SUBJECT : Adjustments.

TO : H.Q. Allied Commission,
Transportation Sub-Commission,
Admin. Div., Accounts Branch,
(Attn. Capt. Wyatt) APO 394.

1. Enclosed please find Transfer Note No. 349 in adjustment of 19.830 tons of sugar. This amount represents the difference between book figures and actual inventory taken as of 2400 hrs. 15 June 1945.
2. In explanation of this large adjustment it is believed that either in receiving or issuing mistakes have been made which it is hoped will come to light when all respective Receiving Reports and Transfer Notes have been received at this Depot.
3. However it is pointed out that a large amount of stealing, particularly of sugar, has been taking place at this warehouse. Numerous individual cases have been prosecuted, yet these are only cases in which the thieves have been discovered. This Depot has been operating on a 24-hour schedule, loading as many as 60 trucks at a time, with a majority of these trucks passing through the warehouses in which the sugar is stored. During some of the night periods, electricity was not available. There are 20 Carabinieri for security duty at this Depot, and an additional 10 Partisans have been employed for night duty in agreement with Consorzio Agrario. However, the actual value of this protection is relative.
4. The Inventory of 30 April 1945 showed a gain of 0.441 Tons (see R.R. No. 54 B).

- 1 Ref your 51-2/101/Food dated 14th June.
- 2 There is no trace in our accounts of these supplies having been consigned from ALCON Warehouse, ANCONA, or 676 at NAPLES. As we do not keep Bari accounts, we suggest that you contact the Chief Accountants Office, who will possibly be able to help you.
- 3 As regards the imported flour mills, these machines did not pass through 676 NAPLES and for that reason we have no ledger record of them. However, we believe that they were taken in at Cancelli Warehouse and therefore, Agriculture S/C or Major Klein may be able to help you with information.

SUBJECT: ELECTRIC CABLE FROM ANCONA.

1. Further referring to your letter W/2/1023/TN6-1 June 45, and to our letter IN.185 - 5 June 45, same subject.
2. This load being of heavy lift (3 (three) drums - 4 tons each and being this Depot not equipped with such facility as a crane, it was not possible to carry out the unloading of the railcar. Consequently I.C.B. was requested to have the car shunted to Port and backpile the drums until ready for shipment to Sardinia.
3. Pursuant to car request I.C.B. has, to-day, had the railcar moved into Port Area for transshipment on S/S Pertusola.
4. Since there has been no proper physical warehousing - drums were not moved from railcar - no back-entry was made for this item.

SUBJECT: Materials delivered by Warehouse 676
Naples to Ing. Adriano Albin.

4 June 1945

TO: Transportation Sub Commission
Accountant Branch
(attention of Capt. Wyatt)

1. This Sub Commission needs a complete list of all materials delivered by Warehouse 676 to the Representative of the Ministry of Public Instruction, Ing. Adriano Albin of Naples, in connection with commodities assigned to Education Sub Commission. Such a list is needed in order to check it against one sent by the Representative which does not entirely agree with the records of this Sub Commission.

2. A list has been received from the Federazione Italiana Consorzi Agrari of Naples, but this is incomplete as it starts as from 1st March 1945, whilst deliveries to the Representative were made as from November 1944.

3. Upon a request of this Sub Commission for a more complete list, the Federazione has replied that it is unable to send us same as the papers concerning AC management prior 1st March 1945 were sent, by order of Capt. T.E. Ramsay, to Rome (Transportation S/C, Accountant Branch, Capt. Wyatt).

4. It would be much appreciated if you could help this Sub Commission in obtaining the required list.

VIA LUDICA SANFELICE N. 28 (Yonkers)

SUBJECT: ADJUSTMENT OF ACCOUNTS.

1. Reference yours I/A/Th/l/AAD/CSW/bm of 14th May 1945.

2. By an oversight, the item of 24.517 kgs. of spoiled peas was attributed to Food S/C by Receiving Report N° 0143, whilst it is a UNRRA commodity, as rightly shown on our Stock Report 11/4-20/4/45.

