OGGETTO: Mobilitazione speciale civile del personale addetto alle telecomunicazioni.

La Sottocommissione per le Comunicazioni della Commissione Alleata ha rappresentato la necessità che in ogni evenienza, ed anche nel caso di interruzione completa dei servizi civili, sia assicurato il regolare funzionamento delle telecomunicazioni che interessano le Autorità Militari Alleate, secondo precisi obblighi assunti dal Governo italiano con le clausole dell'armistizio.

A tale scopo, dopo laboriose trattative svolte con la predetta Sottocommissione, si è ravvisata la opportunità di costituire un apposito ruolo di impiegati ed agenti mobilitati civili, soggetti a particolari obblighi, e principalmente a quello di tenersi in ogni momento - ed anche nelle ore fuori del servizio ordinario - a completa disposizione, ed, in casi di particolari necessità, di prestare illimitato servizio, sia di giorno che di notte, per assicurare le telecomunicazioni interessanti i vari Organi Governativi e le Autorità Alleate.

Si è perciò predisposto l'acclusо schema di Decreto Luogotenenziale Legislativo per disciplinare tale speciale mobilitazione civile di una parte del personale addetto alle telecomunicazioni.

Si prevede che il numero dei funzionari ed agenti da mobilitare sia di circa 1.200. (milleduecento).

Si prega di voler dar corso alle pratiche per l'emanazione del provvedimento, che ha carattere di urgenza.

Intanto questo Ufficio curerà la raccolta delle domande per

SUBJECT: Personnel

TO : The Minister of Posts and Telecommunications, ROME

1. Soon after the Liberation of Florence, the Director of the Florence Circolo di Costruzioni was retired from his post by direction of the Allied Military Government as it was found that his age and mentality rendered him unfit for such an important post.

2. A report has come to the knowledge of this Sub-Commission that your Administration now proposes to re instate CASTELLI as Director of the Florence Circolo and it is sincerely hoped that this report is unfounded. The importance of Florence as a centre of Military communications is such that the nomination as Director of the Circolo of a man who has previously been removed as unsuitable cannot be tolerated.

3. It has always been and continues to be the aim of this Sub-Commission to refrain from attempting to influence in any way the appointment or transfer of officials of your Administration except in those few instances where military requirements have dictated the necessity. In the case of Florence the importance to Military communications of the post of Director of the Circolo is such that we are forced to request that if it is considered necessary to appoint a Director, the apointee be fully competent to fulfill his duties. CASTELLI is not considered competent. It is brought to your attention that the present acting Director has since the liberation of Florence shown himself a most competent official.

1. Please explain why if in November '45 you were authorised to take on 20 new telephone operators for the Milan Interurban board you have to date only taken on 3.

2. An adverse report on traffic procedure emphasising the wastage of lines has already been written by the Communications Sub Commission. It is well known that most this wastage is produced by an insufficiency of operators.

3. It is estimated that you will need 50 more operators by the end of February when the new positions being installed by F.A.C.E. will be ready. These are exclusive of the 20 mentioned in para 1.

4. There appears, therefore to be little excuse for any delay in taking on and training new personnel and you are advised to

(a) take on the 17 required as in para 1 immediately.

(b) Obtain the necessary orders from the Ministry to ensure that the 50 needed as in para 3 are taken on to be ready and traiued as the new equipment is installed and the lines are available.

1. This Sub-Commission's Liason Officers, in addition to their advisory functions, are responsible for assisting the military by ensuring that the Italians are maintaining military long distance communications satisfactorily.

2. The Liason Officer at Milan, Major Holland, covers Lombardia, Piedmonte and Liguria. He cannot carry out his complete duties alone over such a wide area, and thus has an Italian engineer on his staff to assist with inspections.

3. This engineer states that, as he is a civilian, he is not billeted or fed by Allied organisations when staying away from Milan, and that his daily bills amount to about 1500 lire, of which he is paid only a small fraction by the Allied Commission Liason Officer.

4. Would you kindly say whether any considerable concession can be made to a civilian under these circumstances either as regards extra payments or as regards billeting and feeding on Allied premises?

A pronto riscontro di quanto segnalato col foglio n. 22/103/CS in data 8 gennaio, compiamo il dovere di comunicare che il Dr. SCARTOZZONI attuale Direttore del Circolo di Parma ha avuto dal governo repubblicano fascista una promozione che per legge è automaticamente priva di effetto per quegli ovvi motivi che riteniamo superfluo di chiarirvi.

Siamo noi stessi dell'avviso che lo SCARTOZZONI è un ottimo funzionario talchè ultimato il suo esame dalla commissione di epurazione, qualora egli sortisse, come speriamo, senza imputazione di sorta, considereremo con la maggiore benevolenza la possibilità di concedere a lui quella promozione illegalmente concessagli dal governo sopracitato.

Non si tratta quindi di retrocessione da noi disposta, ma di automatico annullamento di decreto fatto da un governo da noi non riconosciuto.

Cogliamo l'occasione per ringraziare degli elogi comunicateci per i nostri funzionari nel nord che ci premureremo di segnalare agli interessati.

Referring to letter n°22/103/CS dated 8 Jan. we communicate that Dr. Scartozzoni Circolo di Parma's actual Director got by the Repubblican Government a promotion that according to the law is without any effect for the reasons we think not necessary to specify for their evidence.

We suppose that Scartozzoni is a good employee so that as soon as the Epuration Commission will take his decisions about him we hope favourable,we will consider the possibility of granting to him that promotion he got illegally by the Repubblican Government.

We did not arrange therefore for his dismotion but for the annulment of a decree made by a Government we did not recognize.

We catch the opportunity for thanking you for the praises to our employees of the north we will soon undertake to communicate to the interested parties.

SUBJECT. : Rations for the workmen charged with heavy work for the MARESPE.

In reply to the letter T.22.94.CS of 19th December 1945, it is informed that the workmen charged with heavy work at the MARESPE have already obtained the supplementary rations to which those workers have got the right to, by means of directive agreements between the periferical Offices of the MARESPE and the local Authorities dealing with alimentation problems.

As far as the result obtained by Commander Osti, who dealt the question with, they can be summed up saying that for everything concerning the PPTT workers the result was positive, whilst the question concerning of the employees with continuative office time has not been solved yet.

1. It is considered that on the occasion of the cessation of A.M.G. control in the North of Italy, the opportunity should not be allowed to pass without thanking the Ministry of Posts & Telecommunications, for the valuable assistance rendered to the Communication Sub Commission by Dr. Valerio FADDA and Sig. Giovanni PIRISINU who have both worked with me since my taking over duties as Postal Officer for the North Western Regions.

2. The Minister of Posts & Telecommunications is morefully personally acquainted with the efficiency of Dr.FADDA (whom he appointed as Commissario Starordinario for this area, and who has since been promoted to the post of Provincial Director Genoa) than with Sig.PIRISINU.

3. This officer is a member of the Milan P.O.Administrative staff and it is mainly through his complete knowledge of all the intracacies of the existing & varying authorities issued by the previous Republican Government at Verona, and the Director General P.T. Rome, that any semblance of standardization has been introduced from the previously confused and contradictory positions found in this area, in connection with pay and allowances, and rates applicable to transport services for mails.

4. It would greatly appreciated if the Minister of Posts & Telecommunications could be asked to thank Sig.PIRISINU for his exceedingly helpful-work, in the form of a letter direct from his office.-

CONFIDENTIAL

SUBJECT : VERONA Repeater Station

From : CSC L OF C ITALY 311.2/5

To : Director, Communications Sub-Commission, A.C. 31 Dec 45

1. At the beginning of December, we experienced considerable trouble with VERONA Repeater Station, as a result of which communications were dislocated for an appreciable time. An investigation was therefore made and a conclusion drawn that the Dirigente of VERONA Repeater Station (Sig. MUZZI) is both inefficient and disinterested in his work.

2. Sig. MUZZI has established an office at his home and is rarely at the Repeater Station. This means that there is no one in direct control of the Repeater Station and no one to make decisions regarding the technical direction of the station.

