CONFIDENTIAL

6709th CRIMINAL INVESTIGATIONS DIVISION PLATOON (PROV)

This case originated at: ROME, ITALY		File No. CID RAAG #85
Report made at: ROME, ITALY	Date when made: 28 July 1944	Period for which made: 6 July 1944 - 28 July 1944
Title: Giovanni Gallarati Institute Sperimentale di Forti e Telegrafi		Character of case: Recovery

Synopsis of facts: On 6 July 1944 information was received by this office that a considerable amount of Enemy Technical War Equipment could be found at 65 Via Adige, Rome, Italy. Subsequent raid at the above address revealed a quantity of Technical War Equipment whose recovery was estimated as being over $5000. All of the material recovered was turned over to Major Scudder A.C.C. Investigation discloses no evidence of bad faith on the part of any of the civilian offices or individuals mentioned in the report.

CRIMINAL INVESTIGATION DIVISION
ROME ALLIED AREA COMMAND
APO 794 U.S. ARMY

CID RAAC #35 23 July 1944

RECOVERED ENEMY TECHNICAL WAR EQUIPMENT INVESTIGATORS: LoPinto
Manfredi

SUBJECT: Report of Investigation.

TO : Chief Agent, CID, RAAC.

1. On 6 July 1944 Agent LoPinto, CID, RAAC, received information from a confidential informer that a quantity of highly technical enemy war equipment could be found at 85 Via Adige, Rome, Italy. (Institute Sperimentale di Posti e Telegraphi)

2. Subsequently on 7 July 1944, at about 1600 hours, the undersigned visited the above mentioned premises and there learned that the keys for the Institute were in the possession of one: Ing. Giovanni Gallarati, living at #208 Via Giacomo Carissimo, Roma, Italy.

3. On the same day at about 1900 hours, the undersigned, Agent Wagner and Major R.J. Wilson, CID, RAAC, contacted Ing. Gallarati at his home, and were then accompanied by him to the above mentioned Institute. A search of these premises revealed a considerable amount of highly technical enemy war equipment, as set forth in Exhibit A.

4. The undersinged interrogated Ing. Gallarati who stated that the equipment was declared by him to his superiors (Civilian government officials).

5. On 10 July 1944 Major Henry H. Scudder, Deputy Director, Communications, Sub Comm. A.C.C., was contacted and all of the enemy technical equipment was released by the CID for the use of his office, and a receipt given for the same, as set forth in Exhibit B. At this time Major Scudder stated that the aforementioned material was formerly the property of the Experimental Institute of the Director General of Posts and Telegraphs and was stored at 85 Via Ledige, Rome, in order to prevent its being removed by the Germans. He further stated as the present Director General of Posts and Telegraphs has been nominated by the Italian Government and his appointment approved by the Allied Control Commission, all of the above mentioned material will be delivered to an authorizied representative at his (Major Scudder) instance.

6. On 20 July 1944 all of the property as set forth in Exhibit B was cased in the presence of the undersinged, Major Scudder and representatives of the above institute for delivery to its respective agency.

7. The recovery value was estimated as being well over $5000.

8. Investigation disclosed no evidence of bad faith on the part of any of the civilian offices or individuals mentioned. (Exhibits A,C,D,E)

Exhibit C

Rome 17 June 1944

To Ing. Gallarati

ROME

I think necessary to confirm to you what I communicated yesterday to Ing. Gelmi about our meeting which did not happen during the Nazi occupation. Founded reasons, also excepted those regarding my activity in favour of the A.R.DO, obliging me, among other things, not to walk through the quarters Sebastiani and not thinking important or necessary that the wished meeting happened at your house, I gave order to the official of the A.R.DO, Mr. Berti, to look for and arrange a meeting in a whatever locality desired. This mission could not be done by the abovesigned Berti to whom it was communicated more and more again from your office in Via 4 Fontane and also from your house, where he has telephoned from our office, in my presence, that you were out of Rome. I'm very sorry that you thought this meeting did not happen because of my negligence or for my unwillingness and I ask of you to change your opinion, because my intentions were directed to a diametrically opposed aim, absolutely without intention to put you and your family in a difficult and lamentable situation.

