SUBJECT : Lift Forecast.

TO : AQMG (M)
Roads Branch.

1. Attached is copy of forecast for April and next 3 months which has today been ~~passed to~~ ^{prepared for} Col. Sieff.
2. The figures for the mainland have been arrived at as outlined below :-
 - (a) Vehs under Comd. M.T. Coys.
From total daily lift 10% has been deducted for maintenance. The balance has been multiplied by the number of days in the month because these vehicles operate on Sundays. Each month an addition has been made for lift available as a result of activation of additional CT and QM Coys.
 - (b) AC/4MG & Civilian Truck Pools.
From total daily lift 10% has been deducted for maintenance. The balance has been multiplied by 26 which has been taken as an average for working days.
 - (c) The totals obtained from (a) and (b) above have been added and entered as shown in attached appendix "B".

3. No allowance has been made for ENAC operated vehicles as complete returns for March have not yet been received. It is known, however, that in the period 1-10 March these vehs moved 37781 tons in Italian Govt territory excluding the provinces of VITERBO and RIETI, figures for which have not yet been received.

4. Figures for SICILY and SARDINIA are arrived at by deducting 10% for maintenance from available lift and multiplying balance by 26.
