Prot. No. 1488

SUBJECT : Transportation of wine by lorries.

The A.C. Tn. S/C has ceased exercising control on road transportation and has therefore considered its memoranda No. 344, dated respectively 26th June and 20th August 1945, out of date.

In consequence thereof the circular No. 12867 dated 11th January issued by this Ministry is to be considered abrogated, the present laying down instructions regulating said transportation from now on.

Said dispositions refer to the transportation of wine, liquors, and in general all grape products including cider and grape juice, as also alcohol and derivatives of any sort and they are valid throughout all the national territory excluding Venezia Giulia.

On the other hand they aim to facilitate especially the working classes for which wine is a complementary nourishment in their alimentation, as also the wine industry which has derived considerable damage from the restrictive disciplines, and on the other hand they aim to set up said transportation subordinating it to the availability for essential transportation.

In consequence I dispose the following :

1. For the provinces coming under the jurisdiction of the Compartmental Inspectorates of Genova, Turin, Milan, Brescia, Verona, Bolzano and Bologna the Directors of the Uffici Autotrasporti are authorized to give their approval to requests and to issue relative travelling documents within the jurisdiction of the a.m. territory for transports of wine and alcoholic liquids in general, always in subordination to the availability of fuel.

In order to effect said transports between localities of the a.m. territory and places situated in Central and Southern Italy, the requests must be made through the Uffici Autotrasporti to the Competent Sovrintendenti Compartmentali. The latter will approve of those transports functioning on gaso-geno (charcoal gas) without any limitations, of those functioning on methane or diesel oil only if the voyage is made with a load of commodities of prime necessity (which must be confirmed by a declaration of the Prefect of the province of departure) always in subordination to the availability of fuel and providing the capacity of the vehicle is not under 5 tons.

./.

./.

2. For the provinces under the jurisdiction of the Ispettorati Compartmentali della Motorizzazione of Florence, Ancona and Rome the Directors of the Uffici Autotrasporti or of the Direzione Provinciali of the E.N.A.C. are authorized to give their approval to the requests and to issue relative travelling documents for transportation within the a.m. territory of wine and alcoholic liquids in general, always subordinated to the availability of fuel.

In order to effect transportation between localities in the a.m. territory, localities in Northern and Southern Italy the requests must be made through the Uffici Autotrasporti or the Direzione Provinciali of the E.N.A.C. respectively to the competent Sovrintendente Compartmentale or to the Direttore Compartmentale of the E.N.A.C. - the latter will approve of the requests for vehicles functioning on gasogens (charcoal gas) without any limitation, and for those functioning on petrol or diesel oil only if the voyage or backloading is made with a load of commodities of prime necessity (which must be confirmed by a statement from the Prefect of the province of departure) always subordinated to the availability of fuel and providing the capacity of the vehicles is not under 5 tons.

3. For the provinces under the jurisdiction of the Ispettori Compartmentali della Motorizzazione di Napoli, Bari and Catania the rules as per No. 2 must be followed.

Please refer to our letter to the Alto Commissariato dell'Alimentazione (copy to you) reference 51-2/FA dated 11th January stating that it was not advisable to permit back-loading of wine on lorries transporting rice from Northern Italy to Apulia. Moreover we pointed out that rice should be moved from the North to Apulia not by road but by rail.

2. We are enclosing a copy of the reply received from the Alto Commissariato reference ANR/V/533 dated 26th January. Rome 28 Jan. 46

Following the extension to the Provinces of North Italy, of the instructions restricting the transport of wine issued by the "Ispettorato Generale della Motorizzazione Civile" with Circular N.12867 of 11 Jan. 1946, the Associazione fra Industriali e Commercianti of the Province of Brescia, and the Firm Aldo Dotti-Autotrasporti of Bologna, have made present the particular situation in which the provinces of the North have come to find themselves for the supply of wine coming from the South as a result of the application of the a/m instructions and because of land and sea transport difficulties.

In view of the above, I would appreciate to be informed if, (firm standing the a/m instructions), it is possible to make some exceptions for special cases each to be individually examined, for the movement by motor transport of wine from southern to northern provinces.

If so in acceptance of the requests made by the "Associazione fra Industriali e Commercianti" of the Province of Brescia, and by the Firm Aldo Dotti, and in consideration of the situation in the Provinces of Bologna and Brescia, if it is possible to grant permits for said Provinces.

In seguito all'estensione alle provincie del Nord delle vigenti disposizioni restrittive in materia di trasporto di vino con automezzi emanate dall'Ispettorato Generale della Motorizzazione Civile e T.C. con circolare n. 12867 dell'11 gennaio c.a., è stata fatta presente, da parte dell'Associazione fra Industriali e Commercianti della Provincia di Brescia e dalla Ditta Aldo DOTTI -Autotrasporti di Bologna, la situazione di particolare disagio in cui sono venute a trovarsi, in conseguenza dell'applicazione delle norme stesse e delle difficoltà di trasporto per ferrovia e via mare, le provincie in parola per quanto riguarda il rifornimento dei vini meridionali.

Ciò premesso, gradirei conoscere se, pur ferme restando le norme di cui sopra è cenno, sia possibile in casi eccezionali, da esaminare volta per volta, concedere deroghe per il trasporto dei vini con automezzi dalle provincie meridionali a quelle dell'Italia settentrionale e, in caso affermativo se, in accoglimento delle richieste avanzate dall'Associazione fra Industriali e i Commercianti di vini di Brescia e dalla Ditta Aldo Dotti ed a sollievo della situazione determinatasi nelle provincie di Bologna e di Brescia, possa per il momento autorizzarsi qualche trasporto fra le provincie stesse.