In any case I'm very sorry for the happened matter and I'm also sorry that your disinterested and valid works directed to guarding the A.R.DO's interests have procured to you annoyances and dangers which will be specially signalized to Mr. Carlo as soon as possible.

I should be glad to meet you and in the meantime I remain, sincerely yours,

/s/ Ing. ALBERTO BERTI

Exhibit D

Rome 25 June 1944

For Ing. ALBERTO SOSTA

I answer to your letter of 17th of last month.

In the conference had with you and in those I have had for your initiative, with Ing. Gelmi, I have moved about your activity the following observations and notes:

1) When having everybody known that the German retreat was imminent, you had, (certainly also for you disagreeable) the visit of some nazi militars, who required the requisition of silk and other material. You didn't take the trouble to ascertain yourself, as it was in your right and in your possibilities, if they were policemen with an authorization to act, as these men affirmed to be, or, more probable, some vulgar (individual armed-thieves), accustomed to the qualified robbery. I could ascertain quickly and I can document that they were vulgar cheats, who, with one of the so many dirty delations, try, with intimidations and threats, to effect a real robbery for their personal interest.

2) When, after having put at our enemy's disposal(who I repeat, were also vulgar cheats) the collaboration of two dependents of yours, who brought them to my laboratory and to my private dwelling, you proved that, being really or feigning myself absent, I succeeded to conjure the present danger, you didn't take any trouble to try to get yourself in contact with me (if you thought I was hidden) or with my wife (if you thought I was really absent) to take accords on the behavior more reasonable to follow, for saving the material being in the laboratory and for conjuring possible dangers for my family and for me.

3) Having ascertained that the men in uniform had not obtained by costitued authority (not even by the authenticated thieves of the "Gestapo") the permission to force the laboratory door, you have not asked yourself if all this history was becoming uglier and uglier, you have not preoccupied yourself to go to s whatever P.A.I.Command, but you have continued to wait passively all the events. It is interesting to signalize, for memory, that during the week between the first visit of the Germans to the ARCO, at the laboratory in Via Adige and to my private dwelling, and the definitive retreat of the nazi troops from Rome just the same thieves in uniform have come to my house three times again.

Having premised all this it was and it is right for myself that I ascertain you have been, as in fact you have been, little courageous and energetic against some vulgar cheats, little friend and hasty towards him who without any direct interest, had taken risks and responsibilities for the advantage of the ARCO and of the Nation. And has not any reason the excuse behind which you hide yourself and for which there would have been reasons which would have obliged you "not to walk through the quarters Sebastiani". He who writes you, knew that, for all the activity made during the months of the nazi domination in Rome, it was dangerous for him walking in every quarter of

6178

Declassified E.O. 12356 Section 3.3/NND No. 785015

the city. Just to continue till the end to go his duty, he who writes you has continued to walk and to make his activity trying to hide through the streets and the offices of the Capital to the not-always unable and primitive German and republican polices.

I have not spoken and I do not intend to speak here about the importance had in all this lamentable matter by your dependents. I'll limit myself to signalize to you that the collaborator in your confidence, who for your charge and <u>without any notice</u> has accompanied the German thieves to my house, has declared at the telephone to my wife the following words: "Even if your husband is absent, it is better to find the laboratory keys at once. In the contrary case, the Germans will open the doors with the strength. And the Germans know that in the laboratory is stored some silk because I myself told them so when I gave them my goods". Of the exactness of this declaration I can show three witnesses's proof. Then it is logical this part of the matter must be discussed in other place.

And I want to say you these pronunciations on their exactness and truth, I do not admit and I cannot admit any discussion, are not dictated to me by hatred or by will of revenge for your regards.

They are not even suggested to me by the desire to have titles of moral credit. I am not in need of them, on the regards of the family Frua De Angeli.

Because it had to be cleared up for the truth in an hour in which everybody must answer of one's actions and in which we all must try to surrender ourselves better to help the rival of our unlucky country.

And now, if you want with loyalty to confirm the serene objectivity of what I've exposed, I shall be ready to meet again with you, if you want.

/s/.....(illegible)

Exhibit E

Rome 3 July 1944

Ing. Giovanni Gallarati

Rome

In answer of your letter of 25th last month.

