COMMUNICATIONS

ALLIED FORCE HEADQUARTERS
G-5 Section
APO 512

G-5: 311.1

14 February 1946

SUBJECT: Communications for Italian Mission to USFET.

TO : Headquarters, Allied Commission,
APO 394.

Reference conversations Col. Squader - Major Benson and Lt.
Col. Miller - Major Benson.

1. It is confirmed that as a temporary arrangement the Allied Commission may originate messages for USFET Main to be passed to the Italian Mission, and accept messages from USFET Main for passing to the Italian Government.

2. This arrangement applies only to the particular Italian Mission involved, and to such messages as may be deemed necessary by the Allied Commission.

BY COMMAND OF LIEUTENANT GENERAL MORGAN:

F. G. A. PARSONS
Brigadier
Acting Assistant Chief of Staff, G-5

1. Letter XL05 dated 29 November 1944 is rescinded. The following will be substituted therefor.
2. Cases have occurred recently of clear text messages being transmitted over civil cables outside the theater and it is necessary to draw the attention of all Signal Offices and Message Centers to existing instructions.
3. It has been ruled that no submarine cable circuits outside the Mediterranean Theater may be treated as being secure. Such cable circuits must be regarded therefore as equivalent to routing by radio.
4. a. All messages to be transmitted outside the Mediterranean Theater of Operations, whether by radio or submarine cable, will be sent in cipher. The only exceptions to this rule will be Press Dispatches, Communiques, messages liable to be published, and categories of messages authorized by AFHQ Signal Instructions or by special letters of instruction issued by AFHQ.
b. Messages classified "Confidential" or lower may be sent in the clear by submarine cable to GHQ, Middle East.
5. Originating Signal Offices and Message Centers will be responsible for insuring that messages for transmission outside the Mediterranean Theater are put into correct cipher channels. Such messages should not be sent direct to a submarine cable terminal for enciphering. This is particularly important in the case of the Naples terminal, where no cipher facilities exist.
6. The above instructions are reissued for strict compliance and will be brought to the attention of all personnel concerned with the routing of traffic.

SECTION IV

WIRE COMMUNICATIONS

ORIGINAL

16 October 1944

Item 6: Accounting for Facilities and Services Furnished the Allied Forces in Italy by Concessionary Italian Civil Telephone Companies.

1. Purpose: The purpose of this instruction is to outline a procedure to be followed, by all Signal Officers concerned, in accounting for wire communications facilities and services furnished Allied Forces by Italian Civil Concessionary Companies and is applicable to the areas of SICILY, SARDINIA, and ITALY. The procedure outlined in this instruction is to provide a means, in this specific case, of adhering to the general policies set in Administrative Memo No. 95, 1943 and Administrative Memo No. 31, 1944.

2. Signal Officers: The term "Signal Officers", used throughout this instruction, is construed to refer to CSC, AI, CIO, L of C ILM, GSO's Districts and Signal Officers, Base Sections, or Signal Officers designated by them for areas under their signal jurisdiction.

3. Requisitioning of Facilities and Services: Facilities and services required by Allied Forces, will be requisitioned either verbally or in writing but, in any case, sufficient records of such requisitioned facilities and services will be kept by the requisitioning Signal Officer to permit him or his successor to certify that the facilities and/or services were furnished the Allied Forces. Reversion of Italian territory or provinces to Italian Governmental control will not alter the authority of Signal Officers to requisition facilities and services required by the Allied Forces.

4. Acknowledgement of Facilities and Services: Facilities and services furnished the Allied Forces by wire facilities and services will commence as of the date a province is returned to Italian government control and concessionary companies will submit monthly statements beginning, as of that date, to the responsible or senior Signal Officer in the area. Certain areas not returned to Italian government control but near of the forward boundary of Italian government control, will commence accounting as of the date the remainder of the province, in which the area is located, is returned to Italian government control.

b. Statements presented Signal Officers by civil companies will be accepted and, if correct, the following certificate will be placed on the statement, signed by the responsible Signal Officer, and forwarded to the Ministero della Guerra, Direzione Generale del Genio, Divisione Lavori, Roma.

"This is to certify that the facilities and/or services listed on this statement have been furnished the Allied Forces, and that those listed constitute all the facilities and/or services of the nature specified mentioned

Item 6: Accounting for Facilities and Services Furnished the Allied Forces in Italy by Concessionary Italian Civil Telephone Companies.

1. Purpose: The purpose of this instruction is to outline a procedure to be followed by all Signal Officers concerned in accounting for wire communications facilities and services furnished Allied Forces by Italian Civil Concessionary Companies and is applicable to the areas of SICILY, SARDINIA, and ITALY. The procedure outlined in this instruction is to provide a means, in this specific case, of adhering to the general policies set in Administrative Memo No. 95, 1943 and Administrative Memo No. 31, 1944.

2. Signal Officers: The term "Signal Officers", used throughout this instruction, is construed to refer to CSC, III, CSC, I of C ITALY, CSC's Districts and Signal Officers, Base Sections, or Signal Officers designated by them for areas under their signal jurisdiction.

3. Requisitioning of Facilities and Services: Facilities and services required by Allied Forces, will be requisitioned either verbally or in writing but, in any case, sufficient records of such requisitioned facilities and services will be kept by the requisitioning Signal Officer to permit him or his successor to certify that the facilities and/or services were furnished the Allied Forces. Reversion of Italian territory or provinces to Italian Governmental control will not alter the authority of Signal Officers to requisition facilities and services required by the Allied Forces.

4. Acknowledgement of Facilities and Services Furnished the Allied Force
a. Accounting for wire facilities and services will commence as of the date a province is returned to Italian government control and concessionary companies will submit monthly statements beginning, as of that date, to the responsible or senior Signal Officer in the area. Certain areas not returned to Italian government control but rear of the forward boundary of Italian government control, will commence accounting as of the date the remainder of the province, in which the area is located, is returned to Italian government control.

b. Statements presented Signal Officers by civil companies will be accepted and, if correct, the following certificate will be placed on the statement, signed by the responsible Signal Officer, and forwarded to the Ministero della Guerra, Direzione Generale del Genio, Divisione Lavori, Roma.

"This is to certify that the facilities and/or services ¹⁴ stated on this statement have been furnished the Allied Forces, and that those listed constitute all the facilities and/or services of the nature specified mentioned to the Allied Forces for the period _____."

c. No accounting will be required for facilities and services furnished from state-owned sources and no Signal Officer will be required to certify any statement upon which appears service furnished from state-owned sources. Any service which results from the application of Allied Army apparatus or which results from permanent plant construction by Allied Forces will not be reported on statements until such time as such plant is taken over by concessionary companies.

SIGNAL INSTRUCTIONSSECTION IVWIRE COMMUNICATIONS

Item 6: Accounting for Facilities and Services Furnished the Allied Forces in Italy by Concessionary Italian Civil Telephone Companies.

1. Purpose: The purpose of this instruction is to outline a procedure to be followed, by all Signal Officers concerned in accounting for wire communications facilities and services furnished Allied Forces by Italian Civil Concessionary Companies and is applicable to the Areas of PUGLIA, SARDEGNA and ITALY. The procedure outlined in this instruction is to provide a means, in this specific case, of adhering to the general policies set in AFHQ Administrative Memo No. 95, 1943 and AFHQ Administrative Memo No. 31, 1944.

2. Signal Officers: The term "Signal Officers", used throughout this instruction, is construed to refer to GSC, L of C ITALY, GSC's Districts and Signal Officers, Base Sections, or Signal Officers designated by them for areas under their signal jurisdiction.

3. Requisitioning of Facilities and Services: Facilities and services required by Allied Forces, will be requisitioned either verbally or in writing but, in any case, sufficient records of such requisitioned facilities and services will be kept by the requisitioning Signal Officer to permit him or his successor to certify that the facilities and/or services were furnished the Allied Forces. Reversion of Italian territory or provinces to Italian Governmental control will not alter the authority of Signal Officer to requisition facilities and services required by the Allied Forces.