SUBJECT : Transportation of wine by Road

TO : Food & Agriculture Sub-Commission

1. Reference your 51-2/FA dated 31 Dec '45 enclosing translated copy of letter from Ministry of Alimentation.
2. Before making the concession referred to in your letter this HQ made it perfectly clear this action, which is only operative until the 15th Jan '46, would in no way serve as a precedent for future similar requests.
3. To permit all lorries returning empty from Apulia to the North would be tantamount to removing all restrictions, the results of which would be catastrophic to concerns depending upon Road Transport for collecting harvests, Railhead and Docks clearance etc.
4. It will be appreciated that owing to the acute shortage of P.O.L., Spare Parts etc., the rational use of M.F. is essential to implement the re-habilitation programme, and until such time as the transport of the prime necessities of the nation are adequately catered for, it is not the policy of this HQ to relax the restrictions already in force.
5. It is appreciated there may be some occasion on which a relaxation of the restrictions is reasonable and practicable in which case applications will be given consideration. The particular instance in question is a very good example but you will agree it is rarely not possible for Railway wagons to meet essential commitments.

SUBJECT : Authorization to transport wine by lorries.

1. In a letter dated 18th December, the transportation S/C authorized (M/L/1756/37250) the ENAC to transport wine from some southern provinces to Naples and Salerno by lorry, in order to utilize the return trips of lorries transporting wheat from the ports of Castellammare and Salerno to the a.m. provinces.

2. After our telephone conversation with that Sub-Commission (Dott. Rogers), this Amministrazione has given its approval.

3. Again the preoccupation arises whether the wine exporting provinces will object to this special authorization. Therefore we hereby request the same authorization for wine transportation to be extended to all lorries on return trip from all Apulia provinces.

4. Request for said authorization was previously made by this Amministrazione in letter No. ANR/V/6230 dated 12th instant.

2. Owing to the acute shortage of P.O.L. it is not the policy of this Sub-Commission to encourage the haulage of goods by road over long distances. In point of fact, at the present time, there are few loads having to move from the Northern Provinces to the south that cannot be undertaken by rail.
A great proportion of the vehicles arriving in Fuglie do so with the prospect of a return load of wine. If the movement of wine was made free it would require little stretch of the imagination to visualize the result.
3. Attention is drawn to circular no. 156 dated 30 Nov '45 issued by the Minister of Food, relating to the assignment of Tank Car for transport of wine. This should be a further factor towards the solution of the problem in question.

SUBJECT :- Haulage of grain on the outgoing and wine on the incoming trip .

Our Compartmental Directorate in NAPLES has started a few days ago to haul considerable quantities of imported grain from the Ports of CASTELLANARE and SALERNO to some of the Southern Provinces .

The haulages are effected by trucks and trailers which return empty to SALERNO and NAPLES, owing to the peculiar conditions of the Southern Provinces, which especially in the present season have no other merchandise besides wine to be exported .

Accordingly our Compartmental Directorate has asked to be authorized to utilize return trips with backloads of wine, also for the purpose of not charging transport expenses for empty return trips on the price of grain .

With reference to verbal agreement with your S/C we kindly request you to grant the authorization required, in view of the fact that grain haulages are being carried out according to the following program :

Oggetto: Trasporto di grano in andata e di vino al ritorno.

La ns. Direzione Compartmentale di Napoli ha iniziato da qualche giorno il trasporto di forti quantitativi di grano d'importazione dai porti di Castellammare e Salerno ad alcune provincie del Sud.

I trasporti vengono eseguiti con autotreni che rientrano vuoti a Salerno e a Napoli data la particolare situazione delle provincie del Sud che, soprattutto in questa stagione, non hanno altra merce all'infuori del vino da esportare.

La ns. Direzione Compartmentale ha pertanto chiesto di poter utilizzare con carichi di vino i viaggi di ritorno anche allo scopo di non far gravare sul prezzo del grano le spese di trasporto relative ai viaggi effettuati a vuoto.

SUBJECT : Ban on lorry transportation of wine.

1. Please note the following telegram from the Prefetto of Lecce :

"Quoting my telegram dated 2 inst. same number I inform you that ban on lorry transportation of wine for Northern Italy has compelled lorries arriving here to go back empty making food supply difficulties in this province more serious and exasperating the categories interested who deem the ban to be anti-economical and illogical. Wishing to avoid abolishing ban, as my predecessor did, owing to public disorder, I beg that Ministry to issue at least a temporary suspension of said ban so as to favour indispensable importation of commodities of high consumption by permitting exportation of wine & alcohol out of the province.

Prefetto,
GRIMALDI

The Sindaco of Lecce wires :
"The serious conditions of supply owing to deficiency in production and mainly to geographical position render it urgent to derogate from instructions limiting lorry transportation of wine which is the only possible means which make it possible to utilize return trip with food supplies to save the towns and comunes of the province from starvation and to quell the serious agitation existing among the population, even though such suspension of ban were to last only for the winter period.

Sindico

The Confederazione Generale Italiana del Lavoro writes :
"The Camera Confederale del Lavoro in Lecce has sent us the following telegram :- FOR REASONS OF PUBLIC ORDER IT IS URGENT TO DEROGATE TEMPORARILY FROM GOVERNMENT INSTRUCTIONS ON LORRY TRANSPORTATION OF WINE FOR OVER 100 km. WHICH IS THE ONLY MEANS OF SUPPLYING OUR PROVINCE WITH FOOD SUPPLIES BY RETURN TRIP.-

2. Not being able to reach a discipline for the lorry transportations in the North which continue to arrive in a huge number, this Ministry

AC Milan (Attn. Transportation Sub-Commission)

1. Enclosed please find translated copies of letters from Sepral, Lecce advising Sepral Milan; that 3 lorries loaded with wine were despatched from Lecce to Milan on the 15 Nov '45.
2. It will be noticed that all three vehicles bear northern registration numbers and, therefore, Trip Tickets for the journey south will have been issued by Auto-Transporti Milan. Will you please ascertain what these vehicles brought south and from whom permission to transport wine was obtained.
3. This appears to be yet another instance of the failure to comply with instructions contained in Reads Memo No 3. Please take corrective action deemed necessary and let this HQ have your report in order that this question can be perused through Ministry of Food channels.

