R.A.A.C. ORDNANCE CIRCULARS

JULY - SEPT. 1945

A.A.C. ORDNANCE CIRCULARS

July - SEPT. 1945

ROME AREA ALLIED COMMAND
AFO 794, US ARMY

ES/CBI/saw
6 September 1945

AG 655 (G-3)

SUBJECT: Fire Services

TO : Distribution 'R' (US & Br)

1. Rome Area Allied Command Daily Bulletin 206 (IV) dated 30 August 1945 and 208 (III) dated 3 September 1945 refer.

2. ALL Allied calls for assistance at FIRES hitherto made on 615 (First Class) Army Fire Ede MIL, WITH EFFECT the date of this order, be made on:

ITALIAN CIVIL FIRE SERVICES

Telephone: DIAL 471555, 471334, 473010.

3. English speaking personnel are available on these telephone numbers, but should response be in Italian, then demand to speak to English speaking operators must be made.

4. Always give name or number of unit, and location CLEARLY, SLOWLY and IN FULL. This is important.

5. Unit commanders will ensure that an officer is always available to liaison with, and, as may be necessary, to assist Italian Fire Services in carrying out their task.

6. Due to the withdrawal of Army Fire Services, all units will take immediate action to review and overhaul their fire protection schemes so as to ensure the highest degree of domestic fire cover, and will make sure that the procedure to be followed is understood by ALL ranks.

7. All unit commanders are hereby instructed to permit entry to unit lines and premises by Italian Fire Service personnel for the purpose of making reports and fire inspections as and when called upon. Without the full cooperation of units in this matter, little will be achieved; therefore, it is essential to Allied interests that this order is complied with at all times.

A.D.O.S. CIRCULAR No. 12

(Incorporating Amendments 1, 2 & 3)

Subject: - ORDNANCE SERVICE - ROME AREA

FILE

1.38

Date 13 AUG 1943

1. This circular is published for the information and guidance of British units in Rome Area, and is an endeavour to indicate what facilities are available and how advantage can best be taken of them. The strict observance by units of such instructions as may be incorporated in this circular is a necessary adjunct to the efficient maintenance of such facilities.

The contents of this circular are applicable to units under Command 201 Sub Area in so far as general subjects are concerned, but NOT as effecting such particular Sections of this circular (e.g. Channels of Demand etc.) which are or may be the subject of separate instructions issued by DALOS 201 Sub Area.

INFORMATION

2. This office is designated as ORDNANCE (BRITISH) ROME AREA ALLIED COMMAND.

Communications should be addressed as under:-

Correspondence: DALOS ROME Area Allied Command

Signals : ORD (BC) Rome Area

An ADOS dump is located in Direzione Partiglieria, via Etruria, Rome (Map reference 755649) and is controlled by this office, to whom all communications should be addressed.

STORES - SUPPLY THROUGH NORMAL CHANNELS

3. Channels of Demand. All demands for Ordnance Stores (including those for vehicles and War Office controlled stores.) from units in Rome Area, other than those under Command 201 Sub Area and except as detailed in paras. 8, 10, 14 and 15 below, will be submitted through this office.

4. Method of Demand. Indents will be submitted on AFG 994, AFG 997 or AFG 1058 in TRIPLICATE and must be signed by an officer. These Army forms vary considerably in form according to a detail of the information required to be shown is listed below. Lack of relevant information will necessitate the return of the indents in question and consequent delay in supply of stores.

Information required to be shown on AFG indents:-

- The correct and full designation of the unit demanding.
- A unit indent number and date of signature (to facilitate reference)

available and how advantage can best be taken of them. The strict observance by units of such instructions as may be incorporated in this Circular is a necessary adjunct to the efficient maintenance of such facilities.

The contents of this Circular are applicable to units under Command 201 Sub Area in so far as general subjects are concerned, but NOT as effecting such particular Sections of this Circular (e.g. Channels of Demand etc.) which are or may be the subject of separate instructions issued by DADOS 201 Sub Area.

INFORMATION

2. This office is designated as ORDANCE (BRITISH) ROME AREA ALLIED COMMAND.

Communications should be addressed as under:-

Correspondence: ADOS Rome Area Allied Command

Signals : OMB (3C) Rome Area

An ADOS Dump is located in Direzione Partiglieria, via Etruria, Rome (Map reference 755649) and is controlled by this office, to whom all communications should be addressed.