3. There are a number of Italian soldiers provided for the protection of the bunker containing the Repeater Station, but these are seldom seen either inside or outside. In addition, these guards bring unauthorised women into the Repeater Station.

4. Although not definitely verified, it is suspected that Italian civilians are permitted into the Repeater Station to make unauthorised long distance calls.

5. It can be seen from the above that matters are far from satisfactory at the VERONA Repeater Station and this state of affairs cannot be accepted by the Allied Military, who are vitally interested. It is requested, therefore, that action is taken immediately for the replacement of Sig. MUZZI by a more suitable Dirigente. Also, that the State Engineer for the zone, Ing. DANI, whom it has not been possible to contact, is given instructions that he must keep a closer watch on the working of VERONA Repeater Station.

"3. CIVILIAN LINEMAN Etc.

(a) The civilian linemen state that routine maintenance is carried out, but this fact is doubtful. When the survey was made they were all located in their respective billets probably waiting for a fault to occur.

(b) There is a very strong undercurrent of unrest at all towns on the route where local Communist organisations are attempting tomake their presence felt and encourage strikes etc. The food and clothing situation is generally poor and unemployment high.

(c) The clothing of the civilian linemen is poor. Their boots for instance are completely w/s; this is no encouragement for them to "walk" the route which passes over very rough terrain.

(d) (i) Food is another problem. The basic ration per man/day is:-

Bread	200 gms.
Macaroni	70 gms.
Olive Oil	1/5th litre.

whilst a supplementary ration consisting of 100 gms of bread is available.

(ii) In order to supplement the above, the Black Market has to be resorted to and the following purchased at the prices quoted:-

Bread	at 140	lires	per	kilo	
Macaroni	at 130	"	"	"	
Olive Oil	at 450	"	"	"	} when
Meat	at 500	"	"	"	} available
Fish	at 200	"	"	"	

(e) The rate of pay of the men concerned is between 200-250 lire per day which does not permit their purchasing sufficient food to sustain them whilst carrying out heavy outdoor work, nor to provide themselves with adequate clothing, the prices of which are ridiculous.

(f) The Director MARESPE has requested that he may be allowed to purchase bread and tinned meat at a controlled price, either from Military AC sources, for resale to his employees. This is recommended but might lead to speculation on the part of certain persons. The sale of part-worn boots to MARESPE might be considered.

4. The entire system of pay, clothing, food etc is unsatisfactory and should, it is felt, be properly investigated by AC, and some of the more prosperous forms of "bootlegging" removed. Until such time as this is done satisfactory work by the civilian companies cannot be anticipated."

SUBJECT. : Bologna and District Telegraphs.

Having duly noted the abovementioned letter, it is thought advisable to point out the following: pel 75

a) - The reactivation of the lines and of the telegraph Offices carried out by the Circolo of Bologna after the handing over of the Emilia Provinces to the Italian Government(5th Aug 45) has really made very slow progress.

b)- The most important and essential causes of such a disgraceful condition are mainly due to :

1-Large destructions of lines and plants caused by war causes, since the fightings have been hanging on that territory for more than 8 months.

2-Noticeable lack of stores necessary for the reconstruction of the network in comparaison with the vastness of the destructions(i;e; for the restoration of the telegraph network only in the Province of Ferrara 100 quintals of iron wire and about 5.000 poles)are needed).

3- Lack of meansof transportation mostly due to deficiency of PCT.

It is also to be born in mind the lack of personnel (directive) in the aforesaid Circolo, and to which this Ministry is trying to remedy appointing for Bologna another two additional Directors.

On this matter it is necessary to take into account the obstacles the telegraph Administration is meeting for the transfer of personnel, because of the known difficulties of food and lodging. 1882

c) - Besides the personnel referred to in above para. instructions have been issued for appointment to Bologna of an Ispettore Centrale, so as to examine on the spot, together with the Direttore of the Circolo, the local situation, and propose all the provisions necessary for allowing a strong impulse to the work of restoration of the secondary telegraph network, even in the limits allowed by the actual scarce availibility of funds and materials.

d) As far as the delivery by mail to Rome from the Bologna Office of the 20% of the telegrams received from the North is concerned, we assure you that effective from the beginning of this month it does not take place any more.

1. As you know there are stationed at all Fault Control points representatives of the M.A.R.N.S.P.E. organization of the Ministry of P. and T. These representatives are responsible for taking over, in the name of the Ministry, from the Military Authorities, lines which are being returned to civilian maintenance.

2. Once the lines are turned over, these representatives are charged with insuring that proper maintenance is effected. Due to the ever increasing number of lines involved, and the fact that highly technical matters are involved, it is necessary that such representatives should have not only the administrative ability, but also the necessary experience and knowledge to insure the continuance of the high standard of maintenance demanded by the Allied Military Authorities.

3. Ing. Augusto Bigi, the M.A.R.N.S.P.E. representative at Florence, has been reported to this Commission by the Allied Military as not having the necessary qualifications.

1. It had been intended on handing of the Emilia Region to the Italian Administration to make some comment on the lack of progress in this Region.

2. It was hoped, however, that with the Allies making less use of local circuits in the area, the position would improve, but an appreciable improvement has not taken place.

3. Although the territory is now administred by your Government, it is, therefore, felt that your attention should be drawn to the following points:

4. Of the 282 telegraph offices operating within the Circolo area before the war, only 15 had been reconnected by lines repaired by the Circolo and 13 by lines released by the Allies. It is believed 14 have been reconnected in September.

The above seems to be painfully slow progress even in spite of severe damage, and appears to cast a serious reflection on the competence of the Director of the Circolo.

5. Of the telegrams received at Bologna from the North for retransmission to Rome, 20% are sent by mail. Considering that the average number of these telegrams sent per day by mail is only of the order of 100 to 150, this seems rather disgraceful.

6. It shouldbe explained that these comments are not intended as an interference with Italian administration, but merely to point out the opinion of this Sub-Commission that Italian staff can do better than this even in these arduous times.

Reference your letter T.22.68.CS of 10 October 1945.

1. A check with the Telegraph director reveals that there is also an operator shortage here. However he states that there is personnel to operate six sectors to Rome, of which four are in use at present.

2. A school for Morse operators is now under way with this personnel being available about 1 January 1946. An additional three months will be required to train Teletype and Hughes operators.

3. The schedule of telegrams sent to Rome for three days is attached. (Your paragraph 3.)

4. In my opinion the Circolo of Bologna has a very incompetent director. As a result very little has been accomplished towards restoring service.

5. The schedule requested in your paragraph 4 is attached. As you can see a total of 28 offices in this Circolo areas have been reconnected, of which 13 were on circuits released by the military. Of the 15 offices on Circolo repaired circuits 12 were connected in September, indicating how little work was accomplished previously. (The director was on vacation and in Rome most of September). It was however necessary for Circolo to construct tails for practically all offices reconnected on military circuits.

Subject : Request for reimpatriation

The STIPEL has strongly interested this Ministry to obtain the reimpatriation of an employee of theirs who is actually prisoner in Germany and who would be of great use to the above Company if he could again take up his post.

We are giving you, hereunder, the normal details required for the reimpatriation of prisoners:

- Tenente Fanteria Alpini (Lt.Alpine Infantry): GRAGLIA Francesco of Giovanni and Bocchio Angiolina - born in Savona on the 4th July 1915 - Turin Military District- residing in Turin in Via Lombriasco No.8; at the present he is prisoner in Germany at the following address:

Italian Camp - Knollstrasse 164 - OSNABRUCH (21) - (Deutchland).

We thank you for what you will be able to do on the matter.

SUBJECT: Telegraph Operators.

TO : Under-Secretary of State for PP.TT.

1. It is most discouraging to be informed by the A.C. Liaison Officer, Bologna, that a high percentage of telegrams is being sent to Rome by mail although circuits and equipment are available.

2. He states that this is due to lack of operators at Rome.

3. As you know, training schools are in operation in North Italy and in Milano, twenty operators have already been trained and are now operating teleprinters.

