HQ, 10, APO 394

Further to our BA/FL/1/2 of 6 March 1945 regarding 10,000 sacks of sugar unloaded on S/S "CREAM":

1. First tally on convoy notes received at warehouses was wrong due to one note being in duplicate and added twice.
Warehouse receipts and convoy note tally amount to 9940 sacks.

2. Complete check against duplicates in Docks Superintendents Office shows no discrepancy nor any sugar despatched to other dumps.
Shortage: 60 sacks.

SCC Fish ex "DRUIDSMOOR".

E/114 20 Feb 45

Eq 25 CRASC (Sup United).

1. On 15 Feb 45 I inspected a consignment of prepared herrings ex "DRUIDSMOOR". The fish were packed in kegs and cases.

2. The "Golden" herring did not have much flesh and were somewhat "scraggy" in appearance, but would store for 6-8 months in a cool dry place. The average weight of each herring was 97.5 grams, i.e., about 3 ounces.

3. The "Silver" herring were meaty and succulent and would store about 3 months in a cool dry place. The average weight of each herring was 140 grams, i.e., about 5 ounces.

4. The reason for the estimated storage life of the Silver herring being shorter than for Golden herring is that the salts used in pickling the latter have a preservative effect.

Attached are ship unloading reports on S/S NEWTON.D. BAKER and S/S MOTTA (ex NEWTON D. BAKER) shortages on these ships are as follows :-

	Bags	Tons
NEWTON.D.BAKER	2759	57
MOTTA	638	22
TOTAL	3397	79

These shortages were caused by the Port at Ancona using rope slings, the bags were made of fine linen and broke easily, this detachment issued over three thousand sacks for the purpose of resacking flour from these ships, the Total loss is not as large as was anticipated, I do not believe there was any pilferage or misdirection of loads from these ships.

SUB. : Flour from S/S "MOTIA"

TO : TN S/C Admin. Div.
(Accounts Branch).

REF. : TN/4/DE.

Ref. your AC/4/A/Tn.1.

The 106 Tons of flour to which you refer was from S/S "MOTIA" this ship arrived with 1099 tons for A.C. but 1000 tons was to be loaned to the British Army.

To save confusion in adjustments for shortages or overages all reports for this ship were held in suspense until 38 B.S.D. informed this office how much of this flour they had received, all Receiving Reports and Transfer Notes have now been forwarded to you.

27 January 1945.

REF. : BZ/PL/1/4.

SUBJECT : Alcom Cargo Discrepancies.

TO : Transportation Sub-Commission
Hq. Allied Commission.

With reference to your letter of 14 January 1945, the following report on loadings of the three ships in question is submitted:

1. Loading and Checking, in general:

The flow of traffic through Bari Harbor is so large with respect to the size of the port that movements have not seen fit to grant Alcom Traffic special consideration of being handled on a commercial basis. On the other hand, this office has no military personnel to either check or supervise the checking of cargo - nor are Consorzio Agrario Checkers permitted on ship board to check loadings. Our system of making bricks without straw is substantially as follows:

We submit bills of lading in the authorized amounts. Our cargo is dispatched ex warehouse to quay on Consorzio convoy notes. In some cases it is possible to obtain Docks Operating Companies' receipt on these notes, and in others it is not as they do not check to quay. Consorzio quay checkers maintain a schedule of arrivals, which is attached to the convoy notes and maintained as a record of deliveries. Where cargo is loaded direct from another ship, Consorzio checks to quay but has no check on that which is loaded over side by lighters.

D.O.C. is supposed to check to ship and complete the bills of lading in the amount actually loaded. However, in some instances no statement of amount loaded is endorsed on the bills; and in others the amounts endorsed are obviously wrong, either because of poor checking or, more probably, because of mixing of cargoes.

Since D.O.C. checking is not reliable we are at present attempting to secure permission to place Consorzio Checkers on ship board. This would give us a check on cargo transfered from one ship to another, and would point to any loss of goods ex warehouse which occured between quay and ship. At present our accounting problems are somewhat involved as a result of Consorzio check to quay, D.O.C. check to ship, and unloading report at destination being almost always at variance. Fortunately, actual loss of supplies has not been so large as indicated by this variance, and it is believed that the actual loss is partially accounted for by confusion of cargoes causing mis-delivery at destination.

question is submitted:

1. Loading and Checking, in general:

The flow of traffic through Bari Harbor is so large with respect to the size of the port that movements have not seen fit to grant Alcom Traffic special consideration of being handled on a commercial basis. On the other hand, this office has no military personnel to either check or supervise the checking of cargo - nor are Consorzio Agrario Checkers permitted on ship board to check loadings. Our system of making bricks without straw is substantially as follows:

We submit bills of lading in the authorized amounts. Our cargo is dispatched ex warehouse to quay on Consorzio convoy notes. In some cases it is possible to obtain Docks Operating Companies' receipt on these notes, and in others it is not as they do not check to quay. Consorzio quay checkers maintain a schedule of arrivals, which is attached to the convoy notes and maintained as a record of deliveries. Where cargo is loaded direct from another ship, Consorzio checks to quay but has no check on that which is loaded over side by lighters.

