Subject : Rail Car 1022215; 105,60/potatoes bound for Vatican

On October 20th ult. Consorzio Agrario Provinciale of Avellino despatched to Station Roma S. Pietro, for Vatican City, car No. 1022215 containing 105,60 quintals of potatoes.

As it results that said car is not arrived yet, we ask that Sub-Commission to kindly help us in finding out where it actually is.

Thanking you in advance, we remain, dear Sirs

Yours faithfully

The Chief of the Dept.

AGR/72.1

23 October 1944

SUBJECT: Transportation of Seed Potatoes from Avezzano
TO : Transportation Sub-Commission

1. Reference is made to letter AGR/72.1, dated 12 October 1944, subject as above.
2. Subsequent investigation of the situation at Avezzano indicates that the program as outlined in Mr. Elder's report, and agreed upon at the Potato Conference, HQ ACC, 11 August, cannot be realized in full, due to the following factors:
 - a. The rate of consignment of potatoes has not permitted movement beginning as of 1 October, as planned. It is now planned to commence movement of seed at the rate of 75 tons per day as from Wednesday, 25 October, this being half of the expected availability of potatoes. The rate should increase to 100 tons per day the following week. The most optimistic rate of consignment cannot exceed 150 tons per day due to inability of local officials to enforce consignment at a higher rate. The difficulty will increase as the harvest finishes and the consignment must come from potatoes stored in houses, etc.
 - b. To effect the movement of 20,000 tons of seed would require transportation at the rate of 150 tons per day for 133 days, and the passes are closed much of the time after 15 December. This transportation, in addition to that required for food potatoes, is not in prospect. In view of these factors, allocations previously planned must be reduced. Appendix A indicates the revised allocations.

3. Possible means of movements - plans suggested at the Potato Conference, HQ ACC, 11 August, are herewith changed to conform with reduced allocations and re-considerations;

- a. Sicily (1,500 tons for 1st consideration) by road from Avezzano to Rome, by rail from Rome to Reggio and by schooner from Reggio to Sicily. By 10 November, this amount should be shipped from Rome.
Handwritten: Sicily 1st consideration
- Sicily (1,000 tons for 2nd consideration). Rate of delivery of seed potatoes from Avezzano to Rome will determine possibility of sending this additional amount to Sicily during December in time for planting.
- b. Sardinia (500 tons for 1st consideration). This amount should be delivered in Rome by truck from Avezzano by 20 November and reshipped by rail to ports at Naples or Ci-

1. Reference is made to letter WCR/72.1, dated 12 October 1944, subject as above.
2. Subsequent investigation of the situation at Avezzano indicates that the program as outlined in Mr. Elder's report, and agreed upon at the Potato Conference, HQ ACC, 11 August, cannot be realized in full, due to the following factors:

- a. The rate of consignment of potatoes has not permitted movement beginning as of 1 October, as planned. It is now planned to commence movement of seed at the rate of 75 tons per day as from Wednesday, 25 October, this being half of the expected availability of potatoes. The difficulty will increase as the harvest finishes and the consignment must come from potatoes stored in houses, etc.
- b. To effect the movement of 20,000 tons of seed would require transportation at the rate of 150 tons per day for 133 days, and the passes are closed much of the time after 15 December. This transportation, in addition to that required for food potatoes, is not in prospect. In view of these factors, allocations previously planned must be reduced. Appendix A indicates the revised allocations.

3. Possible means of movements - plans suggested at the Potato Conference, HQ ACC, 11 August, are herewith changed to conform with reduced allocations and re-considerations:

- a. Sicily (1,500 tons for 1st consideration) by road from Avezzano to Rome, by rail from Rome to Reggio and by schooner from Reggio to Sicily. By 10 November, this amount should be shipped from Rome.
Handwritten: Sicily (1,500 tons for 1st consideration) by road from Avezzano to Rome, by rail from Rome to Reggio and by schooner from Reggio to Sicily. By 10 November, this amount should be shipped from Rome.
- Sicily (1,000 tons for 2nd consideration). Rate of delivery of seed potatoes from Avezzano to Rome will determine possibility of sending this additional amount to Sicily during December in time for planting.
- b. Sardinia (500 tons for 1st consideration). This amount should be delivered in Rome by truck from Avezzano by 20 November and reshipped by rail to ports at Naples or Civitavecchia for transport by schooner to Sardinia. Whether or not 300 tons for secondary consideration can be shipped on from Rome in December or January depends on rate of delivery into Rome from Avezzano.
- c. Puglia (3,000 tons for 1st consideration) and Campania (1,500 tons for 1st consideration) will have to be brought by road from Avezzano to Rome for shipment by rail to destination. Trucking facilities in the Rome area will not