STORES - SUPPLY THROUGH NORMAL CHANNELS

3. Channels of Demand. All demands for Ordnance Stores (including those for vehicles and War Office controlled stores) from units in Rome Area, other than those under Command 201 Sub Area and except as detailed in paras. 8, 10, 14 and 15 below, will be submitted through this office.

4. Method of Demand. Indents will be submitted on AFG. 994, AFG. 997 or AFG. 1058 in TRIPPLICATE and must be signed by an officer. These Army forms vary considerably in form accordingly a detail of the information required to be shown is listed below. Lack of relevant information will necessitate the return of the indents in question and consequent delay in supply of stores.

Information required to be shown on ALL indents:-

- a) The correct and full designation of the unit demanding.
- b) A unit indent number and date of signature (to facilitate reference)
- c) The VLOS Section in which the item(s) demanded is listed. A list of VLOS Sections is shown as Appendix 'A'.
- d) Part or catalogue number of item(s) demanded (if known)
- e) The unit entitlement to each item showing, where applicable, the scale employed (e.g. 2 per man, 5 oss per man per week, 1 per vehicle or 6 per battery etc.)
- f) The authority from which the unit entitlement is derived (e.g. the appropriate Clothing Scale, the AFG. 1098 number and date or Special Equipment List or War Office letter, the reference of the appropriate AFHQ or lower Command GPO or letter or such other recognisable written authority as may be relevant).
- g) Present serviceable unit holdings of each item demanded, including any quantities held in units stores.
- h) Unit strength (in terms of personnel, vehicles, weapons etc. as applicable).

Sheet 2.

- 1) Make and type of vehicle or equipment (for MT spares and Assemblies and all technical spares).
- 2) A proper explanation of the circumstances under which the requirement is considered justified in ALL cases where the demand cannot be supported by a known authority.

Care should be taken to observe the following additional points:-

- k) Only items in any one VAOS section may be demanded on any one indent. Failure to observe this rule means that items incorrectly demanded must be extracted in this office with consequent delay both to the individual indent and to the general flow of work.
- l) The certificate at the top left of AFG. 994 and the bottom left of AFG. 997 must be completed.
- m) Neither the completion of this certificate nor the use of such endorsements as "To replace unserviceable", "To complete to scale" etc. constitute in themselves authority for issue and will NOT be accepted as such.
- n) Thoughtless use of the space headed "To be sent to" (AFG. 994) and "Address for Stores" (AFG. 997) can lead to considerable delay in receipt of stores. The inserting of the sentence "Unit will collect" may well result in stores being held indefinitely in Base Ordnance Depots awaiting collection. In case of doubt the unit designation should be inserted in the space.
- o) Units for whom no specific AFG. 1098 has been notified or who are in the process of forming can demand normal requirements of non-controlled Ordnance Stores up to the scales shown in AFG. 1098/1000 on the basis of the strength authorised in their unit W.E. or the posted strength, whichever is the lesser.
- p) Indents for MT spares in respect of which the Catalogue or Makers Part Numbers are not known must show either the contract number of the vehicle or in case of American makes the supply mech number to allow for identification.
- q) Not more than ten items should be demanded on any one indent.

5. Frequency of Submission. Indents for Bulk Item (i.e. those detailed at Appendix B) will be submitted fortnightly only, on the 10th, and the 25th, of each month. Indents for all other stores (including MT Spares) may be submitted as and when necessary. In all cases indents must be lodged as to allow of 7 clear days before anticipated date of collection (except that in the case of indents passed to MODs for supply, a delay of 21 days should be expected).

6. Supply. Stores detailed in Appendix B are classified as "Bulk Items" and are normally held in ADOS Dump. Indents for these items will be met from

