SUBJECT: Releases to Allied Commission

TO : All Services

1. It has been verbally reported to this section by Allied Commission, that, owing to the lack of vital information appearing on Release Notes, great difficulty is being experienced in collecting materials released to them by the various Services.

2. As the provision of transport presents a serious problem to the A.C., it is please requested that depots be asked to furnish the following information to A.C. when they notify them that the materials are ready for collection:

- (a) The location of the Depot(s) from which the release(s) is/are authorized.
- (b) The weight and cubic capacity of the materials being released from each depot.
- (c) Any other information which it is considered will assist A.C. in providing or bidding for the correct type of transport.
- (d) The name of the sidings to which trucks should be shunted, in the event that rail transport is to be provided.

SUBJECT: Category "B" Supplies.

3 May 1945

TO: Economic Section, Att: Colonel Walton.

1. Reference the attached signal, Flag "A", I have discussed this with Colonel Butterworth, G-5, AFHQ. He informs me that they are missing many of the "Com" series despite the agreement that they should be kept in the picture, particularly when reaching final stages in negotiations. He has agreed that he will bid on Allied Commission's behalf for shipping and port capacity, and I suggest that the signal attached, Flag "B", be sent to AFHQ immediately.

2. It is also suggested that a signal is sent to the originators of the "Com" signals in Washington that they be repeated to AFHQ. Altho AFHQ are not interested in the actual supply, they are vitally interested in the shipping allocation and port capacity required.

3. In view of the short space of time before these stores are available for loading, action should be taken urgently.