6248

be able to take care of this amount between the period 10 November and 3 December when they should be on their way for distribution in time for planting. If the Southern Region could provide trucks to take care of at least a part of the job of getting seed potatoes from Avezzano to the Rome railroad, it would increase the chances of getting the 3,000 tons for 1st consideration distributed in time for proper planting. The arrival of the 1,500 tons for 2nd consideration in time for proper planting will be dependent entirely upon help in the way of supplementary trucking services provided by the Southern Region for this job.

d. Lazio-Umbria (4,500 tons) - these will be hauled by road from Avezzano to Rome during January, February and March.

4. Inasmuch as each ton of seed potatoes that can be delivered to deficit areas and properly used in time can be expected to produce 8 to 15 tons of food, it is of utmost importance that delivery of these reduced allocations be made as scheduled. The reduction in food as a result of the necessary reduced allocations already made will amount to approximately 65,000 tons.

13 September 1944

ACJ TA 121/13

Subject: Movement of APC/ABD variable traffic
Naples area, Italy

12. Movement to and from Italy

1. Reference your YALM 126 of 9 Sep. to G-4, A.C.C. Copy to this office. I am sure you will have your suggestions and help.
2. Maj. Harritt of Agric. P.C. this office will be in Naples area during the coming week and will ascertain the possibility of organizing road net to Naples (central) as best there for attachment to the "83 Special" and the "800 Special".

Declassified E.O. 12356 Section 3.3/NND No. 785021

I left a letter from
Mervin with Way
Rorua this morning
re this subject. Rd
I suggested that Rd
that he had a few
boards, say, at
Napier, and, Mr.
Get it back
for him
tomorrow
Please
Pat

Subject:- Movement of ACC/AM Perishable Traffic.

Naples Area - Rome.

To:- G-4 (Nov 4/44) Nov 3 AMHQ.

Copy to:- ACC TM Sub - Commission APO 394.

Major Rome

Major Powers, ACC TM Sub - Commission Rep,

c/o C.O. 701 Ry Gd Div. (TC).

C.O. 701 Ry Gd Div. (TC).

} With copies of ACC TM Sub -
} Commission letter ACC
} TM/124/42 of 5 Sept 44 and
} HQ AAI Nov 3/4 of 7 Sept 44.

1. Reference HQ AAI letter Nov 3/4 of 7 Sept. 44.

2. When this ACC perishable traffic commenced to pass this H.Q. arranged with H.Q. ACC TM Sub-Commission for all loading to be concentrated at San Giovanni, thus ensuring connection with the daily special train working to Rome Tiburtina with other ACC stores loaded at San Giovanni Warehouses and Ordnance traffic from 557 BOD Sub-Depot 2 consigned to Forward REs.

3. Owing to domestic difficulties which it is understood arose with the Civilian Contractor supplying perishable commodities to Rome, the arrangement referred to in para 2 did not materialize, and in its place a procedure was introduced at the request of ACC representatives in Naples, whereby this traffic was loaded in small lots of say, three or four wagon-loads, at various scattered points, in some cases as far apart as Puteagiano and Mola.

4. Owing to the difficulty of providing a reasonably constant and expeditious service for traffic loaded in this manner and forwarded on ordinary freight trains, it is feared that deterioration of such commodities as soft fruits etc. will continue to arise unless the ACC can arrange for loading to be concentrated at one point where sufficient tonnage is already available to provide Railway Operating with an economical bulk train-load.

