Dear Musso:

I was very glad to receive news of you as contained in your letter of 22 December which only just reached me due to insufficient address.

I have had the pleasure of renewing many acquaintances in Italy and hope that I may one day have the good fortune of meeting you.

Yours very sincerely,

ROMA

Torino, 22 Dicembre 1945

Dear Mr. Scudder,

I hope you well. From the people of F.A.C.E. in Milan I have been informed that you are in Italy. I am very sorry having lost the opportunity to see you when you paid a visit to the Face. I left this firm on November 1943 and I am employed since that time of I.N.C.E.T. cable factory in TURIN which as you know belong to the Pirelli Group. The move was dictated by familiar reasons during the war. My job is eminently technical; development of new cable, testing, control of product.

When I left Face I was in charge of the Crystal Laboratory for the production mainly of the crystal required for the coaxial cable. That laboratory was on the verge of normal production on the end of 1943, but the critical situation of the industry in dependence of the war advised to stop such activity. It was a pity. For it I gave all my will for the layout, the equipment and the organization of the Lab.

I apologise giving you the trouble of reading this letter but I was willing to get in connection with you of whom I have always appreciated the qualities of good firm manager.

With best wishes for a Merry Christmas and a Happy New Year

Your Sincerely

R O M E

1. The T.I.M.O. Coy has a series of invoices totalling approximately 700.000 lire for lines used and work carried out on behalf of the 229 Signal Operations Coy and the 128 Radio Intelligence Coy.

2. These facilities were in use in April and July '45 in the Modena and Reggio Emilia Areas.

3. No certification was obtained from the Units concerned and as they have now withdrawn from the area perhaps you could say what American body in this theatre is now competent to certify.

4. My CMS/16 of 4th December '45 forwarded some F.A.C.E. invoices for direct payment by IV Corps. These have not as yet been paid.

ROMA

La I.T. & T. (INTERNATIONAL TELEPHONE & TELEGRAPH CORPORATION) di NEW YORK ha un'importante partecipazione azionaria nella sottoscritta Società F.A.C.E. (FABBRICA APPLICAZIONI COMUNICAZIONI ELETTRICHE) di MILANO.

E' desiderio della I.T. & T. di assistere in tutti i modi la propria Consociata nella ripresa della sua attività produttiva. E' a tal fine indispensabile che le materie prime ed i semilavorati di cui all'unito elenco, per l'importo di £ 35.000.- circa, possano essere importate dagli Stati Uniti e la I.T. & T. si è dichiarata disposta a fornire tale materiale mettendo a disposizione la valuta estera necessaria.

Si prega di voler concedere il nulla osta per l'importazione dei materiali in questione, importazione che non dovrebbe essere gravata di alcun onere, salvo i normali diritti di dogana.

Si pone in rilievo l'urgenza del provvedimento, in quanto il mancato arrivo dei materiali in questione porterebbe alla sospensione di notevole parte della produzione della fabbrica, che già si dibatte in gravi difficoltà.

Pagamenti in sospeso

Come è noto la Sede centrale e la Fabbrica della F.A.C.E. S.A. sono a Milano. Lo scrivente Ufficio di Roma trovasi pertanto nella necessità di dover provvedere con mezzi propri al suo funzionamento.

L'Ufficio di Roma della F.A.C.E. è composto di un nucleo di tecnici, operai e impiegati che nelle attuali circostanze sono impegnati per lavori interessanti la "ricostruzione nazionale". Oltre ai pagamenti del proprio personale, pertanto, deve provvedere anche al pagamento dei fornitori per le provviste necessarie per l'esecuzione dei lavori che gli sono affidati.

Per le note disposizioni di carattere generale sono tuttora in sospeso i pagamenti per le provviste e prestazioni effettuate già da lungo tempo e ben note a codesta On.le Amministrazione. A quanto si consta sono in sospeso i pagamenti per conti di liquidazione già effettuati dall'Ufficio Mantenimento per circa L.1.500.000,-- e dalla Direzione Lavori Genio Militare per circa L.130.000,--.

In relazione a quanto sopra, lo scrivente si permette fare viva istanza affinché codesta On.le Direzione voglia compiacersi di autorizzare il pagamento delle somme maturate.

Si conferma al riguardo che il Sig. Dott. Ing. Federico Biffis è investito di regolare procura per la riscossione dei pagamenti.

1. Reference conversation this section and Major Hawker and Major Lister.

2. The Signal Officer, RAAC, is charged with the responsibility for the operation and control of all Signal agencies (both civil and military) in the area of the RAAC to the end that all military requirements be met and the recuperation of civil agencies to function as normally as possible be expedited.

3. It will be appreciated that any action by your office be coordinated with the Signal Officer, RAAC, so that this mission be accomplished as expeditiously as possible. A case in point is that of the FACE factory which has recently been frozen through your order. This factory is and has been operating under Signal control for the manufacture and repair of telephone equipment largely utilized by the military. To receive such a freeze order embarrasses the factory management in their commitments to us and interferes with Signal Operation.

4. This is to request that this factory be released and further freeze orders involving factories, stores and warehouses of Signal equipment i.e., telephone, telegraph, radio and photo supplies, be coordinated through this headquarters before any action is taken in the future.
