Commission
For: Lt Colonel H. H. Scudder

1. All of the items shown on the attached line route diagram have been declared surplus by the War Department which has authorized disposition of this property in accordance with paragraph c (2), Section VI, of War Department Circular Number 379, dated 19 February 1944.

2. Authority to consummate the disposition of the facilities above referred to is delegated to Lt. Colonel H. H. Scudder (A), Communications Sub-Commission, Allied Commission.

3. The property will be sold to the Italian Government and payment thereof is to be evidenced by a credit entered on the books of account of the Allied Commission in favor of the United States Government against the Italian Government in the amount agreed upon. A record of this transaction will be maintained on the books of the Fiscal Director, this headquarters.

4. The property will be released to agencies designated by the Italian Government. Shipping tickets and the contract of sale will be executed in seven copies and will be distributed as follows:

a. Original and three copies will be forwarded to this headquarters, two of which will be transmitted to the War Department.

b. A duplicate original of the contract and one set of shipping tickets will be delivered to the purchaser at the time of execution of the contract.

c. One copy of the contract and one set of the shipping tickets will be retained by the Communications Sub-Commission and one copy of each will be forwarded to the Chief Signal Officer, this headquarters, for its records.

Communications Sub-Commission HHS/epc

T.14.B.12.CS 9th March, 1945

SUBJECT: Sale of Surplus Signal Material

TO: C.S.O., A.F.H.Q.

1. In connection with sale of surplus signal material located in the Island of Sardinia, the Ministry of Posts and Telecommunications pointed out that the 0.80 copperweld wire was of no use without sleeves and crimping tools.

2. It is requested that release be made covering:

4CCC sleeves 0.80 stock number 6 N 5812-4
4 Crimping tools for above.

It is understood that this material can be made available from theatre stocks.

3. In view of the tie-up of the release of this material with sale of surplus United States material it is doubted that it would be advisable to include as an addition to combined signal project AFHQ/49.

4. Communications Sub-Commission would be responsible for accounting for delivery to Ministry of Posts and Telecommunications would be made in our usual way by delivery of priced shipping ticket to Finance Sub-Commission A.C.

SUBJECT: Surplus Signal Material

TO: H.E. The Under-Secretary of State for P.T.

1. Inclosed herewith for your files are the following documents covering purchase by your administration of signal material on the Island of Sardinia which has been declared surplus.

a. 2 copies of agreement with attachments.
b. 1 copy each of shipping tickets covering:

1. Item 1. open wire line Palau - Santa Theresa
2. Item 2. " " " Olbia - Palau
3. Item 3. " " " Elmas Tie Line
4. Item 4. " " " Elmas - Decimo-Villacidro
5. One lot salvaged field wire and rubber covered cable.

2. Items 1. and 2. are lines which we understand are of interest to the Italian Navy. Items 3. and 4. are in the process of being dismantled and materials are being stored in Allied Commission storage space in Cagliari together with the salvaged field wire and rubber covered cable.

3. Allied Commission and Allied Garrison are being informed that representative of your organization will present himself shortly to take in charge the material covered by the agreement. It is suggested that this be done as soon as possible as Allied Commission representatives in Sardinia are being withdrawn as you know.

4. Copies of documents are being forwarded to Finance Sub-Commission A.C. for action in accordance with paragraph 5 of agreement.

SUBJECT: Frequency Generator Governor Contacts.

TO: Under-Secretary of State for P.T.
Att: Capt. Gigli

1. The frequency generator governor parts supplied by you are enclosed. The iron contacts have been removed and substituted by contacts made of copper - palladium. These are used in frequency generators of the British Telegraph System.

2. Please fit these parts as soon as possible and after keeping them in operation for a suitable period, report on their suitability for your machines. Obviously, checks will have to be made by experienced technical staff.

3. Should they prove to be suitable, arrangements will be made for contact discs to be supplied for fitting on site. Ordinary soft solder should be used for this purpose - brazing is unnecessary.

4. Please state number required for two years service.

9th February, 1945.

Memorandum for:-

A.F.H.Q. (G-5)
(Communications Sub Commission)

Subject: V.F. Generator Governor Contacts

Italian Telegraph System

1. Reference A.F.H.Q. letter S 19 dated 26th January and War Office Cable GEM 464 dated 9th February.

2. Copper-palladium discs have been fitted to the specimen governor contacts. These discs are similar to those employed in the V.F. generators of the British Telegraph system.

3. Request you report on suitability. If satisfactory, arrangements will be made for contact discs to be supplied for fitting on site. Soft solder should be used for this purpose - brazing is unnecessary.

4. State quantity required.

for Director of Civil Affairs.

Subject : Telegraph Repeaters

To : Requisition Division, Allied Commission

1. Would you kindly requisition the following from A.F.H.Q. as soon as possible.

" 10 Repeaters TG 30. (British item)"

2. The note shown below should be added to the requisition.

"These telegraph repeaters are essential for the operation of the Rome - Ancona civil telegraph composite circuits, the only circuits available. Eight are required for actual operation with two in reserve.
C.S.O., L.of C. has informed this HQ. that the stock of such repeaters is sufficient to permit of their release. It is understood that the depot concerned is ORD 13."

