INTER-OFFICE MEMORANDUM

Tel : 478701 18 May 1943

278/298/In 3

SUBJECT : Rail shipment of Pasta from Naples

TO : Food Sub-Commission

1. Reference your 51-5/140/Food of 1 May it has been confirmed that failure to load a larger tonnage of pasta resulted entirely from the scarcity of rail cars.

2. Will you please point out to the Consorzio Agrario that they should contact the AO Transportation Officer locally when they find that cars are not being supplied and that this should be done at the time of loading so as to ensure that they get at least a fair share of the available empties. Such action will be much more effective than any complaint registered at a later date.

MEMORANDUM

With letter 15-4-1945 No. m.319/123 addressed to the Transportation Sub-Commission, the following has been stated :

Seen the urgent necessity of the firm Giorgio Pecini of Prato, to obtain the allotment of 6 waggons at the station of Messina for transport of rags to Ponte Tuscolana, to be forwarded to Prato (Tuscany).

Attention is called that such rags are necessary for manufacturing of cloths, for the population that, as it is well known, is in bad need of it, and it is requested therefore that instruction of the case should be given to authorities in power.

Would be pleased to hear what steps have been taken on the matter in order to give assurence to the autority interested on this request.

A P P U N T O

Con lettera del 15.4.1945, n.° m. 319/123 diretta alla Sottocommissione Alleata pel Movimento Ferroviario(Via Vittorio Veneto) è stato detto quanto segue:

Viene prospettata l'urgente necessità della Ditta Giorgio Pacini di Prato per ottenere dal 16 al 21 corr. la concessione di 5 vagoni alla stazione di Catania e 5 alla stazione di ~~Palermo~~ Messina pel trasporto di stracci destinati a Roma-Tuscolana per l'ulteriore inoltro a Prato in Toscana.

Si fa presente che detti stracci servono per la fabbricazione di stoffe per la popolazione che, com'è noto, ne ha assoluto bisogno e pertanto si prega di volere dare le disposizioni del caso alle competenti autorità.

Si gradirà conoscere quanto sopra stabilito in proposito per poter darne assicurazione alle autorità che hanno segnalato la richieste.

DRAFT

4. Some confusion over the allocation of wheat Terni to Rome and the AMG Supply Officer Terni refused permit loadings. (This is the C.A.F. story).

5. (a) Bid No 3638 was placed by the Regional Engineer Lazio Umbria Region AMG for 200 tons Cement from Colleferro to Assisi.
Lazio Umbria Region AMG now disbanded.

(b) Bid No 8707 was placed by the Electric Division E.W. & U. Sub-Commission for 100 tons Cement from Colleferro to Terni.
The Sub-Commission state that if any of this traffic did not move it was because the wagons were being used for other than AC traffic of which they have found instances.

6 & 7. Impossible to answer as covers only small portion of Foggia bids. For the week 19 - 25 March Foggia accepted wheat/flour bids amounted to about 2500 tons whereas shipments amounted to 1300 tons. The explanation given by Foggia for non-shipment was as follows :

No rail cars
Failure of wagon labels to arrive at station
No sacks
No flour at one mill.

8 & 9. Supply Officer Grosseto Province reported that transport available for loading on the following dates was :-

10 and 20 April	5	lorries
21 April	9	"
22 "	15	"
23.24.25 April	19	"

SUBJECT : Rail shipment Pasta from Naples

TO : Senior Transportation Officer AC
c/o AMG Comune Naples

1. Food Sub-Commission have forwarded a summary received from Federazione Italiana del Consorzi Agrari, copy of which is attached indicating that movement of pasta from Naples to Rome, Frosinone and Littoria for the period 2 - 8 March fell far short of the allotted tonnage accepted for movement.

2. In view of the inadequate productive capacity in Rome area, it is essential that the tonnage set up to move each week from Naples is despatched, otherwise the stocks in Rome cannot be maintained.

3. Please give all future movements of pasta from Naples your special attention making every endeavour to have necessary wagons placed for loading. At the same time please confirm that it is in fact wagon shortage that is holding up movement and not the inability of consignors to load, which so often proves to be the case.

1. Enclosed is summary statement received from Federazione Italiana dei Consorzi Agrari of bids accepted and actual shipments of pasta from Naples to Rome, Frosinone and Littoria in the period 5 Marc to 6 April.

2. Because of the shortage of rail cars only two-thirds of accepted shipments could be fulfilled. It is very necessary that pasta snipments be fulfilled because the inadequate productive capacity of the Rome area necessitates the utilization of Naples' productive facilities. Your efforts to secure cars for this important movement in the future will be appreciated.

Subject: Rail shipments of printing-paper.

On April 14th/ this Undersecretary's Office has received from the Allied Authorities an allotment of printing paper which ought to be distributed to the Italian Press -

The paper was stored ~~at~~ in Naples at the 125th Warehouse - As we have to supply the newspapers of the various Italian Regions, we have requested (at first verbally and then with a note) to the State Railways the allocation of wagons to dispatch the above mentioned paper to Puglia, Calabria, Bari, Catania, Palermo, and Rome - We have also pointed out that the dispatches were of a certain urgency - But how State-Railways have informed us that the Allied Authorities will not be able to allocate Wagons before April the 20th -

OGGETTO: Spedizione carta da stampa

Questo Sottosegretariato in data 10 corr. ha ricevuto in consegna dalle Autorità Alleate un quantitativo di carta per la distribuzione alla stampa italiana.

Detto quantitativo fu depositato nel magazzino 1254 di Napoli.

Stante la necessità di provvedere alle esigenze dei giornali nelle diverse regioni d'Italia, prima verbalmente e poi a mezzo fonogramma fu richiesta alle Ferrovie dello Stato l'assegnazione di vagoni per il trasporto di detta carta a Reggio Calabria, Bari, Catania, Palermo e Roma, facendo presente che le consegne in questione avevano, tutte, carattere di estrema urgenza. Le Ferrovie dello Stato hanno ora informato che le Autorità Alleate non potranno autorizzare la concessione dei vagoni prima del 30 corrente mese.

Il menzionato invio della carta alle sedi

destinate provocherà la sospensione delle pubblicazione dei giornali con gravi ripercussioni sull'opinione pubblica e pertanto, ad evitare inconvenienti, si prega di voler esaminare con la massima benevolenza la possibilità di fare assegnare i vagoni in questione al più presto possibile.

Si fa presente che è soprattutto critica la situazione di Reggio Calabria dove a partire dal 15 aprile i giornali sono senza carta.

1. All relevant clothing not to be free from the Allied Armies are consigned to U.S.I.A. for use of the Italian Army. If ..... This test lorry are of no value they are transferred to Commerce Sub-Commission for requirements, trades, and issue to civilian workers.