I notified your precisation about what was telephoned to your wife by the official Lisi, who, invited by the Germans and not by me to accompany them to Via Faisiello, contests the words telephoned by him. It is desirable that, for the truth and for the measure of the case, this matter is cleared up at once in the competent residence. I can neither give you explanations nor discuss, in this special moment, on what you communicate to me reserving myself to clear up and document my action to those who have given me their confidence. For my past life of proved anti-Fascist faith, known by everybody also by the very Fascist police, I am quite sure to have done my duty. Then about my behaviar in these last months, I can confirm and document that I have not only obstacled the Nazi authorities but I have helped those who, for hiding themselves to the searches of the Nazi-Fascists, wanted dwelling and means. One of these persons, being of the family De Angeli-Frua, will be able, in the right moment, to confirm this.

For the present time I consider closed the matter.

Combined Signal Project AFHQ/49
Supplement No. 2

1. Authority and Designation. Under authority of Item 2, Section IX of AFHQ Signal Instructions and CCS Message CAL 662, the issue of supplies, detailed herein, is authorized under the above designated project.

2. Purpose. The materials authorized herein for issue to the Allied Commission are to provide essential civilian communication facilities, as designated by the Allied Commission. These materials consist of bare line wire, valves and switchboard lamps, which are not available from civilian sources.

72 — folio 10

3. Origination and Approval. Supply issues, requested in letter, subject, "V.F. Telegraphs", file T.S.10.CS, dated 26 March 1945, from Director, Communications Sub-Commission, Allied Commission to CSO, AFHQ, and Requisition AC-SIG-76-45, dated 27 January 1945, are approved.

4. Source of Supply. a. The following materials will be supplied by the CSO, NTOUSA, to the Allied Commission, Communications Sub-Commission:

Item	Description	Unit	Quantity
1	Wire, 3 mm copper	ton	100
2	Wire, .080 Cw	ton	50
3	Sleeve, .128 copper	ea	5000
4	Sleeve, .080 copper	ea	3000
5	Wire, Tie W-154	lb	1000

Note: Item 1 & 3 have been released on Release No. S-1283A, dated 27 Mar 45.
Items 2, 4, & 5 have been released on Release No. S-1349, dated 6 Apr 45.

b. The following materials are uncontrolled British items and will be procured by the Allied Commission, Communications Sub-Commission by requisitioning in the usual manner:

Item	Description	Unit	Quantity
1	Valve, No. 4019A	ea	80
2	Valve, No. 4022A	ea	100
3	Lamp, No. 4003A, 10 Watt	ea	50
4	Lamp, No. 4003B, 20 Watt	ea	50
5	Lamp, No. 4003C, 30 Watt	ea	50
6	Lamp, No. 4003D, 60 Watt	ea	50

617

Declassified E.O. 12356 Section 3.3/NND No. 785015

2. Purpose. The materials authorized herein for issue to the Allied Commission are to provide essential civilian communication facilities, as designated by the Allied Commission. These materials consist of bare line wire, valves and switchboard lamps, which are not available from civilian sources.

72 — folio 10

3. Origination and Approval. Supply issues, requested in letter, subject, "V.F. Telegraphs", file T.S. 10.CS, dated 26 March 1945, from Director, Communications Sub-Commission, Allied Commission to CSO, AFHQ, and Requisition AC-SIG-76-45, dated 27 January 1945, are approved.

4. Source of Supply. a. The following materials will be supplied by the CSO, LTOUSA, to the Allied Commission, Communications Sub-Commission:

Item	Description	Unit	Quantity
1	Wire, 3 mm copper	ton	100
2	Wire, .080 Cw	ton	50
3	Sleeve, .128 copper	ea	5000
4	Sleeve, .080 copper	ea	3000
5	Wire, Tie W-154	lb	1000

Note: Item 1 & 3 have been released on Release No. S-1283A, dated 27 Mar 45.
Items 2, 4, & 5 have been released on Release No. S-1349, dated 6 Apr 45.

b. The following materials are uncontrolled British items and will be procured by the Allied Commission, Communications Sub-Commission by requisitioning in the usual manner:

Item	Description	Unit	Quantity
1	Valve, No. 4019A	ea	80
2	Valve, No. 4022A	ea	100
3	Lamp, No. 4003A, 10 Watt	ea	50
4	Lamp, No. 4003B, 20 Watt	ea	50
5	Lamp, No. 4003C, 30 Watt	ea	50
6	Lamp, No. 4003D, 60 Watt	ea	50

€17450

5. Special Instructions. Special instructions contained in Paragraph 5 of the basic Combined Signal Project AFHQ/49 also apply to this supplement.