4. Kindly say what arrangements are in progress in Rome. It is felt by the AMG Regional Commissioners in North Italy as well as by this Headquarters to be most important for public safety and other reasons that a reasonably fast service should operate to Rome and the South.

SUBJECT: Telegraph Operators.

TO : AC Liaison Officer, Bologna
(Att: Lt. Rushing)

Ref: Your FWL/THEDOMS of 1st October.

1. With reference to your first paragraph, your point regarding sending of telegrams by mail is most important and accordingly the attached letter has been sent to the Under-Secretary.

2. Are you certain however that the trouble is due to shortage of Rome staff and not shortage of Bologna staff as well. Please check, and inform this Sub-Commission. If Rome suddenly produces operators, is Bologna in a position to work more circuits?

It is realised of course that the area is Italian administered but Bologna, is a key office, and it is desired to ensure that, with its main line commitments and the large number of small offices yet to be reconnected, it will be in a position to handle all traffic.

3. Kindly also ask the Director of the telegraph office to give details for 3 days (excluding week end) of the number of telegrams received in the P.O. Bologna for transmission or re-transmission to Rome and the South of Rome and the actual numbers of them (1) transmitted and (2) sent by mail.

4857

4. What is your opinion about the functionning of the Circolo organization now in Bologna? Is the work of restoration in Bologna province being suitably organised and carried out? Please supply a schedule showing the number of telegraph offices in each province before the war, the number connected now to the network, and the number so connected during September.

Report on order given in letter CMS/1A 15th September 45 to Director PP and TT Milan.

---

1. Attached is a copy of letter CMS/1A of the 15th Sept. 45.

2. The reasons for this order may be set down as follows:

(a). 30 % of all telegrams arrive and are being sent by post due to lack of personnel and suitable instruments. 10 % are sent by post on short distance morse lines but the figure rises to 40 % on the long distance ccts.

(b). Instruments.

Whereas there is a surplus of Hughes instruments there are insufficient Quadruple Baudots and only 19 teleprinters available immediately.

Genoa Turin and Brescia have been drained of all surplus Baudots and there appears no possibility of getting any further supplies.

Assuming that Hughes instruments are too slow for long distance working we are left with teleprinters of which there is an abundant supply and for which operators can be trained within a month.

(c). Personnel.

If 10,000., telegrams per day are sent by wire and 5000., by post making a 33 1/3 % deficiency, then approx. 50 % more personnel must be taken on to cope with the present traffic. As this traffic will increase with several more long distance ccts., opening up shortly it is obvious that the figure of a 50 % increase will have to be raised to 60 % or 70 %.

The total number of operators at present employed in Milan is 150. These must be increased by 70 % or 105 in the shortest possible time if the situation is not to get completelyout of hand.

(d). An efficient teleprinter service working as shown below is the only solution to the telegraph effice bane and for this reason 100 teleprinter operators must be trained and put to work without delay.

Dear

This will introduce to you Dr. Mario Fano, Under-Secretary of State for Posts and Telecommunications, who is heading the Italian Mission to the Radio Conference called in London by the C.P.O.

Not only is Dr. Fano a personal friend of mine of long standing, but he has proved of invaluable assistance to the Allies ever since the early days in the Italian Campaign.

As soon as possible after the Armistice he crossed the lines at great personal risk, leaving his wife and son in enemy held territory. He has been Under-Secretary for Posts and Telecommunications in all of the Governments and has been unsparing in his time and efforts to cooperate with the Allies.

Dr. Fano has been active in the radio and telephone field in Italy for many years and you will find him a very well informed and competent telecommunications man.

Anything you can do to make Dr. Fano's stay in London pleasant and useful will be very much appreciated.

With kindest regards to you and all in S.T. and C., I remain,

Yours sincerely,

REF : Your 13/CAMG/59/1/55 of 27 August. 7 September 194 5

SUBJECT: Ex-Employees of the Telephone Control

TO : MFAO TO Executive Officer, Major Freese.

Your letter to HQ AC, above reference, was returned by them to Major Hayward, Telecommunications Officer, who passed the file to this Office for comment and return to you.

Instead of "Telephone Control", the list of employees accompanying your letter belonged to what the Fascist Italian Government called the "Servizio Speciale Riservato". They were employed by the Prefettura, and all of them are still on the Prefettura payroll as your letter states.

Upon my arrival in Trieste I looked through the list of these employees but found them immediately unacceptable for my Section because of their Fascist affiliations and obvious unfitness for the work under present conditions for security reasons. We borrowed the services of one technician, however, named Balani Guido, and he has since become our technical expert and is working in that capacity for us.

The situation seems to be that of Paragraph 4 of AC's reply, whereby these employees belong neither to TELVE or Stato, but to the Prefect's former private payroll. To our knowledge Balani is the only one of the group working at his same job. Two or three of the others are working in different capacities for the AMG.

The use we are making of the facilities of the "Servizio Speciale Riservato" is still a very close secret, which we hope will not be mentioned in any correspondence about the payroll status of the employees in question.

1. Reference is made to the attached correspondence relating to Comm. Dott. Carlo Baroni.

2. Upon the arrival of AMG in Verona information was furnished that the previous Provincial Director of Posts and Telegraphs (Pietro Loy) had been removed from office by the CLN and that a new Director (Arnaldo Bertani) had been appointed in his place. The latter was instructed to carry on in an acting capacity.

3. On 12 June 1945, Carlo Baroni presented himself at AMG Headquarters, Verona, stating that he had returned after a period of illness to resume his duties of Director. An inquiry made at the Verona Committee of Epuration disclosed that Baroni had left his job on 10 July 1944 and that the Committee was of the opinion that he left on account of the bombing of Verona and not on account of illness.

4. As it was by then agreed that the CLN had no executive authority, the suspension of Loy and the provisional appointment of Bertani was a matter to be effected by an order of the Provincial Commissioner. This was suggested to him in a letter under date of 18 June 1945.

5. Although not possessing a particularly forceful personality Bertani has done his job fairly well and the Provincial Finance Officer has stated that as far as the financial side of the post office is concerned that his services have been satisfactory.

SUBJECT: Comm. Dott. Carlo Baroni.

1. The Comm. Dott. Carlo Baroni, Verona PP.TT., Provincial Directorwas sick on 13th July 44, and his absence having exceeded the established term, he was temporarily suspended.

2. He is now completely recovered. He is willing to return to service and he has asked to be placed again in his position of titular of the Verona's Direction.

3. We inform you that he is a worthy official also for reasons of a political nature. Perhaps you will be good enough to let us know whether his request can be accepted. If in the affirmative, will you please issue the necessary instructions to the Regional Command concerned?

Dear Mr. Tarbell:

I thank you for your kind letter of August 14th.

We appreciate the great interest that Col. Canning and you all have taken in poor Ing. Travaglia's case.

We are doing our best to find the suitable position for Mrs. Travaglia. A few days ago I had a promise of a job for her in the pharmaceutic field, which as you said, is the only one in which the lady has had some experience.

The S.T.I.P.E.I. Company is also doing the necessary in order to give the family a completefinancial settlement.

Faithfully yours.

La ringrazio per la Sua cortese del 14 corrente.

Siamo vivamente commossi del grande interessamento che il Col.Cumming e tutti Loro hanno portato al caso del povero Ing. Travaglia.

Da parte nostra ci stiamo occupando per trovare alla Signora la più soddisfaciente sistemazione che, dati i tempi, sarà consentito darLe. Proprio in questi giorni ho avuto qualche affidamento per una sua occupazione nel campo farmaceutico che, come Ella mi segnala, è l'unico nel quale la Signora abbia una qualche esperienza.

Anche da parte della Società S.T.I.P.E.L. si sta facendo quanto è necessario per dare alla famiglia una cospicua liquidazione.

Mi creda, egregio Colonnello, con tutta deferenza e cordialità

Suo aff.mo

CIVILIAN LABOUR INFORMATION BULLETIN
NUMBER 13
(applicable to all Allied Forces)

OFFICIAL.