Combined Signal Project AFHQ/49

1. Authority and Designation. Under authority of Item 2, Section IX, of AFHQ Signal Instructions, and CCS Message CAL 862, the issue of supplies to the Allied Commission, detailed herein, is authorized under the above designated project.

2. Purpose. The supplies authorized herein for issue to the Allied Commission are to provide essential civilian telephone facilities as designated by the Allied Commission. The following supplies, not available from civilian sources, are covered by this project:

a. Miscellaneous items, in addition to FATME supplied materials, necessary for the fabrication and installation of 6 switchboards being manufactured by FATME for the Allied Commission (See Tabulation "C" for items being furnished on this project).

b. Cable splicing materials, for the repair and maintenance of civilian cables.

c. Bare line wire for civilian plant extensions and repairs.

3. Origination and Approval. Supply issue as itemized in Requisition AC-SIG-62-45, dated 9 December 1944, and requested in Informal Routing Slip, subject, "Civil Telecommunication", file S-19, log D-3924, dated 17 December 1944, from G-5, AFHQ to G-4, AFHQ, was approved by G-4 with exceptions as detailed in Tabulation "A". The release of the materials on a project basis under the above designated project number, is approved.

Supplement to this at 64

4. Source of Supply. a. The materials listed in Tabulation "B", "U.S. Material List", will be supplied by the CSO, MTOUSA to the Allied Commission, Communications Sub-Commission, in accordance with Notes and Instructions thereon.

b. The materials listed in Tabulation "B", "British Material List", will be supplied by DOS, AFHQ, to the Allied Commission, Communications Sub-Commission, in accordance with Notes and Instructions thereon.

5. Special Instructions. a. Materials are being released on a Combined Project in order to utilize the existing Combined Project routines to control the issue of materials. Usual routines will apply only insofar as issues and reporting of issues of materials are concerned.

Declassified E.O. 12356 Section 3.3/NND No. 785015

from civilian sources, are covered by this project:

4. Source of Supply. a. The materials listed in Tabulation "B", "U.S. Material List", will be supplied by the CSO, MTOUSA to the Allied Commission, Communications Sub-Commission, in accordance with Notes and Instructions thereon.

b. The materials listed in Tabulation "B", "British Material List", will be supplied by DOS, AFHQ, to the Allied Commission, Communications Sub-Commission, in accordance with Notes and Instructions thereon. 3971

5. Special Instructions. a. Materials are being released on a Combined Project in order to utilize the existing Combined Project routines to control the issue of materials. Usual routines will apply only insofar as issues and reporting of issues of materials are concerned.

b. Detailed Projects or completion reports covering the usages of materials are not required from the Allied Commission.

c. Materials will be issued to personnel designated by the Allied Commission on indents or shipping tickets approved by the Senior U. S. Signal Officer (for U.S. Materials) or Senior British Signal Officer (for British Materials) or their delegates on duty with the Allied Commission. Indents for British items other than those specified as controlled will be submitted in accordance with normal British Ordnance procedure, through ADOS, ROME Area, on 57 B.C.D. Senior British Signal Officer at Allied Commission will insure that quantities demanded do not exceed quantities authorized. Items shown as British controlled stores are being issued without further demand.

RESTRICTED

Declassified E.O. 12356 Section 3.3/NND No. 785015

RESTRICTED

d. In addition to the usual project routines for issuing and reporting of materials issued, the issuing agency will handle the indents or shipping tickets as prescribed by GRO 479 of 1943 for British materials or for U. S. materials, in accordance with the existing procedures for transfer of materials to the Allied Commission. These procedures will result in monthly statements of transfers to the Allied Commission and no final statement or billing will be required under this project.

Combined Signal Project AFHQ/58

1. Authority and Designation. This proposal for the disposition of the equipment detailed herein is based upon the provisions of War Department Circular No. 379. 1944. and Item 3, Section IX, of AFHQ Signal Instructions. The equipment was originally supplied on Combined Signal Project AFHQ/35 for joint use by U.S. and British Forces and was approved for transfer to a disposal project by the completion report of AFHQ/35.

2. Purpose. This project is drawn up as a basis for appropriate action leading to the disposal of fixed Signal plant installed under Combined Signal Projects in Italian territory.

3. Origination. Recommendation for the determination that the equipment composing fixed plant in SARDINIA is excess to the forseeable needs of the Theater was suggested in letter, subject, "Status Closing of Combined Signal Project AFHQ/35", no file number, dated 15 November 1944, from Signal Officer, Allied Garrison in SARDINIA, to CSO, AFHQ.

4. Source of Supply. All equipment determined as excess to the forseeable needs of the Theater as set forth in Appendix "A", were supplied from U.S. sources.