T.72 11

La Società S.A.F.A.R. è una delle più importanti industrie italiane di costruzione radio elettriche e telefoniche ed è certamente la più completa, in quanto estende la sua attività produttiva ad un campo molto vasto che abbraccia gli apparati di telefonia speciale e telefonia interurbana, gli apparati di radiodiffussione e di radio professionale, gli apparati di misura e di controllo, gli apparati di televisione e di cinematografia sonora.

I campi di produzione S.A.F.A.R. si possono precisare e riassumere come segue:

CAMPO TELEFONICO.-

Costruzioni telefoniche speciali, quali costruzioni di telefoni per applicazioni navali, telefoni per ambienti rumorosi, telefoni per applicazioni ferroviarie.

Costruzione telefoniche per collegamenti interurbani su linee aeree e su cavi, quali costruzioni di amplificatori per circuiti a 2 e a 4 fili, di apparati di telegrafia armonica a I8 canali tipo T A -I8, di telegrafia supersudio T S A /42, di apparati di telefonia a onde vettrici per linee in cavo (tipo A C I ad un canale, tipo A C - I2 a I2 canali) e per linee aeree (tipo D S 2 a due canali; tipi D R I e D R 2 a un canale; tipo D S 3/42 a 3 canali; tipo D S I2 a I2 canali).

CAMPO COLLEGAMENTI RADIOTELEFONICI A ONDE ULTRACORTE E A MICROONDE-

6171

Costruzione di apparati radiofonici a onde ultracorte (da 2 a 5 m) dei tipi D S I/ U C M per collegamenti da IO a 40 Km. e D S I / U C per collegamenti da 50/I50 Km.

Costruzioni di apparati ad onde decimetriche (60-70 cm.) del tipo G. per collegamenti tra punti a visibilità ottica. (Portate raggiungibili, con opportuni posti di ripetizione automatica, 600 - 700 Km. e possibilità di 8 e XX più canali di comunicazione).

CAMPO RADIO DIFFUSIONE E RADIO PROFESSIONALE -

Costruzione di apparati riceventi di radiodiffusione di tipi vari (produzione annua circa 20.000 apparati); costruzione di apparati trasmittenti per radiodiffusione ad onde medie, corte e ultracorte, quest'ultime di tipo a modulazione di ampiezza e di frequenza, di potenza fino a 50-60 Kw ed anche potenze maggiori; costruzioni di apparati per registrazione sonora, apparati per studi di radiodiffusione ecc.

Costruzione di apparati radio riceventi e trasmittenti di tipo professionale, quali apparati trasmittenti e riceventi per servizi commerciali terrestri, per servizi marittimi ed aerei, terrestri e di bordo, di apparati radiogonometrici, radiofari e radio localizzatori.

CAMPO APPARATI SCIENTIFICI DI MISURA E CONTROLLO PER APPLICAZIONI RADIO E TELEFONICHE.-

Costruzioni di apparati scientifici di misure e controllo per applicazioni radio e telefoniche, quali generatori campioni, generatori a battimenti, oscillografi a raggi catodici, apparati per misure di capacità, diafonia ecc.

CAMPO CINEMATOGRAFIA SONORA E TELEVISIONE.-

Costruzione di apparati cinematografici di presa e di proiezione sonora a passo ridotto (16 mm.)

Costruzione di apparati trasmittenti e riceventi di televisione.

CAMPO TUBI ELETTRONICI.- 617.

Costruzione di tubi elettronici speciali per trasmissioni e di tubi a raggi catodici.

Declassified E.O. 12356 Section 3.3/NND No. 785015

La S.A.F.A.R. dispone di due stabilimenti, uno a Milano (Area coperta circa 30.000 mq.-) ed uno a Roma (area coperta circa 18.000 mq.) ed utilizza in periodo di normale attività circa 4500 tra operai, impiegati e tecnici, di circa 150 tra Ingegneri e laureati; essa dispone inoltre di un importante laboratorio di ricerche con circa 300 tra ricercatori e tecnici.

