The Commanding General MIOBA, Lt. Gen. John C.H. Lee, has dispatched the following Christmas message to all officers and enlisted men of his command:

"To all serving with the American Army in the MIO go my grateful best wishes for this Christmas season away from home and for the New Year. We share the hope that most of us can enjoy a return to our homes but only after leaving behind us a task well done with fairness, fidelity and above all, good will."

the 7106th Regiment.

CHRISTMAS GREETINGS

This holiday season, the second peaceful Christmas for the world after bitter years of strife, finds us working to reestablish the principles first proclaimed by the birth of Christ, "Peace on earth - good will toward men". Though many of us are far away from home and family, the knowledge that our accomplishments are a material contribution to these aims should be a source of great comfort.

To each of you and yours my sincerest hopes for a very Merry Christmas and a prosperous and successful New Year.

2. All requests for the derequisitioning of property will be investigated and handled in the initial stages by the appropriate Section or Sub-Commission concerned, but in order that proper coordination may be obtained all letters to higher formations will be prepared and forwarded for signature of the Executive Commissioner.
3. The above disposition of requests for derequisitioning does not apply to Italian Army property, which will continue to be handled by the Land Forces Sub-Commission.

- i Operations other than above, including major operations in progress.
- ii Order of battle.
- iii Vital information of important defenses.
- iv Reports on operations of vital interest to the enemy.

Documents of a personal and disciplinary nature.

1 The following extracts from the Joint US and British instructions are re-published for information together with comments and directions thereon.

The first section shows the Joint instructions; the second the AG comments.

2. CONFIDENTIALITY ATTENTION MUST BE PAID BY ORIGINATORS AND HOLDERS TO DOWN GRADING SUCH DATA AS SOON AS CONDITIONS PERMIT.

3. The vast mass of matters connected with planning for operations which have since taken place, or are now in progress, should be taken into account. The objective is to retain in the most confidential form to the lowest category consistent with security. There are four categories and their definitions are repeated for information together with some examples as a guide.

4. Top Secret. Documents whose disclosure would cause exceptionally grave damage to the Allies.

- i Plans of future major operations.
- ii Very important political documents such as negotiations for an alliance.
- iii Documents which would disclose secrets of obtaining intelligence or special secret agents.

Secret. Documents whose disclosure would endanger national security or cause serious injury to the interests or prestige of the Allies.

- i Operations other than those, including major operations, in progress.
- ii Order of battle.
- iii Vital information of important defense.
- iv Reports on operations of vital interest to the enemy.
- v Adverse reports on morale affecting major operations.

Confidential. Documents whose disclosure would not endanger national security would be prejudicial to the interest or prestige of the Allies or to an individual or cause administrative embarrassment or difficulty or be of advantage to a foreign nation.

- i Matters of a personal and disciplinary nature.
- ii Routine battle reports not containing information of vital interest to the enemy.
- iii Routine intelligence reports.
- iv Movements of non-operational assignments in theatres of war.
- v Technical manuals.
- vi Aerial photographs in operational areas.

Restricted. Documents which should not be seen or used except for official purposes.

RESTRICTED

UNCLASSIFIED

- i Non operational requirements.
- ii Training and technical matters.
- iii Serial photographs of non operational areas.
- iv Non operational stores to returns.

3 The successive distinctions should be noted:

- a) operationally areas (AWACS).
- b) personnel matters.
- c) operational or operational.
- d) official purposes only.

4 If the examples are viewed, it will be appreciated how little can properly be known Secret, let alone Top Secret. The only AC papers likely to be still properly in the latter category would appear to be papers dealing with the Peace Treaty. Comparatively little of AC work is properly classifiable higher than confidential.

5 All AC and HQ offices at HQ and in the field will take urgent steps to declassify all papers which are now classified and in particular HQ Papers with HQ SECRET TO ARCHIVES OVER-CLASSIFIED.

6 The following are the regulations as to declassifying.

When established that the contents no longer warrant the original classification, a note of the new category will be made on the document and be signed and dated by the officer authorizing the down grading; the down grading will also be recorded in the file in which the document is kept. Officers authorized to re-classify documents will be not lower than the rank of Lt Col except in an independent HQ having no officer of that rank then a higher rank may re-classify.

7 It will frequently be found that files contain a number of copies of signals circulated "for information". Where it is clear that the action copy of any such signal is attached to another officer's file that the copy is unnecessary for the understanding of the file and in particular that no action on the file arises therefrom, the information should be destroyed and the "letters in" register noted accordingly.

8 In HQ AC Secret and Top Secret letters for instructions will be passed to the security officer to be dealt with in accordance with his instructions.

UNCLASSIFIED

1. If the exemption are persons, can normally be exempted Secret, let alone Top Secret. The only US papers likely to be still exempted in the latter category would appear to be papers dealing with the Peace Treaty. Collectively little of US work is properly classifiable higher than confidential.

5. All HQ and US offices at HQ and in the field will take urgent steps to declassify all papers which are now classified and in particular NO PAPER WILL BE LEFT UNCLASSIFIED UNLESS CLASSIFIED.

6. The following are the regulations as to upgrading.

When satisfied that the contents no longer warrant the original classification, a note of the new category will be made on the document and be signed and dated by the officer authorizing the down grading; the down grading will also be recorded in the file in which the document is kept. Officers authorized to reclassify documents will be not lower than the rank of Lt Col except in an emergency out HQ having no officer of that rank when a major may re-classify.

7. It will frequently be found that files contain a number of copies of signals circulated "for information". Where it is clear that the action copy of any such signal is addressed to another office and that the copy is unnecessary for the understanding of the file and in particular that no action on the file arises therefrom, the information copies should be destroyed and the "letters in" register noted accordingly.

8. In HQ all Secret and Top Secret letters for instructions will be presented to the Security Officer to be dealt with in accordance with his instructions.

NUMBER 6

Signals and Correspondence to AFHQ

1. Reference paragraphs 14 and 15 of TM 12-253, an extract of which appears at Appendix "A" hereto, outlining instructions for the routing of correspondence. Attention has been drawn thereto by the Adjutant General AFHQ for compliance in all correspondence addressed to AFHQ.
2. All signals on Allied matters intended for Allied Force Headquarters will be addressed to AFHQ. The use of words "for" or "attention of" will be avoided unless the sender wishes the signal handled initially by a particular staff section. It must be understood that the contents of the signal are being sent to SACMED and not to the staff section. The mere fact that the words "for G-3, or G-5" are inserted does not alter the fact that the addressee is actually SACMED. The qualifying clause is wholly to expedite handling.
3. Most AFHQ correspondence is signed by the Adjutant General or an Assistant Adjutant General. He is acting as the official agent of SACMED in so doing and usually is not the interested staff section. In general, correspondence should not be addressed to AFHQ attention AG Section. Such action delays delivery of the correspondence.
4. When referring to previous correspondence, the file number, date and subject are sufficient identification for routing within AFHQ. The fact that correspondence is signed by a representative of SACMED is not an indication that the reply should be addressed to the attention of the signer. In new correspondence the same rule in general applies, but if it is felt that reference to a staff section is desirable such a reference may be used.

