UNCLASSIFIED:

Received from Commanding General 13 Corps , is urgent request for 6 months supply of penicillin for use in civilian hospitals in Venezia Giulia.This is L&C 1381. Such supplies if approved will be safeguarded by AMG who will authorize and account for all issues to civilian hospitals.

Previous supplies (which have been insufficient) for 104 for the 45 hospitals in the area were received through American War Relief and Italian Red Cross sources. Further amounts which were loaned from military stocks are now exhausted,and as present military stock positions preclude further issued bring made from them , subject hospitals are placed in a desperate situation with regard to this commodity. Estimated that of a population of 500000 persons in Venezia Giulia , 5 per cent require constant treatment with penicillin, the normal monthly consumption of which is 300 million units.

The request has been screened and recommended by medical services of AMG 13 Corps. Requested therefore is early approval and procurement of the above quantity of penicillin.

Consignment instructions and requisition number will follow immediately upon receipt of your approval.

Wheat for civil affairs subsistence - Venezia Giulia. This is LAC 1378 shortfall on arrival of wheat has reduced stock on hand to such a low level, that, in order to ensure the issue of bread ration at 200 grammes per day for as long as possible the May pasta ration has been withheld and further manufacturing of pasta prohibited.

Foregoing action is estimated to ensure bread ration as above until 20 June 46.

Para 2. However, since after arrival wheat still has to be milled and distributed, it is imperative ID political cepercussions and hardships are to be avioded and AMG is to maintain the bread ration after 20 June, that the next shipment of wheat is received by not later than 10 June.

Para 3. Due to the almost complete absence OD indegenous food supplies, the population of Venezia Giulia zone "A" already find themselves less fortunately served than TMEIC neighbours in Italy and Jugoslavia which zones are UNRRA responsibilities, and, the present enforced witholding of the pasta ration now denies them of the commodity which was primarily issued to offset their local deficiencies.

TO : (1) ACMAR FOR CCS FOR CLAC
(2) WARCOF (LONDON) FOR SLAC SECRETARIAT
(3) AFHQ FHGEC

4472

Ref.No. 3006 UNCLASSIFIED

This is MOC 560
Subject is : Sugar.

1. Reference MOC 550. It is now learned that sugar lying Brazil not Tangiers.

2. Italian Government states no reply yet received to above quoted MOC 550 nor any allocations been made by CFB on request made in overall Italian requirements MCL for second and third quarters 1946 as set forth in MOC Airgram 149.

3. Italian Government has solicited intervention ALCOM in this matter of sugar allocation as it is a matter of extreme urgency for Italian Economy, as defined MOC Airgram 149, that some arrivals should take place before end second quarter 1946 that is to say before end June, and unless sugar is got moving now, there is a real danger that much fruit, destined for conservation under above plan, will go to waste.

4. Therefore, absolutely essential that immediate approval be given for import of a quantity of sugar to permit some being available for second quarters industrial requirements.

217

Declassified E.O. 12356 Section 3.3/NND No. 785021

5. The amount suggested as immediate minimum allocation is ten thousand tons. In the meantime, bearing in mind the fact that it is now 6 weeks since MOC 149 was dispatched, the Italian Government has been advised to proceed to issue import license for 5000 tons requested for immediate assignment on the 18 April 1946. Such quantity to be regarded as part of the 2500 tons requested in MOG Airgram 149.

Ref.No. 2990 UNCLASSIFIED

This is MCC 559

Reference COM 425. Requirements of meat and fish for Italian Armed Forces for first three months of 1946 were met from loans and surplus allied stocks. 2214 tons needed for April May, June. April and May requirements have been loaned by Allied Armed Forces but must be repaid as no further surplus stocks are available. Requirement for second six months is 5,15 tons. This figure includes provision for increase of 10.000 men in Italian Army/Carabinieri figure.Strength of forces now as follows: Army/Carabinieri 215,000, Navy 58,000 Air Force 31,000 . Figure quoted of 3650 tons in COM 425 is incorrect. Sugar requirements were not given in MCC air - gram 149 as Italian Government were proposing to meet this demand from UNRRA imported stocks as they did not realise that this was not allowed under UNRRA charter. Requirements from October onwards will be met from local resources but 1,027 tons required for July, August, September.

This is COM 425.

1. On the basis of MCC 537 we have arranged for the Italian Technical Delegation here to submit requirements and receive allocation advices from the combined Committees after April 15

Before turning over to the delegation your Armed Force requirements for meat for presentation to CFB , clarification is needed. Since COM 379 stated we would not present meat and fish requirement for December 1945 to June,1946 unless advised to the contrary, and since we did not hear umill receipt of MOC 547 that presentation of requirement was dexired , it is impractical now to submit requirement to CFB for the December 1945- June 1946. Without unusually strong justification.Cable urgently and in absence of advice from you within 10 days we will assume that the canmedmeat for the Armed Forces fort the period June to December 1946 of 3650 tons presented in MOC 531 is total desired.

2. Moc 547 purporting to give strength of Armed Forces does not mention Carabinieri. Are they included in Army figure query if not , what is strength query.

3. Unable to understand why Moc Airgram 149 did not include any quantity of sugar. Advise if it is desired to present requirements to CRB.

4. We have received Mocs 547 through 553 and,in accordance with policy referred to in para 1, these cables are being transmitted to the Delegation for Subcommission

HEADQUARTERS ALLIED COMMISSION
APO 394
ECONOMIC SECTION

1 May 1946

Ref. 1.47/0

SUBJECT: Program for Essential Civil Import for 2nd half 1946.

TO : AMG XIII Corps

1. Attached are 20 copies of the preliminary program for the second half 1946. You will note that the Appendix I, Annexure 2 B - Industries and Requirements utilized thereby - is not included in these copies. Copies of these Annexures are in the hands of your Industry Branch.