2. The superintending of these arrangements under the supervision of this office is carried on in order. However a portion of the clothing is made available to AC by U.S.I.A. Bari and loaded and transport by rail must be arranged to send the quantities involved to Naples.

3. In the past months the work of arranging transport has been done in Bari by the Bari Liaison Officer, Lt. Henry. However, Transportation Sub-Commission has informed this office that such work is not within its jurisdiction and in view of the fact that many duties have fallen on his shoulders recently it would be best to relieve him of the responsibility.

4. Therefore it has been suggested that since Commerce Sub-Commission does not have an officer in Bari, the Local office which should take on the responsibility of arranging transport is yours. If this plan meets with your approval may we be informed of the name and rank the officer we to whom contact should be made in the future.

SUBJECT: Movement of salvaged oil from Dodecanese to Naples.

Our factory at Leros-Calimno must transfer nearly 1000 quintals of salvaged oil which has already been carried by our refining factory at Naples.

Then it should also be forwarded to our naval factory at Naples nearly 150 quintals of still-wet olive oil which must be refined.

As to obtain the real data and the real-time data to operate these movements it is necessary your authorization, we beg you to approve the necessary allocation.

Our Naples factory is at present un-operating owing to lack of raw materials and from the arrival of the needed oil it depends the possibility to keep employed our workmen.

SUBJECT : Movement of Bricks.

278/259

TO : Transportation Sub-Commission
Movements Division - Roads Branch
(Attn.: Maj. Wadt-Gardner)

FROM : Industry Sub-Commission.

1. Reference is made to your letter AG/605/45/In
3, dated 9 April 1943.

2. It is the opinion of this Sub-Commission that the simplest arrangement would be to transfer the bricks by motor trucks from Sinalunga (Prov. Perugia) to Campiglia (Prov. of Leghorn) - distance 124 Kms., in case that it can be done in a reasonable period of time (i.e. 4 to 5 weeks). However, it is within the competence of Transportation Sub-Commission to decide the convenience of a combined movement by motor trucks from Sinalunga to Chiusi (Id. Kms) and by rail from Chiusi to Campiglia and from Chiusi to Roselmano.

3. Please consider this letter as a request for a transfer of 400,000 bricks (1200 tons) as follows:

270,000 bricks (810 tons) from Sinalunga to Roselmano

130,000 bricks (350 tons) from Sinalunga to Campiglia.

SUBJECT : Movement of Calcium Nitrate from Nera Montoro to Crotone.

TO : Montecatini Company -
Via Calabria 18, Rome.
(Attn.: Eng. Nicodemi)

1. Reference your letters dated 11 and 14 April 1945.

2. We wish to advise you that 45 of the 91 tons of calcium nitrate which are to be moved have been scheduled for shipment during the period 23 to 29 April, although your bid was lodged too late.

3. Referring to your request that at least 30 tons of the subject material be moved during the week ending April 29, we would point out that the present procedure calls for bids to be submitted two full weeks before the period concerned.

4. Therefore your request should have been referred to period 30/4-6/5, and only as an exception was it accepted for the previous one, in consideration of its urgency.

SUBJECT: OIGA Vinaora Coy. movement of Transformer.

TO : Engineer Procurement Section, PBS
Leghorn Town Station
(Attn.: Mr. McDonald).

1. On December 13, 1944, Engineer Service, Southern District, PBS, advised this office, through AFHQ Rome, that one of the two transformers requisitioned by PBS from the OIGA Vinaora plant at Naples would be returned to the owners.

2. Transportation from Leghorn to Rome (where OIGA Vinaora own another plant which is scheduled for reactivation, aside from their Naples factory which is damaged beyond repair) was arranged by this headquarters and was to have taken place during the period 12-18 February 1945, but for some unknown reason was never effected.

3. As of to day, we are therefore submitting a new and urgent bid for this movement, which if accepted should take place during the period April 30 to May 5 next.

4. Will you kindly contact the Leghorn Stationmaster and see that the transformer in question is lifted

SUBJECT: Request for Transport of Fishing Industry Supplies.

TO : Transportation Sub-Commission.

1. Reference your letter AC/86/36/Tn 3 dated 31 March 1945.

2. In view of the fact that the movement by road of the 7 Tons of fisheries supplies cannot be allowed, the Ministry of Agriculture has asked this Sub-Commission to arrange for a wagon from Cancello to Ancona.

3. The 7 Tons of subject material are to be distributed as follows:

a) 3 Tons at Ancona, for the fishing centers between Ancona & Rimini. The Capitaneria di Porto of Ancona will take care of the distribution.
b) 4 Tons to be distributed to the fishing centers south of Ancona, within about 50 miles.

4. Road movement is requested for the 4 Tons destined as per para 3, b).

5. Attached is the request for the transportation by rail of the subject material from Cancello to Ancona.

PROVINCE OF REGGIO IN CALABRIA

SUBJECT: RAIL BIDS NOT ACCEPTED.

REF: REG. A.C. 2 APRIL 45

TO: A.Q. A.C. (FOR TPTN. S.C.)

278/27

1. During the recent visit of Col. Thomas I suggested it might be of interest to you to know of the quantities of bids not accepted.
2. Following are figures for the 6 "movements" weeks 12 Feb to 25 March:-

Commodities in tons.

Week	Agrumi	Wine	Timber	Misc.	Total tons
Feb 12-18	19794	2968	220	1260	23862
" 19-25	9171	941	129	1103	11344
26-Mar 4	20491	3032	992	1309	25849
Mar 5-11	31056	7133	313	3241	41943
" 12-18	-	9401	99	3009	13339
" 19-25	-	1318	1056	3313	11171

3. No doubt much of the tonnage is the same goods re-bid week by week, but the figures do give an idea of the number of bids received and not moved week by week.
4. In regard to wine (in which is also included vermouth and marsala) only about 10 wine tankers are available in any one week and no movement in box cars has been authorised for a long time. Wine bids are, of course, dealt with now by separate but a considerable tonnage is still bid through stations each week for vermouth and marsala. I do not feel that we are yet well enough supplied to authorise any box cars for it (tonnage permitting) even if you approved use of box cars for such movement - sea movement seems to be the only answer.

INSTRUCTIONS FOR PREPARATION OF BID - FORM TSC/3.

1. Bidding system is designed to provide positive control of transportation by rail of civil freight traffic (both AC and Ordinary Italian). Careful reading of and compliance with these instructions and accurate preparation of Form TSC/3 will materially help all concerned to obtain the best possible transportation.

2. **Types of Civilian Freight Traffic.** Civilian (i. e. all non military) traffic falls into two broad categories.

(a) **AC Traffic.** Comprises commodities which AC considers essential to meet vital needs and over which AC exercises a large measure of control, such as wheat, flour, sugar, olive oil and other basic foodstuffs or supplies. Salt, fuel, fertiliser, seeds, and essential products sponsored by Italian Government under AC auspices are included in this category.