- 1) The certificate at the top left of AFG. 994 and the bottom left of AFG. 997 must be completed.
 - m) Neither the completion of this certificate nor the use of such endorsements as "to replace unserviceable", "to complete to scale" etc. constitute in themselves authority for issue and will NOT be accepted as such.
 - n) Thoughtless use of the space headed "to be sent to" (AFG. 994) and "Address for stores" (AFG. 997) can lead to considerable delay in receipt of stores. The inserting of the sentence "unit will collect" may well result in stores being held indefinitely in Base Ordnance Depots awaiting collection. In case of doubt the unit designation should be inserted in the space.
 - o) Units for whom no specific AFG. 1098 has been notified or who are in the process of forming can demand normal requirements of non-controlled Ordnance Stores up to the scales shown in AFG. 1098/1000 on the basis of the strength authorised in their unit W.E. or the posted strength, whichever is the lesser.
 - p) Indents for M Spares in respect of which the Catalogue or Makers Part Numbers are not known must show either the contract number of the vehicle or in case of American makes the supply mech number to allow for identification.
 - q) Not more than ten items should be demanded on any one indent.
5. Frequency of Submission. Indents for Bulk Item (i.e. those detailed at Appendix B) will be submitted fortnightly only, on the 10th, and the 25th of each month. Indents for all other stores (including M Spares) may be submitted as and when necessary. In all cases indents must be lodged as to allow of 7 clear days before anticipated date of collection (except that in the case of indents passed to BODs for supply, a delay of 21 days should be expected).
 6. Supply. Stores detailed in Appendix B are classified as "Bulk Items" and are normally held in ADOS Dump. Indents for those items will be met from that source. All other indents except as specified in paras 8 to 16 inclusive below, are passed direct to Base Ordnance Depots for supply and reiled forward by them to ADOS Dump, Reme for distribution. Notification of receipt of such stores by ADOS Dump is made direct to unit who should collect from the Transit Section, ADOS Dump on their appropriate collection day (see para 7 below). Authority for units to collect stores direct from Base Ordnance Depots will only be granted in cases of operational urgency.
 7. Days for collection. In order to facilitate working at ADOS Dump, units are required to effect collection of stores on specified days of the week according to their Arm of Service. Days are allotted as below and stores will not normally be issued to units except on these days:-

Mondays - RA., Ord and REME

Tuesdays--RE (all RE units under command CRE)

Sheet 3.

7. (cont'd)

- Wednesdays - EC., FS, postal and HQ units
 Thursdays - RASC and Provost
 Fridays - RAMC., AAC., RE of S and Mov and Tn.
 Saturdays - RAC and all units of other arms than above.
 Sundays - Issues of stores from ADOS Dump will not be made on Sundays except in cases of operational necessity.

ITEMS, DEMANDS FOR WHICH REQUIRE SPECIAL ROUTING.

8. MT Spares - demands from RASC and PEME Workshop Units
 RASC and PEME Workshop units only will demand MT Spares (except for tyres and tubes, see para 9 below, and engine assemblies, see para 10 below) direct on 1 Sub Depot, 557 Base Ordnance Depot and collect under their own arrangements. It is stressed that this authority does not extend to placing demands on other Sub Depots which may carry stores common to MT/Miscellaneous Sections. Demands from all other units will be routed through this office.
9. Tyres and tubes. All demands will be submitted through this office. RASC and PEME Workshop units will submit weekly bulk forecasts to reach this office by 1200 hrs. each Saturday. RASC unit forecasts will be routed through ADST., Rome Area.

The following sizes of tyres and tubes are at present subject to control by D.O.S., A.T.H.Q.:-

325 x 19	1050) x 16	825 x 15
600 x 16	1100)	1100 x 24
700 x 16	1050) x 16	1200 x 20
900 x 16	1100)	
900 x 20	1350) x 20	
	1400)	

Applications for release based on consolidation of unit indents and workshop forecasts are submitted to DOS weekly by this office through DOS 3 District. Tyres and tubes are released and despatched in bulk to ADOS Dump, Rome Area, which notifies units to collect. A minimum delay of two weeks must be expected between date of submission of indent and ultimate notification of availability in ADOS Dump.

10. Engine Assemblies. RASC Transport units will demand their requirements of engine assemblies through S.2 T., Rome Area. P.D.M.E. units will demand weekly showing requirements as at 1800 hrs. each Saturday and send the demand to this office not later than 1400 hrs. each Sunday.

ITEMS, DEMANDS FOR WHICH REQUIRE SPECIAL ROUTING.8. MT Spares - demands from RASC and REME workshop units

RASC and REME Workshop units only will demand MT Spares (except for tyres and tubes, see para 9 below, and engine assemblies, see para 10 below) direct on 1 Sub Depot, 557 Base Ordnance Depot and collect under their own arrangements. It is stressed that this authority does not extend to placing demands on other Sub Depots which may carry stores common to MT/Miscellaneous Sections. Demands from all other units will be routed through this office.

9. Tyres and tubes. ALL demands will be submitted through this office. RASC and REME Workshop units will submit weekly bulk forecasts to reach this office by 1200 hrs. each Saturday. RASC unit forecasts will be routed through ADSTL, Rome Area.