D.O.C. is supposed to check to ship and complete the bills of lading in the amount actually loaded. However, in some instances no statement of amount loaded is endorsed on the bills; and in others the amounts endorsed are obviously wrong, either because of poor checking or, more probably, because of mixing of cargoes.

Since D.O.C. checking is not reliable we are at present attempting to secure permission to place Consorzio Checkers on ship board. This would give us a check on cargo transfered from one ship to another, and would point to any loss of goods ex warehouse which occured between quay and ship. At present our accounting problems are somewhat involved as a result of Consorzio check to quay, D.O.C. check to ship, and unloading report at destination being almost always at variance. Fortunately, actual loss of supplies has not been so large as indicated by this variance, and it is believed that the actual loss is partially accounted for by confusion of cargoes causing mis-delivery at destination.

2. S/S"Hindsholm": 475

a) This was loaded direct from s/s"Morehead", without possibility of checking by Consorzio. Our B/L carried figures on board "Morehead" at the time loading started, and was not corrected by D.O.C. Our records at present reflect the following:

b) Lard

Morehead manifest	Received at Ancona	Ware-housed Bari	Shortage per "Morehead" manifest
Drums: 3654	3533	78	43

c) Soup

Cases: 13500	10523	2275	702

Declassified E.O. 12356 Section 3.3/NND No. 785021

It is possible that the foresaid 702 cases were delivered to Q.M. here, but they have not been located as yet.

Note: Total of 293 drums of lard from "Morehead" and "Burnside" cargoes remain in Bari. Of these, 56 are broken. These will be repacked and the lot forwarded to Ancona as soon as shipping space is available.

3. S/S" Empire Southey":

a) Dried Veg.:

Figure of 5135 shown by Ancona was per our signal of advice, and was given to us by D.O.C. It was obviously wrong. Consorzio reports 6193 sacks checked by them from warehouse to quay; which, against Ancona receipt of 6084, would mean a loss of 109 sacks between Bari quay and Ancona warehouse.

b) M. & V. Stew:

Bill of lading was made out for 4000 cases. D.O.C. advised 4850 loaded and this number was wired to Ancona. Consorzio report 4000 checked to quay, which, against receipt of 3591 by Ancona, would mean a loss of 409 cases.

Note: It is to be noted that the ship also carried RASC supplies in sacks and cases. Since Dried Veg. and M. & V. does not always carry Aleem markings, it is possible that the missing amounts were mis-consigned on board or mis-delivered at Ancona. Check with receiving depot there is suggested.

4. S/S"Sam Sturdy":

Milk: This was loaded direct from s/s"Morehead". Best obtainable record is:

Morehead manifest	Received at Ancona	Warehoused Bari	Shortage per "Morehead" manifest
Barrels: 2463	2202	229	32.

The discrepancy here was 17 barrels, each of which weighs 200lbs net and 235 lbs gross; or an actual discrepancy of 2 D.W. long tons. The Ancona figure of -34 tons resulted from our clerical error in computing 2219 barrels at 223 tons.

5. Copies of B/L returned to us by the port are enclosed. Their inutility will be clearly apparent. Since the present system is unsatisfactory, and it appears very unlikely that the Masters could be induced to accept the responsability for checking and receipting for the cargo, it is felt that the only solution lies in securing permission to put our own checkers on board and complete our own Bills.

Consorzio convoy notes relating to "Empire Southey" are also enclosed.

1. The ship unloading report was delayed by reason of Consorzio holding up our receiving report while searching for the missing wire. It was finally called for and the report sent through to keep my accounts from being further delayed.

2. Soup

Consorzio received net weight quintals, which were unfortunately converted into long tons and shown on the report against long tons gross manifested. Actual receipts were 5 long tons net weight in excess of manifest figure:

Manifest			Received	
Cases	L.T.Gross	L.T.net	Cases	L.T.net
38100	668	555	38500	560

3. Wire

The shortage shown has since been found to have been mis-delivered to U.S. Army Engineers. Total manifested 550 coils now accounted for.