A. = SUPPLY OF CIVILIAN LABOUR (all Units).

1. All Civilian workers required for the Allied Forces are now obtained through the "Collocamento"(the Labour Exchange of the Italian Provincial Labour Offices). Action to be taken by Units is as follows:-

2. U.S. Units in Rome requiring civilian workers apply as heretofore to the US Civilian Labour Office, which arranges supply. This office is now situated on the ground floor, 26 Viale Africa, telephone 588436.

3. British Units in Rome requiring civilian workers apply as heretofore and as laid down in Para.11(c) of "Regulations for the Employment of Civilian Labour (Italy, Sicily and Sardinia)" to 2902 C.L.U. who arrange supply. 2902 C.L.U. is now situated at 26, Viale Africa, telephones :

Administrative Office .. .. 588465.
General .. .. 588462.
Labour Supply .. .. 588435.

4. The Rome Collocamento is also now situated at 26, Viale Africa and is controlled, in so far as the supply of labour to the Allied Forces is concerned, by the U.S. and British Civilian Labour Offices.

5. U.S. and British Units obtaining in Rome (e.g. Rieti, Aquila) should obtain civilian workers required from the local Collocamento.

6. British Units should ensure that they are in possession of authorities required under para.12(c) of "Regulations for the Employment of Civilian Labour (Italy, Sicily and Sardinia)."

7. In order that the Collocamento may function efficiently it is necessary that its records of employed and

ensure that the workers are in possession of a Collocamento document before they are engaged. Units are also requested to instruct all present workers that they should obtain such a document if they are not already in possession of one, and, as far as possible, to ensure that workers observe this instruction.

8. Units are requested further to assist by instructing workers who are dismissed to report back to the Collocamento to register themselves as unemployed and available for work elsewhere. Attention of British Units is drawn also to para.11(f) of "Regulations for the Employment of Civilian Labour (Italy,Sicily and Sardinia)." All Units discharging workers for reasons entailing Blacklisting should report them in full, giving name and nature of offence, to the U.S. Civilian Labour Office or 2902 C.L.U., as applicable.

9. The registration of all workers of the Allied Forces will help to complete the records of the Collocamento and will facilitate the recruiting of satisfactory workers.

CONDITIONS OF EMPLOYMENT, WAGE SCALES, BONUSES AND ALLOWANCES, FOR CIVILIANS EMPLOYED BY THE ALLIED FORCES IN ITALY, SICILY AND SARDINIA

APHQ Administrative Memorandum Number 34, 1945, is amended as follows:

1. Paragraphs 1a and 1b are rescinded.

2. Paragraphs 6b, c and d are rescinded and the following substituted therefor:

"6. b. The following provisions are generally applicable throughout Italy, Sicily and Sardinia at the discretion of District, Base Section or equivalent commanders for the territory under their control.

(1) Italian Civilian directly employed by the Allied Forces may be paid, in addition to the amounts established in paragraph 4 above, all or part of cost-of-living bonus as set forth in Appendix "H" hereto.

(2) The maximum permissible bonus which may be paid is determined by the basic wage applicable to the individual. For this purpose, the basic wage is the remuneration due to an individual upon completion of eight (8) hours work if paid on a daily basis; 26 days work if paid on a monthly basis, or 30 days work in case of Hotel, Mess and Club employees. The cost-of-living bonus is not part of the basic wage and will be excluded, for example, from the computations and adjustments for overtime pay and female differential.

(3) In the case of an employee who does not work a full pay period the proportion of the bonus which may be paid is to correspond with the proportion of basic wages, excluding overtime, earned during that period." 4836

Dear Ing. Foddis,

I have received a note from Col.Cumming, written just before he left, asking whether anything could be done to obtain work for Signora Travaglia.

Apparently she is left in a bad financial condition, and has a family of two young children to keep.

She has had no office experience but has been employed on pharmaciat's work.

Is there anything that S.T.E.T. can do in her case? I can appreciate of course that there may be difficulties.

Kind regards.

Yours Sincerely,

Milan 6 August 1945.

Dear Miller

This is to introduce Signora TRAVAGLIA of Via Lazio 6, Rome, wife of the late Ing. TRAVAGLIA, whose services were lent to us by Stipel.

She has two small children, 4 and 2 years, and is going to be in a bad way financially as there seems to be no prospect of any money coming in at all.

Is there any prospect of finding employment for her, through, say, the good offices of Dott. Fano.? It may be difficult as she has had no previous office experience, although she was employed before her marriage in a pharmacists' shop, but I thought perhaps if any Government Dept. was taking on additional staff, it might be possible to fit her in.

Anyway, if anything could be done for the poor soul while we are still here, it would be a great kindness to her.

Yours sincerely

I have received your letter dated 6th August 45 regarding Ing.Biondo.

I know very well this Engineer,because I had a relationship with him in the yearn before the war,and also because I met him at the R.C.A. in America.

He represents an American Firm,and therefore I cannot understand why he should be entitled to visit the Italian Telegraph,Telephone and Postal Offices,whilst no specifical reasons have suggested to do it.

Having in view the above,I am definitely contrary to grant the requested authorization,unless that reasons actually unknown by us modify this my first impression.

Best compliments.

Ho ricevuto la di Lei lettera in data 5 agosto relativa all'Ing. BIONDO.

Conosco benissimo questo Ingegnere e per rapporti con lui avuti negli anni precedenti alla guerra e per averlo incontrato alla A.C.A. in America.

Egli rappresenta una Ditta Americana e non comprendo pertanto per quali ragioni egli dovrebbe essere autorizzato a visitare gli uffici telegrafici, telefonici, postali italiani, quando nessuna ragione specifica lo imponga e lo consiglia.

Premesso quanto sopra, sarei nettamente contrario a concedere l'autorizzazione richiesta, a meno che, considerazioni a me ignote portassero a modificare questa mia prima impressione.

Cordiali saluti.-

Referring to your letter N°T.22.CS of July the 30th, concerning the Milan telegraph Office, your attention is invited to telegram n°.1607180 of 31st July, addressed to Capt.Alasia and for information to your of which, in any case, a copy is herewith enclosed.

C O P Y.

As from information received, it is understood that the Milan telegraph Office is not in a position to activate many communications because of lack of personnel. Paren - So as to make the service normal, the Milan Provincial Direction could be invited to make previous agreements with the Allied Command whenever they think it opportune - Paren - Amongst other matters, the same Direction could: see if it is possible to appoint for the telegraphs some suitable employees, presently assigned to accounts or administrative offices, substituting them with personnel entitled to be returned into service, or directly employing for that service persons having a good knowledge of apparatus, and having the necessary qualifications. Paren -

Your attention is also invited to para 106 R.6.2960 30th December 1943, which makes obligatory for everybody, whenever it is necessary, the participation in their turn of overtime work - Paren - A reply would be appreciated.

The position regarding shortage of staff in the telegraph office at Milan is serious and will deteriorate still further as the services increase. I attach letter from the Director of Telegraphs, Milan shewing (a) the number of staff allocated with their disposition and (b) the minimum numbers required.

Under (a) you will note that 49 are employed in other departments. It was suggested that these should be returned to their proper sphere, but the Director assures me that they were put on jobs with regular hours owing to age or state of health and that returning them to the irregular hours of the telegraph department would only result in their going sick.

A further 27 have been suspended for political reasons and their cases have still to be considered by the Epuration committee.

That is a total of 76 non-effectives and immediate replacement of 51 is required.

That is a total of 76 non-effectives and immediate re placement of 51 is required.

The Director seems to be unable to do anything and as the Ministry is fully aware of the situation, it is suggested that they might be asked to do something on a national level. The quickest method of obtaining operators would be either to take on typists and train them as teleprinter operators, or to train girls specially for this work. A qualified typist could be trained within two weeks or even less. An untrained learner could be taught teleprinter operating within two months. The above appointments would be temporary with a possibility of permanency.

