SUBJECT i- 10 Day Truck Operation Reports

To i- Headquarters Truck Operating Group
(Att : Lt.Col. Nordman)

1. No 10 Day Truck Operation Reports have been received from 2 Truck Battalion or 221 , 222 I.T.Coys since these units went to service . It is requested that returns may be supplied as soon as possible since truck availability and tonnage hauled is required in this office for planning and statistical purposes .

2. If these units are unable to produce Forms 1 -4 complete the following information will suffice for each 10 day period :-

   (a) Total trucks held
   (b) Number trucks dead line
   (c) " " available for service
   (d) Truck days run
   (e) Tonnage hauled
   (f) Mileage run

   To avoid misunderstanding it is emphasised that parms (a),(b), and (c) should show the status as at the last day of the period and (d) ,(e),and (f) figures in total for the whole 10 days .

3. Returns are being received from 218 I.T.Coy but not from 1 Truck Battalion and 217, 219 and 220 I.T.Coys.

Declassified E.O. 12356 Section 3.3/NNI No. 785031

It is appreciated that the rendition of returns by units operating under 15 Army Group is somewhat difficult, but as 220 Coy is competing , it seems reasonable to suppose that the other units could do so also . It would be of assistance if you would communicate with the O's.C. concerned on the subject.

(Attention Regional Transportation Officer)

1. The 10 Day Truck Operations returns from your Region for 10 days including 10 April have received in this Office on 18 April. Punctual rendition is appreciated .

a) Separate returns from each branch of Forli Ufficio Autotrasporti are not required. One return for the whole province only is needed (vide para 3 (b) of AC/108 A/7/Tn.5)

b) Form 2 for revenue was not enclosed. Items 7 to 10 on Form 1 are required in tons and miles (not qli's and kms)

Form 2. If above is so, how can Item 7 be 122 tons for 10 days ? Are Item 7 and 8 tons and miles respectively ? Ton mileage figure is obviously wrong(vide para 3(c) of AG/108 A/7/Tn.5) .

2. It has been decided that sanction in triplicate involves excessive work in preparation of returns. One copy only of each return is required in future.

3. From returns already received it is clear that on two points requires clarification as follows-

(a) In the track miles returns (Form 1)
Reference para 3 of the Notes attached to SC/100/1/TT. M/C trucks are taken off the road for repair in ord or handling for parts or tyres. Trucks off the road for maintenance should be included in the "available" (serviceable) figure.
Lift available is the average capacity of "available" trucks.

(b) In the Truck Operations return (Form 2)
Items 1-6 should show the total truck days for the 10/11 days against each item. Item 7 is truck days available ; consequently in terms of each serviceable truck operated for the whole 10 days. Item 8 is required in tons to the nearest ton, decimals are not needed. Item 10 is a summation for the whole 10 days of ton miles run for each lift. Ton miles is tons hauled x miles run. To multiply total tons hauled in the 10 days by total miles run is incorrect.

(c) In daily return of Iorry Mod (Form 1)
All weights should be shown in pounds. Reference para 4 of the Notes, only eleven round into and out of the tarpan should be shown in separate imports and exports columns. The region to which exported and from which imported should be given. All commodities moved within the region should be given separately in internal section.

(d) In the Progress return of priority cross border traffic (Form 4)
Attention is drawn to para 2 of the Notes, Form 4 is required only from Uganda. The factor for grain converts to gross loads for lorry and to include tail wind and assumed speeds and from senior into officer, ratios for lorry movement.

3. The following points arise on the returns:-

(a) One copy only of each return is required in future.

(b) Reference para 4 of the Notes attached to the above Sub-Commission letter, a Truck Status Return (Form) is not required from each individual Company Pool. Figures should be summarised and 2 returns only rendered - one each for Pool' and Civil. Returns for Coy H.Q. Coy need not to be submitted as these are sent separately to [illegible] Group.

It is stressed that Para 3 should show only trucks of 3 tons and over and that lift of serviceable trucks available should be given in tons.

3. The following points arise on the returns:-

(a) one copy only of each return is required in future.

(b) Reference para 2 of the Notes attached to the a/c Sub-Commission letter, a Truck Status Return (FORM 1) is not required from each individual Command Pool. Figures should be summarised and 2 returns only rendered - one each for FOGGIA and RAVENNA. Returns for 10th U.S. Coy need not to be submitted as these are sent separately to H.Q. U.S. Group.

It is stressed that FORM 1 should show only trucks of 2 tons and over and that list of serviceable trucks available should be given in tons.

(c) Reference para 3 of the Notes one copy of FORM 2 only is required for the whole Region, not separate returns from each Pool. Figures should be summarised at the H.Q. Pool either at FOGGIA or RAVENNA.

Items 1 - 6 on FORM 2 were omitted for some reason. Items 4 and 5 may be omitted if information is not available.

Item 7 is the total ton capacity available for 10 days i.e. truck days available multiplied by capacity of each truck.

No decimal figures of tonnage hauled are required.

Ton mileage figures given were incorrect. Ton mileage is arrived at by multiplying tonnage hauled by mileage run for each separate trip and adding resulting figures for all trips operated to give the total for the 10 days.

STAT/A/Tn.1 21st June 1943

1 Scrutiny of returns shows that some organisations are getting lax in their methods of compiling returns and are ignoring our requirements in respect of detail.

2 (a) The C.I.A. of Lucca, in its return for the period 1-10 June, has not specified into which Regions exported supplies are consigned nor has it shown the Regions from which imports originate.

(b) The U.P.A. of Pistoia, in its return for the period 1-10 June, has merely quoted a total of tonnage moved; no breakdown as between commodities has been given.

(c) The Societa' Elettr.Sede di Potenza, in its return for the period 11-20 and 21-31 May gives no breakdown as between Imports, Exports and Internal.

3 Please may these points be brought to the attention of the organisations concerned and remedial action be taken for the future.

Subject : Decade statistics of movement of vehicles.

Considering the scarce availability of transportation means for civil supplies, the Transportation Sub-Commission, Allied Commission, has planned a system of decade statistics consisting in filling forms which are similar to all the concerned organizations, among which Tmsc, in order to have all the correct informations on the maintenance of vehicles, total quintals which have been transported and stuffs which have been carried.

The above mentioned system includes :

1). decade statistics of efficiency of vehicles;

2). decade statistics of operation;

3). decade analysis of stuffs which have been carried;

4). decade statistics of operation of planned transports.

The above mentioned statistics will be filled starting from the 1st of April and they will consider the periods 1-10, 11-20, 21-30/31 of each month, and they will be sent to this office in three copies, within the 12, 22, and 2 of the month.

It is requested that they should be sent with punctuality. Considering the enormous delay in the delivery of civil mail, we beg you to deliver the above mentioned statistics to the local Truck Pool which will transmitt them to this office.