4. Acknowledgement of Facilities and Services Furnished the Allied Forces.

a. Accounting for wire facilities and services will commence as of the date a province is returned to Italian Government control and concessionary companies will submit monthly statements beginning, as of that date, to the responsible senior Signal Officer in the area. Certain areas not returned to Italian Government control but rear of the forward boundary of Italian Government control, will commence accounting as of the date the remainder of the province, in which the area is located,

Allied Forces in Italy by Concessionary Italian Civil Telephone Companies.

1. Purpose: The purpose of this instruction is to outline a procedure to be followed, by all signal officers concerned in accounting for wire communications facilities and services furnished Allied Forces by Italian Civil Concessionary Companies and is applicable to the areas of SICILY, SARDINIA and ITALY. The procedure outlined in this instruction is to provide a means, in this specific case, of adhering to the general policies set in AFHQ Administrative Memo No. 95, 1943 and AFHQ Administrative Memo No. 31, 1944.

2. Signal Officers: The term "Signal Officers", used throughout this instruction, is construed to refer to CMO, L of C ITALY, CMC's Districts and Signal Officers, Base Sections, or Signal Officers designated by them for areas under their signal jurisdiction.

3. Requisitioning of Facilities and Services: Facilities and services required by Allied Forces, will be requisitioned either verbally or in writing but, in any case, sufficient records of such requisitioned facilities and services will be kept by the requisitioning Signal Officer to permit him or his successor to certify that the facilities and/or services were furnished the Allied Forces. Reversion of Italian territory or provinces to Italian Governmental control will not alter the authority of Signal Officer to requisition facilities and services required by the Allied Forces.

4. Acknowledgement of Facilities and Services Furnished the Allied Forces.

a. Accounting for wire facilities and services will commence as of the date a province is returned to Italian Government control and concessionary companies will submit monthly statements beginning, as of that date, to the responsible or senior Signal Officer in the area. Certain areas not returned to Italian Government control but rear of the forward boundary of Italian Government control, will commence accounting as of the date the remainder of the province, in which the area is located, is returned to Italian Government control.

b. Statements presented Signal Officers by civil companies will be accepted and, if correct, the following certificate will be placed on the statement, signed by the responsible Signal Officer, and forwarded to the Ministero della Guerra, Direzione Generale del Genio, Divisione Lavori, Rome.

" This is to certify that the facilities and/or services listed on this statement have been furnished the Allied Forces and that those listed constitute all the facilities and/or services of the nature specified rendered to the Allied Forces for the period _____."

c. No accounting will be required for facilities and services furnished from state-owned sources and no Signal Officer will be required to certify any statement upon which appears service furnished from state-owned sources. Any service which results from the application of Allied Army apparatus or which results from permanent plant construction by Allied Forces will not be reported on statements until such time as such plant is taken over by concessionary companies.

d. When the firm account, provided for in paragraph 3 of Administrative Memo No. 11, has been established and is in operation, instructions will be issued governing the reimbursement of concessionary Italian civil telephone companies from that account under circumstances in which the Italian government does not make direct payment. Until such instructions have been issued in no case will a Signal Officer certify as to any amount charged for facilities or services and no discussion will be entered into with Italian civil telephone companies relative to any proposed rate or charge.

e. Differences existing between statements submitted by the civil companies and the records of the Signal Officer concerned will, if possible, be eliminated by direct contact between representatives of the companies and the Signal Officer and only in cases of disagreement will the matter be referred to the AGC Telecommunications Officer for the particular area.

1. Purpose: The purpose of this instruction is to outline a procedure to be followed, by all Signal Officers concerned in accounting for wire communications facilities and services furnished Allied Forces by Italian Civil Concessionary Companies and is applicable to the areas of SICILY, SARDINIA and ITALY. The procedure outlined in this instruction is to provide a means, in this specific case, of adhering to the general policies set in AFHQ Administrative Memo No. 95, 1943 and AFHQ Administrative Memo No. 31, 1944.

2. Signal Officers: The term "Signal Officers", used throughout this instruction, is construed to refer to ^{ASG, AFHQ} C Italy, OGC's Districts and Signal Officers, Base Sections, or Signal Officers designated by them for areas under their signal jurisdiction.

3. Requisitioning of Facilities and Services: Facilities and services required by Allied Forces, will be requisitioned either verbally or in writing but, in any case, sufficient records of such requisitioning facilities and services will be kept by the requisitioning Signal Officer to permit him or his successor to certify that the facilities and/or services were furnished to Allied Forces. Reversion of Italian territory or provinces to Italian Governmental control will not alter the authority of Signal Officer to requisition facilities and services required by the Allied Forces.

4. Acknowledgement of Facilities and Services Furnished the Allied Forces.

a. Accounting for wire facilities and services will commence as of the date a province is returned to Italian Government control and concessionary companies will submit monthly statements beginning, as of that date, to the responsible or senior Signal Officer in the area. Certain areas not returned to Italian Government control but rear of the forward boundary of Italian Government control, will commence accounting as of the date the area is located.

1. Purpose: The purpose of this instruction is to outline a procedure to be followed, by all Signal Officers concerned in accounting for wire communications facilities and services furnished Allied Forces by Italian Civil Concessionary Companies and is applicable to the areas of Sicily, Sardinia and Italy. The procedure outlined in this instruction is to provide a means, in this specific case, of adhering to the General Policies set in AFHQ Administrative Memo No. 95, 1943 and AFHQ Administrative Memo No. 31, 1944.

2. Signal Officers: The term "Signal Officers", used throughout this instruction, is construed to refer to ^{used} ~~any~~ ^{any} of C Italy, AFHQ's Districts and Signal Officers, Base Sections, or Signal Officers designated by them for areas under their signal jurisdiction.

3. Requisitioning of Facilities and Services: Facilities and services required by Allied Forces, will be requisitioned either verbally or in writing but, in any case, sufficient records of such requisitioned facilities and services will be kept by the requisitioning Signal Officer to permit him or his successor to certify that the facilities and/or services were furnished the Allied Forces. Reversion of Italian territory or provinces to Italian Governmental control will not alter the authority of Signal Officer to requisition facilities and services required by the Allied Forces.

4. Acknowledgement of Facilities and Services Furnished the Allied Forces.

a. Accounting for wire facilities and services will commence as of the date a province is returned to Italy ^{4/2/46} ~~4/2/46~~ government control and concessionary companies will submit monthly statements beginning, as of that date, to the responsible or senior Signal Officer in the area. Certain areas not returned to Italian Government control but rear of the forward boundary of Italian government control, will commence accounting as of the date the remainder of the province, in which the area is located, is returned to Italian government control.

b. Statements presented Signal Officers by civil companies will be accepted and, if correct, the following certificate will be placed on the statement, signed by the responsible Signal Officer, and forwarded to the Ministero della Guerra, Direzione Generale del Genio, Divisione Lavori, Roma.

1952

" This is to certify that the facilities and/or services listed on this statement have been furnished the Allied Forces and that those listed constitute all the facilities and/or services of the nature specified rendered to the Allied Forces for the period _____."

c. No accounting will be required for facilities and services furnished from state-owned sources and no Signal Officer will be required to certify any statement upon which appears service furnished from state-owned sources. Any service which results from the application of Allied Army apparatus or which results from permanent plant construction by Allied Forces will not be reported on statements until such time as such plant is taken over by concessionary companies.

d. When the lira account, provided for in paragraph 1 of Administrative Memo No. 31, has been established and is in operation, instructions will be issued governing the reimbursement of concessionary Italian civil telephone companies from that account under circumstances in which the Italian Government does not make direct payment. Until such instructions have been issued in no case will a Signal Officer certify as to any amount charged for facilities or services and no discussion will be entered into with Italian civil telephone companies relative to any proposed rate or charge.

e. Differences existing between statements submitted by the civil companies and the records of the Signal Officer concerned will, if possible, be eliminated by direct contact between representatives of the companies and the Signal Officer and only in cases of disagreement will the matter be referred to the AGO Telecommunications Officer for the particular area.