As a temporary relief, it is suggested that a modi fication of traffic circulation might be ordered. For example, Sicily is routing all its traffic for Genoa and Turin to Milan for transmission, but if it routed this traffic via Rome which has direct circuits to Genoa and Turin, it would not add to the number of transmissions and would transfer the load from Milan

to Rome. This should be sorted out between the various tele graph directors themselves but there is a lack of co-opera tion and someone on top with a big stick seems to be requi red.

Con riferimento a quanto espostole succintamente questa mattina in Sala Apparati, confermo che, pur avendo già dato assicurazioni agli Alleati come si è pronti a farlo con il Superiore Ministero, l'istituzione del servizio di stampa con Roma, sarà assicurato, ma non si può fare altrettanto per il resto della corrispondenza privata.-

L'attuale situazione numerica del personale non è suscettibile di miglioramento con i mezzi ordinari ed è la seguente :

Resterebbero quindi allo scoperto allo stato attuale delle cose 51 unità da rimpiazzare con straordinario per un complesso di 51x 7 = 357 ore da distribuirsi fra i 169 impiegati effettivamente disponibili in Sala Apparati con una media di 2 ore giornaliere a carattere continuativo e suscettibile di aumento nel caso di un intempestivo aumento o sovraccarico di traffico, per arrivi per posta o cattivo andamento degli apparati.

Le attuali minorazioni fisiche del personale per denutrizione e l'irrisorio compenso col quale si retribuisce attualmente lo straordinario, autorizzano, in coscienza, il dirigente del servizio ad infierire sul personale, che per metà esatta è femminile,

per costringerlo a tali prestazioni?

Comunque della cosa si è investita la locale Direzione Provinciale, la Federazione dei Sindacati P.T.T. ed il C.L.N., i quali ultimi, compresi delle giuste ragioni addotte dal personale e d'altra parte preoccupati di assicurare la continuazione dei servizi, in due tempestosissime riunioni del personale stesso, hanno potuto a fatica, ottenere che alle sopradette prestazioni ci addivenga in linea transitoria, ed in attesa di solleciti provvedimenti.

Questi si riassumerebbero :

1°) - Nel richiamo degli impiegati distaccati in altri tempi agli Uffici Amministrativi di questa Direzione Provinciale;
2°) - Nella riassunzione di impiegati allontanati dall'Amministrazione per anti-fascismo;
3°) - Nel richiamo di quei giornalieri licenziati per mancanza di lavoro;
4°) - Nell'assunzione di nuovo personale.-

Per il primo provvedimento, e cioè per il rientro dei distaccati agli Uffici Amministrativi, ostano le seguenti difficoltà:

9 sono irraggiungibili perchè trovansi nell'Italia centro-meridionale con posizione indefinita;
2 sono allontanati per incompatibilità politica in questo Ufficio;
3 sono distaccati al locale C.L.N.;
1 distaccato alla Federazione;
1 " " Prefettura quale dirigente di quei servizi elettrici;
1 " " Azienda Telefonica di Stato come geometra.

Degli altri 32, una parte deve essere prima adeguatamente sostituita con altri elementi dalla Direzione Provinciale, mentre la maggior parte nicchia ed ha già cominciato a cavillare, perchè anziani, cagionevoli di salute e a suo tempo favoriti nell'allontanamento perchè rappresentavano unità sulle quali non si poteva contare, per l'esonero da certi servizi, per gli orari speciali, per l'esenzione dal servizio notturno, straordinario e simili.

Per quelli allontanati, ed in numero limitato, per anti-fascismo, mentre se ne è persa ogni traccia si deve ritenere che si sono sistemati e non rientrerebbero a far parte di questa Amministrazione e comunque la loro assunzione è sempre disciplinata all'ordine del Superiore Ministero e certamente solleverebbero delle questioni giuridiche per la loro eventuale reintegrazione

Per quelli licenziati con la opportunistica motivazione della mancanza di lavoro non sarebbe il caso di parlarne perchè rappresentano un gruppo di indesiderabili che concorse al suo allontanamento per partito preso, per sganciarsi degli obblighi della mobilitazione civile e che comunque fecero sudare sette camicie a questa Direzione tanto da avere ognuno una cartella personale da far drizzare i capelli (!)

Quanto all'assunzione di nuovo personale, manca a mio parere, a questa Direzione Provinciale il mezzo adatto ad allettante di ingaggio, in quanto, mentre non si può dare nessuna as-

sicurazione sull'avvenire si dovrebbe retribuire ad ore di straordinario e cioè per la complessiva cifra irrisoria di £. 21 LORDE AL GIORNO.-

Quanto all'ultimo suggerimento di far venire in missione a questo Telegrafo, impiegati di altri Centri, mentre la Direzione Provinciale ha subito provveduto ad interpellare telegraficamente le consorelle di Torino, Genova, Como, Bergamo, Brescia, Varese, Pavia, Cremona, Novara, Alessandria e Sondrio, si può essere quasi certi dell'esito nullo in quanto, a parte le difficoltà di alloggiamento, ognuno sa che la diaria odierna di missione non è sufficiente a coprire le spese di una permanenza a Milano.

Questa la situazione incontrovertibile, suscettibile di aggravamento con le nuove comunicazioni in vista di riattivazione e con un traffico che, in questi due ultimi giorni ha già raggiunto i 23.750 telegrammi giornalieri.

Referring to this morning's short conversation in the "SALA APPARATI", I confirm that, not withstanding the fact that we have already given assurances to the Allies (as we are ready to do twith the superior Ministry), the constitution of a Press Service with Rome can be assured, but the same can't be applied to the other private correspondence.

The actual staff situation, which cannot be bettered with ordinary means, is the following:

Employees present in the payrolls: 348

for release	34
for weekly rest	20
for sickness (average)	7
for direction and Secretary's office business	27

Total amount	179
Employees effectively present	169

Places to be covered during the 24 hours:

Acceptance	10
Delivery and booking	19
Messengers	6

at disposal for mess service or re-placement of eventual absent	20

Considering the actual conditions of physical inferiority of the personnel, because of the scarce food, and the ridiculous amount of money, by which the overtime is actually being retributed, could the director be sincerely authorized to force the personnel (half of which is female) to carry out these extraordinary duties? Any way the above matter has been enteresed to the local provincial Director, the "Federazione dei Sindacati P.T." and

the C.L.N. The C.L.N. fully convinced of the right reasons set out by the personnel, and on the other hand to ensure the uninterrupted working of the service, during two very stormy meetings of the personnel, could only by many efforts obtain that such overtime service be made as a temporary provision, and awaiting quick and definite provisions.

Which should be the following:

1) to call back the employees previously sent to the Administrative Offices of this Provincial Direction.

2) to re-employ the clerks, who had been sent away for anti-fascist activities.

3) to call back the daily workers, dismissed for lack of work.

4) to employ more personnel.

Against the first provision (return of employees assigned to the Administrative Offices) stand the following difficulties.
9 of them cannot be reached, because they are in Central and Southern Italy, carrying out not well defined duties.

2. have been removed from this Office for political activities.

3 are assigned to the local C.L.N.
1 is assigned to the Federazione.
1 is assigned to the Prefettura as director of its electrical services.
1 is assigned to the Azienda Telefonica di Stato as "geometra".

Out of the other 32, a part must be adequately substituted with other elements of the Provincial Direction, whilst the majority of them grumble, and have already started making excuses because, being of a certain age and of poor health, they were favoured by being removed from this Direction, because we could not reckon upon them, they being excluded from certain services for special office time, exemption from extraordinary and night service and

There is no trace of those (of a limited number), discuissed for anti-fascism. It is believed that they have already found work, and that they will not enter again this Administration. At any event their employment is subject to the orders of the Superior Ministry, and they will surely raise some juridical questions for their eventual reintegration into the rank they previously held.

declassified E.O. 12356 Section 3.3/NND No. 785015

So far as those opportunely dismissed for "lack of work", are concerned, it would be better not to speak about them, because they represent a group of undesirable people, who purposely concurred in their own dismissal, so as to avoid the civil mobilization and who caused so much trouble to this Direction, that each one of them has personnel file sufficient to make ones havi stand on and!!!!! simply awful.