ROME

The Prefect of Pescara Province, with letter dated 8th nov. 1945 n. 494I GAB., calls the attention on the Cooperativa Mattetti of Pescara, which has to deliver 25.000 pair of shoes, allotted to the same Cooperativa by the Ministry of Industry and Commerce, and requests the interest of this Ministry of Transports, on the motorvehicle which goes north to take over the stock of shoes, that be authorized, in order to avoid an empty trip north, to transport an amount of wine from the Province of Pescara, to the North.

Such coincidence would advantage the population of Pescara, as it would economize the cost of the shoes, thus utilizing the outgoing trip.

In regard to what is said above, will, please, the Allied Commission advise us if it's possible to consent, for this one exception, the transport of wine on the outgoing trip.

OGGETTO Autorizzazione trasporto vino al Nord.

Il Prefetto della provincia di Pescara, con nota 8 novembre 1945 n. 4941 Gab. facendo presente che la Cooperativa Matteotti di Pescara deve trasportare 25.000 paia di scarpe, assegnate dal Ministero dell'Industria e Commercio, ha richiesto l'intervento e l'interessamento di questo Ministero perché l'automezzo che si reca al Nord per il ritiro della suddetta partita di scarpe, possa venire autorizzato, durante il viaggio di andata, a trasportare un quantitativo di vino dalla Provincia di Pescara, diretto al Settentrione.

Tale coincidenza sarebbe di vantaggio per la popolazione della provincia di Pescara in quanto che, con la utilizzazione del viaggio di andata, il costo delle scarpe potrebbe riuscire più economico.

In relazione a quanto sopra, s'interessa codesta Commissione a fare conoscere se in via eccezionale potrebbe consentirsi il suddetto trasporto di vino pel viaggio di andata.

TRANSLATION

Oggetto: haulage of wine and alcoholics by motorcar

In view of the difficulties which are to be foreseen for Italy for next winter and of the shortage of essential food, it is indispensable to take again into examination the possibility of facilitating the transfer of the wine from the centres of production to the towns. Consideration must also be given to the fact that the poor food rations of the workers could profitably be completed by a sufficient and regular supply of wine.

Ships and railways have not carried so much wine as it had been hoped, so that the State Railways Co., in order to meet all requirements, had to make use also of their motor vehicles to transport wine by road, in contrast with the general policy.

Obviously strong protests were raised by private truckers. Apart from that it is no thought it advisable to insist in maintain the present restrictions when the experiences of many months has showed how difficult it is to prevent the infractions.

It is the proposal of E.N.A.C. that any limitation of mileage and of destination be cancelled for the haulage of wine and alcoholics by motorvehicles; and that such transports should only be limited as follows:

1. - In order to save fuel the transports will be carried out only by autotrains, *cc. Wagon & Trailer*
2. - Every Provincial Office of E.N.A.C. will give authority for not more than one trip monthly for every autotraining **2027** subject to the local availabilities of fuel.

4. - Not more than the 10% of the total fuel available to every single Provincial Office will be assigned to the transports in question.

AC/271/230/Tn.3

SUBJECT : Movement of wine by Roads.

TO : Director, Transportation and Shipping Sub-Commission.

1. Reference your 323/Tn.1 of 26th inst. Mr. Franklyn, Roads Division has been consulted on this subject, and he is of the opinion that ENAC's suggestions should be adopted with slight modifications, particularly in regard to proposal No. 4 in ENAC's letter.

2. It must be recognised that we have no facilities for enforcing all the principles laid down in Roads Memo Nos. 3 and 4 and that for some time past large scale illegal movement of wine by Road has taken place. Also, that in the large wine producing area of Puglia we have virtually no representation in the form of Transportation officers. Added to this, evidence goes to show there are many forged ENAC Trip Tickets in existence.

3. Whilst agreeing with Mr. Franklyn that the removal of the restriction on haulage of wine by road will lessen the work of this S/C to a considerable degree, the following points on ENAC's letter are worthy of note :

Para 1. If wine can be carried without detriment to the transport of foodstuffs it would be surprising, especially in view of the alleged inadequate supplies of F.O.L. as stated by ENAC on several occasions during the past few months. However, it is agreed wine would be a useful supplement to the food ration.

Para 2. From Para 2 (a) monthly report for October it will be seen that special Wine Tank Car Trains were running from Southern Italy to Lombardy and Piemonte Region, although one train daily which was scheduled was not realised, due to the failure of consignor to load. 15 trains representing 363 Tank Cars were run during the month and a further 41 Cars attached to ordinary goods train. The wine sent by special train is controlled from start to finish. It appears the profit allowed to the merchant is not satisfactory and they prefer movement by road to avoid control. It is understood movement of wine by sea was also restricted by the failure of consignors to load.

1. Reference your 323/13/In.1 of 26th inst. Mr. Franklyn, Roads Division has been consulted on this subject, and he is of the opinion that ENAC's suggestions should be adopted with slight modifications, particularly in regard to proposal No. 4 in ENAC's letter.

However, it is agreed wine would be a useful supplement to the food ration.