(b) **Ordinary Italian Civilian Freight Traffic.** Comprises all freight movements required by civilians, not coming under sub-para (a) above. Such movements must be limited to capacity available after requirements of sub-para (a) above, have been fully met.

3. **Emergency Traffic of Extreme Urgency.** Regular working of bidding system is essential. However, it is appreciated that emergencies may arise requiring special movement arrangements. In such cases, form TSC/3 will be prepared, clearly marked «Emergency Request», and details of emergency clearly specified. Officers and consignors preparing form TSC/3 are responsible for determining that there is actual urgency.

4. **AC Official Wagon Labels.** Attention is directed to the fact that wagons must bear official AC WAGON LABELS, completed in ink. Two numbered labels will be provided, upon acceptance of bid, for each authorised wagon. Labels will be supplied by AC In Representative to Regional and Provincial Supply Officers, who will endorse them with details of commodity, serial number of bid, date during which movement is authorised, stamp and sign them before issuing to consignor. The number of the railway wagon will be inserted in ink by stationmaster at time of loading. On any cancellation of movement AC official wagon labels must be returned to issuing authority.

5. **WARNING.** Italian railways have been seriously affected by ravages of war. There are critical shortages of coal supplies and wagons, and military necessities must always receive preference. Bids beyond reason or necessity must not be made and quantities must be limited to actual requirements, and must not exceed the quantity that can be loaded within any one seven day period. Mass bids for large quantities to move at problematical date, or for which all details have not been fully determined, will NOT be submitted on form TSC/3. Letter giving details of such proposed or problematical shipments should be submitted to HQ. AC Transportation Sub-Commission in advance, through usua channels giving all known details.

ISTRUZIONI PER LA PREPARAZIONE DELLE DOMANDE - MODULO T.S.C./3

I. — Il sistema «a mezzo richieste» venne designato per provvedere al controllo effettivo dei Trasporti per ferrovia del traffico di merci appartenenti a civili (ambo A.C. ed Italiani). Accurata lettura e sommissione a queste istruzioni, nonchè attenta compilazione del Modulo T.S.C./3 sarà di aiuto materiale a tutti gli interessati per ottenere possibilmente migliore mezzo di trasporto.

II. — **Tipi di traffico di merci per civili** (cioè tutti i non appartenenti a forze armate). Questo traffico viene suddiviso in due grandi categorie:

(a) **Traffico AC**, comprende quei generi che l'AC considera essenziali alle necessità civili, e sovra i quali l'AC esercita ampie misure di controllo, come: Frumenti, Farine, Zucchero, Olio di oliva e tutti quei prodotti o provviste basilari per l'alimentazione. Sali, combustibili, fertilizzanti, semi e prodotti essenziali contingentiati dal Governo Italiano sotto il controllo dell'AC, devono considerarsi nella medesima categoria.

(b) **Traffico ordinario di merci per civili italiani.** Comprende tutto il movimento di merci richiesto da civili non entranti nel sopradescritto II par. (a). Questo movimento deve essere limitato alla capacità utile dopo che le esigenze di cui al sottoparagrafo (a) sono state pienamente osservate.

III. — **Traffico di emergenza dovuto ad estrema urgenza.** Il regolare lavoro del «sistema Richieste» è essenziale. Ciononostante è ammesso che possano accadere casi emergenti per i quali sono necessari provvedimenti speciali di movimento. In tali casi: il Modulo T.S.C./3 verrà compilato con chiaramente indicato «Richiesta di Emergenza» specificandovi dettagliatamente i motivi di emergenza. Gli ufficiali ed i mittenti che compilano le **richieste di emergenza** restano responsabili per la motivazione (**di attuale urgenza**).

IV. — **Etichette ufficiali AC per vagoni.** Si richiama l'attenzione al fatto che i vagoni debbono portare le **etichette AC** compilate in inchiostro. Ad avvenuta accettazione delle diverse richieste, l'AC rilascerà due etichette da applicarsi ad ogni vagone autorizzato. Dette etichette si otterranno dagli ufficiali regionali e provinciali rappresentanti l'AC (Commissione Trasporti) i quali cureranno di inserire i dettagli riguardanti le merci, il numero di serie delle richieste, le date del periodo riguardanti l'autorizzazione del movimento, il timbro e la firma prima di consegnarli all'interessato. Il numero del vagone verrà inserito in inchiostro dal Capostazione al momento del carico. Per ogni eventuale soppressione di movimento, le etichette ufficiali dell'AC devono essere riconsegnate alle Autorità militari.

V. — **ATTENZIONE.** Le ferrovie di Stato Italiano sono state seriamente colpite dalla strage di guerra; vi è critica penuria di carbone, materiali e vagoni, e di più le esigenze militari debbono avere sempre la preferenza.

Richieste al di là della possibile necessità non devono essere attuate, le quantità limitate e non eccedere quelle stabilite per il carico periodico di sette giorni.

Cumoli di richieste per grossi quantitativi, movimenti a date problematiche, oppure quando i dettagli delle medesime richieste non siano stati determinati con precisione non dovranno essere presentate con Modulo T.S.C./3. La corrispondenza riguardante dettagli di proposte o problematiche spedizioni dovrà essere sottomessa preventivamente all HQ. AC., Sottocommissione dei Trasporti, per vie usuali, dando tutte le spiegazioni necessarie conosciute.

The only Santa Caterina with which the Italians here are familar is in Sardinia; the ocean presents a difficulty to railing goods thence. Consignee's names are helpful in dispatching surplus; none appear on the signal.

5. Several phone calls were put thro to Rome on Sunday 18 Mar 45 with no luck.

6. On Monday 19 Mar 45 after several phone calls to and from Rome and the assistance of Mr. Gaddum, who happened to come here, the necessary release orders, consignees (seven in number) and quantities for each, were received. These will be confirmed in writing, it is hoped.

7. As the rail period commenced on 19 Mar 45 the shipment is now two days behind the rail program, which seems to be a carefully thought out document, but with luck the shipment will be made.

1. Your letter Ref:- AGR/903.2 dated 28 March '45 containing a request for road transport has been considered.

2. It is regretted that movement by road over such a great distance cannot be arranged owing to other commitments. This matter has been discussed with the Rail Branch of this Division. It has been agreed that a wagon will be made available from CANCELLO to RIMINI. Distribution from RIMINI will be under local arrangements.

3. Attached are copies of Rail bid forms TSC/3, which must be completed in duplicate and submitted to Rail Branch Movements Division.

4. In view of the highly pilferable nature of the stores concerned, arrangements can be made for two or three men to travel in the wagon for the purpose of guarding and supervising distribution of the stores. Dott. Zandrino,
Office of the High Commissioner
for Food,
Via Sallustiana no. 10.
ROME

Dear Dott. Zandrino,

We have been informed by Allied Commission that a substantial part of our previously requested ships for the week 26 March through 1 April will probably not be met, and they have suggested that we do not delay in putting in bids for the estimated part that will remain. In order not to lose the opportunity of putting in bids, on Wednesday 28 March we have arranged transportation for miscellaneous food items in the quantities shown on the attached schedule, to the Provinces mentioned therein.

