SUBJECT: 0/3 "Clydebank" Shortage Report

TO : The Section, S. I. & W. Division
Transportation Sub-Commission

Ref. your 10/46/TM/M of 10 Jan 45.

1. Investigation here throws no light on Ancona shortage report referred to.

2. It appears that the ship made more than one trip, specific information respecting port of loading, type of cargo, and date might be helpful in determining whether a partial discharge of whatever cargo is in question was effected to another service in this area.

3. Movements East Italy advise no loading on Clydebank in this zone, and it is presumed that the shortage occurred on Mid-East loading. On receipt of information referred to above we will re-check for partial discharge here.

4. In alternative explanation, especially if the cargo was dried vegetables, might be that the ship sailed from Ancona without complete discharge. This could be checked by reference to Ancona D.S.T.O.

5. Authoritative definition of "Convey Notes" is acknowledged.
