STATISTICS/ OIL MOVEMENT

REMARKS

Period: 10 - 16 September

- 1) No loading programmes available for the Compartimento of FLORENCE and REGGIO CALABRIA.
- 2) No XBs available from SICILY. (XBs of same Compartimento are missing for the fourth time)
- 3) 30% of bid numbers entered on XBs of NAPLES Compartimento are inexact.
- 4) 100% of bid numbers entered on XBs of BOLOGNA Compartimento are inexact. (The same thing has happened for previous periods).

RILIEVI

Periodo: 10 - 16 Settemb

- 1) Mancato arrivo del "Programma di carico" relativo ai Compartimenti di FIRENZE e di REGGIO CALABRIA.
- 2) Mancato arrivo di XBs dalla SICILIA. (4° periodo di mancanza).
- 3) All'incirca il 30% dei "Bid numbers" segnati sugli XBs del Compartimento di NAPOLI sono inesatti nei confronti del Programma di carico.
- 4) Il 100% dei "Bidnumbers" segnati sugli XBs del Compartimento di BOLOGNA sono inesatti nei confronti del programma di carico. (Tale rilievo è da valere per i periodi precedenti)

10 October 1945

10 Ottobre 1945

of view to Mr. Fandola

can be obtained only by referring back to the station of origin. As this course would involve lengthy correspondence, we are obliged to use our discretion in formulating final Statistics in such cases.

In any event, a considerable amount of time is spent by our staff in straightening out these errors _____ time which should be devoted to other work.

3. The more common difficulties with which we have to contend are :-
- (a) Incorrect Bid numbers being entered against the consignor's name.
 - (b) Confusion of rail-cars used for Port Clearance with those used for regular Bids.
 - (c) The number of rail-cars actually loaded, is omitted from the form XB.
 - (d) Tonnages loaded are often omitted.
 - (e) Indecipherable hand-writing.
 - (f) Blurred ink on poor-quality paper.

4. There is still quite a percentage of traffic "Unaccounted for", i.e. traffic for which XBs are not received at this Headquarters.

5. Will you please take up these points with Capi Compartimenti.

For the Director,

 (C.S. WYATT) Major R. A.
 Accountant

M E M O

- a) Attached please find Mr. Bottalini's Report on his Dept's activity up to date, from which it will be noted that if certain failings on the part of the organisations concerned could be eliminated the completion of the Rail Reports, could be speeded up further.
- b) Attached please find list of names showing time employes were first employed from Allied Offices other than the present one as well as the date of employment with the present Transportation S/C. The above concerns vacation, dates which are being granted by the A.C. in the proportion of one half day per month. Once exact vacation time due each employe will be established, vacation periods will be arranged so as not to interfere with regular office work.

R. BAROCCHI

REPORT ON " RAIL MOVEMENT "

STATISTICS WORK

GENERAL REMARKS

Since the month of March (date of starting of the work on Rail statistics) the number of signals - Forms "XB" - has been continually increasing. The figures shown on this Report, refer to the periods which run from the 16th to the 22nd of April and from the 25th June to the 1st July, which represent, respectively, the average figures for the first and second group of periods, starting 19th - 25th of March to date :

	XB's rec'd for period		April	No.	55
ROME	" " " "	16 - 22	April	No.	92
	" " " "	25 June - 1	July	No.	15
ANCONA	" " " "	16 - 22	April	No.	53
	" " " "	25 June - 1	July	No.	17
FLORENCE	" " " "	16 - 22	April	No.	37

NAPLES

Furthermore, mostly of the XB's are being filled up on both faces of the sheet, so that the number of " XBEX " pages have increased accordingly. The following figures will show the difference between the two periods a/m:

ANCONA	"	"	"	"	16 - 22	April	No.	2	pages
	"	"	"	"	25 June - 1	July	No.	9	"

COMPILATION OF XB's

The compilation of XB's, generally speaking, is still too much incorrect and in too many cases we have to use our own discretion in formulating the XBEX; this causes, a loss of time and an inexact statement on our reports.

Particularly, the following stations are repeating the same mistakes every single period:

ANCONA COMPARTIMENTO

Ancona Centrale

" On these signals, it is very difficult to determine to which bid number, the information regarding the movement, belongs. "

ROME COMPARTIMENTO

Civitavecchia

Civitavecchia has been issuing some XB's, regarding regular bid numbers, on whichn instead of showing the movements of the said bids, it has been only shown the following remarks:

" See Port Clearance XB's "

This causes an extra work, as the movement of the a/m bids has to be found among the Port Clearance Traffic, deduct it from the Port Clearance itself and then account it with the regular traffic. Of course, it is not always so easy to locate the movement in question, among the P.C. XB's, in view of the fact that no bid number is shown on such forms.

ROME COMPARTIMENTO

Civitavecchia

Civitavecchia has been issuing some XB's, regarding regular bid numbers, on which instead of showing the movements of the said bids, it has been only shown the following remarks:

" See Port Clearance XB's "

This causes an extra work, as the movement of the a/m bids has to be found among the Port Clearance Traffic, deduct it from the Port Clearance itself and then account it with the regular traffic. Of course, it is not always so easy to locate the movement in question, among the P.C. XB's, in view of the fact that no bid number is shown on such forms.

NAPLES COMPARTIMENTO

Naples Compartimento.

Castellammare

Inexact bid numbers are still being entered in XB's of

of the times very difficult to read. Some of the movements have no bid numbers and the commodity is not mentioned on the return.

Torre Maritima

400

These XB's are most of the times almost illegible.

REGGIO CALABRIA COMPARTIMENTO

Loading Programme

- 1) I.S.R. bid numbers are shown on L.P. without mentioning any tonnage of stuffs moved.
- 2) SE, PR, AL. bid numbers are shown on L.P. without mentioning number of wagons programmed.

XB's " UNACCOUNTED FOR "

The number of XB's "Unaccounted for" is increasing continually. The reason for this lies with the fact that some of the signals reach us after reports have already been prepared. Necessary action should be taken to speed up the arrival of these returns.

Nevertheless all the efforts have been and are being made to obtain the completion of final reports within the shortest time possible.