3. We have, therefore, made the necessary adjustment in our records, by issuing new Receiving Reports Nos. U187 and 0266, under today's date, as per attached copies.

SUBJECT: Inventories

TO: Captain Thomas Ramsey
Port Liaison Officer
Provincial Building
Naples Commune

1. It has been the practice for other warehouses to submit daily inventories in duplicate, one for this office, the copy for the Food Sub Commission. This has not been requested of Naples.
2. Perhaps it is not urgently required but it is extremely difficult to get a quick overall picture of daily receipts and disbursements merely upon examining the present records.
3. It is not intended that a great amount of additional work shall be done in order to obtain the required information but it is desired that either the daily inventory in similar form to the Leghorn samples attached be submitted daily or failing that, the form be prepared and submitted daily indicating by commodity the number of tons received and shipped daily.
4. Please send us acknowledgement and advice on method and compliance.

TO : Transp S/C Accts Br. (Capt. WYATT).

1. Reference is made to telephone conversation with Mr. DI CHELLO.

2. No transfer note was prepared for 430 rolls Newsprint, weighing 132 tons, shipped to Leghorn because goods were loaded direct from Port and did not enter warehouse records except insofar as necessary for arrangement of transport. Receipt of such supplies will be reflected on Exhibit A and B of I.C.E. returns, as instructed by Finance S/C Memo dated March 27, 1945 entitled "Accounting for Handling of Imported Supplies by I.C.E.", and, as I understand it, the transfer of them then becomes the responsibility of I.C.E.

3. Duplicate copies of Transfer Notes 0156, 0342 and 0343 are enclosed. Our records indicate these were sent to you in the normal course of business.

4. Your inquiry concerning 7 tons of Newsprint shown in 10 day stock movement report for 20-31 March is answered by T.N. 0343.

5. Regarding 41 kg. Evap. Milk, reflected on Receiving Report 051, these goods received from Port salvage apparently belong to U.N.R.R.A. and were accounted for on their inventory. Correcting entries are shown on Receiving Reports No 0168 and No U 151.

3. It is agreed that when similar commodities are arriving from more than one source on the Port, owing to discharge to lighters and/or backpiling, it is not always possible to know the exact source of every load, but the final answer can be arrived at when the flow of goods ceases.
4. It is not agreed that markings and character of the goods do not signify origin. These, plus point and time of dispatch, are the primary means of identification.

UNITED STATES CLAIMS SERVICE
Regional Office I
APO 512 US ARMY

N - 4734 - PD
10 April 1945

SUBJECT: Claim for 18 Quintals of Almonds.

TO : Captain Wyatt, Accounting Section, Transportation
Sub-Commission, Allied Commission ROME

1. This office has received a claim from GRANATO Pasquale di Gennaro, Piazza Trieste e Trento # I CRISPANO (Naples) Italy, for 18 quintals of almonds lost under the following circumstances: Claimant, in the U.S. War Shipping Administration truck on 11 January 1944 was travelling from Frosinone to Naples carrying the 18 quintals of almonds for the USA. He was also carrying a quantity of "Black market" items, including approximately 1 1/2 quintals of macaroni, 2 quintals of flour, 4 quintals of oats, 1 quintal of bread and about 23 gallons of cooking oil, for his own use. A C.I.D. Agent, William C. TIFFANY, stopped him, confiscated all the goods, and had him imprisoned. He was tried, convicted sentenced, and he paid a fine and served a term in jail. The Court did not order confiscation of the almonds but instead authorized restitution.

2. The almond arrangement was as follow: In accordance with previous contract claimant bought the almonds from one LIGUORI Francesco, TROIA (Province of Foggia) ITALY, on 10 January 1944 for 34 lire a kilo (59,200 lire) for sale to one BRUNO Luigi, Naples, for 38 lire per kilo. The latter had contracted to purchase them presumably for shipment.