14. Channels

When letters are routed through other than normal military channels, the fact is stated two spaces below the subject. The following form is used:

SUBJECT: Application for transfer

THRU: Commanding General
Fifth Army
Fort Blank, New York

TO: The Adjutant General
Washington 25, D. C.

15. Address

a. PLACEMENT. The address is placed as in the example in paragraph 14. It is written in block style, with open punctuation, and is placed directly under the subject.

b. FORM. (1) Official correspondence is normally addressed to the commanding officer or chief of a command or installation by his title.

TO: Commanding Officer
121st Infantry
Fort Bragg, N. C.

TO: Chief, Training Aids Division
1 Park Avenue
New York, N. Y.

(2) The name of the commander or any other individual is avoided in addresses of military letters. Violation of this principle frequently causes delay in answering correspondence when the individual addressed is absent from his office. The only occasion upon which a military letter is addressed to an individual by name is when the communication pertains to him personally and on rare occasions when it is positively known that the individual will be at his office on receipt of the letter and there is some special reason for addressing him. The same rule applies to the use of the word "ATTENTION."

(3) Military letters are never addressed just to headquarters or offices.

c. CONTENT. (1) The address must be complete and accurate. However, Army rules concerning protecting valuable information must not be violated. Location of overseas units, except those listed in War Department Circulars as unclassified headquarters, are never shown in the same piece of mail on which

an APO number appears. (See pars 77-82 for information regarding classification.) Some examples of oversea addresses are -

(a) To the commander of an unclassified headquarters:

TO: Commanding General
Caribbean Defense Command
APO 834, c/o Postmaster
New Orleans, La.

(b) To the commander of a classified headquarters:

TO: Commanding General
United States Army Forces
APO 999, c/o Postmaster
New York, N. Y.

(c) To the commander of a numbered unit outside the continental limits of the United States:

TO: Commanding Officer
731st Tank Battalion
APO 810, c/o Postmaster
New York, N. Y.

(2) When letters are routed to several individuals, the entire address of each is placed on single line if possible:

TO: Commanding General, Rock Island Arsenal, Rock Island, Ill.
Commanding General, Watervliet Arsenal, Watervliet, N. Y.
Commanding Officer, Watertown Arsenal, Watertown 72, Mass.
Commanding Officer, Picatinny Arsenal, Dover, N. J.
Commanding Officer, Frankford Arsenal, Philadelphia 37, Pa.
IN TURN

A tissue copy is made for each addressee, and when the letter reaches him he withdraws his copy which is identified by a check mark.

(3) To speed routing, some letters are addressed to the attention of a head of a subdivision of an organization or to an individual. This form must be used with care. The writer must know positively whether the addressee handles the type of letter concerned. Examples are:

(a) Addressed to the attention of a subdivision of an agency:

TO: Commanding General, ASF
Washington 25, D. C.
ATTENTION: Director, Purchases Division

(b) Addressed to the attention of an individual:

TO: Commanding General, AAF
Washington 25, D. C.
ATTENTION: Colonel Richard B. Marsh

Office of the Chief Commissioner

FUNCTIONS OF ALLIED COMMISSION LIAISON OFFICERS

1. The first duty of Allied Commission Liaison Officers will be to keep themselves, at all times, informed of the situation in the areas with which they are concerned. This will involve the use of all available means of information: Press, Intelligence, Summary, etc. They will inform HQ Allied Commission direct of any circumstances arising which may in their opinion adversely affect Allied interests or influence the general policy of the Commission. They will submit a monthly report to HQ which will include comment on the political situation.

2. Liaison Officers will, by study of previous Regional monthly reports and other records, inform themselves of the present position of various Commission functions now being handed over to Italian agencies. They will specially watch those cases where previous difficulties have been encountered.

Liaison Officers will bear in mind that HQ Allied Commission and AFU are interested in activities in all parts of the area with which Liaison Officers are concerned and not merely with the situation in the leading cities. Consequently Liaison Officers should make frequent trips to the smaller towns and country districts and acquaint themselves with the political and economic conditions in such districts. They must endeavour to be on the spot where trouble is expected and observe any incidents, strikes, demonstrations and the like in their areas. All Liaison Officers will remember, however, that their role is solely that of observers and reporters and they will not interfere in any way in such incidents, nor will they give any advice to the Italian authorities in the handling thereof. Liaison Officers have no authority to pledge the use of Allied troops in quelling any disturbance; this is a matter for the local Allied Commander. They should, however, keep Allied Commanders informed of the course of events. In cases where they consider safety of Allied property or nationals likely to become endangered, they must inform the Allied Commanders concerned, advising HQ AFU of such action.

3. Liaison Officers will keep close touch with the senior military formation, American and British, in their areas. They will endeavour at all times to assist military formations in their relations with Italian Government departments and agencies. They must, however, remember that they are Liaison Officers and not Executive Officers and will not be able to carry out in any sense the former functions of Provincial Commissioners.

Points which require special attention are:-

- a) Diseases and unrest.
- b) Law cases affecting Allied personnel and property.
- c) Requisitioning and requisitioning.
- d) Relations between Allied forces and Italian police forces.

225

Liaison Officers will also keep in touch with British and U.S. Consular Officers, as well as any U.S. Information Services and British Press Officials in their areas.

4. They will at all times avoid being involved in questions of Italian local Government and, even if asked, they will NOT give official advice, on behalf of Allied Commission, to Prefects or other State employees. They will, in all cases, refer the

tions were being handed over to Italian agencies. They will especially watch those cases where previous difficulties have been encountered.

Liaison Officers will bear in mind that HQ Allied Commission and AFHQ are interested in activities in all parts of the area with which Liaison Officers are concerned and not merely with the situation in the leading cities. Consequently Liaison Officers should make frequent trips to the smaller towns and country districts and acquaint themselves with the political and economic conditions in such districts. They should, however, keep Allied Commanders informed of the course of events. In cases where they consider safety of Allied property or nationals likely to become endangered, they must inform the Allied Commanders concerned, advising HQ AC of such action.

3. Liaison Officers will keep close touch with the senior military formations, American and British, in their areas. They will endeavor at all times to assist military formations in their relations with Italian Government departments and agencies. They must, however, remember that they are Liaison Officers and not Executive Officers and will not be able to carry out in any sense the former functions of Provincial Commissioners.