Para 2. From Para 2 (d) monthly report for October it will be seen that special Wine Tank Car Trains were running from Southern Italy to Lombardy and Piemonte Region, although one train daily which was scheduled was not realised, due to the failure of consignor to load. 15 Trains representing 363 Tank Cars were run during the month and a further 41 Cars attached to ordinary goods train. It is understood movement of wine by sea was also restricted by the failure of consignors to load.

Para 3. What action has ENAC taken with regard to the infraction? No report seems to have been rendered to this branch this could be interpreted as a reflection on ENAC's system. It is considered many more protests will be made by truckers if ENAC's proposal are accepted i.e.

- I. Truckers who do not have trailers will be prevented from carrying wine.
- II. It is hardly likely that sufficient fuel will be available to allow a trip a month for every auto-train. This would inevitably lead to favours being given to a selected few.

III. Experience suggests that a priority list would mean very little. By having wine as the lowest priority this would increase the bargaining power of any unscrupulous EMAC official.

IV. It is not considered advisable to agree to any percentage of P.O.L. for haulage of wine but only to grant it if a cargo is carried both ways to prevent empty mileage.

4. The views expressed are destructive more than constructive because there can be no doubt the general transport situation in Italy will get more difficult as the winter progresses. It is visualised that if the haulage of wine affects the transport of food, the Italian Press will have a complaint against the Allies. It is suggested that in the event of EMAC's proposals being accepted the change should be given wide Press Publicity.

1. Please see attached papers which have already gone to Road Division and let me have your views on ENAC's proposal, after discussion with Road Division. I quite agree that one hundred percent prevention of infraction of present instructions is impossible, but I am by no means convinced that we should at this stage open the door to large scale movement of wine by road, when fuel is already so short.

SUBJECT:
transport of grape-juice

Reference is made to memorandum n.3, concerning transport of wine and alcohol.

1. - In memorandum 3, para 2, the word "wine" stands for all alcoholic drinks and also for pure alcohol, which is supposed to be used for drinks.
2. - The grape-juice is not included, because it is a sugar product and positively unalcoholic.
3. - As we get so many requests for transporting grape-juice, we want to know if that's out of the memorandum n.3.
4. - Also, will you please let us know, either the alcohol "de naturato" in other words alcohol mixed with other stuff, which makes the producing of drinks impossible, but can be used for heating, disinfecting and industrial use, is to be included in memorandum n.3, and so not transportable by road.

1. With reference to your letter dated 5 Aug '45.
2. The policy laid down by this Headquarters is that movement of wine over distances of 60 Km. shall be normally by sea or rail, and that whilst these facilities exist, movement by road is prohibited.
3. Substantial tonnages have already been authorized for movement by sea for the months of August and September, and in addition there is now a daily train of wine cisterns running from the BARI Area to the North of Italy.
4. In view of the above it is regretted that the ban on movement by road, cannot, at present, be relaxed.
5. It is suggested that you approach the Regional Commissioner of Food at BARI to obtain movement by rail.

SUBJECT : Movement of wine with motor - vehicles

TO : Hq. Allied Commission
Transportation S/C

Rome

Reference is made to the recent procedures issued by the Sub-Commission about the movement of wine with motor vehicles. Owing to the prohibition of hauling wine on distances superior to 30 kms and to the insufficient number of wagons available, a very serious situation has been provoked in this province -

It is well known that the Foggia Province is a great producer of wine, the greatest part of which - considering the great production with regard to the local requirements - has always been exported in Northern Italy -

The allocation of rail wagons to export wine outside the Province, permits only the export of a minimum amount of wine, and therefore thousands hectoliters of that product are kept in tanks and in industrial and commercial depots, waiting, in vain, of being transported, and threatening to be spoiled, with a great damage for the national economy, and not permitting to empty tanks and depots which ought to be ready to accept the new wine production -

Therefore we submit to the consideration of the Sub-Commission, the necessity that facilitations should be granted for the export of wine to the concerned Companies to transport the product in Northern and Central Italy with motor vehicles - especially when vehicles are owned by the same Enterprises - with no limit 2668 distance -

This will be a great help for a gradual reoperation of commerce among the Italian Provinces and surely it will be very much appreciated the help and the comprehension which the Sub-Commissioner will show in this matter -

While waiting for a reply we thank you for whatever action

OGGETTO: Trasporto vini con automezzi Foggia, li 5 agosto 1945

Prot.n°. 2/6

SOTTOCOMMISSIONE TRASPORTI - ROMA
On.le CONFEDERAZIONE GENERALE DEL COMMERCIO- ROMA
ILL.MO SIG.PREFETTO della Provincia di FOGGIA

e p.c.

Si fa riferimento alle recenti disposizioni emanate da codesta On.le Sottocommissione, riguardante il trasporto del vino con automezzi.

In conseguenza del divieto di trasporto del vino a mezzo camions per percorsi superiori ai 30 km., è dato il numero insufficiente di carri ferroviari resi disponibili, si è creata in questa Provincia una grave ed insostenibile situazione.

È noto che la Provincia di Foggia è grande produttrice di vino, la maggior parte del quale -considerata la notevole esuberanza in rapporto al fabbisogno provinciale -si è sempre normalmente esportata specialmente in zone di consumo dell'Italia Settentrionale.

La concessione di vagoni ferroviari per la spedizione di vino fuori Provincia, non permette che l'esportazione di una minima quantità di vino, per cui migliaia di ettolitri di tale prodotto restano nelle cisterne e nei depositi industriali e commerciali aspettando, invano, di essere trasportate, sia per evitarne il deperimento, con sensibile danno dell'economia nazionale, sia per dar modo -in vista della prossima campagna vinicola- di lasciare libere le cisterne, i serbatoi, ed i depositi in genere, per essere pronti a ricevere il vino di nuova produzione.