The following sizes of tyres and tubes are at present subject to control by D.O.E., A.F.H.Q.:-

325 x 19	1050) x 16	825 x 15
600 x 16	1100)	1100 x 24
700 x 16	1050) x 16	1200 x 20
900 x 16	1100)	
900 x 20	1350) x 20	
	1400)	

Applications for release based on consolidation of unit indents and workshop forecasts are submitted to DOS weekly by this office through DDOS 3 District. Tyres and tubes are released and despatched in bulk to ADOS Dump, Rome Area, which notifies units to collect. A minimum delay of two weeks must be expected between date of submission of indent and ultimate notification of availability in ADOS Dump.

10. Engine Assemblies. RASC Transport units will demand their requirements of engine assemblies through S.&T., Rome Area. R.E.M.E. units will demand weekly showing requirements as at 1800 hrs. each Saturday and send the demand to this office not later than 1100 hrs. each Sunday.11. DOS Reserved Stores. Certain stores other than those controlled by the Staff are in short supply and are controlled by DOS, AFHQ and are known as "DOS reserved stores". A list of these items at present controlled is attached at Appendix 'C'. This list necessarily varies from time to time.

Indents for these items may be submitted at any time. Application for release is made as and when necessary only in the case of Part I items and monthly in the case of Part II items except in cases of operational urgency, and consequently supply of stores will normally be subject to an average delay of 3/4 weeks.

Sheet 4a

12. War Office Controlled Stores. The items listed on Census Form 45 are subject to Staff control. Indents for deficiencies will be submitted in the normal manner and application for release will be made by this office. Notification of release and place of collection or method of delivery will be made direct to the unit. It is essential that the following information is provided in respect of all these demands:-

- a) Number and date of AFG. 1098 under which entitled
- b) Full entitlement of items demanded - by types (and makes where specified).
- c) Actual holdings and deficiencies of serviceable stores against entitlement (including any items held "in lieu" of the authorised equipment).
- d) Quantity now demanded.
- e) Reason for demand.

AFG. 1043 (H.R. Certificate) is required to support all applications for replacement of unserviceable watches, binoculars and instruments.

13. Vehicles. Vehicles may be demanded in the same manner as War Office Controlled Stores. The information to be shown is:-

- a) Number and date of W.E. or special authority under which entitled.
- b) Entitlement by types of vehicles.
- c) Holdings and deficiencies.
- d) Now required.
- e) Reason for demand.

Application for replacement vehicles will be supported by AFG. 1043 in respect of the condemned vehicles.

14. Controlled Signal Stores. Demands for controlled signal stores as listed at Appendix 'D' attached will be placed by units direct on CSO 3 District.

15. Searchlight and AA Fire Control Instruments. Demands should be submitted as for DCS Reserved Stores and they will be forwarded through Ord Channels to Q(AE) AFHQ.

16. Radar Equipment. Demands for these items will be submitted through RA Channels to RA & CD AFHQ.

17. Spares for Teleprinters 73, Teletypes EE 97 and Cipher Machines Type 'X'. Demands will be submitted through signal and cipher channels respectively through this office.

- d) Quantity now demanded.
- e) Reason for demand.

AFG 1043 (PER. Certificate) is required to support all applications for replacement of unserviceable watches, binoculars and instruments.

13. Vehicles. Vehicles may be demanded in the same manner as War Office Controlled Stores. The information to be shown is:-

- a) Number and date of WE or special authority under which entitled.
- b) Entitlement by types of vehicles.
- c) Holdings and deficiencies.
- d) Now required.
- e) Reason for demand.

Application for replacement vehicles will be supported by AFG 1043 in respect of the condemned vehicles.

14. Controlled Signal Stores. Demands for controlled signal stores as listed at Appendix 1D attached will be placed by units direct on CSO 3 District.

15. Searchlight and AA Fire Control Instruments. Demands should be submitted as for DCS Reserved Stores and they will be forwarded through Ord Channels to Q(AE) AFHQ.

16. Radar Equipment. Demands for these items will be submitted through RA Channels to AA & CD AFHQ.

17. Spares for teleprinters 7B, teletypes EE 97 and cipher machines Type X.

Demands will be submitted through Signal and Cipher Channels respectively in accordance with service instructions and not through this office.

