1. Attached is list of stores for movement by rail during the period 6 - 12 May 46, together with schedule of movement of 'A' & 'B' Vehicles. Due to the fact that there is now adequate line capacity to meet all commitments the Priority of Movements Programme will no longer be essential.

2. (a) In addition to the programme shown in the Schedule and Appendices a daily allocation of wagons is made, as under to provide for military port clearance and local movement of military traffic within the areas specified. In view of the special conditions obtaining in VENEZIA GIULIA, that area is excluded from the allocation.

(i)	Military Port Clearance	150 Wagons Daily
(ii)	Local Movement	200 Wagons Daily
		350

The allocation under (ii) is sub-allocated as follows :-

North West ITALY area	50 Wagons Daily
NAPLES & HEEL areas	150 Wagons Daily
	200

(b) MG Movements MILAN, NAPLES and HEEL Sub area are responsible that local movement is controlled in accordance with the allocation.

(c) Box cars are in short supply. Fulfilment of programmes is therefore dependent upon all users accepting high side open wagons, sheeted if necessary, except where security and condition of stores carried would suffer thereby.

3. ROUTING OF TRAFFIC.

(i) Traffic for GERMANY will be routed via BRENNER.

(ii) Traffic for AUSTRIA will be routed via UDINE except where otherwise notified to loading services.

4. EMBARGOES (i) All items are subject to current embargoes.

Minutes of MEDLOC Priority of Movements Conference No. 39 held on 8 Apr 45.

1. Attached at Appendix 'A' is schedule of personnel bids accepted for movement via MEDLOC routes B and C for period 22 - 28 Apr incl.

2. New Leave Regulations for XIII Corps and DTA.

A/MG(M) pointed out that CAO at CAO's Conference 3 Apr 45, had stated it was most undesirable that troops on leave ex XIII Corps and DTA travel over route B.

As route C was overbid and route B underbid during the period 22 - 28 Apr it was agreed to transfer XIII Corps Class A and Class B release personnel from route C to route B to accomodate leave personnel ex XIII Corps and DTA on route C.

3. Closing of MEDLOC Route 'B'

'Q' branch rep stated it was desirable that MEDLOC route B close on 5 May as part of the existing transit accommodation in MILAN would probably be required for other purposes early in May. A/MG(M) replied that the only item likely to delay the closing of the route was the provision of additional rolling stock for route C and undertook to press War office to give a reply on the subject.

CAO/246

MEMORANDUM FOR: Chief Commissioner, Allied Commission

SUBJECT : Transfer of Rolling Stock out of ITALY

1. Reference your 322/22/Tn.1 of 18 Jan 46.

2. I am surprised at the continuance of correspondence on this subject. In my letter CAO/246 of 3 Dec 45 I stated that a thorough investigation into the provision from other countries of rolling stock for MEDLOC and other military services had already been undertaken without success. I said, moreover, that the continued reduction in military requirements would enable Italian rolling stock to be progressively returned to civil use. There is nothing I can usefully add to these statements.

3. The provision of rail transportation facilities for Allied military purposes remains a duty of the Italian Government under the rights reserved to the Supreme Allied Commander. These rights will be maintained, though every effort has been, and will continue to be, made to minimise the effects of military requirements on Italian economy.

4. As regards the more general question of priority for military traffic, I would agree that this priority was no longer absolutely essential if I were satisfied that the Italian State Railways were in a position to guarantee a reasonable transit time for the movement of military traffic. I am not, however, satisfied of this and, in fact, I am convinced that, in the present low state of efficiency of Italian railway operation, unacceptable delays and losses to military traffic would result from the cancellation of the existing priority instructions. Therefore, under existing conditions in which I see little hope for a change in the immediate future, priority for Allied military traffic must continue in order that our military mission in ITALY can be carried out with the least possible delay and interruption.

5. It is relevant to note that the percentage of military traffic to total traffic has already declined from 70% to 30% since June last. The major part of such military traffic results directly from redeployment and the closing down of military installations, both of which operations are vital elements of our mission in ITALY. The speedy accomplishment of these tasks is no less important now than it has been in the past. The restriction of this traffic proposed in the draft directive attached to your letter, would only serve to postpone the reduction of military forces and the closing of military establishments in this country and would prolong for several months military demands on Italian transportation. I consider, therefore, that increased efficiency of railway operation and better control of the acceptance of civil traffic would be more effective in assisting Italian economy than minor reductions in, and further delay to, the rapidly decreasing military traffic requirements.

