MEMO

24 October 1946

TO: Economic Section

1. With reference to the attached correspondence the following recommendations are submitted:

- a. Surplus items should be returned to Signal dumps (by the Agency now holding them) on property turn-in slips.
- b. Cancellations should be initiated by the Agency that submitted the original requisition.
- c. An amendment should be submitted by the originator of the requisitions with the statement that substitutes will not be accepted (This will probably result in not obtaining anything).

2. Items received but not ordered (as mentioned in Maj. Hayward's letter) do not have to be accepted.

3. New requisitions should be submitted only after exact nomenclature of the item needed is known.

Ref. 414.7/C

SUBJECT: Signal Communications Requirements for 1st half 1947 -
Venezia Giulia and Udine.

TO : Communications S/C

see 85 & 86

1. Reference is made to the attached signal communications requirements for Venezia Giulia and Udine for the first half of 1947, submitted by AMB XIII Corps to this HQ under letters 13C/AMB/TEL.- (Supplies) - 47 of 9 August 1946.

2. Your office is requested:

a. to review the requirements and justifications therefore and to resubmit them in the light of such review with your comments to this office;

b. to screen the requirements against available indigenous stocks within Italy proper (through your own records and by direct contact with the appropriate Italian Ministries) and make appropriate adjustments of the requirements stated.

3. It is requested that your action on this matter be completed as soon as possible so that these requirements can be placed into final form and submitted to AFHQ for approval.

SUBJECT Requisitions for Civil Supplies
TO For Udine for Jan-June 1947

THE CHIEF SUPPLY OFFICER
HQ AMG 13 CORPS

Attached is a list of Signal Communications material required for the six months Jan-June 1947 for the prevention of disease and unrest in the UDINE Area.

JUSTIFICATION.

The material is required for maintenance purposes as it is estimated that the material asked for 1946 will be sufficient for rehabilitation.

Many of the circuits are at present under the control of the military and are being maintained by the military. As circuits become available for civilian use again the material asked for will be in urgent demand.

H.A. Hayward

SUBJECT Requisition for Civil Supplies
TO For Venezia Giulia Jan - June 1947.

THE CHIEF SUPPLY OFFICER
HQ AMG 13 CORPS.

Attached is a list of Signal Communication material required for the six months Jan-June 1947 for the prevention of disease and unrest in the Venezia Giulia Area.

Justification.

The material listed is required primarily for maintenance purposes after the receipt of the materials demanded for 1946. Practically all the wire asked for will be used to make good communications in that part of the state at present under the control of Yugoslavia where, according to reports, practically nothing now exists except meagre military circuits.

It will be seen that the demands are light by reason of the uncertainty of the part of the area and are based on the present trend of events in Paris

Ref. (414.7/C) ES/1.47/0

SUBJECT: Non-receipt of signal communication supplies

TO : AFHQ, G-5

1. The Communications Division of AMS, XIII Corps advises that materials represented by the following serial numbers of LAC Airgram 139, for the first half of 1948, have not been received:

a. 8, 9, 11, 12, 13, 14, 15, 16, 17, 18, 20, 21, 22, 23, 24, 25, 26, 29, 31, 33, 37, 38, 43, 50, 52, 59, 60, 62, 63, 64.

2. Only part of serials 27, 28 and 30 have been received.

3. The twenty-five (25) items so far received are of relatively minor importance and represent only 15 per cent of the requirements in terms of weight and value. Cable and wire are the most glaring deficiencies.

4. It is urged that every effort be made to effect completion of deliveries of the materials requisitioned and approved for the first half of this year both from the standpoint of their immediate necessity and the influence on future planning.

5. Further details concerning items received or not received can be furnished if desired.

for Venezia Giulia Jan - June '46
TO:THE ECONOMIC SECTION - (for Lt Aaronsberg)
HQ A.C.
ROME

CDL3	
2223	
T. 14c	8/10/46

Date 17 AUG 1946

With reference to our telephone conversation on the above subject.

Of the Signal Stores for Jan-June '46 - Venezia Giulia Civil Supplies, listed in Lac Airgram 139 dated 15 Dec. 1945, we have received the items listed in annexure 1, 2, 3, and 4, attached.

Discrepancies shown had occurred in boxes which were found open. Breakage of materials, such as conduit, was due to bad package and on this subject we point out that there is a waste of materials in packing items like solder in cloth and boxes meanwhile other fragile materials are very lightly packed and may be broken during the trip. It is also pointed out that very few boxes contain a list of what should be in the box itself.

