COPY.
Subject: Local Resources - Engineer Stores. 15AG/2630/2.
To:- Chief Civil Affairs Officer,
AMGOT. 6.Sep.43.

Ref AMGOT/5068/CS dated 31 Aug. 1943

I wish to point out that Chief Engineer, Eighth Army is little concerned with the local purchase of Engineer Stores in SICILY. This is the business of this H.Q. and Chief Engineer, Portbase.

I have asked, through "Q" channels, to be represented on the Island Resources Board whenever Engineer Stores are to be discussed.

(Sgd) CC. RUTLEDGE.
Brigadier,
Chief Engineer,
15 Army Group.

To: Chief Engineer,
15th Army Group

1. Reference 15AG/2620/2/AS dated 28 August 45.
2. An Inland Resources Board is being organized now by AMCOT in conjunction with Seventh and Eighth Armies, and it is hoped that there will be an engineering sub-committee which would deal with this question. As soon as the preliminary work has been done on organizing the Board, 15th Army Group will be informed.
3. It is suggested therefore that the matter of prices of building materials etc., be left for this Resources Board to determine.

30 AUG 1943

5068/CJ

We are considering the question of bulk purchases of building materials, engineer stores and plant in order to save shipping.

So far, stores have been obtained locally by requisition, and as far as we are aware no system of controlled prices for such goods has yet been introduced. It is considered most desirable that this should be done as soon as possible.

Will you please inform us what the policy is in this respect.

We suggest that a list of controlled prices for engineer stores and plant should be prepared by agreement between engineer representatives of the American and British forces and yourselves, meeting at any place you may appoint.