3. Lt. Frank T. Garro, Provost Marshall, Naples, ascertained that said almonds were receipted for by Sgt Martin SUPIN, AMG 4 which receipt is in Naples CID office in case report AMG #11462. He stated " On 19 March 1945 SMIRAGLIA Ugo Manager of 676 Warehouse Accounting Section was interviewed as it was in this place that the nuts had been stored. SMIRAGLIA stated that the record of the Warehouse 676 covering the period of 1st January 1944 to June 1944 inclusive were transferred to Captain Wyatt, Accounting Section, transportation Sub-Commission, Rome.

4. It is requested that the records be checked or that an investigation be made to determine the disposition of the subject almonds. If they were sold by mistake as confiscated goods, does your Command have any method of transferring the money to claimants? Does your Command have any authority or machinery set up to handle claims of this type? If so, it is requested, since this is entirely an Allied Commission matter, that the claim be processed and completed by your office. The file will be forwarded on request by endorsement hereto.

5. Authority for these requests is circular #74 HQ NATOUSA, dated 23 May 1944 and if the matter cannot be handled by your office it is requested that a complete report be submitted in compliance with the afore-mentioned circular.

1. We refer to Transfer Note N° 0372/B dated 21st. March.
2. In view of the fact that Federazione agreed to accept the Inventory figures, it is not now possible for us to consider retrospective amendments in respect of shortages. This matter is one for mutual arrangement between Federazione and the Italian Government.
2. In the circumstances we are noting the remarks covered by this Transfer Note but we are NOT amending our signed inventory.

SUBJECT : Lord.

TO : ALCOM Depot, ANCONA. (Attn. Maj. Boyd).

1. Lord being shipped from ANCONA to this Depot is being charged by the Federazione Italiana dei Consorzi Agrari at an average weight of 421 lbs. net per barrel.
2. On a great number of barrels, the weight is not legible. However, those that show weights vary between 406 lbs. and 415 lbs. net.
3. In view of this fact, the average weight of 421 lbs. net per barrel, adopted by the Federazione, seems far too high.
4. It is therefore suggested that either the average net weight be reduced at once, or that this fact be considered at a later date for accounting purposes.

(Att. Capt. Ramsey)

1. In accordance with new arrangements made with the Chief Accountant of the Finance 3/C since the Consorzi took over the Alcom Depots, copies of all signed Receiving Reports must be forwarded by this office to the Chief Accountant. This means that in following a numerical sequence of numbers for documents, each number in that sequence must be accounted for.

2. During the month of March, Receiving Reports nos. 65 and 73 did not reach this office. If for some reason or other these two Receiving Reports have been cancelled, forward two copies of each with an explanation of all details. In the event that these numbers were merely omitted, prepare and forward duplicate copies of Receiving Reports for these two nos. and in the body state this fact. In the future see that no numbers are omitted, and if various Receiving Reports are cancelled, forward cancelled copies in the usual manner. Only by adherence to this policy will this office be assured that all Receiving Reports are being accounted for.

3. In the past, Receiving Reports for goods received from the M.P.'s and credited to the Confiscated Goods stock account, were given a number like all other Receiving Reports. Since such Reports only reach this office every 10 days along with the statement, any numbers given to such Receiving Reports would not be ascertained until such time as the 10 days statement was forwarded to this office. In the event that additional confiscated goods should arrive at the warehouse, use a separate series of numbers for such Receiving Reports. In this manner the series of numbers for Receiving Reports reflecting receipts through the usual channels, will not be interrupted. 234?

4. In the month of April so far, nos. 85 and 86 have been duplicated on two successive days. Carleensman is the only explanation for such occurrences. Care must be taken to avoid this duplication in the future, with necessary action taken against future offenders among Civilian Clerks.

UFFICIO VIGILANZA (Napoli)
Subject : Sugar to Catania - 3/3 Pallade.

For your proper action, we wish to point out as follows.
(over)

On the 6th February 1945 by means of two schooners, "Elena" and "Leonardo da Vinci", a lot of 7273 sacks of sugar was delivered from warehouse 676 to S/S Pallade to be shipped to Catania. The sugar was loaded on the schooners at Vigliena and both the captains, signing the receipts agreed on the amount of sacks shown on the transfer notes. The schooners went to Torre Annunziata in order to trans-ship the cargo on the S/S Pallade.