5. Since the arrangement referred to in para 2 above was made an advice has been given by C.O. 701 Ry Gd Div. (TC) of the introduction of two daily special trains working to Rome via Line 53, viz:

"89 Special"

Naples Yard dep 2200 hours
Aversa " 0100 "
Rome Casalini arr 1300 " following day

"Rome Special"

Naples Yard dep 1000 hours
Aversa " 1300 "
Rome Casalini arr 0100 " following day

and it is suggested that the ACC TM Sub-Commission representative with the 701 Ry Gd Div. gives the matter re-consideration with a view to having all ACC perishables for Rome loaded at Naples Central Yard, and despatched on the above named services by arrangement with C.O. 701 Ry Gd Div. (TC).

H.Q. Movements,
West Italy.
AAI.

Q(M)R/16.
9 Sept 44.

5226

2. When this ACC perishable traffic commenced to pass this H.Q. arranged with H.Q. ACC TM Sub-Commission for all loading to be concentrated at San Giovanni, thus ensuring connection with the daily special train working to Roma Tiburtina with other ACC stores loaded at San Giovanni Warehouses and Ordnance traffic from 857 BOD Sub-Depot 2 consigned to Forward REs.

3. Owing to domestic difficulties which it is understood arose with the Civilian Contractor supplying perishable commodities to Rome, the arrangement referred to in para 2 did not materialize, and in its place a procedure was introduced at the request of ACC representatives in Naples, whereby this traffic was loaded in small lots of say, three or four wagon-loads, at various scattered points, in some cases as far apart as Puteoagnano and Mole. **6226**

4. Owing to the difficulty of providing a reasonably constant and expeditious service for traffic loaded in this manner and forwarded on ordinary freight trains, it is feared that deterioration of such commodities as soft fruits etc. will continue to arise unless the ACC can arrange for loading to be concentrated at one point where sufficient tonnage is already available to provide Railway Operating with an economical bulk train-load.

5. Since the arrangement referred to in para 2 above was made an advice has been given by C.O. 701 Ry Gd Div. (10) of the introduction of two daily special trains working to Rome via Line 89, viz:

<u>"89 Special"</u>		
Naples Yard dep	2200 hours	
Aversa "	0100 "	
Rome Casalina arr	1300 "	Following day
<u>"Rome Special"</u>		
Naples Yard dep	1000 hours	
Aversa "	1300 "	
Rome Casalina arr	0100 "	Following day

and it is suggested that the ACC TM Sub-Commission representative with the 701 Ry Gd Div. gives the matter re-consideration with a view to having all ACC perishables for Rome loaded at Naples Central Yard, and despatched on the above named services by arrangement with C.O. 701 Ry Gd Div. (10).

	112972	Peppers	42.==	400
	7105140	Peppers	35.==	320

The wholesale price of onions is in Naples, £. 22.== Naples must provide to the Allied Army 3,400 qtls. the day. The remained quantity will be divided, a half for Rome, a half for Naples.

The price of peppers is in Naples, £. 17,50 for wagon while in Rome the price has remained £. 15.== It is necessary to revise the price in Rome. So also, for the tomatoes that are £. 6.24 in Naples £. 11,50 and in Rome £. 10 - 12.

ROME FOOD STUFFS BY RAIL

28 August 44

NOTE: All figures are tons per day

1. Present tonnage requirements:-

a	Naples	- Rome	150
b	Torre Annunziata	- Naples	425
c	Salerno	- Torre Annunziata	225
d	Potenza	- Salerno	200
			usually increased every week by 100 tons to 300
e	Taranto	- Potenza	325
f	Bari	- Taranto	300
		Via Principi di	

Of the above tonnages every ton is in use every day and for every ton carried over (b) at least 2 are refused, over (c) at least 4 are refused and over (d) 1 or more is refused. Tonnage being carried over (a), (b), (c), (d) and (e) is at present (approx)

wheat and grain	60%
Charcoal	20%
Foodstuffs (various)	10%
Wine	3%
Gundries	7%

It will be seen that the limit of tonnage from the South to Rome is at present 150 T.P.D.

