SUBJECT: Cement

21 June 1945

TO : Colonel M.J. Sieff,
Chief, Movements Division

1. Lt.Col. Glensinning, Director, Industry Sub-Commission, has located six to eight thousand tons of cement at the Turino Cement Company at Spoleto.

2. Inasmuch as this cement is in bulk and no bags are available, Rail Division, Transportation Sub-Commission, advised that they could not take the cement.

3. Lt.Col. Glensinning located bags for 2,000 tons of cement at Leghorn, property of Industry Sub-Commission, Allied Commission, and advised Major Street, Rail Division, that these bags were available, and if Transportation Sub-Commission could arrange for the transport of these bags to Turino Cement Company, the 2,000 tons of cement would be made available immediately.

4. After being advised by Rail Division that they were not interested in moving bags from Leghorn to Spoleto, Lt.Col. Glensinning called me on the telephone.

5. Inasmuch as the Construction Branch of the Rail Division has made strong representation with the procurement of cement, necessary action should be taken at once to transport the bags for 2,000 tons of cement from Leghorn to Spoleto and receive delivery of the bags of cement at Spoleto.

Herbert H. Taylor