I hope you will, by next Tuesday, be in a position to instruct the Federazione as to future bids that you wish to make. We shall, of course, at all times be ready to look after whatever wants may arise in an effort to get as much of the foods over as promptly as possible. To facilitate such assistance I would suggest that this office be supplied with copies of the bids the Federazione makes.

Sincerely yours,

Colin McKenzie

INSTRUCTIONS FOR PREPARATION OF BID - FORM TSC 3.

1. Bidding system is designed to provide positive control of transportation by rail of civil freight traffic (both ACC and Ordinary Italian). Careful reading of and compliance with their instructions and accurate preparation of Form TSC 3 will materially help all concerned to obtain the best possible transportation.

2. **Types of Civilian Freight Traffic.** Civilian (i. e. all non military) traffic falls into two broad categories.

(a) **ACC Traffic.** Comprises commodities which ACC considers essential to meet vital needs, and over which ACC exercises a large measure of control, such as wheat, flour, sugar, olive oil and other basic foodstuffs or supplies. Salt, fuel, fertiliser, seeds, and essential products sponsored by Italian Government under ACC auspices are included in this category.

(b) **Ordinary Italian Civilian Freight Traffic.** Comprises all freight movements required by civilians, not coming under sub-para (a) above. Such movements must be limited to capacity available after requirements of sub-para (a) above, have been fully met.

3. **Emergency Traffic of Extreme Urgency.** Regular working of bidding system is essential. However, it is appreciated that emergencies may arise requiring special movement arrangements. In such cases, form TSC 3 will be prepared, clearly marked «Emergency Request», and details of emergency clearly specified. Officers and consignors preparing form TSC 3 are responsible for determining that there is **actual** urgency.

4. **ACC Official Wagon labels.** Attention is directed to the fact that wagons must bear official ACC WAGON LABELS, completed in ink. Two numbered labels will be provided, upon acceptance of bid, for each authorised wagon. Labels will be supplied by ACC In. Representative to Regional and Provincial Supply Officers, who will endorse them with details of commodity, serial number of bid, date during which movement is authorised, stamp and sign them before issuing to consignor. The number of the railway wagon will be inserted in ink by stationmaster at time of loading. On any cancellation of movement ACC official wagon labels must be returned to issuing authority.

5. **WARNING.** Italian railways have been seriously affected by ravages of war. There are critical shortages of coal supplies and wagons, and military necessities must always receive preference. Bids beyond reason or necessity must not be made and quantities must be limited to actual requirements, and must not exceed the quantity that can be loaded within any one seven day period. Mass bids for large quantities to move at problematical date, or for which all details have not been fully determined, will **NOT** be submitted on form TSC 3. Letter giving details of such proposed or problematical shipments should be submitted to HQ ACC Transportation Sub-Commission in advance, through usual channels giving all known details.

ISTRUZIONI PER LA PREPARAZIONE DELLE DOMANDE - MODULO T.S.C. 3

I. — Il sistema «a mezzo richieste» venne designato per provvedere al controllo effettivo dei Trasporti per ferrovia del traffico di merci appartenenti a civili (ambo **A.C.C.** ed Italiani). Accurata lettura e sommissione a queste istruzioni, nonchè attenta compilazione del Modulo T.S.C. 3 sarà di aiuto materiale a tutti gli interessati per ottenere possibilmente migliore mezzo di trasporto.

II. — **Tipi di traffico di merci per civili** (cioè tutti i non appartenenti a forze armate). Questo traffico viene suddiviso in due grandi categorie:

(a) **Traffico ACC.** comprende quei generi che l'ACC considera essenziali alle necessità civili, e sovra i quali l'ACC esercita ampie misure di controllo, come: Frumenti, Farine, Zucchero, Olio di oliva e tutti quei prodotti o provviste basilari per l'alimentazione. Sali, combustibili, fertilizzanti, semi e prodotti essenziali contingentati dal Governo Italiano sotto il controllo dell'ACC, devono considerarsi nella medesima categoria.

(b) **Traffico ordinario di merci per civili italiani.** Comprende tutto il movimento di merci richiesto da civili non entranti nel sopradescritto II par. (a). Questo movimento deve essere limitato alla capacità utile dopo che le esigenze di cui al sottoparagrafo (a) sono state pienamente osservate.

III. — **Traffico di emergenza dovuto ad estrema urgenza.** Il regolare lavoro del «sistema Richieste» è essenziale. Ciononostante è ammesso che possano accadere casi emergenti per i quali sono necessari provvedimenti speciali di movimento. In tali casi: il Modulo T.S.C. 3 verrà compilato con chiaramente indicato «Richiesta di Emergenza» specificandovi dettagliatamente i motivi di emergenza. Gli ufficiali ed i mittenti che compilano le **richieste di emergenza** restano responsabili per la motivazione (**di attuale urgenza**).

IV. — **Etichette ufficiali ACC per vagoni.** Si richiama l'attenzione al fatto che i vagoni debbono portare le **etichette ACC** completate in inchiostro. Ad avvenuta accettazione delle diverse richieste, l'ACC rilascerà due etichette da applicarsi ad ogni vagone autorizzato. Dette etichette si otterranno dagli ufficiali regionali e provinciali rappresentanti l'ACC (Commissione Trasporti) i quali cureranno di inserire i dettagli riguardanti le merci, il numero di serie delle richieste, le date del periodo riguardanti l'autorizzazione del movimento, il timbro e la firma prima di consegnarli all'interessato. Il numero del vagone verrà inserito in inchiostro dal Capostazione al momento del carico. Per ogni eventuale soppressione di movimento, le etichette ufficiali dell'ACC devono essere riconsegnate alle Autorità militari.

V. — **ATTENZIONE.** Le ferrovie di Stato Italiano sono state seriamente colpite dalla strage di guerra; vi è critica penuria di carbone, materiali e vagoni, e di più le esigenze militari debbono avere sempre la preferenza.

Richieste al di là della possibile necessità non devono essere attuate, le quantità limitate e non eccedere quelle stabilite per il carico periodico di sette giorni.

Cumuli di richieste per grossi quantitativi, movimenti a date problematiche, oppure quando i dettagli delle medesime richieste non siano stati determinati con precisione non dovranno essere presentate con Modulo T.S.C. 3. La corrispondenza riguardante dettagli di proposte o problematiche spedizioni dovrà essere sottomessa preventivamente all'HQ. ACC., Sottocommissione dei Trasporti, per vie usuali, dando tutte le spiegazioni necessarie conosciute.