2. Tonnages Southbound to Rome which could normally be anticipated as available on application:-

f) Grosseto (and Stations South)	- Rome	100 to 200
g) Arezzo	"	Rome 100
h) Livorno	"	Rome 100

3. Tonnage requirements to carry out programme requirements:-

a) Potatoes	- 200 TPD Avellino etc (9 places on list) - cannot be carried by rail as no service is available. 100 TPD Naples Area (Acerra etc) can be carried by rail.	6188
b) Dry fruit and nuts (15/10 to 20/12)	10 TPD from Fabbrica di Roma - no rail available	
5 "	" Vallerano - rail may be available by 15 Oct.	
5 "	" Giffoni - no rail available	
20 "	" Giuliano - if this is Giuliano di Roma (as is presumed) no rail is available	
20 "	" Pontecagnano - rail - available	
10 "	" Bari	

Via Principi

of the above tonnages every ton is in use every day and for every ton carried over (b) at least 2 are refused, over (c) at least 4 are refused and over (d) 1 or more is refused. Tonnage being carried over (a), (b), (c), (d) and (e) is at present (approx)

Wheat and grain	60%
Charcoal	20%
Foodstuffs	10%
(various)	
Wine	5%
Sundries	7%

It will be seen that the limit of tonnage from the South to Rome is at present 150 T.M.D.

2. Tonnages Southbound to Rome which could normally be anticipated as available on application:-

f) Grosseto (and Stations South)	- Rome	100 to 200
g) Arezzo	"	100
h) Livorno	"	100

3. Tonnage requirements to carry out programme requirements:-

a) Potatoes - 200 T.M. Avezzano etc (9 places on list) - cannot be carried by rail as no service is available. 100 T.M. Naples Area (Acerra etc) can be carried by rail.

6188

b) Dry fruit and nuts (15/10 to 30/12)
 10 T.M. from Fabrica di Roma - no rail available
 5 " " Valeriano - rail may be available by 15 Oct.
 5 " " Giffoni - no rail available
 20 " " Giuliano - if this is Giuliano di Roma (as is presumed) no rail is available
 20 " " Pontecagnano - rail - available
 10 " " Bari

c) Vegetables
 20 T.M. from S. Benedetto - no rail available
 20 " " Pedaso
 260 " " Naples Area Rail available
 20 " " S. Benedetto - no rail available
 10 " " Pedaso

d) Fresh Fruit
 70 T.M. from Giuliano - no rail available
 80 " " Naples Stations - rail available
 70 " " Bari
 15 " " Sorrento
 15 " " Sicily - no rail available
 (Castellammare nearest station) rail available

0161

a Wine
no rail available

ore 20

Facciamo seguito al nostro precedente scritto per comunicarVi che la dimostrazione che aveva impedito il carico dei 4 Automezzi che sono ritornati a vuoto (in quanto gli autisti non hanno voluto attendere) si é calmata e che in conseguenza l'ultimo vostro automezzo (il quinto) ha potuto regolarmente caricare.

Disponete pure pertanto che vengano gli altri vostri automezzi come d'accordo e per i quantitativi previsti.

Domattina intanto riferiremo immediatamente all'Acc. il Prefetto, anche per l'applicazione dei provvedimenti di polizia.

Il Commissario Prefettizio del
Consorzio Agrario dell'Aquila

HEADQUARTERS
ALLIED CONTROL COMMISSION
AGRICULTURE SUB-COMMISSION
AFU 394

AGR/72.1

21 August 1944

SUBJECT : Fresh Fruits and Vegetables Distribution

TO : Economic Section, att. Vice President,
Food Sub-Commission

1. Attached is a memorandum drafted by this Sub-Commission suggesting a procedure for handling fruit, fresh vegetable and potato shipments into the Rome area.
2. While the system is drafted primarily to suggest a way of handling the critical food supply problem for the Rome area, the plan might well be studied with a view to establishing orderly movements and proper control in other areas supplying large centers of population with food.
3. While certain features of the plan have already been put into operation over the last few days as an emergency measure, it is suggested that formal approval and implementation of the general plan will result in reestablishing those agencies which normally did this work and thus permit the Italian people to handle matters themselves to the extent that transportation can be given to them.

AGRICULTURE SUB-COMMISSION
APO 394

21 August 1944

AGR/4.1

SUBJECT : Fedexport, Purchase and Shipment of
Fruits and Vegetables.
TO : Director, Agriculture Sub-Commission.

1. Fedexport is a subsidiary of the Federation of Consorzi Agrari, and has been engaged in the shipment of fresh fruit and vegetables in Italy, and for export for many years. The Fedexport organization has its HQ in Rome, and has direct representatives in the various centers of production. In addition, the Regional Offices of the Federation, and the Consorzi Agrari Provinciali, act as temporary representatives of Fedexport when the various areas are actively shipping, and purchases are made from local dealers directly.