NOTE: Enter this item in your index. This is in lieu of Paragraph 1, SECTION I, Item 2.

By Command of General WILLSON:

J. A. H. GARDNER
Lieutenant Colonel,
Chief of Staff.

OFFICIAL:

appears services furnished from state-owned sources, any service which results from the application of Allied Army apparatus or which results from permanent plant construction by Allied forces will not be reported on statements until such time as such plant is taken over by concessionary companies.

d. When the line account, provided for in paragraph 3 of Administrative Memo No. 31, has been established and is in operation, instructions will be issued governing the reimbursement of concessionary Italian civil telephone companies from that account under circumstances in which the Italian Government does not make direct payment. Until such instructions have been issued in no case will a Signal Officer certify as to any amount charged for facilities or services and no discussion will be entered into with Italian civil telephone companies relative to any proposed rate or charge.

e. MOVIE OF AFHQ

SECTION III

RADIO COMMUNICATIONS

5 JULY 1944
1st DIVISION

Item 1: Radio Circuits.

1. Radio circuits in connection with the move of the AFHQ G.P. will be as indicated in the following appendices to this section.

c. Appendix "A" indicates the AFHQ Ground Force Fixed Radio Circuits now in effect and operative until 0001E on 20 July 1944. Reduction of the circuits after that date will be as directed by CSC, AFHQ.

b. Appendix "B" indicates the AFHQ Ground Force Fixed Radio Circuits to be operative effective 0001E on 20 July 1944.

Item 2: Equipment.

1. All equipment necessary for installation of channels to be operated by U. S. personnel is already in place at GUSKILL. C.O., 2623rd Signal Regiment (Prov), will be responsible for opening the channels on 20 July.

2. All equipment necessary for installation of channels to be operated by British personnel will be provided from organizational equipment of 2 CHQ Signals. CC 2 CHQ Signals will be responsible for placing circuits in operation by 20 July.

Item 3: Personnel.

1. The CC 2 CHQ Signals will be responsible for providing CSC, AFHQ, with phased troop movement lists including organizational equipment, designated so as to fulfill his missions as outlined above, and will move his units in accordance with subsequent orders issued by AFHQ. CC 2 CHQ Signals will be responsible for arrangements for billeting and office space for his unit through C.O., 2623rd Signal Regiment (Prov). See Section 1, Item 3, Paragraph 1, for personnel from 2623rd Signal Regiment (Prov).

4422

1. Radio circuits in connection with the move of the AFHQ C.I. will be as indicated in the following appendices to this section.

c. Appendix "A" indicates the AFHQ Ground Force Fixed Radio Circuits now in effect and operative until 0001H on 20 July 1944. Reduction of the circuits after that date will be as directed by CSC, AFHQ.

d. Appendix "B" indicates the AFHQ Ground Force Fixed Radio Circuits to be operative effective 0001H on 20 July 1944.

Item 2: Equipment.

1. All equipment necessary for installation of channels to be operated by U. S. personnel is already in place at CASIMAR. C.O., 2623rd Signal Regiment (Prov), will be responsible for opening the channels on 20 July.

2. All equipment necessary for installation of channels to be operated by British personnel will be provided from organizational equipment of 2 CW Signals. CC 2 CW Signals will be responsible for placing circuits in operation by 20 July.

Item 3: Personnel.

1. The CC 2 CW Signals will be responsible for providing CSC, AFHQ, with phased troop movement lists including organizational equipment, designated so as to fulfill his missions as outlined above, and will move his units in accordance with subsequent orders issued by AFHQ. CC 2 CW Signals will be responsible for arrangements for billeting and office space for his unit through C.O., 2623rd Signal Regiment (Prov). See Section I, Item 3, Paragraph 1, for personnel from 2623rd Signal Regiment (Prov).

ARMED FORCE HEADQUARTERS

SIGNAL INSTRUCTIONS

"MOVE OF AFHQ"

1 July 1944
ORIGINAL

SECTION I

GENERAL

Item 2: Situation.

1. Object: The purpose of this instruction is to:

- a. Provide necessary signal communications for AFHQ C.F. to open for full operation on 20 July 1944.
- b. Retain necessary signal communications in Algiers until the rear echelon is completely moved to CASERTA, approximately July 30
- c. Turn over to agencies remaining in ALGIERS and other parts of North Africa operational functions heretofore performed by AFHQ.

2. Status of Subordinate Headquarters.

- a. The MADIST Hq will consolidate and move into the St. George Hotel area, ALGIERS.
- b. The Center District Hq will consolidate and move into the St. George Hotel area as much as is possible and will gradually reduce installations until the headquarters is finally disbanded.
- c. The SOS Hq in ORAN will move into the vicinity of CASERTA and open station on July 15.
- d. The Mediterranean Base Section Hq will continue to operate in ORAN.
- e. Hq, CincMID 1st Echelon composed of the operational and planning staff will move to MARAIS on or about 10 July. The balance of the headquarters will follow in echelons as soon as accommodations are prepared in CASERTA for the entire headquarters. The administrative section of COMNAVNAV will remain in Algiers.
- f. Hq USAF is already located in CASERTA except for a rear echelon which, with the exception of DMS, will move to CASERTA simultaneously with the opening of the AFHQ C.F. at that point.
- g. The C-3 Special Operations Section and its operating personnel will remain in ALGIERS vicinity until the pending operation has been launched. The definite date of closing is not determined.

Item 3: Responsibility for Signal Communications - General

1. The following paragraphs outline the general responsibilities for signal communications during and immediately following the move of AFHQ.

1. Object: The purpose of this is to
 - a. Provide necessary signal communications for AFHQ C.F. to open for full operation on 20 July 1944.
 - b. Retain necessary signal communications in Algiers until the rear echelon is completely moved to CASERTA, approximately July 20
 - c. Turn over to agencies remaining in ALGERS and other parts of North Africa operational functions heretofore performed by AFHQ.
2. Status of Subordinate Headquarters.
 - a. The MADIST Hq will consolidate and move into the St. George Hotel area, ALGERS.
 - b. The Center District Hq will consolidate and move into the St. George Hotel area as much as is possible and will gradually reduce installations until the headquarters is finally disbanded.
 - c. The SOS Hq in ORAN will move into the vicinity of CASERTA and open station on July 15.
 - d. The Mediterranean Base Section Hq will continue to operate in ORAN.
 - e. HQ, Cinc MID 1st Echelon composed of the operational and planning staff will move to MARIS on or about 10 July. The balance of the headquarters will follow in echelons as soon as accommodations are prepared in CASERTA for the entire headquarters. The administrative section of COMNAVSTA will remain in Algiers.
 - f. HQ MAF is already located in CASERTA except for a rear echelon which, with the exception of DMS, will move to CASERTA simultaneously with the opening of the AFHQ C.F. at that point.
 - g. The C-3 Special Operations Section and its operating personnel will remain in ALGERS vicinity until the pending operation has been launched. The definite date of closing is not determined. 3

Item 3: Responsibility for Signal Communications - General

1. The following paragraphs outline the general responsibilities for signal communications during and immediately following the move of AFHQ.

a. SAC/TO will retain responsibility for:

- (1) Establishment of necessary signal communications at CASERTA prior to the opening of the C.F.

SECRET

SECRET

SECRET

SECRET

Section I, Item 3, Paragraph 1, (2) Cont'd.

(2) Continuing operation of signal communications for AFHQ rear echelon until it is completely moved.

(3) Coordination and general supervision of all Allied military signal communications in NORTH AFRICA subsequent to the move.