1. A request from the movement Section has just been received, for two cars to be authorised for movement of foodstuffs for Cooperative Ferroviari di Taranto from Manfredonia and Rice re Inf. to Taranto, and it was apparently expected to be authorised and moved immediately.

2. This request cannot be considered for movement before the period 26 March I April for which period it is just in time.

3. It must be understood by all concerned that we must have a closing time for receiving bids.
This deadline has been established as 12 o' clock noon on Wednesdays, 12 days prior to loading period.
Anything received after this time will be considered the succeeding loading programme.

TO : Food S/O HQ AC.

1. Extract from FSO AREZZO Monthly Report for Feb 45, showing difficulties caused by the late receipt of railway advices, is fwd.

2. Please may this matter be taken up with Sn S/O? It is recognized that signal communication is very bad in this Region. However, if signals were addressed to HQ 55 Area for AMG, there might be less delay. Efforts have been made to contact AREZZO by phone to ascertain whether this would be possible. Perhaps your signal office could take the matter up.

EXTRACT FROM PRO 1420 MONTHLY REPORT FOR FE[illegible] Y 1945

Warehouse space is needed since trucks arriving at railhead are required by the Army to be unloaded within 24 hours of arrival. As many of the wagons arriving are consigned to addresses in Florence, Siena, etc., very great difficulty is being met with unloading within the scheduled time limit and as a consequence "Movements," Area H[illegible], are pressing for a transit warehouse. Bad labeling has on many occasions caused serious delays even to the point of certain foods going bad. This a matter which could be avoided, but when it is left to an Italian Agency or individual merchant to consign the goods correctly addressed, it is invariably found that wagons arrive without labbels of any sort or that the labels have been written faintly in pencil which the weather has obliterated.

When dealing with consignments, as A.M.G. here are required to do, it is important that advice notes of traffic movements be received in time. Advice notes are arriving from Rome Transportation Sub-Commission two days before the date of expiry and 5 days after the commencement of the period. It should be possible for Provinces to receive these advice notes prior to the period to which they refer, and not as now when the period is about completed. This is especially important at the Arezzo Railhead since as pointed out so much of the traffic is for other provinces who should be informed of the pending arrival, whereas now no such notification can be given them until after the arrival of the goods.

Reference your 278/167/Tn.3 dated 9 March 1945 regarding the failure to place wagons at Littoria for programmed A.C. Traffic, it is pointed out that on the published A.C. programmes both Bid No. 5738 and 6751 are recorded as loading at Monte San Biagio, and this may have contributed to the absence of wagons at Littoria. It is not known whether wagons were actually placed at Monte San Biagio for these bids, as this station is in the territory directly controlled by H.Q. Movements West Italy.

In conjunction with M.R.S., we will endeavour to ensure that wagons are placed for this traffic in the period 19 - 25 March.

SUBJECT: Movement of Rocksalt from Rome S. Lorenzo to Anione Plant - ROME -

TO : Transportation Sub-Commission
(Attn.: Rail Section - Major Stait-Gardner).

1. Wagons with rocksalt will be arriving at intervals during the month of March at Rome - S.Lorenzo Station with destination Societa' Chimica dell'Aniene, Rome, Via Tiburtina 824.

2. This salt is required for the production of chlorine, stocks of which are practically exhausted.

3. It is necessary to move the rail cars from the S. Lorenzo station to the plant by means of transporters (" carrelli stradali ").

4. It is understood that "Gestione Carrello Stradale" Rome - S. Lorenzo has at the moment only one transporter available for the above mentioned movement.

5. Given the urgent need for rocksalt it is requested that "Gestione Carrello Stradale" be informed by you that a first priority be assigned to the transport of wagons with rocksalt.

1. Bids for movement of empty casks (used and new) are giving us considerable trouble and we are not in a position to know who are legitimate business people and who are speculators.

2. I would therefore suggest that as bids for Movement of vino are being screened by Sepral, that bids for empty casks be also dealt with by them as they are in a position to consult Chambers of Commerce and submit bids for authorized traders only.

3. A letter on the subject is attached hereto.

It has come to our knowledge that authority for transportation of casks to consignors not inscribed in the " Records of the Chamber of Commerce " has in the past been given.

This permission considerably embarrassed us, and in fact, has stopped our activity.

As, this condition has stopped our cask manufacture, resulting in damage and much expense, will you please instruct the I.S.R. that the allocation of Railway Wagons, should be done without partiality, only to Firms inscribed with the " Chamber of Commerce "

La Ditte firmatarie del presente esposto, si pregano esporre a codesta On.le Camera del Commercio, Industria e Lavoro, quanto segue:

Risulta che sono state fatte concessioni di vagoni ferroviarii per la spedizione di fusti a Ditte non munite di regolare iscrizione presso l'Albo di codesta Camera di Commercio.

Inoltre, le predette concessioni hanno non solo notevolmente intralciato, ma addirittura paralizzato l'attività delle Ditte scriventi.

Poichè il perdurare del grave inconveniente lamentato, ha già posto le Ditte nelle condizioni di sospendere parzialmente o totalmente la fabbricazione dei fusti, con loro grave danno morale ed economico, col dover sopportare le stesse spese giornaliere non indifferenti durante l'attuale periodo di emergenza, (tasse, salari agli operai, assegni familiari, ecc.), ed allo scopo di non protrarre ulteriormente tale stato di cose, analogamente a quanto è stato fatto per la concessione dei vagoni alle Ditte esportatrici di prodotti ortofrutticoli, come dal comunicato riprodotto sulla stampa cittadina del [illegible] Febbraio u.s., si prega vivamente codesta Camera di Commercio di voler impartire opportune e precise disposizioni all'Amministrazione

Subject : Rail Bids Woodfuel & charcoal.

To :- Economic & Supply Division
Lazio Umbria Region

2. Reference your letter ES/1944.1 dated 27 February 45 with regard to bids submitted by "Fresconi" and "S.I.F.T.E.S for transportation of fuelwood and charcoal.

3. With regard to "Fresconi" when this man first applied for wagons to transport fuelwood from Civitavecchia to Rome he was directed to A.M.G.-to obtain the necessary permissio to export this commodity into Rome. A.M.G. thereupon issued him a certificate saying he was supplying this commodity on their behalf.

4. Subsequently he made a similar application for wagons to transport charcoal from Civitavecchia to Rome. He was again referred to A.M.G. who issued a further certificate for charcoal.

5. Both of these certificates are in my possession as authority for submission of his bids.

6. With regard to "S.I.F.T.E.S" (Societa Industrie Forestali e Rappresentanze), the A.M.G. applied to the Capo Compartimentale of the Italian State Railways to supply wagons for this firm to bring fuelwood from Pedigliano to Rome for the bakeries. As the application was from A.M.G. the request was submitted.