6. I regret my inability to agree to your proposals which I appreciate are designed to ease the difficult economic situation in

military requirements would enable Italian rolling stock to be progressively returned to civil use. There is nothing I can usefully add to these statements.

6. I regret my inability to agree to your proposals which I appreciate are designed to ease the difficult economic situation in this country. I am, however, satisfied that Italian civil interests will be best served by facilitating the fastest possible reduction of Allied military commitments in ITALY. Existing policy on matters of military rail transportation has this reduction as its principal object.

MINUTES OF MEDLOC PRIORITY OF MOVEMENTS CONFERENCE NO 34 HELD ON 4 MAR 46

1. Attached at Appendix 'A' is schedule of personnel bids accepted for movement via Medloc Routes "B" and "C" for the period 18 - 24 March 46 incl.

2. CAPACITY

Col Q(M) pointed out that the total number of personnel for movement in the period was sufficient to fill only two trains per day. He stated that it was not possible to reduce Route "B" to one train per day as no margin would then be left in the event of back-logs being created by train cancellations ; that further the April figures were slightly too high for this to be done. He proposed therefore that Route "B" be reduced to 9 trains a week w.e.f. 18 March and that Route "C" should continue as at present.

It was agreed that this proposal should be put to War Office for confirmation.

3. TRAIN CANCELLATIONS

Col Q(M) stated that owing to bad weather in the Channel, Medloc trains had been cancelled as follows :-

Route "B"

MILAN - CALAIS

3 Mar - 2 Trains

CALAIS - MILAN

2 Mar - 2 Trains

Route "C"

VILLACH - CALAIS

3 Mar 46 - 1 Train

CALAIS - VILLACH

2 Mar 46 - 1 Train.

4. PESCARA MEAL HALT

AQMG (M) stated that the meal halt at PESCARA was now providing meals for only two trains a week in each direction. He asked if this position warranted it remaining open. "A" and "Q" reps stated that they considered there was still justification for keeping the halt open.

5. FUTURE MEDLOC COMMITMENTS

Reference Medloc PCM Conference No 33 Minute 4. Approximate figures of personnel to be moved during Mar to Aug incl were discussed from which it was apparent that 2 trains a day would be required up to and including August 1946. Col Q(M) stated that as it would not be possible to justify the keeping open of Route "B" after May, the running of 2 trains per day on Route "C" would be necessary. In this

2. CAPACITY

Col Q(M) pointed out that the total number of personnel for movement in the period was sufficient to fill only two trains per day. He stated that it was not possible to reduce Route "B" to one train per day as no margin would then be left in the event of back-logs being created by train cancellations ; that further the April figures were slightly too high for this to be done. He proposed therefore that Route "B" be reduced to 9 trains a week w.e.f. 18 March and that Route "C" should continue as at present.

It was agreed that this proposal should be put to War Office for confirmation.

3. TRAIN CANCELLATIONS

Col Q(M) stated that owing to bad weather in the Channel, Medloc trains had been cancelled as follows :-

Route "B"	MILAN - CALAIS	Route "C"	VILLACH - CALAIS
	3 Mar - 2 Trains		3 Mar 46 - 1 Train
	CALAIS - MILAN		CALAIS - VILLACH
	2 Mar - 2 Trains		2 Mar 46 - 1 Train

4. PESCARA MEAL HALT

AQMG (M) stated that the meal halt at PESCARA was now providing meals for only two trains a week in each direction. He asked if this position warranted it remaining open. "I" and "Q" reps stated that they considered there was still justification for keeping the halt open.

5. FUTURE MEDLOC COMMITMENTS

Reference Medloc PCM Conference No 33 Minute 4. Approximate figures of personnel to be moved during Mar to Aug incl were discussed from which it was apparent that 2 trains a day would be required up to and including August 1946. Col Q(M) stated that as it would not be possible to justify the keeping open of Route "B" after May, the running of 2 trains per day on Route "C" would be necessary. In this connection, it was suggested that Route "B" should remain open as long as there were large numbers of troops in South ITALY. It was agreed that 15 May 46 should be the planning date. "Q" Branch agreed to advise DEA of additional transit accommodation required. It was proposed that holdings should be for a total of 7500, including accommodation for 750 RAF personnel and 100 Women's Services.