Premesso tutto, si sottopone al particolare e benevole esame di codesta On.le Sottocommissione, la necessità che sia consentita una maggiore facilitazione all'esportazione del vino da questa Provincia, permettendo che le Aziende interessate effettuino il trasporto del prodotto stesso con automezzi -specialmente quando questi sono di proprietà delle Aziende esportatrici- per le provincie dell'Italia Centrale e Settentrionale, e senza alcuna limitazione di distanze.

Sarà, così dato un notevole impulso alla graduale ripresa degli scambi commerciali fra le Provincie d'Italia, e non potrà non essere apprezzato il prezioso ausilio e l'alto senso di comprensione che, si è sicuri, sarà certamente fornito anche in questa occasione da codesta On.le Sottocommissione.

Grati per quanto sarà deciso al riguardo, si ringrazia sentitamente, restando in attesa di cortese riscontro.

1. On the 1 August a Polizia Controllo Economico road block stopped a convoy consisting of five lorries with three trailers; all these vehicles were loaded with wine the total quantity amounting to 407 gls. The wine was for delivery to a wine dealer in Treviso and had come from Rome.

2. The trucks were travelling without a normal trip ticket, petrol ration cards or any documents authorizing them to transport wine. There was however with the convoy a representative of the Ministero dell'Interno who stated that vehicles were travelling from Rome to Veldagne (prov. of Vicenza) for the purpose of collecting uniforms for the Italian police and in order to avoid travelling empty. The MAC in Rome had authorized the movement of wine.

3. Paragraph 5 of the Transportation sub-Commission directive AG/24/22/TR 3 dated 26 June which specifically prohibits the movement of wine by road was noted both to the representatives of the Ministero dell'Interno and the representative of the proprietor of the wine who, of course, denied any knowledge of the fact that long distance movement of wine was not allowed.

4. On my instructions the wine has been sequentiated, delivered to the Consorzio Agricola warehouse and instructions have been given to SUPRAL to establish the selling price and arrange the distribution through normal channels; the amount received to be placed in a special account pending instructions for its disposal.

5. Attached hereto are the following documents:

- a) Particulars concerning the vehicles and the drivers;
- b) Details of the wine found in each vehicle;
- c) Copies of the Verbali effected by the Control Police;

6. This in my opinion is a serious infringement of a transport regulation and in view of an acute shortage of petrol an inquiry should be instituted in Rome to ascertain who was responsible for sending five large vehicles from Rome to the province of Vicenza.

ASSOCIAZIONE LIBERA DEI COMMERCianti E RAPPRESENTANTI
DELLA PROVINCIA DI TARANTO

UFFICIO PRESIDENT'S

Prof. N. *24/54*
(ca. citare nella risposta)

OGGETTO: Shifting of wine by lorries.

Taranto, 11 30th July 1945

Via Mazzini, 21
Tel. 2025

To ALLIED COMMISSION H.Q.
Transport Sub-Commission

R O M E

Ref. the dispositions issued recently by the Transport Sub-Commission about the shifting of wine by lorries.

Because of the prohibition of moving wine by lorries at distances exceeding 30 kilometres, and of the insufficient number of railway waggons made available for this purpose, a serious situation is impending all over the Province.

It is well known that Taranto Province has always yielded a great deal of wine and that the produce exceeding far the local needs, most of it has always been exported for consumption to North Italy.

Through the allotment of railway waggons only a very small quantity of wine is moved from this Province, whereas thousands and thousands of hectolitres are left in the reservoirs belonging either to producers or merchants.

Now this stuff must be exported in order to prevent its going bad - which would involve an enormous damage to the national economy - and in order to clear the tanks to be used in the imminent vintage.

In view of the preceding considerations may your Office please examine the possibility of fostering and facilitating the exportation of wine from this Province by allowing the Firms concerned to effect transportations by lorries (especially if such Firms own the necessary means of conveyance) into the Provinces of Central and Northern Italy, and by abolishing any distance limitations.

In this way a great push will be given to the gradual resuming of trade connections among the various Provinces of Italy, and your Office is so much interested in this vital subject that I feel sure the matter will be given the best consideration.

Any action taken by you in order to meet the pressing needs of this Province will be highly appreciated.

Yours faithfully,

TO ALLIED COMMISSION H.Q.
Transport Sub-Commission

R C M E

Ref. the dispositions issued recently by the Transport Sub-Commission about the shifting of wine by lorryes.

Because of the prohibition of moving wine by lorryes at distances exceeding 30 kilometres, and of the insufficient number of railway waggons made available for this purpose, a serious situation is impending all over the Province.

It is well known that Taranto Province has always yielded a great deal of wine and that the produce exceeding by far the local needs, most of it has always been exported for consumption to North Italy.

Through the allotment of railway waggons only a very small quantity of wine is moved from this Province, whereas thousands and thousands of hectolitres are left in the reservoirs belonging either to producers or merchants.

Now this stuff must be exported in order to prevent its going bad - which would involve an enormous damage to the national economy - and in order to clear the tanks to be used in the imminent vintage.

In view of the preceding considerations may your Office please examine the possibility of fostering and facilitating the exportation of wine from this Province by allowing the Firms concerned to effect transportations by lorryes (especially if such Firms own the necessary means of conveyance) into the Provinces of Central and Northern Italy, and by abolishing any distance limitations.

In this way a great push will be given to the gradual resuming of trade connections among the various Provinces of Italy, and your Office is so much interested in this vital subject that I feel sure the matter will be given the best consideration.

Any action taken by you in order to meet the pressing needs of this Province will be highly appreciated.