18. Surgical Boots and Light Shoes. The conditions of issue are outlined in War Clothing Regs 1943, paras 14 and 15. Indents for surgical boots must be supported by a recommendation from an Orthopaedic or Surgical Specialist. Indents for boots Ankle No. 4 or Shoes require to be accompanied by a certificate from the unit Medical Officer and must be countersigned by an OC. NOT below field rank (vide ACI 2124 of 1941 as amended by ACI 4307 of 1942).

CANCELLATION OF INDENTS.

19. Indents for "bulk items" passed to ADOS Dump for supply are automatically cancelled after issue of all availabilities and no "to follows" are maintained. BULK ITEMS declared "NOT AVAILABLE" on such indents should, if still required, be redemanded on the next fortnightly bulk demand and the indent suitably endorsed "Redemand of unit indent No.dated.....item previously declared not available".

19 (cont'd)

"to follows" are maintained for a period of two months in respect of all indents passed to Base Ordnance Depots, for supply, except where issue vouchers are specifically endorsed to the contrary. All such indents outstanding for more than two months from date of indent must be considered as having been automatically cancelled and fresh indents should be submitted.

SPECIAL ISSUES.

20. Issues to voluntary organisations. Demands may be made by voluntary organisations for essential items of normal Ordnance supply not obtainable through their own channels. No demands in excess of the existing scales authorised for military units will be considered. All issues will be on repayment and debit vouchers will be rendered by this office to the command Paymaster in accordance with the terms of AJI 1132 of 1941 (as amended).

21. Issues of MP Sparesparts from salvage units. Under the terms of Q(SE) AFHQ Admin. Instruction No. 5, issues may be made from Vehicle Disposal units as follows:-

"Items, other than engine assemblies and associate sub-assemblies (e.g. carburettors, fuel pump etc.) and which are included in the schedules of assemblies and parts to be recovered by Vehicle Disposal units may be issued by OC., Vehicle Disposal unit to units on production of an Ordnance Issue voucher showing non-availability of the item(s) at the GPF., AOD or EOD on which the unit is based for supply".

It is stressed that this instruction is intended as a means to ensure that vehicles are not kept off the road through lack of essential spares where these can be found available with salvage units. It does not entitle units to obtain and hold quantities of MP Spares in excess of scales or expendable items in excess of reasonable requirements.

22. Issues of Oxygen and Acetylene. Indents for Oxygen and Acetylene will be submitted through this office except where a bulk allocation has been made to the unit. Units having an allocation may draw direct without indent within their allocation and not exceeding 25% in any one week. Requirements in excess of allocation require countersignature from this office. Units wishing to obtain a monthly allocation should apply to ADOS through their local Head of Service (where applicable). Unclaimed portions of monthly allocations cannot be carried forward to succeeding months. Gases will be supplied on a cylinder for cylinder basis from ADOS Durr, Rome.

23. Issues of tentage. Tentage is in short supply and at the moment all issues are controlled by Q. Staff. Demands can only be met for tentage required for immediate essential use. Demands to complete to AG 1098 or other scale where not required for immediate use cannot be considered. Careful conservation of tentage in use will assist in alleviating the difficult supply position.

SCALES.

1509

21. Issues of MP Spareparts from Salvage Units. Under the terms of Q(SE) AFHQ Admin. Instruction No. 5, issues may be made from Vehicle Disposal Units as follows:-

"Items, other than engine assemblies and associate sub-assemblies (e.g. carburettors, fuel pump etc.) and which are included in the schedules of assemblies and parts to be recovered by Vehicle Disposal Units may be issued by O.G., Vehicle Disposal Unit to Units on production of an Ordnance Issue Voucher showing non-availability of the item(s) at the OGP., ACD or BOD on which the unit is based for supply".

It is stressed that this instruction is intended as a means to ensure that vehicles are not kept off the road through lack of essential spares where these can be found available with Salvage Units. It does not entitle units to obtain and hold quantities of MP Spares in excess of scales or expendable items in excess of reasonable requirements.

22. Issues of Oxygen and Acetylene. Indents for Oxygen and Acetylene will be submitted through this office except where a bulk allocation has been made to the unit. Units having an allocation may draw direct without indent within their allocation and not exceeding 25% in any one week. Requirements in excess of allocation require countersignature from this office. Units wishing to obtain a monthly allocation should apply to ADOS through their local Head of Service (where applicable). Unclaimed portions of monthly allocations cannot be carried forward to succeeding months. Gases will be supplied on a cylinder for cylinder basis from ADOS DWP, Rome.

