FARINA NAZION. FORNITA DAI CONSORZI DI PESARO E ANCONA ALL'A.M.G. 8^a ARMATA

1. Nel mese di novembre 1944 i Consorzi Agrari di Pesaro ed Ancona hanno fornito all'A.M.G. 8^a Armata i seguenti quantitativi di farina nazionale acquistati dai molini locali:

q.li	783,60	di	farina	senza	crusca	consegnati	dal	Consorzio	di	Pesaro
"	640,00	"	"	"	"	"	"	"	"	"

"	15793,22	"	"	senza	"	"	"	"	"	"
q.li	19000,72									

102

2. A fronte delle suddette cessioni furono rilasciati dagli Ufficiali Alleati ai Consorzi interessati i Receiving Report per:

q.li	783,60	di	farina	senza	crusca	ceduta	dal	Consorzio	di	Pesaro
"	1849,90	"	"	con	"	"	"	"	"	Ancona
"	15793,22	"	"	senza	"	"	"	"	"	"
q.li	18426,72									

mentre non fu rilasciato il Receiving Report per i 640 qli ceduti pure dal Consorzio di Pesaro all'A.M.G. 8^a Armata.

3. Abbiamo interessato il Consorzio Agrario di Pesaro ad ottenere l'ascennato documento dagli Ufficiali Alleati locali però non risulta a tutt'oggi che tale Consorzio sia riuscito nello scopo.

4. Poichè è necessario giungere infine alla sistemazione della partita sia agli effetti della situazione mensile che viene approntata nei confronti della Finance Sub/Commission, sia agli effetti del finanziamento al Consorzio Agrario di Pesaro - a rimborso del suo pagamento ai molini - vi saremo grati se vorrete cortesemente prendere in esame la questione mentre siamo a vostra disposizione per ogni ulteriore chiarimento in proposito.

2. Agriculture Sub-Commission wishes to point out that rock phosphates, listed under paragraph 2, Chemical fertilizers, in the above mentioned list, are for the most part brought in under requisitions placed by Industry Sub-Commission and are acidulated into super phosphate at the various plants throughout Italy and the islands. Therefore, only a portion of the total rock phosphate brought into Italy from North Africa is for the Federation of Consorzi Agrari.

3. In normal times a certain amount of rock phosphate is used as such for fertilizer. This limited amount is distributed by the Federation of Consorzi Agrari. The Federation of Consorzi Agrari also has 15 acidulating plants, 12 of which are in Northern Italy, for which they receive a limited amount of rock phosphate.

4. Therefore, it is not essential that all rock phosphate be brought in for the account of the Federation of Consorzi Agrari.

SUBJECT: Receiving Reports on Imported Foodstuffs and
Agricultural Supplies.

TO : Federazione Italiana dei Consorzi Agrari.

1. The examination of the receiving reports submitted by you for foodstuffs and agricultural supplies discloses unsatisfactory conditions as to the time of filing, manner of preparation of reports and contents of reports.
2. The Finance Sub-Commission desires that you issue immediate instructions to all Federazione warehouses, local Consorzi Agrari or other receiving agents acting on your behalf; (1) that a complete receiving report must be filed within three days after each vessel has been unloaded; and (2) that all information required in the Federazione receiving report form must be furnished for each commodity received.
3. The information to be entered on your Federazione form is the minimum required. The Allied Commission will not accept an excuse by a consorzio manager or warehouseman for the omission of ship manifest figures on the ground that such information was withheld on the cargo unloaded, unless specific mention is made in the report of the name of the AC/AMG officer who declined to make such information available. Furthermore, receiving reports will not be approved in which commodities shipped in different sized containers (e.g. milk) are lumped as a single item with a theoretical average net weight per unit or no unit net weight shown by the reporting consorzio.
4. In order that no misunderstanding may exist on the part of Federazione or any of local consorzi or agent under your jurisdiction, there are attached hereto detailed instructions for the preparation of the form and two illustrated receiving reports. It is requested that you arrange for the reproduction of the instructions and forms, and distribute sufficient copies among all warehousemen, consorzi or their receiving agents. Your letter of transmittal should specifically call attention to the fact that excuses will not be accepted that sufficient administrative personnel were not available to prepare receiving reports within the time limit, or to report all information required on the form, which represents no more than the ordinary commercial practices.

OFFICE OF THE HIGH COMMISSIONER OF FOOD

Service : XIII

Ref. : A/XIII/1219

Rome 19 June 45

TO : Federazione Italiana Dei Consorzi Agrari - ROME

SUBJECT ; Transfer of Milk.

As it has been communicated to Dr. Bettei on June 18th, the AC Food S/C has made available to the office of the High Commissioner the following amounts of milk:

a) at the Warehouse of Naples :

OGGETTO

Tutti quantitativi di latte dovranno essere tenuti a disposizione delle rispettive Regioni provinciali dell'Alimentazione, alle quali questo Alto Commissariato provvederà a farne regolare assegnazione con lettera a parte.

Per le differenze (tonn. 460 di latte in polvere e tonn. 3243,6 di latte evaporato) fra le tonn. (936,3 di latte in polvere e 4.444 di latte evaporato) segnalate disponibili e le tonn. (476,3 di latte in polvere e 2.400,4 di latte evaporato) del movimento di deposito erano date istruzioni non appena codesta Federazione avrà comunicato l'esatto andamento delle differenze stesse.

Non appena eseguiti i trasferimenti di latte sopra indicati, codesta Federazione dovrà darne telegrafica notizia a questo Alto Commissariato, al quale, altresì, dovrà segnalare le eventuali difficoltà che si presentassero nel movimento del prodotto in parola.

