Subject: Salvage Availability

To : See Distribution

1. We are advised by HQ Maritime Base Command, USA, APO 308, that the undermentioned items of salvage are available at "A" Dump, BRL.

(a) Item: PIPE, steel, API line, grooved for victaulic coupling
1/500" in OD, 9.31 lbs per foot (steel pipe with 4" diameter).

(b) Amount: 56.0 miles (estimated).

(c) Suggested use

for transport of water. The pipe would probably stand water pressure test of 175 lbs per square inch, but was not satisfactory to transport high octane gasoline at 500 pounds per square inch.

(d) Additional materials

Some victaulic couplings, rubber gaskets, and valves are available. Pipe can be welded for use when couplings and gaskets are not available.

2. All claims must be filed with this office by 10 July 1945, giving the following particulars:

(a) Name, address and telephone numbers of designated agents or buyers.

(b) Salvage material to be sold to designated agents or buyers.

(c) Method of transportation.

Transactions will be completed on a cash basis.

3.

SUBJECT : Salvage Material.

TO : Planning Staff Tn 2
Attn: Mr. Charles Ryan

1. Reference your 271/29/Tn 2 dated 18 June 45 in regard to release of 50 tons of mine to the I.S.R. from Base Depot, Torre Annunziata.
2. The Italian State Railways have just received the release through their Ministry of Industry and Commerce. The date of expiration is 15 July and they advise that they will not have time to collect the material.
3. They have been instructed to call Naples and have a representative there make contact with the Base Depot and inform them of the delay in the release and that they intend to collect as promptly as possible.
4. It is suggested that an extension be granted on this release No. WMD/711/539 dated 18th June.
5. Will you please arrange.

SUBJECT : Salvage Material

TO : Planning Staff Tn 2

1. Reference your 271/27/Tn 2 dated 14 June 1945 forwarding release note for 10 tons of groundsheets from Salvage Depot, Torre Annunziata.
2. The Chief of the Stores Service advises under date of 3 July that when the I.S.R. representatives went to the depot to collect the groundsheets they were found to be in a very bad condition, discolored, and unserviceable account of having been exposed to the inclemency of the weather, causing the material to become molded. The Chief of the Service therefore issued instructions to cancel the collection.
3. Attached are copies of report from the representatives of the I.S.R.
4. It is evident that salvage material, with the exception of metals, can be of little use to the I.S.R.
5. This for your information.

Quilley May. 08
for Chief
Rail Division

Incl. Letters referred to in para 3.

Transp. Sub-Commission (Rail Div.)
7 July 1945
Tel: 843191-11

TO : Chief of Stores Service

1. In accordance with the order received, yesterday I went to the Depot of Allied Command at Torre Annunziata, to withdraw 10 tons of used waterproof capes, for which an order issued from the 3/4 Command, was granted to I.S.A. at the price of lire 14,000 (fourteen thousand) a ton.

2. Before withdrawing the capes, I asked to examine them, with the assistance of the Chief Technic Cav. Eugenio Cozzolino, of the Test Office in Naples.

3. By the observations, as I have already informed you by phone, it resulted that the capes and overcoats are in worse conservation state, worn out, faded and with the stripes superimposed on the conjuncture in good deal detached.

4. I think that the above mentioned material was exposed, for a long time, to the inclemency of the weather, as it is at present. The warm and damp weather stiffened and molded the waterproof cloth and fixed some creases not easy to take out.

5. On the persuasion that such clothes could not be utilized, for the decisions concerning the refusal of buying, I chose 2 samples to submit to your observation and to the Chief of my Section. But they did not permit me to take away the samples, also asking the possibility of paying the amount for the two samples.

The Principal Inspector
Caronna

Naples 27 June 1945

We confirm, for what concern the technical examination, what the Principal Inspector Caronna has reported.

The Principal Chief Technic
Cozzolino Eugenio