(4) Direct control of all submarine cable facilities to NORTH AFRICA in accordance with existing AFHQ Signal Instructions.

b. CG, MATOUSA, will be responsible for operation of the ALGERES radio relay station and any other strictly U.S. facilities which may be required by that headquarters.

c. CinC MLD will be responsible for all signal communications within his command except long lines, land and submarine cable facilities external to his local installations. In the case of the Royal Navy, the installation and maintenance of local lines will remain the responsibility of Royal Signals.

d. CG, MAAP, will be responsible for all signal communications within his command except long lines, land and submarine cable facilities external to his local installations.

e. General Officer Commanding, MADIST, will be responsible for all signal communications except those listed above within the area including ALGERES Area eastward to and including TUNIS and BIZERRE Area.

f. CG, MBS, will be responsible for all signal communications except those covered above within the area excluding ALGERES Area westward to and including the CASABLANCA area.

g. C.O. 2623rd Signal Regiment (Prov), will be responsible for obtaining billeting and office, through proper authorities, for all AFHQ Signal troops in the CASERTA area. He will also be responsible for furnishing CSO, AFHQ a phased troop movement list designed so as to fulfill his missions outlined in subsequent sections and will move his troops and organizational equipment in accordance with subsequent orders issued by AFHQ.

(4) Direct control of all submarine cable installations in NORTH AFRICA in accordance with existing AFHQ Signal Instructions.

b. CC, NATOUSA, will be responsible for operation of the ALGERES radio relay station and any other strictly U.S. facilities which may be required by that headquarters.

c. CinC MID will be responsible for all signal communications within his command except long lines, land and submarine cable facilities external to his local installations. In the case of the Royal Navy, the installation and maintenance of local lines will remain the responsibility of Royal Signals.

d. CC, MAF, will be responsible for all signal communications within his command except long lines, land and submarine cable facilities external to his local installations.

e. General Officer Commanding, MADIST, will be responsible for all signal communications except those listed above within the area including ALGERES Area eastward to and including TUNIS and BIZERON Area.

f. CC, MBS, will be responsible for all signal communications except those covered above within the area excluding ALGERES Area westward to and including the CASABLANCA area.

g. C.O. 2623rd Signal Regiment (Prov), will be responsible for obtaining billeting and office, through proper authorities, for all AFHQ Signal Troops in the CASERTA area. He will also be responsible for furnishing CSO, AFHQ a phased troop movement list designed so as to fulfill his missions outlined in subsequent sections and will move his troops and organizational equipment in accordance with subsequent orders issued by AFHQ.

SECTION III

RADIO COMMUNICATIONS.

1 July 1944
ORIGINAL

Item 1: Radio Circuits.

1. Radio circuits in connection with the move of the AFHQ C.F. will be as indicated in the following appendices to this section.

- a. Appendix "A" indicates the AFHQ Ground Force Fixed Radio Circuits now in effect and operative until 0001B on 20 July 1944. Reduction of the circuits after that date will be as directed by CSO, AFHQ.
- b. Appendix "B" indicates the AFHQ Ground Force Fixed Radio Circuits to be operative effective 0001B on 20 July 1944.

Item 2: Equipment.

1. All equipment necessary for installation of channels to be operated by U. S. personnel is already in place at CASERTA. C.O., 2623rd Signal Regiment (Prov), will be responsible for opening the channels on 15 July.

2. All equipment necessary for installation of channels to be operated by British personnel will be provided from organizational equipment of 2 GHQ Signals. OC 2 GHQ Signals will be responsible for placing circuits in operation by 15 July.

Item 3: Personnel.

1. The OC 2 GHQ Signals will be responsible for providing CSO, AFHQ, with phased troop movement lists including organizational equipment, designated so as to fulfill his missions as outlined above, and will move his units in accordance with subsequent orders issued by AFHQ. OC 2 GHQ Signals will be responsible for arrangements for billeting and office space for his unit through C.O., 2623rd Signal Regiment (Prov). See Section I, Item 3, Paragraph 1 g, for personnel from 2623rd Signal Regiment (Prov).

1. Radio circuits in connection with the row of the AFHQ C.P. will be as indicated in the following appendices to this section.

- a. Appendix "A" indicates the AFHQ Ground Force Fixed Radio Circuits now in effect and operative until 0001B on 20 July 1944. Reduction of the circuits after that date will be as directed by GSO, AFHQ.
- b. Appendix "B" indicates the AFHQ Ground Force Fixed Radio Circuits to be operative effective 0001B on 20 July 1944.

Item 2: Equipment.

- 1. All equipment necessary for installation of channels to be operated by U. S. personnel is already in place at CASERTA. C.O., 2623rd Signal Regiment (Prov), will be responsible for opening the channels on 15 July.

SIGNAL SUPPLY

1 JULY 1944
ORIGINAL

Item 1: T/BA and G.1098 Supplies.

1. All U. S. AFHQ Signal troops will be supplied initial issue and maintenance of T/E items in accordance with current instructions issued by this Headquarters.
2. All British AFHQ Signal troops will be supplied with G.1098 unit equipment in accordance with current instructions issued by this Headquarters.

Item 2: Special Projects.

1. CSC, AFHQ, will initiate special projects covering all signal equipment other than T/BA or G.1098 requested for installations remaining in NORTH AFRICA after the move of AFHQ. Special signal projects have been issued covering signal installations for AFHQ in ITALY, and these will be supplemented as required.

Item 3: Inter-Allied Maintenance Supplies in NORTH AFRICA.

1. Maintenance supplies for use by British forces maintaining U.S.-owned installations in NORTH AFRICA will be furnished by SOS, NATOUSA, and those for use by U.S. Forces maintaining British owned installations in North Africa will be furnished by MADISON.

1. All U. S. AFHQ Signal troops will be supplied initial issue and maintenance of T/E items in accordance with current instructions issued by this Headquarters.

2. All British AFHQ Signal troops will be supplied with C.1008 unit equipment in accordance with current instructions issued by this Headquarters.

Item 2: Special Projects.

1. CSC, AFHQ, will initiate special projects covering all signal equipment other than T/E or C.1008 requested for installations remaining in NORTH AFRICA after the move of AFHQ. SIGNAL INSTRUCTION)
 NUMBER 115)

ALLIED FORCE HEADQUARTERS

15 OCT 1944

A. C. C. 6 June 1944

Subject: AUTHENTICATION

This Instruction, which is effective on receipt, supersedes the following Instructions issued by AFHQ which will be destroyed by burning: -

- a. Signal Instruction No. 2 - Authentication and Security of Messages dated 3 Oct 1942
- b. Signal Instruction No. 95 - Combined Authentication System - dated 30 Nov 1943

AUTHENTICATION SYSTEM FOR COMBINED USE

1. CCBP 0122 (Combined Authentication System) is prescribed for combined use in the Mediterranean Theatre, subject to the limitations listed below.
2. Specific editions of CCBP 0122 may be prescribed for use during specific operations. Otherwise different editions may be issued from month to month. Details of the edition to be used will be issued in all cases when this system of authentication is in use.
3. The method of using the Combined Authentication System in all circumstances will be in accordance with the instructions given for the First Method listed on page III of CCBP 0122 under Challenge and Reply. The other two methods listed under Challenge and Reply and the three methods listed under Message Authentication will not be used. Since this System is used for station and not message authentication, the statement in paragraph 2, page II of CCBP 0122, (that the publication is for use only for authentication of plain language or low-grade ciphers) is not applicable.

4. Distribution of the complete publication will be made to Divisional Headquarters and equivalent level. BELOW DIVISIONAL HEADQUARTERS LEVEL, EXTRACTS ONLY WILL BE DISTRIBUTED.

5. a. If and when CCBP 0122 is required for Combined use, distribution will be made to suit the particular requirements of that operation. This will include the issue of the necessary sheets (tables) for periods of seven days down to Bn or equivalent level.

- b. It is recommended that extracts from CCBP 0122 when required are made as simply as possible. To this end, reproduction can be made by the use of an ordinary duplicator or mimeograph machine. The table when so produced need not include the vertical or horizontal lines as is done in the officially printed copies.

- c. The Combined Authentication System is designed for daily changing to tables. This is due to the depth to which each table might be committed owing to the large number of holders all using the same system.