Si resta in attesa di comunicazioni.

SUBJECT : - Warehouse Trieste.

1/A/Tn/1

20th June 1945

CSW/lp

28/A/Tn/1 70

1 A new warehouse has been opened at Trieste and will be run by the A.M.G. of Venezia Giulia. During Phase I, this organization is known as "A.M.G. 13th Corps".

2 This Warehouse will not work on the same principle as other A.C./Federazione Warehouses elsewhere in liberated Italy, in as much as the supplies will be the property of A.M.G. and will not be owned by the Federazione. This means that all supplies transferred from AC/Federazione or local Consorzi Warehouses TO the Trieste Warehouse, will be taken on charge by A.M.G. ex Federazione Warehouse platform and a Receiving Report given by A.M.G. to Federazione. In view of the fact that A.M.G. 13th Corps will not have representatives at issuing Warehouses to sign for the supplies on the spot, the AC/AMG officer i/c the issuing Warehouse will sign the Receiving Report on behalf of A.M.G. 13th Corps.

3 One copy should be forwarded by the Issuing Warehouse to the Inter-Regional Office of the Federazione. (See para 3 (b) below).

It follows that the Federazione will not be responsible for Losses in Transit between the issuing Warehouse and the Trieste Warehouse: any such Losses in Transit will be taken up by the Supply Accountant of A.M.G. 13th Corps.

3 In the event of supplies being transferred by Federazione from an incoming U.S. or U.K. ship to a schooner for onward transportation to Trieste, without actually entering an A.C./Federazione or Consorzi Warehouse, the same procedure will be followed. The Federazione will give the customary Receiving Report (on Federazione form) for the quantity moved from the ship and at the same time it will obtain an A.C./A.M.G. Receiving Report for the quantity re-shipped into the schooner for Trieste Warehouse.

4 It is essential that Receiving Report (and not Transfer Notes or other documents) be prepared and acknowledged by an A.C./A.M.G. officer, since credit to the Federazione will only be allowed against such Receiving Reports. The Reports will contain a statement to the effect that the Supplies are "received for reshipment to A.M.G. 13th Corps".

5 Great care must be exercised to ensure that supplies are correctly consigned i.e. supplies intended for the Trieste Warehouse must not be confused with supplies consigned to A.M.G. Staff, AUSTRIA. This eventuality is quite possible in view of the fact that supplies for A.M.G. Staff, AUSTRIA are now being dispatched both to VENICE and TRIESTE for onward transportation by road to AUSTRIA.

Trieste Warehouse will be consigned to:-

This eventuality is quite possible in view of the fact that supplies for A.M.G. Staff, AUSTRIA are now being dispatched both to VENICE and TRIESTE for onward transportation by road to AUSTRIA.

7 Therefore, all supplies for Trieste Warehouse will be consigned to:-

A.M.G. 13th CORPS.

8 So far as Accounting is concerned, the following procedure must be put into operation retroactively from the commencement of Transfers to Trieste Warehouse:-

(a) All Transfer Notes will be made out:-

Transferred from:- Federazione d.i. Consorzio Agrari

Transferred to : - A.M.G. 13th Corps

Delivered to : -

N.E. It is most important to quote the name and address of the organisation to which delivery is made, if other than the Trieste Warehouse

A.S. Transfers to Armies direct, on behalf of A.M.G. 13th Corps.

(b) In view of the fact that the Officer i/c Issuing Warehouse will sign Receiving Reports on behalf of A.M.G. 13th Corps, it will not be necessary for A.M.G. 13th Corps to send a separate Receiving Report to the Issuing Warehouse. Therefore, in so far as it concerns A.M.G. 13th Corps (i.e. Venezia Giulia) para 5 (b) of our letter ref 1/A/Tn.1 dated 1st June is cancelled.

8. Distribution of documents will be as follows : -

(a) Transfer Notes : -

FEDERAZIONE DEI CONSORZI AGRARI - ANCONA

SUBJECT - Weight of Salt Sacks

TO : Federazione Consorzi Agrari - CESENA

Copy to : Tn.S/C, Port & Whse.Div. ROME

Inclosed is note of shipment N° 0198 of 11794 Kg. Please disregard our previous note N° 043, dated 11 April 45, in which we calculated the weight of sacks 100 Lbs instead of 120 Lbs.

After an accurate checking we have found out that the weight for salt sacks were 120 lbs and not 100 Lbs as shown in convoy notes.

Accolusa alla presente Vi rimettiamo la nota invio merci N° 0198 per Kg. II794, quale supplemento alla ns/ nota N° 043 del 1'11/4 m.s. in quanto erroneamente Vi avevamo computato i sacchi al peso di libbre 100 anzichè di libbre 120.

Infatti, da accertamenti effettuati in questi giorni, abbiamo constatato che il peso medio dei sacchi di sale della partita surriferita è di libbre 120 e non di 100, come lo avevamo dapprima erroneamente preso in carico perchè così notificatoci dal porto a mezzo dei convoy notes.

Tanto Vi dovevamo per Vs/ norma e distintamente salutiamo.

1. Reference Inter-Office Memo No. 28/A/Tn.1 dated 28 March 1945 (Ref. CSW/1b), calling for a brief weekly report on the progress shown by Federazione staff, the position at this Depot is as follows.

2. The work of the Accounts Office is being done by two Italians (a male clerk and a female typist) furnished by the Federazione and trained by military personnel. They prepare daily the following documents :-

Receiving Report
Register of Receiving Reports
Daily Stock Report

3. These people show great interest in their work, which they do accurately and very satisfactorily. At present this staff is adequate. Furthermore, they are being supervised by Dr. Antonio Casella*, who comes to this Depot every day, or on alternate days.