Points which require special attention are:-

- a) Disease and unrest.
- b) Law cases affecting allied personnel and property.
- c) Requisitioning and derequisitioning.
- d) Relations between allied forces and Italian police forces.

Liaison Officers will also keep in touch with British and U.S. Consul Officers, as well as any U.S. Information Service and British Press Officials in their areas.

4. They will at all times avoid being involved in questions of Italian local Government and, even if asked, they will not give official advice, on behalf of Allied Commission, to Prefects or other State employees. They will, in all cases, refer to Italian local official to his Ministry in Rome. On the question of the preparation of electoral lists they have an important duty to perform. The Allied Governments are most anxious to promote free and secret elections and an essential preliminary to the preparation of a proper electoral list. Hence one of the main duties of Liaison Officers is to observe and report on the proper progress of the preparation of these lists in their areas. Detailed directives will be issued as to their duties in this respect.

5. The officer in charge Liaison Group will be responsible for discipline and administration of all Allied Commission officers in his area.

INTERNAL DISTRIBUTION.

1. I have noted several instances recently where insufficient attention has been paid to internal distribution on correspondence and signals emanating from this Headquarters.
2. It is essential that outgoing material be copied to other Sections, Sub-Commissions and Branches interested, and that such distribution be stated on the correspondence or signal. This is of the utmost importance and is the personal responsibility of the originating officer.

OFFICE MEMORANDUM)
NUMBER 6)

TRANSMISSION OF SIGNAL MESSAGES
WRITTEN IN ITALIAN.

1. The extract below from CSO L of C Italy letter 311.4/4, dated 23 July 45 is repeated for information and compliance by all concerned:

"Although there is no objection from a security viewpoint to the handling of telegraph traffic written in Italian, there are other considerations which make the passing of such traffic through military channels undesirable. These considerations are,

- (a) The impossibility of checking for transmission errors when the operators do not understand the language;
- (b) the obvious impossibility of enciphering such traffic;
- (c) the general policy of reducing commitments to enable redeployment, repatriation schemes to be effected with the minimum reduction in the efficiency of the military communication system.

Under these circumstances traffic in Italian will not normally be accepted by Allied Signal Offices or Message Centres for electronic transmission, but will be handled through normal HES channels. In the exceptional circumstances where it is absolutely essential that a message in Italian must be delivered within a matter of hours and there is no obvious means of delivery by Italian Government telegraphs then such a message may be handed into an Allied Office with a covering note to the Signalmaster or OIC Message Centre explaining the attendant circumstances and signed by a responsible Allied Officer who is a member of an Allied Commission department or organisation. It is pointed out that the Allied Signal Services cannot be held responsible for the correct transmission of such traffic."

2. The above is supplementary to the instructions contained in Office Memoranda Nos. 1 and 5 dated 12 Jan 45 and 27 July 45 respectively.

By command of Rear Admiral STONE:

1. The Plan for the Control of the Manufacture and Sale of Industrial Products of Northern Italy attached hereto and made a part hereof is transmitted for the information and guidance of all concerned. It will be implemented at once.

3. Since the plan affects primarily the industry of northern Italy, with the seat of control at Milan, the plan must be implemented under the full authority of Allied military government. The plan embraces the entire North with the exception of Venezia Giulia and must be administered uniformly without regard to regional boundaries with the exception above noted. Therefore, the plan will be administered by the Allied Commission through its forward office in Milan. Regional Commissioners will be called upon extensively for advice and cooperation, and for local administration.

Industrial committees.

5. The organization of the committees listed in the plan will be completed without delay. As the occasion may demand, committees covering additional fields of industrial endeavor may become necessary. The proposed organization and plan of operations of such new committees must be transmitted to the Allied Commission for approval and inclusion in this order by appropriate amendment.

c. Each committee listed in paragraph 3 a. of the Plan will submit its organization, membership and list of officers, together through the North Atlantic Industrial Union.

1. The Plan for the Control of the Manufacture and Sale of Industrial Products of Northern Italy attached hereto and made a part hereof is transmitted for the information and guidance of all concerned. It will be implemented at once.
 2. This plan was developed by the industry of northern Italy to provide through cooperation and self-discipline a means for re-establishing an orderly economy subsequent to the impact of liberation. The Italian government has approved the plan and will participate therein through its established AC/MS contact for that part which pertains to territory still under Allied Military Government. The presence of members of the Italian government on the North Italy Industrial Council and the North Italy Industrial Price Fixing Board assure the fact that the government is always informed.
 3. Since the plan affects primarily the industry of northern Italy, with the seat of control at Milan, the plan must be implemented under the full authority of Allied Military Government. Therefore, the plan will be administered by the Allied Commission through its forward office in Milan. Regional Commissioners will be called upon extensively for advice and cooperation, and for local administration.
 4. A forward office of the Industry Sub-Commission, Allied Commission, will be established 10 July 1945 at the Milan office of the Allied Commission, 7 Via Appiani, Milan. This office will effect the necessary organization in the North to implement this plan. A forward office of the Commerce Sub-Commission, Allied Commission, will be established at the same location within the near future.
- Industrial Committees.
5. The organization of the committees listed in the plan will be completed without delay. As the occasion may demand, committees covering additional fields of industrial endeavor may become necessary. The proposed organization and plan of operations of such committees must be transmitted to the Allied Commission for approval and inclusion in this order by appropriate amendment.
 6. Each committee listed in paragraph 3 a. of the plan will submit its organization, membership and list of officers, together with its detailed plan of operations, through the North Italy Industrial Council to the Allied Commission for approval. The Council will examine all plans and cause their modification and revision to fit the limitations of such general factors as coal, power and transportation availabilities, etc.; will secure the plan's approval by the North Italy Industrial Price Fixing Board if price fixing is involved; and will present the plans to the Allied Commission. The Allied Commission will screen the plans for conflicts with existing plans for all of Italy and for coordination with the import program, and will suggest necessary modifications, before giving final approval.

7. Once the committee organization and plan of an industry group has been approved, this approved plan will form the basis upon which the industry will operate freely with its own management and without interference by anyone except when absolutely necessary. Emphasis must be placed upon permitting Italian industry and commerce to proceed under its own management and to provide for the enforcement of its own self-imposed restrictions.

North Italy Industrial Council.

8. The president of the North Italy Industrial Council will be appointed by the Italian Government. Each regional Commissioner will transmit promptly to the Milan office of A. C. his designation for member of the Council as provided in paragraph 3 b. of the Basic Plan. At the same time Regional Commissioners may transmit suggestions for the selection of the labor member of the Council.