2. To effect the movement of fresh fruit and vegetables to Rome from various surplus producing areas, and to provide HQ AUC with information as to the status of the production and availability, it is proposed to establish the following system.

a. Information: The Regional office at Naples (Naples 13177) will obtain information as to availabilities there, and the Bari Consorzi Agrari will cover that area (Bari 13445) and the Palermo Regional Office will collect the information from Sicily. As soon as communications are developed with other areas similar agencies will be established in other producing districts.

(1) Fedexport Rome will contact at present through the Agriculture Sub-Commission, each of these centers of information. Contact can be made each night by phone, or otherwise as necessary.

(2) Information will be summarized and made available to Food Sub-Commission by 0900 the following morning.

(3) Instructions by Food Sub-Commission will be issued by Fedexport as to purchase.

b. Purchase: Fedexport will purchase at car-door

all fruits and vegetables moving by rail in the Naples area and by truck in the Avezzano area at prices and on a basis agreed to by the Economic Section AGO.

c. Transportation: Rail cars as allocated for this work will be spotted by movements under instructions from the Transportation Sub-Commission. (Lt. Hart in Naples) Fedexport representatives will notify Lt. Hart two days in advance as to the loading stations and the number of cars for each.

d. Destination: Fedexport will direct the cars to such stations at destination as are indicated by the Food Sub-Commission. Wagons loaded by 1800 hours will be dispatched the following morning. Information as to dispatch of rail wagons will be notified to Fedexport Rome.

e. Unloading: Unloading will be arranged by the Fedexport at destination, subject to the general instructions issued by the Food Sub-Commission and Region concerned.

3. Purchase of potatoes in the Avezzano district, and fruits and vegetables in the province of Ascoli and other AGO areas, will be effected by Fedexport, in such quantity as may be approved by the Food Sub-Commission and the Agriculture Sub-Commission. In all instances the local Consorzi, farmers and dealers in fruits and vegetables, in instances where the transport is assigned or controlled, will sell at loading point to Fedexport representative or other designated agencies.

MEETING OF ROME

Minutes of Meeting held in Col. Legg's Office Monday 22 August at 1500 hrs.

Col. Legg	- In the Chair
Lt. Col. Stewart	- (Food Sub-Commission)
Maj. Horner	- (Food Sub-Commission)
Capt. Lush	- (Food Sub-Commission)
Maj. Sykes	- (Food Sub-Commission)
Maj. Andrews	- (Agricultural Sub-Comm.)
Maj. Merritt	- (Agricultural Sub-Comm.)
Capt. Lester	- (Supply Officer Rome Region)
Lt. Col. Bonden	- (Transportation Sub-Comm.)

1. Col. Legg explained that the reason for this meeting was the Vice President's instructions that the food supply to Rome was to be increased to 50,000 tons per month.

2. Col. Legg said that he proposed to outline the various duties of the Sub-Commissions concerned.

Agricultural Sub-Commission. - They would submit to the Food Sub-Commission a weekly forecast of the areas and collecting points.

Food Sub-Commission. - They would prepare for the Transportation Sub-Commission daily a schedule of areas and loading points.

Transportation Sub-Commission. - They would decide the method of transport to be used, e.g. Rail, Road or Water and would arrange for the lifts according to the transport available.

Capt. Lester (Rome Region) would be responsible for coordinating his requirements with the Agricultural Sub-Commission. He had already established contact and knew what commodities were available and he would have to notify the Agricultural Sub-Commission as to what his future requirements would be.

3. In order to see that complete coordination was established between the three Sub-Commissions and Capt. Lester, starting Tuesday 22 August a meeting will be held daily in Maj. Horner's office at 1000 hrs.

4. No further matters were discussed and Col Legg stated that he now left to the representatives of the 3 Sub-Commissions and Capt. Lester to put the plan into action. But one point was raised by Capt. Lester. He asked if it would be possible for a definite tonnage in schooners to be allocated to Rome itself. Col. Legg stated that he himself was looking into this matter.

date: 17 Aug. 68.