1. Accounting staff is practically the same as before March 1 with exception of Chief accountant, who was replaced by a man experienced in warehouse accounting though not familiar with our system. He seems capable and should develop satisfactorily.

2. Present staff is considered adequate. A record movement of goods during the first half of the month, when it was necessary to direct efforts to inventory taking incident to transfer of ownership and to develop a new procedure for distribution of goods, placed a heavy strain upon staff and caused some delay in reports. Efficiency of employees was impaired by uneasiness over their status with new management and over continuance of food rations on former basis. Also, slow arrival of I.C.E. representatives delayed adoption of procedure for handling their goods. A new system to expedite preparation of records of Ships' discharge needed to be installed. Final settlement of accounts with Magazzini Generali had to be effected.

3. No unarmountable difficulties in accounting procedure have arisen or are anticipated under the new management. While local procedure has been set up for releasing goods under the new system, orders are still received direct from various Sub-Commissions of Allied Commission. Deliveries ex Ships continue to be made at warehouse rather than at the Port. It is frequently necessary to withhold transfer notes for U.F.R.R.A. goods for lack of requisite signature of local representative. Accounting reports required by the Allied Commission have in-

1. We should be obliged if you will let us have a brief report each week (commencing 1st April) on the progress shown by Federations staff in handling the accounts system. Among other things, this report should state whether there is sufficient Federations staff to handle the accounts office, if that staff is suitably qualified and by points of procedure which are causing difficulty.

2. The first report from Ancona should cover the week 1st - 7th April and that from Cessa should be made up seven days after that depot commences operations.

1. General.

In pursuance of existing policy to hand over accountability for imported supplies to the appropriate Italian authorities, a meeting was held at 10.00 hours Thursday 22nd March 1945 in the office of the Director of Transportation Sub-Commission A.C. and was attended by:-

Col. H.G. Grasshaw	-	Chief Accountant A.C.
Lt.Col. P.D. Banning	-	Deputy Chief Accountant A.C.
Lt.Col. J.A. Balfour	-	Transportation S/C A.C.

Capt. C.S. Wyatt	-	" " "
Mr. Carrizo	-	Economic Section A.C.
Sig. Mitzi	-	Federazione dei Consorzi Agrari
Sig. degli Alberti	-	" " " "
Sig. Bettel	-	" " " "
Sig. Conci	-	" " " "
Sig. Bordon	-	Istituto Nazionale per il Commercio Estero
Sig. Ferrari	-	" " " "

2. Object:-

The object of the meeting was to discuss how, in future, civilian imported supplies shall be received at all Italian ports and accounted for A.C. by the agents of the Italian Government i.e. Federazione dei Consorzi Agrari in respect of foodstuffs and agricultural supplies and Istituto Nazionale per il Commercio Estero in respect of miscellaneous supplies.

3. It was agreed that:-

(a) As at 1st May 1945 the Federazione and I.C.E. shall accept their respective supplies at ships rail at all ports in Italy and give to A.C. Receiving Reports which will be signed and stamped by accredited representatives of Federazione and I.C.E. thereby acknowledging receipt of such supplies from A.C.

(b) All supplies thus received by the Federazione and I.C.E. will be treated by A.C. as issued to those organisations for the account of the Italian Government.

3637
./.

- 2 -

(c) Federazione and/or I.C.E. shall accomplish promptly all necessary ships documents in respect of supplies thus received at all Italian ports.

It is emphasized that the arrangements mentioned above were agreed as applying to ALL ports and ALL types of shipping craft in respect of ALL direct imports and would NOT apply only to those ports where Federazione and I.C.E. operate at the present time.

(d) Federazione and/or I.C.E. shall accomplish promptly all necessary ships documents in respect of all supplies handled by them and exported from any port in Italy.

4. In order to fulfil the agreements made in para 3. above, Federazione and I.C.E. agreed to install an adequate number of Tally Staff and accredited representatives in all Italian ports where they may be required. The onus will rest upon Federazione and I.C.E. to maintain close liaison with A.C. Headquarters and A.C. representatives in the field to ascertain when and where their staffs and representatives will be required to be present.

5. The point was raised that in certain ports, supplies after having officially passed into the possession of Federazione and/or I.C.E. might be transported by transportation outside their control. It was agreed that in the event of "Loss in Transit" occurring under such circumstances, such items would be shown in the accounts of Federazione and/or I.C.E. as "Loss in Transit" and the responsibility for such losses would be a matter for adjustment at a later date between the Allied and Italian Treasuries.

6. Finance Sub-Commission undertook to investigate the possibility of Bills of Lading being made out at source in the name of the Italian Government or its accredited agents, thereby avoiding the necessity of Bills of Lading being first endorsed over from A.C. to the Federazione or I.C.E.

SUBJECT: Transfer of Sacks to Consorzio Agrario

TO : Capt. L. F. PALMER, Castellammare

1. Reference your letter CAP/15 dated 9 Nov 44.

2. We agree with your suggestion that Consorzio Agrario should become responsible for the storage, repair and recovery of sacks. Therefore, you are authorized to deliver to the Consorzio Agrario all sacks now in your custody. This transfer should be made on the basis of an inventory and stated on a receiving report signed by a representative of the Consorzio. One copy of this receiving report should be forwarded to this headquarters for the attention of the Chief Accountant.

