SUBJECT:- Cuts in Rail Tonnages -
Periods 5 - 11 Nov and
12 - 18 Nov.

CHQ CMF

3700/Q(Maint)

8 Nov 45

319/121

During the past 24 hours some addressees have been asked to cut tonnages by rail over the R. PO (lines 65 and 69), for the period 5 - 11 Nov 45 due to the unserviceability of the OSTIGLIA Bridge.

It is still uncertain when the bridge will be reopened and it will accordingly be necessary to effect cuts in tonnage in similar manner for the period 12 - 18 Nov 45. A verbal request will be made to those concerned to-day.

If it appears on 11 Nov 45 that OSTIGLIA Bridge will not be reopened before period 19 - 25 Nov, a POM Conference will be held in Mov & Tn Conference Room, at 14.30 hours, 12 Nov 45.

3. It is regretted therefore that permission to load the lead at Casalnuovo Station cannot be granted, and it is suggested that Cancello be used in lieu.

COL. Adams:

Col. Ames called and gave the following message:

Capt. Dean of Tn. S/C reports that all shipments of grain and lignite into Rome (presumably from the North) have been stopped for period of Nov. 1st thru Nov. 5th. Col. Ames states that if this stoppage has been made for an obviously important reason, that is fine. However, lignite shipments are not too important for that period inasmuch we have a stockpile of this commodity, but the grain situation is grave and anything you can do to reconsider the grain shipments would be appreciated.