With regards to the engagement of new personnel, we lack, in my opinion, suitable means to facilitate same, because whilst we are not antitled to give them any assurance, we should have to them pay on the basis of extraordinary hours, that is for the total ridiculous amount of 21 gross Lire per day.

The last suggestion of letting us have on mission at this telegraph employees of other centres. The Provincial Direction has asked by telegram the Directions of Torino, Genova, Como, Bergamo, Brescia, Varese, Pavia, Cremona, Novara, Alessandria, and Sondrio: but we are almost certain that the result will be negative, because, apart from the difficulty of lodging, everyone knows that the actual daily allowances of mission are not sufficient to dover the expenses of a permance at Milan.

The above is the real situation, which might even become worse with the re-opening of the new communications and with a traffic that, during the last days has already touched a peak of 23750 telegrams per day.

STOCCHETTI.

Elice, 22 July 1945

TO : H.Q. A.C.

The undersigned Valenti Luigi of Leonardo born at Collecorvino and living at Elice declares the following:

In 1944 while doing service with the commissariat (food stuffs at Elice (Pescara) I was dismissed by the fascist spy Verrochio Alfredo husband of a german, the commissioner of the Prefecture and by the communal secretary Di Gregorio Giuseppe because according to them a circular ordering to reduction of personnel had to be obeyed.
This circular was not obeyed in any of the communes my wife was a teacher but took no salary because the Provveditorato had been sent to Pescara and the means of communication were non existent owing to the war.
I may add that my wife had burnt her arm and was in bed for 11 months.
I was dismissed on January 1st and on Jan. 4th my father's house was burnt down at Collecorvino by fascists after they had stolen the contents the reason being that my father had been found hiding english parachutists and american prisoners of war. My father was left without anything except the clothes he wore and could give me no help.
It is useless for me to tell you what I, my wife and my 4 small children suffered until ~~the~~ we were liberated on June 13th by the Allies.
When I went to see my father at Collecorvino the patriots of this Commune arranged for me to be readmitted to my old place but the mayor, (now epurated and precisely Mazzocco Aurelio) refused to allow it.
When the new Commissario Prefettizio, Dottor Carmelini came he decided with the communal secretary Vandi Nicola and signed a deliberation in my favour, but shortly after, for reasons that I have never been able to find out, the Prefecture that had taken my part up to that date, refused its approval saying that one employee was sufficient.
The undersigned wishes to advise you that the employee now in service is Mazzocco Zopito of Giuseppe, now to be epurated as African legionary and recommended by fascism (enclosed copy of original fascist letter recommending the harber Zopito for a place in the Commune). He always collaborated with the germans and received the prise of a german warrant officer.
The Committee of liberation signed Mazzocco Zopito's epuration byt the capacity of italians to make the world go on by swindees managed to make this denunciation disappear.
I beg your Command to judge if it is fair that the prayes of a father of 4 children and in great need should be refused. When the wife's pay is not sufficient even for 15 days keep?
There is need of an employee because every now and then the commune has to assume help from outside.
It is fair that an employee who was a black shirt should be working for the Commune? As justice cannot be obtained from italians I ask it of the Allies in the name of the generosity may father showed in those sad days of Dec. 1944.
The houses burnt at that time were three, the other two belonged to my uncles because there were 11 englishmen hidden there with their arms and radio transmitting. I want to find work here near my home and family. I an thirty and could work at the post or telegraph or do anything I am a willing worker, and I am honest and willing to do anything.

I hope you will kindly help me .

3. It has been noticed in travelling that the same position holds good in many offices. You are probably aware of the position but it is thought that the mattershould be brought to your attention as it could be reasonably quickly rectified if each office concerned commenced at once to recruit and train a few operators at a time.

SUBJECT: Threatened Telephone Strike

TO: M.C. Lombardia Region Att: Telecomms Officer.

1. Have just received minutes of meetings held in Lombardia Region and wish to congratulate you on result achieved. Your handling of the situation was excellent and is a good example of the method to adopt in such circumstances.

2. In connection with labor unrest and unrest in the telephone industry in the North, there called on me last week a delegation from Genoa with the proposal that metered service be suspended in Genoa until January 1st,1946 (or an earlier date if salary scales reached Southern Italy levels in the meantime). The representatives of the FILTI employees committee stated only if metered service were suspended were the employees willing to accept a salary scale lower than in the South. It is understood that ACC Labor Officer will not authorise Southern wage scales.

3. A letter has also been received from the Ministry of P.T. asking for the suspension of new tariffs and metered service in Milan, Turin and Genoa. It is thought that the Minister intended to ask only for the suspension of application of metered service but clarification has been requested.

4. There is talk that in Italy, South of the Leghorn line an increase in the number of calls allowed, before application of charge per call, will be granted. If such an increase is allowed, it is proposed to implement it in the North. This would of course have the effect of a reduction in rates.

5. From our conversation of July 22nd, 1945 it is understood that the situation in Genoa is quiet. However, it is thought that in view of my agreement with the Genoa delegation to give them an answer in a week, ~~you~~ you should arrange to inform them that at the moment no final answer can be given to their request but that the situation is under study and will be considered.

PRESENT : Major Beardmore and Major Prentice, 14 L. of C. Signals, Lt.Col. Cumming and Major Holland A.M.G. Communications.

1. Majors Beardmore and Prentice spoke of the possibility of a strike of civil telephone personnel in the near future, and the need for an assurance that sufficient key personnel would remain on duty to maintain military services.

2. After discussion, it was agreed that the following should be covered :

a. Aziendm di State and STIPEL should make a list of personnel necessary for the operation and maintenance of military and A.M.G. Communications services, to include exchanges, repeater stations, test frames power supply, and line maintenance .

b. Labour organisations will be informed that the persons named on the lists must not be prevented from coming on duty and will be protected by means of passes from persecutions by local pickets. In this connection it might be advisable to inform the organisations concerned that absence of the above personnel will be regarded as form of sabotage.

c. Further protection might be afforded by means of press notices or other form of publicity.

1. Col. 3. The Post and Telegraph C.L.N. Representatives who had grudgingly assented to this acceptance of responsibility on the part of Ing. BALDINI for the Azienda at this point breakout into a long complaint about wage conditions and lack of food and asked that the A.M.G. representatives present take steps to better their financial lot before they could guarantee Azienda and Telegraph COOPERATION.

4. At this point Ing. FERRETTI and Dr. MAIGA joined the meeting and strongly upheld their C.L.N. 's views.

./.

Declassified E.O. 12356 Section 3.3/NND No. 785015

5. A.M.G. now pointed out that:

(a). The wages question was already being debated in Rome and a full settlement was expected to be reached at any minute.

(b). The Army had to have their circuits safeguarded at whatever cost.

(c). If Azienda and Telegraph heads could not guarantee full service on Military circuits during a strike there was the danger that the Army would step in and take over all circuits immediately with considerable hardship to both state organisations as a consequence.

6. The conference broke up with the two dissenting members vowing to reach an agreement with their employees regarding full time service on all Military circuits during a strike and a final conference was arranged for the 12th.

7. In case of a power supply failure STIVAL assured that Army Nos in the 12000 - 13000 series also Dial 155 could run on battery power for 24 hrs if no civilian services were allowed but that after this petrol gens would have to be started up to charge the bttys. 1.- It is unfortunate that the arrangements for utilisation of Capt. Gigli's services were made without my knowledge since I have on this account missed certain opportunities which presented themselves in the early days to obtain technical assistance locally.

2.- I have not heard anything of Capt. Gigli since he visited Torino with Col. Millar on the 8th. May. I cannot agree that in any case he could give satisfactory assistance, technical or otherwise, whilst stationed in Milano.

3.- My letter of 28th. May was in reply to Col. Millar's undated personal letter suggesting that I might employ Lt. Amedeo Bonanno as technical assistant.

4.- Absence of any mention of Lt. Bonanno suggests that he may now not be available.