3. After the transfer of the sack inventory, the Consorzio must be responsible for providing sacks for food movements. The Allied Commission will make no purchases of sacks thereafter. Sacks which may be imported will be delivered to Consorzio Agrario either from shipside or through an AC Warehouse on orders from this headquarters in the same manner and on the same basis as food supplies. Sacks procured from the Ammasso Regionale Canopa will be delivered to and must be paid for by the Consorzio Agrario. The Consorzio must also arrange to store and repair sacks and to provide the materials and pay the personnel required for this work.

4. Sacks in the possession of mills at the time of transfer should be included as part of the inventory. It will be the responsibility of Consorzio to recover these sacks from the mills.

5. It is suggested that you complete the necessary arrangements in time to effect the transfer as of 30 Nov 44.

SUBJECT: Transfer of Grain Elevators to Consorzio Agrario

TO : Director, Food Sub-Commission

1. In accordance with instructions, I departed this H.Q. at 0800 hours, 25 October for Castellammare and returned at 2100 hours, 26 October.
2. Upon arrival at Castellammare, I discussed with Capt. L. F. Palmer, Officer in Charge, the arrangements under which operation of the grain elevators had been transferred to Consorzio Agrario as of 17 Oct 44. It appears that the arrangements under which Food Sub-Commission operated the elevators was rather complex as indicated by Capt. Palmer's letter to Federazione Dei Consorzi Agrari dated 18 Oct 44. At least three separate agreements were in force. However, it appears that Food Sub-Commission was a direct party to only one of these agreements. Capt. Palmer suggests the possibility of additional contracts. The interest of the Food Sub-Commission or other A.C. units in the type of office and accounting procedure followed at Castellammare depends upon whether or not Food Sub-Commission or any other A.C. unit is a direct party to any agreements or contracts with the Federazione Dei Consorzi Agrari or its agents.
3. If A.C. will be responsible for paying employees or making reimbursements for wages, it will be necessary to prescribe or at least approve a system of payroll accounting to be used by Consorzio Agrario or its agents. On the basis of presently known facts it does not appear that AOC will be a direct party to any agreements other than the arrangement whereby the Federazione Dei Consorzi Agrari operate warehouses throughout liberated Italy. Under this assumption, no attempt was made to prescribe a new system of payroll accounts.
4. Under the emergency arrangements whereby Consorzio Agrario became the operator of the elevators on 17 Oct., it is understood that the inventory on hand was 'sold' to Consorzio Agrario and that all cargoes subsequently discharged are the property of Consorzio Agrario. This point was discussed with Signore Mario Rosi, representing Consorzio Agrario on 26 Oct who indicated full understanding and concurrence. It was also made clear that stocks would be stored and issued solely in accordance with orders from Food Sub-Commission or its representatives. The arrangements whereby the Federazione Dei Consorzi Agrari take custody at shipside and account for receipts and issues of imported commodities were made by the Finance Sub-Commission and became effective throughout Southern Region (with the exception of Naples) on 1 Sept 44. It was assured that these same arrangements apply to operations at Castellammare and Torre Annunziata on and after 17 Oct 44.

Transferr of Grain Elevators - Cont'd:

5. In order to avoid possible confusion during the period of transition and to assure continuity of accounting information, I drew up in rather great haste on the morning of 26 Oct a memorandum to Consorzio Agrario, Castellammare ~~Memorandum~~ outlining their accounting responsibility. A copy is attached. Although there was no opportunity to check these instructions with any authoritative source, I believe they are basically consistent with the requirements of the Chief Accountant and will insure a continuation of the reports required by the Food Sub-Commission. These instructions were reviewed with Signore Mario Rosi who indicated complete understanding and raised no objections.

6. Available time did not permit a complete survey or thorough analysis of all problems relating to the transfer of operations to Consorzio Agrario. However, based upon discussions held at Castellammare and observations made, the following suggestions are submitted:

- a. The contractual position of A.C. should be determined and settlement concluded for operations up to 17 Oct 44.
- b. A.C. should require contractual relations between Consorzio Agrario and its agents to be formalized in order to insure a continuity of operations at the ports of Castellammare and Torre Annunziata.
- c. The Chief Accountant should review the tentative instructions given in my memorandum to Consorzio Agrario and take the responsibility for seeing that formalized instructions are issued to the Consorzio Agrario at Castellammare through the Federazione Dei Consorzi Agrari. The Finance Sub-Commission has a liaison officer who performs such functions.

7. Another operation in the same area appears to merit attention. At present flour is shipped from mills in the area to consignees or destinations specified by the Food Sub-Commission. At the beginning, the Chief Accountant determined that these transactions were purchases by A.C. from Sepral, Naples which operated the mills. This accounting arrangement now needs reconsideration since many of the shipments of flour from the mills are consigned to Consorzi Agrari. Since Sepral operates the mills as representative of Consorzio Agrario, it appears that many such transactions are inter-Consorzii matters in which A.C. is neither a purchaser nor a vendor. There is also the problem of physical handling and supervision of shipments from the mills. Capt. Palmer suggests that a contract be made between A.C. and Magazzini Generali, Castellammare to handle these transactions. My own suggestions are:

a. The Chief Accountant should prescribe the appropriate accounting procedure in the light of changes which have occurred.

b. The Consorzio Agrario should be required to make shipments of flour upon order of the Food Sub-Commission. The expenses of handling such shipments should be paid by the Federazione Dei Consorzi Agrari in the same manner as other shipments from other Consorzi Agrari warehouses. There appears to be no strong reason for treating flour transactions differently from other transactions with Consorzi Agrari. It is a general principle that all imported food stocks are subject to Food Sub-Commission control but this does not seem to require A.C. to become a party to any special handling contracts or to assume any financial responsibility in connection with movements of imported supplies. Any such contracts should be between the Consorzio Agrario and the agent employed to do loading, etc.