Attualmente, in seguito ai licenziamenti, la maestranza S.A.F.A.R. è ridotta a 1500, tra operai, impiegati, Ingegnieri e ricercatori.

Dal quadro riassuntivo sopra esposto si rileva come la S.A.F.A.R. abbia possibilità di produzione molto notevole, sia come quantità, sia come qualità di prodotti.

L'attuale situazione rende necessario di procedere ad una completa revisione nei riguardi dei programmi di costruzione, onde adeguare questi ultimi alle necessità della ricostruzione nazionale, tenendo particolarmente presente la possibilità di aiuti e di indirizzi che possono venir dati da parte delle principali industrie estere e alleate nel campo delle telecomunicazioni e della radio.

Sotto questo punto di vista i proprietari e i dirigenti della S.A.F.A.R. dichiarano nel modo più esplicito e più sincero che desiderano impostare il loro futuro programma di costruzione e di attività in completa armonia e secondo i suggerimenti che gradirebbero fossero dati loro dalle Autorità Alleate.

In particolare la S.A.F.A.R. gradirebbe conoscere dalle Autorità Alleate quali delle sue attività segnalate precedentemente può continuare a svolgere e quali, in relazione alla situazione industriale mondiale è conveniente che essa abbandoni. A tale riguardo fa presente che è disposta a presentare alle Autorità Al-

In particolare la S.A.F.A.R. gradirebbe conoscere dalle Autorità Alleate quali delle sue attività segnalate precedentemente può continuare a svolgere e quali, in relazione alla situazione industriale mondiale è conveniente che essa abbandoni. A tale riguardo fa presente che è disposta a presentare alle Autorità Alleate una descrizione dettagliata delle diverse apparecchiature già di normale costruzione o già sviluppate come studio e progettazione, di cui si è dato precedentemente un elenco sommario, e ciò allo scopo di fornire ai tecnici competenti del Comando Alleato, elementi precisi sullo stato di progresso finora raggiunto dalla S.A.F.A.R. nei vari campi.

646

Declassified E.O. 12356 Section 3.3/NND No. 785015

La S.A.F.A.R. sarà molto grata ai Comandi Alleati, se questi vorranno metterla in condizione di stabilire collegamenti tecnici commerciali con le grandi industrie inglesi e americane, nel campo delle telecomunicazioni e della radio che riterranno più indicate, in modo che la S.A.F.A.R. possa utilizzare in Italia, dietro pagamento dei relativi diritti industriali, i brevetti e i procedimenti di lavorazione delle ditte con le quali stabilirà legami di collaborazione.

A dimostrazione dei sentimenti di assoluta sincerità da cui cui sono animati, i proprietari e i dirigenti della S.A.F.A.R. dichiarano che, ove sia ritenuto conveniente e necessario, sono disposti a cedere parte del capitale azionario alle industrie estere americane o inglesi con le quali stabiliranno rapporti di collaborazione, in modo che quest'ultimi possano avere un effettivo controllo dell'attività, che la S.A.F.A.R. è disposta a svolgere con sentimenti di devota collaborazione.

La S.A.F.A.R. desidera portare infine a conoscenza del Comando Alleato, che essa ha attualmente in costruzione e in allestimento le seguenti apparecchiature:

N° IO apparecchiature telefoniche a correnti vettrici tipo DS/42, delle quali 7 del tipo A e 3 del tipo B, per un totale di 30 canali di conversazioni; tali apparecchiature saranno pronte in un periodo da 90 a IOO giorni.

N° I2 apparecchiature telefoniche a correnti vettrice del tipo DS 3/42, di cui 9 del tipo A e 3 del tipo B; tali apparecchiature saranno pronte entro circa 6 - 8 mesi.

6168

N° 40 apparecchiature D R I, 20 apparecchiature tipo

HTW/epe

26th March, 1945

T.72.10 .CS

SUBJECT: V.F.Telegraphs

TO: A.F.H.Q.
Att: Chief Signal Officer

1. There is practically no iron wire and very little bronze left in liberated Italy.

2. A great deal of labour would in any case be required to erect long-distance telegraph circuits, and the work would cover a long period.