9. In its operations the Council should be permitted full exercise of its powers provided in paragraph 3 b. (1), with only the minimum necessary limitation thereof through the overall AIG control provided in paragraph 3 b. (4) of the Basic Plan.

North Italy Industrial Price Fixing Board.

10. The president of the North Italy Industrial Price Fixing Board will be appointed by the Italian Government. Each regional Commissioner will transmit promptly to the Milan office of A. C. a list of nominations of residents of his region engaged in the fields of endeavor specified in paragraph 3 c. of the Basic Plan. From the lists of nominations the members of the Board will be selected to give the coverage by callings and by regions provided in the Basic Plan.

Distribution.

11. The planned distribution of existing frozen stocks of consumer goods must progress rapidly. Therefore, distribution plans must be approved and placed into operation at the earliest practicable date. Distribution plans for consumer goods must not be delayed pending submission and approval of more elaborate and time consuming production plans.

12. In those cases where necessary interim action has caused the creation of regional industrial committees or organizations which now become in conflict with this overall plan, every effort will be expended to effect the harmonious transition of the local organization into the appropriate industrial committee created by this order. Failing this, local conflicting groups must be disbanded in furtherance of the subject plan.

13. General Order No. 41, Allied Military Government, is modified insofar as it is in conflict with the provisions of this order.

ACTION

The meeting opened at 0915 hours.

1. Future of ITALY and Cessation of A.M.C.

The Chief Commissioner read to the meeting a paper on future policy towards ITALY. He invited comment from Regional Commissioners.

412

All Regional Commissioners agreed with general policy outlined in the Paper.

SCAO IV Corps pressed for an increase in the provision of suitable literature and books. He said that the Italians were anxious to know how democracy worked and how it solved its problems.

Regional Commissioner, LOMBARDIA Region, said that in his opinion too little emphasis was given in the paper to the importance of the early return of ITALY to normal relations with other countries which was so desirable for the rehabilitation of ITALY. He was also opposed to leaving skeleton A.C. teams in territory that had been handed back to the Italian Government. He thought that the retention of Allied officers in the field, once their authority had been taken away from them, was a mistake. Considerable discussion took place on this point, Regional Commissioners LIGURIA and VENETIE Regions being opposed to Colonel POLETTI's view. Both the Chief Commissioner and the Executive Commissioner were of the opinion that the A.C. Liaison Officers had proved useful in the past and that their presence in ITALY during the election period would be beneficial.

167/

Chief Commissioner/...

ACTION

The Chief Commissioner stated that 1 September 1945 had been fixed as the probable date for the withdrawal of A.M.C. in ITALY except for VENEZIA GIULIA and possibly the BOLZANO area. Regional Commissioners agreed that it was a satisfactory date.

2. Italian Elections.

Vice President, Civil Affairs Section and Director, Local Government Sub-Commission outlined the preparations necessary for the holding of local government elections, following which Chief Commissioner took the views of the Regional Commissioners on the date on which the preparation of electoral lists could be started. Chief Commissioner announced later in the meeting that he had decided that the work should be started on 15 July.

It was calculated that preparations for elections could not be completed until December. Owing to the winter (now), this meant that the actual election might not take place until the Spring of 1946. This applied to both local and national elections.

Vice President, Civil Affairs Section told the meeting the Allied Commission had been trying to persuade the Italian Government to alter the present electoral law which had been passed in 1915 and which was considered by both the British and American Governments to be undemocratic. So far no success had been achieved. A further approach would be made.

There was discussion on the measures that might be taken by Allied forces to ensure a free election. Regional Commissioner, LOMBARDIA Region, thought that a statement should be issued by the U.S. and U.K. Governments which would state definitely that the Governments were prepared to do all in their power to see that the elections were free. This statement should be made public. He believed that with the backing of this statement, even a relatively small number of mobile troops would go a long way to raise the morale of the Italian police agencies and would help the Italians to follow true democratic procedure at the polling booths. If the two Governments were not willing to make such a statement the Regional Commissioner was of the opinion that the Italian people should be told that it was entirely their responsibility and the Allies would make no attempt to supervise the election in any way.

Chief Commissioner said that this opinion of Regional Commissioner LOMBARDIA Region would be given careful consideration.

The Chief Commissioner ruled that there should be no independent
action by Ministries and that the move of offices and archives must
be a planned operation.

4. Italian Decrees.

Regional Commissioner, EMILIA Region, drew the attention of the meeting to the publication of a decree authorizing the establishment of the National Association of patriots, to be supported by voluntary contributions.

He maintained that contributions would probably be made at the point of a gun. The Chief Commissioner directed that a memorandum be submitted to him on the subject.

A discussion took place on the implementation of decrees which had affected Northern Regions and it was agreed to give Regional Commissioners notice of intention to implement them so that they would have an opportunity of objecting.

Economic section briefly outlined the industrial situation in the North. It was dependent on the availability of raw materials, the most important being coal of which there was a world shortage. The Allied Commission had submitted to the Combined Chiefs of Staff a proposal that the Italian Government should set up an Industrial Coordination Board which would have subsidiary boards to deal with each industry or group of industries. AC would advise the main Board of the materials available, the Board would allocate the fuel and raw materials to the subsidiary boards who would decide which industries could be supplied. In the meantime a coal allocation organisation was being set up and instructions would be issued shortly. It was reported that coal imports for industries in the North for July would be 66,000 tons and for August 146,000 tons. These figures excluded military and railway requirements. After August the loadings by the U.S. were uncertain.

Discussion/.....

ACTION

Discussion followed on the Coal Allocation Board set up in MILAN as a temporary measure. Executive Commissioner said that there seemed to be some divergence of opinion as to recent decisions of the Board and he instructed Colonel EVJES to see that a thorough overhaul was made of its composition.

Regional Commissioner, ICAE, PDL Region, outlined a scheme which he thought should be adopted as an interim measure until the Industrial Coordination Board was set up. He said that in the North there were twenty-three committees which represented each of the main industries in the five Northern Regions. Commissioner should be appointed as head of each of these committees and one official nominated to coordinate the work of the committees and one official nominated to coordinate the work of the committees. The Committees were composed of the best men available in the Northern industries and their functions were much the same as those of the proposed sub-boards of the Industrial Coordination Board. Regional Commissioner emphasized that they would work under the direction of AIG/AC.

It was decided that the latter be further discussed in committee on the following day in the presence of Minister GROMCHI.

It was reported that 15,000 tons of coal had been allotted for July to the military railway administration. Executive Commissioner directed that this should be watched in order to retrieve some for industry if possible.