Transfer of Grain Elevators - Cont'd:

8. It does not appear that any new or different arrangements are necessary with respect to salt. The Salt Monopoly can continue to be the direct consignee of all salt cargoes received, and subject to A.C. control, continue to be the vendor of all salt issued. In this connection, some difficulties which have arisen in the past can be avoided if all salt shipments made by the Monopoly pursuant to Food Sub-Commission orders are consigned solely to other Monopoly warehouses or Consorzi Agrari depots. That would eliminate A.C. as a party to the financial side of the transactions. It will be necessary to inform the Monopoly of the destination of each shipment in order that it may properly pursue its financial interest in the transactions. At the present time, the Monopoly in some instances invoices A.C. Food Sub-Com because it knows only that rail wagons were loaded upon Food Sub-Commission instructions and dispatched by an A.C. Officer. This results in the necessity for difficult analyses and tracing the exact disposition of particular shipments.

9. In view of the elapsed date, 17 Oct on which rather important relationships were changed, it is suggested that the problems requiring action as outlined above be given as prompt attention as circumstances will permit.

SUBJECT : Handing over of ports at Castellammare and Torre Annunziata.
TO : Federazione dei Consorzi Agrari.

1. In view of the fact that at both the above named ports, the military authorities i.e. Docks operating Company, Movements, Port Security Police, and the Sea Transport Officer, are moving out at Castellammare on or about the 18 th October, and at Torre Annunziata on or about the 21st October 1944, It is being recommended by the Food Sub-Commission that the Italian Government be approached to appoint an organization to operate the ports, who in turn will appoint their agents to act for them.

2. Because of the lack of time for para 1 to go through the necessary channels it has also been recommended by the Food Sub-Commission that the following emergency measures be taken.

3. That the Consorzio Agrario act as the emergency organization and appoint :

A) The Magazzini Generali who handle the discharge of Grain at Castellammare and Torre Annunziata and take over the present contract now in force with the Sea Transport Officer, the terms of which are (1) bagged grain at the rate of 50 Lire per ton. (2) Bulk Grain at the rate of 40 lire per ton.

B) The Magazzini Generali to store such Grain in the silos at Castellammare and Torre Annunziata and to be responsible for the bagging and loading of grain, and that the contract now in force between the Food Sub-Commission and Magazzini Generali be taken over by Consorzio Agrario the terms of which are (1) handling and sacking at the rate of 3.70 lire per q.le (2) Storage at the rate of 30 Lire per quinta. Making a total of 4.06 Lire.

4. A new contract may be needed to cover the hiring of any port labor required to operate the port. This would probably need to be on a tonnage basis, and the agent hires all port labor, and pays such labor, the contract being drawn up to cover such payment plus overhead expenses and profit.

5. A contract is also necessary to cover the discharge of salt. This at the moment is in force between the Docks Operating Coy.

and Magazzini Generali, the terms of which are. :

- (1) Bulk Salt 40 lire per ton.
- (2) Unloading by hand in Bushls 50 lire per ton.

6. The agent appointed by you will on his part be responsible for the smooth running of the port quick turn round of ships, and to be organized in such a way that maximum output of grain can be effected, having due regard to rail cars and road transport being available.

The agent will also take on the responsibility for the midshift meal for all port workers at Castellammare and Torre Annunziata. The food will be drawn from SEPRAI according to procedure laid down, and 7 lire per head deducted from all workers who are fed.

7. For the handling of all flour shipment by Sea or rail for Food Sub-Commission account separate agreement will be made with Magazzini Generali and Food Sub-Commission.

8. The contract for the discharge and storing in silos and bagging of grain in warehouse will take effect from and including the 17th October 1944. This appears to be most suitable date as the discharge of a fresh cargo of grain was commenced on that date.

For your information the grain in store at 0600 hours on the 17th October 1944 was as follows :

|----------------------|-------------|
| (1) Castellammare | 2237.4 tons |

Rome, September 27th. 1944

SUBJECT: SUPPLY OF FLOUR FROM FOGGIA
TO THE 5th ARMY

We have received informations from our Office at Naples that from the 14th to the 17th of September it has been sent from Foggia province to Cecina (Livorno) 1.005,70 tons of flour produced with the local wheat, and it has been predisposed the forwarding to Livorno of 1.050 tons during the period 25/9 - 1/10.

You have informed us that this is a supply requested by the 5th Army for assignment to the population of the free regions; we understand the supply will be of about 3.500 tons.

According to this program you have informed us you had sent to Foggia 50.000 "juta" empty sacks for flour (50-50 Kg. each) from Rome, 45.000 sacks of the same quality from Bari, while for any other possible forwarding you have stored in Bari from the Sicily 100.000 and 300.000 sacks of the same quality.

Therefore we have agreed;

- 1) for the loading of this flour your sacks will be used. If for the first forwarding, according to the urgency, other sacks have been used, we will change and we will make different agreements.
- 2) the wheat necessary for the manufacture of the flour will be taken from the "granai del popolo" of Foggia province. The will be sent, through your Office, to the 5th Army together with the cost of milling paid to the mills and with the expenses paid for the delivery of the flour at the places assigned by the Provincial Supply Officer at Foggia. The 5th Army will pay the amount always through your office.

The orders about this supply have been sent by the Provincial Supply Officer of Foggia to the Consorzio Agrario Provinciale of the same town, on September 12th. The Consorzio Agrario, as usual, will operate with a maximum of rapidity.

