SUBJECT : AFHQ Priority of Movement Conference

AG : Economic Section
 Public Works & Utilities Sub-Commission
 Industry Sub-Commission
 Food Sub-Commission
 Agriculture Sub-Commission
 Secretariat Priority Board (for info)

1. Transportation Sub-Commission representative at AFHQ, weekly Priorities of Movement Conference finds great difficulty in supporting AG bids for rail movement against competing Army Services, owing to lack of detailed information of the over-all plans of the various AG Sub-Commissions.
2. It is not sufficient, for instance, to claim at the conference that a certain bid should have priority over movement of military traffic because it covers seed grain or fertilizer and that the planting season is in full operation. Such vague statements only qualify the bid as being one more of the many pressing and unsatisfied needs of the civilian population.
3. To enable the Conference to appreciate the exact measure of necessity of any demand it is essential that AFHQ should have been informed already of the general plan and have agreed, at least in principle, that its fulfillment is necessary and practicable.
4. The approximate level of priority having been adequately established before hand the AG representative at the conference is in a position to remind the chairman of the agreed programme and to emphasize the extent to which its progress is in arrears or to bring out any other point to prove that lack of transportation is jeopardising a planned operation.
5. All Sub-Commissions concerned are requested, therefore, to forward ~~4844~~ delay to this Sub-Commission full details of all long term plans entailing rail movement. The information required includes the points of origin and termination of movement, the tonnage involved, the time limits imposed and any other information which will assist in establishing the urgent need of carrying out a complete programme. This information should be up to date and Transportation Sub-Commission should be kept advised of progress and of any amendments to the original proposals.
6. In particular Agriculture, Food and Industry Sub-Commissions are requested to inform Transportation (Movements Division Rail) before 27 Jan. of their present programmes for movement of pyrites, fertilizers, seed wheat and potatoes, grain for food and any other bulk tonnages they may contemplate moving.

Reference G-4(Mov & Tn) signal TX 77773 dated 2 JAN 45.

1. The effect of these breaks in the line will mean that Services will require to submit two separate bids for movement northwards for the period 15 - 24 JAN 45. For the three days during which the line to ANCONA is out, Eighth Army demands should be met entirely from ANCONA depots except for small quantities of urgent stores which may not be available from ANCONA. For the remaining four days of the period, Services should bid the maximum possible from NAPLES and BARI areas direct to Army in order to compensate for the reduction in ANCONA stocks.

2. Similar arrangements will apply to AREZZO where Fifth Army will draw from depots whether or not they are replenished by rail. During the three days break, only urgent items and items in short supply in AREZZO depots should be bid for movement to AREZZO. Services will ensure that AREZZO stocks are built to maximum rail capacity as soon as line is repaired.
