SUBJECT :Special Train Service - CAVA - SALERNO.

DATE :13 Dec 43.

Sir,

Herewith my report in connection with the operation of a special train CAVA - SALERNO, leaving CAVA in the morning and returning from SALERNO at night.

Following your instructions I visited the D.C.M.R.S. on Sunday morning, 12 Dec 43, and had an interview with Lt.Col. Decker (A) to whom I explained the situation in accordance with Brigadier Custerbock's remarks to me and which I had communicated to you. Col. Decker informed me that it was his own impression that nothing could be done, but that Lt.Col. Okie (727 Operating Bn) at Salerno should be contacted and that any arrangements that we could make with Col. Okie would have the approval of the D.C.M.R.S.

This morning, Monday 13 Dec 43, I visited Salerno and contacted Col.Okie to whom I outlined the position and asked for his co-operation. He explained that he was extremely short of locomotives and those that he had were in very bad condition, which meant that they were continually "in the shops". Under these circumstances he regretted that at the moment he was not in a position to put on a special train. He stated, however, that there is already a Workmen's train operating between MARIA MAGG and SALERNO, leaving MARIA MAGG at 0630hours, and leaving SALERNO at 1630hours. This train passes through CAVA at 0700hours, and Col. Okie said that if these times were of any use, he would be very pleased to arrange for extra accomodation for approximately 100 officers. He made, however, a very strong point of the fact that if such arrangements were made, adequate guards would have to be provided at CAVA to ensure that only authorised passengers were picked up. It would appear that the situation is that whenever a train stops at a station it is usually beseiged by civilians. I thanked Col. Okie, and informed him that I would communicate this information to you.

I then contacted Lt.Col.Prodgers, and explained to him the situation regarding the basic schedule of trains and also the method of approach, should at any time a special train be thought necessary. Whilst with Col. Prodgers, I obtained the information that the S.A.I.M. Motor Service Company (Societa Autotrasporti Italia Meridionale) are operating a bus service between AMALFI and SALERNO with three buses. There are two journeys daily in each direction. The distance between AMALFI and SALERNO is 15 miles, so that it would appear that no-one bus is operating more than 45 miles daily, and under these circumstances I would respectfully suggest that the Region examine the position and the possibility