We will confirm the delivery and we will make the bill as soon we have received the necessary informations, therefore we would like very a confirmation to this letter

CONSEGNA FARINA DA FOGGIA ALLA 5^a ARMATA :

Abbiamo ricevuto avviso dal nostro Ufficio Interregionale di Napoli che dal 14 al 17 corrente sono state spedite dalla provincia di Foggia a Cecina (Livorno) tonn. 1'006,70 di farina prodotta con grano locale, e sono state predisposte per l'invio a Livorno nel periodo dal 25/9 al 1°/10 tonnellate 1'050,==

Ci avete informato che trattasi di una fornitura richiesta dalla 5^a Armata per l'approvvigionamento delle zone liberate, fornitura che potrà aggirarsi sulle 3'500,= tonnellate.

A tale scopo ci avete informato di aver fatto inviare a Foggia 50'000 sacchi vuoti juta ex farina da 50/60 kg. da Roma, e 45'000 sacchi medesima qualità da Bari, mentre per eventuali altri invii futuri avete concentrato a Bari dalla Sicilia 100'000 più 300'000 sacchi della medesima qualità.

Abbiamo pertanto convenuto:

- 1° : per l'insacco della farina verranno utilizzati questi sacchi di vostra proprietà. Qualora per le prime spedizioni, data l'urgenza, siano stati adoperati altri sacchi, si procederà ad un cambio o si prenderanno diversi accordi.
- 2° : il frumento occorrente alla confezione della farina verrà prelevato dai granai del popolo della provincia di Foggia, e verrà da noi fatturato, per il vostro tramite, alla 5^a Armata insieme al costo di macinazione pa-

R O M E

In order to assure the necessary vigilance services for the foods of the Consorzi Agrari Provinciali warehouses, and the escorting, during the transportation, of these foods, this Office has transmitted to the Ministry of Interior and of Finance the letters of which copies are included herewith.

These letters are intended to obtain that rules be issued for the carrying out of the mentioned services, by the Carabinieri and by the R. Garde of Finance.

That is required because though the Carabinieri and Regia Guardia di Finanza are already carrying out the escorting services, in some Provinces, pursuant to the transferring of the foods from A.C.C. warehouses to Consorzi warehouses, the Provincial Command, of above said military Corps, seemed to have understood that the food escorting services were not more needed.

Pursual to agreements made between the Allied Control Commission and the Ministry of Agriculture - Food General Direction has been given, to this Federation, the management, for and on behalf of the State, of the imported Allied food, and the concerning distribution through Consorzi Agrari Provinciali.

This management, now, will be effected only for the Provinces of Avellino, Bari, Brindisi, Benevento, Catanzaro, Cosenza, Campobasso, Foggia, Lecce, Matera, Napoli, Potenza, Reggio Calabria, Salerno and Taranto, on which this Office has jurisdiction. Consequently, the Stock of food, which were stored in the warehouses of the Provincial A.C.C.'s, were on 1st September, transferred to the warehouses of the Consorzi Agrari.

The Consorzi warehouses, in the future, will continue to receive the Allied foods imported in Italy, for the distribution to the population.

Owing to that, it is necessary, according to the necessity, to the diurnal and nightly vigilance services for the warehouses and the transportation escorts.

Therefore, these Ministries will dispose that, the Commands of the R.Garde of Finance and the Carabinieri, provide timely, when their services will be required.

RR. CARABINIERI - Servizio di vigilanza generi alimentari -

A seguito degli accordi intervenuti fra il Ministero dell' Agricoltura e la Commissione Alleata di Controllo, è stata affidata a questa Federazione la gestione per conto dello Stato dei generi alimentari di importazione alleata e la relativa distribuzione per il tramite dei Consorzi Agrari Provinciali.-

Per adesso il lavoro sarà svolto limitatamente alle provincie di Avellino, Bari, Brindisi, Benevento, Catanzaro, Campobasso, Cosenza, Foggia, Lecce, Matera, Napoli, Potenza, Reggio C., Salerno e Taranto sulle quali ha giurisdizione questo Ufficio.-

In conseguenza sono state passate ai Consorzi Agrari delle provincie indicate le scorte di generi alimentari già esistenti, al 1° corr., presso i magazzini delle "ACC" provinciali e continueranno ad affluire in avvenire ai magazzini dei Consorzi Agrari i generi che gli Alleati importeranno in Italia per la distribuzione alle popolazioni.-

Sorge in dipendenza di ciò la necessità di poter tempestivamente provvedere, a seconda delle varie necessità, servizi di vigilanza diurna e/o notturna ai magazzini, di scorta ai trasporti ecc.- Pertanto, e trattandosi come si è detto di una gestione di Stato, si prega codesto On.le Ministero di voler cortesemente disporre perchè, a lorquando vengano richiesti, i Comandi dell'Arma dei RR.Carabinieri nelle provincie indicate provvedano con ogni tempestività e cura ad effettuare i servizi necessari.-

La scrivente ha interessato analogamente il Ministero delle Finanze perquanto concerne la R.Guardia di Finanza.-

Con preghiera di far conoscere i provvedimenti che codesto On.le Ministero vorrà adottare onde renderne partecipi i singoli Consorzi Agrari, si ringrazia.-

"FEDERAZIONE ITALIANA DEI CONSORZI AGRARI"

Naples, 13 September 1944

SUBJECT: Ten days report on food situation.

TO : Allied Control Commission,
Food Sub-commission, Rome.