2. The following comments and requests are made on this program:

a. Attached hereto is a list of those industrial requirements by serial numbers you have submitted to us, with the total requirements given, the amounts considered available in Italy and the balance necessary for import. It is requested that you commence procurement activity through your contact with Northern Italian organizations for those items deemed procurable in Italy.

b. The following additional comments on the industrial requirements are submitted :

(1) You will note that the program prepared for the 1st half by Industry and Utilities Sub Commission (our 414.7/I of 14 March 1946 refers) gives the asbestos requirement for Venezia Giulia on a normal pre-war consumption basis, as 541.4 tons. You have, however, stated the requirement as 654.4 tons. We have requested your figure on this item but suggest that it be checked.

(2) Serial 18 - Nickel salts - has been omitted in the total requirements. The nickel cathode requirement (Serial 17) has been raised to 2 tons. This additional amount should cover the nickel salts requirement by process and extraction from the nickel itself.

(3) Serial 28 (oil seeds) has been reduced from your requirement of 100,000 tons to 40,000. This has been done here on our conception that the normal pre-war consumption for chemical industries in Venezia Giulia was 40,000. This should be checked.

(4) Serial 29 - Ozokerite. Your requirement for chemical industries in Venezia Giulia was stated to be 30 tons.

0347

Declassified E.O. 12356 Section 3.3/NND No. 785021

As our information here is that the normal pre-war consumption for these industries were only 8 tons, we have reduced that figure accordingly.

4205

(5) Serial 45 and 46 - Caustic and Solvay soda - have been deleted as being procurable by your own local manufacture.

c. Appendix E of the preliminary program for the 2nd half lists the lubricating oil required by you for industrial use. We note that several items listed in LAC Airgram 139, as well as in the projected industrial program for the 1st half, have not been included in your requirement for this item as submitted to us. It is suggested that you review this matter.

d. Appendix F - Medical requirements. May we please have population served by these requirements as well as confirmation of the fact that requirements do not include Zone B population formely served in Venezia Giulia.

e. You will note that no textile and leather requirements for 2nd half have been included. These have been computed in view of the fact that requirements given in LAC Airgram 139 were computed to meet needs on a year basis although delivery of this requirement was recommended for arrival during the first six months. It is understood here, after discussion with a representative of your Commerce Branch, that you are revising your textile and leather requirement. Your cable 1518 of 18 April refers. May we be informed of these revisions when completed by you.

f. No transport requirements have been included in this requisition. This is based upon your information that those requirements submitted to us were not made under a disease and unrest basis. Your letter 127/AMG/TN 1v16 of 26 March refers. Our cable 2510 of 15 April to you requests full justifications on the matter of procuring tires of size 42x9, procurement of which is possible on a disease and unrest basis. It is understood here that you are preparing an answer to that cable which will give us the information needed to justify these demands to AFHQ.

VENEZIA GIULIA AND UDINE : PROGRAM OF ESSENTIAL CIVIL IMPORTS - JULY - DECEMBER 1946.

To : Allied Force Headquarters

Date : 22 April 1946

Period : July-December 1946

1. The attached program sets out those essential civilian imports necessary for the prevention of disease and unrest, and in the case of certain items noted, to effect various percentages of rehabilitation of essential industries, within the above areas.

2. The following are the Appendices to this Program and the requirements included therein:

Appendix "A" : AGRICULTURE

Appendix "B" : COAL
Annexure 1 : Supplementary Bid for Coking Coal and Metallurgical Coke

Appendix "C" : SIGNAL COMMUNICATIONS
Annexure 1 : Requirements

Appendix "D" : FOOD
Schedule "A" : Food Requirements for Venezia Giulia - July-December 1946
Schedule "B" : Food Requirements for Udine July-December 1946
Schedule "C" : Venezia Giulia/Udine Program of Essential Food Imports 6 Months Requirements
Schedule "D" : Venezia Giulia/Udine Program of Essential Food Imports monthly Requirements

Appendix "E" : P.O.L.

Appendix "F" : PUBLIC HEALTH
Annexure 1 - Requirements

Appendix "I" : INDUSTRY
Annexure I : Import Requirements

Declassified E.O. 12356 Section 3.3/NND No. 785021

Date : 22 April 1946

Period : July-December 1946

1. The attached program sets out those essential civilian imports necessary for the prevention of disease and unrest, and in the case of certain items noted, to effect various percentages of rehabilitation of essential industries, within the above areas.

2. The following are the Appendices to this Program and the requirements included therein:

Appendix "A" : AGRICULTURE

Appendix "B" : COAL
- Annexure 1 : Supplementary Bid for Coking Coal and Metallurgical Coke

Appendix "C" : SIGNAL COMMUNICATIONS
- Annexure 1 : Requirements

Appendix "D" : FOOD
- Schedule "A" : Food Requirements for Venezia Giulia - July-December 1946
- Schedule "B" : Food Requirements for Udine July-December 1946
- Schedule "C" : Venezia Giulia/Udine Program of Essential Food Imports 6 Months Requirements
- Schedule "D" : Venezia Giulia/Udine Program of Essential Food Imports monthly Requirements

Appendix "E" : P.O.L.

Appendix "F" : PUBLIC HEALTH
- Annexure 1 - Requirements

Appendix "I" : INDUSTRY
- Annexure I : Import Requirements
- Annexure 2 : Industries supplied by Program
  - A : Firms served and Employees thereof in Venezia Giulia
  - B : Industries and Requirements utilised thereby.

3. The program will be supplemented and completed as required and noted therein as soon as possible. It is submitted in its present form as a basis for advance procurement action on the requirements given. Necessary amendments or deletions thereof will be forwarded to you as soon as received, after clearance with the appropriate agencies.

217

Declassified E.O. 12356 Section 3.3/NND No. 785021

4. The program, as submitted, is based upon approval and procurement of requirements given for the 1st half of 1946. Cancellation or non arrivals of items listed therein would necessitate appropriate amendments and additions to the attached program for the 2nd half of the year.

5. It is recommended that the attached requirements be approved and be forwarded to Combined Chiefs of Staff for preliminary procurement action thereon.

VENEZIA GIULIA AND UDINE : PROGRAMME
OF ESSENTIAL CIVIL IMPORTS JULY - DEC. 1945

APPENDIX "A" : AGRICULTURE

4452

1. Requirement.

Fertilizer Superphosphate 300 metric tons

2. Justification.

(a) The Provinces of Venezia Giulia normally use approximately 5000 tons of superphosphate yearly of which approximately 900 tons are applied on wheat in the fall. Although considerable quantities of superphosphate will be made in Italy during the coming summer from raw rock phosphates imported from French North Africa, only a limited supply will be ready for use in October and November, because some weeks must elapse between its manufacture and the time it is ready to be applied on the soil.

(b) Therefore 300 tons of superphosphate (approximately 1/3 of the total requirements) are requested from abroad to insure that phosphate fertilizer will be available for those areas which are most lacking in natural fertility.

3. Rating: Four

4. Tonnage: 300 metric tons

5. Delivery: Ship to TRIESTE in one consignment, for delivery August consigned to AMG XIII Corps

Declassified E.O. 12356 Section 3.3/NND No. 783031

(VIII)	Total for 3 months	-	2.1	55.2	8.7	66
(IX)	Total for 6 months	-	4.2	110.1	8.7	123

2. Justification

(a) Railway requirements of locomotive coal have been included in the monthly demands put forward independently by the Director of Military Railway Services and are not included here.

(b) No requirement for coke is made as all needs can be met from production by Gasworks and Italian Cokeries.

Declassified E.O. 12356 Section 3.3/NND No. 782021

Period (c)	Area (b)	Locomotive (c)	Gas (d)	Steam (e)	Household (f)	TOTAL (g)
July-September						
(I)	Venezia Giulia	-	.7	12.3	-	13
(II)	Udine	-	-	6	-	6
(III)	Total monthly	-	.7	18.3	-	19
(IV)	Total for 3 months	-	2.1	54.9	-	57
October-December						
(V)	Venezia Giulia	-	.7	12.4	2.9	16
(VI)	Udine	-	-	6	-	6
(VII)	Total monthly	-	.7	18.4	2.9	22
(VIII)	Total for 3 months	-	2.1	55.2	8.7	66
(IX)	Total for 6 months	-	4.2	110.1	8.7	123

2. Justification

(a) Railway requirements of locomotive coal have been included in the monthly demands put forward indipendently by the Director of Military Railway Services and are not included here.

(b) No requirement for coke is made as all needs can be met from production by Gasworks and Italian Cokeries.

(c) The above figures are based on the "Desease and Unrest" formula.

(d) See Annexure 1 for supplemental bid.

Declassified E.O. 12356 Section 3.3/NND No. 785021

Declassified E.O. 12356 Section 3.3/NND No. 795031

Annexure 1 to Appendix "B" (2)

3. Justification.

(a) The above figures are based on the Rehabilitation of Industry ~~in~~ 1949 Venezia Giulia. See Appendix I giving full details and requirements for industrial programme 2nd half 1946.

(b) The 63,900 tons of coking coal is required for the ILVA Steel Plant at Trieste for a production of 40,000 tons of pig-iron, 10,000 tons of steel products and 70,000 cub/m of gas to the town of Trieste over the six month period.

(c) The 26,700 tons of metallurgical coke is required for foundries and forges in the various industrial plants in this Area.

VENEZIA GIULIA AND UDINE: PROGRAMME OF ESSENTIAL CIVIL IMPORTS
JULY - DECEMBER 1946

4447

SECTION "C" - SIGNAL COMMUNICATIONS

REQUIREMENTS

1. See Annexure 1 to this appendix. Requirements have been screened at this H.Q.
2. It is requested that requirements may be approved and items NOT found available from theatre stocks may be procured and shipped to this theatre.

JUSTIFICATION

1. VENEZIA GIULIA.

About 60% of the telephone exchanges and 50% of the telegraph offices are not yet working tothe networks. Even those that are working can be reached in many cases only by repeated switching or by omnibus circuits.

Pola and Gorizia have only very small switchboards giving a limited service.

Trieste cablingwas badly affected both by bombing and by re-routings of the Germans during their occupation, and requires immediate straightening out in places to provide necessary circuits.

2. UDINE.

Most of the telegraph offices and telephone exchanges have not yet been connected to the main network due to lack of materials. Many of the circuits that could be repaired were taken into Allied' use. There is urgent need therefore for a considerable amount of wire and other materials.

3. It is expected that it will be possible to obtain many of the necessary items from Italian sources (e.g. factories) and these have not been included in the lists of requirements from abroad.

CONSIGNMENT INSTRUCTIONS

1. Rating - Four

2. Delivery

(a) Supplies for VENEZIA GIULIA to be shipped to TRIESTE, consigned to AMG XIII Corps.
(b) Each consignment to be shipped in one lot and as soon as possible after approval.

Declassified E.O. 12356 Section 3.3/NND No. 785021

PART II - UDINE SIGNAL COMMUNICATION REQUIREMENTS:

TO FOLLOW

Declassified E.O. 12356 section 3.3/NND No. 785021

ANNEX "D" (1)

CIVIL FOOD IMPORT REQUIREMENTS FOR VENEZIA GIULIA AND UDINE.

JULY-DECEMBER 1946

COMMENTS AND JUSTIFICATIONS

1. Attached are the estimated civil food imports requirements for Venezia-Giulia and Udine for the six months period July - December 1946. Schedule C shows the total net requirements for the six months period and schedule D gives the net requirements by months. Schedule A and B show the gross requirements and the local availabilities that were used to arrive at net requirements. Five per cent has been added to requirements to allow a margin of safety and to offset inevitable losses.

2. The supplies should be shipped to arrive before the start of the months indicated in Schedule D as they are required for distribution in the months indicated.

3. Trieste is preferred as the port for both Venezia-Giulia and Udine. As Trieste is in 13 Corps territory better service is secured when supplies are consigned there. Although the silos at Trieste will probably not operate until the end of the year, bulk grain can be handled by the use of the hopper-baggers available in the port or by the process of bagging in the hold. However, bagged grain is again specified for Venezia-Giulia (see Schedule C andD) because bagged grain can be handled more easily and rapidly in the absence of silos.

Justification of Venezia-Giulia Requirements

4. Requirements were computed on the basis of 420,181 ration card holders in Zone A.

5. The ration scales now employed in Venezia-Giulia were used for our computations. For normal consumers the scales are as follows:

a. Trieste and Gorizia.

Bread	200	grams	per day
Pasta	2000	"	" month
Fats	180	"	" "
Sugar	200	"	" "
Milk Powdered(babies)	50	"	" day

b. Pola.

Bread	300	"	" "
Pasta	2500	"	" month
Fats			

Declassified E.O. 12356 Section 3.3/NND No. 785021

Venezia-Giulia and Udine for the six months period July - December 1946. Schedule C shows the total net requirements for the six months period and schedule D gives the net requirements by months. Schedule A and B show the gross requirements and the local availabilities that were used to arrive at net requirements. Five per cent has been added to requirements to allow a margin of safety and to offset inevitable losses.

2. The supplies should be shipped to arrive before the start of the months indicated in Schedule D as they are required for distribution in the months indicated.

3. Trieste is preferred as the port for both Venezia-Giulia and Udine. As Trieste is in 13 Corps territory better service is secured when supplies are consigned there. Although the silos at Trieste will probably not operate until the end of the year, bulk grain can be handled by the use of the hopper-baggers available in the port or by the process of bagging in the hold. However, bagged grain is again specified for Venezia-Giulia (see Schedule C andD) because bagged grain can be handled more easily and rapidly in the absence of silos.

Justification of Venezia-Giulia Requirements

4. Requirements were computed on the basis of 420,181 ration card holders in Zone A.

5. The ration scales now employed in Venezia-Giulia were used for our computations. For normal consumers the scales are as follows:

a. Trieste and Gorizia.

Bread	200	grams	per day
Pasta	2000	"	" month
Fats	180	"	" "
Sugar	200	"	" "
Milk Powdered(babies)	50	"	" day

b. Pola.

Bread	300	"	" "
Pasta	2500	"	" month
Fats	300	"	" "
Sugar	200	"	" "
Meat	100	"	" "
Dried Vegetables	2000	"	" "
Milk, Powdered(babies)	50	"	" day

6. A special ration scale at a higher level is recommended for Pola for the same reason that such a scale was adopted for January through June. Pola is isolated by Zone B and relatively little local produce arrives in its markets.

Declassified E.O. 12356 Section 3.3/NND No. 785021

APPENDIX "D" (continued) (2).

Thus the official rations form a much higher percentage of the total diet of the Pole population than of the population in the rest of Italy.

7. The existing ration scales were also used for supplementary rations and special classes. However, a supplementary of powdered eggs (amount varying with illness) is proposed for the sick at home and in hospitals.

8. It is proposed to import the entire wheat requirements for July '43 and August and to apply the ammassed grain to the needs of September through December. It is unlikely ammassed grain will be available in July and August.

9. Evaporated Milk is specified in place of powdered milk because of the aversion of the population to the latter. It is felt that it is more economical to supply the people with what they want and thus guarantee a more effective use of the supply. In the event that powdered milk must be substituted, the quantity should be cut in half.

10. Monthly quantities scheduled for importation January - June 1946 and recommended for July - December 1946 are shown below (refer to LAC 1333 dated 31 December for January - June schedule):

COMMODITY	JAN.-JUNE Metric Tons A	JULY-DECEMBER Metric Tons
Wheat	4300	4885
Fats	114	138
Soup, Dehydrated	15	49
Dried Vegetables	98	136
Meat, preserved	36	55
Dried eggs	-	22
Sugar	72	128
Milk, Evap	-	124
Milk, Powdered	67	-

11. The differences in the requirements of the two periods are attributable to the following :

a. Since requirements January - June were computed the ration for sugar has been increased.

b. The increases in the other items are largely attributable to increases in the number of people in special categories and eligible for supplementary rations. It is contemplated that far more persons will receive meals in communal messes, popular canteens etc. and it is important that the distribution of food by such means be encouraged. Such messes cater to the poor and their successful operation will do much to allay discontent. Far more school children also will receive meals at school than was visualised when the requirements January - June were computed.

Justification of Unino's Requirements.

Declassified E.O. 12356 Section 3.3/NND No. 785021

the aversion of the population to the latter. It is felt that it is more economical to supply the people with what they want and thus guarantee a more effective use of the supply. In the event that powdered milk must be substituted, the quantity should be cut in half.

10. Monthly quantities scheduled for importation January - June 1946 and recommended for July - December 1946 are shown below (refer to LAC 1333 dated 31 December for January - June schedule):

COMMODITY	JAN.-JUNE Metric Tons A	JULY-DECEMBER Metric Tons
Wheat	4300	4885
Fats	114	198
Soup, Dehydrated	15	43
Dried Vegetables	98	136
Meat, preserved	36	55
Dried eggs	-	22
Sugar	72	128
Milk, Evap	-	124
Milk, Powdered	67	-

11. The differences in the requirements of the two periods are attributable to the following :

a. Since requirements January - June were computed the ration for sugar has been increased.

b. The increases in the other items are largely attributable to increases in the number of people in special categories and eligible for supplementary rations. It is contemplated that far more persons will receive meals in communal messes, popular canteens etc. and it is important that the distribution of food by such means be encouraged. Such messes cater to the poor and their successful operation will do much to allay discontent. Far more school children also will receive meals at school than was visualised when the requirements January - June were computed.

Justification of Udine's Requirements.

12. Requirements were computed on the basis of the following normal ration card holders :

Pasta	643975
Fats	467965
Sugar	819890

13. The present ration scales were employed to compute requirements; i.e. those shown above for Trieste and Gorizia.

Declassified E.O. 12356 Section 3.3/NND No. 785021

APPENDIX "D" (continued) (3).

14. The estimated cereal ammassment upon which import requirements were computed was as follows:

Wheat	10,000	tons
Maize	15,000	"
Barley	1,000	"

15. One third of the estimated ammassment of maize and barley was deducted as a margin of safety because it is believed that the above figures will not materialise. Udine is a cattle growing area and farmers will attempt to use maize to feed their livestocks. In the harvest year 1945-46, for example, only about 5,000 tons of maize was ammassed. Failure to provide a margin of safety will imperil the program of civilian supply.

16. Maize and barley were converted to wheat equivalent at 76 and 42 percent respectively.

17. It was assumed that ammassed cereals would not be available until September. It is proposed that full requirements be imported for July and August and half of the total yearly ammassment be applied to reduce imports September - December.

18. Average monthly quantities scheduled for importation January - June 1946 and now recommended for July - December 1946 are shown below :

COMMODITY	JAN.-JUNE Metric Tons	JULY-DECEMBER Metric Tons
Wheat	5665	4264
Fats	180	110
Soup, Dehydrated	36	20
Dried Vegetables	82	42
Meat, preserved	57	25
Sugar	170	206
Milk, Powdered	144	-

19. The increase in sugar is attributable to the increase in the ration referred to above. The reduction in wheat and milk is due to local availabilities and the reduction in other foods largely to lower population estimates used in computing rations required for special classes and supplements. Except in the case of sugar the estimates for normal ration card holders likewise are lower for July - December than January - June.

Justification

The above POL requirements have been screened by Allied Commission Italy (POL) Division) and are based on a proportion of the pre-war consumption with a slight increase over that for the first 6 months of 1946.

Declassified E.O. 12356 Section 3.3/NND No. 785021

Appendix "F"

VENEZIA GIULIA AND UDINE: PROGRAMME OF ESSENTIAL CIVIL IMPORTS JULY-DEC. 1946 SECTION "F": PUBLIC HEALTH REQUIREMENTS

REQUIREMENTS.

1. Part 1 to this appendix constitutes a preliminary list of requirements of those medical supply items necessary for the prevention of disease in Venezia Giulia. If the items listed therein cannot be shipped by the break-down therein it is recommended that CAD Units should be substituted. 4436

2. These requirements are computed upon the basic medical needs of the civilian population of Venezia Giulia proper and do not include the population of the contiguous area under Yugoslav administration formerly supplied by Venezia Giulia. Requirements are based upon a reduced scale reflecting present approval and procurement of those items listed for the first half of the year. These requirements as originally presented by XIII Corps have been screened by this Headquarters against local availabilities and suitable substitutes therefore. Further enquiries on local availabilities are being made and the result thereof will be forwarded as soon as available. It is, however, suggested that the list contained in Annexure 1 be considered final for Venezia Giulia in view of the obvious necessity for early procurement of the materials listed therein.

3. A list of medical supply requirementts for Udine Province will follow.

CONSIGNMENT INSTRUCTIONS

Marking - Two

Delivery - Ship in one consignment to AMG XIII Corps, TRIESTE, as soon as possible after approval.

Declassified E.O. 12356 Section 3.3/NND No. 785001

APPENDIX "I"

PROGRAM OF ESSENTIAL CIVILIAN IMPORTS - JULY-DECEMBER 1946

INDUSTRIAL REQUIREMENTS

1. Annexure 1 attached hereto sets forth those essential raw materials presented to this Headquarters by 13th Corps and AMG Udine necessary to meet, by importation, the industrial requirements of those areas. Percentages of employment effected in Venezia Giulia by procurement of these requirements, through import and the local Italian sources, and the industrial inhabitants of that area effected thereby, are given below. It is recommended that procurement action be commenced as soon as possible for these items. This is necessary in view of the fact that the needs of the areas for those raw materials either non procurable or non existing in Italy has become urgent and in view of the fact that the industrial requirements for the 1st half have been met only through reduced allocations from Italy proper and shipments of those items requisitioned (mainly Coal and POL) of the first half of the year.

Comments and Justifications.

2. Appendix B gives the essential coal requirements for the two areas as well as a supplementary bid for coking coal and metallurgical coal which is deemed necessary for an average rehabilitation of 50% for industries in Venezia Giulia. The plan envisages in particular the reactivation of the ILVA Steel Works and the Solvey-Monfalcone plant of that area. Annexure 2A of Appendix I gives the break-down of the firms in Venezia Giulia served by the requirements and the number of the employees thereof. Annexure 2B 1 shows the use by industries of the given requirements.

3. The requirements as submitted to this Headquarters have been screened in conjunction with representatives of the Italian Government (Ministry of Industry and Commerce) and representatives of UNRRA. Those given in Annexure 1 represent requirements not procureble within Italy or procureble within Italy in only limited quantities. In the latter case proportionate reductions of the amounts submitted to this Headquarters have been made.

4. The following is an outline of the industries served and industrial inhabitants effected thereby:

a. Shipyards. Approximately 25 shipyards are located in or near Trieste. The number of the employees involved in pre-war years gave livelihood to approximate 75,000 people. Although considerable war damages have been suffered, 40% of pre-war production is deemed necessary to provide for these employees and their dependents.

b. Construction Industries. Approximately 275 construction firms, including two sizeable cement works at Gorizia and Pola, are distributed throughout the area. These firms normally employ approximately 5,000 workers and give livelihood to approximately 25,000 people.

c. Textiles and Clothing. Firms located near Trieste, Gorizia and Pola normally employ 19,000 workers and give livelihood to some 9,000 people. 50%

Declassified E.O. 12356 Sec. 3.3/NND No. 763021

procurement action be commenced as soon as possible for these items. This is necessary in view of the fact that the needs of the areas for those raw materials either non procurable or non existing in Italy has become urgent and in view of the fact that the industrial requirements for the 1st half have been met only through reduced allocations from Italy proper and shipments of those items requisitioned (mainly Coal and POL) of the first half of the year.

Comments and Justifications.

2. Appendix B gives the essential coal requirements for the two areas as well as a supplementary bid for coking coal and metallurgical coal which is deemed necessary for an average rehabilitation of 50% for industries in Venezia Giulia. The plan envisages in particular the reactivation of the ILVA Steel Works and the Solvey-Monfalcone plant of that area. Annexure 2A of Appendix I gives the break-down of the firms in Venezia Giulia served by the requirements and the number of the employees thereof. Annexure 2B 1 shows the use by industries of the given requirements.

3. The requirements as submitted to this Headquarters have been screened in conjunction with representatives of the Italian Government (Ministry of Industry and Commerce) and representatives of UNRRA. Those given in Annexure 1 represent requirements not procurable within Italy or procurable within Italy in only limited quantities. In the latter case proportionate reductions of the amounts submitted to this Headquarters have been made.

4. The following is an outline of the industries served and industrial inhabitants affected thereby:

a. Shipyards. Approximately 25 shipyards are located in or near Trieste. The number of the employees involved in pre-war years gave livelihood to approximate 75,000 people. Although considerable war damages have been suffered, 40% of pre-war production is deemed necessary to provide for these employees and their dependents.

b. Construction Industries. Approximately 275 construction firms, including two sizeable cement works at Gorizia and Pola, are distributed throughout the area. These firms normally employ approximately 5,000 workers and give livelihood to approximately 25,000 people.

c. Textiles and Clothing. Firms located near Trieste, Gorizia and Pola normally employ 19,000 workers and give livelihood to some 9,000 people. 50% of pre-war production is deemed necessary.

d. Food and Refrigeration. Over 73 food processing and refrigerating firms located near the Trieste area normally employ approximately 1350 persons and give livelihood to approximately 8,000 people. The program is aimed toward an approximate 50 per cent rehabilitation of this industry.

Declassified E.O. 12356 Section 3.3/NND No. 785021

e. Engineering and Metallurgical. Approximately 170 metallurgical, engineering, electrical, and railroad rolling stock repairing firms are located, mainly, in the Trieste and Gorizia areas. They normally employ approximately 8,000 workers, giving livelihood to some 40,000 inhabitants. The program is aimed toward an approximate 50 per cent rehabilitation of this industry.

f. Chemical and POL industries. Approximately 66 firms located mainly in and about Trieste and Gorizia normally employ approximately 2300 workers and give livelihood to approximately 14,000 people. The program is aimed toward an approximate 40 per cent rehabilitation of this industry.

g. Artisans. Around 9,500 artisans are registered and distributed throughout the whole area. These small shops normally employ approximately 20,000 workers and give livelihood to some 100,000 people. This program is aimed toward an approximate 45 per cent rehabilitation of this industry.

h) Utilities and Transportation. Approximately 103 concerns, of which the major ones are communally owned, normally employ approximately 3,560 workers and give livelihood to some 17,000 people.

5. Udine requirements have been screened, in conjunction with AMG Udine, UNRRA and the Italian Government, from lists furnished AMG Udine by the Associazione degli Industrieli of the Province. They represent the basic, non procurable requirements for 13 categories of industries located in Udine Province. These industries are of the same general categories as those listed by 13th Corps, excluding shipyards. Reduction in the requirements given, as necessary for import, in the case of those items in short supply in Italy proper, have been made. These reductions reflect the proportionate allocations deemed feasible ex Italian Government controlled sources.

Reference para 1 COM 422.

1. MOC airgram 149 deals with requirements of RCL items over and above UNRRA program. Therefore it is pre - sumed that allocations as and when made will be subject of licences to private traders by Ministry of Foreign Trade or handled by Governmental purchasing organisation. But the control to be exercised by Italian Government regarding the utilisation of allocations of RCL commodities is, owing to confusion in Ministry of Foreign Trade, not exactly known. It is not believed that any system of control has yet been set up.

2. US and UK Embassies have proposed in a letter sent to the Italian Government delivered with note verbale which informed it that AC would have terminated its fun - ctions on these matters that an informal working group be formed during transitional period.

3. Further steps being taken to ascertain from Ministry of Foreign Trade exact information arrangements being made.

Allocations of CFB.

Reference MOC 508 for 1000 tons of cocoa beans from FRANCE: MOCS 426 496 for 600 tons cocoa beans from SPAIN: MOC 527 stating total Italian requirements for cocoa beans to be 11000 tons, 4600 of which UNRRA to supply and 6400 tons (including the two above mentioned quantities) to be found by private trade: and MOC 415 for 5.4 tons paper for the Italian Interim Army and Carabinieri, the combined food board has made the following interim allocations recommendations, subject to the provisions that: (1) No shipping commitment is intended, and

(2) Prior to actual delivery of the indicated quantities, reallocations to meet more urgent needs may be requested:

Commodity	Source	Quantity (LONG TONS)	Period
Cocoa Beans	French West Africa	1000	Oct 1945-Sept 46
Cocoa Beans	Spanish Guinea	600	" " "
Cocoa Beans	Portugese Africa	200	" " "
Pepper	India	4.5.	" " "

With regard to the requirements of cocoa beans, owing to the severe overall shortage of supplies in relations to requirements, it has been found possible to recommend allocations covering only a small proportion of the stated requirements at this time. With regard to the allocation of pepper, the spices committee of the CFB has suggested that the best method of facilitating procurement would be for the Italian Embassy in London to make contact with MR. B.W. CORBAN of the Spices Branch, Ministry of Food, Portman Court, Portman Square, London W.1., England.

Civilian supplies for Venezia Giulia/Udine. This is LaC 1372 refer CaL 1521.

Following are comments and replies to queries raised by you in CaL 1521.

1. Veterinary Units : Veterinary Basic , surgical and laboratory units satisfactory in type and composition . after further screening against availability of Italian indegenous supplies , consider following quantities will now suffice : 10 each basic units ; 2 each surgical units ; 2 each laboratory units . Called forward under MEG 597 were : Vet Basic each 5 ; Vet surgical each 2 ; Vet laboratory each 2. Request therefore that following now be cancelled : Vet basic each 5 ; Vet surgical each 1 ; Vet laboratory each1; leaving balance of 5 vet basic units to call forward .

2. Biologicals ; quantities called forward under C-32747 of 22 March considered sufficient and balance of approved biologicals may be cancelled.

3. Hair padding : required in manifacture of suits is a tissue made of warped cotton with wool of horsehair in proportion of 25 hairs per 1 centimetre. There are no acceptable substitutes.

4. Leather for shoes :

... Requirements were computed on same basis as for rest of Italy Insofar as ...t amount of leather required per unit was concerned . Figures reflect leather needs required to cover consumption and repair of 1 pair shoes per Capita

Declassified E.O. 12356 Section 3.3/NND No. 785021

UNCLASSIFIED:

Civilian supplies for Venezia Giulia/Udine. This is LAC 1372 refer CmL 1521.

Following are comments and replies to queries raised by you in CmL 1521.

1. Veterinary Units : Veterinary Basic , surgical and laboratory units satisfactory in type and composition . after further screening against availability of Italian indegenous supplies , consider following quantities will now suffice : 10 each basic units ; 2 each surgical units ; 2 each laboratory units . Called forward under MEG 597 were : Vet Basic each 5 ; Vet surgical each 2 ; Vet laboratory each 2. Request therefore that following now be cancelled : Vet basic each 5 ; Vet surgical each 1 ; Vet laboratory each1; leaving balance of 5 vet basic units to call forward .

2. Biologicals ; quantities called forward under C-32747 of 22 March considered sufficient and balance of approved biologicals may be cancelled.

3. Hair padding : required in manifacture of suits is a tissue made of warped cotton with wool of horsehair in proportion of 25 hairs per 1 centimetre. There are no acceptable substitutes.

4. Leather for shoes :

A. Requirements were computed on same basis as for rest of Italy Insofar as unit amount of leather required per unit was concerned . Figures reflect leather needs required to cover consumption and repair of 1 pair shoes per Capita per annum .Shipment during first half was request do that immediate needs of Areas could be met .

B. Leather for lining can be cancelled if cotton cloth available.

C. Specifications of sole leather are: C/weight 12 to 30 lbs per tanned hide ; Thickness 2 to 5 millimetres in accordance with shoe specification under

Subject id rehabilitation for Venezia Giulia.

1. Current directives from CCS prohibit rehabilitation of industry in Venezia Giulia and limit all request for supplies to those for the prevention of "disease and unrest".

2. On Venezia Giulia wetern boundary italian industries are being rehabilitated through UNRRA programme and on the estern boundary Jugoslav industries are also rehabilitated through UNRRA programme. This has resulted in an industrial stagnation for Venezia Giulia and has reached such staggering heights that at present more than 50% of the industrial workers have been forced on the rolls of public works and unemployment. In spite of all efforts possible under the "disease and unrest" clause it has been impossible to keep industries operating. The continued stagnation of industries under the "disease and unrest" formula will definitely produce an acute situation in this territory during the coming months.

3. Present employment situation as follows registered workers Trieste area 57000. Unemployed 23000. Employed 34000. Of those employed 7000 are engaged by Units of 13 corps, 7000 on public works and 14000 in shipyards principally engaged in repair British ships under direction Ministry of War transport of 34000 employed 28000 are dependent or indirectly on British and American Governments and ther is virtually no other business. Information in this office indicates that 6000 to 8000 industrial workers now on rolls are in fact surplus and with the prospect of the Ministry of transport ceasing its activity in the very near future, the employment situation may be termid extremely grave. For the moment AMG is planning a large number of public

1. Current directives from CCS prohibit rehabilitation of industry in Venezia Giulia and limit all request for supplies to those for the prevention of "disease and unrest".

2. On Venezia Giulia western boundary Italian industries are being rehabilitated through UNRRA programme and on the eastern boundary Jugoslav industries are also rehabilitated through UNRRA programme. This has resulted in an industrial stagnation for Venezia Giulia and has reached such staggering heights that at present more than 50% of the industrial workers have been forced on the rolls of public works and unemployment. In spite of all efforts possible under the "disease and unrest" clause it has been impossible to keep industries operating. The continued stagnation of industries under the "disease and unrest" formula will definitely produce an acute situation in this territory during the coming months.

3. Present employment situation as follows registered workers Trieste area 57000. Unemployed 23000. Employed 34000. Of those employed 7000 are engaged by Units of 13 corps, 7000 on public works and 14000 in shipyards principally engaged in repair British ships under direction Ministry of War Transport of 34000 employed 28000 are dependent or

H/1636

4. In order to prevent the acute situation from developing and actually becoming a "disease and unrest" problem later to be copes with, I consider it essential that a rehabilitation programme be put in hand forthwith and I have ordered AMG Venezia Giulia to prepare one.
This programme will be submitted earliest possible for approval in detail meantime I should be grateful if approval in principale for this change of policy could be sought without delay all infm.

This is MOC 536.

Reference CLN T A M 743 Para 5, MOC 42[illegible], 456, 479, 492, 493, 496, 498, 507, 508, 515, 521, 523, 527.

Subject: Transmittal to C.F.B. and combined Committees of Italian Government program for RCL items for balance 1946 over and above UNRRA.

1. With MOC airgram 149 despatched today, AC is transmitting to CIAC for presentation to proper authorities Italian Government requests for allocation of RCL items to be procured by Italian Government with its own funds or through private trade.

2. It is important that the program be considered immediately because a large backlog of pending business is being held in abeyance by Italian Government authorities for lack of allocations to cover it.

3. Should the CFB and combined Committees be unable to consider the entire program as presented and to make recommendations for the amounts requested therein, interim allocations are urged so not to paralise the resumption of trade. Great efforts are being made in Italy to revive private trading and exchange of goods between Italy and other European countries as a preliminary step towards full resumption of world wide trade activities which alone will in the long run permit Italy recovery.

4. The most important allocations needed are those covering hides, tin, rubber, industrial sugar, molasses, food for Armed Forces. Also certain quotas of salted and canned fish as they are or will be included in commercial agreements with Norway, Denmark and other countries.

Note 2: 557 tons called forward ex UK.

Note 3: No further supplies advised shipped.

Note 4: 10861 tons of sups called fwd for April are not reflected in above figures.

3. Assuming an average monthly import of 15000 Lt, 2 conclusions are evident:

1. The food programme is 2 months in arrears.
3. The formation of a reserve is impossible.

217

Declassified E.O. 12356 Section 3.3/NND No. 785021

1. To date maintenance has been continued by loans from military stocks and from UNRRA stocks intended for italian territory not under AMG. Due to short supply UNRRA is increasingly reluctant to loan items and requires prompt repayment.
The item of wheat which is most frequently needed is not available from military stocks.
5. In order that we may be able to compete with the vagaries of actual shipment it is most desirable that the arrears be made up and the reserve established as soon as practicable.

1. FuFurther reference MOC 496 and COM 396 on canned fish from SPAIN. The DFB has further asvised regarding 3000 tons canned fish from SPAIN that there are presently available in SPAIN 500 tons of various types of canned fish which cannot be offered against British Governments contract with Spanish exporters because of unsuitable packing. CFB has no objection to purchase by ITALY of this consignment of assorted fish against its requirement of 3000 tons. The balance, 2500 tons, may be met in the from of canned tunny in accordance with contents of COM 396

2. Reference MOC 456 regarding 150 tons of canned fish from SPAIN specified in MOC 456. CFB has no objection to such purchase provi= ding it does not distur existing arrangments set up by board for procurement of canned sardines and pilchards in that country. (See COM 396.)

3. Reference MOC 429-50 tons tallow from ARGENTINA, MOC 442-100 tons tallow from BRAZIL, and MOC 456-100 tons tallow and 50 tons stearine from UNITED STATES. The CFB advises that it is unable at this time to grant an allocation for these quantities owing to the fats and oils supply position.

The balance, 2500 tons, may be met in the from of canned tunny in accordance with contents of COM 396

2. Reference MOC 456 regarding 150 tons of canned fish from SPAIN specified in MOC 456. CFB has no objection to such purchase provi= ding it does not distur existing arrangments set up by board for procurement of canned sardines and pilchards in that country. (See COM 396.)

3. Reference MOC 429-50 tons tallow from ARGENTINA, MOC 442-100 tons tallow from BRAZIL, and MOC 456-100 tons tallow and 50 tons stearine from UNITED STATES. The CFB advises that it is unable at this time to grant an allocation for these quantities owing to the fats and oils supply position.

M/C NOTE This is a corrected copy of COM 408. Previous cable M/ CENTRE reference is hereby cancelled.

31 August 1945

AC/5127/A/Commerce

My dear Mr. Prime Minister:

I thank you for your letter dated 1 August 1945, replying to my communication of 31 July, and am taking this opportunity of replying to the various points which you raise.

With regard to paragraph 2 of your letter, I agree that, in the existing circumstances, it is not necessary to prepare a special procedure to govern exports in the territory at present under Allied military control.

Further, I am in agreement with the suggestion made in your paragraph 3 that a list of items, of which an exportable surplus exists, should be prepared. Therefore, I suggest that your Government submit such a list to this Headquarters, so that it may be reviewed and, if possible, an overall clearance given.

While you will be the first to appreciate, my dear Prime Minister, the necessity for maintaining control over the movement of those commodities which are in world short supply, I have every hope and reason to believe that, with the final cessation of hostilities, the list of such commodities will gradually be reduced.

As regards your paragraph 4, the Combined Chiefs of Staff have advised us that the United States Proclaimed and British Statutory Lists should be adopted by your Government as a prerequisite to direct trade between Italy and those countries to which such lists have been applied.

I am gratified by the establishment of the new exchange control agency, the Ufficio Italiano dei Cambi, and I hope it will proceed to an effective control of Italian external assets as soon as possible.

As regards paragraph 5 (a), I may say that we are in full agreement concerning the effective functioning of the Italian customs service. As far as we are aware, the customs service is operating at all ports and on all frontiers, except at those ports or portions of ports which are being used for Allied military or naval traffic. On the initiative of the Allied authorities the customs services in Allied Military Government territory have been reestablished and are functioning under normal Italian laws

4329

0570

Declassified E.O. 12356 Section 3.3/NND No. 785021

and regulations. The customs organizations now functioning in Allied Military Government territory (except Venezia-Giulia) will revert to full Italian Government control when such territory is returned to your Government.

With reference to the question of transport raised in your paragraph 5 (b), a control has now been set up to deal with the very involved question of world transport facilities, in order that all nations may receive their fair share of the availability. This controlling body is known as the United Maritime Authority (U. M. A.).

All applications for shipping should be submitted by the appropriate Italian authority to the Shipping Employment Policy Committee, Berkley Square, London, with copy to United Maritime Authority Zone 3 Committee, Navy House, Naples. It is essential however, that all applications for shipping made on United Maritime Authority through Shipping Employment Policy Committee, London, should be coordinated by one Central Italian Organization.

I am very gratified to learn of the plans which are being prepared by your Government for the furtherance and control of Italy's foreign trade and I shall be very interested to see these when they are completed.

In my letter of 31 July, I presumed that the Italian Government authority which would be responsible for carrying on export activities would be your Istituto Nazionale per il Commercio Estero. Your letter to which I am now replying leads me to believe that perhaps this assumption was not entirely correct. In any case, I feel it my duty to draw your attention to the fact that the Istituto Commercio Estero has not been, in the past, as fully effective as might have been desired, due perhaps to the very heavy burden which was placed upon it. I am sure your Government will bear this in mind when considering its reorganization plans.

Rest assured, my dear Mr. Prime Minister, that my assistance or advice which the Allied Commission can render toward a happy solution of the foreign trade problems will be readily given.

Very truly yours,

/s/ Ellery W. Stone