5.- If this be confirmed I will do all I can at this late stage to secure such assistance as I require locally.

Refer: CSO's (2 Dist.) Circular 2538/7 x of 18 June.
Your CMS/11 of 22 June.

1. With reference to para 11 of the above circular, the most suitable system of payment is to allow the Company to employ and pay its operators in the normal way; for it to submit a bill periodically for Military or AMG certification; and for it then to claim the money from the Italian Government.

2. There is no need for AMG to actually make payments.

3. Can the above system be used if not already in operation? It avoids complications with social insurance, etc.

Subject: Employment of Italian Switchboard Operators.

CONFIDENTIAL.

HQ 2 District, CMF.
2538/7 I.

18 Jun 45.

O.C. 14 L of C Signals. (10)
O.C. Sigs 215 Sub Area. (2)

1. C30, L of C Italy has made it quite clear that no increase in the number of British T3BOs available for employment on Military Switchboards in N.W. Italy can be expected. Rather we must anticipate a progressive reduction both in numbers and quality of personnel.

2. Existing switchboard commitments have already strained our personnel resources to the limit, and it cannot be said that maximum traffic expansion at Milan, Turin or Genoa has yet been reached, however firmly we may restrict new direct connections to the Area and Sub Area switchboards. We may expect some relief at Leghorn, and it is hoped Turin will not expand to any marked degree.

3. Two problems have to be considered.

(i) The provision of adequate switchboard or switching facilities for this HQ, Areas and Sub Areas, Movements, the Royal Navy and R.A.F.

(ii) The provision of facilities for the many miscellaneous units, formations or organisations of a military or quasi-military nature which will inevitably "sit down" all over the District.

4. Problem 3 (i) remains the prime concern of L of C Signals. In this connection it will be necessary for Staffs to be informed that "adequate" switchboard facilities must be construed to mean basic facilities and not envisaged as facilities on the lavish scale frequently available in S. Italy in the past. Areas/Sub Areas must be able to speak to District; Movements in towns to Movements this HQ; calls to AFHQ and places South of Bologna otherwise than from a District or similar superior HQ level must be few and far between.

Our energies must be directed to ensuring that there are sufficient British TSBO's to provide these essential services. This may involve the use of personnel of other trades on the boards to keep sufficient positions manned.

5. Problem 3 (ii) will be dealt with as follows:-

(a) All units in Milan, Turin, and Genoa will be given auto facilities. This will enable them to communicate freely with their immediate Area/Sub Area or HQ which will have like facilities.

Our energies must be directed to ensuring that there are sufficient British TSBO's to provide these essential services. This may involve the use of personnel of other trades on the boards to keep sufficient positions manned.

(a) All units in Milan, Turin and Genoa will be given auto facilities. This will enable them to communicate freely with their immediate Area/Sub Area or HQ which will have like facilities.

Staffs must be requested to encourage units to choose locations within these Town Auto Areas. It will also be necessary to watch the situation carefully to ensure that the military [illegible] subscribers connected in any town do not overload the local Area/Sub Area switchboard.

(b) Units outside the Milan, Turin and Genoa urban auto systems, will normally be connected to the local civil system. They will not, except in the most unusual circumstances, be given long private wires to the nearest Military manual exchange.

6. It is appreciated that units given service as at 5(b) above are going to receive poor service on account of language difficulties, circuits already being loaded with Italian civil traffic and Italian operating procedure.

33-2

7. To alleviate this will you please arrange to contact the Regional Communications Officers and local Telephone Company managers as soon as possible, and explore the possibility of obtaining bilingual civilian personnel for employment on the switchboards in the following towns:-

Pavia	Como	Cremona	Savona
Piacenza	Brescia	Alessandria	Imperia
Parma	Bergamo	Vercelli	La Spezia
Novara			

(This list may be extended at a later date)

8. Where suitable personnel are forthcoming in any of the above towns, one position on the existing civil switchboard will be converted into a military position manned by them. This position will be given outlets to the nearest major military switchboard, and all Allied units, formations or organisations in the vicinity will be served by it.

9. A similar policy will be pursued in Milan, Turin and Genoa, except that steps will be taken immediately to staff one position on the military switchboard with Italian English speaking operators. Incoming trunk junctions from the towns mentioned in para 7 above will normally be connected to this position.

10. It is appreciated that the above policy may prove difficult to implement. It may be necessary to train or partially train suitable personnel, and it is unlikely they will be prepared to work outside their own towns. There may also be difficulties in connection with night shifts.

11. Pay and Discipline.

Arrangements have already been made in the Liguria Region for any suitable personnel who may be forthcoming to be paid under AMG arrangements, and to be under the local telephone company for discipline. This system might well be tried in the other Regions.

12. Please therefore proceed on the lines laid down in this letter, reporting periodic progress and all difficulties to this office. The closest liaison should be maintained with the AMG Communications Officers and Telephone Company managers.

SUBJECT : Capt. GIGLI.

TO : HEADQUARTERS ALLIED COMMISSION
att: Communications Sub Commission.

1. It was considered advisable to employ Capt. GIGLI as a civilian employee, to facilitate the question of obtaining accommodation and food in Milan. As a matter of fact, it might have the opposite effect. The Milan A.M.G. mess is for Allied and Italian officers, and for American and British civilians of officer status. Italian civilians are definitely excluded, as rations cannot be drawn for them.

2. No question has been raised by the Mess Committee regarding Capt. GIGLI's position, since he has permission to wear his uniform, but in view of the fact that his name appears on the civilian pay-roll there is always the danger that it might arise.

3. In the circumstances, it is considered advisable that he should return to the Navy, but remain attached to AC/ A.M.G. The situation is such in the North that the accommodation facilities are the same in all Regions and he would have less difficulty in using A.M.G. messes and accommodation as a naval officer than would have as a civilian . In addition, he would be in a better position for getting around: e.g. he is going to Turin in a few days and will spend some time between there and Genoa.

Caro Pagni,

essendosi qua modificata la mia posizione, è opportuno che io rientri in Marina, lasciando l'A.M.G. (ciò per quanto riguarda lo stipendio).

Visto che Lei sta curando tutte le mie questioni, La prego di informare di questo il Col. Rosani e sistemare la faccenda a partire dal 15 giugno.

Nell'occasione mi sarebbe anche molto utile (vorrei dire indispensabile) che mi fosse rilasciato un foglio di viaggio per Milano, sì da regolarizzare la mia posizione. All'occorrenza ritengo che S.E. Pano non avrà difficoltà a fare il solito fonogramma ed aventualmente anche una lettera (il che sarebbe meglio) per segnalare l'opportunità che io continui a fare il lavoro attuale. Di questo veda lei.

Spero che entro pochi giorni potremo sentirci per telegrafo.

Molti ringraziamenti e saluti.

SUBJECT: Strike of telephone employees, Naples.

TO : Brig. General Upjohn
Vice President
Civil Affairs Section
(Attention: Major Palmieri)

1. Col. Pennycuick, Provincial Commissioner of Naples Commune, reported yesterday, via telephone, the existence of considerable unrest among employees of SET, the telephone company at Naples. A number of strikes have already taken place south of Naples, and a strike was threatened among the employees of the company at Naples. This strike was averted by the intercession of Col. Pennycuick, who is of the opinion that the employees have a justifiable grievance.

2. The cause of the disturbance centers around the activities of one Pellegrini, formerly head of the company. Pellegrini has been removed from office by epuration, but it seems that there is an appeal pending. According to the employees, Pellegrini is nevertheless taking an active part in the affairs of the company. He is frequently seen in the company of the manager and other directors, and makes free use of the company cars. In addition he has been consulted by PBS Officer, Major Koenig.

3. According to Col. Pennycuick, a serious work stoppage is an immediate prospect as a consequence.

4. It is suggested that an immediate investigation be undertaken as to:

(a) The facts concerning Pellegrini's participation in the affairs of the company notwithstanding epuration, and

(b) The reason why Pellegrini's activities should lead the employees to take such an interest in the matter.