Within the "Consorti Agrari Provinciali" of the South Zone, operations are still being carried out in order to transfer food from A.C.C. warehouses to the warehouses of said Consorti.

Owing to the laboriousness of the operations it happens that, up to this date it was not possible, to this Office, to establish the availabilities of imported Allied food up to 1 September, according to that we were unable to transmit to that Allied Control Commission the food situation up to 10 September.

We assure you, however, that, as soon as this phase of the operation will be over, the ten days report will be punctually sent for the future.

Oggetto: situazione decennale generi alimentari.-

Presso la maggior parte dei Consorzi Agrari Provinciali della Regione Sud sono tuttora in corso le operazioni di controllo inerenti al trasferimento delle giacenze di generi alimentari dai magazzini delle ACC e da quelli dei commercianti ai magazzini dei Consorzi Agrari stessi.-

Data la inevitabile laboriosità delle operazioni ne consegue che, fino a questo momento non è stato possibile a questo Ufficio conoscere per tutte le provincie le disponibilità di generi alimentari di importazione alleate al 1° di settembre.- In dipendenza di ciò non è possibile presentare a codesta On.le Commissione la situazione dei generi alimentari al giorno 10 del mese in corso.-

Si assicura comunque codesta On.le Commissione che, non appena sarà superata questa fase iniziale del lavoro, la trasmissione delle situazioni decennali avverrà, da parte di questo Ufficio, con la massima puntualità.-

Civilian Supplies-Financing Distribution.

Joint Directors,
Finance Sub-Commission,
R.O., A.C.C., APO 394,
(For Attention of Co. Graffey-Smith)

1. My recommendation is that we hand over the whole of the supply problem to the Federazione Italiana dei Consorzi, which is a federation of the Provincial Consorzi, and is the largest warehousing and distributing agency in Italy, with in normal times a substantial exporting and importing turnover. It has retained its organization almost intact. May I support my recommendation with the following amplification of a scheme.

2. ACR/AMG concern regarding supplies in two fold.

- (a) To be paid promptly; preferably as soon as supplies enter the country. Federazione dei Consorzi is prepared to do this immediately as supplies are delivered to its warehouses, which will be made available where ever we desire them for receiving supplies.
- (b) To control the distribution of supplies and to ensure their efficient distribution. This the Federazione dei Consorzi can undertake through the medium of their provincial agencies-there is a provincial agency in every province in Italy, and their warehouses numbering 15,000 in Italy. They would accept the entire responsibility for the storing and handling of supplies.

3. Regarding Payment: The Federazione dei Consorzi possesses the confidence of their bankers-Banco di Napoli-who annually during the marketing season has accommodated them to the extent of 1,500,000,000 and would be prepared to support them in this venture.

4. Regarding Distribution:

1. Demand: The sequence of demand would be as follows:

exporting and importing turnover. It has retained its organization almost intact. May I support my recommendation with the following amplification of a scheme.

2. ACI/AMI concern regarding supplies is two fold.

(a) To be paid promptly; preferably as soon as supplies enter the country. Federazione dei Consorzi is prepared to do this immediately as supplies are delivered to its warehouses, which will be made available where ever we desire them for receiving supplies.

(b) To control the distribution of supplies and to ensure their efficient distribution. This the Federazione dei Consorzi can undertake through the medium of their provincial agencies--there is a provincial agency in every province in Italy, and their warehouses numbering 15,000 in Italy. They would accept the entire responsibility for the storing and handling of supplies.

3. Regarding Payment: The Federazione dei Consorzi possesses the confidence of their bankers-Banco di Napoli--who annually during the mashing season has accommodated them to the extent of 1,500,000,000 and would be prepared to support them in this venture.

4. Regarding Distribution:

I. Demand: The sequence of demand would be as follows:

- | | |
|------------------------------|--|
| (a) Comune | Each comune would prepare statistics regarding populations and ration entitlements which would be forwarded to-- |
| (b) Provincial Alimentazioni | Provincial Alimentazioni who would prepare the "BILANZI" and submit it to-- |
| (c) Provincial Consorzio | The Provincial Consorzio who would make its demand to |
| (d) Federazione dei Consorzi | The Federazione dei Consorzi who will have received its supplies from imports by ACI/AMI or purchases in Italy under the direction of ACI/AMI. |

-2-

In forward areas (areas we have only just occupied) because of the immediate urgency for supplies it may not be possible to maintain this sequence. It should be broken only where it is absolutely necessary. C.A.C.s may require supplies to be issued from forward warehouses. This could be done and the supplies accounted for later by the consore. This would be the Consorzio's responsibility, we would of course assist them.

II. Distribution to the People: This will be done by the communal organization under the supervision of the Sindaco and Municipal Officials, with ACC/AMG Provincial Officers holding a watching brief.

Transport would be the responsibility of ACC/AMG.

All ACC Sub-Commissions concerned will be kept informed to the extent they desire by returns made by the Federazione dei Consorzi.

III. Payment:

(a) ACC/AMG.

(1) ACC/AMG imports will have been paid for immediately as supplies were delivered to the Consorzi warehouses.

(2) Purchases in Italy—These would be transactions under instructions from ACC/AMG between the producers and Federazione dei Consorzi.

(b) Federazione dei Consorzi.

(1) Consorzi will be paid by the consore. They may prefer to make an arrangement with the Dettaglianti (retailers); that can be left to them.

5. Records.

(a) Preparation by ACC/AMG: The only documents that need be prepared by ACC/AMG is the invoice to the Federazione dei Consorzi.