- d. The actual reproduction of the extracts for issue to lower echelons must be arranged, or responsibility delegated, by the senior C.S.O. (Sig O) concerned. Distribution must be considered and weighed against the facilities

AUTHENTICATION SYSTEM FOR COMBINED USE

1. CCBP 0122 (Combined Authentication System) is prescribed for combined use in the Mediterranean Theatre, subject to the limitations listed below.
2. Specific editions of CCBP 0122 may be prescribed for use during specific operations. Otherwise different editions may be issued from month to month. Details of the edition to be used will be issued in all cases when this system of authentication is in use.
3. The method of using the Combined Authentication System in all circumstances will be in accordance with the instructions given for the First Method listed on page III of CCBP 0122 under Challenge and Reply. The other two methods listed under Challenge and Reply and the three methods listed under Message Authentication will not be used. Since this System is used for station and not message authentication, the statement in paragraph 2, page II of CCBP 0122, (that the publication is for use only for authentication of plain language or low-grade ciphers) is not applicable.

4. Distribution of the complete publication will be made to Divisional Headquarters and equivalent level. BELOW DIVISIONAL HEADQUARTERS LEVEL, EXTRACTS ONLY WILL BE DISTRIBUTED.

5. a. If and when CCBP 0122 is required for Combined use, distribution will be made to suit the particular requirements of that operation. This will include the issue of the necessary sheets (tables) for periods of seven days down to Bn or equivalent level.

b. It is recommended that extracts from CCBP 0122 when required are made as simply as possible. To this end, reproduction can be made by the use of an ordinary duplicator or mimeograph machine. The table when so produced need not include the vertical or horizontal lines as is done in the officially printed copies.

c. The Combined Authentication System is designed for daily changing to tables. This is due to the depth to which each table might be committed owing to the large number of holders all using the same system.

d. The actual reproduction of the extracts for issue to lower echelons must be arranged, or responsibility delegated, by the senior C.S.O. (Sig O) concerned. Physical distribution must be considered and weighed against the facilities for reproduction.

AUTHENTICATION SYSTEMS FOR INTRA ARMY USE

6. CCBP 0122 is authorised for intra Army use, but a given edition may be used for such purpose only during the period that it is in effect for combined use.

CONFIDENTIAL

CONFIDENTIAL

7. Additive System described in attached Appendix "A", is prescribed for intra Army (U.S. and British) use in the Mediterranean theatre when CCBP 0122 is not in use.

a. Authentication Tables will be compiled and distributed by HQ Armies and/or such headquarters authorised to do so by HQ Armies.

b. Authentication Tables will be distributed within Armies to every wireless terminal down to Battalion headquarters or equivalent level, as follows:

The complete monthly table (see attached Appendix "B") will not be held below Divisional Headquarters level.

The weekly tables (see attached Appendix "B") will be distributed to every wireless terminal below Divisional Headquarters and down to Battalion headquarters or equivalent level.

c. Formations under training will compile their own tables for training purposes.

8. a. Reasons for the above policy are due to the complex and unnecessarily large production and distribution problems which would have to be met if CCBP 0122 were to be prescribed for intra use.

b. The limitation of issuing the complete publication down to Div or equivalent level is primarily the cause for this, but on physical security grounds distribution of the complete publication forward of this level cannot be authorised.

GENERAL.

9. Authentication will be used only when there is reason to believe that communications are being interfered with by the enemy, and not as a routine procedure.

10. While it is not possible to legislate for every circumstance when Authentication is necessary, the following examples should be taken as a guide:-

- a. On a sudden change of note of incoming signal.
- b. On hearing an unfamiliar voice when working RT.
- c. When faulty procedure is used.
- d. When a new or unknown station joins the net.
- e. At any time when suspicion is aroused as to the identity of another station.

11. An operator, having received and answered a challenge, will invariably make a counter-challenge. Obviously the counter-challenge must be composed of different letters from those used in the original challenge. This is to prevent an enemy station from overcoming suspicion by originating a challenge although he is not holding the code.

12. In the event of an operator receiving an incorrect reply or no reply at all to a challenge, then he will enter full particulars in his log and report the

wireless terminal down to Battalion headquarters or equivalent level, as follows:

The complete monthly table (see attached Appendix "B") will not be held below Divisional Headquarters level.

The weekly tables (see attached Appendix "B") will be distributed to every wireless terminal below Divisional Headquarters and down to Battalion headquarters or equivalent level.

c. Formations under training will compile their own tables for training purposes.

8. a. Reasons for the above policy are due to the complex and unnecessarily large production and distribution problems which would have to be met if CCBP 0122 were to be prescribed for intra use.

b. The limitation of issuing the complete publication down to Div or equivalent level is primarily the cause for this, but on physical security grounds distribution of the complete publication forward of this level cannot be authorized.

GENERAL.

9. Authentication will be used only when there is reason to believe that communications are being interfered with by the enemy, and not as a routine procedure.

10. While it is not possible to legislate for every circumstance when Authentication is necessary, the following examples should be taken as a guide:-

19
APPENDIX "A"

ADDITIVE AUTHENTICATION SYSTEM

DESCRIPTION OF TABLE

1. The Authentication Table will be changed monthly, each table commenting on the first day of each calendar month.
2. Each Table comprises five separate sections, of which each section is used for one week. Thus each Table provides for 5 weeks in any one month, but should there be only 4 weeks supply needed the section for the fifth week will be destroyed by fire at the end of the month.
3. Each weekly table consists of :-
 - a. Three straightforward alphabets in horizontal rows.
 - b. Three rows of scrambled figures (one figure beneath each letter of the above three alphabets).
 - c. A row of scrambled letters beneath the third row of scrambled figures. These letters need not necessarily make a complete alphabet and some letters may recur.
 - d. All times shown on the Tables are GMT.
5. A specimen Table is attached as Appendix "B".

METHOD OF USE

6. a. Challenge. The operator wishing to make a challenge selects one letter from each of the three alphabets and sends the three selected letters using the separative signal "ii" between each.
- b. Reply. To answer a challenge, the receiving operator adds together the numbers beneath the three letters of the challenge and sends the result followed by the letter beneath the last figure.
- c. Counter-challenge. As for Challenge above but using different letters from the three alphabets.
- d. Reply. As for Reply above.

Example:

(Using Table 3A in Appendix "B")

Challenge	D ii M ii K
Reply	11 F
Counter-challenge	S ii N ii C
Reply	9 C

STAFF MEMORANDUM)

NUMBER 51)

COMBINED SIGNAL BOARD, ALLIED FORCE HEADQUARTERS

AFHQ General Order Number 22, 1943 series, is being rescinded and the following is substituted therefor:

1. Establishment. The Combined Signal Board, Allied Force Headquarters, is formally established with composition and duties as indicated below.

2. Composition.

a. Chairman. The Chief Signal Officer, Allied Force Headquarters, is Chairman of the Combined Signal Board.

b. Other Members. Representatives of the following are members:

(1) Commanders of the principal subordinate commands in the Allied Force in the Mediterranean Theater of Operations.

(2) U.S. Army, U.S. Navy, Royal Navy, British Army and Royal Air Force, if a representative thereof is not included in (1) above.

(3) Commander-in-Chief, French Forces.

c. Elected Members. The Board will elect such additional members, representative of the armed forces in the Mediterranean Theater of Operations or of civil agencies, as may be necessary for the disposal of any matter under consideration by the Board. Such members will attend only such Board meetings as may be decided by the Board proper, and will remain only for the discussion of items of the agenda in which they are concerned.

d. Secretaries. Two full-time secretaries, one British and one American, who are not members, will perform such secretarial duties for the Board as may be prescribed by the Chairman thereof.

3. Duties. It is the duty of the Combined Signal Board to:

a. Consider and recommend action to be taken within Allied Force in the Mediterranean Theater of Operations in regard to all matters charged by the Combined Chiefs of Staff to the Combined Communications Board, Washington, D.C.