Yours faithfully,
Nicola D'Annunzio

TO : Food Sub-Commission, Northern Headquarters, Milano
Attn. Lt. Col. J. Imrie.

1. The following letter has been received from Provincial Food Officer of Asti:

"1. The ban on transportation of wine by road from South to North has brought strong local protest, based mainly upon;

a. Lombardia has apparently no such ban, or at any rate the law is a dead letter there. Large numbers of heavy vehicles all plainly labelled AMG, Lombardia and with Milan numbers are at present transporting wine on routes 16 and 9.

Information from Unione Vini Milan, indicates that AMG have authorized the import of 30,000 q.tls by road from Lecce to Milan.

b. Since only black market wine now comes in by road Serral has no control over prices. It is felt here that law abiding people are being treated unjustly."

2. If this is true, Piemonte provinces should be accorded the same privilege.

3. Unless reply to contrary is received by this HQ by 10 August, it will be assumed that Lombardia wine traffic by road in this regard is not being stopped and that the ban on transportation by road has been lifted.

Notes of Meeting held in Transportation Sub-Commission
on 27 July regarding movement of wine

Present :-

- Major C.P. FOSTERMAN, Movements Division (Rail Branch)
- Maj Gen M.P. LITTLE, Movements Division (Shipping Branch)
- Major C.P. CORNWALL, Movements Division (Roads Branch)
- Major K.J. COOPER, Food Sub-Commission

- Prof. Guido DI MARZI, Ministry of Food
- Mr. Alberto MASTROMARINI, Ministry of Food
- Mr. VERRI, Ministry of Food
- Mr. ARVENTO, Ministry of Food
- Mr. GIOMMARDI, Ministry of Agriculture

1. Object

The conference was called at the request of the Minister of Food to ascertain the possibility of increasing the movement of wine from the South to the North of Italy.

2.

The Minister provided figures of wine stocks for movement from producing areas in the South and in Sicily totalling 175,000 tons for the months of August and September. He stated that this movement was necessary to provide a more balanced economy for the wine producers.

3.

In reply to the Minister, the following points were made by the Movements and Food Sub-Commission's representatives :-

(a) - Shipping

Wine for movement of wine totalling 24,700 tons had been received for the month of August; there was a possibility of increasing the movement by schooners after normal commitments had been met. This would mean that such schooners would then be free to carry any cargo, and would no doubt, lift a proportion of the wine offering. It was emphasized that sea transportation by coaster was the normal means employed for movement of wine, and that clearance from ports for shipping destination was by rail, that is, against the distance

1. Object

The conference was called at the request of the Minister of Food to ascertain the possibility of increasing the movement of wine from the South to the North of Italy.

1.

The Minister produced figures of wine stocks for movement from producing areas in the South and in Sicily totalling 175,000 tons for the months of August and September. He stated that this movement was necessary to provide a more balanced economy for the wine producers.

2.

In reply to the Minister, the following points were made by the Movements and Food Sub-Commission's representatives :-

3.

(a) - Shipping

Bids for movement of wine totalling 24,750 tons had been received for the month of August; there was a possibility of increasing the movement by schooners after normal 20 commitments had been met. This would mean that such schooners would then be free to carry any cargo, and would no doubt, lift a proportion of the wine offering. It was emphasised that sea transportation by Coaster was the normal means employed for movement of wine, and that Clearance from ports to ultimate destination was by rail, that is, unless the distance was under 60 km. In which case Clearance by road was permissible. Clearances for distances over 60 km by road was prohibited unless permission in exceptional circumstances was granted by HQ. A.C.

1/0

(b) - Rail
 The possibility of large scale movement from South to North by rail was noted, wagon shortage made it difficult to meet essential food movements at present.

(c) - Road
 In a discussion regarding free movement by road, it was pointed out that this was very undesirable, and would most certainly result in a large increase in wine movement to the prejudice of essential food, etc. movement. Moreover, the increased demand for P.O.L. types and spare parts which would follow could not be met out of the present allocation and would not be authorized under prevailing conditions.
 With regard to the Minister's request for backloading of vehicles coming from the North, it was stated that any backloads should be essential foodstuffs etc. only, if wine were permitted to be backloaded then it would open a wide scope for abuses and irregularities.

Conclusion
 It was agreed that the problem was a shipping one and that increased tonnage might be accepted during future months. In this connection an increased commitment for Port Clearance by rail would have to be faced.

All assistance possible within the limited facilities available would be given, and for this purpose the bidding program for September will give details of movements required.

SUBJECT : Movement of Wine and Alcohol.

We attach hereto copy of the letter No. AC/24/22/Tn.3 dated 26/6/45 of the Allied Commission, Transportation Sub-Commission concerning regulations about the movement of wine, begging you to give instructions to this Institute, to the compartmental Inspectorates of Motorization and to the Provincial Commissions.

Reference to sub-para c) of para 5), this office, referring to the fact that Provincial Managements of ETAC, the Compartmental Inspectorates and the Provincial Commissions are not qualified to know the efficiency of railways and the availability of cars, which are known on the contrary to the Sepral, to which is assigned the faculty to allocate wagons, is of the opinion that, in accordance with the Ministry of Food, all applications for the movement of wine and alcohol should have prior a statement of the Sepral certifying that rail transport is impossible.

Considering the fact that according to mentioned latter, no limits should be applied for alcohol for industrial use, it is deemed opportune to prescribe that when accepting all applications for movement, a statement of the consignor indorsed by the Chamber of Commerce of the province of arrival, certifying the industrial use of the total amount of alcohol which has been moved, should be shown.

