Olive Oil control program now extends to four provinces - CHIETI, PESCARA, TERAMO and MACERATA. Official visit to ANCONA in connection with campaign reveals that Italian Officials there ignored amassing and released whatever oil was brought in to civilians upon their own standards of priority. Reports from CHIETI and PESCARA, first two provinces to get campaign in operation show that road blocks are useful only in preventing large scale removals; one road block on PESCARA-POZZOLI road collected only 7 quintals in 8 months of operation. Allied vehicles often refused to stop and in one case fired machine gun at Carabinieri without injury. The 15-Kilogram retentions are disapproved and "work" reductions seem inequitable, but no regular opposition has been indicated to the Olive Oil officers are having usual transport troubles. Each commune is being visited and the Sindaco and Parish Priest asked to urge greater efforts in amassing. In CHIETI province some communes have more than 90 % of land in Olive trees, but large members of tree have been destroyed by shell fire, etc. To date 833 tons of grain have been moved by 1002 G.T.Coy. to AQUILA, PESCARA, and CHIETI provinces -- 689 from ASCOLI, 700 from MACERATA and 994 from TERAMO. Two platoons of 1000 G.T. Company arrived during week and are located in MACERATA, one platoon of 1000 G.T. Company previously located in MACERATA has moved to ASCOLI-PICENO. Trucks hauling grain to south now distributed as follows: 60 at ASCOLI, 60 at TERAMO and 60 at MACERATA. Program of shipment of grain by rail from ORTONA commenced today with 100 tons of grain scheduled to go this week from TERAMO to

2. Actual shipments were 1750.

3. The failure to meet the allocation was due to:

- a. Icey roads
- b. Refusal of R.T.C. at Jesi to permit movement

of unsealed wagons. This difficulty has been overcome.

4. It is requested that the indent for sealing wire be expedited.

1. Attached hereto is a report showing grain movements during the period 18-24 Dec. The paper railwagon allocation was 2450 tons for the week, but later we were advised that an additional 350 tons allocated for seed grain movements was at our disposal.

2. Actual shipments during the week was 2610 tons an amount which cannot be regarded as representing normal performance since 500 tons of the total came from an accumulation at the railhead magazines collected during the week of 27 Nov.-3 Dec. when the bridges were down. Normal performance is 250-300 tons.