TO : Economic Section, P.O. 400 YD.

SUBJECT : Antenna Movement.

1. Antenna Movement.

Gov. and have agreed to a daily lift of 150 tons potatoes, destination

22/75

at 0001 hours at S. Giovanni Rail Yard, Naples.

In order that first train arrives Rome (Tuscolana siding) Monday 21 Aug. at 0001 hours it is essential loading at Naples is effected by 1600 hours on August 18. This being impossible I have agreed that as many wagons loaded with potatoes as possible be despatched at 1600 hours commencing Saturday 19 August. In view of the fact that loading must be completed by 1600 hours it is doubtful whether they will be able to load full complement of 150 tons for the first day (Saturday). That train leaving 19 August will be due Rome (Tuscolana) at 0001 hours Tuesday 20 August.

2. Antenna Movement.

100 tons foodstuffs daily will be loaded as usual at Food Sub-Commission warehouse and piled forward to S. Giovanni, Naples to be attached to Livorno dock train.

60 tons potatoes daily to be loaded in S. Giovanni Stn, Naples to complete Livorno dock train.

It is assumed that this train will leave approximately at 1700 hours on Saturday 19 August and will be due at Livorno 0900 hours Monday 21 August. However, it may not be possible to stretch potatoes as a/o shortage of time for loading Saturday 19 August, but foodstuffs will move forward in any case and as it has been arranged for this movement to continue for roughly 7 day periods I have no doubt that Gov. and will authorize us to continue for an additional day or two to complete total despatch.

ALLIED FORCE
MILITARY RAILWAY SERVICE
OFFICE OF DIRECTOR GENERAL

A. P. O. 400
18 JULY 1944

SUBJECT: MOVEMENT OF POTATOES *A. C. C.*
TO: CO, 701 RAILWAY GRAND DIVISION, APO 400

1. ITALIAN STATE RAILWAYS HAVE 30 CARLOADS OF POTATOES TO BE MOVED FROM CASALNUOVO, MARIGLIANO, ACERRA, AND CASORIA AT THE RATE OF TWO CARS PER DAY, TO THEIR COMMISSARY DEPARTMENT AT BARI.
2. THESE POTATOES ARE FOR DISTRIBUTION TO THE EMPLOYEES OF THE I.S.R., AND AS SUCH, WILL MOVE AS RAILWAYS FREIGHT.
3. ARRANGE TO CONFER WITH ING. MORANDI AND FURNISH THE EQUIPMENT AS REQUIRED, AND LOAD THESE POTATOES CURRENTLY TO BARI OVER AND ABOVE ANY CIVILIAN FREIGHT TONNAGE COMMITMENT WHICH MAY BE INVOLVED.
4. THIS MOVEMENT IS NOT BEING HANDLED THROUGH THE NORMAL CHANNELS OF THE SUB-COMMISSION FOR CIVILIAN FREIGHT AS IT IS ESSENTIAL TO THE CONTINUED OPERATION OF THE RAILROAD THAT THIS FOODSTUFF BE PROMPTLY AND IMMEDIATELY AVAILABLE.

ACC/40-3/FOOD

SUBJECT: Shipment of Potatoes from Region III

TO : Regional Commissioner, Region II
(Attn: Region Supply Officer)

1. Arrangements have been made to rail 10 cars per day containing 100 to 150 tons potatoes from Naples Province to Bari. Shipments will commence on Friday 7 July and continued to Sunday 16 July inclusive. Transportation bids are being made for subsequent periods and subject to this acceptance, rail shipments will also be made to Lecce Brindisi and Taranto as well as to Bari. If you desire any specific quantities to these destinations please let us know immediately.

2. The price ^{for} for approximately the first 1000 tons will be lire 1150 and subsequently lire 1000 per kilo. Payment should be made to the Associazione Generale di Commercianti di Napoli via Agriculture Office Region III.

3. The continued shipment of these potatoes is dependant on the immediate replacement of sacks. 40,000 - 100 pound flour sacks have been borrowed specifically for this traffic subject to prompt return. It is requested therefore that you will replace this quantity immediately by the shipment of 40,000 similar sacks and subsequently arrange for supplies of sacks to provide for the continuance of this traffic. Unless this request is fully complied with supplies of potatoes will not be continued.