From annexure 1, 2, 3, 4 it can be seen that except for items 4, 10, 19, (part of 27, 28, 30), 32, 33, 34, 35, 39, 40, 41, 42, 44, 45, 46, 47, 48, 49, 51, 52, 54, 55, 56, 57, 58, and 61 all other items of LAC AIRGRAM 139 have not been received and these are the most important and urgent requirements.

We have also to consider that item 10 - cable telephone - is not the 50 pair requested but another type, 6 pair, too heavy to be used as aerial and too lightly armoured for underground use, and therefore not acceptable and considered as "not received" item.

./.

HEADQUARTERS
ALLIED MILITARY GOVERNMENT
13 CORPS

TELEPHONE No.:

- 2 -

Date 10 August 1946

REFERENCE No. 13C/AMG/Tel. - Supplies - 46

SUBJECT

TO

Item 33 - conduit - arrived broken, cannot be used and there is no need of replacement.

Item 47 - Scissors - only 12 arrived and the other 18 are awaited.

Item 57 - Megger - 4 arrived and the other for are awaited - suspected lost in transit.

It is emphasized that the materials received are really of minor importance, and although there are 25 items received from a total of 64, it barely represents 15 % of our demands considered in terms of weight and value in planning. Scissors, pliers, tape, solder, etc. etc. are very useful to us but what is the use of these if we cannot get cable, wire, and vehicles which are 100% necessary. We can do without small tools but we must have cable and wire.

REFERENCE No. 13C/AMG/TEL (Sups)

SUBJECT Telecoms Material (non arrival)

TO Chief Supply Officer HQ AMG

At a recent Economic Conference I gathered that my Division was worse off than any other with regard to the non arrival of Supplies for the prevention of Disease and unrest (Jan - June)

I wish to emphasize again that something must be done about urging all items outstanding.

Only about 10% of the items have been sent, of these a most important item Cable W.O.-421 650 feet Serial N°21 was lost en route from Livorno to Gorizia (see my 13C/AMG/TEL (SUPS) of 1 June). In my letter 13C/AMG/TEL (SUPS) of 20 July I have reported the condition of certain stores, for instance the cement conduit sections are broken and of course useless and the Ring Bridges were cancelled in March. These items are in the Telephone Company's warehouse awaiting somebody's instruction for disposal.

Could you take up this matter on ^{an} urgent basis.

File T14C

STORES REQUIREMENTS FOR VENEZIA GIULIA FOR 1946SUMMARY AND STATEMENT OF POSITION AS AT 6 JUNE 1946

1. Economic Section (Lt. Arensberg) has the responsibility of obtaining necessary stores for Venezia Giulia for 1946. This Sub-Commission acts only in a technical advisory capacity to Economic Section.
2. Lists of stores were prepared in the first place by Maj. Hayward. This S/C translated the items into their American equivalents using Signal Corps Catalogues which are held on the S/C. The lists were passed to Econ. Secn. to obtain the stores and send them directly to Venezia Giulia.
3. The stores are in two lists namely (a) for the period Jan. - June, 1946 and (b) for the period July - Dec. 1946.
4. Part of each list can be obtained from Italian sources and part from British or American sources (in or outside of the theatre).
5. The first list has been fully discussed and settled with several changes due to certain items being unobtainable at present and substitutes offered. Materials due for delivery from UK and US sources have been ordered from these sources. The list is not held on the Sub-Commission but can be seen in Lt. Arensberg's files.

Materials to be supplied from Italian sources are shown in schedule accompanying Ministry letter n°. S/15.3/50079 of 17 Jan. 1946 (in file T14C part II). Of these, the Ministry will supply materials as shown in their letter n°. 924789/1100 of 26 April. The poles mentioned in the letter will be purchased by AMG Venezia Giulia.

As regards the rest of the materials from Italy, the ⁴⁶⁶³TELVE Direction at Venice states that it will probably be able to find them from its own stocks, and that it will be unnecessary to purchase them from Italian factories as originally contemplated. The Coy has promised Maj. Hayward that

275

- 2 -

these materials (which are actually for TELVE, Venezia Giulia) will be supplied to Venezia Giulia about the same time as the materials which are being supplied from British or American sources.