Vice President, Civil Affairs Section explained that the Italian Government had passed a decree which dealt with expropriation of employees in industry but that they had so far failed to pass a similar decree to deal with expropriation of managers. Chief Commissioner had decided that while this was in existence a management expropriation order was necessary and he had directed that the Italian draft decree on this subject (which they had so far failed to implement) should be issued as a Regional Order.

Director, Labour Sub-Commission, said that unless surplus labour in industry was very carefully handled there would be great distress and unrest. Economic Section was ascertaining what other forms of employment were available in commerce, agriculture and relief schemes.

The present unemployment insurance scheme was insufficient and the Italian Government had been pressed to make some improvement. Director, Labour Sub-Commission, gave in detail the improved rates of unemployment pay and family allowances. Unemployment pay would be 50 lire per day instead of 3 lire. Once surplus labour had been drained off industry it just not be allowed to return.

Regional Commissioner, LOMBARDIA Region, said that it had been strongly recommended in the press that these allowances had been increased. Increases were excessive, 150 lire per day or more on a basic wage of 95 lire and some were retrospective to 1 January 1945.

Executive Commissioner said that there must be no unilateral action and no notice of wage adjustments should be allowed to appear in the press without AMG sanction. The question would be discussed in committee the following day.

SUBJECT: Legislation in Venezia Giulia.

3 July 1945.

1. In order to avoid the appearance of introducing into Venezia Giulia current legislation passed by the Italian Government, the policy of implementing Italian Governmental and Ministerial Decrees will not be adopted in this region.

Effective legislation will therefore consist of the Proclamations of the Supreme Allied Commander and Military Governor, supplemented by such Regional or Provincial Orders as may be required.

The General Orders issued by AMG, either before or after the date of this directive will not be put into operation in Venezia Giulia as General Orders, but where applicable should be reissued as Regional Orders.

2. The absence of the Italian legislation leaves certain gaps in the legislation required for the administration of the territory and will necessitate the issue of additional Regional Orders. The following paragraphs of this directive indicate the special subjects upon which such orders are required. Nothing in this directive is intended to prohibit the normal issue of Regional Orders on particular regional problems as and when the need for such orders arises.

3. Agriculture. A Regional Order is required for the amassing of wool to incorporate the provisions of DM dated 21 April 1945 (G.U. No. 49 of 24 April 1945).

4. Communications. The current Italian Postal and Telecommunications rates are covered in the following decrees:

It is desirable that the rates of services in operation or to be reintroduced in Venezia Giulia should be in conformity with the rest of Italy, but it would be difficult to reproduce these lengthy decrees in a Regional Order and in any case, a number of the services mentioned therein are not likely to be introduced. SUBJECT: Plan for the Control of the Manufacture and Sale of Industrial Products of Northern Italy.

TO : addressees below.

1. The Plan for the Control of the Manufacture and Sale of Industrial Products of Northern Italy attached hereto and made a part hereof is transmitted for the information and guidance of all concerned. It will be implemented at once.
2. This plan was developed by the industry of northern Italy to provide through cooperation and self-discipline a means for re-establishing an orderly economy subsequent to the impact of liberation. The Italian government has approved the plan and will participate therein through its established channels and contact for that part which pertains to territory still under Allied military Government. The presence of members of the Italian government on the North Italy Industrial Council and the North Italy Industrial Price Fixing Board assure the fact that the government is always informed.
3. Since the plan affects primarily the industry of northern Italy, with the seat of control at Milan, the plan must be implemented under the full authority of Allied military government. The plan embraces the entire north with the exception of Venezia Giulia and must be administered uniformly without regard to regional boundaries with the exception above noted. 1. The Chief Commissioner has noticed a tendency to depart from the principles laid down in Office Memorandum No.17 of 13th October 1944 by which directions on policy must be signed by the Vice President of the Section, the Executive Commissioner, or the Chief Commissioner. He considers that it is most important, having regard particularly to the difficult situation in the North where administration and economics are inextricably inter-woven with politics, that coordination at Headquarters should be effected and that directives on policy should be discussed either at the Executive Commissioner's conferences or at Vice Presidents' meetings before despatch. In the majority of cases directives should be prepared for his signature.

9. Issue of Semi-Permanent Passes.

In the case of persons living near a Provincial boundary and whose place of employment is in, or partly in, an adjoining Province or Provinces, a semi-permanent pass may be issued and such passes shall expire on 31 March 39. Dated 20 September 1941. [Signature] and [Signature]

Applications for passes will be referred by the Minister for Foreign Affairs to the Ministry of Interior who will deal with such applications as in para 5 (a) (v).

(f) Vatican Officials, Knights of Malta.

Applications for passes for Vatican Officials and officials of the Sovereign Order of the Knights of Malta will be dealt with by the Division, Headquarters Allied Commission, in the manner outlined in para 5.

(g) Journalists.

Hona. The Italian Journalists are issued by the Public Relation Officer, Headquarters Allied Commission, with a green card "TESSERA DI RICONOSCIMENTO". This card bears an endorsement on the back to the effect that "The bearer is permitted to travel in liberated Italy to circulate after curfew and to enter official premises occupied by Allied Commission in liberated Italy. This pass does not apply to army areas." This tessera and endorsement will be considered to be the equivalent of the standard movement of civilian pass in the Restricted and Free Zones, but a standard pass will be required in addition to the Tessera to enter the Army Zone.

(h) Military Railway Services (MRS)

Personnel of the Italian State Railways (ISR) and Contractors under the direction of the MRS and ISR may apply for passes to the MRS who are authorised to issue standard movement passes in accordance with this memorandum.

9. Issue of Semi-Permanent Passes.

In the case of persons living near a Provincial boundary and whose place of employment is in, or partly in, an adjoining Province or Provinces, a semi-permanent pass may be issued and such passes shall expire on 31 March, 30 June, 30 September and 31 December annually, and then become renewable upon further application. Such passes may also be issued to all persons who have sufficient reason for frequent travel between Provinces. The Provision will not apply to travel into the Army Zone.

10. Supplies of Passes.

Supplies of passes may be obtained upon application to Public Safety Sub-Commission. Questore in Allied Military Government territory will obtain supply from Regional Commissioners. In Italian Government territory from the Ministry of the Interior. (Direzione Generale della Pubblica Sicurezza).

11. Emergency passes issued by Military.

It has been agreed with Headquarters 15 Army Group that if a responsible Allied Military authority has occasion to employ a civilian on a particular operational or intelligence task requiring the issue of a pass, and if it is impracticable, owing to the time factor or other circumstances, for the appropriate Allied Commission/Allied Military Government pass to be obtained, the military authority concerned may have out a temporary pass for the purpose. There will rarely be occasion for the issue of this type of authorization.