1014

7. All wagons which have been allocated to Fresconi and S.I.F.T.E.S. have been consigned to A.M.G. at Rome Ostiense (the labels have been made out in my office and signed by me, so I know this is correct) I fail to see how these commodities are getting into the wrong hands.

8. Any fault appears to rest with A.M.G. firstly for authorising these people to ever bid for their wagons. Instead of apportioning the blame themselves, and secondly, in giving that the fuelwood and charcoal is consigned to them, for allowing it to get into other hands after its arrival at Rome Ostiense.

However as fresh bids are further bids are being

for transportation of fuelwood and charcoal.

2. With regard to "Prescott" when this man first applied for wagons to transport fuelwood from Orvieto, Prescott's allegation to Rome he was directed to A.M.A. to obtain the necessary permission to import this commodity into Rome. A.M.A., therefore issued him a certificate saying he was supplying this commodity on their behalf.

3. Subsequently he made a similar application for wagons to transport charcoal from Orvieto to Rome. He was again referred to A.M.A., who issued a further certificate for charcoal.

4. Both of these certificates are in my possession as authority for submission of this bids.

5. With regard to "S.I.P.C.M." (Societe Industrie Forestali e Mapprovvigionamento), the A.M.A. applied to the Capo Compartimentale of the Italian State Railways to supply wagons for this firm to bring fuelwood from Pediglione to Rome for the bakeries. As the application was irregular, the request was submitted.

1614

6. As all wagons which have been allocated to Prescott and S.I.P.C.M. have been consigned to A.M.A. at Rome-Ostiense (the labels have been made out in my office and signed by me, so I know this is correct) I fail to see how these commodities are getting into the wrong hands.

7. Any fault appears to rest with A.M.A. firstly for authorising these people to come direct to me for their wagons, instead of approaching the Bloc themselves, and secondly, seeing that the fuelwood and charcoal is consigned to them, for allowing it to get into other hands after its arrival at Rome Ostiense.

However, as from 12 March, no further bids are being accepted from these two concerns (bids and already open submitted last week for the period 7 to 11 March).

OGGETTO: Assegnazione vagoni ferroviari

E' a conoscenza della scrivente che codesta On.le Commissione Alleata avrebbe disposto l'assegnazione al Compartimento delle Ferrovie di Palermo di un certo numero di vagoni ferroviari per l'esportazione dei prodotti Ortofrutticoli, Agrumari ed altro della Sicilia nell'Italia liberata.

Questa Federazione, nella rappresentanza delle varie categorie interessate ed allo scopo di procedere ad una equa ripartizione fra gli aventi diritto, rivolge vive preghiere a codesto On.le Ufficio perchè le voglia assegnare un congruo numero di detti vagoni in partenza delle varie stazioni di questa Provincia.

E' a Voi nota la precaria situazione economica dei nostri esportatori come Vi è pure nota la svalorizzazione dei nostri pregiati prodotti che fortemente incide sull'economia della nostra Isola, con grave danno dell'agricoltura, del commercio e di numerose maestranze specializzate.

Grati di conoscere le determinazioni che in merito verranno adottate nel ringraziare, porgiamo distinti saluti. 1112

SUBJECT: Rail Loadings.

TO : Food Sub-Commission.

1. Reference your letter 51-2/6/Food, dated 2nd March, 1945.

2. The failure of ENAC to provide an adequate lift for movement of grain to rail head has been taken up with ENAC head-quarters in Rome and the Minister of Communications. The Minister has personally written a letter to the local ENAC Manager, stressing the importance of this movement, and the necessity for seeing that it is carried out in future.

3. At the same time it would be appreciated if you will impress upon your local representative the necessity for prompt action when inadequate transport is provided for such important movements as this. Unless your representative in the field is satisfied that he has been able to remedy the state of affairs by local action, the failure to supply adequate transport should be brought to the notice of this Sub-Commission through your channels; in this manner we are enabled to take more prompt action, and to prevent a recurrence.

SUBJECT : Rail loadings

TO : HQ. AC Transportation Sub-Commission.

1. Refer your letter 278/127/Tn 3 of 24 February listing wheat tonnage accepted to be railed from various stations in the week 5-11 February and showing tonnage actually loaded.

2. The primary cause of failure to load accepted wheat tonnage for Rome has been the insufficiency of lorries to transport wheat to the stations. The lorries are supplied by ENAC and the bids are approved by an ENAC representative before they are submitted to you. As ENAC is a transportation organisation it comes within the jurisdiction of the Transportation Sub-Commission.

3. Your action to bring ENAC of to a state of proper efficiency will be greatly appreciated, for we are concerned with failure of consignees to load accepted tonnage because of the serious effect upon the wheat reserves of Rome.

1. In view of difficulties being experienced in connection with clearing wagons loaded with AC and Civilian freight at ORTONA the Military Authorities have decided that in cases where more than 5 wagons of such freight are programmed from one station to ORTONA then not more than two wagons should be loaded and forwarded per day from that station.

2. Difficulty is being experienced also in that some wagons loaded by Civilians for ORTONA contain freight destined for areas for removal from that town. These wagons are then not unloaded until road haulage is available which entails delay, in some cases for as long as 15 days.

To prevent this in future all bidders who wish to rail freight to ORTONA must state their ultimate destination of the freight e.g. a bid will in future be made ORTONA for PESCARA" and if the ultimate destination is for removal from ORTONA the bid will be refused by this Office.

3. Will you please see that the above arrangements are put into force as soon as possible.

11 Jan. 1945 - Cable Tn S/C to Sicily - requesting allocation box (closed) wagons for rock-salt on priority basis.

24 Jan. 1945 - Bid MD 32 dated 21 Jan. 45, 600 tons rock-salt by ship Porto Empedocle - Rome (Civitavecchia).

8 Feb. 1945 - Informed Maj. Reeve that requisitioned schooner (property of Soc. Chimica dell'Aniene) was unloading pit props in Sicily. Suggested by Maj. Reeve that she could load some of the salt. Tn S/C phoned to AFHQ. AFHQ stated that it was impossible to alter loading programme.
Tn S/C made strong representation to AFHQ to have salt loaded on next steamer arriving at Porto Empedocle (possibly within 10-14 days).

9 Feb. 1945 - Information from Maj. Reeve. Tn S/C have arranged an emergency transfer of 130 tons of salt on 12 Feb. 45. AFHQ endeavouring to arrange further urgent lift. 600 tons rock-salt scheduled for lift end February.

12 Feb. 1945 - Information from Maj. Reeve. 130 tons rock-salt loaded on schooner "Italia Nuova" leaving Porto Empedocle probably 13 Feb. 600 tons will be loaded end of the month (SS. Arsia).

13 Feb. 1945 - Information Capt. Bowers, Port Liaison Officer, Civitavecchia amd Capt. Abriani of Shipping - Agency COGEMA. Trip of Schooner "Italia Nuova" will take approximately 1 month. SS. Arsia left Civitavecchia few days ago bound for Sicily. Returns after having unloaded and loaded at Port Empedocle.