Then in order to avoid all infractions of mentioned regulations, it should be considered as "wine" also the "grape juice" and the "unfermented wine" which are transported in barrels and therefore can be easily substituted with wine.

We would appreciate a quick reply, as ¹⁹⁴⁵ have to instruct as soon as possible all the depending Managements.

SUBJECT: transport of alcohol

Into this office came a person asking for an allotment of auto vehicles to carry alcohol from Puglia to the Industrial Division H.A. in Bologna.

For supporting of his request, is attached two documents which we send you copy of this.

My answer, of course, was negative, but it would be convenient to clear the situation once for always, because there are too many contradictions between the orders SHAC got and the special authorization given by the Allied Forces.

SUBJECT: Movement of wine and alcohol.

This Ministry, reference to the letter N° 4252 dated June 19th, has proposed some amendments to the note of the Allied Commission AC/28/38/Tn.5. dated May 21st, concerning procedures for the movement of wine.

But on July 6, reference to the letter 3M/3/412/14352, the Enac General Management in requesting instructions on the matter, has send us a copy of the memorandum N° 3 of June 26th 1945 containing the instructions of the Commission on the movement of wine.

Considering the short period of time elapsed between the letter of June 19th 1945 and the memorandum N° 3 of June 26th, we deem that when the memorandum was issued, you had not yet received the letter of this Ministry and therefore we beg the Sub-Commission to acknowledge receipt of the letter N° 4252 and to let no know their opinion on the matter.

1. Your letter dated 22 June '45 addressed to Rear Admiral
Spence has been passed to this sub-Commission.

2. The decision to prohibit the movement of wine by road
over long distances was made after careful consideration of the
overall requirements of the country and with the full agreement
of the Italian Authorities.

3. The worldwide shortage of vehicles, tyres, spare parts
and particularly petrol demands that no movement should be made
by road where other means of transport exist. Transportation is
available by both sea and rail from Southern Italy to other
parts of the country.

4. In many localities of Italy which are only accessible
by road there is an urgent need of food, medicines and general
necessaries for the rehabilitation of industries. It is essential
that the limited petrol supplies be conserved to meet such
requirements.

5. It is hoped that the above information will have
clarified the situation and it is regretted that no exception
to the established policy can be made to meet your request.

6. A copy of Movement Division (Roads) memorandum No. 3
relating to the movement of wine is enclosed for your information.

SUBJECT : Movement of wine by road.

TO : H.E. Rear Admiral Stone
Chief of the Allied Commission for Italy
Rome

The High Commissioner of Food and the Ministry of Transports have replied to the claim submitted by the farmers of Barletta about the prohibition of roadhauling wine that said prohibition had been imposed by the Allies, who would not supply anymore fuel.

Therefore we beg H.E. to derogate in the possible limits to the mentioned prohibition as the wine is the only income which will enable the traders to rehabilitate their exhausted budgets, spoiled by the unadequate prizes of the "grouping centers (ammassi) as it has been kept valid only for them the binding fascist regime, without any balance as in the past time, having to purchase at free market what is necessary to them.

They hope that their request which is dictated not by egoistic reasons but by inviolable rights of life will be accepted by H.E.

They thank you in advance.

1. Attached is copy of authority issued by the C i/c R.A.F. Leave Hotel Lido di Venezia which was presented at this HQ by the nominee in order to obtain a permit to transport by road wine from Rome to Venice.

2. The issue of such authorities leads to obvious irregularities and causes a considerable amount of trouble.

The bearer of this authority, for instance, has attempted on various occasions to obtain permits for road transport, and although he has been refused every time, he was careful enough to ask for a different officer on each occasion. As a last resort he tried to induce a Sergeant to give him the necessary permission.

3. As the transport of wine by road is strongly deprecated except over short distances where other transport is not available and coupled with the fact that wine has been brought to Rome owing to the shortage in this area, may steps be taken, please, to prevent the issue of such authorizations in future.

Dear Mr. Minister,

The Rome Regional Commissioner for Food by letter Ref. Ufficio V Prot No. 3904/V dated 23 June 1945 has submitted a request from "Industria Italiana Liquori and Spumante" for permission to transport wine to Northern Italy. ^{2/R attached} 22

The movement of wine by road is governed by this H.Q. Movement's Division - Roads - Memorandum No. 3, which was drawn up after consultation with Alto Commissariato per l'Alimentazione who was supplied with 50 copies for distribution.

It was with the agreement of Alto Commissariato per l'Alimentazione that instructions were issued prohibiting the movement of wine by road to Northern Italy.

The correct channel for applications for movement of all commodities by road to Northern Italy is through ENAC who will, when necessary, make application to this H.Q. for any special authority for items the movement of which is controlled by this H.Q.

It is requested that the above be brought to the notice of your subordinate officers.

MOVIMENTO DEL VINO

1. Le presenti istruzioni riguardano il movimento del vino e di tutti i liquori alcolici sul continente Italiano situato a Sud del Confine del territorio Settentrionale, vale a dire a Sud dei Confini Settentrionali delle seguenti Province :- RAVENNA - PAVIA - PISTOIA - LUCCA - APUANIA

Per il movimento del vino nel territorio Settentrionale verranno emanate separate istruzioni.

2. La voce "vino" impiegata da qui innanzi, nel corso delle presenti istruzioni, comprende:- il vino, gli alcolici ed ogni bevanda alcolica, nonché l'alcole destinato alla fabbricazione di bevande alcoliche.

3. Movimento via Mare.
Conformemente agli accordi stabiliti con l'Alto Commissario per l'Alimentazione, il principale sistema di trasporto da usarsi per il vino sarà "via mare".
Tutti i particolari della procedura occorrente per ottenere il trasporto marittimo sono indicati nella "Shipping Instruction N° 8" di questo Quartier Generale in data 21 Marzo 1945 - Prot : AC/501/21/Tn.3.