12. Issue of Travel Tickets.

Transport tickets must not be issued by the railway authorities or other travel agencies to places within the Army or Restricted Zone unless the persons applying for tickets are in possession of civilian movement passes to their intended destination. This will be a Ministry of Interior responsibility in Italian Government territory, and an Allied Military Government responsibility elsewhere.

13. Military Travel Authorization (to travel outside Italy).

Applications for Military Travel Authorizations will be dealt with in accordance with the instruction contained in Executive Memorandum No. 61.

14. Check Posts.(a) In Allied Military Government Territory.

In the Army Zone and in territory outside that Zone administered by Allied Military Government, every effort will be made to enforce the above restrictions by means of a widespread system of "man" check posts, which will be established for a few hours daily at irregular times and at varying points. The responsibility for arranging such checks will rest with the Military Security Authorities.

The object of these check posts will be :-

- (i) To turn back those seeking to move outside the prescribed limits without a pass.
- (ii) To take action against those who have committed serious and flagrant breaches of the regulations.
- (iii) To question or detain for investigation persons whose conduct or history is suspicious.

(b) Italian Government Territory.

In the Army Zone and in territory outside that Zone administered by Allied Military Government, every effort will be made to enforce the above restrictions by means of a widespread system of "ump" check posts, which will be established for a few hours daily at irregular times and at varying points. The responsibility for apprehending such checks will rest with the Military Security Authorities.

- (iii) To question or detain for investigation persons whose conduct or "attitude" is suspicious.

(b) Italian Government Territory.

In the territory administered by the Italian Government a similar system of "ump" check posts will be established. In this instance, however, the object will be limited to:

- (i) Briefly questioning those passing the point with a view to discovering suspicious individuals who should be subject to further interrogation and investigation, and

(12) Instilling a sense of insecurity in the minds of agents or other undesirable individuals so that they may hesitate to move about or even attend their mission.

(c) Organization and Composition.

This system of check posts will be organized by Army, Corps, District and Base Section Headquarters and not by Allied Military Government/Allied Commission, both in Military Government and Italian Government territories.

These check posts will normally be manned by appropriate combinations, according to circumstances, of Field Security and Counter Intelligence Corps personnel, Italian Army Intelligence (Security Police), Carabinieri and Guardia di Finanza.

Every effort will be made by Allied Commission officers to ensure the fullest co-operation of the Italian Police in connection with these duties.

Director, Land Forces Sub Commission (MIA)

1. With the abolition of the Political Section, the Italian Government has become responsible for conducting its own political relations with the United Nations as well as, of course, with the neutral powers which have never ceased to be represented diplomatically in Rome. This was not only the logical result of the disappearance of the machinery through which the Allied Commission acted in some degree as the mouthpiece of the Italian Government in its foreign relations but was also intended to be a further step forward in the establishment of normal conditions in the international sphere.

2. It presents few difficulties in the case of powers such as the United States and the Soviet Union which have already established full diplomatic relations, or the United Kingdom and France which are now in direct relations with the Italian Government. In the case, however, of countries of the United Nations which have no diplomatic relations with Italy and which have either only established Consulates-General, such as Belgium and Holland, or whose representation in Italy is limited to membership of the Advisory Council, such as Yugoslavia and Greece, the matter is not so simple.

3. While the intention is, so far as possible, to make the Italian Government on the one hand and the foreign powers concerned on the other hand stand on their own feet, there may be questions on which, owing to absence of diplomatic or direct relations or the lack of goodwill on the part of one of the parties, it is difficult to reach a settlement. In such cases it is suggested that the Allied Commission, as the agent of the powers which signed the Armistice on behalf of the United Nations, should not only keep itself informed of any negotiations which may present problems, but should also exercise its influence both on behalf of the foreign representatives concerned and on behalf of the Italian Government when difficulties arise between negotiators. Accordingly, Sub-Commissions should be prepared, as heretofore, to exercise their good offices in assisting diplomatic representatives of the United Nations Governments in their dealings with the Italian authorities, but only in the circumstances set forth above.

SUBJECT: Interviews with Italian Journalists

TO : Distribution 'A'

1. As various responsibilities are handed over to the Italian Government, the Italian press tends to get more and more information from Italian sources, and such information may not always coincide with the views of the Allied Commission. Unless the Allied Commission is willing to extend to Italian press correspondents as much patience, explanation, and information as they obtain from other sources, the Allied Commission is bound to be ignored or misrepresented by the Italian press. It is therefore felt that responsible AC officers should now make it a part of their business to interview Italian journalists when this is requested by PRG. Such interviews will no doubt occasion some misunderstandings and possibly misinterpretations, but these must be regarded as offset by the increased goodwill and understanding which should result from a better knowledge of AC subcommissions and their work by the Italian press. With a view to avoiding difficulties as far as possible, the following procedure is laid down.
2. Journalists will first approach the Public Relations Branch for permission to obtain an interview, and will submit to the PRG a list of the questions they propose to ask.
3. Subjects to be discussed will be carefully screened by the Public Relations Branch and will be kept within the strict purview of the relevant subcommission. In their interviews officers will be careful to confine themselves to factual statements as to what has been done and what is being done, but will not deal with future policy.
4. Articles written by journalists on the basis of the interviews granted will be submitted to the officer interviewed and to the PRG for review before publication.
5. Public Relations representative who will be regularly assigned to the task of arranging interviews of Italian journalists with subcommissions and of ensuring that the written articles are submitted for review in accordance with paragraph 4 above, will be Mrs. DOLETTA DEXILIA, Italian civilian. The location is Room 22, 3rd floor, tel. ext. 591.

SUBJECT: Italian State Employees in AMG Territory

TO: All Regional Commissioners and SCACs

4 From time to time, questions arise as to the correct status and rights of individual members of the Italian civil service at present employed in Military Government Territory, e.g. questions as to an individual official's correct rank or grade or correct rates of pay or allowances. At present, such questions have of necessity to be referred to the appropriate Italian Ministry for advice, as the Ministry is the only body in possession of the knowledge requisite for a decision. It has been decided that in future all such questions may be dealt with by direct correspondence between the appropriate Ministry and the dependent provincial State office.

2 This decision is subject to the following limitations:-

- a) It is limited to matters having application to an individual only: it does not authorize direct correspondence with the appropriate Ministry upon questions having a general application to a class or group of officials; it is limited to the ascertainment of the true facts and of the Italian administrative law and practice applicable thereto in an individual case: it does not authorize Italian Ministers in any way to alter the existing situation of the individual (e.g. to promote, demote or transfer him) without the consent of AG.

3 All such communications from the Prefect to the Ministry must, however, be sent through AG channels. The necessity for strictly observing these channels must be firmly impressed on the Prefect and measures taken to see that he adheres to them.