R E S T R I C T E D*Registered in TS/40/1
23/5/44*

R E S T R I C T E D

AFHQ S.M. No. 51 (cont'd)

b. Maintain close contact with the following:

- (1) Combined Communications Board, Washington, D.C.
- (2) British Joint Communications Board, London.
- (3) Communications Board, Middle East.

c. Within such limitations as may be placed upon it by the Combined Chiefs of Staff and the Supreme Allied Commander, Mediterranean Theater of Operations, coordinate to the greatest extent practicable all matters contributing to the greater combined effectiveness of Signal agencies of United States, British and French armed services and civil communication agencies.

d. Submit, with its recommendations, to the Supreme Allied Commander, Mediterranean Theater of Operations, all matters which cannot be satisfactorily coordinated within the Board itself.

e. Collect such information, conduct such correspondence, and maintain such records as may be necessary for the performance of the above duties.
(AG 321-1(CSB)SCS-O)

SIGNAL INSTRUCTION
NUMBER 110

SECRET by
authority of
SAC Med. *J.P.P.*
Initials: *J.P.P.*

29 March 1944

SUBJECT: Frequency Allocations, Mediterranean
Theater of Operations.

1. This Signal Instruction, effective 00014 hours, 31 March 1944, cancels Signal Instruction number 89, dated 21 October 1943, which will be destroyed by burning.
2. No radio, radar or other equipment transmitting radio energy will be operated in the Mediterranean Theater without prior authorization by the Supreme Allied Commander of the frequencies and maximum power to be used. The authorization will be requested in the manner described herein.
3. All requests for frequency assignments will be made through command channels and will state:

- a. Length of time for which it is desired the frequencies be assigned.
- b. Designation of zones in which it is proposed that frequencies will be used, as per attached Frequency Allocation Zone Map, Appendix "A".
- c. Specific use to be made of requested facility, including location of all stations with which communication will be established.
- d. Proposed power to be used on requested frequencies, as per the following classification:

- (1) Up to 10 watts
- (2) 10 to 25 watts
- (3) 25 to 75 watts
- (4) 75 to 400 watts
- (5) For power exceeding 400 watts, the exact power to be used on requested frequency will be given.

4. Frequency allotments will be made by AFHQ directly to the following services:

- a. C-in-C Mediterranean (including British, U.S. and Italian Navies).
- b. Allied Armies in Italy (including Italian Army).
- c. Mediterranean Allied Air Forces (including Italian Air Forces).
- d. French High Command (Army, Navy and Air Forces).
- e. SOS MATOUSI.
- f. North Africa District (Algiers).
- g. Army Airways Communication System.
- h. Special Forces and Services directly under command of AFHQ.
- i. Commercial companies.

4405

1. This Signal Instruction, effective 0001A hours, 31 March 1944, cancels Signal Instruction number 89, dated 21 October 1943, which will be destroyed by burning.
2. No radio, radar or other equipment transmitting radio energy will be operated in the Mediterranean Theater without prior authorization by the Supreme Allied Commander of the frequencies and maximum power to be used. The authorization will be requested in the manner described herein.

AG 311-20 SIG-AGM

SUBJECT: Operation of Italian Radio Circuits.

TO : All Concerned.

1. Letter this headquarters, subject and file as above, dated 22 November 1943, is rescinded, and the following substituted therefor, effective upon receipt.

2. The operation of radio equipment by the Italians presents a serious security problem. Strict control over the use of radio by the Italians must be maintained by Allied commands. To accomplish this end, the following policy is set forth and will become effective immediately:

a. The operation of all radio stations, both military and civil, by the Italians will be prohibited except as follows:

- (1) Naval stations authorized and supervised by the Commander-in-Chief, Mediterranean.
- (2) Stations essential to the operations of Italian aircraft, authorized and supervised by the Air Commander-in-Chief, Mediterranean.
- (3) Essential stations authorized and supervised by the General Officer Commanding-in-Chief, Allied Central Mediterranean Force.
- (4) Stations specifically authorized by this headquarters, including Italian broadcast stations which are controlled and supervised by Information and Censorship Section, this headquarters.

b. The plain text of all authorized Italian radio traffic will be turned over to the Allied authority charged with supervision of the individual circuit.

c. All Italian held radio transmitting equipment except that specifically authorized under sub-paragraph a, above, will be immediately turned over to Allied representatives designated by Commander-in-Chief, Mediterranean; General Officer Commanding-in-Chief, Allied Central Mediterranean Force; Air Commander-in-Chief, Mediterranean; and Allied Control Commission. To effect this:

U.S. SECRET EQUALS BRITISH MOST SECRET

U.S. SECRET EQUALS BRITISH MOST SECRET

Ltr, Allied Force Headquarters, AG 311-20 SIG-AGM
dtd 7 February 1944 (Continued).

- (1) The Allied Control Commission will order the Italian Government to take necessary action in areas under its control.
- (2) General Officer Commanding-in-Chief, Allied Central Mediterranean Force, will take necessary steps to effect action in areas under his control.

d. Italian traffic, except as covered in paragraph a, above, will be handled as follows:

- (1) URGENT high level messages in Allied cipher by Allied facilities when necessary.
- (2) Other communications by landline or cable and by other such means, excluding radio, as may be available.

3. In exercising the authority as indicated in paragraph 2a, above, commanders concerned should assure themselves that the need for Italian radio communication arises in the course of handling military operational messages, and that no authorization is given as a matter of convenience in the handling of administrative communications. In all cases, when adequate wire or messenger service becomes available, the use of radio should be discontinued.

4. All of the authorities listed in paragraph 2a will report to this headquarters without delay, the Italian operated radio communications which they have heretofore authorized, and will report from time to time such additional communications as may be put in operation. This report should cover the following points:

- a. Location of transmitter.
- b. Power of transmitter.
- c. Frequencies used.
- d. Designation of Italian agency authorized to operate the transmitter.
- e. Purpose for which transmitter is authorized to operate, including stations to which it passes traffic.

SIGNAL INSTRUCTION

NUMBER 97

Subject: AFHQ AIR DISPATCH LETTER SERVICE

1. This instruction, which governs the operation of AFHQ ADLS for all areas under control of this headquarters, becomes effective at time of receipt. At that time Signal Instruction Number 85 will be destroyed by burning.

2. DEFINITION:

a. The AFHQ ADLS is a service established by this headquarters to provide fast and safe delivery of official dispatches to major tactical SOS and L of C Headquarters. This service operates in close conjunction with the Motor Dispatch Letter Service (MDLS) provided by various headquarters throughout the theater, and with the Air Forces.

b. On certain main routes, ADLS Couriers will deliver material to "Field Offices" established on airfields near armies or separate unit headquarters functioning directly under this headquarters.

c. The AFHQ ADLS must not be confused with the Army Courier service operated by the War Department under provisions of letter file AG 311.4/220 M&D-O dated 19 November 1943, or with the regular airmail service operated by the APO. AFHQ ADLS emphasizes tactical messenger service to forward elements.

3. ORGANIZATION AND DUTIES:

a. The AFHQ ADLS is decentralized as to operation with centralized control at Allied Force Headquarters. The Officer-in-Charge of the ADLS is a part of the personnel of the Signal Center, AFHQ whose duties include:

(1) Supervising the operation of the ADLS and insuring that explicit orders are issued for all personnel concerned.

(2) Satisfying himself as to the security of all existing services and of any new projected services.

(3) H. will establish liaison with appropriate Air Force Headquarters in this theater in order to insure that;

a. The fullest use is made of all types of transport which can be used to carry official dispatches.

b. Service is available whenever the tactical situ-

(1) Supervising the operation of the ADLS and insuring that explicit orders are issued for all personnel concerned.

(2) Satisfying/himself as to the security of all ~~existing~~ services and of any new projected services.

(3) HQ will establish liaison with appropriate Air Force Headquarters in this theater in order to insure that;

a. The fullest use is made of all types of transport which can be used to carry official dispatches.

b. Service is available whenever the tactical situation permits.

c. That new routes are established where needed as quickly as possible.