17 Feb. 1945 - Tn S/C will be contacted to-day. The possibility to have allocated 1 or 2 special trains for the transfer of salt by train will be discussed.

APPENDIX

1. The bid MD 11 - 15 Nov. 44 was put in for transfer of salt by schooner.

24 Jan. 1945 - Bid MD 32 dated 24 Jan. 45, 600 tons rock-salt by ship Porto Empedocle - Rome (Civitavecchia).

8 Feb. 1945 - Informed Maj. Reeve that requisitioned schooner (property of Soc. Chimica dell'Aniene) was unloading pit props in Sicily. Suggested by Maj. Reeve that she could load some of the salt. Tn S/C phoned to AFHQ. AFHQ stated that it was impossible to alter loading programme.

12 Feb. 1945 - Information from Maj. Reeve. 130 tons rock-salt loaded on schooner "Italia Nuova" leaving Porto Empedocle probably 13 Feb. 300 tons will be loaded end of the month (SS. Arsia).

13 Feb. 1945 - Information Capt. Bowers, Port Liaison Officer, Civitavecchia and Capt. Abriani of Shipping - Agency COGEMA. Trip of Schooner "Italia Nuova" will take approximately 1 month. SS. Arsia left Civitavecchia few days ago bound for Sicily. Returns after having unloaded and loaded at Port Empedocle.

17 Feb. 1945 - Tn S/C will be contacted to-day. The possibility to have allocated 1 or 2 special trains for the transfer of salt by train will be discussed.

APPENDIX

1. The bid MD 11 - 15 Nov. 44 was put in for transfer of salt by schooner.
2. Further bids were made for rail movements only, both from the mines to Rome and from the mines to the port (Porto Empedocle).
3. No bids were made for transfer by schooners between 15 Nov. 44 and 24 Jan. 45 owing to a request of the Schooner Section Transportation Sub-Commission that sea transportation bids should be put in only after a sufficient quantity of salt had been made available at the port.
4. Owing to difficulties of rail transportation from the mines to Porto Empedocle it was impossible to stockpile the required quantity of salt before 27 Jan. 45. This is the reason why the bid MD 32 for transfer by schooner was not lodged at an earlier date.

SUBJECT: Transportation of Rubber Material.

TO : Director, Transportation, Sub-Commission.

1. Notification has been received from AFHQ that 26 1/2 tons of rubber dust were available to AC.

2. Since the date of this notification a permanent release for residue rubber dust from the 429th Ord Tire repair Company has been received. This amounts to approximately 3 3/4 tons per week. Present stock on hand at the Ord Co. is approximately 45 tons.

3. This material can be used in the production of rubber auto parts and soles and heels.

4. Several attempts have been made to secure transportation for this material but without success. The cost of civilian contract transport forces production cost to a level equal to black market prices and is therefore not desired. AFHQ has warned us that unless this material is picked up immediately it will be disposed of by other means.

5. Request sufficient transportation be made available to transport approximately 45 tons of rubber dust from the 429th Ord. Tire Repair Co., Caserta to the Pirelli Rubber Co, Tivoli, near Rome. Labor for loading and sacks will be furnished by Pirelli.

6. Further it is requested that a weekly schedule of two trucks be established to transport subsequent weekly stocks.

TO : Food Sub-Commission

1. The following instances of failure on the part of Consignees to load the tonnages for which their bids have been accepted for period 5 - 11 Feb. are brought to your attention. It is stated that empty wagons were available to lift full amounts accepted.

From	To	Commodity	Tons per day Accepted	Tons per day Loaded

2. Whilst I appreciate the difficulties of collecting this product at the loading stations I must point out that short loadings on the scale reported can only result in tonnages allotted to AC. being reduced by AFHQ. L.E.ORANDUM

This Religious Institute has obtained from the Ministry of Industry the authorization for the release by the "Cotoniere Meridionali" of Naples, with factory at Fratte di Salerno, of 47.000 metres of textures.
We have already paid the advanced sum of 10.060.000 lires and owing to agreements with that Company;the consignment of the stuff will be done the 20th of February.
For the rail transport to Rome we have already submitted at the Station of Fratte di Salerno, on January the 20th, an application for the allocation of a rail-car - The application forwarded thru the right channel to the compartmental Direction of Naples, should have the approval of the Transportation Sub-Commission of the Allied Command in Rome, at Via Veneto.
But from informations we had it seems that the application has not arrived to Rome and we think that it has been held at the Allied Transport Division of Naples. 989
Considering the urgency to withdraw the commodities in order to keep our engagement with that Company I eagerly beg that office to assign us directly the rail-car.

SUBJECT:Civilian rail traffic for Sicily

TO:Transportation Sub Commission(Rail-Movements)

HQ. AC.

1.In connection with the requests for the movement of Italian Civilian Traffic for the period 25 Feb.to 3 March it is noted that seven of the bids have been rejected,and the tonnage of others reduced.

2.With one exception,all rejections were for traffic to Sicily, and 6 of the reductions were also in connection with Sicilian bids.

3.Whilst appreciating the fact that these rejections are determined by the "tonnage capacity"laid down,there is the factor that MRS are sending 35 empty box wagons from Rome to Sicily daily,and have suggested that they be loaded with any traffic offering.

4.Cannot this factor be taken into account in connection with future bidding periods, please?

The "Società Distillerie Italiane"-as per agreement with the Food General Direction - has to resume, after 18 months of inactivity due to war events, the supply of compressed leaven to the bakers of Naples. Therefore, they ask to be granted the transport- through the luggage van of the recently inaugurated passenger-train- of about 28 quintali weekly of leavem from Rome to Naples, to be shipped in two or three times per week.

We beg kindly to consider the request and to let us know your decision.

SUBJECT : Wine Bid.

TO : Food Sub-Commission. (for Lt. Col. Bourbuer)

1. Attached bid for 300 tons of wine from Lecce to Rome has been presented to AC. Transportation Officer at Bari for movement by rail.

2. The bid appears to have been passed by an officer of Lazio-Umbria Region but in view of the large supplies of wine now reaching Rome through the Port of Civitavecchia and since the wine is said to be for Allied Army consumption the matter is referred back to you.

3. The bid does not seem to be one that should be considered for rail movement and it is suggested that the Regional Officers be advised in this sense.

SUBJECT:- Bids for Wine Transport. 278/91

1. May we have your comments as to the genuine nature of the attached bid handed to this office by Dr. Edgardo RASCOVICH of Via Giosue' Borsi 21. Rome on behalf of Mr. Louis Sanfilippo c/o An. Dugo, viale Mazzini 140.Rome. for a movement of thirty five wagons (approx: 300 tons) of wine, vermouth and marsala from Copertino (Lecce) to Rome Trastevere for an "Army Air Force Rest Camp" in Rome.