4 AGs/SCACs and POs will since on all such communications a stamp or other indication certifying the words "forwarded" or "seen" to indicate that the proper channels have been observed. AGs/SCACs and POs are not required to examine in detail the Prefect's proposals or to express any opinion on them, unless they have some special reason for doing so.

5 In AMG territory no instructions or directions of general application affecting a section or category of officials may be issued without prior consent of the Allied Commission. Hence the grant of any general increases in pay or allowances, or of any bonus or indemnity to a group or section of employees must be approved by the AG Allied Commission.

6 Where salary, wage or pension changes or general application have been authorized in Italian Government territory, other than by decree, and it is considered desirable that like treatment shall be applied to AMG territory, the proper Italian Ministry will furnish copies of the relative circular or instruction to the Allied Commission. If attention to AMG territory is approved the circular instructions will be sent through AG channels to Regional Commissioners and SCACs for delivery to the respective provincial State offices. By this arrangement Finance officers will know that the salary or pension changes are authorized in AMG territory, and the instructions will be delivered without postal delays.

7 These arrangements do not confer on the Italian Government any authority to change provincial State offices or to issue credit or direct payment orders to the

- b) All such communications from the Prefect to the Ministry must, however, be sent through AG channels. The necessity for strictly observing these channels must be firmly impressed on the Prefect and measures taken to see that he adheres to them.

AGS/93.02 and AGS will place on all such communications a stamp or other indication containing the words "forwarded" or "seen" to indicate that the proper channels have been observed. AGS/93.02 and AGS are not required to examine in detail the Prefect's proposals or to express any opinion on them, unless they have some special reason for doing so.

In AGS territory no instructions or directions of general application affecting a section or category of officials may be issued without prior consent of the Allied Commission. Hence the grant of any general increase in pay or allowances or of any bonus or indemnity to a group or section of employees must be approved by the AGS Allied Commission.

Where salary, wages or pension changes of general application have been authorized in Italian Government territory, other than by decree, and it is considered desirable that like treatment should be applied to AGS territory, the proper Italian authority will furnish copies of the relative circular or instructions to the AGS Allied Commission. If extension to AGS territory is approved the circular instructions will be sent through AGS channels to Regional Commissions and AGSAG for delivery to the respective provincial State offices. By this arrangement financial officers will know that the salary or pension changes are authorized in AGS territory, and the instructions will be delivered without postal delays.

These arrangements do not confer on the Italian Government any authority to transfer provincial State offices or to issue credit or direct payment orders in AGS territory; except as already provided for expenditures chargeable to the budgets of the Ministries of War, Marine and Air, the State Railways, the State Property and to capitolo 20% in the budget of the Ministry of the Treasury.

1. The first duty of Allied Commission liaison officers will be to keep themselves, at all times, informed of the situation in the areas with which they are concerned. This will involve the use of all available means of information, press, intelligence summaries, PWS reports, etc. They will inform HQ AC direct of any circumstances arising which may in their opinion adversely affect the Allied war effort or influence the general policy of the Commission. They will submit a monthly report to HQ which will include comment on the political situation.

2. Liaison officers will, by study of previous Regional monthly reports and other records, inform themselves of the present position of various Commission functions now being handed over to Italian agencies. They will specially watch those cases where previous difficulties have been encountered.

3. Liaison officers will keep close touch with the senior military formation, American and British in their areas. They will endeavour at all times to assist military formations in their relations with Italian Government departments and agencies. They must, however, remember that they are liaison officers and not executive officers and will not be able to carry out many of the functions of Provincial Commissioners.

Points which may require special attention are:

- a. Law cases affecting Allied personnel or property.
- b. Epidemics endangering Allied personnel.

1 Various AC/AMC organizations are employing as civilian assistants, teachers and professors whose services are at present not required by the Minister of Public Instruction but who are in receipt of pay from the Italian Government.

2 Questions have been raised as to the present status of such employees in relation to the preservation of their civil service and seniority rights within the Ministry of Public Instruction.

3 These employees are drawing pay from the Italian Government as well as from the Allies.

4 There are attached copies of Instructions issued by the Ministry of Public Instruction dated 15 Aug 1944, 25 Jan and 24 Jan 1945 which in brief sets out the present position of these employees with regard to pay and pension.

5 It is necessary, however, that details of individuals who are employed and paid by AC/AMC and at the same time drawing pay from the Italian Govt should be given to the Ministry of Public Instruction so that their status may be regularized. For this purpose two copies of the attached form will be completed and returned to Education Sub-Commission in respect of each such employee. It is requested that these forms be returned as soon as possible.

It is made clear that allowances paid by Allied Authorities to employees and teachers working for Allied Units, are gross. The above mentioned teachers and employees must not appear on the payroll of Italian Administration.

The "Direzioni Generali" will therefore see how deductions (rilasci) should be made for pension and similar, trying to avoid any damage to the persons concerned.

1. The Italian Government has passed the following (and other) legislation for the financial improvement of economic conditions of State and private employees:

- RDL No. 18/B of 6 Dec 43
- RDL No. 23/B of 7 Dec 43
- DLL No. 303 of 2 Nov 44
- DLL No. 307 of 9 Nov 44
- DLL No. 328 of 18 Nov 44.

2. These decrees provide for wage increases and allowances commencing at dates other than the effective date of commencement of operation of the law and in the case of the first two decrees for payments retrospective to 1 Nov 43.

3. In the provinces of FRIULI and RAVENNA, Provincial Orders have already been issued bringing the above five decrees into operation, but without retrospective effect.

4. It has been decided that in the remaining provinces of Northern Italy, these five decrees will either not be implemented at all or will be implemented without the full retrospective rate as stated hereafter.

5. RDL No. 18/B of 6 Dec 43 will be implemented in the Territory, but the increases and allowances granted by this decree will be retrospective only to the date of liberation of the provincial capital. The same principle applies to other financial decrees which are enumerated in para. 10 hereof.

6. The decision whether or not to implement RDL No. 23/B of 7 Dec 43, DLL No. 303 of 2 Nov 44, DLL No. 307 of 9 Nov 44 and DLL No. 328 of 18 Nov 44, will depend upon the economic conditions found in any particular locality after liberation. In accordance with the wishes of the Italian Government, it has been decided to exclude these decrees from immediate implementation. If, however, the provincial Commissioner of any province considers that the economic conditions of that province require the operation of all or any of these decrees he may recommend to this HQ (Labor Sub-Commission) that they be brought into effect and that payments thereunder be made from any date which he considers appropriate provided such date is not earlier than the liberation of the provincial capital.