3. Accordingly, a V.F. telegraph system has been created, covering the route Naples, Rome, Bologna, Milan.

4. More equipment is required however to extend the network and it is proposed that the Rome firm of SAFAR build up some V.F.equipment as follows:

a. Two channels to complete two existing systems.
b. Two 9-channels systems for N.Italy.
c. Four super-audio telegraph equipments (3600 cycles).

5. For this equipment, SAFAR requires valves as listed below:

80 valves No. 4019 A
100 " " 4022 A

and the following resistance lamps:

f 167

"Standard Tyne"

10 lamps No. 4003 A - 10 Watts - 130 volts
" " 4003 B - 20 " - " "
" " 4003 C - 30 " - " "
" " 4003 D - 60 " - " "

rec 12

File

Declassified E.O. 12356 Section 3.3/NND No. 785015

T.72. .CS

26th March, 45. Continued:

10-2

About 40 of each of these lamps are also urgently required for maintenance replacements on existing installations, making 50 of each in all.

6. The construction of this equipment will reduce demands likely to be made from Allied sources for complete terminals.

7. Can these be supplied from Allied sources please ?

J.L.HENDERSON
Colonel,
Director.

Declassified E.O. 12356 Section 3.3/NND No. 785015

Translation by C. Gagliardi.

Ref. No. S/15.3/31055 22nd March 1945.

SUBJECT:- Harmonic telegraph equipment material.

1. - The Safar has notified us that it is prepared to manufacture for us some harmonic telegraph equipment. Though the orders, the Safar has stated it is ready to execute, are inferior to the presumed requirements we hope that, in due course, after having improved its organization, we can entrust to it the construction of:-

a) two channels to complete two existing equipments;
b) two 9 channel systems for Northern Italy;
c) four superaudio telegraph equipments.

To fulfill the above order the Safar will require some parts which it cannot absolutely obtain in Italy and which are:-

No. 80 Electronic valves 4019 A
100 " " 4022 A

In the above quantities also a reasonable quantity of spares is foreseen.

2. - For theharmonic telegraph equipments, as for the telephone equipments, the Azienda is in difficulties for the substitution of the resistance lamps (regulating lamps to protect from overtensions and overcurrents). The resistance lamps in question are of the following Standard types:-

4003A - 10 Watt - 150 Volts
4003B - 20 " - 130 "
4003C - 30 " - 130 "
4003D - 60 " - 130 "

Any quantity that could be supplied would be utilized.

3. - We thank you in advance for what you will kindly be able to do to assist the Safar for the construction of the abovementione equipments that are of great importance also to this Ministero.

Declassified E.O. 12356 Section 3.3/NND No. 785015

Translation by C Gagliardi.

9-2

Ref. No. 8/15.3/31655 22nd March 1945.

SUBJECT:- Harmonic telegraph equipment material.

1. - The Safar has notified us that it is prepared to manufacture for us some harmonic telegraph equipment. Though the orders, the Safar has stated it is ready to execute, are inferior to the presumed requirements we hope that, in due course, after having improved its organization, we can entrust to it the construction of:-

a) two channels to complete two existing equipments;
b) two 9 channel systems for Northern Italy;
c) four superaudio telegraph equipments.

To fulfill the above order the Safar will require some parts which it cannot absolutely obtain in Italy and which are:-

No.80 Electronic valves 4019 A
100 " " 4022 A

In the above quantities also a reasonable quantity of spares is foreseen.

2. - For theharmonic telegraph equipments, as for the telephone equipments, the Azienda is in difficulties for the substitution of the resistance lamps (regulating lamps to protect from overtensions and overcurrents). The resistance lamps in question are of the following Standard types:-

4003A - 10 Watt - 130 Volts
4003B - 20 " - 130 "
4003C - 30 " - 130 "
4003D - 60 " - 130 "

Any quantity that could be supplied would be utilized.

3. - We thank you in advance for what you will kindly be able to do to assist the Safar for the construction of the abovementione equipments that are of great importance also to this Ministero.

US of S.

OGGETTO: Materiali per apparecchiature in telegrafia armonica.