6. The second list (for July. Dec) has also been fully discussed and settled. Economic section has sent a list of the requirements from British and American sources to the proper Allied sources of supply. This list has been checked and is known as Annexure I to Appendix C of the Programme of Essential Civil Imports. The original is dated 22 April 1946, and an addendum is shown accompanying Memo of 4 May 1946 from Econ. Secn. (both the original and the addendum are in file T 14C Part II).

7. Materials to be obtained from Italian sources are shown in a schedule accompanying a letter n°. 883844/700 of 16 May 1946 from the Ministry. The schedule also shows the depots from which most of the stores will be supplied. The balance will be obtained as shown in the Ministry's letter of 16 May if not available from TELVE.

8. The only correspondence on the second list is likely to be regarding possible substitutes for materials not available in UK or US. Care has to be taken in checking these substitutes as several suggested have been unsuitable (e.g. an underground p.c. cable offered instead of a Switchboard cable).

9. Maj. Hayward is entirely responsible for ensuring that receipts are obtained from Italian organisations for the goods as they arrive, and this Sub-Commission officers are not concerned with the accounting side being technical advisers only so far as these supplies are concerned.

24 May 1946

SUBJECT: Materials for Second Six Months 1946 -
Venetia-Giulia.

TO : AMO Venetia Giulia (Att: Maj. Hayward)

1. The enclosed list shows materials extracted from your requirements which are obtainable in Italy.

2. The end column shows the source from which they can be obtained.

3. In some cases the numbers shown available are less than the numbers requested. The Italian Government considers that the numbers they can provide of such items should actually be sufficient however in most cases (except of course where no quantity is shown as being available).

4. Where no amount is shown in the "quantity available" column, or where you feel the quantities shown as available are definitely too small, the balance should be purchased. It is suggested by the Govt. that you consult the Provincial Director in Milan or the Director, Circolo these as regards suitable firms and prices.

H.E. SCUDDER,
Col. Sig. C.
Director.

Subject: Telephone and telegraph materials for the Venezia Giulia

Reply to 7.92.158 CS of 25/3/1946

Replying to the above referred letter, here is given back a list of the telephone and telegraph materials requested by your Sub-Commission for the Venezia Giulia with the indication of the quantities which can be supplied by the "Deposito Centrale degli Apparati Telefonici Telegrafici" or by the "Azienda di Stato per i Servizi Telefonici".

The said quantities have been reduced for some types of material in relation to the actual availability and for others in relation to the need that it is presumed can really be necessary.

For the materials which cannot be supplied by the above said ^{State} firms not being available, ~~you are kindly requested to request them~~ please request them to the manufacturing firms whose names you can have by the Direzioni Provinciali or by the Circolo della Costruzioni P.T. in Milan.

ESPRESSO

A seguito della lettera n.1739579/162/43 del 6 o.m.
si trasmette l'elenco del materiale telefonico richiesto da code-
sta On.Commissione e del quale si dovrebbe provvedere all'acqui-
sto, secondo quanto comunicato con la lettera di cui sopra.

Si resta in attesa di conoscere le decisioni di co-
desta On.Commissione.

SEE 78

SUBJECT: Materials for Venezia Giulia.

TO : Under-Secretary of State for PP. & IT.

1. With reference to your letter n°. 1739579/162/43 of 6 May 1946; the Director TELVE has now informed Major Hayward that it will be able to provide from its own stocks the materials required for Venezia Giulia which it had been intended should be purchased from Italian factories.

2. As these materials were required for TELVE at Venezia Giulia, the Company's offer has been accepted provided the materials are delivered about the same time as those on order in WS and UK.

H.H. SCHUDDER,
Col. Sig. C.
Director.

MEMO:

File: T14.C.63.CS

20 May 1946

SUBJECT: Purchase of Materials for Venezia Giulia.

CONVERSATION WITH MAJ. HAYWARD - 18 MAY

1. Materials for the first six months of 1946 are obtained in three ways:

- (a) From US or UK sources.
- (b) From Italian Govt. or Concessionary Coys' stores in rest of Italy.
- (c) By purchase from Italian firms.

2. In case (c), the intention was to purchase certain items which were included in a list shown to the Italian Govt. but which the latter could not supply from stores. The items under (c) were all required for TELVE in Venezia Giulia.

3. TELVE has now informed Maj. Hayward that it will be unnecessary to purchase the materials classified under (c) as the firm can obtain them.

4. Major Hayward has agreed to this provided TELVE supplies the materials as soon as the materials from US and UK start to arrive.

Lt. Col. HTW. MILLAR
Deputy Director.

He - T4C.