SUBJECT : Losses on Shipments from Bari

TO :ACCOM Port Liason Officer BARI(Att.Lt.O'Leary)

1. Careful investigation of ship's unloading reports at Ancona on cargos loaded at Bari/Brindisi indicate rather disturbing information.

2. It seems evident that both physical counting and accounting procedures are lax, inasmuchas Ancona records have shown:

a) arrivals in excess of manifested quantities
b) number of units received about equal to manifested number of units with great variation in total weights, indicating errors in figuring package weights
c) number of units received slightly less than manifested numbers but weights much less than manifested indicating again errors in figuring package weights.

3. Specific cases requiring explanation are shown on the attached sheet. Request early response.

1. Inclosed is shortage report from ALCOM Depots Leghorn on A/B vessel loaded in Sicily.

2. Thorough check has been made at Leghorn and it is believed all merchandise arriving on said vessel was actually received in the warehouses.

3. Extremely bad condition of packages may account for partial loss, but it is doubtful whether total loss can be so traced.

4. Request your manifest figures be checked and any assistance possible be rendered in determining cause of loss and responsibility therefore.

1. Appended - Report of goods warehoused.

2. Some confusion occured as the delivery of this consignment and much of it travelled a considerable distance to reach this base.

3. Its condition on arrival was appalling and extensive pilfering had taken place.

4. Many packages were completely empty and the repairs report not yet concluded. Some of the mill is slightly spoiled but useable.

5. Information on 7 Nov is was that four more railway wagons were also to come from the port. One only (936419) arrived (1 Dec.44). No useful purpose will be served by delaying this report longer. If the remaining railway wagons ever arrive their contents will probably be either missing or useless. The wagon numbers were not advised to this office.

6. The R/Ls, endorsed with receipts here, are attached for Leghorn and eventual dispatch to Major Moncrieff.

7. Delay in rendering this report is regretted but was unavoidable.

Per s.s."Augustine Stahl"

Dear Sirs,

We shall be very much obliged, if you will kindly request the Civil Affairs Office, Leghorn to let us have as soon as possible the number of bags off-loaded from the s.s."Augustine Stahl", as we are informed by Messrs. L. Savon & Co. Ltd., that the ship might be carrying a number of bags over the manifested figures.

Thanking you in anticipation.

Yours faithfully.

TO : H.Q. AC/AMC, Abruzzi-Marche Region
(Economics & Supply)(Att.Capt.D.V. Shaw-Kennedy)

1. Ref. your R5/518/142 dated 29 Nov.

2. It is confirmed that commodities mentioned in para. 2 (a) and (b) of your letter are required to be notified to this H.Q.

As regards para. 3 of your letter, the Federazione Consorzi Agrari has also been advised of our requirements regarding notification of discharged cargoes and the eventualities you mention should be amply covered by ship unloading reports prepared by that Federazione.

SUBJECT: Notification of Discharged Cargoes.

DATE : 29 November 1944.-

1. Ref. your Tn/A/19-2 of 24 November 1944.

2. You say " ALL discharged chargoes". Cofirmation is therefore requested that you do not refer to

(a) Local produce. e.g. salt or sulphur shipped by schooner from one port in Italy (including Sicily) to another

(b) Imported produce. e.g. AMG Supplies. re-shipped by schooner from a port of import in Italy (Including Sicily) to another port.

3. Salt is being sent by schooner from S.Margherita di Savoia (Foggia) to various small ports in this Region where there is not only no Port Liaison Officer but no AMG/AC Officerat all. It is off-loaded by the local Monopolio (or Consorzio Agrario on their behalf). Similarly we or Consorzio Agrario occasionally receive by schooner at Ortona AMG Supplies from Bari that were originally off-loaded there.

4. The AC Warehouse Ancona is directly under HQ. AC. Food Sub-Commission.

Food/1202

SUBJECT: Ship Unloading Report - Como

TO : H.Q., Allied Control Commission,
Food Sub-Commission.

1. Receipt is acknowledged of your ACC/52-5/Food of 23 August, 1944, subject as above.

2. The quantity of binder twine received is correctly shown in the ship unloading report. The weight is given in DWT. Presumably the difference between this figure and that shown by AFHQ, (G-5) is due to the fact that the latter is probably in measured tons.

3. Two cases of salvaged tank pads were received from the "Como". Please amend our report accordingly.

J. CHAYTON,
Lt. Col.,
Regional Supply Officer.