(b) Preparation by Consorzi: All other documents will be prepared by the Consorzi including any additional documents ACC/AMG may require, to enable the Sub-Commissions concerned to follow the manufacturing and distribution.

Transport would be the responsibility of ACC/AMG.

All ACC Sub-Commissions concerned will be kept informed to the extent they desire by returns made by the Federazioni dei Consorzi.

III. Payment:

(a) ACC/AMG.

(1) ACC/AMG imports will have been paid for immediately as supplies were delivered to the Consorzi warehouses.

(2) Purchases in Italy--These would be transactions under instructions from ACC/AMG between the producers and Federazioni dei Consorzi.

(b) Federazioni dei Consorzi.

(1) Consorzi will be paid by the consues. They may prefer to make an arrangement with the Pettaglianti (retailers): that can be left to them.

5. Records.

(a) Preparation by ACC/AMG: The only documents that need be prepared by ACC/AMG is the invoice to the Federazioni dei Consorzi.

(b) Preparation by Consorzi: All other documents will be prepared by the Consorzi including any additional documents ACC/AMG may require, to enable the Sub-Commissions concerned to follow the warehousing and distribution of supplies.

6. Remuneration: In normal times the profits of the Federazioni dei Consorzi was controlled by statute. In this venture they would be prepared to accept a gross profit of say 10% to include all handling and warehousing charges etc., but to exclude (1) Transportation and (2) Sales Tax. They are also prepared to limit their net profit to say 5%.

7. General.

(a) Transport: The Consorzi would be entirely dependent on ACC/AMG for transport. This is the subject of another proposal by me to the effect that the various independent ACC/AMG Truck Pools be amalgamated and managed by a BOARD of MANAGEMENT comprising of (1) a representative from the

ACC/AMC Transportation Section, (2) a representative from the Consorai (over 50% of the volume of haulage is used in hauling ACC/AMC controlled supplies) and (3) an Italian manager with experience in transportation.

(b) Price: It is essential that prices are fixed promptly.

(c) Stale Stock: Certain commodities are not readily acceptable to Italians and are not being consumed. As to whether they should be made to or not is a sociological problem. It is not the concern of the Consorai and they should not be expected to bear a loss on such stock. Some scheme of backhaul should be evolved.

1. CIVIL SUPPLIES

a) Proposals for future: I have been in consultation with the Provincial Director of the Consorzio Agrario, and have evolved a scheme for the financing and Distribution of Civil Supplies. I am attaching a resume of the scheme in brief from which it will be seen (1) that a considerable saving in ACC/AMG personnel would be effected and (2) Payment for Supplies would be on delivery of bulk consignments.

b) Outstanding Debts. Should the proposal be accepted, the Federazione Italiana dei Consorzi Agrari would be prepared to consider taking over the collection of outstanding debts of ACC/AMG for civilian supplies.

2. TRUCK POOLS

I cannot help feeling that these are likely to cause us some concern before long, and I therefore suggest:

1) Instead of being several Provincial entities, they should be zoned or nationalised.

2) They should be managed by a BOARD of MANAGEMENT consisting of:

- a) A representative from the ACC/AMG Transportation Section.
- b) A representative from the Federazione dei Consorzi - Over 90% of the volume of haulage is used in transporting ACC/AMG controlled supplies. (I am pre-supposing the acceptance of the Consorzi scheme for civilian supplies.)

- d) and probably a representative from ACC/AMG Finance Division.

3. The direction by such a Board of Management would tend to place a great deal more responsibility on Italians and would relieve us of it and release at least some ACC/AMG personnel. Should you consider the idea worth pursuing and you desire me to do so, I shall prepare a scheme in a more concrete form.

14 June 1944.

SUBJECT : Sale of Imported Foodstuffs.

TO : Supply Accountants, Regions II & VII.

1. I suggest that you discuss the following proposal with your Regional Supply Officer and the Regional Finance Officer.

2. (a) The contents of all warehouses to be sold outright to the Consorzio or Alimentazione, (with whichever of which you deal). All imports and consignments from other Regions to be sold outright to the Consorzio or Alimentazione receiving them. Settlement to be made monthly.

(b) Transfers from one Consorzio or Alimentazione to another in the same Region to be paid for by the receiving Consorzio or Alimentazione direct to the issuing one; ACC would not enter into the transaction as far as the cost of the supplies was concerned. Transport would be provided and paid for by the same agencies (i.e., Province, ACC, etc.), as at present. *(It is hoped that further instructions on transport costs will be issued shortly)*

(c) Transfers from a Consorzio or Alimentazione to another Region to be credited to them in the monthly settlement.

3. This system is in force in other Regions. In ACC territory, such as Regions I & VI, the contents of the warehouses are being sold unconditionally to Italian organizations, and the subsequent disposal and issue of the supplies is subject only to the general direction and supervision of ACC. In forward Regions, such as Regions IV & V, the contents of the warehouses, although sold to the Consorzio or Alimentazione, remain under the control of ACC; no issues may be made by the Consorzio or Alimentazione except on instructions from ACC, who receive copies of all transfer vouchers, etc., and the Consorzio or Alimentazione are required to submit a monthly statement of stock movements, in our usual form, for control by ACC.

4. In other Regions we have experienced no difficulty in getting the banks to finance the Consorzio or Alimentazione where necessary.

5. The adoption of this scheme results in a material reduction of work for the Supply Accountants and Provincial Supply Officers, and all makes towards restoring the normal course of trade in Italy so that a total handover to the Italians becomes easier. In view of the necessity to prepare for new Regions with the inevitable result that staff in rear Regions must be drawn upon, this consideration is of paramount importance.