(4) Collating and issuing to all concerned information in the form of a time-table, the full details of all scheduled air services used by ADLS for the carrying of dispatches.

- 1 -

U. S. RESTRICTED

Equals

British RESTRICTED

Revised 5 Jan 44

b. (1) AFHQ ADLS operates through small "Field Offices", located on major airfields in the theater of operation. They will consist normally of one officer (U.S.), four enlisted men (U.S.), and two signalmen (Br.). They are limited in their operation to the handling of official, properly enveloped dispatches, bags and bundles. The handling of personal mail, baggage, or of any personal or official supplies by this messenger service is specifically prohibited and such articles will not be delivered to any office involved in the operation of this service.

(2) Personnel of such field offices are normally attached for temporary duty at the airfield in question for administration and rations.

c. Delivery and collection of dispatches to units in the vicinity is not the responsibility of "Field Offices". MDLS will be provided by headquarters and units concerned. The Field Offices act only as a segregation and collection point relying on unit MDLS to contact them for forward transmission of outgoing dispatches and collection of incoming dispatches.

d. The ADLS "Field Offices" are responsible for the proper routing of all outgoing dispatches. It is their responsibility to contact all departing courier aircraft for the purpose of placing in the custody of the responsible party thereon dispatches to units in locations that these planes will contact; further, they will meet all arriving aircraft known to be carrying, or probably carrying dispatches for units in their vicinity, and receive such dispatches from the responsible party thereon.

e. Receipts will be executed for all registered dispatches handled by these offices in accordance with Signal Instruction Number 84, dated 25 September 1943, and letter file AG 311.1-5 AG-AGM dated 18 November 1943.

f. ADLS "Field Offices" will handle official dispatches for, and from all branches and services of Allied Forces. (This statement is not to be interpreted to include air freight materials which is the function of the Air Freight Office.)

4. AIR COURIERS:

a. Official ADLS couriers will make daily flights between designated points using such scheduled plane flights as authorized for their travel. On such trips they are fully responsible for all official dispatches placed in their care. This responsibility commences at the time they accept and receipt for such dispatches and terminates at the time delivery of, and receipt for, the dispatches is accomplished.

b. Couriers will not effect personal delivery, but will work through the ADLS "Field Offices". They will be contacted by personnel of the "Field Offices" on their route turning over to this personnel dispatches they have for units in their location and accepting receipts for mail thus delivered. They will accept dispatches from such "Field Offices" for transmission to stations they will contact and will execute receipts of such offices for dispatches accepted. They are at all times fully responsible for all dispatches in their custody.

5. ACCEPTANCE OF TRAFFIC:

a. Traffic originated within the area controlled by Allied Force Headquarters will be accepted for dispatch through ADLS channels regardless

d. The ADLS "Field Offices" are responsible for the proper routing of all outgoing dispatches. It is their responsibility to contact all departing courier aircraft for the purpose of placing in the custody of the responsible party thereon dispatches to units in locations that these planes will contact; further, they will meet all arriving aircraft known to be carrying, or probably carrying dispatches for units in their vicinity, and receive such dispatches from the responsible party thereon.

e. Receipts will be executed for all registered dispatches handled by these offices in accordance with Signal Instruction Number 84, dated 25 September 1943, and letter file AG 311.1-5 AG-ACM dated 18 November 1943.

f. ADLS "Field Offices" will handle official dispatches for, and from all branches and services of Allied Forces. (This statement is not to be interpreted to include air freight materials which is the function of the Air Freight Office.)

4. AIR COURIERS:

a. Official ADLS couriers will make daily flights between designated points using such scheduled plane flights as authorized for their travel. On such trips they are fully responsible for all official dispatches placed in their care. This responsibility commences at the time they accept and receipt for such dispatches and terminates at the time delivery of, and receipt for, the dispatches is accomplished.

b. Couriers will not effect personal delivery, but will work through the ADLS "Field Offices". They will be contacted by personnel of the "Field Offices" on their route turning over to this personnel dispatches they have for units in their location and accepting receipts for mail thus delivered. They will accept dispatches from such "Field Offices" for transmission to stations they will contact and will execute receipts of such offices for dispatches accepted. They are at all times fully responsible for all dispatches in their custody.

5. ACCEPTANCE OF TRAFFIC:

a. Traffic originated within the area controlled by Allied Force Headquarters will be accepted for dispatch through ADLS channels regardless of originating branch or office and will be treated in accordance with Signal Instruction Number 84, dated 25 September 1943, and letter file AG 311.1-5 AG-ACM dated 18 November 1943. Unenveloped mail will NOT be accepted.

b. Dispatches which are received in the area controlled by Allied Force Headquarters from sources outside of this command will be afforded the same treatment as they received at place of origin: that is, registered items will continue to be registered by all offices through which they pass and nonregistered items will continue to be passed through ADLS channels irrespective of the way in which they are indorsed. Further, if it is evident from the franking borne by such dispatches that it has received special treatment at point of origin it will, insofar as is practicable, continue to be given that special treatment in this command.

6. HANDLING OF MAIL:

a. All dispatches passing through ADLS will be date-time-stamped at each office of handling on the reverse (non-addressed) side of the envelope or package. The first ADLS office handling the letter or package will date-time-stamp it in the top left corner on the reverse of the envelope or package. If the package is registered the serial number will be placed immediately below the appropriate date-time-stamp. The next office to handle the letter or package will date-time-stamp it on the right of the previous office date-time-stamp. It is important that the stamp impression of previous offices be avoided and not over-stamped by subsequent offices and that the date, time and serial number are clearly legible.

b. Route Delivery lists (W.D. Sig. C. Form No. 158) will be used for the registration of ADLS traffic by all "Field Offices". Dispatches and packages will be registered by recording the registry number in the column provided. When receipt has been executed on these Route Delivery lists they will be returned to the office of origin as registered items by the quickest means possible.

7. BAGGING AND ADDRESSING DISPATCHES:

- a. All packages, the size of which permit bagging and all dispatches, will be bagged.
- b. The neck of the bag will be tied with cord as tight as possible and as far from the neck as the contents will allow.
- c. Each bag will be labelled by a tag attached to the cord securing the neck of the bag. Each label will bear the name of the unit to which the contents of the bag should go; the bag registration and the name of the final airport at which bag should be off-loaded.

8. FILING AND RECORDS:

Receipts for ADLS traffic will be retained for a period of three months and then be destroyed by burning. If the Field Office closes, file of receipts will be sent CIG ADLS AFHQ.

9. It is desired that all signal officers of all services cooperate in every way possible to insure that this communication agency is used to the fullest extent to relieve the heavy pressure on electrical means of communication. Signal officers must exercise close supervision of motor dispatch connection service to "ADLS Field Office". Too much emphasis cannot be placed on the fact that if traffic is to be diverted to this "means" of communication, then there must be positive follow-up action on the part of all signal personnel to see that the "message goes through promptly".

10. All Commanders and staff officers are requested to disseminate information and to coordinate local efforts to insure prompt establishment of dependable messenger service via air, motor, or sea as quickly as the situation permits in each area.

1. Legible.

b. Route Delivery Lists (W.D. Sig. C. Form No. 158) will be used for the registration of ADLS traffic by all "Field Offices". Dispatches and packages will be registered by recording the registry number in the column provided. When receipt has been executed on these Route Delivery Lists they will be returned to the office of origin as registered items by the quickest means possible.

7. BAGGING AND ADDRESSING DISPATCHES:

- a. All packages, the size of which permit bagging and all dispatches, will be bagged.
- b. The neck of the bag will be tied with cord as tight as possible and as far from the neck as the contents will allow.
- c. Each bag will be labelled by a tag attached to the cord securing the neck of the bag. Each label will bear the name of the unit to which the contents of the bag should go, the bag registration and the name of the final airport at which bag should be off-loaded.

8. FILING AND RECORDS:

Receipts for ADLS traffic will be retained for a period of three months and then be destroyed by burning. If the Field Office closes, file of receipts will be sent AIC ADLS AFH.