4. Movimento per Ferrovia.
Il movimento del vino dai Centri di Produzione ai Porti d'imbarco e dai Porti di sbarco ai destinatari verrà eseguito per Ferrovia, da e per la stazione ferroviaria più vicina.
Il movimento del vino dai Centri di Produzione ai destinatari (Centri di Consumo) potrà aver luogo soltanto se autorizzato dall'Alto Commissario per l'Alimentazione, per il tramite dei suoi rappresentanti Competenti, e sempreché il detto movimento rientri nel tonnellaggio totale assegnato al movimento dei generi alimentari non razionati.
Tutti i particolari della procedura occorrente per ottenere il movimento per Ferrovia sono indicati nel 'Memorandum'

1. Le presenti istruzioni riguardano il movimento del vino e di tutti i liquori alcoolici sul continente Italiano situato a Sud del Confine del territorio Settentrionale, vale a dire a Sud dei Confini Settentrionali delle seguenti Province :-
RAVENNA - FIRENZE - PISTOIA - LUCCA - APUANIA
Per il movimento del vino nel territorio Settentrionale verranno emanate separate istruzioni.

2. La voce "vino" impiegata da qui innanzi, nel corso delle presenti istruzioni, comprende:- il vino, gli alcool ed ogni bevanda alcoolica, nonché l'alcole destinato alla fabbricazione di bevande alcooliche.

3. Movimento via Mare.
Conformemente agli accordi stabiliti con l'Alto Commissario per l'Alimentazione, il principale sistema di trasporto da usarsi per il vino sarà "via mare".

Tutti i particolari della procedura occorrente per ottenere il trasporto marittimo sono indicati nella "Shipping Instruction N° 8" di questo Quartier Generale in data 21 Marzo 1945 - Prot : AC/501/21/Tn.3.

4. Movimento per Ferrovia.
Il movimento del vino dai Centri di Produzione ai Porti d'imbarco e dai Porti di sbarco ai destinatari verrà eseguito per Ferrovia, da e per la stazione ferroviaria più vicina.

(2)

(ii) Della più vicina stazione ferroviaria o dal più vicino porto di sbarco al magazzino del destinatario, a seconda che sia più vicina l'una o l'altro.

(b) Nei seguenti casi si potrà usare sia il trasporto per ferrovia, sia il trasporto per strada ordinaria:

- (i) dal Centro di Produzione al Porto d'imbarco
- (ii) dal Porto di sbarco al magazzino del destinatario
- (iii) per movimenti intercomunali

(c) I trasporti indicati nel precedente comma b) saranno disciplinati come segue :-

- (i) ove non esista servizio ferroviario o non siano disponibili i carri ferroviari occorrenti, è permesso il trasporto per strada ordinaria.
- (ii) c'è ora sono disponibili servizio e carri ferroviari, il tipo di trasporto (ferrovia o strada) da prescegliersi, sarà determinato dalla distanza, come segue :-
Sino ai 30 Km trasporto per strada ordinaria
Fra i 30 ed i 60 Km. trasporto facoltativo, a seconda della disponibilità dei mezzi.
Oltre i 60 Km trasporto per Ferrovia.

(d) Tutti gli Ufficiali e i Funzionari della Commissione Alleata collaboreranno all'azione che l'E.N.A.C svolge nel territorio del Governo Italiano, astenendosi dall'autorizzare gli Autorizzati dell'A.C. (Commissione Alleata) o del W.D. (Forze Armate) a caricare vino.

(e) I Commissari Regionali impartiranno ordini che dispongano l'osservanza delle presenti istruzioni.

6. L'Alto Commissario per l'Alimentazione è invitato a portare a conoscenza di tutti i produttori ed i commercianti di vino i mezzi effettivamente disponibili per il movimento del vino.

TO. Liaison Officer to Chief Commissioner

1. Ref your inter office memo file number 128 dated 9th June 1945, and conversation Commander Apostolo/Colonel SIEFF of even date, together with attached letter to the Allied Commission, believed to be from the Rome Police Force.

2. Movement of wine by road from Cisternino to Rome is not agreed.

3. It is requested that further information be obtained from the Ministry of Transport and the Ministry of the Interior regarding this movement. Decrees have been passed by the Italian Government in agreement with the Allied Commission whereby such transportation by road is illegal; yet here is a letter requesting an illegal movement on behalf of members of the Rome Police Force. This request is made despite the fact that there are frequent movements by sea from the heel area to Civita-vecchia of wine, and there has been no lack of shipping for this purpose during the past three months.

4. May this matter be treated as urgent please.

SUBJECT: Haulage of Wine by Road.

TO : Movements Division.

1. As a result of the two tours already made by Major Symons and the large number of instances reported of irregular haulage of wine by road, both on AMG and ENAC work tickets, it is felt that an overall directive should be issued to all concerned regarding the facilities for shipment of wine by sea now afforded to merchants by this Commission through S.E.P.R.A.L.

2. It has been found that work tickets are being issued in AMG areas for long distance wine haulage by road due to ignorance on the part of Regional Transportation Officers that such a practice is now forbidden. Whilst it is appreciated that local wine haulage between communes and distribution from port and railhead is necessary for the economy of the country, it seems desirable that all concerned should be knowledgeable of the current procedure for channelling shipping bids in order to eliminate long distance haulage by road.

3. It is therefore requested that you will issue a suitable directive to all Regional Commissioners, Transportation Officers in Southern Region, with copies to ENAC, S.E.P.R.A.L., the High Commissioner for Food and any other parties concerned.