2. An officer of the rank of Major appears to have approved of this quantity of wine being moved.

3. The matter would seem to merit investigation.

A S A
Servizio Ortofrutticolo

Rome, 3 Feb. 1945

SUBJECT : Allotment of Railcars to A S A

TO : Capt Lester

Concerning the failure to allot railcars in Campania for the week of 29 Jan. to 4 Feb., we have the following information:

One of our employes at Naples ascertained that the request for railcars did not reach the A C office there. This request had been presented the 3 Jan. to the Ufficio Gestione of the Stazione Centrale of Naples and covered the period of 22 - 28 Jan; however, the local A C was to consider it for the week of 29 Jan. - 4 Feb.

In the absence of Major Bowers, who is in Bari, the necessary steps were taken by Dr Novelli, an employe of the State Rlwys in his office.

The Direction of the Servizio Movimento e Traffico of Naples has also been informed and has been sent to-day, according to verbal agreement, a special complaint which will bring about an inquiry into the matter.

In order to avoid possible future difficulties, our employe was asked to present to Major Bowers' office as well the prescribed request which is made each week to the Ufficio Gestione of the Naples Central Station.

Dr Novelli has stated that in case the same trouble reoccurs and some request does not reach the office to which it is directed, he will see that the request is included on the list sent to Rome.

Furthermore, instead of considerably reducing our requests as they have done in the past they will accept them from now on practically as they are sent in, so that they will be cut down only at Rome.

Our employe then contacted the office handling rail movements in southern Italy. This is a military authority connected with a similar one at Caserta. This office does not make the allocations, but it may intercede when, A C having made them, there is difficulty in getting the cars.

1603

Declassified E.O. 12356 Section 3.3/NND No. 785021

The above office is the HQ Movements W. Italy, Captain in charge, Piazza della Borsa.

They stated that it is possible to obtain cars both in Calabria and in Sicily, but the requests must be made within the time-limit set by A C of Rome.

Major Worthington of A C Transp. of Rome is in direct contact with this office.

In view of the above, we beg you to use your influence with the local A C to obtain the allotment of railcars in Campania and the consideration of requests for Calabria, Sicily, and eventually for Puglia.

At the same time, may we observe that in order to have profitable relations with Captain Wombell's office in Naples, in view of his austerity and the delicacy of our dealings, A S A will need a special introduction by you in case our employes should present themselves to the captain in the interests of our service.

3. It is important that this over-bidding ceases before the reformed bidding system comes into force on 5 March.

4. It seems probable that the bidding system will never work well for perishable foodstuffs so long as Transportation Sub-Commission has to deal with many individual merchants and producers at a large number of stations and it is suggested that the whole matter of organising and controlling loading should be passed to a central body leaving Transportation Sub-Commission no responsibility other than that of placing the required number of wagons and moving them to their destination.

1. Reference your REG/1/6/22 of 15 Jan. AC. Tn. Memorandum No.3 para 5 (a) reads as follows :-

"Civilian Consignor will apply to local Station Master at despatching point".

2. The purpose of requiring the bid to be lodged at the despatching station is to ensure that the Consignor has a representative there who is ready to load and who will be in contact with the Station Master when the empty wagon is due to be placed for loading.

3. Although exceptional cases may occur where it is not possible to place the bid at the despatching station the general rule is good and must be followed.

Para 5, sub para a. reads "apply to local station master at despatching point"

Boddy suggests this should be "any station master within the Division"

My feeling is that consignor must have a loading agent at despatching station and, so that the Capo may have proper contact with local loading party, the bid should be placed at the loading station which does not prevent a second copy for information being lodged elsewhere.

2. Attention is directed to ACC TN Memorandum No;3 (reference ACC/TN/19/IS) dated 27 April 44 as amended with effect 18 Dec 44. Your AC TN/25/41/RM dated 10 Dec 44 refers.

3. Para 5 sub-pars (a) of the Memorandum reads as follows:-
" Civilian consignor will apply to any ISR stationmaster in writing which shall be their bid, ----------"

4. Is it not advisable to permit a shipper to tender his bid at any ISR station whether it happens to be the loading point or not. It would appear to be unreasonable to force a shipper whose office may be in Naples or Rome to travel to some distant and remote loading point in Calabria solely to tender a bid when the ISR have facilities for accepting requests at any station and for forwarding them to the appropriate Capo Stazione.

5. It is requested that any instructions issued by General Di Raimondo contrary to those contained in Memorandum n° 3 be retracted. On receipt of amended memo all Stationmasters in this division were instructed to accept all bids, irrespective of the loading point stated in the bid. Gen. Di Raimondo contremanded these instructions when he visited Reggio.

Ref. attached original of which went to you, the intention of para 5 sub para (a) (mentioned in para 3) was not that Naples for example should accept bids for Reggio. Maj. Blair has, I fear, quite misunderstood it.

The intention was simply that bids should be made for example at Reggio Station for movement from Gallico, thus saving the bidder from unnecessary short journeys.

Station Masters in the 3 divisions (Reggio Naples Bari) should be authorised to accept all civilian bids for loading at stations in their own (not other) divisions.

SUBJECT : Carriage of naphta by rail.

TO : Transportation Sub-Commission (Rail)

1. Copy of attached letter dated 11 Jan from the Ministry of Agriculture & Forests has been addressed to this Sub-Commission by Chief of Fisheries Division with the request that special facilities may be arranged for the carriage by rail of naphta for fishing vessels.

2. It appears that the issue of this fuel in small rationed quantities prevents full wagon loads being moved and an arrangement is required by which parcels of 250 kgs can be accepted for carriage.

3. The request seems reasonable and it is suggested that, if you see no objection, the ISR may be instructed to waive the weight restriction for this traffic by small.

MINISTRY OF AGRICULTURE & FORESTS
Fisheries Division
Div.II - Prot.N° 102

Rome, 11 January 1945

To: A.C. Agriculture Sub-Commission
Fisheries Division

Subject; transportation of nafta for fishing.

The Commissario Prefettizio of the Comune of Trebisacce (prov.of Cosenza) has indicated to this office the necessity of revoking the present regulations which limit the acception of par= tial cargo (trasporti a cõllettame)to a "daily forwarding to G.V.A. of f weight not superior to 50 kg. from one sender to one destination.

Since, as is known, a motor fishing vessel consumes daily an average quantity of 250 kg. this office called the matter to the attention of the Direzione Generale delle Ferrovie dello Stato which with the note dated 1st of this month, has stated to be awating the decisions of the Transport Sub-Commission, A.C.

Therefore the Fisheries Division is urgently requested to promote the interest of the afore-said Transport Sub-Commission for the revocation of the existing limitations of partial cargo for the fishing industry.

Signed
The Inspector General
Brunelli
