FILES OF TRANSPORTATION, COMMUNICATIONS, AND UTILITIES DIVISION OF HQ AMGOT.

It is evident from the file jackets that several of the files of the TCU Division were actually opened by the Civil Supply Division (later known as Economics and Supply) of AMGOT, and file numbers in the Civil Supply series (5001 upwards) were allocated. Later, certain files were handed over to the TCU Division, who absorbed the files into their own series and allocated numbers from the TCU series (10,001 upwards).
The block of numbers originally allocated to Civil Supply (5001 upwards) is still in use by the Industry sub-Co and by the Commerce sub-Commission; when the files from these sub-Commissions are received in Archives, it may found that reference to this ( i.e. TCU) series will be necessary in order to account for possible gaps in the series 5001 upwards.
The TCU Division was short-lived, and its functions were distributed amongst three different sub-Commissions - (i) Transportation, (ii) Communications, and (iii) Public Works and Utilities. It will be observed from the l which follows that there are wide gaps in the 10,001 series, and it is believed that the missing files were dispersed amongst the three sub-Commissions and the papers absorbed into their respective files. Very little material has yet been received from any of these sub-Commissions, and none at all from some of them. But if t original jackets have been preserved, it may be possible to shed further light on the disposal of files which h not been located at the time of writing (June, 1945).

Reference should also be made to the prefatory note to Archive Group R 1/13.