1. The Italian Government has passed the following (and other) legislation for the financial improvement of economic conditions of State and private employees:

RUL No. 18/B of 6 Dec 43
RUL No. 23/B of 7 Dec 43
DIL No. 303 of 2 Nov 44
DIL No. 307 of 9 Nov 44
DIL No. 328 of 18 Nov 44.

2. These decrees provide for wage increases and allowances commencing at dates other than the effective date of commencement of operation of the law and in the case of the first two decrees for payments retrospective to 1 Nov 43.

3. In the provinces of FERRARA and RAVENNA, Provincial Orders have already been issued bringing the above five decrees into operation, but without retroactive effect.

4. It has been decided that in the remaining provinces of Northern Italy, these five decrees will either not be implemented at all or will be implemented without the full retrospective date as stated hereafter.

5. RUL No. 18/B of 6 Dec 43 will be implemented in the territory, but the increases and allowances granted by this decree will be retroactive only to the date of liberation of the provincial capital. The same principle applies to other financial decrees which are enumerated in para. 10 b hereof.

6. The decision whether or not to implement RUL No. 23/B of 7 Dec 43, DIL No. 303 of 2 Nov 44, DIL No. 307 of 9 Nov 44 and DIL No. 328 of 18 Nov 44, will depend upon the economic conditions found in any particular locality after liberation. In accordance with the wishes of the Italian Government, it has been decided to exclude these decrees from immediate implementation. If, however, the Provincial Commissioner of any province considers that the economic conditions of that province require the operation of all or any of these decrees he may recommend to this Hq (Labor Sub-Commission) that they be brought into effect and that payments thereunder be made from any date which he considers appropriate provided such date is not earlier than the liberation of the provincial capital.

7. In order to give effect to these decisions it has been necessary to devise a particular form of implementation order for publication in the Gazzetta Ufficiale. The purpose of this order is to prevent the automatic operation of the full retrospective effect of the decrees, which any simple implementation order would produce.

8. This implementation order involves the publication by the Provincial Commissioner of a Provincial Order notifying the effective date upon which payment shall start under RUL No. 18/B of 6 Dec 43 and under certain other decrees mentioned in para. 10 b hereof. This date will be the date of liberation of the provincial capital.

If the Provincial Commissioner requests and obtains permission to bring into operation all or some of the decrees mentioned in para. 6, he will have to

185/TNI

issue a further Provincial Order to this effect. The date of commencement of payments must be stated. This can be at the discretion of the Provincial Commissioner but must not be earlier than the date of liberation of the provincial capital.

9. It is pointed out that considerable difficulties are likely to be caused if an attempt is made to bring these decrees or any of them into operation in any province by means of a Special Provincial Order published before the official procedure for the implementation of Italian decrees has become operative in that province. It is strongly recommended that the implementation procedure be brought into operation in all areas at or before the time when it is desired to give effect to these decrees. If, however, it is considered essential to give effect to the decrees at a date when the general implementation procedure cannot be put into operation then application for leave to do so will be submitted to this HQ together with the proposed form of Provincial Order.

10. Attention is also drawn to certain other decrees of a financial nature which have been enacted by the Italian Government:

a. DLI No. 13 of 25 Jan 45 provided a thirteenth month payment for employees during the year 1944. It is intended that this payment should be granted in the provinces of FORLI and RAVENNA, but that in provinces to be occupied in the future the decree will be excluded from operation. This decree is, therefore, specifically excluded in the northern areas.

- b.
- RDL No. 12 of 13 Jan 44
 - RDL No. 103 of 23 Mar 44
 - RDL No. 113 of 13 Apr 44
 - RDL No. 121 of 23 Mar 44
 - RDL No. 122 of 5 Apr 44
 - RDL No. 131 of 9 May 44
 - RDL No. 156 of 2 Jun 44
 - DLI No. 276 of 20 Jul 44
 - DLI No. 301 of 19 Oct 44
 - DLI No. 351 of 19 Oct 44
 - DLI No. 360 of 19 Oct 44
 - DLI No. 386 of 2 Nov 44
 - DM of 28 Sept 44
 - DLI No. 400 of 4 Dec 44
 - DLI No. 424 of 5 Nov 44
 - DLI No. 434 of 22 Nov 44
 - DLI No. 28 of 4 Jan 45.

These decrees all create or increase pay or allowances to various classes of employees of the public administration, and all provide for payments with retrospective dates. These decrees will all be implemented in AMG territory, but the payments will date from the liberation of the provincial capital.

c. DLI No. 38 of 1 March 45 introduced an economic prize in place of a political prize for bread and paste. This decree will not be implemented in RAVENNA or FORLI or in any future territory.

11. The Italian Government is understood to be considering further legislation for salaries, wages and allowances. It is not, however, the present intention of the Government to publish a consolidated text of all legislation so that it will be necessary to refer to all the existing decrees to calculate the

1627

procedure cannot be put into operation then application for leave to do so will be submitted to this H. together with the proposed form of Provincial Order.

10. Attention is also drawn to certain other decrees of a financial nature which have been enacted by the Italian Government:

a. D.L. No. 13 of 25 Jan 45 provided a thirteenth month payment for employees during the year 1944. It is intended that this payment should be granted in the provinces of FORLI and RAVENNA, but that in provinces to be occupied in the future the decree will be excluded from operation. This decree is, therefore, specifically excluded in the northern areas.

These decrees all create or increase pay or allowances to various classes of employees of the public administration, and all provide for payments with retrospective dates. These decrees will all be implemented in AMG Territory, but the payments will date from the liberation of the provincial capital.

c. D.L. No. 38 of 1 March 45 introduced an economic price in place of a political price for bread and pasta. This decree will not be implemented in RAVENNA or FORLI or in any future territory.

11. The Italian Government is understood to be considering further legislation for salaries, wages and allowances. It is not, however, the present intention of the Government to publish a consolidated text of all legislation so that it will be necessary to refer to all the existing decrees to calculate the total salaries and allowances payable. This will apply in AMG Territory as much as in Italian Government Territory.

12. Attached hereto are copies of:

a. The implementation order to be published in Gazzetta Ufficiale to give effect to the decisions set out above;

b. Form of Provincial Order to be issued by Provincial Commissioners at the time when the procedure for the implementation of Italian decrees is

c. Form of Provincial Order to be used if this Hq on the recommendation of the SC40 or Regional Commissioner authorizes the implementation of RDL No. 25/B, DIL No. 303, DIL No. 307 and/or DIL No. 328. It is framed to implement all three decrees, but can of course be modified to implement one or two only.

13. This directive cancels directive 10/4039/5/L of 2 January 1945 concerning the implementation of DIL No. 328.
