(Accounts Branch)

TO : ALCOM Warehouse No.12.L.50 Livorno
(Att: Capt.Boyd and M/Sgt.Guy)

1. Reference your L/17 dated 11th January.

2. The only comment we have to offer is the discrepancy in flour at Warehouse 12.L.56 and mentioned in para 2.d. of your report. From your remarks, we infer that this difference has been caused by an error on the part of the checker who received the loads at Warehouse. Please "chase" these checkers as an error of this nature causes unnecessary work both for you and ourselves.

3. Apart from that, this report is quite satisfactory and shows a definite improvement in accounting detail among the staff.

11 January 1945

L/17

SUBJECT : Monthly Physical Inventory.

TO : Hq. Alcom, Transportation Sub-Commission,
Accounting Branch,
APO 394, U. S. Army.

1. In compliance with existing instructions a physical inventory was taken at all Alcom Depots as of January 1, 1945 and the only differences requiring any comment were as follows:

a. Flour at Alcom Depot 12L51

Inventory per books	7115.516 Tons
Physical inventory	7067.689 Tons
Difference	47.827 Tons

1. The difference of 45.448 Tons is believed to have occured prior to the installation of the present accounting system. As of November 30, 1944 a inventory figure was submitted by 12L51 showing 50 lb. flour bags at 28,864. There were no shipments of this size flour during December. As of present date 50 lb. flour bags were counted to be 26,462: a difference of 2,402 bags amounting to 54.477 tons. The present count was determined only after a complete restacking of this particular size. It is the contention of the undersigned that an incorrect inventory figure was recorded on the books November 10, 1944 when the present accounting system was introduced.

2. The remaining difference of 2.379 tons of flour is traced back to receiving torn bags of flour as whole bags. In the future, the inclosed accounting instructions to all Alcom Depots will show such differences more promptly.

b. Powdered Milk at Alcom Depot 12L51

Inventory per books	35.128 Tons
Physical Inventory	31.497 Tons
Difference	3.631 Tons

9219

Declassified E.O. 12356 Section 3.3/NND No. 785021

1. Varience due to receiving broken cans and barrels of powdered milk from the S.S. Richelieu as being full.

c. Flour at Alcom Depot 12L55

Inventory per books	2287.717 Tons
Physical Inventory	2284.840 Tons
Difference	2.877 Tons

1. Varience caused by receiving broken sacks of flour and recording them as full sacks.

d. Flour at Alcom Depot 12L56

Inventory per books	4665.353 Tons
Physical Inventory	4642.139 Tons
Difference	23.214 Tons

1. Varience of 1.673 tons of this amount traced to receiving torn sacks and recording same as being full. The remaining difference is believed to be receiving errors on the Daily List of Commodities Received.

e. Lard at Alcom Depot 12L50

Inventory per books	26.572 Tons
Physical Inventory	24.436 Tons
Difference	2.136 Tons

1. Varience due to 15 drums of lard received in such a condition that only 4 drums could be salvaged.

f. Lard at Alcom Depot 12L56

Inventory per books	607.746 Tons
Physical Inventory	606.969 Tons
Difference	.777 Tons

1. Varience due to 6 drums of lard received in such a condition that only 2 drums could be salvaged.

2. In the case of the flour difference at Alcom Depots 12L51 and 12L56, the Accounting Branch made a complete audit of its records to be assured that there were no clerical errors.

SUBJECT : S.O.P. For Receiving Broken Sacks, Case Goods & Drums.

TO : Alcom Depot Number

1. All broken sacks, case goods and drums will be accounted for in the following manner :

a. They will be shown on the Daily List of Commodities Received as either whole sacks, cases or drums.

b. Immediately following the complete receipt of such a shipment, an inventory will be taken to determine the loss due to receipt of broken sacks, cases or drums. This report will be prepared on Loading Record and Receipt form F/F 55.

c. This report will be immediately turned into the Accounting Branch where the loss will be written off on a Transfer Note thus crediting the warehouse concerned.

L/18

17 December 1944

SUBJECT : Stock Report, 1 - 10 Dec. 44.

TO : Hq. Alcom, Transportation Sub-Commission
Accounting Branch,
A.P.O. 394, U. S. Army.

1. In compliance with Inter Office Memo dated 7 December 44, file ref. TM/A/1-1, Subject: Monthly Stock Report, the attached Stock Report is herewith submitted.

2. Where question marks are shown on the attached report, it has been impossible to determine the sub-commission for which the items have been warehoused. In some instances the Imports Disposition fails to indicate the sub-commission.

3. Food items are not shown according to ship as it entails a tremendous amount of detail to trace such commodities from a ship to five warehouses as the situation exists here.

1. In compliance with Inter Office Memo dated 7 December 44, file ref. TN/A/1-1, Subject: Monthly Stock Report, the attached Stock Report is herewith submitted.

2. Where question marks are shown on the attached report, it has been impossible to determine the sub-commission for which the items have been warehoused. In some instances the Imports Disposition fails to indicate the sub-commission.

3. Food items are not shown according to ship as it entails a tremendous amount of detail to trace such commodities from a ship to five warehouses as the situation exists here.

Incl : Stock Report 1 - 10 Dec. 44

SUBJECT: Physical Inventory 30 Nov. 44 -

TO : Transportation Sub-Commission
Accounting Branch
A. P. O. 394, U. S. ARMY
(Attention: Maj. Hodgetts)

1. The inclosed book inventory period 21 - 30 Nov. 44 is submitted in lieu of an actual physical inventory.

2. Circumstances beyond the control of this office, such as the floor and roof caving in at warehouse 12L54, prevented a physical inventory being taken at this date. Spot checks on certain items such as flour and dried vegetables revealed only slight differences between the books and actual physical count.

3. A physical inventory will be taken and forwarded to your office as soon as possible.