When trans-shipment was over, Pallade's master stated to have received 8 sacks, 6 from "Elena" and 2 from "Leonardo", in less than the amount shown on the transfer notes. And he signed the ship's manifest only for 7265 sacks.

The captains of the two schooners affirmed to have delivered to Pallade the cargo loaded at Vigliena, viz 7273 sacks, and imputed the difference to error of computation of Pallade's crew caused by inattention. (See the statements of the two captains addressed to you).

Informed of that, we ordered our Consorzio of Catania to arrange a checking for the discharge of the sugar there.

In fact, the cargo was discharged before representatives of Consorzio and local Custom Guard's agents.

We hoped to find the 8 sacks, whereas our people informed us to have checked further 12 sacks in less, that is to have discharged 7251 bags. Thus the difference on the quantity issued by warehouse 676 amounted to 20 sacks.

As for the first 8 sacks, it is our opinion that the captains of the schooners will be responsible for them, unless they can evince the contrary, but it is clear Pallade's master will be for the other 12 sacks.

In view of the fact that none of our representatives attended the trans-shipment and that the shipment itself was effected on your order and for your account, we are compelled to request you to settle the matter.

To the purpose, we are inclosing herewith copy of the letter showing the number of sacks discharged and copy of the telegram announcing the commencement of the discharge and the attendance of Custom Guard's agents, both sent us by Consorzio of Catania.

MILITARY POLICE REPORT

The Officer Commanding,
200 Provost Company
C.M. Police, 61 Area

Sir,

I have to report that at Ancona on the 5th March 1945 at about 22-50 hours I was on duty in the Corso Stamira accompanied by L/CPL DAVIS. E., C.M. POLICE when H9 7016074 L/CPL WYATT. G. of 568 Det. G.T. Company, ROYAL ENGINEERS reported to me that an AMG Warehouse had been broken into at the premises at 7a Via Isonzo.

I proceeded to the premises mentioned where I saw the shutter to the warehouse was wide open and that two 2cwt. sacks of sugar were lying in the doorway. On making enquiries in the near vicinity I found a civilian who was on Guard Duty in the M.T., Lines of 603 Company, RASC. (MAC). I questioned him and obtained a statement from him.

Making further enquiries, I learned that No T. 95599. L/CPL. WICKHAM S.E., of 683 Coy. RASC. (MAC) was NCO i/c the Italian Civilian Guard and whose guardroom was three doors away from No 7a Via Isonzo. I questioned the above named NCO and he informed he had heard shots in a vehicle making a hurried departure and later he was informed by L/CPL WYATT G., that the warehouse had been broken into and he made a statement to this effect.

Later I interviewed No 2116429 SPR. SMITH. E., No 2 Platoon, 568 A.T.P. Coy Royal Engineers who was guarding the M.T. Lines of the above mentioned unit. I learned from the sentry whose post was about one hundred yards away from the scene of the incident that he had heard four pistol shots and on making his way in the direction they had come from he saw a WD 3 Ton DODGE making a hurried departure, and on investigation found the entrance to No 7a Via Isonzo had been broken into and he reported the matter immediately to his NCO i/c Card L/CPL WYATT.

I obtained a statement from SPR. SMITH E.

2295

After removing the sacks of sugar from the doorway into the warehouse I closed the shutter as securely as possible and informed L/CPL. WICKHAM. S.E. to give instructions to his civilian guard to keep the premises under observation throughout the night.

Later I contacted SGT. GOODALL. R.A. attached AMG and informed him of what had taken place, as there were no Officers present at the billets. I gave instructions that the matter be reported in the morning to an Officer.

I was on duty last night at about 22-15 hours at Via Isonzo No 5 as a nocturnal watchman when a big military type machine was approaching to a store situated near me and loaded some wares.

I cannot tell who was the driver because I could not see him - besides there were other persons that I perceived only because it was dark.