9. It is desired that all signal officers of all services cooperate in every way possible to insure that this communication agency is used to the fullest extent to relieve the heavy pressure on electrical means of communication. Signal officers must exercise close supervision of motor dispatch connection service to "DLS Field Office". Too much emphasis cannot be placed on the fact that if traffic is to be diverted to this "means" of communication, then there must be positive follow-up action on the part of all signal personnel to see that the "message goes through promptly".

10. All Commanders and staff officers are requested to disseminate information and to coordinate local efforts to insure prompt establishment of dependable messenger service via air, motor, or sea as quickly as the situation permits in each area.

SIGNAL INSTRUCTION)

NUMBER 92)

Subject: Registered Telegraphic Addresses.

1. This Signal Instruction is effective 200001A November 1943.

2. a. Registered Telegraphic Addresses (commonly referred to as Cable or Telegraphic Addresses) are for use where civil communication agencies are employed in handling military messages.

b. This type of address is a short form of delivery instructions for use via civil communication channels, in order to reduce the cost of the message and to establish the location of the headquarters with the civil agencies.

c. Registered Telegraphic Addresses are used by the civil and military communication agencies in handling military messages by commercial channels and are not intended for use within the text of military messages as reference to certain headquarters.

d. Registered Telegraphic Addresses have NO SECURITY.

3. a. Application for a Registered Telegraphic Address in this theater will be submitted to this Headquarters. This application will contain a suggested word, not over 15 letters in length nor less than 6 letters, followed by the geographical location.

b. The word will be submitted to the Interservice Signal Board, London, to prevent duplication and for approval.

c. Upon receipt of the approval, the commercial agencies will be notified by this Headquarters, after which the Registered Telegraphic Address may be used.

4. When a military headquarters changes location and cannot be served by its Registered Telegraphic Address, cancellation should be requested and a new Registered Telegraphic Address applied for, as outlined in paragraph 5

4397

5. The most widely used Military Registered Telegraphic Addresses in this theater are attached as Appendix "A".

AG 311-20 SIG-AGM

22 November 1943

SUBJECT: Operation of Italian Radio Circuits.

TO : All Concerned.

1. The present operational status of Italian radio stations and equipment requires that certain definite steps be taken to bring their activities more closely under Allied surveillance and control. To accomplish this end, the following policy is set forth and will become effective immediately:

a. The operation of all radio stations, both military and civil, by the Italians will be prohibited, except as follows:

- (1) Naval stations authorized and supervised by Commander-in-Chief Mediterranean.
- (2) Stations essential to the operations of Italian aircraft, authorized and supervised by Air Commander-in-Chief, Mediterranean.
- ✓ (3) Essential stations authorized and supervised by 15 Army Group.
- (4) Stations specifically authorized by this headquarters, including Italian broadcast stations which are controlled and supervised by Information and Censorship Section, this headquarters.

b. The plain text of all authorized Italian radio traffic will be turned over to the Allied authority charged with supervision of the individual circuit.

c. All Italian held radio transmitting equipment, except that specifically authorized under paragraph a, above, be immediately turned over to Allied representatives authorized by General Officer Commanding-in-Chief, 15 Army Group, Commander-in-Chief, Mediterranean, Air Commander-in-Chief, Mediterranean, Allied Control Commission and Allied Military Government. To effect this:

- (1) The Allied Control Commission will order the Italian Government to take necessary action in areas under its control.
- (2) Headquarters, Allied Military Government will take necessary steps to effect action in areas under its control.

-1-

U. S. SECRET EQUALS BRITISH MOST SECRET

U. S. SECRET EQUALS BRITISH MOST SECRET

AG 311-20 SIG-ADM, 22 November 1943 (cont'd)

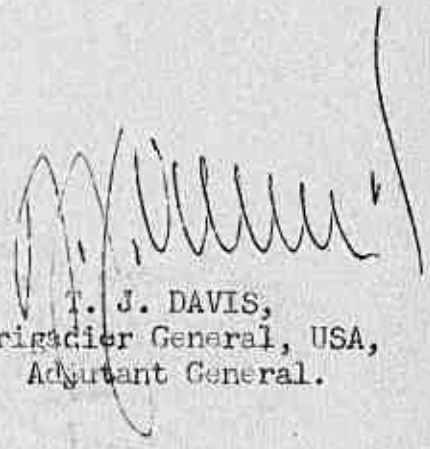

- (3) The Allied Military Government, 15 Army Group, will take necessary action in areas under its control.

d. Italian traffic, except as covered in paragraph a, above, will be handled as follows:

- (1) URGENT high level messages in Allied cipher by Allied facilities when necessary.
- (2) Other communications by Italian operated landline or cable and by other such means, excluding radio, as may be available.

e. The communication facilities of Italian forces used operationally will be restricted to landline, messenger, or other means, excluding radio, except as authorized in paragraph a.

SIGNAL INSTRUCTION)
NUMBER 89

61 21 October 1943

SUBJECT: Frequency Allocation Allied
Theater of Operations.

1. No radio transmitter or radar will be operated in the Allied Theater of Operations until frequencies are authorized by the C-in-C. Requests for frequencies for such operation will be made thru channels of command and will state (a) whether the proposed use is temporary or permanent in nature; (b) designation of the zones in which the frequencies are to be used as shown on map attached, Appendix "A"; (c) Maximum power to be used.

2. Power requested will conform to the following classification:

10 watts maximum	75 watts maximum
25 watts maximum	400 watts maximum
over 400 watts (indicating maximum power)	

3. Frequency allotments will be made by AFHQ, directly to the following H. and Services:

- a. C-in-C, Mediterranean
- b. Fifteen Army Group
- c. Mediterranean Air Command
- d. French High Command (Army, Navy and Airforces)
- e. MATOUS
- f. North Africa District (Algeria)
- g. Army Airways Communication System
- h. Italian Army, Navy, and Airforces
- i. Special Forces and Services, directly under command of AFHQ
- j. Commercial interests

4. H. listed in Para 3 above will be responsible for sub-allotment of frequencies to formations and units under their command.

5. Frequency allotments for tactical formations will be made by the next higher HQ.

6. MATOUS and North Africa District (Algeria) will be responsible for the allotment of training frequencies to all Army formations within their respective base areas and districts.

7. Any frequencies for extra-theater communications will be coordinated by AFHQ for the Headquarters or Service concerned, lateral communications between immediately subordinate Headquarters or Services will be coordinated by AFHQ.

8. This instruction cancels Signal Instruction 68 which will be destroyed by burning.

By command of General EISENHOWER:

posed use is temporary or permanent in nature, the zones in which the frequencies are to be used as shown on map attached, appendix "A"; (c) Maximum power to be used.

2. Power requested will conform to the following classification:

10 watts maximum	75 watts maximum
25 watts maximum	400 watts maximum
over 400 watts (indicating maximum power)	

3. Frequency allotments will be made by AFHQ, directly to the following HQ and Services:

- a. C-in-C, Mediterranean
- b. Fifteen Army Group
- c. Mediterranean Air Command
- d. French High Command (Army, Navy and Airforces)
- e. MATOUS
- f. North Africa District (Algeria)
- g. Army Airways Communication System
- h. Italian Army, Navy, and Airforces
- i. Special Forces and Services, directly under command of AFHQ
- j. Commercial interests

4. HQ listed in Para 3 above will be responsible for sub-allotment of frequencies to formations and units under their command.

5. Frequency allotments for tactical formations will be made by the next higher HQ.

6. MATOUS and North Africa District (Algeria) will be responsible for the allotment of training frequencies to all army formations within their respective base areas and districts.

7. Any frequencies for extra-theater communications will be coordinated by AFHQ for the Headquarters or Service concerned. Lateral communications between immediately subordinate Headquarters or Services will be coordinated by AFHQ.

8. This instruction cancels Signal Instruction 68 which will be destroyed by burning.

By command of General EISENHOWER:
