This is COM 425.

1. On the basis of MCC 537 we have arranged for the Italian Technical Delegation here to submit requirements and receive allocation advices from the combined Committees after April 15

   Before turning over to the delegation your Armed Force requirements for meat for presentation to CFB , clarification is needed. Since CCM 379 stated we would not present meat and fish requirement for December 1945 to June,1946 unless advised to the contrary, and since we did not hear umill receipt of MCC 547 that presentation of requirement was dexired , it is impractical now to submit requirement to CFB for the December 1945- June 1946. Without unusually strong justification.Cable urgently and in absence of advice from you within 10 days we will assume that the cannedmeat for the Armed Forces for the period June to December 1946 of 3650 tons presented in MCC 531 is total desired.

2. Mcc 547 purporting to give strength of Armed Forces does not mention Carabinieri. Are they included in Army figure query if not , what is strength query.

3. Unable to understand why Mcc Airgram 149 did not include any quantity of sugar. Advise if it is desired to present requirements to CFB.

4. We have received Mccs 547 through 553 and,in accordance with policy referred to [illegible] transmitted to the Delegation for Subcommission

1. On the basis of MCC 537 we have arranged for the Italian Technical Delegation here to submit requirements and receive allocation advices from the combined Committees after April 15

   Before turning over to the delegation your Armed Force requirements for meat for presentation to CFB , clarification is needed. Since COM 379 stated we would not present meat and fish requirement for December 1945 to June,1946 unless advised to the contrary, and since we did not hear umill receipt of MCC 547 that presentation of requirement was dexired , it is impractical now to submit requirement to CFB for the December 1945- June 1946. Without unusually strong justification.Cable urgently and in absence of advice from you within 10 days we will assume that the cannedmeat for the Armed Forces for the period June to December 1946 of 3650 tons presented in MCC 531 is total desired.

2. Mcc 547 purporting to give strength of Armed Forces does not mention Carabinieri. Are they included in Army figure query if not , what is strength query.

3. Unable to understand why Mcc Airgram 149 did not include any quantity of sugar. Advise if it is desired to present requirements to CRB.

4. We have received Mccs 547 through 553 and,in accordance with policy referred to in para 1, these cables are being transmitted to the Delegation for Subcommission to CFB or other appropriate action. Delegation will advise Italian Government direct concerning CFBS decision in each case echols.

1. MOC airgram 149 deals with requirements of RCL items over and above UNRRA program. Therefore it is pre - sumed that allocations as and when made will be subject of licences to private traders by Ministry of Foreign Trade or handled by Governmental purchasing organisation. But the control to be exercised by Italian Government regarding the utilisation of allocations of RCL commodities is, owing to confusion in Ministry of Foreign Trade, not exactly known. It is not believed that any system of control has yet been set up.

2. US and UK Embassies have proposed in a letter sent to the Italian Government delivered with note verbale which informed it that AC would have terminated its fun - ctions on these matters that an informal working group be formed during transitional period.

3. Further steps being taken to ascertain from Ministry of Foreign Trade exact information arrangements being made.

Subject is edible oils.

Reference MOC airgram 149 appendix A/6 para 1 a.
UNRRA has arranged to claim for allocation edible fats and oils to cover Italian ration distribution in December 1946.
Italian Government claim for 8257 tons of edible oils is consequently reduced by 4921 tons. Revised request for edible fats and oils is therefore 3336 tons.

With regard to the requirements of cocoa beans, owing to the severe overall shortage of supplies in relations to requirements, it has been found possible to recommend allocations covering only a small proportion of the stated requirements at this time. With regard to the allocation of pepper, the spices committee of the CFB has suggested that the best method of facilitating procurement would be for the Italian Embassy in London to make contact with MR. B.W. CORBAN of the Spices Branch, Ministry of Food, Portman Court, Portman Square, London W.1., England.

Commercial shipment . Following is precis of signal FBO 93 of 13 April :

1# Vessel Point Cloud Victory due in civilian section Leghorn. Port to load Correspondence for commercial shipment of . Marble now in port but unable load ship without assistance of military loan of floating crane. Only crane at Leghorn access to military needs is 175 ton crane which was declared surplus to USA and sold to Italy for shipment to Greece. Equipment highly valuable and Italians have no personnel capable of operating it. "

2. Considered here undesirable to get US Army involved in loans of equipment or service to assist Italian or American business interests. Request, therefore , you inform Italian authorities that US Army cannot assist in loading or unloading Commercial vessels , and that no shipments should be planned until it is verified that sufficient equipment is available in port to handle them.

3. Heavy loads such as marble blocks tie up rail cars when unable to be unloaded in ports.

SUBJECT:

ACTION: Request approval of proposed coal program for Italy.

1. Italian coal requirements for March are 500,000 tons.

2. Recent Italian coal imports have been 250,000 tons per month. Of this amount 200,000 tons are to be received from the United Kingdom and the balance from the United States. Shipments from the United States are scheduled at 100,000 tons per month for January, February and March. Shipments from the United Kingdom have been irregular and have averaged only 100,000 tons per month. Recent information indicates that shipments from the United Kingdom will be increased to 200,000 tons per month for January, February and March.

3. Italian coal stocks on hand are as follows:

Genoa	100,000 tons
Leghorn	50,000 tons
Naples	50,000 tons
Venice	50,000 tons
Trieste	50,000 tons
Total	300,000 tons

4. Italian railroads have been receiving 1,000 cars per day. Of this amount 600 cars per day have been allocated to the movement of coal. Recent information indicates that the number of cars allocated to the movement of coal will be increased to 800 per day.

5. Italian railroads have been receiving 1,000 cars per day. Of this amount 600 cars per day have been allocated to the movement of coal. Recent information indicates that the number of cars allocated to the movement of coal will be increased to 800 per day.

Subject id rehabilitation for Venezia Giulia.

1. Current directives from CCS prohibit rehabilitation of industry in Venezia Giulia and limit all request for supplies to those for the prevention of "disease and unrest".

2. On Venezia Giulia wetern boundary italian industries are being rehabilitated through UNRRA programme and on the estern boundary Jugoslav industries are also rehabilitated through UNRRA programme. This has resulted in an industrial stagnation for Venezia Giulia and has reached such staggering heights that at present more than 50% of the industrial workers have been forced on the rolls of public works and unemployment. In spite of all efforts possible under the "disease and unrest" clause it has been impossible to keep industries operating. The continued stagnation of industries under the "disease and unrest" formula will definitely produce an acute situation in this territory during the coming months.

1. Current directives from OCS promote reapplication of pressure on Venezia Giulia and limit all request for supplies to those for the prevention of "disease and unrest".

2. On Venezia Giulia western boundary itolian industries are being rehabilitated through UNRRA programme and on the eastern boundary Jugoslav industries are also rehabilitated through UNRRA programme. This has resulted in an industrial stagnation for Venezia Giulia and has reached such staggering heights that at present more than 50% of the industrial workers have been forced on the rolls of public works and unemployment. In spite of all efforts possible under the "disease and unrest" clause it has been impossible to keep industries operating. The continued stagnation of industries under the "disease and unrest" formula will definitely produce an acute situation in this territory during the coming months.

3. Present employment situation as follows registered workers Trieste area 57000. Unemployed 23000. Employed 34000. Information in this office indicates that 6000 to 6000 industrial workers now on rolls are in fact surplus and with the prospect of the Ministry of transport ceasing its activity in the very near future, the employment situation may be terminated extremely grave. For the moment AMG is planning a large number of public works, mostly of the spade and shovel type, to keep these people off the streets. Such measures are only palliatives at best and the unrest problem cannot be solved by such measures.

4. In order to prevent the acute situation from developing and actually becoming a "disease and unrest" problem later to be copes with, I consider it essential that a rehabilitation programme be put in hand forthwith and I have ordered AMG Venezia Giulia to prepare onw.
This programme will be submitted earliest possible for approval in detail meantime I should be grateful if approval in principale for this change of policy could be sought without delay all infm.

Note 2: 557 tons called forward ex UK.

Note 3: No further supplies advised shipped.

Note 4: 10861 tons of sups called fwd for April are not reflected in above figures.

3. Assuming an average monthly import of 15000 Lt, 2 conclusions are evident:

A. The food programme is 2 months in arrears.

B. The formation of a reserve is impossible.

327

Declassified E.O. 12356 Section 3.3/NND No. 785021

4. To date maintenance has been continued by loans from military stocks and from UNRRA stocks intended for italian territory not under AMG. Due to short supply UNRRA is increasingly reluctant to loan items and requires prompt repayment.
The item of wheat which is most frequently needed is not available from military stocks.
5. In order that we may be able to compute with the vagaries of actual shipment it is most desirable that the arrears be made up and the reserve established as soon as practicable.