23. Issues of Tentage. Tentage is in short supply and at the moment all issues are controlled by Q. Staff. Demands can only be met for tentage required for immediate essential use. Demands to complete to AFHQ 1093 or other scale where not required for immediate use cannot be considered. Careful conservation of tentage in use will assist in alleviating the difficult supply position.

SCALES.

24. Clothing. The current scale of winter clothing for all British and British maintained Allied troops in this theatre is laid down in AFHQ GHO 760/44.

Italian cooperators will be clothed in accordance with the scales authorised in para 53 of "Administration of Italian P.W. Cooperators in British Hands" issued by AFHQ on 15 Nov. '44.

25. Accommodation stores. Attention is directed to No. 3 District Routine Order Serial No. 31/376 dated 20 December '44. Proformas as at Appendix 'D' to the above GHO will be distributed by this office.

26. Blankets. The winter scale of blankets for this Area is 4 per man or 2 blankets and 1 comforter per man (vide GHO 857/44). Comforters are only issuable to troops billeted in covered accommodation as they are not suitable for use under canvas.

Sheet 6.

27. Cleaning Materials. Authorised scales are as laid down in GRO 423/44 as amended by GRO 702/44.

28. Soap.

a) Where no laundry facilities are provided troops are entitled to a free issue of soap at a scale of 5 ozs per man per fortnight in winter and 7 ozs per man per fortnight in summer (vide GRO 338/44). This free issue may be extended to officers where no WD laundry or laundry contract facilities exist and when soap trolley or equivalent is not obtainable from EFL. Attention is, however, directed to para 34 below, which details laundry facilities available in this Area.

b) A free issue of 3 ozs per man per month is authorised for personnel detailed in Appendix to AGI 1566/42, with the addition of engine drivers. Individuals concerned are:-

Blacksmiths and Hammermen, Copper-Smiths and Welders,
Constructional work personnel, Fitters and Turners,
Motor Mechanics, Drivers IC., Driver Mechanics
Sanitary Orderlies, Engine Drivers (GRO 53/44) and Cooks
(GRO 188/43).

c) A special issue of 12 ozs per month per ambulance is authorised for units holding ambulance cars (GRO 465/43).

Soap for cleaning billets etc. will be drawn to scale in GRO 423/44 (see para 27 above).

RETURNED STORES.

29. Repairable and unserviceable Ordnance Stores and any serviceable stores surplus to requirements should be returned together with AGO 1033 duly completed to the RSD section of ADOS Dump. Clothing items so returned should be tied in bundles of ten articles.

RETURNS.

30. The following periodic returns are required to be made by units in this area in connection with holdings of Ordnance Stores:-

- a) Monthly vehicle state as laid down in GRO 474/43
- b) Monthly Census of Warlike Stores - Form 45
- c) Monthly Accommodation Stores Return (in accordance with GRO 376/44)
- d) Weekly bulk tyre forecast (RUSO and RACE units only) as para 9 above.
- e) Part X Orders as necessary - see GRO 465/44 as amended by GRO 737/44

b) A free issue of 3 oss per man per month authorised for personnel detailed in Appendix to ACR 1566/42, with the addition of engine drivers. Individuals concerned are:-

Blacksmiths and Hammermen, Gunsmiths and Welders, Constructional work personnel, Fitters and Turners, Motor Mechanics, Drivers IC., Driver Mechanics, Sanitary Orderlies, Engine Drivers (GRO 53/44) and Cooks (GRO 188/43).

c) A special issue of 12 oss per month per ambulance is authorised for units holding ambulance cars (GRO 465/43).

Soap for cleaning billets etc. will be drawn to scale in GRO 423/44 (see para 27 above).

RETURNED STORES

29. Repairable and unserviceable Ordnance Stores and any serviceable stores surplus to requirements should be returned together with AFG 1033 duly completed to the RSD Section of ADCS Dump. Clothing items so returned should be tied in bundles of ten articles.

RETURNS

30. The following periodic returns are required to be made by units in this area in connection with holdings of Ordnance Stores:-

- a) Monthly vehicle state as laid down in GRO 474/43
- b) Monthly Census of Warlike Stores - Form 45
- c) Monthly Accommodation Stores Return (in accordance with GRO 376/44)
- d) Weekly bulk tyre forecast (RASC and REME units only) as para 9 above.
- e) Part X Orders as necessary - see GRO 465/44 as amended by GRO 737/44
- f) Weekly Engine Assembly requirements - as para 10 above.