ALLA COMMISSIONE ALLEATA
Posts and Telecommunication
Sub-Commission

R O M A

1. - La Ditta Safar si è dichiarata pronta ad effettuare la costruzione per conto di questo Ministero di alcune apparecchiature per telegrafia armonica. Per quanto gli impegni che la Safar si è dichiarata pronta ad assumere, siano inferiori ai presumibili bisogni, si confida che, in definitiva, perfezionata la propria organizzazione, si posaa affidarle la costruzione:

a) di due canali per il completamento di due apparecchiature esistenti;

b) di due sistemi a 9 canali per il Nord Italia;

c) di 4 apparecchiature per telegrafia in super audio.

Per l'attuazione del suddetto programma, la Ditta Safar abbisogna di alcune parti, che non le risulta assolutamente possibile approvvigionare in Italia: e precisamente

n. 30 relè telegrafici riceventi, tipo Standard 4121-C (209 S A Standard)

n. 80 tubi elettronici 4019 A

n. 100 " " 4022 A.

(163

Nei quantitativi suddetti è prevista anche una ragionevole scorta.

2. - Sia per le apparecchiature di telegrafia armonica, sia

Con riferimento alla lettera di codesta Onorevole Commissione n. CS 63/I/5 in data 26 settembre 1944, mi pregio informare che il Tribunale di Roma con Decreto del 13 corrente mese ha nominato l'Ing. Giovanni GALLARATI , domiciliato in Roma - Via C. Carissimi 28-C -, Commissario dello Stabilimento sito in Roma, di pertinenza della SAFAR (Società Anonima per la Fabbricazione degli Apparecchi Radio), con sede centrale in Milano.

Al detto Ing.Gallarati sono stati conferiti tutti i poteri spettanti al presidente, al consigliere delegato ed al direttore generale della Società stessa.

Ministero delle Comunicazioni
Direzione Generale delle Poste e dei Telegrafi
Ispettorato Generale del Traffico R.T.T.

Roma 12 ottobre 1944

al Presidente del Tribunale = Roma =

Oggetto = Nomina di Commissario ai sensi del R.D.L. 15.11.1943 n.8-B

Dopo la liberazione di Roma , lo Stabilimento in questa città della S.A.F.A.R. (Società Anonima per la Fabbricazione degli Apparecchi Radio) rimasto distaccato dalla Sede centrale di Milano è stato provvisoriamente adibito dagli Alleati a riparazione degli apparecchi radiofonici in dotazione dell'esercito Polacco .
Avendo tale Stabilimento una larga disponibilità di materiali ed essendo privo di un Direttore Generale , questo Ministero rileverebbe la opportunità di nominare per la Società di cui trattasi un Commissario al quale dovranno essere conferiti tutti i poteri.

Allo scopo prego la S.V. Ill.ma di volere cortesemente disporre per tale nomina , ai sensi dell'art. 2 del R.D.L. 15 novembre 1943,n.8-B.

Si unisce un promemoria con le indicazioni di massima relative allo Stabilimento S.A.F.A.R. di Roma.

Il Capo dell'Ispettorato f° Marcucci.

Visto si delega il giudice sig.Caporaso a riferire in Camera di Consiglio sentito il P.M.

1. With reference to previous correspondence from Communications Sub-Commission under reference CS/63/1/22 respecting the above named, the following information has been obtained.

2. Subject was born at Rome on 16th June 1905 and now lives at Via G. Garissimi 28c., Rome. He states on the Scheda Personale that he joined P.N.F. on 29th October 1932, but I am informed he was inscribed at the Fascio at Genova in 1930.

3. He has lived for many years in Switzerland and at Milan.

4. In 1929 he was employed at the Institute of Cultural Relations and wrote some 30 articles on engineering.

5. He was appointed to the " Istituto Nazionale Luce" in 1936 and it is said that at this time he had an authorisation to enter MUSSOLINI's villa.

6. A document exists which shows that GALLARATI's father spoke against the Fascist Regime in 1936 but no action was taken as it was officially viewed that the son's important work with the Italian Ambassador at Geneva, together with his radio activities of the League of Nations overshadowed any injuries which the father could do to Fascism.

7. In 1933 GALLARATI was in Turkey and it is said he was suspected of not having behaved in a honourable way towards Italy. Official documents show that his activities were regarded as mysterious and somewhat secure and Italian officials were never able to really establish exactly what he was doing. It is suggested that he was engaged on some confidential work for MUSSOLINI and the authority mentioned above