5. Neither Labor Sub-Commission nor Communications Sub-Commission have officers available to conduct this investigation. Moreover the Pellegrini case, it would appear, has a long background and someone familiar with it should undertake the job.

TO: H.E. The Under-Secretary of State for P.T.

1. Reference is made to your letter of 6th June, 1945 Prot. S/13/32541.

2. The question of whether or not Italcable should appoint a representative in the U.S. and the relative merits of candidate for the position are questions on which the Allied Commission is not in a position to express an opinion.

3. If a representative is appointed the immediate problem which arises is the method of paying him and providing him with funds.

4. Any such payments require Foreign Exchange for which a U.S. treasury license is necessary.

5. Application for a license should be addressed to the United States Treasury Department giving representative's name and address, estimate of monthly expense and salary and be accompanied by a statement from the Italian Treasury to the effect that it is willing to allow Italcable to have the necessary exchange. Application should then be given to the Representative of the U.S. Treasury Dept. at the U.S. Embassy in Rome. His Name is Mr. Henry Tasca.

6. It is suggested you consult the Italian Treasury as they are fully conversant with the routine since several Italian Banks have already named representatives in the U.S.A.

AL MINISTERO DELLE POSTE E TELECOMUNICAZIONI
Gabinetto di S.E. il Ministro
R O M A

OGGETTO: Rappresentante Italcable a New York.

1°- Questa Società ha avuto fin dalla sua fondazione un ufficio di rappresentanza negli Stati Uniti d'America, che era retto ultimamente dal Com.te Guidow Sansoni residente a New York.
In seguito al decesso del Com.te Sansoni, avvenuto nel dicembre 1942 e cioè dopo l'interruzione dei rapporti col Nord America, la Società è rimasta senza alcuna rappresentanza negli Stati Uniti.

2°- La necessità di tale ufficio di rappresentanza è particolarmente sentita per l'espletamento delle numerose pratiche relative alle azioni sociali circolanti negli Stati Uniti, quali i trapassi dei cerrificati, la loro stampigliatura, il pagamento dei dividendi, la notifica delle assemblee e quant'altro può riguardare i 1800 azionisti residenti colà. La questione ha perciò un aspetto politico e di prestigio niente affatto trascurabile.
Inoltre concorrono ragioni di comodità manifesta per i rapporti con le Grandi Compagnie americane di Telecomunicazioni e e per le forniture di materiali.

3°- Abbiamo già avuto due offerte di servizi da parte dei signori Luigi Berizzi e Giovanni Girardon, ambedue residenti a New York.
A nostra volta abbiamo interessato S.E. Tarchiani, R. Ambasciatore a Waghington, per avere informazioni sui due suddetti nominativi e queste ci sono ora pervenute favorevoli nei riguardi del Girardon. 4783

4°- Non è d'altra parte possibile giudicare di qui sulla effettiva rispondenza del Sig. Girardon ai requisiti necessari per assumere la nostra rappresentanza, ma in considerazione dell'urgenza di provvedere in qualche modo a sistemare l'argomento fin da ora saremmo propensi ad affidargli la rappresentanza stessa in

5°- Ciò posto prospettiamo a Codesto On/le Ministero:

a) - la opportunità di provvedere nel senso suesposto e quindi di volerci favorire il Suo benestare;

b) - la eventualità di sottoporre la proposta di nomina alle Autorità Alleate, per il gradimento della persona del Girardon.

S.E.T.

1. Under authority granted in para. 3 of A.F.H.Q. Administration Memorandum # 56 dated December 9th, 1944 employees of the Telephone Concessionary Companies, Azienda di Stato and Circoli are entitled to midshift meal and supplementary rations if under Italian Law they are classified as heavy workers.

2. There have been submitted to HQrs. A.C. , Food Sub-Commission lists as attached of workers of the above organizations who as of April 1st, 1945 were engaged in work of direct interest to the Allied Forces and issuance of supplementary ration scale 1 and midshift meal or equivalent rations is authorised. It is agreed that numbers of employees will vary from those shown on list due to changing conditions.

No. mid Fbe Scale B.(2)

3. In order to draw these rations it will be necessary for organizations to apply to SEPRAL, AMG, or Army as indicated on the attached lists. Such applications must be certified to by the nearest available Signal Officer having knowledge of the fact that employees are actually engaged in work of direct interest to Allied Forces. This Officer will be the Signal Officer of Base Section, District, Area, Sub-Area or A.M.G. Telecomm uni-

SUBJECT: Employment of Sig.na Binarelli Filomena

TO : Ministry of Industry, Commerce and Labour

1. This Subcommissionis plessed to submit for your consideration the name of Sig.na Binarelli Filomenn who is understood to have made application for employment with your Ministry on the 12th Febr. '45, in care of Dr. Turano, head of the Ufficio del Personale. This lady's case has been recommended to this Subcommission by the Deputy Director of Communications Subcommission of this HQ.

2. It is undertood that this lady, who is married and has children, was employed from 1941 to the month of June 1944 by the Ministry of trade and Foreign Exchange as the secretary of Dr. Leonetti, who is now an official of the Ministry of Industry, Commerce, and Labour.

3. In view of her family situation and previous employment, this would appear to be a deserving case and is therefore brought to your attention for such consideration as you may find it possible to accord.

Secondo le precedenti pratiche intercorse, codesta Commissione ci ha assegnato N°20 gomme e N°20 camere d'aria tipo 750x20 per i ns.automezzi.

Con la presente chiediamo che per due delle su citate gomme e precisamente le N° ZR 155844 e N°YR 200247 ci venga concesso il permesso per montarle su un automezzo che l'ENAC ha messo a ns.completa disposizione per il montaggio della stazione trasmittente da 100 kW in località S.Palomba. Gli estremi dell'automezzo su cui dovrebbero essere montate le citate due gomme sono:

CAMIONCINO FIAT 5/5 - Tipo 06 - targa N°38326 Roma - telaio N°144.[illegible] motore n°13461 - a benzina - permesso di circolazione N°108171 rilasciato all'ENAC in data 18/1/45 -
Proprietario dell'automezzo Sig.Frenguelli Giovanni - abitante in Via S.S.Quattro 87.

Le citate due gomme verrebbero montate sul treno posteriore dell'automezzo sopra indicato.

Data l'importanza del servizio a cui l'automezzo è preposto, e l'urgenza che questo Ente ha di portare a termine il lavoro del montaggio [illegible] del trasmettitore, siamo certi che codesta Commissione farà tutto il possibile perchè la pratica venga completata nel minor tempo possibile.

Mentre restiamo a completa disposizione per quegli ulteriori chiarimenti che potessero occorrere in proposito, inviamo i ns.sentiti ringraziamenti e saluti.

SUBJECT : Auxiliary employee - Cervetti Enzo.

The auxiliary employee Cervetti Enzo, refugee, evacuated from Leghorn since June 1944, is now at the Cinecitta refugee camp awaiting to return to Leghorn to again take up his position.

His work in the Postal and Telegraph Services of Leghorn could be very useful, and we request, therefore, that you please expedite his return to Leghorn.

He has with him his wife and child who should travel with him.

1. Reference is your letter RVIII/35/2/9 of 11 May 45.

2. Local Movements HQ have full powers to authorise or refuse conveyance of civilian personnel, and application should be made to them for permits.

3. As the men concerned are essential telephone linesmen, and the conveyance of them and their cycles by freight train within their area of duty, was a normal facility in peace time, there should be sympathetic consideration in this case, but the number should be restricted to a minimum.

4. Please advise this HQ of any difficulty which may arise. It is appreciated the matter is one of urgency in view of the civil administration of telephonic communications in your Region.

see 56 part 2nd

With reference to your letter T.22 .CS dated 30th March 1945, the Ministry of Marine advise that it was evidently the intention of P W.B. to employ the operators in a civilian capacity, whereas it should be made quite clear that they will be drafted as naval ratings for duty with P.W.B. The Ministry is arranging for suitable men to be chosen and if acceptable to P.W.B. they will be drafted in the usual manner.