OTHER SERVICES

31. Hospitals and medical units arriving in area and requiring laundry facilities for hospital laundry will apply to ADCS RAAC.

32. Troops Washing

a) A centralised contract for units under Command is in existence between this office and the General Planch Manufacturing and Applying Co., who operate a steam laundry previously known as Terantola Laundry located behind the Foro D'Italia.

b) This laundry provides washing and pressing where required of clothing delivered to the contractor under authority of this office in accordance with the terms of GRO 477/43 (as amended by GRO 572/43 and 338/44).

Sheet 7.32. (cont'd).

c) O'AS units should apply to this office for copies of the contract and a price list showing the items authorized to be washed at the public expense. Applications must state the number of ORs whose laundry is to be washed under the contract.

d) Laundry will be sent tied in individual bundles. Responsibility for delivery, collection and checking rests with the unit.

e) Payment will be made direct to the contractor by unit from Imprest Account. Where possible this should be done at time of collection but there is no objection to the making of any arrangement for weekly payment which may be acceptable to the contractor.

f) Laundry will be checked in at the laundry by the civilian employees who will make out a numbered check list showing the date for collection and give one copy to the unit representative.

g) Collection will be effected on the date by presentation of the unit copy of this check list.

h) Bills will be presented at time of collection. Two copies will be kept by the unit. One will be retained to support unit Imprest Account and the other forwarded to this office, endorsed to show that payment has been done and certified as correct. Unit Imprest copy should be endorsed "ADOS Contract".

"3.

34. Disinfection. Disinfection will be undertaken by 25 Field Sanitary Section RAMC. Units can contact by telephone - No. 478369

35. Boot Repair. Units holding a Boot Repairer on their WE or who have an OR employed under CRO 236/43 will submit indents for their grindery requirements to this office.

Units not having Boot Repairer will send all boots requiring repair to ADOS Pump, Rome Area. Each pair of boots will be securely tied and clearly labelled in ink with the owner's name and unit.

Facilities exist for the repair of Officers' and Nursing Officers' footwear at No. 10 Officers Shop RAOC, 1-7 Corso Vittorio Emanuele, Rome.

GENERAL

36. First Aid Kit Outfits. Unit requiring sealing in accordance with the terms of CRO 100/44 should by 4/5 and 1047/44 should make application through this

is no objection to the taking of any arrangement for weekly payment which may be acceptable to the Contractor.

f) Laundry will be checked in at the laundry by the civilian employees who will make out a numbered check list showing the date for collection and give one copy to the unit representative.

g) Collection will be effected on the due date by presentation of the unit copy of this check list.

h) Bills will be presented at time of collection. Two copies will be kept by the unit. One will be retained to support Unit Imprest Account and the other forwarded to this office, endorsed to show that payment has been done and certified as correct. Unit Imprest copy should be endorsed "ADOS Contract".

73.

34. Disinfestation. Disinfestation will be undertaken by 25 field sanitary Section RAMC. Units can contact by telephone - No. 478369

35. Boot Repair. Units holding a Boot Repairer on their WE or who have an OR employed under GRO 236/43 will submit indents for their grindery requirements to this office.

Units not having Boot Repairer will send all boots requiring repair to ADOS Dump, Rome Area. Each pair of boots will be securely tied and clearly labelled in ink with the owner's name and unit.

Facilities exist for the repair of Officers' and Nursing Officers' footwear at No. 10 Officers Shop RACG, 1-7 Corso Vittorio Emanuele, Rome.

GENERAL

36. First Aid Kit Outfits. Unit requiring sealing in accordance with the terms of GRO 100/44 amended by 475/and 1047/44, should make application through this office.

37. Vehicles - Allotment of WD numbers. All WD vehicles, normal WD types, requisitioned or captured vehicles, must bear a WD number. Numbers will be obtained from this office, to whom application should be made with a full details of the circumstances under which held. Numbers for captured enemy vehicles will bear the prefix "GIP" which must always be used. Numbers already allotted and painted on such vehicles will have prefix "GIP" added.

