SUBJECT: Transportation Personnel.

TO : Administrative Officer Tptn.Sub-Commission - A.C.C.

I received your ACC TN/210.45 of 22 Sept. yesterday evening and have immediately begun to compile records you require. However I am afraid it will be quite impossible to furnish the information by 30 Sept., as communication with Reggio for example cannot be made under 4 days, and is usually longer.

I am also presuming that the list will only include those 600/700 employed with W.D. vehicles, and not those concerned with civilian owned vehicles operating under ACC jurisdiction.

A copy of your letter has been forwarded to Hq.Commandant to furnish details of the personnel employed with 1098 and TE vehicles.

I regret that owing to the constant changing and large numbers of employees, together with the limited number of my staff, I can hold out no hope that the roster will be accurate or up to date.

1. The following extract has been drawn from a recent letter from the Executive Commissioner. Your cooperation is requested in the following through of the future planning.

"The present situation demands that the 399 officers earmarked in Appendix 'C' for service in Region X, XI and XII should be earmarked at once. It will be necessary to call forward a small proportion of these officers at once for planning purposes.

It should be remembered that these 399 officers are at present in the Commission and that it has been agreed that they should be made available. The Deputy Executive Commissioner has been asked to take immediate steps to earmark these officers in consultation with the Establishment Branch and Heads of Sections and to furnish a list by 31st August.

I should be glad if every assistance could be given to the Deputy Executive Commissioner in the fulfilment of this task."

SUBJECT: Personnel Strength (Southern Region)

1. The plans of the Southern Region called for 17 transport Officers and a letter with the names of said Officers was submitted to your Section on August 9, reference AGC/Tn/320-2. The 17 Officers have been in the Regions which now comprises Southern Region.
2. At that time, this Sub-Commission was under-strength for the duties required, rather than over-strength. As can be seen from letter referred to above, Officers were not available for Avellino, Benevento, Foggia and Campobasso Provinces for the road Sections.
3. Subsequent to turning in above mentioned names, we have been able to secure and assign Capt. Coleman and Capt. Jefferson, former to Region II, latter to Region III, where they were in great need and where vacancies were left in the charts for Southern Region.
4. Special Order No. 205, 24 August, has been issued and orders Capt. Daniel L. Coleman, O-360205, Inf.(A) to be relieved from attachment to Region II, and attaches him to this HQ and to report not later than 31 August to G-1 for re-assignment. This was done without any reference to this Sub-Commission.
5. It is therefore requested these orders be cancelled promptly and that Region II.HQ. be notified to that effect by signal or telephone in order to avoid unnecessary travel.
6. Special orders No. 204, 23 August, lists Lieut. Col.

6. Special orders No. 204, 23 August, lists Lieut. Col. C.H. Lindberg, 43443 R.E. (B) as assigned to Naples Province. This is an error and has never been requested by this Sub-Commission. Request also that this order be rescinded as respects Col. Lindberg. 3072

7. In the same special order Capt. Raymond W. Saunders, O-297827, Inf. (A) is shown to be assigned to Naples Province. This is also an error and was not requested by this Sub-Commission. Request also that this order be rescinded and that Capt. Saunders be assigned to Southern Region, HQ.

MEMORANDUM:

TO : Vice President - Economic Section
Vice President - Administrative Section

1. Request that you have Directors of your Sub-Commissions review appendix "C" to 16031/3/G-1, dated 22 June 44, subject: "Future Planning Regional Strength", with reference to the number of officers required by each Sub-Commission in Regions I and VI under this appendix. It will be necessary sometime between August 15th and August 30th to drop Regional Strength of the above Regions to the approximate strength shown in appendix "C". Conditions and commitments of Sub-Commissions may now be different from those existing on 22 June.

2. It is planned to have a meeting of the Regional Commissioners of Regions I and VI about 7 August. It will be of great assistance to the Establishments Branch if I could have, by not later than 6 August, the numbers and names, if possible, of the officers of your Sub-Commissions who will be required in Regions I and VI on and after 15 August.

Our reference : ACC Tn/

Date : 21 June '44.

TO : Economic Section,
Hq. A.C.C.

SUBJECT : Ceiling of Officers.

1. A careful survey has been made in respect of the Officers assigned to this Sub-Commission, and it is most desirable that early request be made for an adjustment of the number allocated to HQ as compared with Field.
2. The position in respect to rail specialist officers in the field has been previously explained in full, but to recapitulate a few points in summary may be considered necessary. They are not attached to Regional Headquarters, but work either with Army movements or the Italian State Railways, where Army control is relaxed. Supply Officers in the Region fulfill the purpose of applying for movement in accordance with their requirements, but rail specialist officers are concerned with the satisfactory operation of the railways, and as such must be in a position to communicate direct with this Headquarters at short notice in order that any action may be taken with Army authorities or the Ministry of Communications and Highways.
3. They are concerned with the rehabilitation of the State Railways and are therefore liable to be moved frequently or recalled to Headquarters, from which point they radiate in a pool to the areas demanding especially attention. The machinery whereby Field officers are assigned to Regions is appreciated, and the need for some uniform method of tracing and recording such officers is understood, but for effective working, this Sub-Commission must be in a position to move its own specialists at a moment's notice.
4. Attached hereto are lists showing Officers actually at Headquarters, those regarded as Headquarters Specialist Officers but momentarily in the field, and those who may be regarded as field officers, and who may be regarded as assigned to their local Regions. In the main, the latter refers to road officers, because the technical difficulties and requirements of the railways do not apply in their case. Their stay in the field is temporary and due to changing and fluid conditions. The final plan would reduce the HQ strength to the existing requirements, but in the interim period it is most desirable that a condition exists whereby contact and movement may be had direct with this Sub-Commission.

5. It is desired to put the question of Staff on a satisfactory basis at the earliest possible moment, in order to save the time of all concerned, and if it can be understood and arranged that the required adjustments be made to conform with the attached lists, then it will serve as basis for all future correspondence.
