ALLIED FORCE HEADQUARTERS

LAC Airgram 112, 20 March 1945

FROM : FHGEG (Concurred FHGDS, FHQAE, FHORD)(Agreed FHGDM)
TO : Combined Civil Affairs Committee,
3C-886 Pentagon Building,
Washington, D.C. (15 copies)

SUBJECT: Vehicle Maintenance Equipment

REQUISITION No. MGS-280-ORD RATING II

SHIP TO: DURO

CONSIGN TO: Transportation Sub-Commission, Allied Commission. The
Serial No. of each consignment to include the letters
TOG. Packages from US/Canada to be marked with stand-
ard approved marking of green dots on crossed white
tape. Packages from U.K. to be marked CA in red.

DELIVERY : May 1945

It is requested that the items at Appendix A be ap-
proved, allocated and procurement initiated, and that AFHQ cite
FHGEG be advised of action taken.

BASIS: 1. This requisition represents equipment necessary to
enable the Italian Government (under AC supervision) to become self-
sufficient in motor vehicle maintenance and spare parts supply
operations. This equipment will be utilized in augmenting existing
civilian maintenance facilities and will meet all present needs.

2. Detailed analysis indicates that in order to accom-
plish this mission, it will be necessary to establish the following
maintenance and supply installations by supplementing existing
civilian workshops:

- 1 each Fifth Echelon Maintenance Shop
- 1 each Fourth Echelon Maintenance Shop
- 4 each Third Echelon Maintenance Shop
- 1 each Spare Parts Depot

3. In addition to these establishments, regional and
provincial garages will require certain additional tools and equip-
ment.

It is requested that the items at Appendix A be approved, allocated and procurement initiated, and that AFHQ cite PHQEC be advised of action taken.

BASIS: 1. This requisition represents equipment necessary to enable the Italian Government (under AC supervision) to become self-sufficient in motor vehicle maintenance and spare parts supply operations. This equipment will be utilized in augmenting existing civilian maintenance facilities and will meet all present needs.

2. Detailed analysis indicates that in order to accomplish this mission, it will be necessary to establish the following maintenance and supply installations by supplementing existing civilian workshops:

- 1 each Fifth Echelon Maintenance Shop
- 1 each Fourth Echelon Maintenance Shop
- 4 each Third Echelon Maintenance Shop
- 1 each Spare Parts Depot

3. In addition to these establishments, regional and provincial garages will require certain additional tools and equipment.

4. The above mentioned facilities will provide higher echelon maintenance for approximately 6,000 vehicles. This quantity represents T/E-W/E vehicles, requisitioned civilian transport and 3,560 commercial trucks now being made available from sources within the United States.

5. The greater portion of the commercial trucks will be organized, for purposes of control, into 24 US and 6 British Army type truck companies. First and second echelon tool requirements for these truck companies are also included in this requisition.

6. Reference Trucks, wreckers, 4 ton, these vehicles, due to nature and extent of operations, are highly essential. The only item available from theatre stocks is 30 each tool sets, Second Echelon, No. 7.