38. Local Purchase. The authority for local purchase of Ordnance Stores in this Area is vested in this office and no such purchase will be made without prior application to ADOS. As a general rule purchase will be undertaken by ADOS and not by the unit. It is emphasised that purchase will only be undertaken or authorised to meet deficiencies on normal scales of entitlement where stores are not available from Depot stocks, purchases of items for which there is no entitlement will only be undertaken when staff authority to hold in excess of scale is in possession.

Sheet 8.

38. (Contd)

Spare parts for WD requisitioned cars are stores of Ordnance supply and will be demanded in the normal manner and NOT purchased indiscriminately.

39. Requisition of Ordnance stores. The sole authority for the requisition of Ordnance stores in Home Area for British Service is ADOS and no requisition effected other than through this office is valid. In addition there is an overriding control on all requisitioning in the Area exercised by the Commanding General in conjunction with the Italian Requisition Board. Applications to general requisition will be submitted to this office in writing, giving full details of the items or equipment required and supporting reasons thereof. No requisitioning action whatsoever will be taken except under written authority from this office or from a Staff branch of this HQ.

40. Arrivals and departures. Units are requested to notify arrival and departure to this office as early as possible. Failure to give prompt notification of departure results in records of unit holdings and indents not being forwarded to the next appropriate HQ, who are thereby handicapped and may require the unit to resubmit indents and demands. This can be avoided by prompt departmental action to redirect stores due in off outstanding demands if adequate notice is given by units.

Wire Electric 1 pair 12½	)
Wire Electric G1 200 lb (and heavier gauge)	)
Wire Electric GI 4/8 and EBL	)

SECTION Y. 1

Apparatus Cable Laying (all types)	
Barrows Drum	
Cable Layers Mechanical	
Frames D & P 10 Wire	
Fullerphones	
Ladders Field Telegraph	
Ladders MAL	
Paper Telegraph Morse (all types)	
Paper Teleprinters (all types)	
Paper Teletype (all types)	
Paper Wheatstone	
Paper Undulator	
Ratchets and Tongs No. 1 and No. 2	
Superposing Units	
Switchboards (CB, UC, P & F, Comd & American of all types)	
Telephone Sets (all types)	
Test Frames (all types)	
Test Sets EF 65	
Test Sets I 55	
Test Sets Portable	

Light Armoured Cables (14 pr/40 etc.))
 Wire Copper Binding 50 lb.)
 Wire Electric Cadmium Copper 70 lb)
 Wire Electric HDC 100 lb)
 Wire Electric HDC 200 lb)
 Wire Electric 1 pair 12½)
 Wire Electric G1 200 lb (and heavier gauge))
 Wire Electric GI 4/8 and BBL)
 Multi Airline components
 Permanent Line "

SECTION Y. 1

Apparatus Cable Laying (all types)
 Parrows Drum
 Cable Layers Mechanical

 Telephone Sets (all types)
 Test Frames (all types)
 Test Sets EE 65
 Test Sets I 56
 Test Sets Portable
 Vibrators Ringing
 Multi Air Line Route
 Permanent Line Route

SECTION Y. 2

Apparatus CT Terminal Equipment and Associated Assemblies
 Apparatus VF Telegraph - Terminal Equipment and Associated Assemblies
 Relays 299 AM
 Repeaters (CT, VF, 8-circuit and commercial equivalents)

Appendix D - Sheet No. 2

SECTION Y. 2 (Cont.)

Supply Unit Rectifiers
 Switchboards Teleprinter
 Teleprinters and Terminal Units (all types)
 Teletypewriters
 Units Signalling VF No. 3
 Units Filter Balance and Bypass (all types)
 VF Spares, Teleprinter Spares, Cipher Spares & High Speed Spares

SECTION Z. 1

Reception Sets (all types)
 Wavemeters and Frequency Meters (all types)
 Handcarts Wireless
 Wireless Sets (all types including Installation Kits and Packs)

SECTION Z. 2

Charging Sets (all types)
 Generating Sets (all types provided for use with Signal Eqpt.)
 Power Units (" " " ")
 Batts Secy Port. (" " " ")
 Hydrometers
 Battery Chargers No. 1
 Cipher Machine Type X (all Mks)
 Convertors AC/DC (all types)
 Test Sets AC/DC

NOTE: As Signal Stores not shown in detail, Code letters have not been issued.

Appendix EFLAMETHROWER ACCESSORIES

Batteries dry 2-cell. Bijou (WB 3064)
 Burners (MR 2398)
 Catalytic Igniters
 Charging Panels
 Spheres