5. Reasons for Sale. a. The equipment proposed for determination as excess to the forseeable needs of the Theater consists of open wire facilities remaining in SARDINIA, details of which are shown in Appendices "B" and "C".

b. The withdrawal of military units from the Island has caused these facilities to become excess to the needs of the Theater.

c. The withdrawal of all Signal Units for operational employment elsewhere has made it economically unsound and not in the best interests of the U.S. to attempt to recover the equipment.

6. Proposal. It is proposed, upon declaration by the War Department that this equipment is surplus, to transfer it to the Disposal Agency designated for this area, or, in the absence of such an agency, to sell it to the Italian Government through the Allied Commission in ITALY.

7. Responsibility. Upon declaration by the War Department that this equipment is surplus, action will be taken to either make a report thereof to the appropriate Disposal Agency

7. Responsibility. Upon declaration by the War Department that this equipment is surplus, action will be taken to either make a report thereof to the appropriate Disposal Agency or, in the absence of such an Agency, to dispose of the equipment pursuant to the provisions of the directive mentioned in Paragraph 1, above.

8. Approval. It has been determined that the equipment listed in Appendix "A" is excess to the forseeable needs of this Theater and upon declaration by the War Department that it is surplus, the proposal for reporting to a designated Agency or, in the absence thereof, the initiation of action to dispose of the equipment, is approved.

DETAILS OF OPEN WIRE PLANT REMAINING IN SARDINIA AND PROPOSED FOR SALE

1. OLBIA - PALAU 20 miles of 8-pin crossarms on which is constructed one group of .104 copper. About 14 miles is constructed on Italian Army poles and 6 miles on poles owned by Circolo Castemzione Telegrafiche a Telephonic (CCTT).

2. PALAU - SANTA THERESA 2 miles of 10-pin crossarms, and 15 miles of 8-pin crossarms on which 6 wires of .104 copper are constructed throughout. All the poles over this route are CCTT owned.

3. ELMAS TIE LINE This line was constructed from old carrier station site on the ELMAS airfield to meet the main CAGLIARI - SASSORI overhead route. 1 mile of 8-pin crossarms, carrying 6 wires of .080 copperweld, are constructed on Italian Army poles. 4 miles of 4-pin crossarms, carrying 4 wires of .080 copperweld, are constructed upon Italian requisitioned poles.

4. ELMAS - DECIMO - VILLACIDRO 30 miles of 8-pin crossarms carrying 8 wires of .080 copperweld. This is constructed on Italian Army poles throughout.

SUBJECT: Proposed Sale of Wire Communications Facilities in Sardinia and Italy.

TO : Lt. Colonel H. H. SCUDDER, Communications Sub-Commission, Allied Commission, APO 394.

1. Pursuant to our recent conversations, inclosed are two copies of line route diagrams of the wire communications facilities in Sardinia and Italy which it is proposed to sell to the Italian Government upon their declaration as surplus by the War Department.

2. Also inclosed are statements of the material cost of these facilities for your information in negotiating a fair and reasonable sales price in accordance with the provisions of War Department Circular No. 379 (1944).

3. As soon as this office is notified that the War Department has declared these facilities to be surplus, such information will be transmitted to you for appropriate action in accordance with that declaration.

For the Chief Signal Officer:

J. HARRY LaBRUM
Lt. Col., Signal Corps
Special Assistant

Subject : Surplus Signal Material

To : W.M.D. & I.P.W. Sub-Commission

1. Confirming telephone conversation with Lt.Col. Campbell it is proposed to handle the disposal of Signal material which may be notified to this Sub-Commission as having been declared surplus in the following manner:

a. C.S.O., A.F.H.Q. will notify this Sub-Commission of material.

b. Negotiations for purchase of such material will be carried on with the Posts and Telegraphs Dept. of the Italian Government by this Sub-Commission.

c. When agreement re purchase has been reached all documents will be passed to W.M.D. & I.P.W. Sub-Commission for recording and arranging for necessary accounting procedure.

d. This Sub-Commission will furnish you list of any materials notified to us for which no agreement to purchase is reached with the Dept. of Posts and Telegraphs.

R O M A

Acquisto di filo in Sardegna.

A conferma di comunicazioni telefoniche fatte col T.Col. Miller dal Cap. A. Gigli si comunica che si desidera acquistare il filo di rame (esistente per circa 316 Km su palificazioni in Sardegna) offerto nella distinta allegata al foglio in riferimento.

Per quanto concerne in filo in "copper weld" in vista di studiare l'impiego, che è possibile farne da parte di questa Amministrazione, che ha una relativamente scarsa dotazione di apparecchiature in telefonia - frequenza vettrice, e del fatto che altri quantitativi di detto filo possono essere in futuro disponibili, si sarà molto grati se verranno comunicate le costanti primarie (resistenza, induttanza, capacità e conduttanza per miglio) per un doppino telefonico di assegnate caratteristiche geometriche e le costanti di attenuazione (decibel per miglio), per una gamma di frequenza estesa, possibilmente, sino a 100 Khs.
